FINAL 3/20/2013

DIVISIONS/AREAS	FUNCTIONS/GOALS	KEY OBJECTIVES
EMERGENCY FINANCIAL MANAGER	Directs and guides the City government in order to have a financially stable organization capable of assuring:	Assure Division Directors Achieve their goals
CITY ADMINISTRATOR		Finalize Contract for water services
MAYOR	* A safe, secure, healthy environment to live, work, play	Secure Continued Funding for the Lock-Up
COUNCIL		Secure Replacement Funding for the SAFER Grant
HUMAN RELATIONS	*A dependable and affordable water, sewer and waste collection	Pursue 911 Consolidation
CIVIL SERVICE/OMBUDSMAN		Implement New Organizational Structure/Hire Fire Chief and Asst. Police Chief
	*An adequate and well maintained transportation network	Establish link with FARO for grant assistance
		Support Economic Development
	* Support of community and economic development activities	Support Community Development
		Expand Communication efforts
		Assess Hospital Asset
		Pursue State Approval for Income Tax Increase
		Search for and Evaluate Shared Services
		Support State Level Changes to Municipal Financing
		Support consolidation of District Courts

CITY ATTORNEY			
		Provides legal advice on matters relating to the conduct of city business; prosecutes violations of city ordinances; responds to FOIA requests; advises in labor relations	Comprehensive review of all ordinances, including Zoning and Business Licensing
			Handle 95% of litigation in-house
			Improve skill sets of all staff
			Improve processes of handling paper and digital files
			Improve standardization of procedures for common legal matters
			Improve appearance of City Attorney's Office

CITY CLERK			
	RECORDS	Manages custody and retention of city records, including minutes of official bodies. Conducts elections in accordance with state law.	Become current on cataloging and filing records
	ELECTIONS		Conduct regularly scheduled and special elections

FLINT STRATEGIC PLAN

Setting a Sustainable Course for the City of Flint

PUBLIC SAFETY

DIVISIONS/AREAS	FUNCTIONS/GOALS	KEY OBJECTIVES
POLICE		
	Provides the best public safety response possible within total staffing of 150	Continue work with MSU Technical Assistance, including:
		Update Organizational Chart and administrative structure
		Hire Deputy Chief w Designated Responsibilities
		Establish Roster
		Fill Positions
		Eliminate Provisional Appointments
		Update Operational Policies
		Develop formal expectations for IT support
		Develop formal expectations for Fleet support
		Determine adequate size of Fleet
		Evaluate Lock Up operations
		Finalize 800 MHz installation
		Conduct technology training for all personnel
		Strengthen relationships with community groups
911		
	Provides the best possible emergency telephone answering and dispatch purpose possible within current staffing of 23	Reduce use of 911 for non-emergency calls
		Develop plan for Next Gen 911 technology
		Improve response to incoming 911 and 7 digit calls
		Improve data transfer for false alarm billing
		Complete 800 MHZ implementation
		Develop plan for new communications tower
		Prepare plan for management succession
		Meet mandated training standards
		Complete 911 consolidation study and prepare to implement
FIRE		
	Provides the best fire response possible within current staffing of 94, while preparing for reduced operations with loss of SAFER funds	Document turnaround time for fire inspections
		Develop contingency plan without SAFER funding
		Develop potential shared services w surrounding depts.
		Analyze patterns of sick leave usage
		Evaluate alternate organizational structures
		Determine impact of "Fire only" response capability
DISTRICT COURT		
	Provides the most efficient processing possible within the net current appropriation from the City	Improve court coverage when employees are absent
		Improve Court Collections
		Re-establish Probation department
		Improve Criminal Case Processing

FLINT STRATEGIC PLAN
2014 -2018
Setting a Sustainable Course for the City of Flint

INFRASTRUCTURE

DIVISIONS/AREAS	FUNCTIONS/GOALS	KEY OBJECTIVES
STREETS		
	Oversees the maintenance and repair of the City's street and sidewalk network within the constraints of state funding and in compliance with state law	Conduct preventative maintenance on 10% of streets
		Implement Sidewalk repair program targeting 1,000 repairs
		Initiate a 50/50 Sidewalk repair program
		Invest $100,000 in non-motorized facilities
		Initiate Pot Hole repair within 48 hours
		Initiate Right of Way Enforcement Program
TRAFFIC CONTROL		
	Oversees the maintenance and repair of traffic control signals and markings, including barricading and other temporary changes during repairs and events; provides safe access for the traveling public, both motorized and non-motorized	Initiate traffic signal preventive maintenance program
		Enforce state standards for traffic control devices
		Establish safe right of way environments for events
		Implement a long line pavement marking program
SANITATION		
	Assures the reliable and efficient collection and disposal of residential waste	Develop and execute compost plan
		Monitor contractor's waste collection activities
		Participate in development of recycling program
		Monitor finances of waste collection fee
UTILITIES		
	Assures the reliable and efficient provision of water and the disposal of sewage in compliance with local ordinances, state and federal laws	Comply with all MDEQ water quality standards
WATER SERVICE CENTER		Comply with all effluent quality standards
WATER TREATMENT PLANT		Respond quickly and efficiently to water main breaks
WATER POLLUTION CONTROL		Continue implementing meter replacement program
		Design and implement pilot sewer back-up prevention program
		Implement Capital equipment/process upgrades
		Implement Storm Water Ordinance and fee
		Reduce storm water and groundwater infiltration into sanitary sewer
		Shut down incinerator as next step to reducing unit cost of solids disposal
PARKS		
	Oversees the maintenance and use of park land; promotes the development of recreational programming	Implement "Mowing plan" developed by Ruth Mott Foundation
		Promote "Adopt a Park" program throughout the City
		Participate with Planning to develop a parks disposal plan
		Monitor mowing contractor performance

FLINT STRATEGIC PLAN
2014 -2018
Setting a Sustainable Course for the City of Flint

INFRASTRUCTURE (cont)

DIVISIONS/AREAS	FUNCTIONS/GOALS	KEY OBJECTIVES
FORESTRY		
	Oversees the care of trees within the jurisdiction of the City	Develop program giving property owners responsibility for trees in right of way
		Provide capacity for emergency removals
		Seek volunteer capacity for tree planting
STREETLIGHTS		
	Works with Consumers Energy and City Planning to plan and implement an appropriate and energy efficient system of streetlights	Initiate planning process with CE for upgrades
		Monitor CE progress in plan implementation
		Monitor finances of streetlight assessment
FLEET		
	Oversees the specification, purchase, repair, maintenance and replacement of all city vehicles and wheeled equipment. Provides professional and technical advice to departments regarding their vehicle and equipment needs.	Complete and maintain a current fleet and equipment inventory
		Develop a vehicle/equipment replacement schedule
		Complete 75% of work orders within 72 hours
		Maintain scheduled/actual preventative/maintenance ratio > 75%
		Sustain average vehicle availability rates above 70%
		Implement fuel program to minimize fuel storage & cost
FACILITIES		
	Oversees the operations of all city buildings and grounds other than park land. Responsible for repair and maintenance of building systems, cleaning, and security. Provides professional and technical advice on departments facility needs and on most efficient use of facilities.	Resolve emergencies immediately
		Develop and implement Property/Equipment Disposal Plan
		Assure proper ventilation, heating and cooling in occupied buildings
		Assure facilities are cleaned appropriately
		Assure buildings are safe and maintained for employees and visitors
		Define emergency saving opportunities

FLINT STRATEGIC PLAN
2014 -2018
Setting a Sustainable Course for the City of Flint

PLANNING AND DEVELOPMENT

DIVISIONS/AREAS	FUNCTIONS/GOALS	KEY OBJECTIVES
CODE ENFORCEMENT	Assures comprehensive and fair enforcement of compliance of the Michigan Construction Codes, City of Flint Ordinances, including rental registrations, and the International Property Maintenance Code	
RENTAL REGISTRATIONS		Register 100% of Rental Properties
BUILDING PERMITS		Review and update Building Fee Schedule
		Document timeliness of turnaround for Building Permits and inspections
		Develop and implement a plan for code enforcement

BUSINESS LICENSES		
	Assures that all businesses within the City are registered in accordance with city ordinances and that appropriate inspections are completed in a professional and timely manner	Revise and simplify business licensing requirements
		License 100% of businesses, per ordinance
		Document timeliness of inspections done, per ordinance

PLANNING AND ZONING		
	Provides professional and technical advice and assists policy makers and administrators in guiding development of the City in accordance with its Master Plan; develops collaborative partnerships to coordinate planning efforts throughout the City	Adopt Master Plan by October 2013
		Amend Zoning Ordinance by June 2014
		Redesign park plan to recognize city resource limitations
		Update Capital Improvement Plan
		Develop plan to assure that disposition of city property is consistent w MPlan
		Make available basic demographic information and GIS Services
		Complete NEPA Clearances
		Complete Blight Elimination Plan

COMMUNITY DEVELOPMENT		
	Provides professional and technical advice and assists residents, policy makers, and others in developing strong neighborhoods. Supports the Green and Healthy Homes initiative (GHHI), youth initiatives, urban housing initiatives, and quality of life initiatives by leveraging current federal funding sources.	Develop plan for strengthening neighborhoods
		Improve HUD grant allocation process
		Improve Contractor capacity to administer grants
		Reduce # of HUD grant findings
		Reduce Unsold Housing Inventory
		Close contracts more than 2 years old

ECONOMIC DEVELOPMENT		
	Provides professional and technical advice and assists businesses, policy makers and others in developing a positive climate to attract and retain business	Assess potential of making Oak Business Center profitable
		Assess effectiveness of EDC
		Formalize relationships with GRCC and others

FLINT STRATEGIC PLAN
2014 -2018
Setting a Sustainable Course for the City of Flint

BUSINESS SUPPORT

DIVISIONS/AREAS	FUNCTIONS/GOALS	KEY OBJECTIVES
FINANCE		
ACCOUNTING AUDITING BUDGETING RISK MANAGEMENT PURCHASING GRANT ADMIN	Provides for a financially secure organization with sound business practices providing for the purchase of goods and services and financial reporting. Provides professional and technical advice to departments regarding financial and purchasing needs and on grant administration processes.	Meet State reporting requirements Eliminate Deficit per plan Fully implement BS&A Continue reorganization of department per P&M study Incorporate purchasing and risk management into Finance Formalize a 5 year budget and planning process Complete and submit FY13 audit by November 30 Design and implement formal budget monitoring process Implement new grant reporting process Fully implement P Card process; evaluate expansion Conduct ongoing training for all city accounting staff Develop and implement a city wide fixed asset policy Conduct ongoing training for all city purchasing staff Document turnaround time for purchasing goods and services Implement a vendor registration program Improve vendor payment turn around Develop formal internal audit process/procedures Issue RFP for FY14 audit Improve Cash position Review property and liability coverage's for adequacy Review health insurance coverages for cost savings
TREASURY		
CUSTOMER SERVICE DELINQUENT COLLECTIONS	Provides for a customer friendly accountable entity managing receipts and collections. Monitors collections of property taxes, income taxes, water and sewer, and other receivables to assess budgetary compliance.	Increase income tax revenue thru compliance programs Collect a larger percentage of the City's delinquent receivables Assist customers' needs timely Expand on electronic payment programs Implement e-file for income tax returns Set up training programs for Treasury staff
ASSESSING		
	Assures the assessment of properties within the City in a professional and equitable manner in conformance with state law and professional practices; addresses appeals of values to Board of Review; represents City at state level appeals	Migrate to BS&A.net; train staff Conduct triad revaluations Conduct personal property canvas of accounts less than $40k Conduct personal property audits of accounts greater than $40k Convert/transfer structure drawings from paper to APEX Establish and maintain parcel layer for City GIS
HUMAN RESOURCES		
	Oversees the recruitment and hiring of qualified employees in compliance with laws and ordinances, provides professional and technical advice in the development of personnel polices and contracts, and assists departments and employees in providing training and resolving disputes	Implement on-line application/screening (Applitrack) Update testing protocols for recruitment/selection Update/improve layoff process Identify contract terms for modification/elimination Codify and finalize labor contracts and personnel policies Revise process of benefit administration Foster and maintain good labor relations Resolve management concerns & employee grievances Design and implement ongoing training city wide Update personnel rules and procedures Update program and compliance for employee safety

Five Year Financial Projections

Proposed 5/20/13

Five Year
Financial Projections and Challenges
City of Flint, FY14-FY18

Year 1 of the five year financial projection starts with a balanced FY14 budget, made possible in large part by continuation of several major grants supporting police, fire, and the update of the City's Master Plan, as well as the cost reduction strategies related to employee compensation which were implemented in Fy13. These, plus continued effort to restructure work processes and to reduce the size of the workforce make it possible to provide services in FY14 at generally the same level as FY13. It also reflects the initial steps necessary to begin to eliminate the accumulated $19.1 million deficit. However, it affords little ability to improve services, reduce taxes or fees, or to address the monumental amount of unmet capital improvement needs.

Years 2--5 show the continuing challenge of the City's structural deficit, with property tax revenues continuing to fall through FY15, and then stabilizing but with no growth until FY18. At the same time however, legacy and compensation costs are projected to increase by 5% per year, and major grant sources will disappear. The City will be faced with a significant challenge of attempting to choose between reductions in public safety and other reductions; however, finding other reductions may not be possible, given the minimal level of resources available. Again, without additional new significant levels of revenue, there is little ability to improve services or address continually increasing capital improvement needs.

Core General Fund revenues and millage proceeds are projected to remain substantially unchanged at $58 million from FY14 to FY18. Taking into account current grant levels supporting general city services, however, revenues are projected to drop from $66.1 million in FY14 to $58 million in FY18. If the services and service delivery mechanisms supported by the FY14 revenues were left untouched through FY18, it is projected that the gap between revenues and expenses would be more than $19 million by FY18. That gap amount would be even greater if some reductions (such as fire operations with the end of the SAFER grant) were not already incorporated into projections. This gap coincidentally is virtually the same amount as the $19.1 accumulated General Fund deficit as of June 30, 2012.

Balancing city expenditures with projected revenues will be an ongoing challenge for the next several years. While FY14 is balanced, there is a projected $9.1 million gap between revenues and expenditures for the FY15 budget, which begins July 1, 2014. This large gap is due primarily to the anticipated loss of some major grant sources, including SAFER (which provides funding for 39 fire fighters); Master Planning (which provides resources for the revision of the City's Master Plan) state support for operation of the City's Lock-Up; and the Mott Foundation grant which has supported the cost of several police officers. While solutions to closing this gap have not yet been formulated, work to do so will begin once the FY14 budget is finalized.

Revenue and expense projections for FY16, FY17, and FY18 all show gaps which must be closed. Current projections for each of these years range between $2.4 and $3.6 million, and again will pose a significant challenge. The continuation of these gaps reinforces the fact that the City of Flint, like most municipalities in the state, faces a structural gap. With ongoing expense increases in the conduct of business, including legacy costs, on one side, and flat revenues with little opportunity for growth on the other, there will be a continuing challenge to manage the City's business in a financially solvent manner while still providing even the most basic of city services. It is becoming even more imperative that serious consideration be given to providing a more realistic funding mechanism for municipalities. In the City of Flint, state legislative approval to allow consideration of an increase in the income tax (as has been done for other municipalities) is an option that could address the city's plight in a substantial way.

These financial challenges show that it will be difficult for the City to maintain its police and fire departments at current levels. Were it not for the voter approved 6 mill increase in property taxes, as well as continuation of the Neighborhood Police millage, consideration of current levels would be impossible to consider. As it is, it is projected that with the end of the SAFER grant in FY15, staffing for the Fire Department will be reduced from 94 to 75, allowing for the operation of 3 stations. And while staffing for the Police Department may stay close to its current 150 level for a few years, it will likely reduce to 140 in FY18. And that scenario is only possible with continued COPS grant funding.

It will also be challenging to allocate City funds for Planning and Zoning as the grant funding for these activities ends in FY15. Without dedicated staff to pursue implementation of the soon to be adopted Master Plan and updated Zoning Ordinance, development goals of the City cannot be effectively pursued.

With current federal funding for community development and code enforcement significantly reducing over the next few years, city efforts to make even marginal progress in addressing blight and becoming more aggressive in enforcing building and safety codes is in jeopardy. If progress is to continue, it will be necessary that other sources of funding be found.

Finally, it will become increasingly difficult to address priority areas such as those mentioned above by further reducing or eliminating other areas of City services. Restructuring the city's workforce and compensation structures have been done and are ongoing, and city support of areas such as parks and recreation and human services have been reduced. These have resulted in efficiencies and a balanced budget for FY13 and FY14, and there are more decisions to be made. However, there may become a time when no further reductions of the magnitude necessary to balance budgets can be achieved.

Proposed FY14 Budget

Proposed 5/17/13

Setting a Sustainable Course for the City of Flint

FY14 Budget

The FY14 Budget was prepared in the context of furthering the financial stability of the City of Flint and moving forward on meeting the prime objectives of the recently developed strategic plan. Once this plan is in place, attention will be given to finalizing the five year plan, including a detailed assessment of the likely budget for FY15, and more defined projections for the following three years.

If one could simplify the prime objectives of the Strategic Plan, it would be to state that budgetary actions must be consistent with operating in a financially sustainable manner; pursuing changes which increase efficiency while reducing costs; maintaining current levels of public safety; and organizing in a way that the City can best address the blighted conditions thorough the City. All of this to be done with the aim of making the City of Flint an attractive and affordable place to attract and retain residents, businesses, students, and visitors.

In light of decreasing property values, stagnant income tax and state shared revenue projections, plus a commitment to eliminating the accumulated General fund deficit, revenues are severely limited. For example, while funds available for general city services (those funded by the General Fund, major grants, and special voted millages) total $73.5 million this year; only $66.4 million is projected to be available for the FY14 budget. Property tax revenues are projected to decline by $3.5 million or 22%, while major grant revenues are projected to decline by $2.5 million, or 25%. $1 million is also committed to reducing the City's accumulated $19.3 million deficit. In addition, there is an increasing amount of tax delinquencies, as well as fees and special assessments for water, sewer, garbage and street lights.

Fortunately, the impact of many of the structural changes made last year has been to constrain growth in ongoing expenses, in particular those related to employee compensation. Even with a significant increase in the annual pension payments, made necessary to halt further decline in the funded status of the pension assets, pension and health care costs are slightly reduced from the current year. Salary costs are also slightly less as a result of changes in employee compensation structure.

However, the City is currently faced with a legal challenge to its decision to change retiree healthcare, and should the City not prevail, it will likely be faced with increased costs of between $3.5 million and $5 million. These potential costs are not included in this budget, and having to subsequently include them will be potentially disastrous for the financial solvency of the City.

All in all, with significant effort from department heads and others involved in building this budget, the level of services to be provided by the City in FY14 should be close to the level currently provided. This is due in large part to concerted effort to improve business processes and organization arrangements. These improvements and changes do, however, include the elimination of several positions within the workforce. FTE staffing in the FY14 budget is projected at 567, in comparison to 595 in the current budget.

With deployment of the police and fire protection millage funds, and the potential of additional federal funding for law enforcement, the current level of staffing in the Police Department (150 in total) is expected to be maintained – even as other grant funds end. This level includes the additional 10 positions authorized in December, 2012 when the millage was passed. In this budget, the General Fund appropriation for the Police and Fire budgets total $33.5 million, or 63% of the General Fund.

Adding the costs of 911 and District Court to this bring the total General Fund appropriation for public safety to $42.4 million, or 80% of the General Fund.

However, there are not the resources to address even some of the most critical unmet needs in the delivery of city services. For example, there are no additional resources to expand staffing in the Police Department if the goal is to attempt to stabilize staffing there and to be prepared to address the personnel loss expected in the Fire Department when the federal SAFER grant expires at the end of FY14.

In addition, in light of the loss of federal dollars for demolition, the resources for addressing blight in any significant way are significantly less for FY14. Building Safety resources have been limited for many years, resulting in very limited ability to enforce compliance with city codes. This budget does include the creation of a separate Planning and Development Division of the City, whose efforts will include improving code compliance activities, including increasing compliance with rental registration requirements and business licensing requirements. The work of this division will be aided by the addition of Neighborhood Safety Officers, funded by the Mott Foundation and housed in the Police Department.

The Planning and Development Division also includes the current grant funded activities related to adoption and implementation of the City's Master Plan. While grant funds should be sufficient to finish the adoption of the Master Plan and the associated update to the Zoning Ordinance by the end of FY14, continuation into FY15 will require the identification of new sources of revenues.

Finally, there are nearly $300 million in unmet capital needs for utilities, streets, facilities, parks, and technology. This budget does not contain the level of resources to be able to address these needs in any substantive way, with barely enough resources budgeted to meet the most critical emergency needs.

The limited resources will result in some changes noticeable to city residents and visitors. For example, there will be no repaving of city streets, with funding focused on crack sealing streets to prolong their longevity. While as much as one-third of city streets need repaving, doing so would cost more than $20 million. Alternatively, nearly one-third of the city's streets can be crack sealed for approximately $200,000 in materials. In addition however, the City is required by the state to participate financially in improvement to state determined street projects.

There will be minimal maintenance of parks, with the City's primary activity being related to mowing. There will, however, be increased efforts to form partnerships with interested groups, neighborhood associations and businesses to improve individual parks.

From a taxpayer perspective, payments for governmental services will generally decrease in total, by an average of 7% for FY14. Taxes based on the value of the property will decrease due to the continuing decline in value, while the annual assessment for streetlights and the fee for waste collection will increase in total by $4. There will be no increase in water and sewer rates.

FIRST ADDENDUM TO
RAW WATER SUPPLY CONTRACT BETWEEN THE KAREGNONDI WATER AUTHORITY AND THE CITY OF FLINT DATED JUNE 28, 2013, AND EFFECTIVE ON OCTOBER 1, 2013

THIS FIRST ADDENDUM ("Addendum") to the **RAW WATER SUPPLY CONTRACT BETWEEN THE KAREGNONDI WATER AUTHORITY AND THE CITY OF FLINT DATED JUNE 28, 2013, AND EFFECTIVE ON OCTOBER 1, 2013** (hereafter the "Contract") is entered into effective _____, by and between the Karegnondi Water Authority, a Michigan Public Authority created pursuant to Act 233 of the Michigan Public Acts of 1955, as amended (hereinafter "KWA"), whose address is G-4610 Beecher Road, Flint, Michigan 48532 and the City of Flint, a municipal corporation, of the State of Michigan (hereinafter "Flint"), whose address is 1101 South Saginaw Street, Flint, Michigan 48502. KWA and Flint are sometimes hereafter each referred to as a "Party" and collectively as the "Parties."

WITNESSETH:

WHEREAS, the Parties entered into a Raw Water Supply Contract, dated the 28th day of June, 2013, and effective on October 1, 2013;

WHEREAS, the Parties have agreed to enter into this Addendum for the purpose of modifying the Recitals; ARTICLE I, Section 1.02(6); ARTICLE I, Section 1.02(18); ARTICLE II, Section 2.04; ARTICLE II, Section 2.05; ARTICLE II, Section 2.07; ARTICLE VI, Section 6.06; and EXHIBIT A, Section 2(b) of the Contract.

NOW THEREFORE, it is hereby agreed by the Parties as follows:

1. **Amendment to the RECITALS of the Contract.** Add the following recital to the RECITALS of the Contract:

> **WHEREAS**, the Parties hereto acknowledge and agree that the intake system and the property where the two (2) pump systems may be acquired, constructed, is owned by the Genesee County Drain Commissioner, as County Agency, pursuant to Act 342 of the Michigan Public Acts of 1939, as amended.

2. **Amendment to the RECITALS of the Contract.** Add the following recital to the RECITALS of the Contract:

> **WHEREAS**, the Parties hereto acknowledge and agree that the intake system and the property where the two (2) pump systems may be acquired and constructed was acquired and purchased by the Genesee County Drain Commissioner, as County Agency, pursuant to Act 342 of the Michigan Public Acts of 1939, as amended, and the County Agency shall be provided with a credit for the purchase and construction of the property and intake as annually in an amount equal to the

aggregated debt service of the County of Genesee's Water Supply System Revenue Bonds (Limited Tax General Obligation) Series 2013 (the "County Bonds") as more fully set forth in Exhibit A to this addendum. The County Bonds were issued in the original principal amount of Thirty-Five Million Dollars ($35,000,000.00).

3. Amendment to ARTICLE I, Section 1.02(6) of the Contract. ARTICLE I, Section 1.02(6) of the Contract is hereby deleted in its entirety and replaced with the following:

(6) **"Capacity Fee"** means the monthly fee paid by the Buyer to the Authority pursuant to Article III of this Contract for the limited rights to capacity. The Capacity Fee shall be billed to the Buyer monthly on the Capital Expenditure Invoice. All interest earned on the Capacity Fee shall be transferred to the reserve fund to be applied to debt service as determined by the Authority and shall not be returned to the general operations fund. The aggregate Capacity Fee payable by all Buyers shall be sufficient to enable the Authority to pay the principal of, redemption premium, if any, and interest on the Bonds, as such principal, redemption premium, if any and interest become due, less interest to be paid out of Bond proceeds or from other sources if permitted by any Bond Resolution, and all amounts required to redeem any Bonds prior to maturity when and as provided in any Bond Resolution, plus the fees, expenses and charges of each paying agent/registrar for paying the principal of and interest on the Bonds, for authenticating, registering and transferring Bonds on the registration books of the Authority maintained with the paying agent/registrar, and all annual disclosure fees. Additionally, the Capacity Fee shall include the proportionate amount of any reserve funds required to be accumulated and maintained by the provisions of any Bond Resolution or as determined by the Authority and the proportionate amount of any contingency funds, if so required by the Authority. If the Bond Resolution so requires, the Capacity Fee shall allow for an amount sufficient to restore any deficiency in any of such funds required to be accumulated and maintained by the Authority. The Capacity Fee shall terminate upon redemption of the bonds issued for the implementation and construction of the System.

4. Amendment to ARTICLE I, Section 1.02(18) of the Contract. ARTICLE I, Section 1.02(18) of the Contract is hereby deleted in its entirety and replaced with the following:

(18) **"System"** means the long-range Water supply system authorized by this Contract, together with all improvements, enlargements, extensions and additions which, pursuant to this Contract, are deemed necessary and feasible by the Authority to provide Water supply as contracted herein to the Buyer from the point of withdrawal to the Point of Delivery; and, all future new facilities, which are acquired or constructed with proceeds from the sale of any bonds or revenues from the System; and, any water supply facilities which are deliberately and specifically, at the option of the Authority, made a part of the System by resolution of the Authority Board, and all repairs to or replacements of the System. The System is owned exclusively by the Authority and shall remain with the Authority. In the event that the Authority is dissolved the System shall be disposed of in a manner consistent with Article V of the Articles of Incorporation. Notwithstanding anything in this Contract to the contrary, the intake system and the property where the two (2) pump systems may be acquired, constructed, and owned by the Genesee County Drain Commissioner, as County Agency, pursuant to Act 342 of the Michigan Public Acts of 1939, as amended, through the issuance of the County Bonds.

5. **Amendment to ARTICLE II, Section 2.04 of the Contract.** ARTICLE II, Section 2.04 of the Contract is hereby deleted in its entirety and replaced with the following:

Section 2.04. **Construction of the System.** The Authority agrees to use its best efforts to issue System Development Bonds, payable from and/or secured by the Capacity Fee payments made under this Contract and any other lawful sources. Allocated portions of the System Development Bond issues may be used to fund any other approved use as determined by the Authority's Bond Counsel.

6. **Amendment to ARTICLE II, Section 2.05 of the Contract.** ARTICLE II, Section 2.05 of the Contract is hereby deleted in its entirety and replaced with the following:

Section 2.05 **Enhancement and Expansion of the System.** It is anticipated that the enhancement and expansion of the System will be in incremental, finite projects and that each such project will be financed by the Authority through the issuance of one or more series or issues of System Improvement Bonds. Also, on its own initiative or at the request of the Buyer, the Authority may refund any Bonds that were issued to extend, enlarge, repair, renovate, equip, operate, maintain and otherwise improve the System and any System facilities. The Authority agrees that such improvements for the System will be made in accordance with generally accepted engineering practices. It is anticipated that such improvements will be financed by the Authority through the

issuance of one or more series or issues of System Improvement Bonds payable from and secured by the payments made under this Contract and/or any other lawful sources.

7. **Amendment to ARTICLE II, Section 2.07 of the Contract.** ARTICLE II, Section 2.07 of the Contract is hereby deleted in its entirety and replaced with the following:

Section 2.07. **Financing of the Infrastructure.** The Authority and Buyer expect to use bond financing and any other lawful sources for construction of the System and any other approved use for the financing and constructing the Authority's facilities. The Authority through its Financial Advisor may establish appropriate custodial and/or trust accounts to hold the debt service and the proceeds from bond sales and shall establish an investment policy defining the Authority's rights to and the Authority's requirements and restrictions related to the investment of the proceeds from bond sales. Further, the custody and/or trust agreement, if any, and also the related investment policy shall comply with appropriate State of Michigan statutes and audit requirements and will be reviewed and approved by the Authority's legal counsel. The Authority may pledge revenues from this Contract to secure financing of the System, in addition to the Capacity Fees, the Members of the Authority may pledge the full faith and credit of their respective municipality toward any bonds issued by the Authority at the request of the Authority. The title of the System shall be solely in the name of the Authority. The Buyer expressly agrees that it shall not have any claim to any portion of the physical infrastructure of the System. The Buyer pursuant to this Contract shall only have rights to capacity and the amount of Water purchased. Notwithstanding anything to the contrary in this Contract, to the extent the County of Genesee, or its County Agency, finances the acquisition, construction of the intake facility or the property where the two (2) pump stations are located in the amount of Thirty-Five Million ($35,000,000.00) through the issuance of the County Bonds and makes the same available to the Authority for the duration of this Contract, the Genesee County Drain Commissioner, as County Agency, pursuant to Act 342 of the Michigan Public Acts of 1939, as amended, shall be credited yearly in an amount equal to its bond payment with interest and fees thereby receiving a full credit for the amount paid for the intake and the property where the two (2) pumping stations are located. Once the County Bonds have been redeemed in their entirety and the County Agency has received a credit in an aggregate amount equal to the aggregate debt service of the County Bonds, as fully set forth in Exhibit A to this addendum, the County

Agency shall transfer the property, intake, and all structures, fixtures, and assets located on the property to the Karegnondi Water Authority. Further, the parties hereto expressly agree that the County Agency will receive an annual payment credit equal to the aggregate debt service on the County Bonds.

8. Amendment to ARTICLE III, Section 3.04 of the Contract. ARTICLE III, Section 3.04 of the Contract is hereby deleted in its entirety and replaced with the following:

Section 3.04 The Buyer expressly agrees that the Authority is responsible for furnishing Water to the Buyer and it may take several years after the execution of this Contract before Water is made available to the Buyer. Understanding that the goal of the Authority is to provide Water that benefits both the Authority, the Buyer, and the future needs of the Buyer, the Buyer shall pay to the Authority a good faith one-time fee of not less than thirty-two thousand three hundred dollars ($32,300.00) per Unit of Water purchased after October 1, 2013, but prior to October 31, 2013.

Additionally, to show its continued good faith, the Buyer shall pay to the Authority not less than thirty-two thousand three hundred dollars ($32,300.00) per Unit purchased per year until such time as Water is made available to the Buyer. Said payments shall be made in monthly installments. The good faith payments are being used to secure a Water supply for the Buyer. As such, Buyer agrees that it is not entitled to any interest on the good faith payments made to the Authority. The good faith payments shall be credited to the Buyer, after Water is made available to the Buyer, over a time period determined by the Authority Board, not to exceed the term of this Contract. Said credits shall be applied to the monthly invoice sent to the Buyer by the Authority.

After Water is made available to the Buyer, the Buyer shall pay the cost per Unit per year for Water or the cost per Unit per year for Volume for Exempt Purposes in the form of a certified bank check or wire transfer. Said payments shall be made in monthly installments. The actual payment amount will be ultimately determined by the total number of Units sold and the amount of Units available for purchase. See Exhibit D. If the Authority determines after the System is designed and the estimated costs are confirmed that the anticipated cost of construction of the System will exceed the funds and assets from the proceeds of the County Bonds and bonds issued by the Authority and secured by a Contract between the City of Flint, the County of Genesee and the

Authority dated as August 1, 2013, the Buyer shall have the right to cancel this Contract pursuant to Section 7.04 of this Contract.

9. Amendment to ARTICLE VI, Section 6.06 of the Contract. ARTICLE VI, Section 6.06 of the Contract is hereby deleted in its entirety and replaced with the following:

Section 6.06. **Buyer Payment Obligations.** The Buyer shall raise money to pay the Capacity Fee, the Annual Requirement, Water Transmission Fee, the Debt Fund fee, fee for Volume for Exempt Purposes, and any other fee, if any, required under this Contract to the extent authorized by law through the levy of taxes, water system revenues collected from its customers, or from any other lawful source.

10. Amendment to ARTICLE VII, Section 7.04(b) of the Contract. ARTICLE VII, Section 7.04(b) of the Contract is hereby deleted in its entirety and replaced with the following:

(b) If the Authority Board determines that the cost of constructing the System will exceed the maximum amount provided in Section 3.04, provided, however, this right to cancel must be exercised before the Authority issues any System Development Bonds.

11. Amendment to EXHIBIT A, Section 2(b) of the Contract. EXHIBIT A, Section 2(b) of the Contract is hereby deleted in its entirety and replaced with the following:

(b) Depending on an analysis of costs and other considerations, there may be one or two Points of Withdrawal utilized by the Authority for the extraction of Water from Lake Huron. A general site map of all possible Points of Withdrawal is set forth in attachment 2 to this Exhibit A. An engineer hired by the Authority pursuant to the Contract shall prepare an analysis of costs and preliminary design plans for the construction of all necessary components. The actual design of the Point of Withdrawal and location of the Point or Points of Withdrawal shall be subject to change as required by environmental Studies and Permits obtained pursuant to provisions of Exhibit E. Further the Point of Withdrawal may be acquired, constructed and designed by the Genesee County Drain Commissioner, as County Agency, pursuant to Act 342 of the Michigan Public Acts of 1939, as amended. The County Agency will agree to make the intake facility available to the Authority.

12. Notices. Any notice, demand, or communication required, permitted or desired to be given under this Addendum shall be deemed effectively given pursuant to ARTICLE VII, Section 7.24 the Contract.

13. **Headings.** The headings of the sections set forth in this Addendum are inserted for the convenience of reference only and shall be disregarded when construing or interpreting any of the provisions of this Addendum.

14. **Complete Agreement.** This Addendum, the Contract and any additional or supplementary documents incorporated by specific reference contain all of the terms and conditions agreed upon by the Parties and no other agreements, oral or otherwise, regarding the subject matter of this Addendum or any part thereof shall have any validity or bind either of the Parties.

15. **Severability.** If any provision of this Addendum is held to be unenforceable for any reason, the unenforceability thereof shall not affect the remainder of this Addendum which shall remain in full force and effect and enforceable in accordance with its terms.

16. **Waiver.** No waiver of any of the obligations contained herein shall be effective for any purpose unless the same shall be in writing signed by the Chairperson of the Incorporating Board of the Karegnondi Water Authority and by Mayor or Emergency Manager, or both upon the Flint City Council or Emergency Manager's approval, whichever is applicable.

17. **Construction.** This Addendum has been prepared and negotiations have occurred in connection with said preparation pursuant to the joint efforts of the Parties. This Addendum therefore shall not be construed against either Party.

18. **Amendment.** This Addendum may not be amended or modified except for by written agreement signed by both Parties.

19. **Certification of Authority to Sign Addendum.** The persons signing on behalf of each of the Parties certify by their signatures that they are authorized to sign the Addendum on behalf of such Party and that this Addendum has been authorized by such Party.

20. **Remainder of Contract.** Except as modified by this Addendum, the terms of the Contract shall remain in full force and effect.

IN WITNESS WHEREOF, the Parties hereto have caused this Addendum to be executed and delivered by their respective duly authorized representatives as of the day and year first above written.

Subject: RE: Treasure Governor Memo - Flint

Importance: High

Ed/Randy,

Regarding Flint's 2014 Budget, major changes from 2013, ongoing issues, and financial projections, I reviewed the City's *Five Year Financial Projections*, the *Five Year Financial Plan*, and the *2014 Budget Summary* and note the following:

- Total Revenues for 2014 are projected to be **$66.4-million**; down from $73.5-million in 2013.
    - Property Tax Revenue is projected to decline by **22% ($3.5-million)**. Property taxes are projected to decline until FY 2015 and not experience growth until FY 2018.
    - Grant Revenue is projected to decline by **25% ($1-million)**.
    - A growing delinquency in tax collections is noted.
- Total Expenditures are projected to decline by **12% ($6.9-million)**.
    - It is noted that there are **$300-million** in unmet capital needs within the City. Streets and parks will see less maintenance resources in the FY 2014 Budget.
    - **$1-million** is committed to deficit reduction (1/19th of the total accumulated deficit).
    - Concerns are noted that if the City loses the legal challenge over retiree healthcare changes that this could add **$3 - $5-million** in expenses to the budget.
    - Staffing will be reduced to 568 positions from 595 **(a 5% reduction)**.

- Police Department staffing is expected to remain at 150 officers. However, projections indicate that staffing could be reduced to 140 officers by FY 2018; further if the City fails to receive continued COPS Grant funding.
- *Concerns are noted about maintaining Fire Department staffing after the SAFER Grant expires in FY 2014. Loss of the SAFER Grant is projected to* reduce department staffing from 94 to 75 (**20%**).
- Fewer resources will be allocated for demolition and blight removal due to the loss of federal grants.
- A Planning and Development Division will be created in this budget. This department will be funded through grants until FY 2015, when new funding sources will need to be allocated.

- Water and Sewer bills are expected to increase by **2%**.
  - No funds have been allocated for the KWA project.

If any additional analysis is needed, please let me know.

Randy,

I am preparing the update to the memo which has to be completed and sent to Roger on Friday and realized that the information we put in the bi-monthly report is of a different nature than info for this document. With that said I need staff to provide the following information for each community listed. Let me know if you have any questions.

Benton Harbor – Does the budget still anticipate a $400k deficit this year and a $600k surplus next year? Do we have a firm date on when the loan application will be made? Is the healthcare info Tony just sent firm numbers that we can depend upon? Can the water/sewer system survive absent any new customers to replace those that exited? If so why? Any other relevant information?

Flint – Have Matt or Eric take a look at the proposed budget and identify major changes, issues and their financial projections.

Inkster – Will the FY 13 budget still breakeven? What is the projection for FY14? Any other concerns?

River Rouge – Do we know what the FY13 budget will be? What are they projecting for FY14? Is there any additional information about ORTA's analysis of the PPT impact upon the city?

Highland Park – Any update on the FY 13 budget? How about FY 14? Are there any other issues that need to be mentioned? What is the topic(s) for the upcoming meeting between the City & DEQ?

Subject: FW: DWSD response on sunk costs and non-contracted rates

Ed –

Please see the note below.

Staff have identified that delays regarding future cost estimates are impacting the city of Flint's ability to move forward with decisions regarding water treatment plant planning. Based on the attached letter from DWSD, it appears that a cost estimate may not be available for Flint until at least the end of the calendar year.

Does your office have the ability to intervene or persuade parties to cooperate? Is it possible to for your Office to prompt a quicker response?

Appreciate any assistance your Office can provide.

Regards,
Liane

Table of Contents

1. Overview of Detroit Water and Sewerage Department ("DWSD")
2. Summary of Existing Bonds
3. Restructuring Assumptions and Preliminary Results

Appendices

A. Insurance Exposure and Commutation Analysis
B. Estimated DWSD Interest Rate Scales
C. "Vanilla" Refunding Using "Low A" Scale
D. Summary of Existing SRF Bonds
E. DSWD Surplus Fund

Executive Summary

- DWSD has approximately $5.3 billion of non-SRF and $0.5 billion of SRF debt outstanding[1]
- DWSD currently projects that it will generate an average of up to $159 million in annual net income from FY 2013 through FY 2016 after the payment of debt service but before any application to CIP
- The existing bond ordinances effectively trap this net income within the respective Surplus Funds
- Subject to review by bond/tax counsel, this restriction can be overcome using several methods:
  - A defeasance and/or repurchase of all existing debt using either (i) a traditional tax-exempt/taxable refinancing transaction or (ii) an all tax-exempt refinancing in the context of a "true sale" transaction
  - A defeasance and/or repurchase of enough existing debt to obtain consent rights on at least 51% of outstanding debt per ordinance
    - Identification of the "cheapest to refund" 51%; "breaking the least amount of china"
    - Potential new money financings can also assist
  - Scales: 'AAA' and "Low A"
- Refinancing provides the opportunity to restructure debt service to increase net income over the near and medium terms
- Requires the creation of a framework for the equitable division of net income between the City and major wholesale community customers
- Potential identification of benefits to bond insurers for use in G.O. / Pension COP negotiations

1 *For purposes of this preliminary analysis, we have focused on the non-SRF debt*

1. Overview of Detroit Water and Sewerage Department ("DWSD")

DWSD vs. National Peers

DWSD operates one of the largest water systems in the nation, but service appears to be expensive relative to its peers

Detroit Water and Sewer Ranks in the Top Ten Among Comparable Water Systems for both Service Area and Population[1]

Service Area

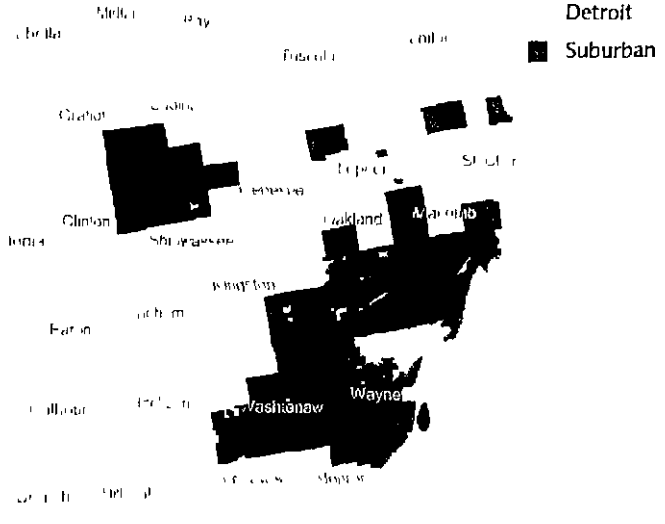
DWSD Service Area Key Characteristics

DWSD serves up to 40% of Michigan's population across eight counties

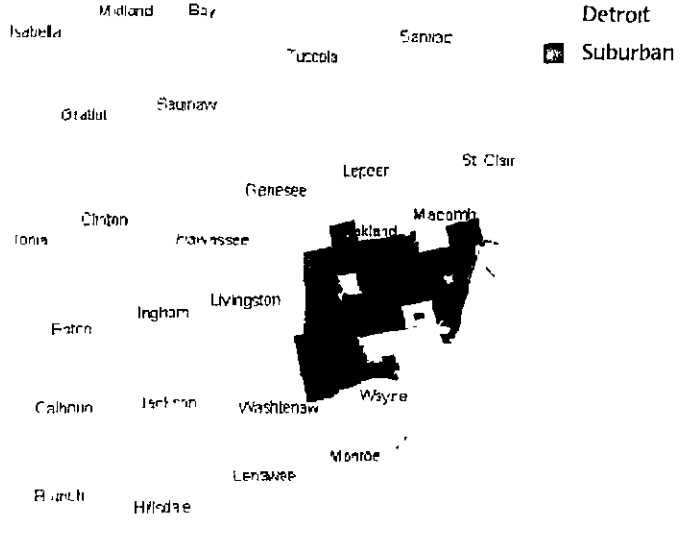
Water Supply System

- **Service Area:** 1,079 square miles including Detroit and 126 neighboring communities located in Wayne, Oakland, Macomb, Lapeer, Genesee, Washtenaw, St. Clair and Monroe counties
- **Service Population:** 3.8 million, or almost 40% of the population of the State of Michigan
- **Ratepayer Base:** Suburban customers account for 80% of total customers and 77% of total revenue



Sewage Disposal System

- **Service Area:** 946 square miles including Detroit and 76 neighboring communities located in Wayne, Oakland and Macomb counties
- **Service Population:** 2.8 million, or almost 30% of the population of the State of Michigan
- **Ratepayer Base:** Suburban customers account for 75% of total customers and 55% of total revenue



10 Largest Water Customers

In FY 2011, 10 wholesale water customers accounted for approximately 32% and 28% of water billed volume and revenue

Summary of Wholesale Water Supply Contracts						
	County	Contract Origination Date[1]	Total Billed Volume FY 2011 (Mcf)[2]	% of Total Billed Volume FY 2011	Total Billed Revenue FY 2011 ($)	% of Total Billed Revenue FY 2011

Totals			**6,572,316**	**32.4%**	**$90,205,517**	**28.4%**

1 *Subject to further diligence, contracts are typically 35 years in length*
2 *Thousands of cubic feet.*
3 *The Karegnondi Water Authority, comprising Genesee County and the City of Flint, has started an initiative to leave the Detroit Water System In 2012, Flint made total payments of approximately $25 million to DWSD*

Condition of DWSD System

The 2011 Engineering Reports confirm that the Water System and Sewage System are in adequate to good condition[1]

Water Supply

- Additional major improvements beyond the five-year Capital Improvement Plan ("CIP") will be necessary to maintain the reliable operation of the System.
- While operation and maintenance of the Water System is adequate, additional personnel would facilitate the filling of shift schedules, allow for increased training of operating personnel, and provide for better routine and preventative maintenance of the Water System.

Sewage Disposal

- Major capital improvements at the Plant have been completed over the last several years and there are numerous projects in the CIP designed to support a sustainable operating condition.

1 *Sources City of Detroit, Michigan Water Supply System Revenue Bonds, Series 2011A-C Official Statement and City of Detroit, Michigan Sewage Disposal System Revenue and Refunding Bonds, Series 2012A Official Statement*

CIP Summary and Projected Funding Sources[1]

DWSD utilizes a five-year CIP to improve the Water and Sewage Disposal Systems, meet regulatory standards and achieve greater operating & maintenance efficiency

- Only the first year or two of the CIPs are actually funded.
- Based on prior reports[2], DSWD expected to fund the CIP from a combination of revenue bond proceeds (48%) and revenues, additional SRF Loans and funds on hand (52%).

Summary of Statutes Relevant to the City

Existing Statutes in the State of Michigan

Charter Water Authority Act[1]

- Allows any two or more cities, villages or townships, or any combination thereof, having a combined current state equalized valuation of not less than $200,000,000, by vote of their respective electors, to incorporate an authority for the purpose of acquiring, constructing, purchasing, operating and maintaining a water supply and transmission system.
- Limited to water supply and transmission.

Municipal Sewage and Water Supply Systems[2]

- Allows any two or more municipalities to incorporate an authority for the purpose of acquiring, owning, improving, enlarging, extending, and operating a sewage disposal system, a water supply system, a solid waste management system, or a combination of systems by the adoption of articles of incorporation by the legislative body of each of the municipalities
- Earlier this year, the City of Flint, representing approximately 6% of DWSD water revenues, elected to leave DWSD and join a newly-formed Municipal Water Supply System under this statute, citing long-term savings.
- Potential vehicle for regionalization.

1 *State of Michigan, Charter Water Authority Act – Act 4 of 1957*
2 *State of Michigan, Municipal Sewage and Water Supply Systems Act 233 of 1955.*

Summary of Water Revenue Bond Ordinance/Indenture

Security	Pledge of Pledged Assets, including Net Revenues, funds and accounts established by the Ordinance except for the Operation and Maintenance Fund and the Construction Fund, investments of amounts credited to any fund, account of subaccount that is a Pledged Asset, and any income or gain realized from investments that are Pledged Assets to the extent that such income or gain is not a Net Revenue.	Section 5
Rate Covenant	The rates for water service and the regulation shall be fixed and revised from time to time as may be expected to be necessary to produce the greater of: (i) to provide for the payment of O&M; (ii) to provide for the payment of indebtedness coming due for the Fiscal Year of calculation; (iii) to provide for the creation and maintenance of reserves as required by the Ordinance; and (iv) to provide for such other expenditures and funds for the System as required by the Ordinance OR the Required Combined Coverage.	Section 9
Coverage Requirement	The coverage requirements for determining the Required Combined Coverage are the following percentages: Senior Lien Indebtedness: 120%; Second Lien Indebtedness: 110%; SRF Junior Lien Indebtedness: 100%.	Section 9
Additional Bonds Test	The City may issue Additional Securities of any Priority of Lien for repairs extensions, enlargements, and improvements to the System, refunding all or a part of any Outstanding Securities and paying the costs of issuing such Additional Securities, if, but only if, there is Required Combined Coverage under either the Projected Net Revenues Test (Net Revenues of the System for the then current or the next succeeding FY / the maximum composite Annual Debt Service in any FY on Outstanding Securities and the Additional Securities to be issued) or the Historical Net Revenues Test (actual Net Revenues of the System for the immediately preceding audited FY / the maximum composite Annual Debt Service in any future Fiscal Year on Outstanding Securities and the Additional Securities to be issued.)	Section 20
Refunding	The City may issue Refunding Securities without regard to the Coverage Requirements if, but only if, the combined Annual Debt Service in the current Fiscal Year and each Fiscal Year thereafter is less than the combined Annual Debt Service coming due in the current Fiscal Year and each Fiscal Year thereafter without giving effect to the refunding.	Section 20
Defeasance Provisions	A security is "defeased" for purposes of the Ordinance if there has been deposited in trust sufficient cash and Permitted Investments constituting Government Obligations, not callable by the issuer, the principal of and interest on which mature at the times and in the amounts, without the reinvestment thereof, necessary to pay principal of and interest on such security to its maturity, or, if called for redemption, to the date fixed for redemption, together with the amount of the redemption premium, if any; provided however, that the sufficiency of the deposit to effectuate the defeasance of a Security shall have been verified by a nationally recognized accounting firm.	Section 21
Investments	Permitted Investments include direct obligations of the U.S. or obligations the principal of and interest on which is fully guaranteed by the U.S., including U.S. Treasury Trust Receipts. Investments shall mature at such times as it is estimated the funds therefrom will be required, but shall be limited to obligations bearing maturity dates or subject to redemption, at the option of the Holder thereof, not later than five years from the date of investment.	Section 17
Consent Rights	With the consent of the Holders of not less than 51% in principal amount of Securities ("Securities" means all Senior Lien and all Junior Lien Bonds; "Junior Lien" means all securities issued pursuant to the Ordinance other than Senior Lien Bonds) then Outstanding, the City may from time to time and at any time amend the Ordinance in any manner by Act of Council; provided, that such an amendment shall not conflict with certain provisions of the Ordinance.	Section 22

Summary of Wastewater Revenue Bond Ordinance/Indenture

3 *As of June 26, 2012*

3. Restructuring Assumptions and Preliminary Results

Preliminary Restructuring Alternatives and Key Assumptions

Three Indicative Structures, all Exclusive of any Bankruptcy/Cramdown Provisions

Traditional Defeasance

- Issue a mix of tax-exempt and taxable bonds to defease 100% of outstanding Water and Sewer bonds (ex. SRF)
- 'AAA' range rating
- 10-year par call
- "Matched-maturity" transaction, no extension of final maturity date
- Excludes DSRF effects

True Sale

- Use only tax-exempt bonds to defease 100% of outstanding Water and Sewer bonds (ex. SRF)
- 'AAA' range rating
- 10-year par call
- "Matched-maturity" transaction, no extension of final maturity date
- Excludes DSRF effects

51% Consent

- Issue new tax-exempt bonds to defease/repurchase outstanding Water and Sewer bonds (ex. SRF) and issue approximately $250 million of new money to consenting bondholders to achieve control of 51% in principal amount of outstanding securities
- "Low A" range rating
- 10-year par call
- "Matched-maturity" transaction, no extension of final maturity date
- 25% of certain non-current refundable bonds tendered at 103% of current market value
- Excludes DSRF effects

1 *State of Michigan, Charter Water Authority Act – Act 4 of 1957*
2 *State of Michigan, Municipal Sewage and Water Supply Systems Act 233 of 1955*

C. "Vanilla" Refunding Using "Low A" Scale

Indicative Refunding Opportunities – Water System Bonds[1]

- Using a "low A" range scale, approximately $373.7 million of Water System Revenue Bonds can be current or advance refunded with a combination of non-AMT and Federally Taxable bonds to produce net present value savings of approximately $19.6 million (5.24% of refunded par).

$millions

	Tax-Exempt, Non-AMT	Federally Taxable	Total
Refunding Par	$254.4	$111.5	$365.9
OIP	$27.2	$0.0	$27.2
Issuance Costs	$1.8	$0.8	$2.6
Escrow Deposit	$279.7	$110.7	$390.4
Refunded Par	$267.8	$105.9	$373.7
Refunded Series	2003A&C, 2005A, 2006A	2003C (Second), 2005C	--
Call Date Range	2014 – 2016	2014 – 2015	--
Gross Savings	$20.7	$5.4	$26.1
NPV Savings	$14.8	$4.8	$19.6
NPV Savings (%)	5.51%	4.52%	5.24%
Negative Arbitrage	$8.0	$2.5	$10.5
Amortization	2014 - 2033	2014 – 2022	2014 - 2033
Average Life (yrs)	10.2	4.6	--
All-in-TIC	3.82%	2.90%	--

Key Assumptions

- Dated/Delivery Date: 1/7/2014
- "Low A" range refunding scales
- COI: $7/$1,000
- 10-year par call (non-AMT)
- Make-whole call (Federally Taxable)

Indicative Refunding Opportunities – Sewage Disposal System Bonds[1]

- Using a "low A" range scale, approximately $248.8million of Sewage Disposal System Revenue Bonds can be current or advance refunded with a combination of non-AMT and Federally Taxable bonds to produce net present value savings of approximately $12.4 million (4.98% of refunded par).

$millions

	Tax-Exempt, Non-AMT	Federally Taxable	Total
Refunding Par	$135.9	$106.6	$242.5
OIP	$12.9	$0.0	$12.9
Issuance Costs	$1.0	$0.7	$1.7
Escrow Deposit	$147.9	$105.8	$253.7
Refunded Par	$146.0	$102.8	$248.8
Refunded Series	2003A, 2005A, 2006B	2003A, 2005C, 2006D	--
Call Date Range	2014 – 2016	2014 – 2015	2014 – 2016
Gross Savings	$13.6	$3.4	$17.0
NPV Savings	$9.6	$2.8	$12.4
NPV Savings (%)	6.59%	2.68%	4.98%
Negative Arbitrage	$1.4	$2.0	$3.4
Amortization	2014 - 2032	2014 – 2028	2014 - 2032
Average Life (yrs)	11.6	9.0	--
All-in-TIC	4.10%	4.13%	--

Key Assumptions

- Dated/Delivery Date: 1/7/2014
- "Low A" range refunding scales
- COI: $7/$1,000
- 10-year par call (non-AMT)
- Make-whole call (Federally Taxable)

City of Flint Financial and Operating Plan - Fiscal Year 2013

Introduction

This Financial and Operating Plan for the City of Flint is submitted by the Emergency Financial Manager for the City of Flint to Governor Rick Snyder, through the Department of Treasury for the State of Michigan, in accordance with Public Act 72, Section 141.1220.

This report includes a summary of the financial conditions, goals for the City of Flint, plans to conduct the operations of the city and the planned and on-going actions being taken to resolve the financial emergency. This plan will be posted on the city's website: www.cityofflint.com

Summary of Financial Condition of the City of Flint

In the report to Governor Snyder, dated November 7, 2011, the Flint Financial Review Team summarized the findings of the Preliminary Review conducted by the Treasury Department (August 29 – September 12, 2011) and then reported the existence of, or likely occurrence of, the specific conditions set forth in Section 13(3) of Act 4 which led to the recommendation of the appointment of an Emergency Manager.

Preliminary Review Findings:

- The City has incurred cumulative deficits in many of its funds over several years. The unaudited 2011 cumulative deficit is estimated to be $25.7 million.
- The deficit elimination plan submitted to the Department of Treasury by city officials has not been followed and the general fund deficit has increased and is now estimated to be approximately $11.0 million.
- The general fund expenditures have exceeded revenues since 2007.
- The City relied upon transfers from the water supply and sewage disposal fund for general city operations.
- City officials also borrowed from other funds to compensate for cash shortages including the public improvement fund, the local street fund and the self insurance fund.
- The City continued to experience a cash shortage.
- The City's ability to pay short term obligations was uncertain.
- The pension system was less than 60 percent funded.
- City officials failed to make staff reductions in accordance with the deficit elimination plan.

Flint Financial Review Team Findings:

- The City has a general fund deficit of $14,621,546 as of June 30, 2010 which was not eliminated within the two year preceding period.

- The City previously submitted a five year deficit elimination plan for a cumulative general fund deficit of $7,046,820 as of June 30, 2008. However, by June 30, 2010 the cumulative general fund deficit had grown to $14,621,546. An updated plan submitted for 2010 does not purport to eliminate the cumulative deficit until 2030 and that relies upon the issuance of an additional $12 million of debt in 2013.
- A structural operating deficit existed in the general fund as of June 30, 2007, 2008, 2009, 2010 and the general fund is projected to have a $6,768,864 deficit as of June 30, 2011.

The Comprehensive Annual Financial Report for the Fiscal Year ended June 30, 2011 was received in December 2011. The City's General Fund, which had a $14.6 million deficit at the beginning of the year, ended it with an $8.9 million deficit. The reduction in the deficit was due solely to an $8 million Fiscal Stabilization Bond issued by the city in March 2011. In total, excluding the impact of the FSB proceeds and the Genesee Towers judgment levy, expenses in the General Fund exceeded revenues.

The City's Water Supply and Sewage Disposal systems also reported losses of $6.6 million and $14.1 million respectively. Increases in water and sewer fees have been implemented since the end of the fiscal year in an effort to forestall additional losses. However, the increases do not appear sufficient to address past deficits.

The City had actuarial accrued liability for post employment benefits other than pension (OPEB) of $862 million at June 30, 2011. Currently, the City is operating on a pay-as-you-go basis. In FY11, $19.6 million was spent on premiums for health care, compared to the recommended amount of $61.4 million.

The Auditors comments continued to note concerns with cash flow and with the timeliness of certain account and bank reconciliations.

Background

Several conditions developed over a period of decades to place the City of Flint in a situation of chronic fiscal stress. The major employer, General Motors, significantly reduced operations in Flint (in 1978 GM employed over 80,000 people, by 2006 employment totaled 8,000). The population of the City declined 18 percent between the census of 2000 and 2010. Owner occupied housing decreased from a high of 73.1 percent in 1960 to a 2010 low of 44.7 percent. The jobless rate for the 2010 annual reporting period was 23.2 percent. State Shared Revenue which accounts for 31 percent of the General Fund decreased 13 percent over the past five years.

In addition to the above noted reduced State Shared Revenue, the City's two other sources of revenue, property tax and income tax, have both suffered significant reductions. Between

2006 and 2011, property tax revenue has decreased 33 percent and income tax revenue has decreased 39 percent.

As revenue decreased, the City of Flint implemented numerous cost controls. The workforce has been reduced by 50% since 2001; yet the total cost of wages, benefits, and retiree premiums have continued to increase. Note that the liability for services already rendered is essentially a fixed cost which is now borne by fewer active employees and reduced city revenues.

Note: the statistics quoted above are taken from the report by Eric Scorsone, Ph.D. titled "Long-Term Crisis and Systemic Failure: Taking the Fiscal Stress of America's Older Cities Seriously Case Study: City of Flint, Michigan" dated September 2011.

Goals

The overall goals for the City are:

1. long-term financial stability;
2. an increase in revenue base to provide quality services to its residents;
3. a reduction in government costs through negotiated union contracts, consolidation and shared services, and ongoing professional development of staff;
4. continue to maintain and modernize the infrastructure of the city in alignment with the current population counts;
5. to streamline the processes necessary for businesses to locate, and continue operations, in the city;
6. to utilize the Master Plan to stabilize and then increase both the commercial and residential base of the city;
7. to provide public safety services, focusing on reducing violent crime, commensurate with cities of comparable size and resources.

Planning Process

The City of Flint was determined to be in a financial emergency by the Flint Financial Review Team as noted in the above section: **Summary of Financial Condition of the City of Flint.** On November 1, 2011 Governor Rick Snyder appointed Michael K. Brown as Emergency Financial Manager. EM Brown developed a Financial and Operating Plan utilizing the resources of a five person Advisory Committee as well as five additional advisory committees. The EM sought broad expertise to ensure public engagement and to maintain a sense of continuity with the Mayor and the City Council. In fact, all nine Council Members and over fifty other citizens participated in the advisory committees.
The Advisory Committees are:

- Finance/Administration – Chair Armando Hernandez,
- Public Safety – Chair Diana Kelly,

- Infrastructure/Development – Chair George Wilkinson,
- Grants/DCED – Chair Sue Peters,
- Pension and OPEB Underfunding – Chair Ed Kurtz.

The EM's Financial and Operating Plan was updated in the Emergency Manager's June 1, 2012 report to the State Treasurer.

Upon the appointment of the Emergency Financial Manager, Edward J. Kurtz, on August 8, 2012 a new Advisory Committee was established and the State Treasurer approved the following individuals to serve on the City of Flint Emergency Financial Manager's Advisory Committee:

Mayor Dayne Walling	Kenyetta Dotson
Reverend Phillip Thompson	Tim Herman

Mr. Kurtz has also asked three others to serve as well: Dan Cady, Armando Hernandez and Adam Thomason.

The Emergency Financial Manager has utilized the Advisory Team, the City of Flint Management Team and the updated Financial and Operating Plan to develop this Financial and Operating Plan for Fiscal Year 2013.

Management appointments have been made to ensure that the essential services necessary for the public's health, safety and welfare are assured and to continue to conduct all aspects of the City of Flint's operation within the resources available. Any employment contracts were extended with the approval of the Treasury Department.

Actions Taken To-Date

ORDER No.1 PROCEDURES FOR PURCHASING

Requests to procure goods and services, in any amount, are to be forwarded to the Purchasing Department for processing Departments shall not procure any goods or contract any services without the proper authorization from the Emergency Financial Manager or Purchasing Department. Any procured goods or contracted services made without proper authorization shall not be approved and the City shall not be bound.

ORDER No.2 PROCEDURE FOR SUBMISSION OF RESOLUTIONS AND ORDINANCES

The procedure is described for the submission of resolutions and ordinances; effective immediately.

ORDER No.3 BUDGETARY OVERSIGHT & TERMINATION OF LINE ITEM LEVEL

All City officials, department heads and division heads shall adhere to the prescribed budgetary guidelines and responsibilities.

ORDER No. 4 ADVISORY COMMITTEE

Pursuant to the Contract for Emergency Financial Manager Services signed by the Local

Emergency Financial Assistance Loan Board on August 8, 2012, the Emergency Financial Manager shall appoint an advisory committee consisting of three to five members to provide advice and counsel regarding the Manager's decisions and actions to resolve the City's distress. The Emergency Financial Manager shall meet with the advisory committee regularly, but no less frequently than monthly. The Emergency Financial Manager has recommended and the State Treasurer has approved the following individuals to serve on the City of Flint Emergency Financial Manager's Advisory Committee:

- *Mayor Dayne Walling*
- *Kenyetta Dotson*
- *Reverend Phillip Thompson*
- *Tim Herman*

ORDER No. 5 CITY TREASURER AUTHORIZED TO CORRECT ASSESSMENTS OR FEES IF PROPERTY OWNER ENTITLED TO WAIVER

The City Treasurer is authorized to make the necessary correction to an assessment or fee that was placed on the tax roll in the event it is determined that property owner is entitled to a waiver, including, but not limited to combination of parcels.

ORDER No. 6 OVERTIME

Based on the foregoing, all overtime must be directly approved by the department head in advance, with the exception of emergency overtime that can be clearly documented. In the Police Department, requests for overtime should be directed to Chief Alvern Lock. In the Fire Department, requests for overtime should be directed to Public Safety Administrator Barnett Jones.

All Departments

Department Management reconfigurations have been completed in anticipation of reduced staffing levels as provided in the FY(13) Budget. (See Attachment # 1 Organizational Chart)

Financial/Administration/IT

Cash Flow

A realistic analysis of cash flow has been developed by the Finance Director, and is being monitored on a monthly basis. Cash flow for this nearly $200 million operation is minimal at best, with pooled cash balances since January ranging from nearly $13 million in February to approximately $8 million at the end of April. These amounts have been slightly above projections.

FY13 Budget

Development of a budget which moves the City toward financial stability was accomplished with the FY13 budget. FY13 began July 1, 2012.

The process of implementing the FY13 budget is now underway. It is balanced realistically, and encompasses significant revenue increases and expenditure reductions. The process started with a projected gap of $25 million between projected revenues and projected expenses. The result was a total budget of $192 million, of which $82 million is sewer and water; $58 million is General Fund and $30 million is federal CDBG.

The budget encompasses expenditure reductions which included the elimination of nearly 150 positions (20% of the workforce); employee concessions including a restructuring of health and pension benefits and employee costs; and various organizational changes.

On July 1, new health care plans for active employees was put in place, as well changes in pension benefits. Health care plans for retirees began on August 1 for pre-65 retirees; this was followed with changes for Medicare-eligible retirees on September 1. The City has been sued in Federal District Court, but no decisions have resulted to date. If the City is precluded from implementing these changes in health care for retirees, there will be a projected (unbudgeted) increase in expenses of $3.5 million in FY13.

For future employees, city retiree health care will no longer be an option, and the traditional defined benefit pension plan for non-police and fire employees will be replaced with a hybrid pension plan. There are also numerous changes which increase management flexibility and reduce other employee costs.

The budget also implements new revenues in order to provide the level of revenues still needed – in spite of expense reductions – to continue the marginal level of city funded public safety personnel and basic city services. These revenues include numerous fee increases; a $143 annual fee for waste collection (replacing a dedicated 3 mill tax levy); a $62 special assessment fee for operation, maintenance, and improvement of street lights (in the past this was a $2.85 million general fund expense); and an overall 25% increase in water and sewer rates (12.5% water; 45% sewer). Unfortunately, the reliance on fees and assessments will create hardship for many of the City's residents. However, the choices for increasing revenues at this time were limited.

If the budget can be implemented as planned, a significant objective - not spending more than the City takes in - will be accomplished, and will have done this while avoiding public safety reductions beyond those associated with expiring grant funds.

However, the City faces several legal challenges. While the challenges may not be sustained in the long term, any impediments to implementing the budget will have severe financial impacts.

For example, legal challenges which prohibit the City from implementing revenue increases or expenditure decreases will require immediate actions to further reduce spending – including public safety – and may impact the City's ability to function at an adequate level, particularly in light of the marginal cash flow.

Potential challenges the City may face from budgetary perspective include ones associated with the numerous rate increases incorporated into the budget, changes in retiree health care, and the unilateral implementation of changes to three collective bargaining agreements. It should be noted that through the Emergency Manager the City of Flint was able to reach tentative agreements with three of the six bargaining units. To this point, the City was recently sued over the pending implementation of increased water and sewer rates, by the President of the City Council et al. This is a prime example of litigation that could impede the COF's ability to maintain fiscal solvency.

Financing the Deficits

In April, the Emergency Manager filed a Deficit Elimination Plan focused on the accumulated deficit as of June 30, 2011. That plan indicated the City's intent to request authorization to borrow approximately $9 million in Fiscal Stabilization Bonds in order to address the accumulated General Fund deficit once a credible FY13 budget was in place. The Deficit Elimination Plan was approved by the State. On May 24, 2012 the City filed an application for borrowing with the State Administrative Board, and the Department of Treasury has issued a memorandum stating that the request satisfies the necessary statutory requirements. At this time, Treasury has not authorized the borrowing as proposed n the Deficit Elimination Plan.

While this borrowing addresses the accumulated FY11 deficit, there was an additional deficit at the end of FY12. It is estimated at this time that an additional $10 million will need to be financed in order to address the FY12 deficit. However, if the FY13 budget is implemented as it was adopted, there should be no additional General Fund deficit. There will be ongoing deficits in the water and sewer funds, but only as related to unfunded OPEB liabilities.

Audit

The Comprehensive Annual Financial Report for the year ended June 30, 2011 has been received and filed with the Department of Treasury.

Labor Agreements

Labor Counsel held meet and confer sessions with the City's six bargaining units. A target of 20% equivalent wage reductions has been achieved. Tentative Agreements were reached with four of these bargaining units. As contract settlement was necessary prior to adopting the budget, the EM invoked the 19K provision in Public Act 4 from the State Treasurer for the bargaining units which had not achieved

Tentative Agreements (EM Orders 18 and 26) and with Local 1799 which had approved a TA but had not ratified (EM Order 27).

Economic Vitality Incentive Program (EVIP) Requirements and Activities
The Flint Economic Vitality Incentive Program Certification of Consolidation of Services (EVIP) was filed December 30, 2011 which qualified the City of Flint to receive State Shared Revenue as of January 2012.

The Economic Vitality Incentive Program Certification of Employee Compensation was filed on April 25, 2012 which fulfilled the City's third obligation to receive the next allocation of State Shared Revenue.

The City is now preparing the October 1, 2012 filing of the EVIP Dashboard, Citizens Review and Projected FY14 budget

The City has contracted with Plante Moran to conduct a study to evaluate the potential of shared services between the City and Genesee County treasury functions. This study has been funded by the Mott Foundation.

Income tax processing is being handled through a joint project with the Cities of Grand Rapids and Lansing.

The City's Human Resources Department is working on a joint project with the Genesee County HR Department and the Genesee Intermediate School District to integrate electronic capabilities for HR records.

Prescription Drug Program
City of Flint has suspended the planned implementation of a modified prescription drug program which requires the issuance of a generic drug unless a name brand drug is determined to be medically necessary. This action resulted due to a lawsuit, Yurk et al. v. City of Flint, pending in Genesse County Circuit Court before Hon. Archie Hayman. Judge Hayman granted a temporary restraining order and has completed a hearing on plaintiffs' motion for preliminary injunction. However, the court took the motion under advisement and has not issued a decision.

Dependent Eligibility Audit
The Risk Management Office is currently in the process of conducting a dependent eligibility audit which is expected to be completed before the end of the year.

Administrative Reorganizations
The City of Flint Human Relations Commission (HRC) has been reorganized to address constituent and citizen services. This reorganization was developed in relation to elimination of departments (Ombudsman and Civil Service Commission), as well

as reductions in executive staff. The HRC will now be the First Stop Office at City Hall with a focus on prompt citizen response.

Prior to the start of FY13 the Information Services Department eliminated all positions and then rehired fewer employees with new job descriptions. The new structure allowed more flexibility and greater utilization of personnel.

Infrastructure/Development

Water Issues

The City is working with the Detroit Water and Sewerage Department (DWSD) to revise the contractual policy restrictions on blended lake and river water. This revision could provide significant savings to the city water customers.

The Genesee County Drain Commissioner has begun the engineering work for the Karegnondi Water Authority. The City of Flint expects to participate as a partner in the construction and operation of the new water line from Port Huron, but has not yet signed that agreement. Again, blended Flint River water, DWSD water and/or treated Karegnondi water is being evaluated in this scenario as well.

U. S. Department of Environmental Quality S2 Grant

An S2 DEQ grant to study infrastructure condition for water pollution control was accepted. The study was defined to encompass the City's entire sanitary sewer system including the overall collection system, the capacity and condition of the system, potential upgrade recommendations to the lift stations and the pumping stations, and to make recommendations for necessary investments to maintain the system.

U.S. Department of Energy Grant

The City of Flint has negotiated an agreement with the Department of Energy to terminate the Energy Efficiency and Conservation Block Grant (EECBG). While the agreement has not yet been finalized, it appears likely to be completed shortly. It provides that there was no finding of wrongdoing by the City. The grant was terminated because there was insufficient time to complete the project under the performance period of the grant. The mutually agreed upon termination of the grant will not adversely affect the City of Flint's qualification and eligibility to receive future grants or contracts from the D.O.E.

Golf Courses

Three of the city's four golf courses were leased to private organizations. Two courses were operational this summer.

Senior Centers

The Pierce Senior Center closed on April 30, 2012 as funding was no longer available. A Request for Proposal is being issued to seek operators for both

Hasselbring and Brennan Senior Centers. The City is also exploring the potential for a non-profit organization to take over the centers, however, that may require programs and services take place at the non-profit's location. Further talks continue with the County for other potential means of operation.

Smith Village Development

The Smith Village housing project is funded primarily with HUD and NSP2 grants. Phase I, which includes 30 housing units, has been completed as scheduled. HUD has determined February 10, 2012 is the goal to expend 50% of the allocation. The Smith Village housing project will meet that development goal. On May 18, 2012, the City announced that Phase II of the Smith Village development will be undertaken by Ginosko Development Company and Rohde Construction Company. Ginosko's site plan was approved by the Flint Planning Commission on May 22, 2012.

Master Plan

The City of Flint continues to make progress on the preparation of its first comprehensive Master Plan in fifty years through a $1.5 million HUD Community Challenge Planning Grant. As a result of this grant, a Chief Planning Officer and two Associate Planners have been hired. These staff members coordinate monthly Steering Committee meetings to discuss the Master Plan with Flint residents and the many citizens that participated in the ward meetings earlier this year.

A website,www.steeringflintfoward.com has been established to inform citizens about the planning process and to solicit their input. A $50,000 grant from the Ruth Mott Foundation has been received, as well as a commitment from the C.S. Mott Foundation in the amount of $263,804 for the Master Plan.

U. S. Department of Housing and Urban Development Monitoring

After the February 2012 HUD Monitoring of the HOME Program, The City of Flint received notice from HUD that it has capacity to run the HOME program.

Real Estate Transactions

In August 2012 the City of Flint sold the Genesee Towers to Uptown Redevelopment Corporation for $1 and committed $750,000 CDBG dollars toward the over $4 million cost of demolition. Genesee Towers has been a liability for the City since December, 2010 when the city assessed a one time millage to cover the $9.0 million judgment.

A quit claim deed for Chevy-in-the-Hole site has been transacted between the EDC and the City of Flint. EPA money for clean up has been agreed upon.

Public Safety

A Police and Fire Protection Millage request for 6 mils has been placed on the November ballot. If this millage request passes, this will begin the process of stabilizing both the Police and Fire Departments.

Based on input from the State Police, Governor's Office and a Michigan State University Criminal Justice Study, it is clear that the Genesee County Criminal Justice System and the Flint Police Department could benefit from improved coordination and policy development. The restructuring and expansion of an existing criminal justice planning group is underway.

A Public Safety Plan was introduced to the public on May 4, 2012. This plan addresses Police and Fire department organizational plan, operation of the lock-up, transition to 800 MHz communications system and the formation of the Criminal Justice Policy Advisory Council.

The Police Department changed to a 12 hour shift operation within a four District Patrol plan. Both of these plans were implemented at the end of June, 2012.

The Public Safety Department recommended selection of the Genesee County Sheriff as the operator of the Flint lock-up. It is expected that the lock-up will be operational by October 1, 2012.

The City received a 6 month grant renewal from the C. S. Mott Foundation for the Community Policing grant which has funded 10 officers and 1 sergeant. The grant also includes other criminal justice system personnel support, including the addition of Neighborhood Safety Officers who would be responsible for enforcement of blight violations, vehicle ticketing for impound and other neighborhood duties. This grant was submitted in conjunction with the Michigan State University School of Criminal Justice Training and Assistance team. The MSU team will assist the City in implementing several phases of the Public Safety plan.

The City of Flint is continuing its existing collaborative efforts with regional partners. Examples: Flint Area Narcotics Unit, Safe Streets Task Force, and U.S. Attorney's Office Zero Tolerance gun violence reduction initiative, LifeLines (formerly known as CeaseFire), and other programs to help eliminate gang activity and prevent other violent acts.

CopLogic is an Internet based, crime record system through which residents self-report crimes with no suspects and little chance of solvability. CopLogic was introduced in July, 2012.

A protocol was finalized for the transition to the Genesee County Sheriff's Department to handle the paramedic calls in the City of Flint. This millage is now being managed only by Genesee County. Completion date was July 1, 2012.

The FEMA funded SAFER Grant which supports the wages and benefits of 39 firefighters was renewed on June 10, 2012 for two years. The new grant totaled $6.9 million. It is very rare that a city would be awarded a full funding request in back-to-back granting periods.

Projects in Progress

The Emergency Financial Manager has determined that the projects noted in the following list are the top priorities:

1. Waste Collection Operation	November 1
2. Issue RFP Demolition Plan/Contracts	October 15
3. Start new construction at Smith Village	October 1
4. Budget Review and amendment	October 1
5. Contract/Commit all HUD funds (DCED, NSP2 and 3 focus)	October 15
6. 800 MHZ/911 merger study	November 1
7. Open Lockup	October 1
8. Complete FERS to MERS/Retiree Healthcare changes	October 1
9. SBI decision	October 15
10. Weekly Press Briefings	September 12 and each Wednesday after
11. KWA Decision	November 1
12. Senior Centers Plan	November 1

OTHER ISSUES

1. Street Light Special Assessment District
2. Indigent fund for water
3. EVIP List
4. Labor Contract implementation
5. Boards and Commissions

6. MSU Med school
7. Quarterly Report to Treasury
8. Next step on Genesee Towers
9. Complete the Plante Moran Study
10. Close FY12 books, prepare for audit
11. Plan to file an FY12 Deficit Elimination Plan

Financial/Administration/IT

The Finance Director received approval from the Flint Employee Retirement System (FERS) Board to transfer the general administration, management and responsibility for the Flint retirement system to the Michigan Employee Retirement System (MERS). This transfer is expected to be completed in time for the first MERS check to retirees to be issued on October 18, 2012. The City has already been sued to stop the transfer of assets. The basis of the suit was that the Councilman who was newly appointed to the FERS Board was not sworn in to the FERS Board before voting on the transfer from FERS to MERS.

Cash flow, which was identified in the audit as an area of ongoing concern, has been reviewed. Thanks in part to the receipt of $8 million from the Financial Stabilization bond and the use of $3.7 million in accumulated funds for retiree health care, cash flow should be minimally adequate for a short time. However, little progress has been made to date in addressing the extent of inter-fund borrowing. The situation continues to be monitored to assure sufficient cash to pay for current expenses, and options for long term solutions will be developed.

Recently implemented rate increases appear to have been nearly sufficient (within $700,000) to cover current operations in the Water Fund, exclusive of OPEB liabilities. With depreciation and OPEB liabilities included, the $12.4 million deficit at the end of FY 11 is projected to increase to $13.2 million.

The FY11 deficit of less than $500,000 in the Sewer Fund, however, is projected to increase to nearly $7 million, inclusive of depreciation and OPEB liabilities.

Options for addressing these shortfalls are being developed, including the possibility of additional borrowing in concert with expenditure reductions.

The City is closing the books on FY12 and preparing for the audit. This will be followed by an analysis to determine the extent to which projections were valid. It is anticipated that there will be a need to file a Deficit Elimination Plan based on the FY12 audit.

The Finance Department and the IT Department are completing the planning and preparing for the implementation for the upgrade of the City's financial management software (moving from BS&A Pervasive to Dot net.)

The Finance Department is also proceeding with the following projects:

- implementation of a Procurement Card system and the associated changes to the City's Purchasing Policies,
- completion of the update of the pension and OPEB liabilities,
- continued aggressive monitoring of revenue and expense activities as compared to the FY13 budget, with particular emphasis on revenue collections, position counts and overtime expenditures,
- development and implementation of employee development programs focusing on financial management, supervision and labor relations, and leadership development.

The City Attorney is continuing with efforts to improve litigation management through claim evaluation, claim reporting, attorney training and trial preparation. The City Attorney continues to emphasize the "litigation team" approach to case handling, with weekly review of pending matters and discussion of how best to protect the City of Flint's legal interests.

Collaborative economic development efforts are underway with the Genesee Regional Chamber of Commerce to attract and retain businesses; and to receive and apply new tools such as the Next Michigan Development Corporation and Smart Zone designation. The city will continue to work with RACER Trust for brownfield development, including Buick City.

The City of Flint is challenged in its current financial condition to provide significant investment into job creation and Economic Development. However, the City has developed a unique and effective partnership with the Genesee Regional Chamber of Commerce (GRCC) which is the recognized economic development entity for Genesee County. The City receives specific community and economic development services from GRCC each year. Attached is a brief summary of achievements resulting from this partnership.

Infrastructure/Development

Determine City of Flint's level of participation in the Karegnondi Water Authority (KWA) water pipeline project.

The City is reviewing proposals from companies interested in operating waste, compost and recycling collection.

The Smith Village project is proceeding with the construction of new homes which will bring the total of completed homes to 40 by February 14, 2013. HUD has approved this plan with the understanding that the remaining planned homes (up to 83) will be built as proceeds become available from the sale of the first 40 homes.

Public Safety

Continue patrol assistance from Michigan State Police. This is a crime deterrent and increases traffic safety compliance.

Continue existing collaborative efforts with regional partners. Examples: Flint Area Narcotics Unit, Safe Streets Task Force, and U.S. Attorney's Office Zero Tolerance gun violence reduction initiative, CeaseFire, and other programs to help eliminate gang activity and prevent other violent acts.

Apply new technologies and information systems to improve police efficiencies and improve targeting and effectiveness including New World, CopLogic, Shotspotter and DDACTS.

Transition to an 800 MHz communications system is underway. New mobile and portable radios have been purchased and templating is completed. Region 3 issued a purchase order to Motorola Systems for 9-1-1 Console upgrade and construction of a Point to Point Microwave link.

Investigate potential to return automobile impound lot to a City of Flint operation.

Projects Under Assessment

All Departments

Review all departments and services for potential merger, consolidation, contracted service, shared services with other governmental entities, privatization or elimination. As a result of this review determine if these functions should be subsidized with general property tax dollars and what will be paid by the users.

Review current expenditures for significant reduction.

Review all city owned assets (both real property and capital equipment) and determine if disposal should be pursued.

Review necessary ordinance and charter revisions which would increase flexibility for department reorganization and budget flexibility.

Investigate appropriate investments necessary to achieve longer term savings, cost avoidance, and improved efficiencies.

Review the process for all grants to the City of Flint for appropriate use of funds, potential for continued funding, and timely reapplication.

Develop a system of benchmarking costs to determine whether to maintain City of Flint operations or outsource services.

Financial/Administration/IT

Request a legal opinion with regard to retiree pension and OPEB contractual versus constitutional issues.

Risk Management Office is reviewing various Employee/Retiree health care options including plan design, delivery systems, Medicare Advantage, Medicare Wrap Around, benefit carve-outs, etc. in an effort to control health care costs.

Infrastructure/Development

Monitoring and review of the Smith Village Housing Project is continuing. The Grants/DCED Advisory Committee has been reviewing issues relating to compliance with HUD and NSP2 guidelines.

Conduct a comprehensive review of water and sewer systems to identify opportunities to utilize resources and infrastructure to increase efficiencies, generate revenues, and reduce liability.

Determine if current City operations can sell excess capacity.

Investigate the feasibility for utilizing available technology for remote operations.

Investigate the status of the Hamilton Dam project and consider implications for both water treatment plant volume control and storm water management.

The EFM is addressing the financial crisis and also working on meeting the many other needs of residents and continuing development of the city. Numerous grant applications have been submitted to implement a wide range of programs.
Grants submitted:

- Application to Environmental Protection Agency for nearshore health and non point source pollution, watershed remediation for "Chevy-in-the-Hole" stormwater wetlands. $600,000
- Application to the Administration for Children and Families for Community Economic Development (CED) projects. $800,000
- Application to the Department of Justice for the Byrne Criminal Justice Innovation FY 12 Grant – revitalizing neighborhoods and reduce crime (partner applicant in two grants).

- The City of Flint is also a partner applicant in the Building Neighborhood Capacity Program (Wards 1 & 3) and Promise Neighborhood (Wards 1 & 2) which are part of the Federal Neighborhood Revitalization Initiative. ($225,000)
- The City of Flint and the Flint Farmer's Market have applied for an Urban Farmer's Market Program which provides funds to entitlement communities, in this application the request is for equipment and fees for the SNAP and Double UP Food Bucks. ($21,742)

Public Safety

Review department day-to-day operations for more efficient utilization of personnel and other resources.

Restructure Fire Department, 911 and emergency response operations to adjust to eliminated Federal and County revenue sources. Review options for shared services, station configurations, staffing levels, contract services and technology applications.

Investigate 911 re-consolidation. Determine costs to align equipment with County 911 system; determine metrics to evaluate level of service to City of Flint; and determine process to evaluate City personnel participation in a consolidated system.

Next Steps

- Implement department reorganizations, contract agreements, proposed shared services, mergers and consolidations.
- Manage FY13 budget compliance.
- Maintain the safety of the residents of the city during this transition and keep the citizenry informed of plans throughout this process.
- Complete the transfer of the employee retirement system from FERS to MERS.
- Make and implement key decisions on Infrastructure – particularly water and sewer operations.
- Develop a plan to increase revenue: millage, income tax and other. Include potential for urban homesteading.
- Decide timing and leadership for potential Charter revision.
- Issue RFP's for private contractors for various services.

Conclusions

Personnel assignments have been made to ensure continued operation of the public services necessary for the citizens of Flint. The Department Directors have reviewed the financial and

operational status of the City. They have made substantial recommendations for revisions in the City's operation and are currently implementing those recommendations

The City of Flint acknowledges an on-going financial crisis. Also, the City of Flint realizes that it is a high priority to address the tremendous public safety issues through the improved coordination throughout the criminal justice system in Genesee County. Aggressive efforts are being undertaken to clarify and resolve all issues presented in this report.

A second report of the City's Financial and Operating Plan is due six months following the appointment of the Emergency Financial Manager. Updates will also be provided as appropriate.

City of Flint
FY 2013 Budget

City of Flint, Michigan

BUDGET

for Fiscal Year 2012-2013

Michael K. Brown, Emergency Manager

City of Flint
FY13 Budget

It is well known that the City of Flint is confronted with a financial emergency. It has been in state receivership since November 2011. The City is projected to have more than an $18 million deficit by June 30, 2012. Cash flow is extremely narrow, and any major unexpected expense or revenue loss at this time could be catastrophic.

The Emergency Manager is committed to seeing Flint not only return to financial solvency, but become the thriving municipality it once was, attracting residents, businesses, and visitors.

The challenge is great – financial insolvency; a population base reduced by 50%; declining property values; high numbers of vacant houses and persons in poverty, crumbling infrastructure, and high crime.

The first step to recovery is to stabilize the City's finances, in order to provide basic services to our citizens. With a focus on a next year's budget that is realistically balanced on attainable revenue estimates, and with assistance from the state to address the accumulated deficits from past years, our journey into the future can begin.

It will not be easy. The current level of expenses for city services significantly exceeds the current amount of revenues which will be received, and choices for new revenues are limited. Consequently, while efforts continue to identify new sources of revenue, current services and workforce will be reduced significantly. Where new sources of revenue are found and implemented, it will mean increased costs to taxpayers. There is no other choice – expenses must be reduced, revenues must be increased, or a combination of both must occur.

This budget is based on conservative assumptions regarding revenues and expenses. If there is uncertainty about a revenue stream, it is not included. When projecting expense items over which the City has little direct control, they have been projected on the high side. The result can be characterized as a "worst case" budget. However, since the budget is a flexible plan, new developments –such as additional revenue sources – can be added if and when they become available.

THE FY13 BUDGET

The FY13 Budget for the City of Flint totals $195 million for all funds, including $58 million for the General Fund plus Special Revenue Funds, Capital Improvement and Enterprise Funds. It provides for a workforce of 539 employees. The amount of funds available, and the size of the workforce afforded by those revenues, are significantly less than in the current and prior years.

As this budget process began, there was a projected gap of some $25 million between the amount of funds projected to be received and the cost of continuing all services and positions in the same manner as currently done. This gap has been closed by a mixture of revenue increases and expenditure decreases.

REVENUES

City services are funded by a mix of property taxes, income taxes, state and federal shared revenues, and fees, charges, and assessments. The current property tax rate for city services is 15.5 mills, or $15.50 for each $1,000 of taxable value. Residents and businesses also pay a 1% income tax, while non-residents pay one-half that amount, the limit set by state law.

The revenue stream supporting city services in this budget is different from the current year's in some significant ways:

- With property values continuing to decrease, property tax revenues are decreased by more than 20%. These revenues are decreased even further as the 3 mill levy for waste collection is eliminated in favor of a new waste collection fee designed to cover the entire cost of that service.

- State shared revenue remains at the reduced level legislated by the state beginning in FY12.

- Revenues from some major grant sources – the SAFER grant for firefighters and the MOTT grant for community policing – are not included, as there is no certainty those funds will be received.

- Revenues from a new city-wide special assessment will reduce the cost burden on the City's General Fund while providing funding for the operation, maintenance, and improvement of the City's street lighting system.

- Additionally, it is necessary to increase water and sewer rates significantly in order to have sufficient funds to operate the system. A system capable of serving more than 200,000 users is now utilized by less than half that number. The systems are old, in need of repair, and costly to maintain. Costs from the primary supply source - the Detroit Water System – have also increased significantly over the past several years. While there have been significant increases in rates over the past few years, they have not been sufficient to cover the operating costs of the systems. While there are currently significant and positive efforts being made to make the systems more efficient and cost effective, they will not affect the cost of operating the systems this year.

The impact of these changes in the revenue stream will vary on taxpayers, businesses and residents. Compared to the current year, many taxpayers will see an increase in their total payments for city services, with the amount varying to the extent that their property values have reduced.

However, when compared to total payments for city services made in 2005 – before the precipitous drop in property values began - many taxpayers will still be paying less. It appears that owners of property with a taxable value of more than $53,450 in 2005 will still pay less for city services in FY13 than they paid in FY2005. Property owners with a taxable value of less than $53,450 in 2005, however, will pay more for city services in FY13 than they paid even in FY2005.

Unfortunately, with the tools at hand for raising revenues at this time, it is not possible to spread the impact differently. Alternatives such as raising the property tax millage or the income tax rate require voter approval and, in the case of the income tax, state legislative approval as well. However, these alternatives are being evaluated for future use.

EXPENSES

The revenues collected pursuant to this budget will be used to provide a very basic level of services in the areas traditionally provided by the City. Police and fire protection and other public safety services, water and sewer service, trash collection, street maintenance and lighting, parks maintenance, building inspection, code compliance, demolition and other community development activities, will all be continued, although in different ways and at reduced levels. Citizens can expect that response times for certain services or requests for information will be slowed.

The City's workforce will be reduced by more than 20% and, unfortunately, layoffs will occur. The extent of these reductions has been lessened significantly with concessions obtained from employee bargaining units.

Reductions equivalent to 20% of the wage base have been negotiated with three of the six city bargaining units (IAFF, FPOA Sgts, and FPOA Command), and a final vote on similar concessions with AFSCME 1799 is pending. Concession discussions with AFSCME 1600 and FPOA Patrol continue, but no agreements have been achieved. This budget assumes implementation of similar concessions across all bargaining units and exempt employees.

Similarly, reductions in the cost of retiree health care are also anticipated. The cost for the City's 1,500 retirees is projected at nearly $25 million for FY13, an amount which severely constrains the ability of the City to provide services to its residents. The City has determined that there are alternative means by which health care can be provided to retirees but at a significantly reduced cost. The City intends to implement the less costly alternative and has incorporated more than $4 million in anticipated cost reductions savings into this budget. Without such cost reductions, the City's workforce will be reduced even further.

Within the context of these revenue constraints and overall expense reductions, a very basic level of services will be provided to the residents and businesses in Flint in 2013:

PUBLIC SAFETY

Police – With the continued loss of tax and grant revenue, the Police Department will be minimally staffed at a level of 108 sworn officers and 21 non-sworn personnel. This represents the current level of staffing less 19 officers funded by grants which have expired. Requests for continuation funding are in process but have not been approved at this time.

Given the financial condition of the City, funding at this level represents a significant commitment to pubic safety, but it is recognized that more must be done. In the ensuing year, the department will be transitioning to 12 hour shifts. This transition will reduce overtime expenses

and should increase the number of officers on patrol at any one time. The efforts of the FPD will continue to be assisted with continuing support from the Michigan State Police, and contracted services from Hurley Hospital and Kettering University. Aggressive efforts will be made to seek the renewal of grants and to seek additional permanent funding for this essential service.

911 - 911 Dispatch will continue at current staffing, while efforts continue to consolidate City and County dispatch operations. Communications with and between officers will be enhanced with the projected move to the 800 MHz system on July 1, 2012.

Fire - With the expiration of the federal SAFER grant, funding for 39 firefighters would be lost, potentially reducing total staffing in the Fire Department to 54. However, with the reductions in costs attributable to union concessions, and an assessment of the impact this would have on the ability of the City to provide virtually any level of fire response, staffing in this budget is at 62.

Given the staffing constraints, three of the current five stations will remain open pending the decision on the SAFER grant. In addition, with Genesee County now providing paramedic response, the City's paramedic personnel will be assigned to suppression.

The City is aggressively pursuing renewal of the SAFER grant and, should it be received, the number of stations in operation could be increased.

Court - As required by law, the City will continue to financially support the operation of the 68th District Court. Recognizing the financial circumstances of the City, along with the court's decreased caseload and offsetting revenues, court funding is reduced in this budget.

Lock-up – The City has been aggressively working to receive funding from the State of Michigan for re-opening the City Lock-up. At this time an operational plan is being developed as a condition for receiving consideration for funding. There are no City funds allocated in this budget for operation of the Lock-Up.

INFRASTRUCTURE

Water and Sewer - The expenses of the Water and Sewer system can be viewed in three categories – operations and maintenance, capital improvements, and purchase of water. Operational costs, in terms of personnel, have been reduced to the minimum necessary to operate the collection and distribution systems, but ongoing increases in compensation-related costs, such as pension and healthcare, make significant dollar reductions difficult.

Ongoing capital expenses are a necessity, as significant repair and replacement activities such as replacing broken water meters and keeping pump stations operational and in regulatory compliance, are necessary on an ongoing basis. Improvements are also necessary to improve the efficiency of operations, such as implementing remote monitoring of pump stations.

Finally, the purchase of water at ever-increasing rates is a significant cost of the operations, and while efforts to contain these costs are ongoing, they will not likely affect the cost of operations in FY13.

The costs of operations for water and sewer are projected at $85 million, with projected revenues at current rates totaling approximately $65 million. Recent rate increases do not generate sufficient revenues to cover the total costs of operations. Thus, in order to keep the systems financially solvent and provide funds for operation and maintenance, the overall rates for water and sewer will be increased in total by an average of 25%. Sewer rates are projected to increase by 45% while water rates are projected to increase by 12.5%. Even with this increase, it is not possible to set aside funds for pre-funding retiree health care, so formal balance sheets will still show deficits.

Waste Collection – The City has historically provided weekly trash pick-up for all residents, with the costs presumably paid from a special 3 mill property tax levy. However, the amount collected from the levy has reduced as property values have fallen, and costs of collection – personnel costs being a significant portion - have increased. As a result, the City's General Fund has subsidized the difference, by as much as $1.5 million in the past year.

Consequently, the 3 mill levy for waste collection will be discontinued, and a collection fee on residential properties will be implemented. It is anticipated that in the first year (starting July 1, 2012) the waste collection process will continue on a weekly pick-up schedule and will include composting. Fall leaf pick up will be restored. In the second year, it is expected that the waste collection service will be expanded to include recycling, and by that time a thorough evaluation of the means by which the service is carried out will be completed.

The fee for this service will be added to the property tax bill for owners of residential property, and is currently projected to be $143 in FY13, based on the projected cost of the service as reflected in the budget and the number of property owners billed. The amount will be adjusted on an annual basis to assure that it is reflecting the cost of the service.

Streets and Transportation – Funding for streets and transportation activities – with the notable exception of street lighting – is provided primarily from the state collected gas and weight tax allocated by formula to the City. That amount has been decreasing over the past years, making the ability to maintain local and major streets, sidewalks, and traffic control mechanisms very difficult. As with sewer and water, the City's road system is built to accommodate more than 200,000, and the City's population is now 102,000. This population drop has also contributed to the City's reduced level of gas and weight tax. As a result, the City's road system is currently rated a "3" on a scale of 1-10, demonstrating the effect of the lack of maintenance. The road maintenance activities for FY13 are focused primarily on preventive maintenance rather than targeted resurfacing, and will be chosen on the basis of most critical need and best return on investment.

Financing of infrastructure in the FY13 budget and beyond will be aided by use of a special assessment for street lighting, which is currently a general fund cost of nearly $3 million. The implementation of a city-wide special assessment district will provide for the operational costs of the current system and will enable upgrades and improvements to street lighting throughout the City. The assessment will be added to the property tax bill for all property owners, and is currently projected to be less than $100 per property in FY13. The amount to be assessed will be adjusted annually to reflect the projected cost for the operational, maintenance and improvement costs, and the number of property owners.

Parks - Maintenance of the City's 64 parks and its many trees in the rights of way will be funded primarily from the .5 mill special parks millage. Maintenance of the City-owned recreation/ community centers are also supported by the General Fund. Maintenance of parks, including play equipment, rights of way, and trees is minimal, and consists primarily of mowing, paying utilities, and responding to emergencies. There has not been any significant investment or maintenance of play structures in the parks for several years. Unfortunately, this level of investment will at best continue with the funds provided in this budget. Efforts will continue, as they have this year with golf courses, to find alternative ways to sustain the City's recreational assets. Continuing efforts will also be made to engage volunteers, neighborhood groups, and others to support specific parks and recreation centers.

Development - Building Inspection and Code Compliance activities will continue to the extent funds are available. Grant funds are budgeted at a reduced level to continue demolition activities and building inspection and code compliance fees are being reviewed again to see if the level and type of fees and fines are sufficient to cover costs and encourage voluntary compliance. In FY13, demolition activities will be done primarily by contractors in order that full cost recovery can be obtained from grant funds.

Planning and zoning activities will continue to the extent funds are available. Grant funds are budgeted to continue the upgrade to the City's master plan.

Community and Economic Development – Minimal ongoing financial support of economic development, in the form of CDBG funds, is also continued. Administration of the City's CDBG and NSP programs will continue, although grant funds are reduced. Evaluation of the administrative structure has resulted in reduced costs to the General Fund.

FINANCE AND ADMINISTRATION

All organizations have internal functions which support the delivery of services to the organization's constituency. In the City of Flint, these functions include assessing, accounting and budgeting, human resources, purchasing, information technology, risk management, fleet, facilities, treasury, and tax collections. Some of these functions are scalable to the size of the organization (such as human resources and risk management); others are not (such as tax billing and assessing). Regardless, with a decreasing base of business, and a corresponding reduction in workforce delivering services externally, there is compelling pressure to reevaluate processes and workforce numbers involved in all of these processes.

Changes are reflected in the size of the workforce appropriate to the current financial situation. It is also necessary to change internal processes to reflect an organization closer in size to 500 employees rather than 1,500. Changes beginning or planned include:

- Streamlined purchasing processes, including use of procurement cards for smaller purchases
- Simplification of processes for approving purchases
- Use of electronic means for processing payables and purchase orders
- Elimination of staffed stock rooms

- Changes in pension system administration and performance
- More reliance on Third Party Administration for workers' compensation related activities
- Elimination of manned security cameras where appropriate
- Evaluation of costs associated with custodial services
- More reliance on computer access for customer inquiries
- Consolidation of customer service functions
- More investment in technology to enhance productivity
- Commitment to funding necessary capital improvements which provide the workforce with proper equipment and facilities
- Implementation of a performance measurement system
- Commitment to rebuilding financial reserves by annual appropriation to a Budget Stabilization Fund

PUBLIC IMPROVEMENT FUND

The City Charter requires setting aside the proceeds of a 2.5 mill levy for the purposes of capital improvements and debt service. For the foreseeable future, these funds will be dedicated solely to current and anticipated debt service. A significant increase is expected as the City recognizes the need to increase its share of debt service for the downtown parking ramp debt, for making its required debt service of the initial Fiscal Stabilization Bonds, and for incurring future debt associated with additional bonding to alleviate the accumulated General Fund deficit. For FY13, it is projected that approximately $1 million will be available for the new debt service associated with additional Fiscal Stabilization bonds; in FY14 the amount available for debt service is projected to grow to approximately $1.5 million as current debt service for equipment ends.

GOVERNANCE AND OVERSIGHT

Core offices associated with governance and oversight traditionally include Council, Mayor, Administrator, City Attorney, City Clerk, Ombudsman, and Civil Service. Under receivership, there is also an Emergency Manager.

Several changes resulting in cost reductions were implemented by the Emergency Manager. These include: a reduction in salaries for the Council and Mayor, elimination of funding for the Ombudsman and Civil Service Commission, and the appointment of personnel to assist, either paid only on an hourly basis without fringe benefits, or loaned from another source. These cost reductions are continued in the FY13 budget.
Additionally, the costs of issuing business permits through the City Clerk's Office indicate that the costs of administration appear to significantly exceed the revenues collected. It will be necessary in the future to either reduce costs or increase permit fees to offset this imbalance.

CONCLUSION

The financial decisions made in this budget are significant but unavoidable. The budget reflects difficult decisions on the part of administrators and employees made to enable the City to provide services in FY13 at the levels its resources allow. The service levels will be low and not at a level anyone finds acceptable over the long term.

These decisions, however, provide the basis for going forward in a positive way. The budget is realistically balanced, with full expectation that when June 30, 2013 arrives, the City will not have once again spent more than it has taken in. It will have also put into place the financing to address the accumulated deficits of the past. Significant progress is being made to achieve financial solvency.

While there will certainly be financial challenges, decisions made in this process will assist in going forward. The decisions regarding employee compensation not only helped to address the short term financial challenge, but will assist in controlling expenses in the future, as the growth in future unfunded liabilities is slowed.

If the City government of Flint is to be a positive force in making Flint a safe and attractive place for residents, businesses, and visitors, it must have its own house in order. It cannot teeter on the edge of financial insolvency and hope to lead the way.

BUILDING THE FUTURE

The focus of the 2013 budget process remains on the future of Flint. While this budget includes sharp reductions in both revenues and expenses, WE SEE HOPE FOR THE FUTURE.

These hopes are based on some very tangible and promising factors:

- Expense reductions are designed to live with current realistic revenue projections;
- New revenue options for fiscal year 2014 and beyond will include actual fees for services, special assessment districts and other revenue options;
- Partnership with the State Police and other law enforcement agencies will be expanded to create a safer environment for our citizens;
- Additional resources will be secured to house individuals who are continually abusing our residents in the neighborhoods; the City Lock-up will open and remain open;
- New public and private partnerships will be developed to provide waste collection services, senior citizen services, youth employment and training programs;
- Internal City operations will be improved in regard to finance and accounting, more efficient operation of licensing and permitting, and expanded training for our employees, including supervisory training;
- The City's information and technology capability will be improved, enhancing the capacity throughout the City, from paying bills on time to public safety issues faced by our police and fire operations.

As the City moves beyond the 2013 budget year, and the management of our affairs improves, citizens will see better response times from police, removal of individuals who are harming our children and seniors from our neighborhoods, improved code enforcement at homes owned by absentee landlords and expanded opportunities for our young people.

Staffing in the FY13 Budget

As of April, 2012, the City of Flint has 686 permanent full-time employees. In this budget, that number will be 539, a reduction of 147 employees. Reductions are virtually in every area of city service. The distribution of positions for FY13 will be as follows:

Governance (including the offices of Mayor, Council, Clerk, Emergency Manager, City Attorney, and Human Relations Commission) – Permanent full-time staffing will be 18, a reduction of 3 from the current 21.

Public Safety (including District Court, Police, Fire, and 911) – Permanent full-time staffing will be 245, a reduction of 55 from the current 300. The reductions are exclusively related to the loss of grant funding for police officers and fire fighters.

Infrastructure (including Water and Sewer operations, Waste Collection, Street Maintenance and Engineering, Parks, Development, DCED, Facilities, and Fleet) – Permanent full-time staffing will be 222, a reduction of 54 from the current 275.

Finance and Administration (including Finance, Treasury, Purchasing, Assessing, Information Services, Human Resources, and Risk Management) – Permanent full-time staffing will be 54, a reduction of 36 from the current 90.

ESTIMATED IMPACT OF FINANCING CHANGES

The FY13 Budget contains changes in the financing of city services.

The overall property tax levy for city services is reduced by 3 mills as the levy for trash pick up is removed. However, there is a new fee implemented for trash pick-up which will reflect the actual cost of the service.

There is also a special assessment district covering the entire city which will assess the costs of maintaining and improving street lighting throughout the City

Additionally, water and sewer rates are increased in order that the systems remain financially solvent.

In the upcoming tax year, most property owners will pay more in total for property taxes, street lighting, trash pick-up and water and sewer charges than they paid in 2011.

However, property owners whose property had a taxable value of more than $53,450 in 2005 will pay less in the upcoming year than they paid in 2005.

Property owners whose property had a taxable value of less than $53,450 in 2005 will pay more in the upcoming year than they paid in 2005.

** Fiscal Stabilization Bonds Issued in 2011 in the amount of $8 million*
Request has been made as part of the FY11 Deficit Elimination Plan to borrow an additional $9 million in 2012
City also anticipates a final borrowing of up to $10 million in FY13 to address the final portion of the deficit
Assuming the FY13 budget is implemented as planned, the deficit should be eliminated
The Public Improvement Fund is being reserved for debt service for the 3 borrowings, but additional sources of funds - primarily the General Fund - will also be used

Subject: Re: E & Y Statement of Work

Ed,

Our team is available to start on Monday 11/11. We would like to schedule the following meetings subject to the City's availability:

- Monday afternoon: Water and Sewer. Please advise who would participate from on the City side. Objective would be to get a good understanding of the status of the Water and Sewer operations, key initiatives and key metrics

- Tuesday afternoon: Hurley. It would probably make sense to schedule a short initial meeting with City management first followed by a meeting at Hurley with Hurley management. Our team would stay in Flint on Wednesday to continue the diligence process with Hurley management

The EY team will be structured as follows:

Core team:
- Gaurav Malhotra
- Juan Santambrogio
- Deven Patel
- Jarod Kimble

Water and Sewer Team
- Joe Fontana (Global Utilities Leader)
- Mitch Fane (Utilities Valuation)
- Stephanie Chesnick (Utilities Valuation)

Hurley Team
- Matt Vitellaro (Hospital Valuation)
- Etan Finkel (Hospital Valuation)

Please let us know if you have any questions.
We look forward to hearing back on the City's availability and to get started soon

Juan

Subject	E & Y Statement of Work

Gentlemen,

Attached is the proposed Statement of Work concerning Hurley Medical Center and the Flint Water Service Center

The City of Flint has agreed to proceed with this project and the Department of Treasury agrees to reimburse the City for the costs of accomplishing this statement of work.

The Department of Treasury requests E & Y provide a list of staff who will be performing this work and a start date for the project

Please contact me if you should have any questions.

> Well, Monday is going to be a very full day with the swearing in of the new City Council, a Veteran's Day ceremony, as well as other meetings already scheduled. I would still like to hold off at least until after Wednesday, so that we can be as prepared as possible to begin any significant meetings with E&Y.
>
> Perhaps they can send us a list of information that we need to prepare for their visit, so that we can have an opportunity to pull the data together on the studies they propose to conduct---and then we schedule a meeting, preferably after Wednesday. That way we we can talk about both projects at the same time. I understand the urgency, but would feel much better if we can get as prepared as possible, including the preliminary discussions with Hurley, before proceeding with setting a firm meeting date for all projects within their proposed scope of work.

Good Afternoon Ed:

I think that next Monday for a meeting date is a little bit premature. I have a meeting scheduled with the Hurley CEO and CFO for next Wednesday. I would like to see this meeting take place before we engage any consultants to begin any onsite visits or work plans. Doing so would also give me a better perspective on the issue from Hurley's point of view prior to moving forward with the analysis. I would like to propose that we meet with E&Y the following week which would put us into the 18th or anytime thereafter. Please advise.

Notes

Monday, December 03, 2012 10:22 AM

Weekly phone call to Ed Kurtz
12-5-2012 - Concerns: Hearing on PA 72 validity @ 4:00 pm today, concerns, Ed needs to know; 2nd meeting w/ DWSD, potential to reduce cost for water by $5 million, another meeting w/ them, station re Imlay city station, could buy or lease portion of pipeline,

Outsource trash pick, contract will go to Roger next week, MERC filing challenge by AFSCME ULP relative to outsourcing relative to outsourcing and demolition, saves $1 million per year and includes recycling, union company that will hire most of the former employees,

Police officers ruled that PA4 contract was valid, but did not have authority, 312 started before PA 4,

Mayor is on board with potential court decision, Ed has extended offer to council to work with them,

Ed signed contract for $1,000 a month, amend contract to $3,000 per month retro November 8th,,

Starting work on next year's budget developing 5 yr plans,

Weekly phone call with Ed Kurtz -12-11-12

Contracts that Mike imposed Police , rulings from admin judges stating when PA 4 overturned no longer valid. ULP filed either bargain or go to 312.

Trash contract was supposed to be implemented this week AFSCME will file ULP, supposed to sell trucks postponed negotiate the impact of employees being laid off,

DWSD supposed to make final recommendation, potential to buy Imlay city pipeline, tough decision, still leaning toward KWA, could save $ in short run w/DWSD, but no guarantees about future increases, spending more time on this than Ed wanted. Need to meet w. Andy btwn 12/20 and 1/15/13. Would like to s

TYJ&T asking about membership of the of the Authority, Ed wants to se report before they meet with Andy.

Requested authority to reduce assessor level, request our help, hearing on 12/13.

Kincaid v. Kurtz - AG response to amended complaint, the judge has to dismiss it because already tried in different circuit court, double jeopardy,

Special Election unbudgeted, cost TBD after meeting with clerk,

12/19/12 Weekly Phone Call

DWSD - Ed Kurtz confirmed that DWSD is to provide their proposal by 12/20/12
Contract amendemnt - I confirmed with Ed that the ELB wil amend his contactat their january meeting to effectively increase his allowance from $1,000 per month to $3,000 per month during Nov 2012 thru March 2012.
Negotiations - negotiating with AFSCME & Police today. Plan to talk to fire fighters, 2/3 of budgetd O.T. has been used in the first 4 months of the year.

Budget amdnemnt - anmended the budgetr to move some funds, no impact on bottom line.
Lawsut Circuit Court - for select retirees ruled against the city.
Filing audit - 12/31/12 defict for 2012 fro $8 million to $19 million. Projected at $18.2, Genesee towers addded $2 million.

1/2/13 Weekly Phone call - Ed Kurtz

Water System: DWSD proposal is spread out over 5 years and is of concern. Only savings in year 1 is by signing the model contract. 2nd year savings by having no redundancy and must still supply the county with water. 5th year blending finally implemented.

City will provide DWSD with questions, not sure how to calculate DWSD's charges. Last three increases from DWSD have been in the double digits. Ed thinks DWSD is using the average cost to the 84 member communities and is applying it to Flint.

TYJ&T report provided to Rowe Eng. Rowe will report to the Drain Commissioner and letter to City by 1/4/13 with any inconsistencies they perceive in the report.

Audit: Deficit will be larger than anticipated because of the Genesee Towers debt. Findings include a problem with reconciling bank accounts on a timely basis.

*No way to eliminate the deficit w/o the bonds. (borrowing). $1.9 million deficit. Would like to know before preparing paperwork about the potential for borrowing. CHECK W/ ROGER.

Waste Collection Proposal; Meeting next week w/ AFSCME, city received their proposal, amended corrections to the proposal, cost is too high and they plan to outsource.

Plan is two have to more meeting w/ AFSCME, one to discuss rejection of proposal and one to discuss impacts of outsourcing.

FOPA meetings: Ed willing to give something back to them. Avg cut for everyone else was 20-22%, FPOA took at 27
% reduction.

Fire Negotiations: have used 2/3 of O.T. already. Capable of implementing 12 hour shifts and they will be discussing the use of part-time FF with the union.

Income Tax: Ed wants to work with Legislative leaders to implement an increased tax 1.5% fro residents and .75% for non redsidents. Would like to have it on the August of November ballot. Must get support of two reps who will be running for vacant senate seat.

Hurley Hospital: What happens to hospital if the go into bankruptcy? Want to have an internal conversation to determine what si best for the hospital. Perhaps create an authority and they want to kniow what the hospital is looking for.

*C-GAP applications: Submitted two applications 1)911, $2.1 million towers, 2) Human Resources cooperation w/ ISD computerization of the process. What is status of application

Demolition grant submitted with Land Bank.

Two applications submitted by the County cooperating with Flint. 1) purchasing, 2)public safety.

1/11/13 - Trent Farnsworth Flint IAFF President, shared with me his concerns that revenue generating

optons such as, charging for rescues, charging for guarding downed power lines and EM services are not being pursued. He also mentioned that items (money saving) negotiated in the last collective bargaining agreement have not been implemented. Told him I would share info with Roger.

2/14/13 - Phone conference with Ed Kurtz, Jerry Ambrose:

DEP-met 2 weeks ago with Harlan & Suzanne, waiting to hear, how long

Waste Collection-Republic had orientation for former employers last weekend, ended up hiring 20, unin shop, March 1 last day city picks up trash. Republic collects 3/4 recycling starts 90 days,

KWA - Genesee county is ready to move forward, Roger, 72" water mains,

Ed off tomorrow and Monday. Ed will call roger next Tuesday.

**Flint Lockup - When can they get their money, operating the lockup with the assumption the State will reimburse. (appropriation) HOW CAN THEY GET THEIR $

**67 & 68 District Courts - City is eager to merge the two courts, city court is busy, out county is not, legislation supposedly exists that prohibits merger of district courts.,

Fees - 8,000 H20 customers more than 60 days delinquent, many are senior citizens, business licensing fee, suspect 1/2 of businesses in city are illegal, inability to enforce, exploring options for both,

2/20/2013 Phone conference with Ed Kurtz

DEP - proposed DEP is winding its way thru the org, Harlan will try to expedite.

Letter requesting governor appoint TAB from Mayor and City Council - this afternoon

KWA - spoke to roger, waiting for Andy, Governor, decision by state important and TIMELY,

2014 Budget - focusing on preparation, rollout budget first part of April,

Smith Village - low income housing project going on for 16 years, this is low moderate provision of market place housing project University Village. On track to have 40 (25 prefab/16 stick built) homes open by May 2013, prefab homes built, not sold, significant construction problems,

Fees, Charges - administrative problems and collections, rental inspection, blight elimination, code enforcement all problematic,

Fire Chief interviews next week,

Somebody in mind to appoint as Deputy Police Chief.

Golf course = execute contract with contractor

Senior center - contract with non profit

Charter Issues - like to see Jerry on working group

2/26/13 Phone Conference with Ed Kurtz

DEP -

KWA - Intake bids opened yesterday bid $3 million less than TYJ&T estimated (see Ed's email) total with with all contingencies is $31 million, bond authorization @ 435 million NEED TO EXPEDITE STATE'S DECISION

2014 Budget - reorganization of 3 divisions into 4 planning & development (blight, code enf.) GF projecting $4 millllion shortfall in revenues, work to do, projected to 2018 $16 million.

Fire Chief - interviews tomorrow thru Monday, intent to have someone on board by 3/15.

Deputy Police Chief - met with union command unit (Lt. & Captains) 5 members, Dep. chief exempt position but most be filled from ranks (Lt. or Captain), history of provisional promotions, must fill vacancy in 91 days, current provisional appts. that exceed 3 years, proposed allowing outside appt. and taking card of provisional appts. Union voted 5-0 against.

Trash collection - starts next Monday, truck sold on this Saturday, hired 20 of 24 former city employees,

Mayor State of City - when nes law is effective, eliminate EFM, replace with FAB, plan on submitting proposal to Governor before PA 426 becomes effective. Scott Kincaid filed lawsuit asking water rates to be rolled back to 201 levels, creates $15 milllin shourt fall, Mayor, Council President, Council vice president attend first budget retreat, mission, goals, org chart preliminary rev est resulted from meeting, assigning chair to each of the reorg box review each of the city's activites, on track to have a 5 yr. budgt by 4/1/13, Follow up meeting in 3 weeks.

Model Charter - development governors committee Jerry would like to participate.

3/6/13 Phone Conference with Ed Kurtz

Republic Services - 4 complaints, less than ususal

KWA - **March 22 deadline bids** will go out to engineers to size the pipeline. PA 72 does not have a $50k approval provision.

Request for TAB - council asked attorney to draft proposal for their 3/25/13 meeting. Ed preparing a 5 year budget, What budget plan should they prepare based upon letter from council. Appointment of TAB would increase costs, Ombudsman, civil service ($550k) salaries set by charter and provide staff.

EFM meeting - Andy mentioned template and asking EFM what needs to be done and time frame to declare emergency is over.

Mayor Meeting w/ Governor - meeting to discuss the TAB 3/8/13.

DEP - budget is being built on DEP and budget out by 4/1/13. Ask Suzanne what the hold up is.

Water Cost Driving low income people out of city - Ed to send me his house. Met with DHS max fee is $200 for water fee, City will amend from #350. Water rate study will be performed.

Fire Chief - 6 interviewd, 2 coming back plan to hire by 3/15/13.

Genesee Towers - closing on 3/20/13. Imploding building in April/May.

Budget - committees coming back togethr 3/26 w/ objectives, budget recommendations, activity,

funding, meaurement of outcomes.

Hired Poice Officers - hired 7 started on street 3/3/13, 10 is the goal,

3/13/13 Phone call Ed Kurtz, Mike Brown, Jerry Ambrose

EM exist strategy/quarterly report format/quarterly meeting -

KWA - Treasure discussing with Governor -

Council update - debated KWA for 3 hours and tabled until next week. (backstory doing something before EM appointed in Detroit and 3/22). Special council meeting next Monday (anticipated 8/1 or 7/2 in favor of KWA). Did not approve it Monday for political reasons.

FY 2013 budget - on track with budget 3/4 of the way thru the year.

5 year budget plan - focused on reorg the way the city does business, who does what activity, Hr inundated with union requests down to 4 people, outsourcing city engineers save $350K, budget adoption early April

Sanitary Sewer backups - $20-$30 million issue to fix everything, heavy rain sewers backup, 72" pipe becomes a 48" pipe under the river. Study will be completed by July 2013. Stolen manhole covers, locking cost $800, 300-400 have storm water grates, single hole takes 3 million gallons during storm event. 1/3 of the problem in the SW portion of the city.

Fire Chief - Second interview 3/22, waiting for new chief to evaluate dept before making CBA changes

Police Officers - recruiting campaign starting but will have to run an academy which is 16 weeks long, still have 5 positn to fill now and more in June due to retirements.

Solid Waste is going well

Jeff Barnes meeting with Milke Brown, putting budget together commitment for year 2 for the lock up. 4 million in the executive budget, $ 2 million used to open the lock up, Barnes confirmed to Mike that it is in the exec budget and mlke is preparing the report.

Master Plan mtg - 500 people attended 75% from the city.

(3/13/13) Retiree Health Care Law suit - Per Ed changes to retiree healthcare on hold under federal judge makes a decision. Reduction challenged, now retiree healthcare is exceed the city's cap, so trying to implement $150 charge for each retiree . Told they can not differentiate between 45 year retiree who may be receiving $17,000 in healthcare versus 65 year old retiree who is on Medicaid. Not sure of how the cap an subsequent charge will be viewed by the jusge in the case.

3/15/13 Jerry Ambrose - Retiree Healthcare lawsuit, AG has intervened, court assigned questions re: PA 4 & PA 436, that is when AG got involved, challenge is getting retired employees to accept beneftis that active employees have, imposed hard cap and retiree helathcare will exceed caps, will send letter in the next month to retirees stating they will have to pay $150 monthly, financially reitree expenses (1900) will exceed cap by $3.5 million, If they don't pay it , city pays it, Range is +2 to --1million, pre 65 is the group suing over violating previous MOU 1200, similar case progresing
with Pontiac, attorney's are feeling more positve than negative,

3/18/13 Phone Call w/ Ed Kurtz

Budget will be adopted in early April

Currently in middle of process of setting priorities, setting activities assigning activities, will be putting numbers to the budget in the next two weeks

Revenues are down $3 million, the have a $1 million deficit elimination payment so the target for cuts is $4 million.

Challenge is 70% of their budget is comprised of Police, Fire, 911 and Courts.

3/20/13 Phone call Ed Kurtz et al

EM salaries paid by State, info forthcoming -

What can I do to help?

KWA - DWSD issued press release stating KWA info is incorrect. (aatachd email), Ed K will support KWA publicly,

FY 2014 Budget - meeting 3/26 to put numbers to the budget, next year okay, 14% TV loss, following year 8% cut in TV,
Need to find new revenue for FY 14-14, $19 million gf deficit, actuarial FY 14 retiree healthcare, pension and current healthcare total $40 million, current and reitreees cost is $65,000, $32 million pension and retiree healthcare, $8 million current empolyee healthcare, total FY 14 GF revenue $50 million, 5 year budget by 4/13

Jeff Barnes - discussion good, exec budget includes lock up costs, prisoner transfer if overcrowded

Mayor Council Salary, $90K reduced to $55k + benefits, $23K reduced to $7K, no benefits

3/21/13 Phone conference Ed Kurtz, Mike Brown, Roger

RE: MSP feedback on flint

1. Concerns about how FPD operates, cops function on the street, not interviewing witnesses, taking statements, and as a result this work fall upon the detectives. There is no FTO program or monitorig of younger officers by senior officers (per Ed Kurtz, policy issue not CBA issue). Suggestion: get operating chief, CBA mandates Dep. Chief comes from ranks of Captain unit, Ed waiting for PA 436 to become effective. Jerry and Kim providing advice per the grant from the Mott Foundation. Asking Mott to renew for another year.
2. Joint Detective Bureau, detectives spending a lot of time on petty work, not on homocides etc.
3. Continued funding for Jerry & Kim(?) see #1 above, grant was btwn MSU & Mott, not Mott and COF. Ed in the processs of preparing a list of additonal services that the grant could fund.
4. Propoerty Room - potential for securing funding to "clean up the room" Per Ed they areselling stuff via the property room. Complementaty of the lock up, opening it to other jusrisdiictions. "Life Line" concept good, implementation not good & counter productive. Record Managmeent system- impression is Chief wants separate system, state-wide system that are integrated. MSP has system w/ 55 participants. *Would like to explore this program for Flint.*

4/10/13 phone call with Ed Kurtz

Andy wants to know when the budget will be ready for Treasury review? Early May because they are doing significant reorganizaton, 5 year budget, and impact Lawsuit, everyone has submitted numbers, staff needs to assemble

KWA -

Kincaid, Lawler per the Mayor that getting indication that weeks away from getting a TAB,

Starting to meet with John Clark to review CBA's next week

Lawsuit filed by 6 retirees over amendments to helathcare, last week federal judge ruled against the city, it pertains to 6 plantiffs, will attempt to make it a class action suit, file for reconsiderationto have stay removed. If the retirees prevail in this suit ($3.5 M this year, $5M next year) OPEB liability from $850M to $360M, this wold be last straw city no longer viable, bankiruptcy is only option,

Drafting a resoltuion to reestablish the Mayors salary (1/2), Kincaid suggested that Ed order council not meet, not going to do that will probably reinstate salary at $7K require they meet once a month, getting training as part of restoring their pay a condition of pay,

Phone call w/ Ed K 4/17/13

KWA - signed resolution to go with KWA. Fausone sent Andy email DWSD plans to terminate Flint's contract in 12 months with the intent to charge Flint an increase fee for capital costs, they receive notice today

Meeting with city staff to get plant up to treating Lake Huron and river water, meeting w/ county stafff tomorrow next steps evaluate plant & wellls to have the ability to produce sufficient H2O instead of buying from DWSD

Budget - propsed budget due to us next week, had good meeting with E&Y, 2 track effort, city prepares their budget, E&Y does their thing and the two are merged, E&Y has expertise in benefits management savings

John Clark met w/ them to dwvelop a "model" contract.

Meeting w/ GC Services 4/18/13

Present: Scott Cole (GC), Roger F., Ed Kurtz, City Treasurer, Mike Brown Jerry Ambrose

Flint wants to explore collections for water, courts, misc.

GC provided with current RFP

GC will provide a proposal

E&Y Study, Ed K> will talk to Treasurer about paying for E&Y study, if state does not pay, we will use Scarsone

Flint's positon on E&Y studyis that thye will validate Flint's proposed 5 yr. plan

FPD - issue in p[olice and fire is provisional appointments, (90 days), have been in place for years.

Homideicde solve rate at 70%, 10% above national avergae

5/1/13 Ed Kurtz phone call

KWA now done, press briefing today told Orr that they want DWSD as backup and still want to buy pipeline,sell 6 miles of pipeline to the County, enter into contract with KWA, still neogitiate with detroit to but the pipe from Imlay city to Potter Baxter. County wants to buy Flint portion.

Will begin discussing shared service for water with the County (personnel, operationg the water plant (flint)

Sent emails yesterday 1) sent budget and timetable,

5 year budget plan, $3 million shortfall each year/cut $12 million during the next 4 year, losing $7 in grants, FY 14-15 reduce staff

Working with MEDC to keep Citizens/Merrit Bank in the city

Resignation from Ed Kurtz to be submitted June 1st

**Ed needs to meet and someone in treasury needs to set it up

Draft FY 14 and preliminary 5 year plan submitted to Treasury

Examining FY more closely, pretty

E&Y there everyday, 3 week contract @ $35K a week, Treasury will pay 1/2 + expenses, Ed must find $52.5K
Preliminary analysis strategic alternatives for Hurley; review healthcare and benefits plans and review shared services and IT opportunities; review of exec team 5 year plan, evaluate and offer changes

Andy/Brom sent them Detroit paperwork for an RFP for a reorganization

Ed needs to know how much state will pay for to develop Model contracts?****

Brom wants Ed to set appointment w/ Tom Curran to discuss health care cost savings,

5/7/13 Phone call w/ Ed Kurtz

John Clark, engage for model contract, state will reimburse. Send ed K. note that asking to reimburse for model contract.

Tell me about new Labor Relations guy. 30 year general motors, 15 genensee county contract, will handle greivnaaces

Fire Chief on board, good so far

Mtg wl Lt & Captains tomorrow re: meet & confer 12(1)k

Relatioship btwn Locke and St. Police agreed on dep. chief candidate

Resolution from 911 board of support for reconsolidation

Ed signed E&Y contract today, draft report 30 days? 50% + expenses

5/15/13 Phone conference w/ Ed

Continue over $50K no bid, will send to me for approval

Editorial bd , Council Monday evening 9finance committee council invited

Council meets once a month

Move ahead on income tax amendments, woodrow, anich, emerson, get on november ballot,

Police Deputy Chief - meet and confer w/ lts. unit, appears they will not agree, deputy chief must come from that unit, offer to make them all captains for a day, rejected (what is 12(1)k procedures)

Working on model contract in final draft form will send to us for review, going to PTO policy, no ecomic changes mostly management rights changes, 50-60 pages to 25

End of month will send resignation effective 7/3/13, 30 day requirement

New labor relations guy on board,

$1.8 m grant to build tower 800Mhz coverage, consortium voted unanimously to support tower

Waiting for KWA board to approve flint joining

$260k netted from surplus equipment auction, $1,300 raised to buy Santa &reindeer gave back to city.

5/21/13 phone call Ed Kurtz

Ask about Garceau, Allegations; offered increase and fpoa walked & filed for 312, Ed said pick increase or 312, retaliatory act filed grievance and lost,

Sending letter of resignation today effective 7/3

Quarterly report 7/15 instead of 6/28 ???

Six month report 9/28 ???

Proceeding w/ adopting budget

Problem w/ justifying 12(1)k

Is lockup funding 2nd yr in Gov's budget??

Met w/ Woodrow And Jim Annich re: income tax increase, Woodrow said need backing from Gov. and Treas. Backing. Want face time w/ Gov.

6/5/13 meeting with Andy, Ed Kurtz, Mike Brown, Jerry Ambrose, Phil Shaltz, Duane Miller, Larry Moon, Mayor Walling, Bob Emerson

Discussion of steps necessary to place Income Tax increase on the November ballot

Need to cut $5 million out of $20 million in health care expenses

Using hard cap to meet EVIP

Andy requested they 1) line up a firm to fine tune pension system (MERS currently doing that); 2) line up firm to fine tune OPEB, perhaps MILLIman; 3) put capital investment amount into the 5 year plan and adjust OPEB line.

City needs to determine the amount of investment needed in the city

Structural budget gap is $3 million income tax increase creates $7 million, the remaing $3 million could be used for investment.

Andy will contact Ed Kurtz after 6/5 meeting with Governor

OPEB is $360 million all city, no Hurley Hospital

Phone call Ed Kurtz et al. 6/12/13

Replacement for Ed Kurtz, ?

Phone Call Ed Kurtz 6/19/13

Laying off 27 people effective 7/1/13 hit the papers

Meeting w/ John Clark on gettng a model contract. Still missing on what to do with healthcare, paid days off, moving towards all paid time off

Deputy Police Chief backed out, may look at one of two remainaing finalists or add others

$20-25 million, can demolish 1,600 structures, go into high sev areas and demo homes, homes will have to be sold to Genesee Land bank who will sell to State Land Bank to create a mortgage that can be forgiven. Potentially 6,000 vacant homes

KWA contract not signed by Ed yet, working with legal department , ground breaking next week for the intake in Port Huron, 5 incorporators Flint, Genesee Cnty, Lapeer City, Lapeer Cnty, Sanilac Cnty, 10 additional members based upon who ever buys capapcity currently Flint (3) and Genesee County (7) votes Ed wants to wrap up contract before he leaves

Ed volunteered to work on KWA issues after he officially resigns

6/26/13

Lawsuit -treating it as a class , but not certifying it as a class, Hitichock recommedned stop collecting from retirees and returning the prior benefits to all, notify BCBS, not sure how fast they will react, $1.7.5 million, $5 million FY 14, Bade believes class could be overturned. Effective date of injunction March 13

Preparing memorandum and wil use opportunity update and revise the operating and finance plan

Skip next week's call

7/17/13 Call w/ Mike Brown and Jerry Ambrose

- Explanation of Police Union vote of No Confidence; Ongoing issue since Mike started in 2011. He imposed union contract changes and gave management more control (o.t. out of control, Chief need admin. Support) many issues still exist. No confidence vote and continuing violence instigated meeting with Capt. Arnold and Col. Etue this week. Union president has led this issue, not good union official, 85% of officers voted no confidence, African American officers did not vote and white officers who stated they did not vote, Mike not giving vote much credibility and working with John Clark to address issues thru contract language changes,

- Mike is going to appoint chief of staff for Chief, create over sight committee including lt. Bolger and Capt. Arnold, mike ,the chief and some Flint admin staff. Work closely with al and chief of staff to ensure changes are being implemented. Candidates for COS vetted with Col. Etue. COS to implement new union contract, interaction btwn St. Police and Flint Det. Command structure "a mess" promotions granted on provisional basis without testing because no union contract for 10 years,

- Mott grant to work on police issues, result 12 hour shifts, prioritization of minor crime calls,

- Deputy chief candidate backed out because of 436 process that challenged change

- Status of Ed Kurtz final report: Maxine to send now. Quarterly report turned into final exit report

- Mike working with council on FY 15budget and adopted within 90 days,
- Kurtz working on blight plan as a volunteer (weeds , dumping ,code enf., abandon cars) working w/ MSHDA to address blight in "tipping neighborhoods"

Phone call w/ Mike brown & Jerry Ambrose 7/24/13

Water & Sewer Operations Group - Jeff Wright folks, City council folks, County commision membes, looking at collaboration, working together , what the county could do for the city in the future,

Press conference yesterday MSP, Flint briefing to day, 7 murders occurred last week, 4 people in custof=dy for 4 of the murders,

Mike is proceeding with appointing Chief of Staff in FPD, non sworn, 150 officers very inefficient, plans to make a selection, oversight committee

Involving Mayor & council in policy decisions for FY 15 budget, charter amendments, transition to TAB,

Resolutions to renew and expand IT contract, move public safety technology upgrades,

Working on FY 16 budget, many challenges,

Phone call with Mike Brown et al 8/7/13

- Pipeline valuation 8/21

- Model union contracts (Treas paying 1/2), FPOA contract almost complete, local 1600 next , and finalize Fire. When ready meet w/ Treasury and John Clark,
- MERS won't take over full admin or enroll in medical savings account until CBA's are finalized
- Will request meeting w/ Treasury in 1 week from today.

- CBA finalization will resolve Deputy Chief issue in Police Department.
- Part-time officer and fire fighters will be allowed under new contracts.

- Resolutions reaffirming his reappointment administrative staff and Mayor and City Council salary adjustment

- DEP status, what is holding it up, Are we supportive of the path that they are pursuing

Grant request to MHSDA for $25 million will address 50% of blighted structures, plan to use in tipping point neighborhoods, hire neighborhood safety officers (ordinance enforcement) September/October decision for grant

Met w/ Mayor & council individually to increase their participation an think about transition, Master Planning process/updates, Finance Committee includes council involvement in preparing FY15 budget, their role,

Mike needs to know "Is the City on the Right Path"????? Getting Serious about transition

Increasing council base salary from $7k to $100 a meeting and put them at $10,000, more in line of compensation is similar sized cities, recognize their efforts, get positive public perception of council involvement, Increase Mayor's compensation, as well. Orders will be forthcoming.

Audit: Goal to have it completed by Thanksgiving, 45 days early,

Income Tax, need Treasurer and Governor's support,

Want to talk to DWSD, 1) purchase of pipeline from Imlay City to Baxter/Potter water main and 2) DWSD becoming backup for KWA for 30 years.

Police officers added 10 positions, 20 total, SAFER grant ends 95 ff to 76ff, need help w/ feds FEMA from Governor, need waiver, recei ved full safer grant two years in a row

FY 15 Grant expiration concerns,

Operating w/o liability insurance June 30 $1m coverage, $1m deductible, carrier declined to renew, buying $10M w/ $3M deductible

Conference Call 8/14/13

Process to turn around $50K approval

Public Safety meeting, Monday, Harvey Hollings staff, Col. Etue, Captain Arnold, Lt. Bolger,

Andy called yesterday to have Mike Brown and Chief Locke at his office on 8/21/13 @ 11:30 am meeting Col. Etue,

John Clark city close to finalizing CBA's ready to negotiate with 6 unions, 90% of pension has been transferred to MERS,

Pipe Sale, SRR wanted $18K, using someone else,

Working on details of implementation of using the water plant, DWSD no longer providing to Flint after 4/14 accelerating CIP to the plant $15M,will provide details later in writing,

Mike wants to meet w/ Kevyn Orr purchase of pipe by KWA, potential of DWSD being backup to KWA

Income tax position by the State.

Genesee County land bank submitted $25M application to demo home (majority) in Flint

Will send resolution increasing the salary for the Mayr, City Council and Administrative Satff

Fact to Face meeting w/ Mike & Wayne in Lansing 8/21/13

Policing: Mike will meet with Col. Etue and take her lead on the status of the poice chief. Model contract will be complete this week. Intent is to meet and confer and proceed with 12(1)(k)

E & Y: discussed that they will be back and will examine Hurley long term liabilities

Liability Insurance: gave the ok to pursue $10M cap and $3M deductible

H2O Line valuation: gave the ok to proceed with $11k proposal

District court: Mile will provide potential savings to the city from court consolidation**

Meeting w/ Kevyn Orr: Suggested Mike meet with Sue McCormick

8/28/13 Phone call Mike Brown

Model Contracts - Length? no more than 1 year agreements, wants to do 3 years agreements,

Hurley Hospital Board appointments,

Copy of MOU w/ MSP

Budget amendment for salary adjustments

5 day turn around for resolutions

FY 13 expect to reduce the $19M to the $16M's, controlled expenses, better than expected experience in health care, cash position form $15M to $40M at end of FY13 (delayed h2O/sewer projects), retiree helathcare did well, fringe benefits came in under est. ($5-$6M), public safety millage (2 levies) ($5M) added fund balance in road fund($1M)

***4 point plan for model contract Cornerstone evaluating it; 1),currently using hard cap, costs are below hard cap and no premiums are paid by employees, thinking about adopting 80/20 option, 2) tell non vested employees not guarantee retiree healthcare, 3) vested employees will get retiree healthcare, those who retiree after 1/14 will be told premium share for pre 65 will be limited same premium share of post 65 employees. Setting date of 1/14 and implement contracts in 10/13 people will retire and new employees hired who will have no healthcare; 4) effective 1/14 new police & fire employees will be moved to the hybrid plan (1.75 multiplier and city matches contribution up to 5% with a total combined limit of 10% . Partial est. due week of 9/9/13

**Concern about ability to deliver water by next April, County open to include city n bonding for

water plant improvements, $11M in H2O/Sewer fund could be a source, $28M in water bonds, would state be open to divert payment for 3 years, in order to spend bond payments on capital improvement necessary for connection to KWA. Are we willing to help???

MOU and detailed list w/ dates (Who is sending Beth or Mike?)

In person meeting w/ Mike, Wayne 9/4/13

Status of Rowe contract

Concern about temporarily delaying SRF payments for 3 years to make needed improvements at H2O plant

Sue McCormick has contacted Mike about meeting to discuss city buying DWSD pipe

Have not received E&Y amended proposal Ed will email Gaurav)

Model contracts awaiting our approval (send to Randy), 3-4 meetings w/ police to finalize contract

Safer grant applied for on 8/30/13

Anticipate $2+M excess revenues over expenses year end FY2013, cash flow continues to improve,

Beginning work on FY 15 budget, including Mayor and Council in the process

Need to develop cost estimates of savings due to retirement changes (MERS)

Cornerstone working on cost savings from OPEB changes (partial cost savings due next week)

Getting costs estimates for water plant upgrades next week

SUBJECT: Resolution Authorizing a Change Order to the Contract with Lockwood, Andrews and Newman to provide for final design work, construction engineering and necessary regulatory submittals related to the expansion of the Water Treatment Plant

LAN was retained earlier this year with approval from the Department of Treasury at a cost of $171,000 to study the feasibility of utilizing the Flint River as the City's source of water on a temporary basis, and to develop preliminary associated cost estimates for expanding the Water Treatment Plant.

LAN's work concluded that using the Flint River on a temporary basis only was feasible, and provided a cost estimate of between $7 million and $10 million, depending on the expenses associated with lime disposal. However, their work also concluded that work must begin immediately if the April 2014 deadline is to be met.

Accordingly, LAN was requested to provide us with a proposal for conducting final design work, construction engineering, and necessary regulatory submittals associated with the expansion of the Water Treatment Plant. Their proposal is for an amount not to exceed $962,800.

We have been working with MDEQ to be assured that the course of action being pursued is consistent with their expectations. Most recently (this morning), we met with MDEQ representatives and reviewed the proposed course of action. While formal approval cannot be given until detailed working drawings are presented, the representatives indicated their conceptual approval.

Because time is of the essence, I recommend approval of the Change Order, and request that it be submitted to Treasury as soon as possible. I am attaching LAN's Scope of Work proposal, as well as a letter from Rowe Engineering stating that the Scope of Work is comprehensive and the price is reasonable.

Please contact me if you have any questions.

PRESENTED: 11-14-13

ADOPTED: _____

BY THE EMERGENCY MANAGER:

Resolution Authorizing Change Order #2 to the Lockwood, Andrews & Newnam Contract for the Implementation of Water Plant Operations

The City of Flint entered into a contract with Lockwood, Andrews & Newnam to study the feasibility and develop cost estimates for utilizing the Water Plant as a primary drinking water source in an amount not to exceed $171,000.00; and

Authorization is needed to enter into change order #2 to the existing contract no. 13-046 with Lockwood, Andrews & Newnam for additional funding of $962,800.00 for a total contract price not –to-exceed $1,133,800.00. The additional services will include final design work, construction engineering and necessary regulatory submittals to operate the Water Plant off the river until the KWA water source is completed; and

These funds are made available in account in 591-536.100-801.000; and

IT RESOLVED, Appropriate City Officials are to do all things necessary to enter into change order #2 to the existing contract no. 13-046 with Lockwood, Andrews & Newnam for an additional contract price of $962,800.00 for a total contract price not-to-exceed $1,133,800.00. Funding will come from the account 591-536.100-801.000.

RESOLUTION STAFF REVIEW

November 13, 2013

Agenda Item Title: Water Plant Electrical Distribution Upgrade

Prepared By: Daugherty A. Johnson Utilities Administrator

Background/Summary of Proposed Action:

Water Plant depends on switchgear for its power distribution to the facility's motor control centers, which control the treatment processes, the pumping stations and reservoirs which provide potable water to the citizens of Flint. The current switchgear is obsolete, unreliable and in urgent need of replacement. Without adequate and reliable switchgear the City of Flint will not be permitted by the DEQ to operate as our primary drinking water source.

Financial Implications:

Please issue a purchase order for the approved FY2014 budgeted amount of $1,512,000.00. Use account number 591-545.300-977.000 ($1,512,000.00) when issuing this purchase order.

DATE: November 14, 2013

SUBJECT: Electrical Distribution Upgrade for the Water Treatment Plant

The City of Flint is now a member of the KWA, and anticipates receiving its raw water from the KWA pipeline within the next three years. Water will continue to be received from DWSD until April 17, 2014, the date on which DWDS has notified us that it is terminating its Water Supply contract with the City. Given this decision by DWSD, the City now has less than six months to find an alternate source of water.

Working with DEQ and our consulting engineers (Lockwood, Andrews, and Newnam), the City has determined that it is feasible to utilize the Flint River as its alternate supply source. It has also determined that utilizing the river until KWA is available will be to the financial advantage of the City, in comparison to continuing to use DWSD, even at its current charges.

However, accomplishing that within the April 17, 2014 deadline will require expediting the upgrades necessary for the WTP to receive raw water, be it from the Flint River in the short term or KWA in the long term. The biggest impediment to meeting this deadline is the procurement and installation of electrical and distribution equipment. The lead time for building and installing the equipment alone is estimated to take three to four months.

The City's Purchasing Department has just concluded its procurement process for the needed electrical and distribution equipment. Six companies were solicited, however, only one company responded.

The Utilities Administrator, Infrastructure Director and Purchasing Director are recommending that the Purchase Order for the equipment needed for the electrical distribution upgrade be issued to McNaughton McKay in an amount not to exceed $1,512,000 to be delivered in time for installation to be complete and in operation no later than the end of March 2014.

I support their recommendation and request your approval to submit it to the Department of Treasury for their approval as soon as possible. In order to assure timely approval of the equipment, a Purchase Order needs to be issued by Friday, November 15.

RESOLUTION TO McNAUGHTON-McKAY ELECTRIC FOR CEDAR ST. PUMPING STATION SWITCHGEAR UPGRADES

BY THE EMERGENCY MANAGER

RESOLUTION

The Department of Purchases and Supplies has solicited a bid Cedar St. pumping station switchgear upgrades as requested by the Utilities Division/Water Plant; and

McNaughton-McKay Electric, 1011 E. Fifth Ave., Flint, MI was the sole vendor to submit a response from six solicitations for said requirements. The funding for this purchase will come from the following account number: 591-545.300-977.000; and

IT IS RESOLVED, that the Proper City Officials, upon the Emergency Manager's approval, are hereby authorized to enter into a contract with McNaughton-McKay for pumping station switchgear upgrades in an amount not to exceed $505,000.00. (Water Fund)

SUBJECT: Switchgear Upgrade for Cedar Street Pumping Station

The Cedar Street Pumping Station is in need of a Switchgear Upgrade. The City's Purchasing Department has concluded its procurement process for the needed equipment.

This is the second time bids have been solicited. Like the first time, however, only one response was received.

The Utilities Administrator, Director of Infrastructure, and Purchasing Director are recommending that a Purchase Order be issued to McNaughton-McKay in an amount not to exceed $505,000 for the needed equipment.

I support their recommendation and request your approval to submit it to the Department of Treasury for their approval as soon as possible.

RESOLUTION STAFF REVIEW

November 13, 2013

Agenda Item Title: Cedar Street Pumping Station Switchgear Upgrade.

Prepared By: Daugherty A. Johnson, Utilities Administrator

Background/Summary of Proposed Action:

The Water Plant relies on medium voltage switchgear and MCCs for electrical distribution at its Cedar Street pumping station. Without replacement of the very obsolete equipment, Cedar Street could have a catastrophic failure, resulting in power outages for the station. Power outages at this station will cause a serious reduction in the City's capability of fighting fires and providing adequate water pressure to its citizens.

Financial Implications:

There is adequate funding in the yearly budget, account number 591-545.300-977.000 in the amount of $505,000.00.

Budgeted Expenditure? Yes ☒ No☐ Please explain if no:

Account No.: 591-545.300-977.000- $505,000.00

INSTRUCTIONS TO VENDORS

1) **PRE-BID INFORMATION AND QUESTIONS:** Each bid that is timely received will be evaluated on its merit and completeness of all requested information. In preparing bids, Bidders are advised to rely only upon the contents of this ITB and accompanying documents and any written clarifications or addenda issued by the City of Flint. If a Bidder finds a discrepancy, error or omission in the ITB package, or requires any written addendum thereto, the Bidder is requested to notify the Purchasing contact noted on the cover of this ITB, so that written clarification may be sent to all prospective Bidders **THE CITY OF FLINT IS NOT RESPONSIBLE FOR ANY ORAL INSTRUCTIONS.**

2) **ITB MODIFICATIONS:** The City of Flint has the right to correct, modify or cancel the ITB, in whole or in part, or to reject any Bid, in whole or in part, within the discretion of the City of Flint, or their designee. If any such changes are made, all known recipients of the ITB will be sent a copy of such changes. If any changes are made to this ITB document by any party other than the City of Flint, the original document in the City of Flint's files takes precedence.

3) **BID SUBMISSION:**
   a) The Bidder must include the following items, or the bid may be deemed non-responsive.
      i.e. All forms contained in this ITB, fully completed
   b) Bids must be submitted to the Purchasing Department, City of Flint, 1101 S Saginaw Street – Room 304, Flint, Michigan 48502 by the date and time indicated as the deadline. The Purchasing Department time stamp will determine the official receipt time It is each Bidder's responsibility to insure that its bid is time stamped by the Purchasing Department by the deadline. This responsibility rests entirely with the Bidder, regardless of delays resulting from postal handling or for any other reasons. Bids will be accepted at any time during the normal course of business only, said hours being 8:00 a.m. to 5 00 p m Local Time, Monday through Friday, legal holidays as exception
   c) Bids must be enclosed in a sealed, non-transparent envelope, box or package, and clearly marked on the outside with the following: ITB Title, ITB Number, Deadline and Bidder's name.
   d) Submission of a bid establishes a conclusive presumption that the Bidder is thoroughly familiar with the Invitation to Bid (ITB), and that the Bidder understands and agrees to abide by each and all of the stipulations and requirements contained therein
   e) All prices and notations must be typed or printed in ink. No erasures are permitted Mistakes may be crossed out and corrections must be initialed in ink by the person(s) signing the bid.
   f) Bids sent by email, facsimile or other electronic means will not be considered unless specifically authorized in this ITB
   g) All costs incurred in the preparation and presentation of the bid are the Bidder's sole responsibility; no pre-bid costs will be reimbursed to any Bidder All documentation submitted with the bid will become the property of the City of Flint
   h) Bids must be held firm for a minimum of 120 days.
   i) Term - Contract and/or all other procurement documents shall be effective until completed to the satisfaction of the City of Flint. The City of Flint reserves the right to cancel or not renew all or any part of the procurement agreement/contract at any time.

4) **EXCEPTIONS:** Bidder shall clearly identify any proposed deviations from the Terms or Scope in the Invitation for Bid. Each exception must be clearly defined and referenced to the proper paragraph in this ITB. The exception shall include, at a minimum, the Bidder's proposed substitute language and

opinion as to why the suggested substitution will provide equivalent or better service and performance. If no exceptions are noted in the Bidder's bid, the City of Flint will assume complete conformance with this specification and the successful Bidder will be required to perform accordingly Bids not meeting all requirements may be rejected.

5) **DUPLICATE BIDS:** No more than one (1) bid from any Bidder, including its subsidiaries, affiliated companies and franchises will be considered by the City of Flint. In the event multiple bids are submitted in violation of this provision, the City will have the right to determine which bid will be considered, or at its sole option, reject all such multiple bids

6) **WITHDRAWAL:** Bids may only be withdrawn by written notice prior to the date and time set for the opening of bids. No Bid may be withdrawn after the deadline for submission.

7) **REJECTION/GOOD STANDING:** The City of Flint reserves the right to reject any or all bids, or to accept or reject any bid in part, and to waive any minor informality or irregularity in bids received if it is determined by the City of Flint, or their designee, that the best interest of the City will be served by doing so. No Bid will be considered from any person, firm or corporation in arrears or in default to the City on any contract, debt, taxes or other obligation, or if the Bidder is debarred by the City of Flint from consideration for a contract award pursuant to Section 18-21.5 (d) of Article IV of the "Purchasing Ordinance of the City of Flint.

8) **PROCUREMENT POLICY:** Procurement for the City of Flint will be handled in a manner providing fair opportunity to all businesses. This will be accomplished without abrogation or sacrifice of quality and as determined to be in the best interest of the City. The City of Flint and their officials have the vested authority to execute a contract, subject to City Council and Mayoral approval where required

9) **BID SIGNATURES:** Bids must be signed by an authorized official of the Bidder. Each signature represents binding commitment upon the Bidder to provide the goods and/or services offered to the City of Flint if the Bidder is determined to be the lowest Responsive and Responsible Bidder

10) **CONTRACT AWARD/SPLIT AWARDS:** The City of Flint reserves the right to award by item, group of items, or total bid to the lowest responsive, responsible Bidder The Bidder to whom the award is made will be notified at the earliest possible date. Tentative acceptance of the bid, intent to recommend award of a contract, and actual award of the contract will be provided by written notice sent to the Bidder at the address designated in the bid if a separate Agreement is required to be executed After a final award of the Agreement by the City of Flint, the Contractor/Vendor must execute and perform said Agreement. All bids must be firm for at least 120 days from the due date of the bid. If, for any reason, a contract is not executed with the selected Bidder within 14 days after notice of recommendation for award, then the City may recommend the next lowest responsive and responsible Bidder

11) **NO ITB RESPONSE:** Bidders who receive this ITB but who do not submit a bid should return this ITB package stating "No Bid" and are encouraged to list the reason(s) for not responding Failure to return this form may result in removal of the Bidder's name from all bidder lists.

12) **FREEDOM OF INFORMATION ACT REQUIREMENTS:** Bids are subject to public disclosure after the deadline for submission in accordance with state law

13) **ARBITRATION:** Contractor/Vendor agrees to submit to arbitration all claims, counterclaims, disputes and other matters in question arising out of or relating to this agreement or the breach thereof The Contractor's agreement to arbitrate shall be specifically enforceable under the prevailing law of any court having jurisdiction to hear such matters Contractor's obligation to submit to arbitration shall be subject to the following provisions:

(a) Notice of demand for arbitration must be submitted to the City in writing within a reasonable time after the claim, dispute or other matter in question has arisen A reasonable time is hereby determined to be fourteen (14) days from the date the party demanding the arbitration knows or should have known the facts giving rise to his claim, dispute or question In no event may the demand for arbitration be made after the time when institution of legal or equitable proceedings based on such claim dispute or other matters in question would be barred by the applicable statute of limitation.

(b) Within fourteen (14) days from the date demand for arbitration is received by the City, each party shall submit to the other the name of one person to serve as an arbitrator. The two arbitrators together shall then select a third person, the three together shall then serve as a panel in all proceedings Any decision concurred in by a majority of the three shall be a final binding decision.

(c) The final decision rendered by said arbitrators shall be binding and conclusive and shall be subject to specific enforcement by a court of competent jurisdiction.

(d) The costs of the arbitration shall be split and borne equally between the parties and such costs are not subject to shifting by the arbitrator.

14) **BID HOLD:** The City of Flint may hold bids for a period of one hundred twenty - (120) days from opening, for the purpose of reviewing the results and investigating the qualifications of bidders prior to making an award

15) **NONCOMPLIANCE:** Failure to deliver in accordance with specifications will be cause for the City of Flint and they may cancel the contract or any part thereof and purchase on the open market, charging any additional cost to the Contractor/Vendor

16) **DISCLAIMER OF CONTRACTUAL RELATIONSHIP:** Nothing contained in these documents shall create any contractual relationship between the City and any Subcontractor or Sub-subcontractor

17) **ERRORS AND OMISSIONS:** Bidder is not permitted to take advantage of any obvious errors or omissions in specifications.

18) **INTERPRETATION:** In the event that any provision contained herein shall be determined by a court of competent jurisdiction or an appropriate administrative tribunal to be contrary to the provision of law or to be unenforceable for any reason, then, to the extent necessary and possible to render the remainder of this Agreement enforceable, such provision may be modified or severed by such court or administrative tribunal having jurisdiction over this Agreement and the interpretation thereof, or the parties hereto, so as to, as nearly as possible, carry out the intention of the parties hereto, considering the purpose of the entire Agreement in relation to such provision.

19) **LAWS AND ORDINANCES:** The bidder shall obey and abide by all of the laws, rules and regulations of the Federal Government, State of Michigan, Genesee County and the City of Flint, applicable to the performance of this agreement, including, but not limited to, labor laws, and laws regulating or applying to public improvement, local government, and its operational requirements.

20) **LOCAL PREFERENCE:** Bidders located within the corporate city limits of Flint, Michigan may be given a seven percent (7%) competitive price advantage Additionally, if the lowest responsible bidder is not located within the limits of the City of Flint, but is located within the County of Genesee, and said bidder does not exceed the bid of the lowest non-local bidder by more than three and one-half percent (3-1/2%), then said lowest Genesee County bidder may be determined to be the lowest responsible bidder, and make the award to such Genesee County bidder accordingly, subject to the approval of the city council

21) **MATERIAL WORKMANSHIP AND STANDARDS OF PERFORMANCE:** The bidder agrees to exercise independent judgment and to complete performance under this Agreement in accordance with sound professional practices. In entering into this Agreement, the City is relying upon the professional reputation, experience, certification and ability of the bidder. The bidder agrees that all of the obligations required by him/her pursuant to this Agreement shall be performed by him/her or by other employed by him/her and working under his/her direction and control. The continued effectiveness of this Agreement during its term or any renewal term shall be contingent, in part, upon the bidder maintaining his operating qualifications in accordance with the requirements of federal, state and local laws. All materials furnished must be new, of latest model and standard first grade quality, or best workmanship and design, unless otherwise expressly specified Bidder, if required, must furnish satisfactory evidence of quality materials; offers of experimental or unproven equipment may be disregarded

22) **MODIFICATIONS/CHANGES/PRICE VARIATIONS:** Any modification to this agreement must be in writing and signed by the authorized employee, officer, board or council representative authorized to make such modifications pursuant to the State law and local ordinances. Commodities subject to market price variation shall be considered on all term agreements subject to a 30-day advance written notification from the vendor. Such notice must be substantiated by a written price change from the manufacturer and shall be required for both price increases and decreases

23) **NON-COLLUSION:** The bidder acknowledges that by signing this document that he/she is duly authorized to make said offer on behalf of the company he/she represents and that said bid is genuine and not sham or collusive and not made in the interests or on behalf of any person not therein named, and that he/she and said bidder have not directly induced or solicited any other person(s) or corporation to refrain from responding to this solicitation and that he/she and said bidder have not in any manner sought by collusion to secure to himself/herself and said bidder any advantage over any other bidder.

24) **NON-DISCRIMINATION:** Pursuant to the requirements of 1976 P.A. 453 (Michigan Civil Rights Act) and 1976 P A. 220 (Michigan Handicapped Rights Act), the local unit and its agent agree not to

discriminate against any employee or applicant for employment with respect to hire, tenure, terms, conditions, or privileges of employment or a matter directly or indirectly related to employment because of race, color, religion, national origin, age, sex, height, weight, marital status or because of a handicap that is unrelated to the person's ability to perform the duties of nondiscrimination provision identical to this provision and binding upon any and all contractors and subcontractors A breach of this covenant shall be regarded as a material breach of this contract.

25) **SUBCONTRACTING:** No subcontract work shall be started prior to the written approval of the subcontractor by the City The City reserves the right to accept or reject any subcontractor.

26) **UNION COMPLIANCE:** Contractor agrees to comply with all regulations and requirements of any national or local union(s) that may have jurisdiction over any of the materials, facilities, services or personnel to be furnished by the City.

27) **WAIVER:** Failure of the City to insist upon strict compliance with any of the terms, covenants or conditions of this Agreement shall not be deemed a waiver of that term, covenant or condition or of any other term, covenant or condition Any waiver or relinquishment of any right or power hereunder at any one or more times shall not be deemed a waiver or relinquishment of that right or power at any other time

28) **PREVAILING WAGE:** If applicable, the successful bidder providing any contractual labor services must comply with all requirements and pay prevailing wages and fringe benefits on this project per the City's Resolution R-12 adopted 4/8/91. The bidder is aware of City of Flint Resolution #R-12 dated April 8, 1991, a copy of which is annexed hereto and incorporated herein, and agrees to abide by all of the applicable covenants and requirements set forth in said resolution. This prevailing wage information is available on the city's website @ www cityofflint.com/purchasing.

29) **CITY INCOME TAX WITHHOLDING:** Contractor and any subcontractor engaged in this contract shall withhold from each payment to his employees the City income tax on all of their compensation subject to tax, after giving effect to exemptions, as follows:

(a) Residents of the City:
At a rate equal to 1% of all compensation paid to the employee who is a resident of the City of Flint

(b) Non-residents:
At a rate equal to 1/2% of the compensation paid to the employee for work done or services performed in the City of Flint

These taxes shall be held in trust and paid over to the City of Flint in accordance with City ordinances and State law Any failure to do so shall constitute a substantial and material breach of this contract.

30) **CONTRACT/PROCUREMENT DOCUMENTS:** The invitation for bids, instructions to bidders, proposal, affidavit, addenda (if any), statement of bidder's qualifications (when required), general conditions, special conditions, performance bond, labor and material payment bond, insurance certificates, (if required), technical specifications, and drawings, together with this agreement, form the contract, and they are as fully a part of the contract as if attached hereto or repeated herein

31) **DISCLAIMER OF CONTRACTUAL RELATIONSHIP WITH SUBCONTRACTORS:** Nothing contained in the Contract Documents shall create any contractual relationship between the City and any Subcontractor or Sub-subcontractor

33) **EFFECTIVE DATE:** Any agreement between the City and the contractor shall be effective upon the date that it is executed by all parties hereto

34) **FORCE MAJEURE:** Neither party shall be responsible for damages or delays caused by Force Majeure nor other events beyond the control of the other party and which could not reasonably have anticipated the control of the other party and which could not reasonably have been anticipated or prevented For purposes of this Agreement, Force Majeure includes, but is not limited to, adverse weather conditions, floods, epidemics, war, riot, strikes, lockouts, and other industrial disturbances, unknown site conditions, accidents, sabotage, fire, and acts of God Should Force Majeure occur, the parties shall mutually agree on the terms and conditions upon which the services may continue.

35) **INDEMNIFICATION:** To the fullest extent permitted by law, Contractor agrees to defend, pay on behalf of, indemnify, and hold harmless the City of Flint, its elected and appointed officials, employees and volunteers and others working on behalf of the City of Flint, including the Project Manager, against any and all claims, demands, suits, or losses, including all costs connected therewith, and for any damages which may be asserted, claimed, or recovered against or from the City of Flint, its elected and appointed officials, employees, volunteers or others working on behalf of the City of Flint, by reason of personal injury, including bodily injury or death and/or property damage, including loss of use thereof, which may arise as a result of Contractor's acts, omissions, faults, and negligence or that of any of his employees, agents, and representatives in connection with the performance of this contract. Should the Contractor fail to indemnify the City in the above-mentioned circumstances, the City may exercise its option to deduct the cost that it incurs from the contract price forthwith

36) **INDEPENDENT CONTRACTOR:** No provision of this contract shall be construed as creating an employer-employee relationship It is hereby expressly understood and agreed that Contractor is an "independent contractor" as that phrase has been defined and interpreted by the courts of the State of Michigan and, as such, Contractor is not entitled to any benefits not otherwise specified herein

37) **NO THIRD-PARTY BENEFICIARY:** No contractor, subcontractor, mechanic, material man, laborer, vendor, or other person dealing with the principal Contractor shall be, nor shall any of them be deemed to be, third-party beneficiaries of this contract, but each such person shall be deemed to have agreed (a) that they shall look to the principal Contractor as their sole source of recovery if not paid, and (b) except as otherwise agreed to by the principal Contractor and any such person in writing, they may not enter any claim or bring any such action against the City under any circumstances. Except as provided by law, or as otherwise agreed to in writing between the City and such person, each such person shall be deemed to have waived in writing all rights to seek redress from the City under any circumstances whatsoever

38) **NON-ASSIGNABILITY:** Contractor shall not assign or transfer any interest in this contract without the prior written consent of the City provided, however, that claims for money due or to become due to Contractor from the City under this contract may be assigned to a bank, trust company, or other financial institution without such approval. Notice of any such assignment or transfer shall be furnished promptly to the City

39) **NON-DISCLOSURE/CONFIDENTIALITY:** Contractor agrees that the documents identified herein as the contract documents are confidential information intended for the sole use of the City and that Contractor will not disclose any such information, or in any other way make such documents public, without the express written approval of the City or the order of the court of appropriate jurisdiction or as required by the laws of the State of Michigan.

40) **RECORDS PROPERTY OF CITY:** All documents, information, reports and the like prepared or generated by Contractor as a result of this contract shall become the sole property of the City of Flint.

41) **SEVERABILITY:** In the event that any provision contained herein shall be determined by a court or administrative tribunal to be contrary to a provision of state or federal law or to be unenforceable for any reason, then, to the extent necessary and possible to render the remainder of this Agreement enforceable, such provision may be modified or severed by such court or administrative tribunal so as

to, as nearly as possible, carry out the intention of the parties hereto, considering the purpose of the entire Agreement in relation to such provision. The invalidation of one or more terms of this contract shall not affect the validity of the remaining terms.

42) **TERMINATION:** This contract may be terminated by either party hereto by submitting a notice of termination to the other party Such notice shall be in writing and shall be effective 30 days from the date it is submitted unless otherwise agreed to by the parties hereto. Contractor, upon receiving such notice and prorated payment upon termination of this contract shall give to the City all pertinent records, data, and information created up to the date of termination to which the City, under the terms of this contract, is entitled.

43) **TIME PERFORMANCE:** Contractor's services shall commence immediately upon receipt of the notice to proceed and shall be carried out forthwith and without reasonable delay.

44) **EVALUATION OF BIDS/PROPOSALS:** In the City's evaluation of bids/proposals, at minimum, cost, serviceability, financial stability, and all requirements set forth in this document shall be considered as selection and award criteria unless otherwise as specified

Subject: Engineering Services and Water Treatment Plant Equipment

Hello Ed,

Per our conversation Wednesday, today we submitted for Treasury approval 1) authorization to utilize LAN for engineering services related to upgrading the Water Treatment Plant, and 2) authorization to issue purchase orders for electrical distribution and other equipment equipment related to the upgrade.

Because of the time necessary for construction, delivery, and installation of the equipment, it is critical that we issue purchase orders as quickly as possible. Friday November 15 will assure delivery within the needed time frames.

Anything you can do to expedite the approval of these resolutions will be greatly appreciated.

Thanks and please contact me if you have any questions.

Jerry

STATE OF MICHIGAN
DEPARTMENT OF TREASURY

RICK SNYDER
GOVERNOR

R. KEVIN CLINTON
STATE TREASURER

DATE: November 15, 2013

TO: Suzanne Schafer, Administrator

FROM: Angelica Zahrt, Auditor

SUBJECT: **MEMO for the City of Flint**

- In 2013, transfers in the amount of $4,077,998 were made.
- Two of the transfers were made from the Sewer and Water Funds, which is concerning since in 2012 the Water Fund had a deficit, and the City is projecting a deficit in the Sewer Fund for 2013. Why is the City making transfers out of funds with deficits?
- Two of the transfers were from the Employee Health Care and the Voluntary Employee Beneficiary Association Funds. These funds typically do not allow for transfers to be made, their purpose is specific. Can the City provide an explanation for why these two funds made transfers to the General Fund? And if the transfers are allowed?
- The Public Improvement Fund in 2012 reduced its fund balance by 1.2 million, and now the City would like to use this Fund for debt service payments from the General Fund to Water and Sewer. How is this fund going to sustain with debt service of $835,000 from the General Fund and roughly $800,000 from the General Government?
- Can the City clarify if the Water& Sewer loan ($10.8 million) referenced in Attachment #1 has already been "loaned" or if this is on top of the 2012 Advances of $11 million
- Attachment #1 shows **Budgeted Appropriations Eliminating $8.1 million for the General Fund.** However if you total the row for the General fund line item- it is actually only $3.1 million and no detail is given for the budget appropriations. Can we get the City to provide specific details on the $3.1 million reductions will be from 2015-2017?
- The submitted DEP letter addressed to Harlan Goodrich states that the remaining deficit of $3 million will be eliminated over the next 3 years by committing to expenditure reductions or revenue increases- Will the City be supplying us with a projected multi-year budget showing the $3 million in budget appropriations?
- In addition, the City needs to confirm if the remaining deficit is $3 million or $3.9 million after the proposed W&S "loan. Several documents say $3 million and several say $3.9 million.

CITY OF FLINT

OFFICE OF THE EMERGENCY MANAGER

Darnell Earley, ICMA-CM, MPA
Emergency Manager

November 21, 2013

Mr. R. Kevin Clinton, State Treasurer
Michigan Department of Treasury
4th Floor Treasury Building
430 West Allegan Street
Lansing, MI 48922

Dear Mr. Clinton:

Attached please find Update 4 for the City of Flint Financial and Operating Plan. This update is submitted by the Emergency Manager for the City of Flint to Governor Rick Snyder, through the Department of Treasury for the State of Michigan, in accordance with Public Act 436, Section 11.

The City of Flint had previously submitted a Financial and Operating Plan under PA 4 and PA 72; the City was not required under PA 436 to submit a new plan. However, with my appointment as Emergency Manager on October 8, 2013, it was appropriate to prepare an update to the current plan.

This report includes a summary of the financial conditions and goals for the City of Flint, the plan to conduct the operations of the City and the on-going actions being taken to resolve the financial emergency. This update will be posted on the City's website: www.cityofflint.com .

Respectfully submitted,

Darnell Earley, ICMA-CM, MPA
Emergency Manager

cc: Governor Rick Snyder
W. Workman, Dept. of Treasury
E. Koryzno, Dept. of Treasury
I. Brown, Clerk of the City of Flint

closely and recommendations developed to meet this required activity while containing and reducing costs.

I strongly encourage the State to continue the process of working to consolidate the 67th and 68th District Courts. As of mid-November 2013 a bill which would allow this consolidation to proceed has passed the MI Senate and two versions of the bill approach second reading in the House.

Department of Public Works

Utilities Division

Karegnondi Water Authority (KWA)

In March 2013 both the City Council and EM Kurtz adopted resolutions to enter into a contract with KWA to partner with Genesee County, City of Lapeer, Lapeer County and Sanilac County in the construction of a pipeline to deliver raw water to the City of Flint. This decision followed many months of analysis by the City of Flint, the Genesee County Drain Commissioner's office, and ultimately involved the State Treasurer and Governor Snyder. This conclusion to join KWA is momentous for the City and the entire region. The City looks forward to a safe, reliable water supply through which water costs can be stabilized for the KWA participants.

Immediately after the KWA decision the Detroit Water and Sewer Department (DWSD) notified the City that it will terminate the contract with the City for the delivery of water in 12 months. The City is currently developing its plans to assure water service between April 2014 and the full operation of the KWA pipeline (approximately 36 months after construction begins).

There are many details to be addressed in the implementation of this project including the use of existing pipeline.

Water Department

Upgrades to the City's Water Treatment Plant are required prior to the transition to the KWA water source and any temporary use of the Flint River. KWA water from Lake Huron will be "raw" and will require treatment by the city prior to customer distribution. Engineering work is well underway.

An evaluation is taking place to implement an effective Preventive Maintenance plan which focuses on controlling water loss (leakage). This is expected to involve a combination of outsourcing, in-house work, and shared services with the County.

There are currently no major water main leaks and the crews are now working on the small leaks such as curb boxes, etc.

A plan is being reviewed to replace all water meters in the City. Currently $700,000 has been allocated in FY 14 for that purpose.

Discussions have begun with the Genesee County Drain Commissioner on a wide range of shared services and partnerships for both water and sewer operations.

Sewage Treatment Division
The automation of one of the City's pump stations (which was staffed 24 hrs a day) has been completed. This will result in the elimination of overtime and a savings of over $500,000 annually.

The planned shutdown of the City's incinerator has begun with engineering plans for a new load-out facility and is expected to reach completion in early Spring 2014. The estimated savings from this project is an annual $400,000.

U. S. Department of Environmental Quality S2 Grant
An S2 DEQ grant to study infrastructure condition for water pollution control was accepted. The study was defined to encompass the City's entire sanitary sewer system including the overall collection system, the capacity and condition of the system, potential upgrade recommendations to the lift stations and the pumping stations, and to make recommendations for necessary investments to maintain the system.

Storm Water Management Plan
A draft new storm water ordinance that shifts the cost allocation to the larger users has been developed.

Swedish Biogas International (SBI)
In conjunction with the City of Flint sewage treatment plant shut-down of the sludge incinerator, Swedish Biogas International (SBI) proposes to accept sludge output and produce electricity. The city will agree to purchase the electricity at a reduced rate compared to purchase from Consumer's Energy. The SBI contract has completed the City's review process and is now awaiting SBI's Board of Directors' authorization.

Transportation Division

Solid Waste Management Division
In early February 2013, the Infrastructure Department signed a contract with Republic Services, a private waste collection company. The City of Flint no longer collects or disposes of household waste. Through this new contract, residents city-wide now have access to curb-side recycling. It is expected that the fee for waste collection service will continue to be billed and collected by the City.

Outsourcing of Sanitation is complete and the process of establishing city composting is underway with a permit application to DEQ submitted and a site plan of action being prepared for the EPA.

Street Maintenance and Engineering
Discussions have started with the County Road Commissioner on possible shared services.

Both road paving and engineering are seasonal activities and these are at ever decreasing levels. These are under review as areas to downsize or eliminate. Consideration is being given to developing service sharing arrangements or creating the ability to source on an as needed basis. Only crack sealing and pothole repair was conducted this season; no repaving of any City streets occurred.

Facilities Management
A private company held an on-line auction in January 2013 to dispose of surplus equipment from a variety of departments in the City. This one day auction netted $130,000. A second auction was held in May 2013 which netted an additional $250,000. An auction at the impound lot was held in June 2013, netting over $30,000 for the City.

The Facilities manager is reviewing all city owned assets (both real property and capital equipment) to determine if disposal should be pursued.

All city owned facilities are under review for energy savings, revenue generation from tenants, or possible liquidation.

Parks and Recreation
The City contracted with two vendors who have the capacity to mow all of the city parks (64) multiple times at a rate that fits the current millage. The City also actively sought neighborhood groups and organizations who would adopt one or more of the City's parks, traffic triangles or medians. The current Parks millage generates enough money for reduced parks mowing and limited tree removal where property has been damaged or streets are blocked.

Golf Courses
All four of the city's golf courses were leased to private organizations. Two courses were operational summer 2012 and both reopened for the summer of 2013.

Senior Centers
The Pierce Senior Center closed on April 30, 2012 as funding was no longer available. The City of Flint continued to explore its options with the two open Senior Centers: Brennen and Hasselbring. In June 2013 contracts were successfully negotiated with United Senior Network for the operation and sale of

Subject: FW: Two Resolutions for Approval: EME0412013 and EME0422013
Attachments: EME0412013.PDF; EME0422013.PDF

Categories: Orange Category

Angela,

I have received clarification (below0 from the City regarding my questions. After review, I am recommending approval of these resolutions.

If there are questions, please let me know.

1. EME0412013 - Resolution to Wachs Valve nd Hydrant Services for Year One of a Three Year Valve Exercising/Maintenance Agreement - $$60,000.00 (Water Fund)

The City of Flint has approximately 20,000 valves ranging in size from 4" to 54" in its distribution system. Obviously we won't get all 20,000 valves exercised for $60,000. The COF as it moves forward with its required asset management plan must have all valves inventoried and located as part of that program We should also know how/if they function properly/at all The goal is to use the first $60,000 to address as many of the transmission main valves as we can in the COF which would be 16" and larger. It is not expecting to get a huge number of them done as most will be time consuming.

2. EME0422013 - Resolution to HD Supply Waterwork for Water and Sewer Distribution Parts - $200,000.00 (Sewer Fund, Water Fund)

The Purchasing Department assembled a bid that included every size of gate valves, catch basins (along with grates, various rings, risers, and covers that are parts for catch basins), and fire hydrants (along with different sizes of extensions). These parts represent an inventory of items that are used during the course of the fiscal year by the City's Water Service Division The Division is requesting a blanket purchase order to be issued to purchase these types of parts that will not exceed their approved budget of $200,000. When the bids were received, the City reviewed the prices and is seeking approval to award the request to the vendor who submitted the lowest unit price for the items that were requested.

CITY OF FLINT

OFFICE OF THE EMERGENCY MANAGER

Darnell Earley, ICMA-CM, MPA
Emergency Manager

November 21, 2013

Mr. R. Kevin Clinton, State Treasurer
Michigan Department of Treasury
4th Floor Treasury Building
430 West Allegan Street
Lansing, MI 48922

Dear Mr. Clinton:

Attached please find Update 4 for the City of Flint Financial and Operating Plan. This update is submitted by the Emergency Manager for the City of Flint to Governor Rick Snyder, through the Department of Treasury for the State of Michigan, in accordance with Public Act 436, Section 11.

The City of Flint had previously submitted a Financial and Operating Plan under PA 4 and PA 72; the City was not required under PA 436 to submit a new plan. However, with my appointment as Emergency Manager on October 8, 2013, it was appropriate to prepare an update to the current plan.

This report includes a summary of the financial conditions and goals for the City of Flint, the plan to conduct the operations of the City and the on-going actions being taken to resolve the financial emergency. This update will be posted on the City's website: www.cityofflint.com .

Respectfully submitted,

Darnell Earley, ICMA-CM, MPA
Emergency Manager

cc: Governor Rick Snyder
W. Workman, Dept. of Treasury
E. Koryzno, Dept. of Treasury
I. Brown, Clerk of the City of Flint

Financial and Operating Plan for the City of Flint – Update 4
November 21, 2014

Introduction
This update to the Financial and Operating Plan for the City of Flint is submitted by the Emergency Manager for the City of Flint to Governor Rick Snyder, through the Department of Treasury for the State of Michigan, in accordance with Public Act 436, Section 11.

The City of Flint had previously submitted a Financial and Operating Plan under PA 72 and was not required under PA 436 to submit a new plan. However, with the appointment of a new Emergency Manager on October 8, 2013, it was appropriate to prepare an update to the current plan.

This report includes a summary of the financial conditions and goals for the City of Flint, the plan to conduct the operations of the City, the on-going actions being taken to resolve the financial emergency, and the outline of a plan to prepare for a Transition Advisory Board. This update will be posted on the City's website: www.cityofflint.com .

Summary of the EM/EFM Appointment Sequence and Development of the Operating and Financial Plan
The Flint Financial Review Team determined in November 2011 that the City of Flint was in a financial emergency. (See Attachment #1)

On December 1, 2011 Governor Rick Snyder appointed Michael K. Brown as Emergency Manager. EM Brown developed the Financial and Operating Plan utilizing the resources of a five person Advisory Committee as well as five additional advisory committees. EM Brown sought broad expertise to ensure public engagement and to maintain a sense of continuity with the Mayor and City Council. All nine City Council members and over fifty other citizens participated in the advisory committees.

EM Brown's original Financial and Operating Plan (45 Day Plan) was submitted to the State Treasurer on January 15, 2012; the first update to the Plan was submitted on June 1, 2012. On August 8, 2012, PA 4 was suspended and Edward J. Kurtz was appointed Emergency Financial Manager under PA 72. (Mr. Brown stepped aside as he was prohibited from serving as EFM due to his recent service as Interim Mayor for the City of Flint.)

EFM Kurtz established a new Advisory Committee in accordance with the requirements of PA 72. Utilizing the Advisory Committee and the City of Flint management team, EFM Kurtz presented a second update to the Financial and Operating Plan and submitted this to the State Treasurer on February 8, 2013.

When P.A. 436 took effect on March 28, 2013 Mr. Kurtz was re-appointed by Governor Snyder as Flint's Emergency Manager. Mr. Kurtz continued in that capacity until his resignation after the end of fiscal year 2013. At that time Mr. Kurtz submitted his closing memorandum and the third update to the Financial and Operating Plan. Governor Snyder then reappointed Mr. Brown as Emergency Manager. On October 8, 2013 I was appointed by Governor Snyder as Flint's third Emergency Manager following Mr. Brown's resignation.

This report is now the fourth update to the Financial and Operating Plan.

Priority List for the Resolution of the Financial Emergency

- Stabilize the financial future of the City: maintain a balanced budget, seek increased revenue, and reduce unfunded pension and OPEB liability.

- Re-establish Flint as one of the safest cities in Michigan — both in reality and perception: provide public safety services, focusing on reducing violent crime, commensurate with cities of comparable size and resources, utilizing regional cooperation as appropriate.

- Implement the Blight Elimination Plan: manage demolitions, enforce blight ordinances.

- Maintain access to a clean, sustainable water source: implement the steps necessary to participate in the Karegnondi Water Authority (KWA) including interim water supply plan development, disposition of current pipeline sections, City Water Treatment Plant updates, a long term water supply back up plan, and a long term financial plan for the stability of the water and sewer funds.

- Implement the Master Plan of the City of Flint: update the Zoning Ordinance, evaluate the capital investment needs, and incorporate Master Plan activities in the annual budget development.

- Explore Governance Models for the City of Flint: establish a citizen's committee to evaluate Michigan city governance models, recommend course of action for Charter revision as a part of transition discussions.

Operations of the City of Flint

Shortly after his appointment as EM, Michael Brown took steps to reorganize the city government operations including: elimination of departments, consolidation of departments, elimination of management level positions, adjustment of the compensation of elected and appointed officials, elimination of the Civil Service operation and the Office of Ombudsman.

Management appointments were made to ensure that the essential services necessary for the public's health, safety and welfare are provided, and to continue conducting all aspects of the City of Flint's operation within the resources available. Necessary employment contracts were extended with the approval of the Treasury Department.

Department management reconfigurations were completed in anticipation of reductions in staffing levels as provided in the FY 13 Budget. Subsequently, as part of the FY 14 Budget process a Strategic Plan was adopted and more changes in the organizational structure occurred. The primary change was the inclusion of a new Planning and Development Department (See Attachment #2 Organizational Chart FY 14). I have made personnel adjustments to complete this reorganization of the Planning and Development Department.

When PA 436 became effective in March 2013 the City Council members' and Mayor's compensation was eliminated. EM Kurtz partially restored compensation for Mayor and Council through Orders 1 and 2. These orders also defined specific responsibilities and requirements. For example, the City Council members must complete Level One of the Michigan Municipal League (MML) core course for municipal government and must receive the MML education award with in one year. I have determined that this Order is still in effect and the newly seated Council will be required to individually sign acceptance of these requirements as a condition of receiving compensation.

All Orders and Directives issued by the Emergency Financial Manager (under PA 72) and Orders issued by the Emergency Manager (under PA4 and PA 436) are listed in Attachment #3: Orders and Directives of the EFM and EM.

Financial Status

Cash Flow as of November 1, 2013

The City's cash flow has improved significantly from the $13 million cash on hand in December of 2011. Thirteen million dollars is less than one month's operating expenses. By comparison, the cash on hand on June 30, 2013 was in excess of $40 million. Cash on hand as of November 1, 2013 is more than $48 million.

FY12 Budget and Audit

The Comprehensive Annual Financial Report (CAFR) for FY12 was completed and was filed with the State in a timely manner. The results were as expected, with fewer auditor comments than in past years. Deficits exist in the General Fund ($19.1 million) and in the Water Fund ($8.8 million).

The $19.1 million accumulated deficit reflected an excess of expenditures in the General Fund for FY12 of $10.2 million plus $8.9 million for FY11. This was anticipated by Emergency Manager Brown shortly after being appointed, which was almost six months into the FY12 year. Given that FY12 was nearly half over,

and that significant unplanned reductions in services, primarily public safety, would need to occur if the projected deficit were to be immediately eliminated, the decision of the Emergency Manager, in consultation with Treasury, was to contain costs as much as possible but without significantly reducing services – especially public safety - for the balance of the year.

Instead, focus was concentrated on developing a budget for FY13 which would move toward restoring Flint to long term financial solvency.

The deficits identified in the City's Comprehensive Annual Financial Report for FY12, the year ended June 30, 2012, are follows:

General Fund -	$ 19,184,850
Water Supply Division -	$ 8,758,091
Economic Development Corporation	$ 119,439

Pursuant to State statute, Deficit Elimination Plans for both FY11 and FY 12 were submitted to the Department of Treasury. Both plans involved a mix of borrowing and expenditure reductions over the next five years. However, no final action was taken to implement the intended courses of action.

FY13 Budget and Audit

FY13 was the first budget developed and administered by the Emergency Manager and his team. Faced with a projected gap of more than $25 million, the FY13 budget was balanced through a mixture of significant revenue increases, significant expenditure decreases, and steps taken to reduce legacy costs. Previous reports detail the 25% increase in water and sewer rates, passage of a 6 mill property tax increase for police and fire, elimination of 20% of the City's workforce, compensation decreases equivalent to a 20% wage reduction for remaining employees, and the restructuring of health and retirement benefits for current employees and retirees necessary to develop a credibly balanced spending plan.

FY13 is now closed, and auditors have been on site since October 7, 2013. Preliminary results of FY13 year end show a surplus of revenues over expenses in the General Fund exceeding $4 million. This surplus will reduce the City's accumulated $19.1 million deficit as of the end of FY12 to less than $14 million. Since the goal of the EM team was to assure that FY13 would not end with any additional deficit, this result has significantly exceeded expectations.

Deficit Elimination Plan 2013

In October 2013 a draft Deficit Elimination Plan for FY13 was submitted to the Michigan Department of Treasury. In summary, the City's accumulated General Fund deficit of $19.1 million for FY12 has been reduced by $4.2 million to $13.9million. $11 million of this accumulated deficit is proposed to be eliminated by: 1) documenting the amounts currently owed to the Water and Sewer funds as a loan, and budgeting repayment of the outstanding amounts, including interest,

from the Capital Improvement Fund; and 2) eliminating the remaining $2.9 million over the next five years by budgeted appropriations in the General Fund and other funds. Significant progress has been made to reduce the Water Fund deficit from $8.8 million in FY12 to under $500,000 in FY13. Additionally, the Economic Development Corporation (EDC) deficit will be eliminated according to the plan to be submitted by the EDC Board of Directors. No appropriation from the General Fund will be made to eliminate this deficit.

This draft plan is currently under review by the Department of Treasury.

FY 14 Budget and Strategic Plan

The FY14 budget was adopted via Emergency Manager Edward Kurtz Order #4 on June 7, 2013. This budget was developed with the same goal as FY13 – to assure the provision of essential services within the constraint of a balanced budget.

Achieving this goal again required reducing the workforce; however, with significant efforts from department heads and others involved in developing the budget, and building on ongoing reorganization of city processes, the level of services currently provided should generally continue at current levels. Most importantly, the quest to at least maintain current levels of police and fire staffing was maintained, although one consequence was that the additional reductions in staffing came from non-public safety areas. This was equivalent to an additional 10% reduction of staffing in those areas.

As the city approaches the end of the second quarter of FY14, the budget continues to be in balance. One set of budget adjustments has been recently implemented with approval of Treasury. With the exception of income tax revenues, the quarterly review of revenues and expenses to budget does not disclose any significant anomalies.

Income tax revenues remain sluggish, tracking right now at the FY13 level. Unfortunately, FY13 actual income tax revenues were $12.3 million, compared to a budget of $15.3 million. While the FY14 budget projection of $14.2 million is less than the FY13 budget, it is possible that income tax revenue may fall short of expectations. We will be monitoring this revenue line item and recommending adjustments as necessary to assure that the budget remains in balance.

The content of the City's Strategic Plan (Attachment #5) and the newly adopted Master Plan will be the basis for planning future budgets, determining service objectives, evaluating department/division management, and deciding whether and when to pursue grants.

The Strategic Plan includes a section entitled "Five Year Financial Projections and Challenges City of Flint, FY14-FY18". In summary:

> Years 2—5 show the continuing challenge of the City's structural deficit, with property tax revenues continuing to fall through FY15, and then stabilizing but with no growth until FY18. At the same time however, legacy and compensation costs are projected to increase by 5% per year, and major grant sources will expire. The City will be faced with a significant challenge of attempting to choose between reductions in public safety and other reductions; however, finding other reductions may not be possible, given the minimal level of service provided. Again, without additional new significant levels of revenue, there is little ability to improve services or address continually increasing capital improvement needs.

Within the next few months the City plans to prepare the financially challenging FY15 Budget.

See Attachment #4 FY 14 Adopted Budget Detail and Attachment #5 Setting a Sustainable Course for the City of Flint.

Revenue Enhancement Activity
Several new revenue actions were implemented for the FY13 Budget. The 3 mill waste collection levy was replaced with a fee based on the actual cost of the service. A Street Lighting Assessment District was established, and a new voter-approved 6 mill Police and Fire Protection millage was levied. Also, fees for licenses and permits were adjusted. Each of these revenue actions were continued in the FY 14 budget.

It should be noted that in the process of returning the City to management by the Mayor and City Council that these revenue enhancing actions will need to be continued or alternate financing mechanisms found.

The City recognized that these activities created significant burdens on many home owners, therefore assistance programs were developed. Via EFM Order No. 8 the Poverty Exemption to the Street Lighting Assessment was established. Individuals who qualify for relief from property taxes may apply for an exemption from the street lighting assessment as well. Also, through EFM Order No. 11, water service procedures were modified in order to provide an exemption from the monthly ready to serve charge to eligible property tax exempted home owners. EM Order No. 11 also modified the acceptance of the DHS maximum water deposit payment and revisions to the water turn-on fees.

FY 15 Budget Development
The FY14 budget was developed within the context of a five year projection of revenues and expenses. This exercise pointed out the continuing challenge the City of Flint will have in achieving long term financial stability. It is clear that – like many urban centers – Flint's financial solvency will continue to be

challenged with a structural deficit; that is, that status quo revenue growth and status quo expense base growth will always show a negative gap.

Given the relatively low level of service that the City can now only barely provide, closing this gap is not possible by continuing to only reduce expenses. However, with an additional source of revenue, such as could be obtained by an increase in the local income tax, coupled with continuing reductions in legacy costs, it is possible to stabilize city finances and begin to address the unsustainably low level of services which currently exist. Such an approach, for example, could turn an annually projected $2 million to $4 million deficit between revenues and expenses into a positive $5 million to $6 million surplus. Such surplus would enable the City to address the most critical areas on unmet service needs and unmet capital needs.

However, the City has been challenged on many of the decisions made to restore financial solvency. Most critical has been the legal challenge to its decision to change retiree healthcare. Should the City not prevail, it will likely be faced with increased costs of as much as $5 million annually. Those costs were not provided for in the FY14 budget, and are not planned in the FY15 budget; their inclusion could be financially disastrous. A loss on this legal challenge would be very significant not just for Flint but for many local governments.

Finally, as a result of analyzing projected revenues and expenses for the next five years, it has become clear that the City will continue to face a structural deficit in the area of $3 million to $5 million annually. More than anything, the City's stagnant revenue streams (no growth projected over the next 5 years) and its high amount of legacy costs ($37 million for FY14) have created this situation.

This structural deficit essentially precludes the City from stabilizing service levels even at minimal levels, and prevents it from addressing significant unmet capital needs (currently estimated at more than $300 million). Without structural change, this situation is not sustainable and the City will not achieve even a minimal level of financial solvency in the long term.

While bankruptcy has been mentioned as a possible solution to this, investigation of the alternative shows it to be expensive, slow, and with outcomes that are far from certain. However, investigation of an alternative which focuses on improving the City's revenue stream while continuing to reduce legacy costs shows promise. For example, an increase in the local income tax rate to the levels afforded other urban centers, coupled with significant additional changes in health care and pensions for active employees and retirees appears to have the potential to overcome the $3-$5 million structural deficit while providing a similar amount for stabilizing services and beginning to address capital needs.

Key Actions To-Date, Current Activities and Pending Issues

The city continues to review all departments and services for potential merger, consolidation, contracted service, shared services with other governmental entities, privatization or elimination. As a result of these reviews the City will determine what continuing activities should be subsidized with general property tax dollars, what will be paid by the users and what services can be eliminated.

Finance/Administration/IT

Finance Department

The Finance Department is proceeding with the following projects:

- selection of a vendor to conduct a Water/Sewage Rate Study to prepare for the transition to the new water source through the Karegnondi Water Authority and address the long term financial stability of the Water and Sewer Funds,
- implementation of a Procurement Card system and associated changes to the City's Purchasing Policies,
- continued effort to reduce pension and OPEB liabilities,
- continued aggressive monitoring of revenue and expense activities, with particular emphasis on revenue collections, position counts and overtime expenditures,
- planning and implementation of employee development programs focusing on financial management, supervision and labor relations, and leadership development,
- reorganization of city accounting functions based on the analysis and recommendations of an organizational study completed by Plante Moran.

Grant Management

Finance reviewed the process for all grants to the City of Flint for appropriate use of funds, potential for continued funding, and timely reapplication. A grant pre-submission approval system has been operational since March 2013 following EM Order No. 10.

Economic Vitality Incentive Program (EVIP) Requirements

The City of Flint has met all reporting requirement dates for Economic Vitality Incentive Program (EVIP) in order to qualify for all disbursements of State Shared Revenue. Each report is available on the City's website www.cityofflint.com through Munetrix Citizens Guide to Finances and Dashboard.

Transition of Flint Employee Retirement system (FERS) to Michigan Employees Retirement system (MERS)

The FERS to MERS transition nears completion. Retirees have been receiving their monthly checks from MERS since October 18, 2012. The transfer of the administrative components will be complete by July 1, 2013. All of this transition will be complete upon finalization of the Model Labor Contracts.

A lawsuit was filed in late May 2013 by URGE against the City seeking to force the City to negate the move of the pension funds to MERS. This lawsuit is pending before Circuit Court Judge Yuille.

Treasury Division

Income tax processing is being handled through a joint project with the Cities of Grand Rapids and Lansing. Beginning in FY14, income tax collections have been handled by Innovative Software, the current vendor for the City's income tax software. Also of note, the City is operating with a shared Treasurer between the City of Burton and the City of Flint.

The City contracted with Plante Moran to conduct a study to evaluate the potential of shared services between the City and Genesee County treasury functions. This study was funded by the Mott Foundation.

Collection rates are an on-going concern. This year, the city will be made whole via full payment from the County. In subsequent years those shortfalls must be repaid to the County. The City estimates that only 33 % of property taxes and assessments have been paid, water and sewer delinquencies have grown to 40 %.

In an effort to improve income tax collection the city purchased the 2010 State Tax role and began sending notices to 8800 individuals, both residents and non-residents, who have not filed City tax returns. The total estimated tax value from uncollected income tax for the 2010 tax year is between $300,000 & $400,000. The City also plans to pursue uncollected income tax from previous years.

Assessment Division

The Assessment Division has been operating with a part-time Level IV Assessor. A member of the Division is currently completing Level IV assessment certification.

The City of Flint shares the services of the Assessor with City of Lansing.

Currently, the Assessor is projecting City of Flint property values to stabilize in FY15.

Human Resources Department

Continued reduction in personnel has strained the capability of departments to complete compliance and reporting work. Both short and long term vacancies create knowledge deficits which are becoming most difficult to overcome. This will be exacerbated as further staff reductions are required.

HR has joined the Genesee Intermediate School District in using APPLITRAC system for job postings and the initial hiring process.

City-wide management and supervisory training has been re-established after an almost fifteen year absence.

Labor Agreements and Implementation

During the tenure of EM Michael Brown, Labor Counsel held meet and confer sessions with the City's six bargaining units. A target of 20% equivalent wage reductions was achieved. Tentative Agreements were reached with four of these bargaining units. As contract settlement was necessary prior to adopting the FY13 budget, the EM invoked the 19K provision in Public Act 4 from the State Treasurer for the bargaining units which had not achieved Tentative Agreements (EM Orders 18 and 26) and with Local 1799 which had approved a TA but had not ratified (EM Order 27).

EFM Edward Kurtz held additional sessions with AFSCME, Flint Police Officers Association (FPOA) and the Firefighters Union. In January 2013 AFSCME and the City reached agreement for the privatizing of waste collection and demolition. A lawsuit by FPOA seeking to return to the status quo (prior to EM imposed contract) was dismissed by the circuit court. In late May, a lawsuit was filed by AFSCME Council 25 seeking to overturn the contract imposed by the EM in April of 2012.

A Model Contract has been developed and a new round of meet and confer sessions have begun, starting with the Flint Police Officers Association. The City's goal is to streamline and standardize the contracts and to further reduce legacy costs. It is hoped that these models could be used throughout the State.

The City has contracted with a part-time Labor Relations Specialist; through his efforts dozens of past grievances have been settled and only a handful of grievances remain outstanding.

Retiree Health Insurance Revisions

The City's approach to containing its OPEB liabilities has been to restructure both active and retiree health care benefits, and to eliminate the promise of retiree health care for new employees. The changes have had a significant impact on the City's OPEB liabilities, reducing the total unfunded liability from nearly $900 million to less than $400 million, and reducing the Annual Required Contribution (ARC) from $60 million to $22 million.

As noted earlier, on June 25, 2013, the court denied the City's request to stay the order and in fact, applied the injunctive order to all retirees as a class (without actually certifying a class). The City's legal counsel has recommended the City immediately comply with the court's order with regard to the six members of the lawsuit. The City has authorized legal counsel to immediately apply for relief in the 6th Circuit Court.

The City is utilizing the services of Cornerstone Municipal Consulting in ongoing review of various Employee/Retiree health care options including plan design, delivery systems, Medicare Advantage, Medicare Wrap Around, benefit carve-

outs, etc. in an effort to control health care costs. Administration of the City's health insurance benefits program is being handled by Cornerstone.

Retiree Prescription Drug Program Revision
The City suspended the planned implementation of a modified prescription drug program which required the issuance of a generic drug unless a name brand drug is determined to be medically necessary. This action resulted due to a lawsuit, Yurk et al. v. City of Flint, in Genesee County Circuit Court before Hon. Archie Hayman. Judge Hayman granted a preliminary injunction that precludes implementation of the plan. Importantly, the case was somewhat unusual, as the court's decision was based on a 2002 settlement agreement (entered by the Emergency Financial Manager) in which the City agreed not to modify the prescription drug program for the effected employees.

Dependent Eligibility Audit
In FY12 the City conducted a dependent eligibility audit. Three hundred eighty-one dependents were identified for removal from the City's health plans. This reduction is estimated to have saved $1.3 million in the first year - FY13.

Information Technology
Prior to the start of FY13 the Information Services Department eliminated all but two of the existing positions. Through reorganization, 6 of 9 employees were rehired under new job descriptions. The new structure allowed more flexibility and greater utilization of personnel.

Several large scale projects have been completed including: installation of a back-up server for Public Safety and 9-1-1, installation of new switches which will allow for a more complete use of Public Safety's data collection and record keeping systems; software upgrade for the New World records management system; finishing the AT&T Managed Router Service deployment to the City network; installation of a new visualization server cluster; and the automation capability of the Third Ave. Pump Station.

Other projects are on track, primarily the system upgrade of the BS&A ERP. Another legacy project nearing final milestones is the installation of 300 new desktop terminals in City Hall and in the Police Department.

Fleet Division
The City has consolidated the management of the City's vehicle and truck fleet under the Fleet Division. This division will oversee the specification, purchase, repair and maintenance and replacement schedule for all city vehicles and wheeled equipment. The Division recently participated in a successful auction of surplus equipment.

City Clerk
The City Clerk has recently conducted the November election and the swearing in of the 2013-2014 City Council. The Clerk is also making arrangements for the orientation and training of the new Council members.

As part of the FY14 reorganization, the City has transferred the responsibility for Business Licensing to the newly formed Department of Planning and Development. The City recognizes that it is losing significant revenue from unlicensed businesses and this change is designed to insure that all businesses in the City of Flint are licensed and inspected.

Office of the City Attorney
The City Attorney is continuing with efforts to improve litigation management through claim evaluation, claim reporting, attorney training and trial preparation. The City Attorney continues to emphasize the "litigation team" approach to case handling, with weekly review of pending matters and discussion of how best to protect the City of Flint's legal interests.

With the help of interns from Michigan State University, all City ordinances have been reviewed Charter revisions which would increase flexibility for department reorganization and budget flexibility are also being considered.

Also, in preparation for the new Department of Planning and Development, the City Attorney's Office prepared draft revisions to the City Code concerning business licensing and regulation. Many ordinances and former business licenses are recommended for removal because they were obsolete, or could be put under the newly created General Business License. Several businesses also will be required to obtain a Business Endorsement.

Criminal Justice System Advisory Council (CJSAC)
Based on input from the State Police, Governor's Office and a Michigan State University Criminal Justice Study, it was clear that the Genesee County Criminal Justice System and the Flint Police Department could benefit from improved coordination and policy development.

In September 2012 the first meeting of the Criminal Justice System Advisory Council (CJSAC) was held. Eight workgroups were established. Through these work groups a number of cooperative projects, streamlined operations and new collaborations have been identified and implemented. Regular meetings of the full Council are held quarterly and work groups schedule meetings as needed.

68th District Court
The City currently funds the operation of the 68th District Court; in FY14 this amounts to $3.5 million net. This significant portion of the City's General Fund needs to be studied

closely and recommendations developed to meet this required activity while containing and reducing costs.

I strongly encourage the State to continue the process of working to consolidate the 67th and 68th District Courts. As of mid-November 2013 a bill which would allow this consolidation to proceed has passed the MI Senate and two versions of the bill approach second reading in the House.

Department of Public Works

Utilities Division

Karegnondi Water Authority (KWA)

In March 2013 both the City Council and EM Kurtz adopted resolutions to enter into a contract with KWA to partner with Genesee County, City of Lapeer, Lapeer County and Sanilac County in the construction of a pipeline to deliver raw water to the City of Flint. This decision followed many months of analysis by the City of Flint, the Genesee County Drain Commissioner's office, and ultimately involved the State Treasurer and Governor Snyder. This conclusion to join KWA is momentous for the City and the entire region. The City looks forward to a safe, reliable water supply through which water costs can be stabilized for the KWA participants.

Immediately after the KWA decision the Detroit Water and Sewer Department (DWSD) notified the City that it will terminate the contract with the City for the delivery of water in 12 months. The City is currently developing its plans to assure water service between April 2014 and the full operation of the KWA pipeline (approximately 36 months after construction begins).

There are many details to be addressed in the implementation of this project including the use of existing pipeline.

Water Department

Upgrades to the City's Water Treatment Plant are required prior to the transition to the KWA water source and any temporary use of the Flint River. KWA water from Lake Huron will be "raw" and will require treatment by the city prior to customer distribution. Engineering work is well underway.

An evaluation is taking place to implement an effective Preventive Maintenance plan which focuses on controlling water loss (leakage). This is expected to involve a combination of outsourcing, in-house work, and shared services with the County.

There are currently no major water main leaks and the crews are now working on the small leaks such as curb boxes, etc.

A plan is being reviewed to replace all water meters in the City. Currently $700,000 has been allocated in FY 14 for that purpose.

Discussions have begun with the Genesee County Drain Commissioner on a wide range of shared services and partnerships for both water and sewer operations.

Sewage Treatment Division
The automation of one of the City's pump stations (which was staffed 24 hrs a day) has been completed. This will result in the elimination of overtime and a savings of over $500,000 annually.

The planned shutdown of the City's incinerator has begun with engineering plans for a new load-out facility and is expected to reach completion in early Spring 2014. The estimated savings from this project is an annual $400,000.

U. S. Department of Environmental Quality S2 Grant
An S2 DEQ grant to study infrastructure condition for water pollution control was accepted. The study was defined to encompass the City's entire sanitary sewer system including the overall collection system, the capacity and condition of the system, potential upgrade recommendations to the lift stations and the pumping stations, and to make recommendations for necessary investments to maintain the system.

Storm Water Management Plan
A draft new storm water ordinance that shifts the cost allocation to the larger users has been developed.

Swedish Biogas International (SBI)
In conjunction with the City of Flint sewage treatment plant shut-down of the sludge incinerator, Swedish Biogas International (SBI) proposes to accept sludge output and produce electricity. The city will agree to purchase the electricity at a reduced rate compared to purchase from Consumer's Energy. The SBI contract has completed the City's review process and is now awaiting SBI's Board of Directors' authorization.

Transportation Division

Solid Waste Management Division
In early February 2013, the Infrastructure Department signed a contract with Republic Services, a private waste collection company. The City of Flint no longer collects or disposes of household waste. Through this new contract, residents city-wide now have access to curb-side recycling. It is expected that the fee for waste collection service will continue to be billed and collected by the City.

Outsourcing of Sanitation is complete and the process of establishing city composting is underway with a permit application to DEQ submitted and a site plan of action being prepared for the EPA.

Street Maintenance and Engineering
Discussions have started with the County Road Commissioner on possible shared services.

Both road paving and engineering are seasonal activities and these are at ever decreasing levels. These are under review as areas to downsize or eliminate. Consideration is being given to developing service sharing arrangements or creating the ability to source on an as needed basis. Only crack sealing and pothole repair was conducted this season; no repaving of any City streets occurred.

Facilities Management
A private company held an on-line auction in January 2013 to dispose of surplus equipment from a variety of departments in the City. This one day auction netted $130,000. A second auction was held in May 2013 which netted an additional $250,000. An auction at the impound lot was held in June 2013, netting over $30,000 for the City.

The Facilities manager is reviewing all city owned assets (both real property and capital equipment) to determine if disposal should be pursued.

All city owned facilities are under review for energy savings, revenue generation from tenants, or possible liquidation.

Parks and Recreation
The City contracted with two vendors who have the capacity to mow all of the city parks (64) multiple times at a rate that fits the current millage. The City also actively sought neighborhood groups and organizations who would adopt one or more of the City's parks, traffic triangles or medians. The current Parks millage generates enough money for reduced parks mowing and limited tree removal where property has been damaged or streets are blocked.

Golf Courses
All four of the city's golf courses were leased to private organizations. Two courses were operational summer 2012 and both reopened for the summer of 2013.

Senior Centers
The Pierce Senior Center closed on April 30, 2012 as funding was no longer available. The City of Flint continued to explore its options with the two open Senior Centers: Brennen and Hasselbring. In June 2013 contracts were successfully negotiated with United Senior Network for the operation and sale of

the Hasselbring Community Center, and with the Brennan Elm Park Senior Community Corporation for the operation of the Brennan Community Center. Planning is also underway for a third center in downtown in partnership with another vendor.

Department of Planning and Development

The creation of the Department of Planning and Development, separate from the Infrastructure Department (now Department of Public Works), had been envisioned since the beginning of the FY14 budget. I announced the department reorganization and the new Department Head, current Chief Planner, Megan Hunter in early November 2013. The Master Plan has now been adopted and this department will be charged with guiding the implementation of the many objectives included in the Plan. Blight elimination is one of the City's top priorities and the associated blight enforcement activities will be coordinated through this department as well.

Master Planning

The City of Flint is proud to announce the October 2013 adoption (by both a unanimous decision of the City Council and the Emergency Manager) of the first comprehensive Master Plan since 1960. Overall, 5000 residents participated in this extensive process.

Following the data gathering phase of the master planning process, the planning team was able to release a summary of the findings in an Existing Conditions Report. This report has already proven extremely beneficial, assisting several community stakeholders in applying for grants and helping inform decisions around critical issues such as blight and demolition. In fact, the completed Housing Conditions Inventory included in the report was critical in helping the Genesee County Land Bank develop its successful application for $3.7 million in funding for demolition through the Michigan Blight Elimination Grant Program. This data was also used to develop an application for the Federal *Hardest Hit Program* which resulted in an award of $20 million (See Blight Management Plan below).

A four-hour Vision and Goals Workshop was held on March 9, 2013 where nearly 500 stakeholders engaged in small group dialog. Also during this time, staff worked with the Planning Commission and community to identify the eight sub-area plans to be included in the Master Plan.

In May, the City began work on the actual drafting of the Master Plan. A Memorandum of Understanding between City and the Flint Community Schools was signed in order to formalize joint planning efforts particularly around community facilities.

In early summer 2013 the planning team embarked on the development of a land use plan. The first Land Use Workshop was held on Saturday, June 22 2013 and involved over 160 residents in candid discussions about vacancy and realistic development patterns.

A 63 day public comment period concluded with an October 2013 state mandated public hearing. The Planning commission met and approved the plan later in October, before final adoption by the City Council and the Emergency Manager.

The next step is the revision of the City's Zoning Ordinance. This is required to be completed by June 2014.

Community and Economic Development

With the end of the Federal NSP program in sight, the City has begun evaluating the management needs of the department and what can be outsourced or become a shared service.

Emergency Manager Kurtz challenged each department to complete the use of HUD, CDBG and/or other grant funds within the grant guideline spending period.

Collaborative economic development efforts are underway with the Flint & Genesee Chamber of Commerce to attract and retain businesses; and to receive and apply new tools such as the Next Michigan Development Corporation and Smart Zone designation. The City will continue to work with RACER Trust for brownfield development, including Buick City.

The City of Flint is challenged in its current financial condition to provide significant investment into job creation and Economic Development. However, the City has developed a unique and effective partnership with the Flint & Genesee Chamber of Commerce (F&GCC) which is the recognized economic development entity for Genesee County. The City receives specific community and economic development services from F&GCC each year.

Blight Management Plan

I have determined that blight has become one of the primary issues facing the City of Flint. Blight is a continuum of problems from tall grass and weed control through abandoned, demolition ready property. The newly formed Department of Planning and Development is formulating a complete blight strategy.

The City's financial condition has resulted in the drastic reduction in the Building and Safety Inspections Division. All demolition work is now the responsibility of the Genesee County Land Bank Authority. The City has hired part-time Neighborhood Safety Officers (NSOs), through a grant from the Mott Foundation, who alert residents to blight violations and can issue citations as necessary. NSOs are also processing the impounding of abandoned vehicles, verifying current business licenses and identifying rental properties.

The Landbank, in partnership with the City, has recently received over $3.5 million from MSHDA for demolition of properties in three specific areas of the City. First, around Northwestern High School, second around Northern High School, and the third around the area of Diplomat Pharmacy and the International Academy of Flint.

The Landbank, again in partnership with the City of Flint received $20.1 million Hardest Hit Federal Funds for residential demolitions in Genesee County, primarily in the City of Flint. This will be a significant milestone in the history of the City, affording it the opportunity to significantly improve the quality of life in the City's "tipping neighborhoods". The U.S. Treasury in June signed off on a proposal -- the first of its kind in the nation -- that allowed the Michigan State Housing Development Authority to create a blight elimination program using federal money originally set aside for mortgage relief. More than 1,500 demolitions will take place over the next 18 months as part of Flint's $20.1 million award. This is Flint's largest federally funded demolition project.

In May 2013 the City received a report from the Center for Community Progress entitled "City of Flint Vacant Property Maintenance Site Visit Report" which provided recommendations for the City and its partners to consider implementing. This, along with other reports including the City's developing Master Plan is leading to a defined "Blight Elimination Plan".

DCED had $400,000 in CDBG funding for mowing and trash removal. This was supplemented with approximately $800,000 from the Landbank. In total this funded mowing the vacant properties only one time during the summer of 2013.

A Cities of Service grant for $25,000 was awarded to Flint in Spring 2013 for use for neighborhood clean-ups and tire collection. Twenty projects were funded and the tire collection resulted in 10,000 tires being removed from back yards, lots and parks.

A very positive development in the City has been the unsolicited efforts of private businesses and educational organizations planning large scale redevelopment projects, with the City and the Landbank, to improve areas surrounding their operations.

Smith Village Housing Development

The Smith Village housing project is funded primarily with HUD and NSP2 grants. Phase I, which includes 29 housing units, has been completed as scheduled. HUD determined February 10, 2012 was the goal to expend 50% of the allocation. The Smith Village housing project met that development goal.

On May 18, 2012, the City announced that Phase II of the Smith Village development will be undertaken by Ginosko Development Company and Rohde Construction Company. Ginosko's site plan was approved by the Flint Planning Commission on May 22, 2012.

Smith Village Phase I (29 units) - 26 units are complete. 13 units have sold and 6 have purchase agreements; 7 remain available for sale.

Smith Village Phase II (9 units) – all 9 units are complete. One unit has a purchase agreement; 8 are available for sale. No further homes will be built until all units sell.

Marketing/Sales initiatives have been instituted. The City schedules financial institutions to be present at the model home two days a week to pre-qualify buyers who visit the homes. Presentations have been made, and marketing materials have been provided to Home Buyer Counseling Organizations, Fair Housing Organizations, Community Development Corporations and the Flint Housing Commission. Twelve of the 20 units that have been sold or that are under purchase agreement are committed to Low Income Residents. This means the project is developing as a mixed income community. The commitment to HUD is to have 51% of the purchasers meet low income guidelines (51% of Annual Medium Income).

U. S. Department of Housing and Urban Development Monitoring of the HOME Program

The City of Flint received notice from HUD that it has capacity to run the HOME program following HUD's February 2012 program monitoring.

In the City of Flint 2012 Single Audit, DCED had one finding related to the resolution of the OIG audit for 2010. In the 2011 Single Audit, under the previous administration, there were 8 findings.

In September 2012, HUD headquarters in Washington D.C. monitored the DCED ARRA Homeless Prevention and Rapid Rehousing Program and stated that the City of Flint established a comprehensive and well coordinated program for providing homelessness prevention assistance for its residents, and that the City's HPRP Policies and Procedures Manual was well thought out.

In December 2012, HUD notified the City of Flint, in its Comprehensive Annual Performance and Evaluation Report (CAPER) that it met its timeliness ratio and expenditure requirement reaffirming their confidence in DCED's capacity to administer federal programs.

Real Estate Transactions

In August 2012 the City of Flint sold the Genesee Towers to Uptown Redevelopment Corporation for $1 and committed $880,000 CDBG dollars toward the over $4 million cost of demolition. Genesee Towers has been a liability for the City since December 2010 when the city assessed a one time millage to cover the $9.0 million judgment. The transaction has been finalized and demolition is expected before the end of 2013.

A quit claim deed for Chevy-in-the-Hole site has been transacted between the EDC and the City of Flint. EPA money for clean up has been agreed upon.

Public Safety

Organizational revisions were made in Public Safety following the September 2013 retirement of Public Safety Director and Police Chief Alvern Lock. I appointed new Chief of Police James Tolbert to oversee the Flint Police Department and the 9-1-1

Center. Current Chief David Cox, Jr. will continue as Fire Chief. Both Chief Tolbert and Chief Cox report to the Emergency Manager.

A Police and Fire Protection Millage request for 6 mills for 5 years was placed on the November 2012 ballot and was approved by the electorate. This began the process of stabilizing both the Police and Fire Department funding. The City hired eight additional police officers; seven more officers are attending the Police Academy and will graduate in December. Millage dollars have been used to replace the expired 2012 Mott Foundation Community Policing Grant.

A Public Safety Plan was introduced to the public on May 4, 2012. This plan addressed Police and Fire department daily activities, operation of the Flint 72-hour lock-up, transition to 800 MHz communications system and the formation of the Criminal Justice System Advisory Council. A new Public Safety Plan is being drafted and is expected to be released before the close of 2013.

The City continues to review many options for shared services, station configurations, staffing levels, contract services and technology applications.

Police Department

Recently appointed Chief James Tolbert is evaluating the operations of the Flint Police Department and is formulating new crime fighting initiatives which will be incorporated in the new Public Safety Plan. The City and FPOA have held a first meet and confer session on the new Model Labor Contract.

In October 2013 a Sergeants exam was offered by the City's HR Department. Interviews are being scheduled now and promotion announcements are planned in December 2013.

In June 2012 the Police Department changed to a 12 hour shift operation. These changes in combination with the expansion of alternative call response procedures (including the introduction of the on-line CopLogic reporting system); have resulted in the continuing reduction in response times to 9-1-1 calls.

The City of Flint is continuing its existing collaborative efforts with regional partners. Examples: Flint Area Narcotics Unit, Safe Streets Task Force, and U.S. Attorney's Office Zero Tolerance gun violence reduction initiative, LifeLines (formerly known as CeaseFire), and other programs to help eliminate gang activity and prevent other violent acts.

The city continues to receive patrol assistance and detective assistance from Michigan State Police. Patrol assistance is a crime-deterrent and increases traffic safety compliance. The detective assistance has increased the capacity for investigations within the Flint Police Department.

The city continues to apply new technologies and information systems to improve police efficiencies and improve targeting and effectiveness; these include New World Record Management System, CopLogic, and DDACTS. The city is also evaluating the new P1 ARMS (record management and CAD system) being implemented by the Michigan State Police.

Lock-up
The Public Safety Department recommended selection of the Genesee County Sheriff as the operator of the Flint lock-up. The lock-up opened the week of October 1, 2012.

In early 2013, use of the lock-up was made available to all Genesee County police agencies. The availability of the lock-up is credited with the clearance of over 1000 warrants per month in Genesee County. The State Legislature has approved funding for an additional year of operation.

9-1-1 Operation
The City completed the change over to the 800 MHz communication system for the Police and Fire Departments before the December 31, 2012 required implementation date. The installation of a point to point microwave link with the Genesee County 9-1-1 Consortium tower system was finalized in July 2013.

The Mott Foundation funded a 2013 study through the MSU Training and Technical Assistance Team to determine the costs and issues involved in pursuing a reconsolidation of the Flint 9-1-1 Center with the Genesee County 9-1-1 Consortium. This intent was the basis of the C-GAP application and $1.8 million award to construct a simul-cast communications tower which will be integrated into the Consortium's tower system. I support the effort to move toward reconsolidation.

Cooperative work with the Genesee County Consortium continues with the evaluation of a new phone system in preparation for the next generation 9-1-1 system.

Fire Department
After many years of functioning without a Fire Chief, Chief David Cox, Jr. was hired April 15, 2013. Chief Cox has aggressively addressed excessive use of overtime and he is currently in the process of restructuring the department.

The FEMA funded SAFER Grant which supports the wages and benefits of 39 firefighters was renewed on June 10, 2012 for two years. The new grant totaled $6.9 million. The City is now in FEMA's final round of evaluation of its 2013 SAFER application to again fund 39 firefighters. It is very rare that a city would be awarded a full funding request in back-to-back granting periods, yet the city is applying for full funding for a third period. If SAFER is not fully funded the City could support approximately 20

firefighters using the Police and Fire Operations millage; the balance would be laid off and two stations would be closed.

A protocol was finalized for the transition to the Genesee County Sheriff's Department to handle the paramedic calls in the City of Flint. The Paramedic millage is now managed only by Genesee County. Completion date was July 1, 2012.

Emergency Manager's Conclusions

Significant work has been accomplished to stabilize the financial situation of the City of Flint. The whole organization has been being restructured to reflect a smaller, leaner government operation. Services which were routinely provided are being inspected to determine if they should continue and if so, in what format. Technology solutions which can increase efficiencies are being implemented.

I acknowledge that substantial progress has been made, however the City is still experiencing an on-going financial emergency. In light of the progress made there are four areas of concern which must be addressed before the emergency can be declared resolved: 1) long term budget management; 2) stable sources of revenue; 3) resolution of pension and legacy costs; and 4) governance and charter revision evaluations.

For one year, FY13, the goal of containing overspending was achieved. The city must continuously function within a balanced budget, eliminate the accumulated deficit and further reduce the legacy and pension costs. Projections through 2018 demonstrate Flint's continuing challenges. Projecting current revenues and expenses into the future shows a continuing gap of $2 to $4 million annually.

Stable revenue is necessary in order for this City, and most other cities in Michigan, to continue to avoid a bankruptcy situation. We have asked our residents to accept a significant 6 mill Police and Fire Protection Millage; and they have done so. We have imposed a street lighting assessment, a waste collection fee and tremendous water and sewer rate increases. However, our residents have not enjoyed increasing services, increasing property valuations or increasing employment opportunities.

As noted previously, there are very few additional revenue options. We are approaching the limit of the City's borrowing capability. Capital improvement funds are drained and the property tax millage rate in within .1 mill of maximum. State Revenue Sharing is now tied to EVIP and C-GAP competitive granting. We have made a request through our State Legislative representatives and the State Treasurer to push legislation to allow City voters the opportunity to decide to increase the income tax. This action could generate $7 million annually and would eliminate the City's structural deficit. A bill has been introduced but has not been acted upon.

In the meantime, Flint is still struggling with effects from increased expenses and reduced revenue from decisions outside our control. These include: a recent General Motors/Delphi closure impacting over 300 jobs, the unknown impact from the changes in

personal property taxes, the $120,000 cost to hold the State Senate primary election, and the $575,000 required match for MDOT projects in FY14.

Further, I do not recommend beginning the transition back to the Mayor/Council management of the City at this time. The City still has critical budgeting issues; there is tremendous work necessary on evaluation of the governance model and potential charter revisions. Also, a new City Council has just taken office.

I am considering assigning some city management responsibilities to the Mayor and City Council. This would be a step toward preparing the Mayor and Council to again manage the City's financial responsibilities. These will be determined in the upcoming months.

Flint has twice been placed in the hands of a State appointed emergency manager. A third failure should be avoided at all costs. Therefore, I plan to appoint a 21 person blue ribbon citizens' committee to evaluate various governance models used in Michigan cities and to recommend course of action for Charter amendment or revision. I anticipate the committee will begin their work after the first of the year. I feel that this is a key step in the City's preparation to successfully manage a fiscally sound city.

I feel strongly that it is incumbent upon me to make sure that the city reaches it goal of sustained financial solvency. The financial emergency is not fully resolved until the long-term financial structure is secured.

Another update of this report is expected to be presented in April 2014 as required by PA 436. Other updates will be provided as appropriate.

Respectfully submitted,

Darnell Earley, ICMA-CM, MPA
Emergency Manager

For Immediate Release

Emergency Manager Darnell Earley Committed to Increased Transparency and Detailed Information on Water Rates

Flint, Michigan – October 18, 2013 –Flint Emergency Manager Darnell Earley has today announced that the City of Flint's water issues will be one of his key concerns in his new role and a top priority for his team. With the major decision to join the Karegnondi Water Authority made and the beginning of construction on the water intake and pipeline approaching, Mr. Earley expressed his commitment to thoroughly reviewing and assessing the scope of the issues in the following statement:

"Good management can only be accomplished with a careful examination of the facts; I want my efforts to reflect data driven decisions made with the most accurate information obtainable. As I said when I arrived, I will be making the areas of most concern to Flint residents my top priorities; the future of Flint's water supply, water system and the cost of operation and maintenance are as important to Flint residents as public safety or any other major obligations of a full service city such as Flint.

–CONTINUE–

CITY OF FLINT
OFFICE OF EMERGENCY MANAGER
DARNELL EARLEY

I also want to be transparent in what we glean from this exercise; through this initiative I will keep the public as informed on the process as I am as we go forth. It is for that reason that I plan to examine this issue with the help of an independent, third party consultant in order make a fair and impartial assessment. The goal of this assessment is to ensure that the long term costs of the KWA decision are accurately and openly reflected in the water rates charged to residents and businesses.

Water prices are a key concern to Flint water users, so as we look forward we want to provide them with an understanding of how they are set and to inform residents of available assistance. We currently have a poverty exemption for a portion of water and sewer charges available to low income homeowners and a lowered water deposit for low income renters. The City of Flint has done all that it can in the short term to ease the burden of water increases. Now is the time to look to the future; we want to ensure that our residents get the best possible service at the best cost through a sustainable system and a process that is self supporting for decades to come."

-Darnell Earley
Flint Emergency Manager

City Of Flint Water History Facts

Current Treatment Plant was put into service in 1954.

Current 72" main pipeline was completed in 1970.

Flint signed a 30 year contract with Detroit water and Sewer Department in the mid 1960's.

The contract with DWSD has expired and we are currently operating on a yearly extension.

In 2006 Flint completed a $48,000,000 upgrade of the existing Water Plant. (Required by the MDEQ & for backup only).

Flint's Water & Sewer System is approximately a 300,000,000 Enterprise.

Flint's Water & Sewer System is designed to deliver water to over 200,000 people with over 1,500 miles of infrastructure.

Flint's most recent census count shows a population of approximately 102,000 in 2010.

Flint's census population in 2000 was approximately 124,000.

The water system had over 45,000 customers in June of 1999.

The water system had just over 36,000 customers by June 2011.

The "Fixed Costs" that must be covered to maintain the system and deliver quality water have increased over time.

CITY OF FLINT
WATER NON-PAYMENT TURN-OFF POLICY

1. Water services to any customer may be shut off if the account is not paid until after 30 days after the due date. (City ordinance 46-52 (h))

2. Non-payment turn-offs are done only Monday through Thursday. The Customer Service Center does not schedule non-payment turn-offs on Fridays, Saturdays, Sundays, or most recognized holidays.

3. Illegal usage, broken payment arrangements and NSF (non-sufficient funds) turn-offs are done at any time without additional notice.

4. Turn-off notices are mailed to delinquent customers fifteen (15) days before actual turn-off.

5. The water customer is responsible for maintenance of all plumbing in the premises including connection to City water mains or sewer lines.

6. If a customer disputes a water bill and is unable to resolve the issue with Customer Service personnel, the customer may request an administrative review. Further information on any water account may be obtained by calling (810) 766-7015 or visiting the Customer Service Center at 1st Floor, City Hall, 1101 S. Saginaw St.

Preliminary Options for Future City of Flint Water Sources

Consider a New Negotiated Contract with Detroit Water and Sewer Department

PRO'S	CON'S
No upfront capital costs	Lack of control over new / fixed changes
Possibility to negotiate a lower rate	Past practices
Ability to "Blend" water sources to further control costs	

Consider a Contract with the Karegnondi Water Authority

PRO'S	CON'S
Voting member of KWA board	Capital cost (debt service)
Ability to "Blend" water sources to further control costs	Uncertainty of final costs
Raw water is an asset for attracting new buisnesses	

Blended Use of the Flint River

PRO'S	CON'S
Helps control cost of water	

*** CURRENTLY NO DECISIONS HAVE BEEN MADE REGARDING THE FUTURE WATER SOURCE

Improvements for City of Flint Water System

Reduce Leakage

- **Finalize a Preventative Maintenance Plan**
  - (Planning started in January 2012, requires funding, … part of Operational Costs)
  - Will help identify repair area's

- **Reduce water theft**

- **Replace water meters**
  - We currently have an eighteen month plan to replace all meters with more efficient "*Smart Meters*"

- **Encourage routine household checks**
  - "Faulty" toilets are a significant reason for household water loss. and unexpected larger bills.

Other Leakage concerns

✓Transmission Loss

✓Fire Hydrants

✓Incorrect water bills

✓Non-Payment

RE: Cost Comparison, KWA v DWSD

Mr. Kurtz:

The City of Flint is considering whether joining the Karegnondi Water Authority (KWA) is a better alternative for the residents and businesses of Flint than continuing to purchase water from the Detroit Water and Sewer District (DWSD).

An important part of this consideration is the relative cost of the alternatives. We have compared the current projected costs of continuing to purchase water from DWSD to the projected costs of purchasing water from KWA.

The projected costs of purchasing water from DWSD come from our current and past experience, as well as statements from DWSD about their future costs. The costs of purchasing water from KWA are based on the KWA Lake Huron Water Supply Study, as updated by its October 2012 Preliminary Engineering Report Update, Appendix 20, dated October 4, 2012.

Based on the current contract with DWSD, the FY13 cost of purchasing water for the City of Flint only (excluding the sale of water to Genesee County) is budgeted at $14.4 million. Past experience indicates that it is reasonable to assume a 10% increase annually in the capacity charge from DWSD and a 5% increase in the commodity cost. It is also reasonable to assume a 5% increase in operational costs for the Flint Water Treatment Plant. Consequently, it appears that the costs for continuing to purchase water from DWSD will increase to $22.7 million by FY20.

Conversely, joining KWA and participating in the construction of infrastructure to receive water will require an up-front cost to the City of $2.3 million, to be paid over the first three years of joining. This would be paid by the City during the construction period while the City continues to purchase its water from DWSD. However, once the construction is complete and water delivery commences, the City's capacity charge will be fixed, based on the debt service necessary to finance construction. Operational costs for KWA water delivery and the Flint WTP are projected to increase by 5% annually.

Based on the assumptions in this comparison, the annual projected cost of purchasing water for the City of Flint is 15% or $2.6 million LESS using the KWA option in the first year of operation, increasing to 27% or $6.1 million LESS in the fifth year of operation. The only caveat is that in order to achieve this, the City will need to upfront KWA $3.25 million over 3 years prior to KWA beginning water delivery.

Concerns have been raised about the potential of cost overruns and delays in construction. These are reasonable concerns. An additional analysis, assuming a 15% cost overrun, and a one-year delay in construction, indicates that the gain to be achieved from participating in KWA is lessened (from $2.6 million in the first year to $2.3 million) and the City's upfront contribution is increased to $10.4 million if the City is required to make its first year's debt service payment before operations begin. The City's gain from participating in KWA is delayed, but once operations begin, the City's annual costs are less than continuing with DWSD, becoming net positive in FY20. However, given the City's precarious financial position, it is likely that the City would need to find some source of capital if such an up-front payment were necessary.

Finally, we have also analyzed what constraints DWSD would need to impose on its contract with the City of Flint in order to be a positive financial option. It would appear that if the capacity costs to Flint were to be fixed at the FY13 level and if annual operating cost increases were capped at 2.25%, then the cost to the City of Flint could be less than KWA.

Attached are the three projections summarized above. First is the "Original Projection" utilizing the KWA Study. Second is the "Worse Case Projection" with cost increases and construction delays. Third is the reduced DWSD costs associated with fixed capacity costs and capped increases in operational costs.

Please contact me if you have any questions.

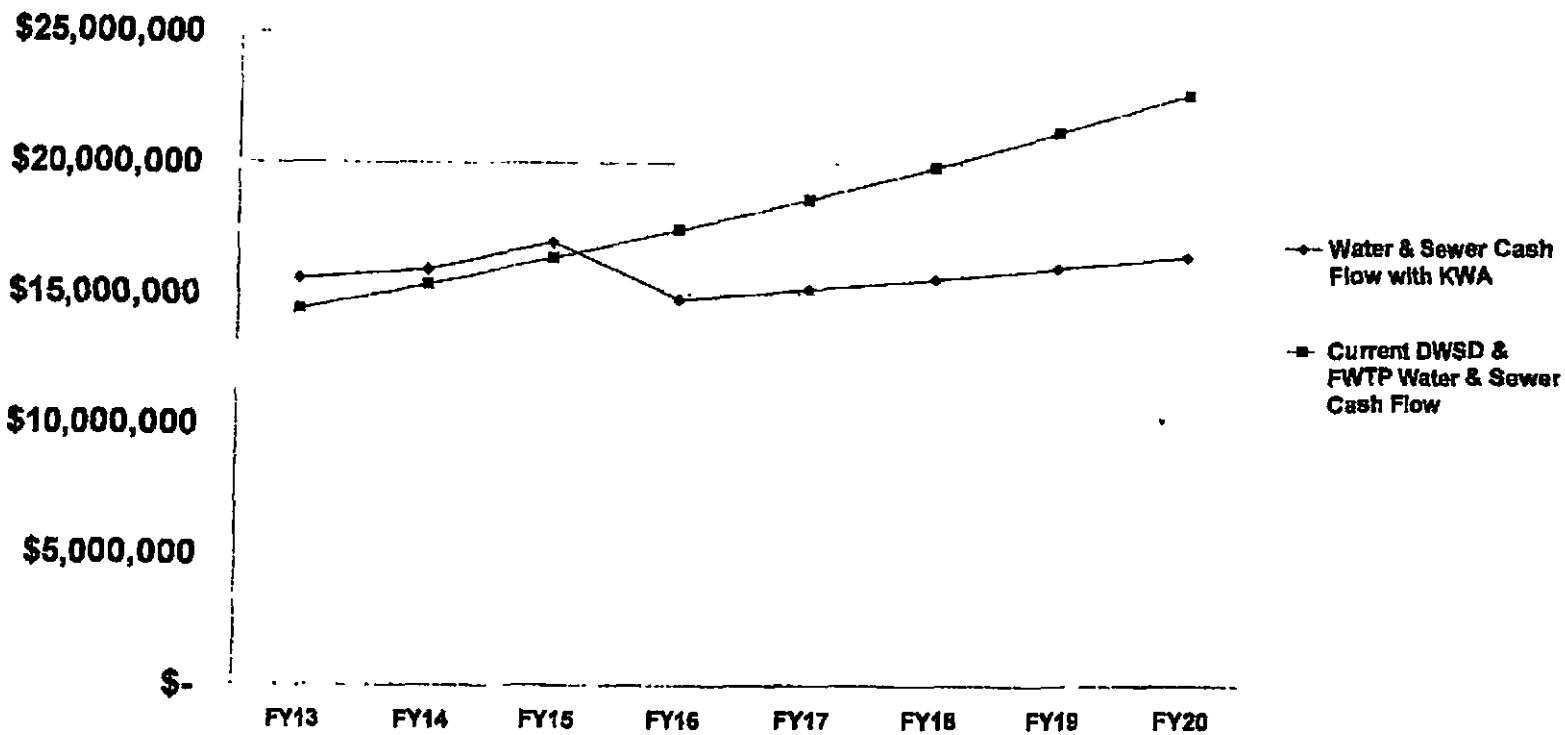
Original Projection - Summary Comparison: KWA vs DWSD



FINAL 10/31/2012

ORIGINAL PROJECTION
SUMMARY COMPARISON: KWA V DWSD

Water and Sewer Cash Flow with KWA

	Year 1 FY13	Year 2 FY14	Year 3 FY15	Year 4 FY16	Year 5 FY17	Year 6 FY18	Year 7 FY19	Year 8 FY20
Current DWSD & FWTP Costs	$ 14,413,858	$ 15,355,135	$ 16,365,534	$ -	$ -	$ -	$ -	$ -
KWA Entry Fee	$ 1,162,800	$ 581,400	$ 581,400	$ -	$ -	$ -	$ -	$ -
KWA Debt Service	$ -	$ -	$ -	$ 6,593,155	$ 6,593,155	$ 6,593,155	$ 6,593,155	$ 6,593,155
FWTP Debt Service	$ -	$ -	$ -	$ 572,781	$ 572,781	$ 572,781	$ 572,781	$ 572,781
KWA operations	$ -	$ -	$ -	$ 878,669	$ 922,612	$ 968,853	$ 1,017,401	$ 1,068,271
FWTP operations w KWA	$ -	$ -	$ -	$ 6,643,344	$ 7,185,511	$ 7,544,787	$ 7,922,026	$ 8,318,128
Total Costs	$ 15,576,658	$ 15,936,535	$ 16,946,934	$ 14,688,149	$ 15,274,260	$ 15,679,576	$ 16,105,363	$ 16,552,334

Water and Sewer Cash Flow with DWSD

	Year 1 FY13	Year 2 FY14	Year 3 FY15	Year 4 FY16	Year 5 FY17	Year 6 FY18	Year 7 FY19	Year 8 FY20
Current DWSD & FWTP Costs	$ 14,413,858	$ 15,355,135	$ 16,365,534	$ 17,450,717	$ 18,616,851	$ 19,870,650	$ 21,219,436	$ 22,671,185

Cash Flow Difference: KWA and DWSD

	Year 1 FY13	Year 2 FY14	Year 3 FY15	Year 4 FY16	Year 5 FY17	Year 6 FY18	Year 7 FY19	Year 8 FY20
Annual Cost: DWSD - KWA	$ (1,162,800)	$ (581,400)	$ (581,400)	$ 2,562,568	$ 3,342,591	$ 4,190,974	$ 5,114,072	$ 6,118,851
Cumulative Gain with KWA	$ (1,162,800)	$ (1,744,200)	$ (2,325,600)	$ 236,968	$ 3,579,559	$ 7,770,533	$ 12,884,605	$ 19,003,456

(1) This projection assumes that KWA begins delivery of water to Flint starting in July, 2016. Any interest on the bonds will be capitalized until that period. The City will be obligated to begin paying its $2,325,600 entry fee in FY13 - 2 payments of $581,400 in FY13, 1 payment in FY14 and 1 payment in FY15.

(2) The cost of the KWA option is projected to be $2,562,568 or 16% LESS than DWSD in the first year of operation (Year 4). This gain offsets the upfront costs of $2,325,600 by $236,968.

(3) The cost of the KWA option is projected to be $6.1 million or 27% LESS than DWSD in the 5th year of operation (Year 8)

(4) The cumulative savings by the 8th year from the beginning of the project are projected to be $19 million.

Detail of Original Cost Projections — FINAL — 10/31/2012

Cost Comparisons: Water Supply to City of Flint from DWSD and proposed KWA project

Cost of water to City of Flint (excluding Genesee) using continued service from DWSD

	FY13	FY14	FY15	FY16	FY17	FY18	FY19	FY20
Fixed Cost (1)	$ 4,411,680	$ 4,852,848	$ 5,338,133	$ 5,871,946	$ 6,459,141	$ 7,105,055	$ 7,815,560	$ 8,597,116
Escalator	1.10	1.10	1.10	1.10	1.10	1.10	1.10	
Commodity Cost (2)	$ 7,276,640	$ 7,640,472	$ 8,022,496	$ 8,423,620	$ 8,844,801	$ 9,287,041	$ 9,751,394	$ 10,238,963
Escalator	1.05	1.05	1.05	1.05	1.05	1.05	1.05	
Flint WTP Operating Cost (3)	$ 2,725,538	$ 2,861,815	$ 3,004,906	$ 3,155,151	$ 3,312,908	$ 3,478,554	$ 3,652,482	$ 3,835,106
Escalator	1.05	1.05	1.05	1.05	1.05	1.05	1.05	
TOTAL	$ 14,413,858	$ 15,355,135	$ 16,365,534	$ 17,450,717	$ 18,616,851	$ 19,870,650	$ 21,219,435	$ 22,671,185

(1) Per FY13 Budget and DWSD Contract, fixed charge from DWSD for FY13 is $707,000 per month or $8.5 million total. Flint's cost is 52% or $4.4 million total.

(2) Per FY13 Budget and DWSD Contract, and based on 12 million gallons per day (mgd), cost is $7.3 million, based on $12.46/unit ($12.46x1600unitsx366).

(3) Per FY13 Budget, annual cost of WTP is $4.1 million. Genesee County pays $1,366,000 for emergency back up service.

Cost of water to City of Flint using proposed KWA project for water supply to Flint WTP

	FY13	FY14	FY15	FY16	FY17	FY18	FY19	FY20
KWA Entry Costs (1)	$ 1,162,800	$ 581,400	$ 581,400		$ -	$ -	$ -	$ -
Fixed KWA Construction Cost (2)				$ 6,593,155	$ 6,593,155	$ 6,593,155	$ 6,593,155	$ 6,593,155
Escalator				1.00	1.00	1.00	1.00	
Fixed Flint WTP Construction Cost (3)				$ 572,781	$ 572,781	$ 572,781	$ 572,781	$ 572,781
Escalator				1.00	1.00	1.00	1.00	
Flint WTP Operating Cost (4)	$ 5,911,538	$ 6,207,115	$ 6,517,471	$ 6,843,344	$ 7,185,511	$ 7,544,787	$ 7,922,026	$ 8,318,128
Escalator	1.05	1.05	1.05	1.05	1.05	1.05	1.05	
KWA Commodity Charge (5)	$ 759,200	$ 797,160	$ 837,018	$ 878,869	$ 922,812	$ 968,953	$ 1,017,401	$ 1,068,271
Escalator	1.05	1.05	1.05	1.05	1.05	1.05	1.05	
TOTAL	KWA NOT AVAILABLE			$ 14,888,149	$ 15,274,260	$ 15,679,676	$ 16,105,363	$ 16,552,334

(1) The City will, upon joining, be required to pay an initial fee of $32,300 per MGD plus the same amount for each year until bonding for the project is obtained. At 18MGD, the City's cost is $581,400 annually. Since it is projected that fee will be assessed for 3 years, the City's upfront cost is projected at $2,325,600.

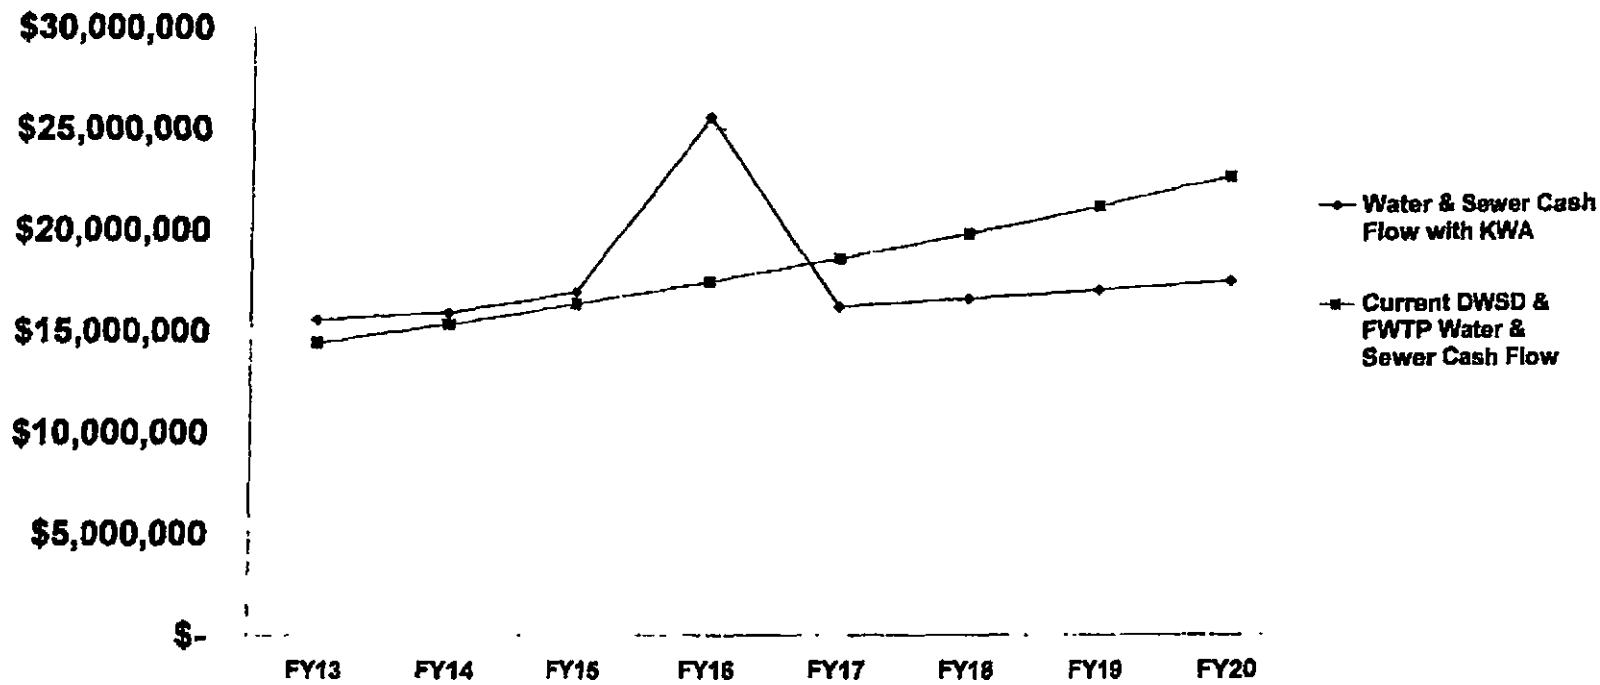
(2) Per KWA proposal, project cost is $272 million. City's fixed cost would be 30% of debt service, based on capacity design of 60mgd, of which 18MGD is for Flint. Debt service is based on 5% interest rate @ 25 years; 5% added to principal for capitalized interest for FY13, FY14, and FY15. ($272,421,588 plus $13,621,078 for 3 years = $313,284,782)

(3) Per KWA proposal, the cost of upgrading the Flint is $7.1 million. City's fixed cost would be100% of debt service based on 5% interest rate @ 25 years), with 5% added to cover capitalized interest for FY13, FY14, and FY15. (total principal = $8.165 million)

(4) Per FY13 Budget annual cost of WTP is $4,111,538. $1.8 million for electricity and chemicals & 2 FTE's are added. 100% City cost. 100%

(5) Per KWA proposal, initial commodity charge would be based on $1.30/unit or 7,600 gallons. Charge is based on 12MGD.

Worst Case Scenario - Summary Comparison KWA vs DWSD (15% Cost Overrun; One year delay in Water Supply delivery)



FINAL 10/31/2012

WORSE CASE PROJECTION

Water and Sewer Cash Flow with DWSD

	Year 1 FY13	Year 2 FY14	Year 3 FY15	Year 4 FY16	Year 5 FY17	Year 6 FY18	Year 7 FY19	Year 8 FY20
Current DWSD & FWTP Costs	$ 14,413,858	$ 15,355,135	$ 16,365,534	$ 17,450,717	$ 18,615,551	$ 19,870,950	$ 21,218,436	$ 22,671,155

Cash Flow Difference: KWA and DWSD

	Year 1 FY13	Year 2 FY14	Year 3 FY15	Year 4 FY16	Year 5 FY17	Year 6 FY18	Year 7 FY19	Year 8 FY20
Annual KWA - DWSD	$ (1,162,800)	$ (581,400)	$ (581,400)	$ (8,240,826)	$ 2,267,700	$ 3,116,084	$ 4,039,182	$ 5,043,980
Cumulative	$ (1,162,800)	$ (1,744,200)	$ (2,325,600)	$ (10,566,426)	$ (8,298,726)	$ (5,182,642)	$ (1,143,460)	$ 3,900,500

"Worse Case" scenario differs from Original in three respects:

(1) Delivery of water to Flint from KWA is delayed by one year and construction costs are 15% above the original projection. Consequently, the City is required to begin paying for debt service one year before KWA begins delivery of water. This is in addition to its obligation to pay its initial entry fee of $581,400 plus $581,400 annually for the first 3 years.

(2) Once KWA begins delivering water in year 5, the annual operating costs are less than DWSD by 12%. Considering $10.6 million in upfront costs in the first 4 years prior to KWA operation, the cumulative cost of KWA exceeds the cost of DWSD until year 6.

(3) Cumulative savings by Year 8 are projected to be $3.9 million, compared to $19 million in the original projection.

Detail of Worse Case Cost Projections FINAL 10/31/2012

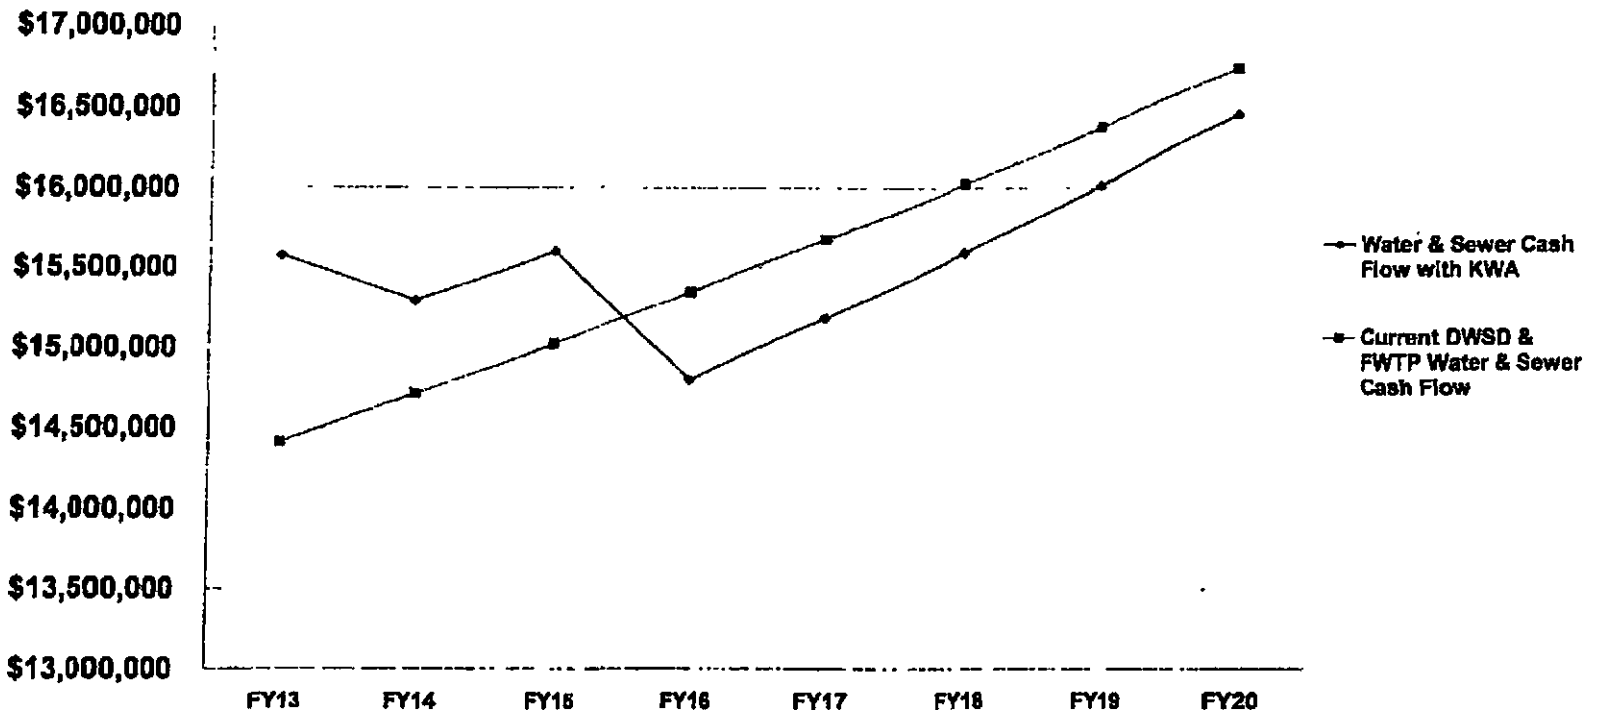
Fixed KWA Construction Cost (2)					$ 7,582,128	$ 7,582,128	$ 7,582,128	$ 7,582,128	$ 7,582,128
	Escalator						1.00	1.00	
Fixed Flint WTP Construction Cost (3)					$ 658,698	$ 658,698	$ 658,698	$ 658,698	$ 658,698
	Escalator								
Flint WTP Operating Cost (4)		$ 5,911,536	$ 6,207,115	$ 6,517,471	$ 6,843,344	$ 7,185,511	$ 7,544,787	$ 7,922,026	$ 8,318,128
	Escalator	1.05	1.05	1.05	1.05	1.05	1.05	1.05	
KWA Commodity Charge (5)		$ 759,200	$ 797,160	$ 837,018	$ 878,869	$ 922,812	$ 968,953	$ 1,017,401	$ 1,068,271
	Escalator	1.05	1.05	1.05	1.05	1.05	1.05	1.05	
TOTAL		KWA NOT AVAILABLE				$ 16,349,150	$ 16,754,566	$ 17,180,253	$ 17,627,225
	(1)	The City will, upon joining, be required to pay a, initial fee of $32,300 per MGD plus the same amount for each year until bonding for the project is obtained. At 18MGD, the City's cost is $581,000, for a total of $2,325,600.							
	(2)	Per KWA proposal, original project cost is $272 million. City's fixed cost would be 30% of debt service, based on capacity design of 50mgd, of which 18MGD is for Flint. Debt service is based on 5% interest rate @ 25 years; 5% added to principal for capitalized interest for FY13, FY14, and FY15. ($272,421,558 plus $13,621,078 for 3 years = $313,284,792). The costs here are increased by 15%; debt service starts in FY16 but water is not available until FY17.							
	(3)	Per KWA proposal, the cost of upgrading the Flint is $7.1 million. City's fixed cost would be100% of debt service based on 5% interest rate @ 25 years), with 5% added to cover capitalized interest for FY13, FY14, and FY15. (total principal = $8.165 million). Again, costs here are increased by 15%; debt service starts in FY16 but water is not available until FY17. Debt service is now on $9.4 million.							
	(4)	Per FY13 Budget annual cost of WTP is $4,111,535. $1.9 million for electricity and chemicals & 2 FTE's are added. 100% City cost							
	(5)	Per KWA proposal, initial commodity charge would be based on $1.30/unit or 7,500 gallons. Charge is based on 12MGD							

ALTERNATE PROJECTION - SUMMARY COMPARISON: KWA V DWSD WITH DWSD COSTS REDUCED (Fixed Costs held constant; Commodity Costs Increased by 2.25% Annually)



FINAL 10/31/2012

ALTERNATE PROJECTION
SUMMARY COMPARISON: KWA V DWSD WITH DWSD COSTS REDUCED
(FIXED COSTS HELD CONSTANT; COMMODITY COSTS INCREASED BY 2.25% ANNUALLY)

Water and Sewer Cash Flow with KWA

	Year 1 FY13	Year 2 FY14	Year 3 FY15	Year 4 FY16	Year 5 FY17	Year 6 FY18	Year 7 FY19	Year 8 FY20
Current DWSD & FWTP Costs	$ 14,413,858	$ 14,713,859	$ 15,024,358	$ -	$ -	$ -	$ -	$ -
KWA Entry Fee	$ 1,162,800	$ 581,400	$ 581,400	$ -	$ -	$ -	$ -	$ -
KWA Debt	$ -	$ -	$ -	$ 6,593,155	$ 6,593,155	$ 6,593,155	$ 6,593,155	$ 6,593,155
FWTP Debt	$ -	$ -	$ -	$ 572,781	$ 572,781	$ 572,781	$ 572,781	$ 572,781
KWA operations	$ -	$ -	$ -	$ 878,869	$ 922,812	$ 968,953	$ 1,017,401	$ 1,068,271
FWTP operations w KWA	$ -	$ -	$ -	$ 6,843,344	$ 7,185,511	$ 7,544,787	$ 7,922,026	$ 8,318,128
Total Costs	$ 15,576,658	$ 15,295,259	$ 15,605,758	$ 14,888,149	$ 15,274,260	$ 15,679,676	$16,105,363	$ 16,552,334

Water and Sewer Cash Flow with DWSD

	Year 1 FY13	Year 2 FY14	Year 3 FY15	Year 4 FY16	Year 5 FY17	Year 6 FY18	Year 7 FY19	Year 8 FY20
Current DWSD & FWTP Costs	$ 14,413,858	$ 14,713,859	$ 15,024,358	$ 15,345,778	$ 15,678,662	$ 16,023,172	$16,380,091	$ 16,749,823

Cash Flow Difference: KWA and DWSD

	Year 1 FY13	Year 2 FY14	Year 3 FY15	Year 4 FY16	Year 5 FY17	Year 6 FY18	Year 7 FY19	Year 8 FY20
Annual Cost: DWSD - KWA	$ (1,162,800)	$ (581,400)	$ (581,400)	$ 457,629	$ 404,302	$ 343,498	$ 274,728	$ 197,489
Cumulative Gain with KWA	$ (1,162,800)	$ (1,744,200)	$ (2,325,600)	$ (1,867,971)	$ (1,463,669)	$ (1,120,173)	$ (845,445)	$ (647,956)

(1) This projection assumes that DWSD fixed costs remain at 2013 levels and that operating costs increase by 2.25% annually

(2) KWA costs are as in the Original Projection.

(3) In this comparison, KWA costs are still less once operations begin (by 2.8%), and cumulative gain does not occur until after year 8. Over time, DWDS costs could be less with these limitations on cost increases.

EM SUBMISSION NO.: EME048 2013

PRESENTED: 11-14-13

ADOPTED: 11-18-13

BY THE EMERGENCY MANAGER:

Resolution Authorizing Change Order #2 to the Lockwood, Andrews & Newnam Contract for the Implementation of Water Plant Operations

The City of Flint entered into a contract with Lockwood, Andrews & Newnam to study the feasibility and develop cost estimates for utilizing the Water Plant as a primary drinking water source in an amount not to exceed $171,000.00; and

Authorization is needed to enter into change order #2 to the existing contract no. 13-046 with Lockwood, Andrews & Newnam for additional funding of $962,800.00 for a total contract price not –to-exceed $1,133,800.00. The additional services will include final design work, construction engineering and necessary regulatory submittals to operate the Water Plant off the river until the KWA water source is completed; and

These funds are made available in account in 591-536.100-801.000; and

IT RESOLVED, Appropriate City Officials are to do all things necessary to enter into change order #2 to the existing contract no. 13-046 with Lockwood, Andrews & Newnam for an additional contract price of $962,800.00 for a total contract price not-to-exceed $1,133,800.00. Funding will come from the account 591-536.100-801.000.

Subject:	Re: FW: 3 Resolutions for Approval - EME0262013, EME0272013 and EME0282013 - October 25, 2013

Good morning Mr. Cline:

Thank you for approving EME0282013. I am forwarding your questions to the Purchasing Director and will contact you shortly.

Thanks again.

Maxine

On Tue, Oct 29, 2013 at 11:24 AM, Cline, Richard (Treasury) <cliner1@michigan.gov> wrote:

Maxine,

Good morning. I have been reviewing the 3 recent resolutions that have been transmitted to Treasury. I have recommended approval of EME0282013 (truck tires).

I, however, have some follow-up questions regarding the other two. Please help me coordinate a follow-up so we can move forward with these items.

My questions are:

1. EME0262013 - Resolution to McNaughton-McKay Electric for Cedar Street Pumping Station Switchgear Upgrades - $482,000.00 - (Water Fund)

- This is a very expensive purchase to receive only one bid for.
- Has the City considered trying to secure additional bids or rebidding the entire project?
- I note that the MDEQ is requiring these upgrades. Is there a timeframe the City is working within?

2. EME0272013 - Resolution to Rowe's Engineering, Inc. for Engineering Services - $40,000.00 (when added to previous approved amount the cumulative total is $189,600.00) (Parks/Recreation Fund)

- What is the nature of the requested engineering services?

- If Rowe Engineering is already the City's engineering consultant and provides engineering services (per bid proposal #844), why is this bid proposal necessary? Would not these services fall within the existing service contract?

Please let me know how best we can follow-up on these items.

Regards,

Eric Cline | Unit Operations Specialist - Office of Fiscal Responsibility

Subject: 3 Resolutions for Approval - EME0262013, EME0272013 and EME0282013 - October 25, 2013

Good morning Angela,

We are submitting the following three resolutions for State approval:

1. EME0262013 - Resolution to McNaughton-McKay Electric for Cedar Street Pumping Station Switchgear Upgrades - $482,000.00 - (Water Fund)

2. EME0272013 - Resolution to Rowe's Engineering, Inc. for Engineering Services - $40,000.00 (when added to previous approved amount the cumulative total is $189,600.00) (Parks/Recreation Fund)

3. EME0282013 - Resolution to GCR Tire Center, Inc. for Supply of Auto, Light Truck and Police Tires - $150,000.00 - (Fleet/Central Garage Fund)

The resolutions are attached.

Thank you.

City of Flint Wednesday 9:00 am Phone Conference Agenda
April 2, 2014

1) **Public Safety Update – FPD, MSP (FFD if needed)**

a) Public Safety Initiatives – Chief Tolbert to complete proposals with dollar estimates and timelines. (See attachment A.)

b) Still awaiting SAFER grant renewal for Flint. County Commissioners have sent resolution of support last week to FEMA.

c) Public Safety Study – COF shared with the Mott Foundation that the State is considering paying ½ the cost of this study. Mr. Earley is working to get the consultants to Lansing to present to Treasury shortly.

d) Other update by Chief Tolbert and MSP.

2) **Governor's Office Update –Rich Baird, H. Hollins**

3) **Retiree Lawsuit – Status, Issues**

There was a 3/14/14 meeting with attorneys and healthcare consultant. Update: Letters did go out to retirees as planned.

Regarding an E&Y "Ability to Pay" analysis: "In response to your request to assist the City in connection with it ongoing retiree litigation, we mentioned our experience supporting an "ability to pay" analysis. As discussed, EY has prepared an "ability to pay" document for the City of Detroit and believe this is valuable experience to leverage for the CIty of Flint. This task , while dependent on the 5 year projections, would require incremental work to the existing scope agreed to with the City and paid by the State. EY proposes a two week incremental project to prepare a deliverable document as part of the City's "Ability to Pay" argument; we estimate $30,000 in fees to complete the document."

4) **Financial Update**

a) Deficit Elimination Plan – approval still pending. City is incorporating the changes into the FY15/16 budget. The City is still committed to eliminating the deficits. We are proceeding as we await formal approval of the amendment.

b) Approval of the budget amendment still pending – 6 weeks. We are proceeding as we await formal approval. However, we noted that PA 436 Section 12 (1)(b) allows the EM to "Amend, revise, approve or disapprove the budget of the local government, and limit the total amount appropriated or expended."

c) Water Treatment Plant – Resolutions authorizing contractors approved by Treasury. Frost conditions and easement issues with Consumers Energy may impact completion date, but are being addressed. DEQ ACO has been approved. Awaiting approval of Construction Permit, discussions with Water and Solid Waste Divisions ongoing. Must be resolved this week or significant delay with project could occur.

d) Update on E&Y contract: Preliminary draft reviewed end of last week. Next draft expected end of this week. Preliminary review expected with EM and Treasury within the next three weeks.

e) Model Contract Status – Preparing materials for imposition of FPOA contract. Finalizing dates for last meeting w AFSCME 1600 (likely mid April). Drafting initial contract draft for IAFF. Beginning drafting of other FPOA contracts and AFSCME 1799, to be pattered after FPOA and 1600.

f) MDOT waiver – Spiral Weld Project: MDOT is not handling as a waiver, plan to take dollars from future Flint projects and jeopardizing Federal dollars on those projects. MDOT is asking other communities around the state to forgo their projects so Fllint project could progress.

g) DEQ SAW Grant: could there be a policy to allow distressed communities to skip the lottery? The City of Flint applied for a $2 million SAW Grant to develop a GIS based sewer Asset Management Plan (AMP) and work tracking system. The proposal also included an Asset Management Plan for the Wastewater Treatment Plant. The Plant's NPDES permit renewal will require this in the upcoming fiscal year. That AMP is estimated to cost $300,000, which will now have to be funded internally.

4) City Council Update

a) Schedule for Council review of two year budget established upon receipt of proposed budget on April 30. Council, working through its Finance Committee will meet between May 5 and May 17 to review budget. Council plans to hold public hearing on May 18 and to provide comments and recommendations to EM by May 28.

b). Vision, Mission, Goals and Budget Priorities were adopted by Council on March 24.

c) Council is also meeting in a Special Meeting on April 7 to take up the 7 Point Transition Management Plan. This was postponed from the March 24 meeting

d) The next regular City Council meetings are scheduled for Wednesday, April 30; Monday, May 19; Monday June 16, 2014.

5) **Blue Ribbon Committee**

BRC held its sixth meeting on 3/27/14. A sub-committee has been formed to work out the details of public engagement sessions. The whole committee is working its way through a list of issues for form of government revision; seeking to achieve group consensus.

6) **Water Issues**

a) Water Issues – DEQ permits are expected to be received this week. Consumers Powers easements issues are being addressed. However, termination of water service from DWSD may be delayed. Awaiting confirmation of terms from DWSD by which water will continue to be purchased from DWSD – presumably the terms outlined in their February 12, 2014 letter. Delay *could* be a matter of weeks, but certainly no later than June 30, 2014.

b) Negotiations with GCDC continue with regards to sale of the pipeline section. COF current proposal is for $3.9 million sale price, the value established in recent valuation. Valuation has been submitted and reviewed by Treasury. Submission to Treasury for approval is anticipated prior to ending relationship with DWSD. Also, COF is negotiating back-up service agreement for GCDC for period between DWSD termination and KWA start-up.

c) Water and Sewer Rate Study – the final draft is due shortly and will be reviewed with the Public Works Committee on April 10.

7) **Scrap Metal Bill (HR 4593)**

Passed both houses and signed by Governor.

8) **Other items**

Bill which includes merger of 68th District Court into 67th District Court has been approved by both houses. Who is taking lead on this project?

Created on: 03/17/14

June 18, 2014	Begin Operation Fresh Start

Operation Fresh Start Regional Operation

Introduction:

Flint Lifelines and the City of Flint Police Department would like to propose Operation Fresh Start. This is a collaborative initiative with the purpose of assisting City of Flint residents, and the surrounding suburbs who through various reasons, have found themselves in an untenable situation where they are included in the population of individuals who have active arrest warrants.

There are approximately 40,000 warrants countywide and 23,000 in the City of the Flint; the majority of warrants are misdemeanor warrants, victimless crimes, or civil infractions.

The failure to address these violations has resulted in warrants being issued and driver responsibility fines being levied. These warrants affect an individual's ability to become employed and their ability to seek employment and to provide financially for their families. Given these pressures, there is a high probability that criminal conduct can occur.

Purpose of Operation Fresh Start:

Operation Fresh Start is a means to address and eliminate these barriers and provide a starting point for individuals to improve their ability to become better citizens.

Operation Fresh Start will include the following agencies as stakeholders:

1. Flint Lifelines
2. Flint Police Department
3. 68th District Court/ 67th District Court
4. Secretary of State
5. City Prosecutor's office
6. County Prosecutor's office
7. Ecumenical community
8. Business community
9. Health Coalition
10. Dept. of Health and Human Services
11. Mental Health services
12. Educational
13. Genesee County Landbank
14. Genesee County Sheriff Department

Operation Fresh Start Implementation:

Operation Fresh start will focus on individuals with misdemeanor warrants punishable by less than 90 days & less than a $500.00 fine.

The operation will be based on targeting one (1) zip code in the City of Flint/County of Genesee, on a specified day, and partnering with a faith based institution as a base of operation within the specified zip code. This scenario will repeat itself until each zip code has hosted the operation.

Persons within the zip code will come to the location and interact with the appropriate City, County or State representatives to recall warrants, adjudicate civil infractions, and settle fines and fees and apply for or receive a valid state license. Additionally, community service organizations will be present to offer assistance if services are needed.

The synergy of Lifelines and Operation Fresh Start will compliment each other and allow for sustainable solutions to the community of Flint and the county of Genesee.

Personnel and Cost: (projected 8 hour day)

Position	Cost	Total
(1) Flint PD Sergeant (site supv)	(($31.095 x 48) x 1.0429)+919.20	$2,475.79
(4) Flint PD Officer (site security)	(($25.974 x 48) x 1.0429)+919.2	$4,438.88
(2) Genesee County D/Sheriff (site security)	($48.077 x 48) x 2	$4,615.39
(2) Genesee County D/Sheriff (Work force)	($48.077 x 1040) x 2	$100,000.16
(will deploy 20 hours per week for 52 weeks*)		
(2) Michigan State Troopers	($30.978 x 48) x 2	$2,973.89
Lifeline(Media, Flyers etc...)	$20,000.00	$20,000.00
I.T. (Equipment & services)	$10,000.00	$10,000.00
67th District Court cost (Judges, admin staff etc...)		
68th District Court cost (Judges, admin staff etc...)		
Michigan Department of Secretary of State		
-Mobile Office		
-Staff		
	Total Cost	$144,504.11

Challenges to overcome prior to implementation:

1. 67th District court entanglements (Ward Chapman)
2. GCACP input (Chief Tolbert)
3. Video Conferencing from site to court (Chief Tolbert)
4. Hours of operation (when can the judges do this?) (67th/68th District Court Judges)
5. Will any other jurisdiction want their judges to hear their cases

* Depending on number of individuals electing to conduct community service in lieu of payment of fines.

State Record Management System Time Line

April 15, 2014

A meeting is scheduled with MSP and FPD, the technology will be examined, against the current functionality and the proposed functionality of three systems. From that point document will be authored to the Emergency Manager recommending the RMS.

At that point an implementation timeline will be developed, and MSP will add a budget to this project.

The City of Flint Police Department
Crime Reduction Strategy
Area Crime Team / A. C. T.

The City of Flint Police Department is actively pursuing all relevant strategies in an effort to truly address crime and criminal behavior at their root cause and locations. Gone are the days of reactionary policing, we must be proactive in our approach. Identifying criminal trends through analysis and addressing them head on is our focus under this initiative.

The leadership of the City of Flint realizes that a complete law enforcement response relies upon a combination of a true data driven approach and boots on the ground efforts. This type of response shall allow for the realization of a true and sustainable reduction in all crimes within the City of Flint. This reduction in crime shall allow for the recapturing of neighborhoods by our concerned residents, the strengthening of community police partnerships and raised awareness and unity towards the common goal of safer neighborhoods through lasting crime reduction.

The City of Flint is proposing to assemble and utilize an Area Crime Team (A.C.T.). This highly trained and specialized unit shall deploy resources into very specific locations to address specific high crime targets. This can be exclusive to a singular target such as a known homicide suspect or a specific target of general crimes and trends such as gang behavior or other part one crimes elevated in data identified specific areas.

This initiative shall hire additional police resources to accomplish this targeted offensive in a collaborative effort. While the City of Flint shall be the lead agency and coordinator of this program, we shall form partnerships under this initiative with the Michigan State Police, the Genesee County Sheriff's Department, the Michigan Department of Corrections and the Genesee County Prosecutor's office. Each agency shall play a vital role towards our goal of true crime reduction. Through the hiring of additional resources for each agency, we also shall receive the ancillary benefit of each agency and all of their existing resources when applicable. Leveraging these agencies shall also allow for follow up within the entire Genesee County area when necessary through investigation and leads.

We propose to hire one Flint Police Sergeant and three Flint Police Officers, two Michigan State Police Troopers, one Genesee County Sheriff Deputy, one MDOC employee and one Genesee County Deputy Prosecutor. This program will be operational for a three year period.

We envision that this team of officers shall become a spearhead to address major offenders and trends with significant results. They shall work as a team and gain influence with the community through their transparency and ability to work closely

with community partners. This team shall have laser focus and target extremely specific crimes and locations based on Flint Police gathered crime data as analyzed by the Michigan State Police. Once a crime or area has been identified, this unit shall saturate the determined area with a goal of total disruption to the offending behavior. The officers shall perform the initial response, investigations and arrest of the perpetrators with the assistance of the MDOC resource. The prosecuting attorney shall have oversight of all cases involving this unit to ensure vertical prosecution. Additionally, a victim's assistance program will facilitate victim services for individuals victimized by crime in the targeted area. (Dependent on grant award)

The cost of this effort shall be primarily wage and fringe of these mission dedicated officers and staff. Their very existence shall be grant funded, and by design they will be deployed exclusively towards the goal of this program.

We request the following items to be funded for this program:

Position	**Wage and Fringe**	**Total**
One (1) Flint Police Sergeant:	$109,271.27 x 1 x 3yrs	$327,813.81
Three (3) Flint Police Officers:	$100,979.82 x 3 x 3yrs	$908,818.38
One (1) Genesee County Deputy:	$100,000.00 x 1 x 3yrs	$300,000.00
Two (2) Michigan State Troopers:	$64,435.00 x 2 x 3yrs	$386,610.00
(Wage Only - Fringe not included)		
One (1) MDOC agent:	$106,303 x 1 x 3yrs	$318,909.00
One (1) Genesee County Prosecutor:	$162,000.00 x 1 x 3yrs	$486,000.00
One (1) crime analyst:	$45,000.00 x 1 x 3yrs	$135,000.00
	Sub-Total	$2,863,151.19
	Anticipated Grant Match	
Victim Assistance Program	$60,000 x 3yrs	$180,000.00
	Total Cost	$3,043,151.19

Arson Investigative Team

The City of Flint has been plagued by arsons of real property. The investigative effort of these arsons has been hampered by untrained personnel.

The Flint Police Department understands the need to conduct thorough investigations of arsons and requires the necessary resources to do so. The City of Fling has enrolled a Police Sergeant and a Flint Firefighter in the March 2014, Michigan State Police, Basic Arson School.

We anticipate having 4 additional seats in upcoming arson schools, the purpose of this initiative is to have properly trained arson investigators that would work along side MSP investigators who are trained in the ability to determine cause and origin of fires.

As the training is complete, the investigators will begin working together as a team to address arson fires in the City of Flint. This effort will send a clear message that arson in the City of Flint, will no be tolerated and those responsible will be held accountable.

Personnel:

6 FPD/FFD arson trained investigators
2* MSP arson trained investigators

* Depending on number of MSP trained investigators.

Lifeline Regional Crime Intervention

May 22, 2014

This currently an ongoing process funding requested would enhance the current effectiveness of the current program.

Lifeline Regional Crime Intervention Strategy

The City Flint is in a very advantageous position to enhance our community engagement program named Lifeline, this program is similar to the Cease Fire youth violence reduction program model.

This program model contains almost all of the elements of the Cease Fire model, and the community-based research, networking and consensus-building process this program model has proved successful in cities across the United States and in California (e.g., Stockton, with implementation also underway in Oakland and San Francisco) and consists of five (5) basic elements:

1. **Crime data collection and analysis related to gun violence, including the geographic location of violent incidents, demographic information on individuals involved in gun violence, and patterns of gang violence.** The Flint Police Department and has this data, but needs additional resources to analyze and present it in formats useful to staff and the community.

2. **Organization of a working group to design and implement the local strategy.** Flint has already started doing this, and must expand its current efforts to include employment training and placement providers, community and faith leaders and the Genesee County Sheriff's Department (we already have the other listed parties actively engaged in the process).

3. **Direct communication with gang members and youth most likely to commit gun violence.** This element features community outreach and community meeting to communicate directly to those most involved in youth violence. Meeting attendees are given a two-part message: a) gun violence must stop immediately or criminal justice agencies will intervene quickly and forcefully against those responsible; and b) the working group is there to support the gang members and youth with intensive services and employment. This phase will come once the program is implemented.

4. **Employment opportunities.** Meaningful employment opportunities are provided to gang members and youth participating in the program, with counseling, training and educational resources and programs used to prepare the youth for successful employment. Experience across the country shows that the universe of youth requiring these services is expanding rapidly.

5. **Build a strategic law enforcement partnership.** An effective strategic partnership with local law enforcement, county law enforcement and county probation is essential for long-term success. Law enforcement is encouraged to target resources to the small group of youth who "drive" youth violence, providing not only gang suppression, but also providing an incentive for youth to participate in gang diversion programs.

Ancillary coordinating issues:

Collaboration with other local agencies when needed: such as school districts, existing county juvenile justice coordinating committees, law enforcement agencies (city police, county sheriff, county probation, and district attorney), and community based organizations.

Collaboration with a research Major University, as a Research Partner to collect and analyze metrics.

Form a Coordinating and Advisory Council with members from all of the local agencies noted above, whose primary functions will include prioritizing the use funds.

Personnel/Budget:

Position	Wage and Fringe	Total	
One (1) Flint Police Sergeant:	$109,271.27 x 1 x 3yrs	$327,813.81	
Two (2) Flint Police Officers:	$100,979.82 x 2 x 3yrs	$605,878.92	
(Violence Prevention Ofcs)			
One (1) Genesee County Deputy:	$100,000.00 x 1 x 3yrs	$300,000.00	
Two (2) Michigan State Troopers:	$64,435.00 x 2 x 3yrs	$386,610.00	
(Wages Only - Fringes not included)			
One (1) MDOC agent:	$106,303 x 1 x 3yrs	$318,909.00	
One (1) Genesee County Prosecutor:	$162,000.00 x 1 x 3	$486,000.00	
One (1) Crime Analyst:	$45,000.00 x 1 x 3yrs	$135,000.00	
	Total Wages and Fringes	$2,560,211.73	
Additional Cost:			
Administrative Supplied	Detail list available x 3 yrs	$10,000.00	
IT	Hardware and Software	$8,200.00	
Wireless Communication	Cellular Phones x 3 yrs	$6,059.00	
Operational equipment	Surv / Equip (one time cost)	$45,000.00	
	Total Additional Cost	$69,259.00	
	Total Cost	$2,629,470.73	

Arson Investigative Team Timeline

May 30, 2014	Have FPD Sergeant, arson trained.
April 11, 2014	Schedule meeting with MSP to develop investigative SOP
April 18, 2014	Meeting with all arson trained personnel (FPD, FFD and MSP)
May 2, 2014	Commence combined arson investigation

CITY OF FLINT

OFFICE OF THE EMERGENCY MANAGER

Darnell Earley, ICMA-CM, MPA
Emergency Manager

April 8, 2014

Mr. R. Kevin Clinton, State Treasurer
Michigan Department of Treasury
4th Floor Treasury Building
430 West Allegan Street
Lansing, MI 48922

Dear Mr. Clinton:

Attached please find the six month report for the period October 8, 2013 through April 8, 2014 as required by Public Act 436, Section 17. This report is being submitted through you to Governor Rick Snyder.

The entire report will be posted on the City of Flint website www.cityofflint.com as soon as it is approved.

Respectfully submitted,

Darnell Earley, ICMA-CM, MPA
Emergency Manager

cc:
Governor Rick Snyder
Randy Richardville, Senate Majority Leader
James Bolger, Speaker of the House of Representatives
James Ananich, State Senator
Woodrow Stanley, State Representative
Phil Phelps, State Representative
Inez Brown, Clerk of the City of Flint
Wayne Workman, Deputy Treasurer
Edward Koryzno, Bureau Director of Local Government Services
Randall Byrne, Office of Fiscal Responsibility

Public Act 436, Section 17: Six Month Report
April 8, 2014

Introduction

This Six Month Report of the status of the Financial and Operating Plan for the City of Flint is submitted to the Governor Rick Snyder, the Senate Majority Leader, the Speaker of the House of Representatives, and Clerk of the City of Flint through the Department of Treasury for the State of Michigan, in accordance with Public Act 436, Section 17 which requires this report beginning six months after the appointment of the Emergency Manager.

Included are the items detailed below from P.A. 436, Section 17:

(a) A description of each expenditure made, approved, or disapproved during the reporting period that has a cumulative value of $5000 or more and the source of the funds.

(b) A list of each contract that the emergency manager awarded or approved with a cumulative value of $5000 or more, the purpose of the contract, and the identity of the contractor.

(c) A description of each loan sought, approved, or disapproved during the reporting period that has a cumulative value of $5000 or more and the proposed use of the funds.

(d) A description of any new position created or any vacancy in a position filled by the appointing authority.

(e) A description of any position that has been eliminated or from which an employee has been laid off.

(f) A copy of the contract with the emergency manager as provided in section 9(3)(e).

(g) The salary and benefits of the emergency manager.

(h) The financial and operating plan as required under section 11. Update #5 to the Financial and Operating Plan for the City of Flint.

Section Separator

(a) A description of each expenditure made, approved, or disapproved during the reporting period that has a cumulative value of $5000 or more and the source of the funds.

EMERGENCY MANAGER
CITY OF FLINT
GENESEE COUNTY MICHIGAN

ORDER No. 4

CONFIRMATION OF CITY COUNCIL COMMITTEE APPOINTMENTS

BY THE POWER AND AUTHORITY VESTED IN THE EMERGENCY MANAGER ("EMERGENCY MANAGER) FOR THE CITY OF FLINT, MICHIGAN ("CITY") PURSUANT TO MICHIGAN'S PUBLIC ACT 436 OF 2012, LOCAL FINANCIAL STABILITY AND CHOICE ACT ("PA 436"), DARNELL EARLEY, THE EMERGENCY MANAGER, ISSUES THE FOLLOWING ORDER

Pursuant to Public Act 436, the Emergency Manager has broad powers in receivership to recufy the financial emergency and to assure the fiscal accountability of the City of Flint and its capacity to provide or cause to be provided necessary services essential to the public health, safety and welfare, and

Pursuant to Public Act 436, the Emergency Manager acts in place of local officials, specifically the Mayor and City Council, unless the Emergency Manager delegates specific authority; and

Pursuant to Public Act 436, the Emergency Manager has broad power to manage the local government, and may issue orders to elected and appointed officials necessary to accomplish the purpose of the act An order issued under PA 436 is binding on the person to whom it is issued: and

Pursuant to Public Act 436, the Emergency Manager may remove, replace, appoint, or confirm the appointments to any office, board, commission, authority, or other entity which is within or is a component unit of the local government: and

On, Monday, January 13, 2014, during the City Council Meeting, President Kincaid made appointments to three City Council Committees as follows:

Public Safety
Vicki VanBuren (Chairperson)
Jackie Poplar
Josh Freeman

Finance
Josh Freeman (Chairperson)
Wantwaz Davis
Monica Galloway

Legislative Affairs
Sheldon Neeley (Chairperson)
Eric Mays
Scott Kincaid

By virtue of this Order, the Emergency Manager hereby confirms the above City Council Committee appointments; and, affirms that any and all meetings convened on behalf of these Committees shall be scheduled by the Emergency Manager or his designee.

This Order is effective January 15, 2014.

This Order may be amended, modified, repealed or terminated by any subsequent order issued by the Emergency Manager.

Dated: 1-31-14

CITY OF FLINT
Position Description

Class Title:	Water Construction Equipment Operator	Job Code Number:	21-N-063
Established:	June 28, 1984	Bargaining Unit:	Local 1600

GENERAL STATEMENT OF DUTIES: Operates, maintains, and repairs tractor-loader backhoe and hydraulic excavator, hydro-crane and/or any other machine or unit used for digging, loading, unloading, and handling materials used in the installation, repair and maintenance of the City of Flint Water System. Operates other heavy equipment such as tapping machines utilized in fieldwork of the Water Division. Assists foreman in directing field crews. Performs related work as required.

SUPERVISION RECEIVED: Works under the supervision of an employee of higher grade who assigns work and inspects jobs in progress.

SUPERVISION EXERCISED: May assist foreman in exercising working supervision over a small number of employees engaged in the installation and maintenance of the City Water System.

ESSENTIAL DUTIES AND RESPONSIBILITIES:

1. Operates, maintains and repairs a hydraulic excavator, and/or hydro-crane equipped with clam-shell to dig excavations for repair and installation of water mains, water, water service lines, fire hydrants, gates valves, manholes. Loads and unloads materials and supplies to and from trucks, other transporting equipment and stockpiles.
2. Operates hydraulic excavator for excavating and handling materials for various other City Departments in unusual or critical area.
3. Operates, maintains, and repairs diesel-powered tractor-loader-backhoe used for the installation, maintenance and repair of the City Water System.
4. May assist foreman and in his absence performs the duties of the lead man in directing field crews in installation and repairs to the City Water System.
5. May be required to operate other construction equipment such as bulldozers, graders and similar equipment.
6. May be required to work in the classification of Water Distribution Maintainer.

MINIMUM ENTRANCE REQUIREMENTS:

A. Two years experience as a Water Distribution Maintainer; must currently be working in the classification of Water Distribution Maintainer
B. Working knowledge of the principles of heavy automotive and diesel powered construction equipment operation and its uses.
C. Knowledge of the construction of heavy automotive and diesel powered equipment.
D. Ability to make minor repairs and adjustments and to service heavy construction equipment.
E. Skill in the operation of heavy automotive and diesel powered construction equipment.
F. Ability to meet the physical, mental, and visual standards of the job.
G. Ability and willingness to work in a manner that will not needlessly endanger the safety to one's self, other persons and equipment.
H. Ability to work in all outside weather conditions and at all times of day or night.

NECESSARY SPECIAL REQUIREMENT:

- Possession and maintenance of a valid State of Michigan driver's license.
- Possession and maintenance of a valid State of Michigan C.D.L. driver's license "A" endorsement or the receipt of one within three (3) months of appointment.
- Possession and maintenance of an M.D.P.H. Waterworks System Operator "S-3" license or receipt of one within three (3) years of appointment.

PHYSICAL DEMANDS:
While performing the duties of this job, the employee regularly works in outside weather conditions. The employee occasionally works near moving mechanical parts and is occasionally exposed to wet and/or humid conditions, fumes or airborne particles, traffic, toxic or caustic chemicals, risk of electrical shock, and vibration. The employee is occasionally required to stand; walk; use hands to finger, handle, feel or operate objects, tools, or controls; and reach with hands and arms. The employee is occasionally required to sit; climb or balance; stoop, kneel, crouch, or crawl, talk or hear; and smell. The employee must occasionally lift and/or move up to 50 pounds. Specific vision abilities required by this job include close vision, distance vision, color vision, peripheral vision, depth perception, and the ability to adjust focus.

CITY OF FLINT
Position Description

Class Title:	Water Distribution Maintainer	Job Code Number:	20-N-036
Established:		Bargaining Unit:	Local 1600

GENERAL STATEMENT OF DUTIES: Inspects, installs, maintains, and repairs water mains, water service lines, valves, meters, hydrants, and other appurtenances of the water supply system; may work independently or with one or more other water service men, or may act as lead man in a small work crew; performs related work as required.

SUPERVISION RECEIVED: Works under the direct supervision of an employee of higher grade who assigns work and checks for proper performance of duties.

ESSENTIAL DUTIES AND RESPONSIBILITIES:

1. Installs water mains and new service lines; inspects new mains and service lines being installed by contractors; may on occasion confer with contractors relative to installations and inspections of service lines and water mains; inserts tapping valves for new mains and service lines while maintaining constant water pressure.
2. Lays and repairs water mains; installs and repairs gate valves; installs, repairs, and tests fire hydrants; constructs and repairs manholes on gate valves.
3. Installs service connections, including tapping water main and laying service pipe; connects shut-off valves and stop box; digs up curb boxes; thaws frozen lines in winter; constructs and repair headers for multiple meter settings.
4. Pours lead and caulks joints, cuts pipe, cuts out broken pipe, puts on sleeves, shuts off gate valves, repacks stuffing boxes.
5. Installs and removes consumer water meters; reads commercial and residential meters as required; checks low pressure complaints and causes of high water bills; makes cost estimates for relocation of meters and repair of service lines as required.
6. Drives utility and dump trucks; orders materials, makes out simple reports on work performed and materials used.
7. May act as lead man in a small work crew engaged in installation and maintenance, or may work independently or with one or more Water Service Men.
8. May clean and repack water meters and/or be assigned duties in the stockroom.
9. Contacts customers and makes arrangements for temporary shutoff of water for repairs and/or new connections and installations of mains.

MINIMUM ENTRANCE REQUIREMENTS:

A. One year of experience as a Water Distribution Maintainer Trainee with the Water Distribution and Service system.
B. Familiarity with the materials, methods and practices of water system installation and maintenance.
C. Working knowledge of the water service and distribution system.
D. Ability to carry out oral and written instructions and to work from blueprints.
E. Skill in the use of tools and equipment common to water distribution, construction, maintenance, and service.
F. Ability to perform manual labor for extended periods under unfavorable climatic conditions or in mud and water.

MINIMUM ENTRANCE REQUIREMENTS (Con't):

G. Mechanical aptitude.
H. Ability to meet the physical, mental and visual standards of the job.
I. Ability and willingness to work in a manner that will not needlessly endanger the safety to one's self, other persons and equipment.

NECESSARY SPECIAL REQUIREMENT(S):

Possession of a valid driver's license.

PHYSICAL DEMANDS:

While performing the duties of this job, the employee regularly works in outside weather conditions. The employee occasionally works near moving mechanical parts and is occasionally exposed to wet and/or humid conditions, fumes or airborne particles, traffic, toxic or caustic chemicals, risk of electrical shock, and vibration. CITY OF FLINT
Position Description

Class Title:	Water Distribution Maintainer Trainee	Job Code Number:	12-N-035
Established:	June 26, 1961	Bargaining Unit:	Local 1600

GENERAL STATEMENT OF DUTIES: Under an on-the-job training program with close supervision installs, maintains and repairs water mains, valves, meters, hydrants and other appurtenances of the water supply system; performs related work as required. As the training progresses, supervision may be proportionately decreased and the responsibility of assignments increased. After completion of 2080 paid working hours, not including overtime, of on-the-job training, in the Water Service Center Division, the training period will be considered complete and the employee eligible for examination for promotion to Water Distribution Maintainer.

SUPERVISION RECEIVED: Works under the direct supervision of a foreman who assigns work and checks for proper performance of duties.

ESSENTIAL DUTIES AND RESPONSIBILITIES:

1. Installs water mains and new service lines; inserts tapping valves for new mains and service lines.

2. Lays and repairs water mains; repairs gate valves; installs, repairs and tests fire hydrants; constructs and repairs wells on line gates.

3. Installs service connections, including tapping water main and laying service pipe; connects shut-off valves and stop box; digs and back-fills trenches; locates and digs up curb boxes as necessary; thaws frozen lines in winter.

4. Caulks joints, cuts pipe, cuts out broken pipe, puts on sleeves, shuts off gate valves, repairs stuffing boxes.

5. Installs and removes consumer water meters.

6. Drives utility and dump trucks; orders materials; makes out simple reports on work performed and materials used.

7. May work with one or more Water Service men.

8. May clean and repack water meters and/or be assigned duties in the stockroom.

MINIMUM ENTRANCE REQUIREMENTS:

A. Ability to communicate orally and carry out oral instructions.
B. Skill in the use of the more common shop tools.
C. Ability to perform manual labor for extended periods under unfavorable climatic conditions or in mud or water.
D. Mechanical aptitude.
E. Ability to meet the physical, mental and visual standards of the job.
F. Ability and willingness to work in a manner that will not needlessly endanger the safety to one's self, other persons and equipment.

NECESSARY SPECIAL REQUIREMENT:

A. Possession of a valid Driver's License before appointment.
B. Possession of a valid CDL Class B Driver's License at time of appointment.

PHYSICAL DEMANDS:

While performing the duties of this job, the employee regularly works in outside weather conditions. The employee occasionally works near moving mechanical parts and is occasionally exposed to wet and/or humid conditions, fumes or airborne particles, traffic, toxic or caustic chemicals, risk of electrical shock, and vibration. The employee is occasionally required to stand; walk; use hands to finger, handle, feel or operate objects, tools, or controls; and reach with hands and arms. The employee is frequently required to sit, climb or balance; stoop, kneel, crouch, or crawl; talk or hear; and smell. The employee must frequently lift and/or move up to 50 pounds and occasionally lift and/or move up to 100 pounds. Specific vision abilities required by this job include close vision, distance vision, color vision, peripheral vision, depth perception, and the ability to adjust focus.

STATE OF MICHIGAN
DEPARTMENT OF TREASURY
LANSING

RICK SNYDER
GOVERNOR

ANDY DILLON
STATE TREASURER

CONTRACT FOR EMERGENCY MANAGER SERVICES

Rick Snyder, Governor of the State of Michigan (Governor) and the Michigan Department of Treasury retain and appoint Darnell Earley as the Emergency Manager (Emergency Manager) for the City of Flint (City) under Public Act 436 of 2012, the Local Financial Stability and Choice Act, MCL 141.1541 *et seq*, (the Act).

The Emergency Manager will provide services to the City pursuant to the terms and conditions set forth in this Contract and the Act.

The Emergency Manager's role is to remedy the financial distress of the City by requiring, within available resources, prudent fiscal management and an efficient provision of municipal services by exercising the necessary authority conferred herein to take appropriate action on behalf of the City and its residents. In accepting this appointment, the Emergency Manager agrees to leverage all the Emergency Manager's skills and abilities to accomplish these objectives on behalf of City residents.

1. PARTIES, PURPOSE, DUTIES, AND REPORTS

1.1 Parties. The parties to this Contract are the State of Michigan by the Department of Treasury and Darnell Earley.

1.2 Purpose. The parties to this Contract agree that Darnell Earley will act as the Emergency Manager for the City. The Emergency Manager's duties and responsibilities are delineated in the Act and include conducting all aspects of the operations of the City and establishing and implementing a written financial plan as required by Section 11 of the Act.

1.3 Duties. The Emergency Manager shall possess all the powers and duties authorized under the Act, including those specifically related to local governments. In addition, the Emergency Manager shall work cooperatively with the Office of the Governor and the State Treasurer. The Emergency Manager agrees to continue to keep these officials informed of major initiatives to be undertaken in furtherance of this Contract before their public announcement. The Emergency Manager shall seek the approval of the State Treasurer before entering into a new collective bargaining agreement.

1.4 Reports. The Emergency Manager shall file quarterly reports with the Department of Treasury beginning on January 15, 2014, for the immediately preceding quarter and shall file the first report required by Section 17 of the Act within six months of the Emergency Manager's appointment and every three months thereafter.

1.5 Communications. The Emergency Manager shall establish and maintain an appropriate protocol for ongoing communications with officials of the City, City residents, and the media. The communications protocol should include a variety of means, including personal interactions.

2. TERM OF CONTRACT

2.1 The Emergency Manager serves at the pleasure of the Governor except as provided in Section 9(3)(d) and Section 9(6)(c) of the Act.

2.2 Effective Date. This contract is effective on Tuesday October 8, 2013.

3. COMPENSATION FOR SERVICES PROVIDED

3.1 Source of Payment. The State shall pay the compensation of the Emergency Manager for all services rendered under this Contract.

3.2 Salary. The Emergency Manager's salary for services rendered under this Contract shall be $180,000.00 per year. If this Contract is terminated after the Emergency Manager has provided services for a portion of the month, the Emergency Manager shall be entitled, for that portion of that month, to $15,000.00 multiplied by the proportion that the number of days of the month for which services were provided bears to the number of days of the whole month.

3.3 Payment for Services. The Emergency Manager shall be paid in installments consistent with the established written policies and procedures of the Michigan Department of Treasury. If requested by the State Treasurer, the Emergency Manager shall provide to the Michigan Department of Treasury additional information regarding services performed pursuant to this Contract.

3.4 Reimbursement for Actual and Necessary Expenses. The actual and necessary expenses of the Emergency Manager, including customary expenses related to travel, meals, and lodging which are incurred in connection with service to the City will be reimbursed by the City. The Emergency Manager shall provide original copies of all receipts for meals, lodging, and travel reimbursement with any request for reimbursement. Any reimbursement for expenses under this contract shall be reviewed and approved in writing by the City's Chief Financial Officer.

4. ADDITIONAL STAFF AND CONSULTANT FEES

4.1 Staff. The Emergency Manager may, as provided in the Act, appoint additional staff as necessary to fulfill the obligations of the Emergency Manager's appointment and duties under this Contract. Payment of compensation for additional staff will be the obligation of the City. While authority to hire additional staff rests with the Emergency Manager, the Emergency Manager agrees to consult with the State Treasurer, or the designee of the State Treasurer, at least 24 hours before extending offers of employment for positions paying $50,000.00, or more, annually. The Emergency Manager shall issue a written employment contract to each individual hired pursuant to this Section, regardless of the compensation paid to that individual. The employment contract

issued pursuant to this Section shall, as of the date the individual is hired by the Emergency Manager, prohibit the individual from engaging in any other employment for remuneration without the express written approval of the Emergency Manager. The Emergency Manager agrees to consult with the State Treasurer, or the designee of the State Treasurer, at least 24 hours before approving outside employment for any individual. A breach of this Section shall be a material breach of this Contract.

4.2 Professional Assistance. The Emergency Manager may, as provided in the Act, secure professional assistance as necessary to fulfill the obligations of the Emergency Manager's appointment and duties under this Contract. Payment of compensation for additional professional assistance will be the obligation of the City. The Emergency Manager agrees to consult with the State Treasurer, or the designee of the State Treasurer, at least 24 hours before authorizing professional services contracts of $50,000.00, or more, per engagement or project. If a contract under this Section, or under Section 4.1, has a value of $50,000 or more, the Emergency Manager shall not execute the contract unless the contract is subject to competitive bidding by the Emergency Manager or the Emergency Manager receives prior written approval from the State Treasurer.

4.3 Security. The Emergency Manager will be entitled to receive security protection in connection with the Emergency Manager's duties under this Contract. Security personnel will be retained only upon the approval of the State Treasurer, or the designee of the State Treasurer, and only after consultation with the Director of the Michigan Department of State Police, or the designee of the Director of the Michigan Department of State Police. Payment of compensation for security personnel will be the obligation of the City.

5. REPRESENTATIONS

5.1 Qualifications. By signing this Contract, the Emergency Manager, represents that the Emergency Manager meets the minimum qualifications for appointment set forth in the Act. The Emergency Manager shall perform the duties of that office on a full-time basis, except as otherwise approved by the State Treasurer, and shall not accept any other employment or engage in any other activity for remuneration without the express written approval of the State Treasurer.

5.2 Conflict of Interest. The Emergency Manager represents and warrants that the Emergency Manager has no personal or financial interest, and will not acquire any such interest, that would conflict in any manner or degree with the performance of this Contract.

5.3 Non-competition. The Emergency Manager represents and warrants that the Emergency Manager is not subject to any non-disclosure, non-competition, or similar clause with current or prior clients or employers that will interfere with the performance of this Contract. The State will not be subject to any liability for any such claim.

5.4 Facilities and Personnel. The City will provide the Emergency Manager with proper facilities and personnel to perform the services and work required to be performed pursuant to this Contract.

5.5 Records. The Emergency Manager shall maintain complete records in accordance with

generally accepted accounting practices and sound business practices. This requirement applies to all information maintained or stored in the computer system of the Emergency Manager or computer system of the City. The State Treasurer and his designees shall have the right to inspect all records related to this Contract.

5.6 Non-Discrimination.

a) The Emergency Manager shall comply with Public Act 220 of 1976, the Persons with Disabilities Civil Rights Act, MCL 37.1101 *et seq.*, and all applicable federal, State, and local fair employment practices and equal opportunity laws. The Emergency Manager covenants that the Emergency Manager will not discriminate against any employee or applicant for employment with respect to hire, tenure, terms, conditions, or privileges of employment, or a matter directly or indirectly related to employment, because of a disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Emergency Manager shall impose this covenant upon every subcontractor that enters into an agreement for the performance of any obligation imposed by this Contract. A breach of this covenant shall be a material breach of this Contract.

b) The Emergency Manager shall comply with Public Act 453 of 1976, the Elliott-Larsen Civil Rights Act, MCL 37.2101 *et seq.*, and all applicable federal, State, and local fair employment practices and equal opportunity laws. The Emergency Manager covenants that the Emergency Manager will not discriminate against an employee or applicant for employment with respect to hire, tenure, terms, conditions, or privileges of employment, or a matter directly or indirectly related to employment, because of race, color, religion, national origin, age, sex, height, weight, or marital status. The Emergency Manager shall impose this covenant upon every subcontractor that enters into an agreement for the performance of any obligation imposed by this Contract. A breach of this covenant shall be a material breach of this Contract.

5.7 Unfair Labor Practices. The Emergency Manager shall not enter into a contract for the performance of any obligation imposed by this Contract with a subcontractor, manufacturer, or supplier whose name appears in the register prepared pursuant to Public Act 278 of 1980, MCL 423.322, of employers found in contempt of court for failure to correct unfair labor practices. The State may void this Contract if the Emergency Manager, or any subcontractor, manufacturer, or supplier of the Emergency Manager that is a party to a contract for the performance of any obligation imposed by this Contract, appears in the above mentioned register.

5.8 Independent Contractor. The relationship of the Emergency Manager to the State and to the City under this Contract is that of an independent contractor. Except as specifically provided in the Act, no liability, benefits, workers compensation rights or liabilities, insurance rights or liabilities, or any other rights or liabilities arising out of, or related to, a contract for hire, nor employer-employee relationship, shall arise, accrue, or be implied to either party under this Contract or to an agent, subcontractor, or employee of either party under this Contract, as a result of the performance of this Contract.

6. NOTICES

6.1 The State Treasurer is the designee for this Contract unless notice of another designa-

tion is provided by the Governor. All notices, correspondence, requests, inquiries, billing statements, and other documents mentioned in this Contract shall be directed to the attention of the State Treasurer, Andy Dillon, and to the following:

For the State:

Michigan Department of Treasury
Office of Legal Affairs
Richard H. Austin Building, 430 West Allegan Street
Lansing, Michigan 48922
Phone: (517) 373-3223

For the Emergency Manager:

Darnell Earley
Flint City Hall
1101 South Saginaw Street
Flint, Michigan 48502

7. LIMITATION UPON LIABILITY

7.1 The State. The State, the Governor, the State Treasurer, and all other State officials are not liable for any obligation of or claim against the City resulting from actions taken in accordance with the Act or this Contract.

7.2 The Emergency Manager. Pursuant to the Act, in performing this Contract the Emergency Manager is engaging in a governmental function and is immune from liability for any action taken which the Emergency Manager reasonably believes to be within the scope of the Emergency Manager's authority granted by the Act or by this Contract.

8. INSURANCE

8.1 General. The Emergency Manager may procure and maintain, at the expense of the City, health, worker's compensation, general liability, professional liability, and motor vehicle insurance for the Emergency Manager and any employee, agent, appointee, or contractor of the Emergency Manager as may be provided to elected officials, appointed officials, or employees of the City. The insurance procured and maintained by the Emergency Manager may extend to any claim, demand, or lawsuit asserted or costs recovered against the Emergency Manager and any employee, agent, appointee, or contractor of the Emergency Manager to the extent permitted by the Act.

8.2 Post-Contract. If, after the date that the service of the Emergency Manager is concluded, the Emergency Manager or any employee, agent, appointee, or contractor of the Emergency Manager is subject to a claim, demand, or lawsuit arising from an action taken during the service of the Emergency Manager, and not covered by a procured insurance policy, litigation expenses, including but not limited to attorney fees, payments in satisfaction of judgments, and

payments made in settlement as specified pursuant to the Act, shall be paid by the City. If such expenses are not paid by the City, they shall be treated as a debt owed to this State pursuant to section 17a(5) of Public Act 140 of 1971, the Glenn Steil State Revenue Sharing Act of 1971, MCL 141.917a.

8.3 Additional Insurance. If the City has purchased, or otherwise obtained, an errors and omissions policy, then the Emergency Manager may choose to be covered under such policy at the expense of the City.

8.4 Payment by City. All insurance required under this Contract shall be acquired at the expense of the City under valid and enforceable policies, issued by insurers of recognized responsibility. The State Treasurer reserves the right to reject as unacceptable any insurer.

9. TERMINATION OF CONTRACT AND APPOINTMENT

9.1 Termination by the State.

a) The State. The Emergency Manager serves at the pleasure of the Governor except as provided in Section 9(3)(d) and Section 9(6)(c) of the Act. The Governor has the power to rescind the appointment and terminate this Contract at any time, and without cause, by issuing a Notice of Termination to the Emergency Manager.

9.2 Termination Process. Upon receipt of a Notice of Termination, and except as otherwise directed, the Emergency Manager shall:

a) Cease work under this Contract upon the date and to the extent specified in the Notice of Termination;

b) Incur no costs beyond the date specified by the Notice of Termination;

c) Submit to the State Treasurer on the date the termination is effective all records, reports and documents as this State shall specify and carry out such directives as the State Treasurer may issue concerning the safeguarding and disposition of files and property; and

d) Submit within 30 calendar days a closing memorandum and final billing, which shall be paid within 30 days.

9.3 Termination by Emergency Manager. The Emergency Manager may terminate this Contract at any time, with or without cause, with 30 days written notice to the State Treasurer. Within 30 days of the Emergency Manager's final day of service, the Emergency Manager shall submit a closing memorandum and final billing, which shall be paid within 30 calendar days.

10. GENERAL PROVISIONS

10.1 Governing Law and Jurisdiction. This Contract shall be subject to, and construed according to, the laws of the State of Michigan, and no action shall be commenced against this State,

its agents, or employees for any matter whatsoever arising out of this Contract, in any court other than a Michigan State court.

10.2 No Waiver. A party's failure to insist on the strict performance of this Contract shall not constitute waiver of any breach of the Contract.

10.3 Other Debts. The Emergency Manager represents and warrants that the Emergency Manager is not, and will not become, in arrears on any contract, debt, or other obligation to the State of Michigan, including taxes.

10.4 Invalidity. If any provision of this Contract or its application to any persons or circumstances shall, to any extent, be determined by a court of competent jurisdiction to be invalid or unenforceable, the remainder of this Contract shall not be affected, and each remaining provision of this Contract shall be valid and enforceable to the fullest extent permitted by law.

10.5 Headings. Section headings contained in this Contract are for convenience only and shall not be used to interpret the scope or intent of this Contract.

10.6 Entire Agreement. This Contract represents the entire and exclusive agreement between the parties and supersedes all proposals or other prior agreements, oral or written, and all other communications between the parties.

10.7 Amendment. No Contract amendment will be effective and binding upon the parties to this Contract unless the amendment expressly makes reference to this Contract, is in writing, and is signed by duly authorized representatives of all parties and all the requisite State approvals are obtained.

10.8 Order of Priority. This Contract and the Act shall be read to be consistent one with the other. However, if a conflict is deemed to exist between the terms of this Contract and the Act, the Act shall supersede the terms of this Contract.

10.9 Counterparts. This Contract may be executed in separate counterparts, each of which when executed shall be deemed an original, but all of which when taken together shall constitute one and the same Contract.

IN WITNESS WHEREOF, the Governor and the Emergency Manager have signed and executed this Contract.

Salary and Benefits of the Emergency Manager:

Per the Emergency Manager's Contract Section 3. Compensation For Services Provided

3.1 Source of Payment. The State shall pay the compensation of the Emergency Manager for all services rendered under this Contract.

3.2 Salary. The Emergency Manager's salary for services rendered under this Contract shall be $180,000.00 per year. If this Contract is terminated after the Emergency Manager has provided services for a portion of the month, the Emergency Manager shall be entitled, for that portion of that month, to $15,000.00 multiplied by the proportion that the number of days of the month for which services were provided bears to the number of days of the whole month.

3.3 Payment for Services. The Emergency Manager shall be paid in installments consistent with the established written policies and procedures of the Michigan Department of Treasury. If requested by the State Treasurer, the Emergency Manager shall provide to the Michigan Department of Treasury additional information regarding services performed pursuant to the Contract.

3.4 Reimbursement for Actual and Necessary Expenses. The actual and necessary expenses of the Emergency Manager, including customary expenses related to travel, meals, and lodging which are incurred in connection with service to the City will be reimbursed by the City. The Emergency Manager shall provide original copies of all receipts for meals, lodging, and travel reimbursement with any request for reimbursement. Any reimbursement for expenses under this contract shall be reviewed and approved in writing by the City's Chief Financial Officer.

(h) The financial and operating plan as required under section 11. Update #5 to the Financial and Operating Plan for the City of Flint.

Financial and Operating Plan for the City of Flint – Update 5
April 8, 2014

Introduction
This update to the Financial and Operating Plan for the City of Flint is submitted by the Emergency Manager for the City of Flint to Governor Rick Snyder, through the Department of Treasury for the State of Michigan, in accordance with Public Act 436, Section 17.

This report includes a summary of the financial conditions and goals for the City of Flint, the plan to conduct the operations of the City, the on-going actions being taken to resolve the financial emergency, and the outline of a plan to prepare for an eventual transition as prescribed in P.A. 436. This update will be posted on the City's website: www.cityofflint.com .

Summary of the EM/EFM Appointment Sequence and Development of the Operating and Financial Plan
The Flint Financial Review Team determined in November 2011 that the City of Flint was in a financial emergency. (See Attachment #1)

On December 1, 2011 Governor Rick Snyder appointed Michael K. Brown as Emergency Manager EM Brown developed the Financial and Operating Plan utilizing the resources of a five person Advisory Committee as well as five additional advisory committees. EM Brown sought broad expertise to ensure public engagement and to maintain a sense of continuity with the Mayor and City Council. All nine City Council members and over fifty other citizens participated in the advisory committees.

EM Brown's original Financial and Operating Plan (45 Day Plan) was submitted to the State Treasurer on January 15, 2012; the first update to the Plan was submitted on June 1, 2012. On August 8, 2012, PA 4 was suspended and Edward J. Kurtz was appointed Emergency Financial Manager under P.A. 72. (Mr. Brown stepped aside as he was prohibited from serving as EFM due to his recent service as Interim Mayor for the City of Flint.)

EFM Kurtz established a new Advisory Committee in accordance with the requirements of P.A. 72. Utilizing the Advisory Committee and the City of Flint management team, EFM Kurtz presented a second update to the Financial and Operating Plan and submitted this to the State Treasurer on February 8, 2013.

When P.A. 436 took effect on March 28, 2013 Mr. Kurtz was re-appointed by Governor Snyder as Flint's Emergency Manager. Mr. Kurtz continued in that capacity until his resignation after the end of fiscal year 2013. At that time Mr. Kurtz submitted his closing memorandum and the third update to the Financial and Operating Plan. Governor Snyder then reappointed Mr. Brown as Emergency Manager. On October 8, 2013 I was

appointed by Governor Snyder as Flint's fourth Emergency Manager following Mr. Brown's resignation. On November 21, 2013 I submitted the 45 Day Plan as required by P.A. 436 Section 11(2); that plan became Update #4.

This report is now the fifth update to the Financial and Operating Plan and fulfills P.A. 436, Section 17 six month report requirement.

Priority List for the Resolution of the Financial Emergency

- Stabilize the financial future of the City: maintain a balanced budget, eliminate the accumulated General Fund deficit, seek increased revenue, and reduce unfunded pension and OPEB liability.

- Re-establish Flint as one of the safest cities in Michigan — both in reality and perception: provide public safety services, focusing on reducing violent crime, commensurate with cities of comparable size and resources, utilizing regional cooperation as appropriate.

- Implement the Blight Elimination Plan: manage demolitions, enforce blight ordinances.

- Maintain access to a clean, sustainable water source: implement the steps necessary to participate in the Karegnondi Water Authority (KWA) including interim water supply implementation, disposition of current pipeline sections, City Water Treatment Plant updates, a long term water supply back up plan, and a long term financial plan for the stability of the water and sewer funds.

- Implement the Master Plan of the City of Flint: update the Zoning Ordinance, evaluate the capital investment needs, and incorporate Master Plan activities in the annual budget development.

- Explore Governance Models for the City of Flint: receive report from the citizen's committee which was formed to evaluate city governance models, recommend course of action for Charter revision as a part of transition discussions.

- Implement the 7 Point Transition Management Plan (Attachment #2) which has been adopted by the Flint City Council and Mayor Walling. This Plan incorporates specific objectives which provide a strategy for determining and evaluating criteria for assessing when the City might be prepared to emerge from emergency management to home rule order with oversight of a Transition Advisory Board.

Operations of the City of Flint

Shortly after his appointment as EM, Michael Brown took steps to reorganize the city government operations including: elimination of departments, consolidation of departments, elimination of management level positions, adjustment of the compensation of elected and appointed officials, elimination of the Civil Service operation and the Office of Ombudsman

Management appointments were made to ensure that the essential services necessary for the public's health, safety and welfare are provided, and to continue conducting all aspects of the City of Flint's operation within the resources available. Necessary employment contracts were extended with the approval of the Treasury Department.

Department management reconfigurations were completed in anticipation of reductions in staffing levels as provided in the FY 13 Budget. Subsequently, as part of the FY 14 Budget process a Strategic Plan was adopted and more changes in the organizational structure occurred. The primary change was the inclusion of a new Planning and Development Department (See Attachment #3 Organizational Chart FY 14). I have made personnel adjustments to complete this reorganization of the Planning and Development Department.

When P.A. 436 became effective in March 2013 the City Council members' and Mayor's compensation was eliminated. EM Kurtz partially restored compensation for Mayor and Council through Orders 1 and 2. These orders also defined specific responsibilities and requirements. For example, the City Council members must complete Level One of the Michigan Municipal League (MML) core course for municipal government and must receive the MML education award within one year. I have determined that this Order is still in effect, and the Council members have all individually signed acceptance of these requirements as a condition of receiving compensation.

All Orders and Directives issued by the Emergency Financial Manager (under P.A. 72) and Orders issued by the Emergency Manager (under PA4 and P.A. 436) are listed in Attachment #4: Orders and Directives of the EFM and EM.

In addition to the 7 Point Transition Management Plan, re-engagement of the City Council has been a top priority. The Council is meeting monthly on a regular basis; five new Council Committees have also been formed: Finance/Administration, Legislative, Public Works, Public Safety, and Planning and Development. Each Committee is meeting regularly and then reporting at the following Council meeting. Order 8 was issued in March 2014 and defines format of action and participation at the Council meetings. Order 9 established monthly Council and Committee meetings; and Order 10 set the format of the Council meeting agenda.

Financial Status

FY12 Budget and Audit

The Comprehensive Annual Financial Report (CAFR) for FY12 was completed and was filed with the State in a timely manner. The results were as expected, with fewer auditor comments than in past years. Deficits existed in the General Fund ($19.1 million) and in the Water Fund ($8.8 million).

The $19.1 million accumulated deficit reflected an excess of expenditures in the General Fund for FY12 of $10.2 million plus $8.9 million for FY11. This was anticipated by Emergency Manager Brown shortly after being appointed, which was almost six months into the FY12 year. Given that FY12 was nearly half over, and that significant unplanned reductions in services, primarily public safety, would need to occur if the projected deficit were to be immediately eliminated, the decision of the Emergency Manager, in consultation with Treasury, was to contain costs as much as possible but without significantly reducing services – especially public safety - for the balance of the year.

Pursuant to State statute, Deficit Elimination Plans for both FY11 and FY12 were submitted to the Department of Treasury. Both plans involved a mix of borrowing and expenditure reductions over the next five years. However, no final action was taken to implement the intended courses of action.

FY13 Budget and Audit

FY13 was the first budget developed and administered by the Emergency Manager and his team. Faced with a projected gap of more than $25 million, the FY13 budget was balanced through a mixture of significant revenue increases, significant expenditure decreases, and steps taken to reduce legacy costs. Previous reports detail the 25% increase in water and sewer rates, passage of a 6 mill property tax increase for police and fire, elimination of 20% of the City's workforce, compensation decreases equivalent to a 20% wage reduction for remaining employees, and the restructuring of health and retirement benefits for current employees and retirees necessary to develop a credibly balanced spending plan.

Results of FY13 year end show a surplus of revenues over expenses in the General Fund exceeding $6.2 million. This surplus reduced the City's accumulated $19.1 million deficit as of the end of FY12 to less than $12.9 million. Since the goal of the EM team was to assure that FY13 would not end with any additional deficit, this result has significantly exceeded expectations.

The FY13 audit was completed and submitted to Treasury on December 20, 2013. All items surrounding the audit, including submission of the Form F-65 and Comprehensive Annual Financial Reporting Program were completed by December 31, 2013. The audit was presented to City Council as well on January 13, 2014.

Deficit Elimination Plan 2013
A draft deficit elimination plan which also incorporates a reserve accumulation plan is currently under review by the Department of Treasury. The City recognizes that a goal needs to be set to develop a reserve equal to 15% of General Fund revenues. This is one of many financial best practices which the City will incorporate to assure a sustainable municipal model.

FY 14 Budget and Strategic Plan
The FY14 budget was adopted via Emergency Manager Edward Kurtz Order #4 on June 7, 2013. This budget was developed with the same goal as FY13 – to assure the provision of essential services within the constraint of a balanced budget and continued deficit reduction. Accordingly, the FY14 budget includes a $1.0 million commitment from the General Fund to further reduce the deficit. This is considered a minimum level of deficit reduction.

Achieving this goal again required reducing the workforce; however, with significant efforts from department heads and others involved in developing the budget, and building on ongoing reorganization of city processes, the level of services currently provided should generally continue at FY13 levels. Most importantly, the quest to at least maintain FY13 levels of police and fire staffing was maintained, although one consequence was that the additional reductions in staffing came from non-public safety areas. This was equivalent to an additional 10% reduction of staffing in those areas.

As the city has reached the end of the third quarter of FY14, the budget continues to be in balance. One set of budget adjustments, with approval of Treasury was implemented in December 2013. A second budget adjustment has been recently approved by Treasury (Attachment #5: Orders and Directives of the EFM and EM). The third quarter review of revenues and expenses to budget does not disclose any significant anomalies.

The City's cash flow has improved significantly from the $13 million cash on hand in December of 2011. Thirteen million dollars is less than one month's operating expenses. By comparison, the cash on hand on March 31, 2014 was in excess of $49 million.

The Emergency Manager's team crafted a strategic plan in preparation for the FY14 budget development. Vision, Mission and Goals were established for the City government. Department managers then set specific, measurable objectives. Within the Strategic Plan was a five year financial projection. This tool was utilized to prepare the FY14 budget.

FY 15-19 Strategic Plan and FY 15/FY 16 Budget Development
The FY14 budget was developed within the context of a five year projection of revenues and expenses. This exercise pointed out the continuing challenge the

City of Flint will have in achieving long term financial stability. The Finance Department and the Council Finance/Administration Committee are working on the FY15-19 strategic plan and financial projections. The City Council has adopted a Mission, Vision, Goals and Budget Priorities statement (Attachment #6: Vision, Mission, Goals and Budget Priorities of the City of Flint 2015-2019). Consulting firm Ernst & Young is assisting the City with an update to the five year financial projections.

The EM, in concert with the Mayor, is developing a two year budget for FY15 and FY16. It will be developed within the context of the FY15-FY19 strategic plan and the updated five year financial projections. The goal is to provide the best level of service possible within available resources while continuing to restore financial solvency. It is clear that in balancing these budgets the City will continue to be faced with addressing a continuing structural deficit; and the biggest challenge by far remains the outcome of the retiree health care lawsuit.

It is anticipated that the City Council will receive the recommended two year budget by April 30, 2014. The Finance/Administration Committee (with other Council members invited) will use the first two weeks of May to hold four meetings on specific program areas. The Council will then hold a public hearing on May 19, with the final Finance/Administration Committee meeting to be held between May 20 and 23. It is anticipated that City Council will take final action on May 26 with emergency manager's budget adoption on June 2, 2014.

I additionally note that Mayor Walling has been fully engaged with City staff and me as this two year budget is being developed.

Key Actions To-Date, Current Activities and Pending Issues

The city continues to review all departments and services for potential merger, consolidation, contracted service, shared services with other governmental entities, privatization or elimination. As a result of these reviews the City will determine what continuing activities should be subsidized with general property tax dollars, what will be paid by the users and what services can be eliminated.

Finance/Administration/IT:

Finance Department

The Finance Department is proceeding with the following projects:

- Completion of a Water/Sewage Rate Study (being prepared by Raftelis Financial Consultants) to address the long term financial stability of the Water and Sewer Funds,
- Transition from Detroit Water and Sewer District to the Flint River on a temporary basis while the Karegnondi Water Authority (KWA) pipeline is being constructed,

- Participation with KWA in the $220 million bond sale to finance construction of the KWA pipeline,
- Negotiation with Genesee County Water and Sewer System for the sale of a portion of the City's water line,
- Continued effort to reduce pension and OPEB liabilities, including participation in defending the City's position in the retiree health care lawsuit,
- Continued aggressive monitoring of revenue and expense activities, with particular emphasis on revenue collections, position counts and overtime expenditures,
- Planning and implementation of employee development programs focusing on financial management, supervision and labor relations, and leadership development,
- Reorganization of city accounting functions based on the analysis and recommendations of an organizational study completed by Plante Moran,
- Updating the City's Strategic Plan and five year financial projections, developing a two year budget (FY15 and FY16) utilizing the City Council adopted Mission, Vision, Goals and Budget Priorities, as well as the Master Plan,
- Working with the Finance/Administration Committee of the Council to engage them and the City Council in the budgeting process and other financial matters.

Grant Management
Finance reviewed the process for all grants to the City of Flint for appropriate use of funds, potential for continued funding, and timely reapplication. A grant pre-submission approval system has been operational since March 2013 following EM Order No. 10.

Economic Vitality Incentive Program (EVIP) Requirements
The City of Flint has met all reporting requirement dates for Economic Vitality Incentive Program (EVIP) in order to qualify for all disbursements of State Shared Revenue. Each report is available on the City's website www.cityofflint.com through Munetrix Citizens Guide to Finances and Dashboard.

Transition of Flint Employee Retirement system (FERS) to Michigan Employees Retirement system (MERS)
The FERS to MERS transition will be complete when Model Labor Contracts have been finalized. All assets are at MERS, and retirees have been receiving their pensions from MERS since October 18, 2012. The transfer of the administrative components should be complete by July 1, 2014.

Retiree Health Insurance Revisions
The City's approach to containing its OPEB liabilities has been to restructure both active and retiree health care benefits, and to eliminate the promise of retiree

health care for new employees. The changes have had a significant impact on the City's OPEB liabilities, reducing the total unfunded liability from nearly $900 million to less than $400 million, and reducing the Annual Required Contribution (ARC) from $60 million to $22 million.

As previously reported, the City's effort to restructure retiree healthcare was challenged by a group of retirees in a federal lawsuit, *Welch v City of Flint*. On January 3, 2014, the U.S. 6th Circuit Court of Appeals reinstated an injunction prohibiting the City from modifying retiree health care benefits. The City is aggressively litigating this matter, as it does not have the resources to afford the current level of healthcare coverage, and projected cost increases for the upcoming fiscal year are substantial. If the federal district court's decision is not reversed, the City will be in an extremely precarious financial position, with insufficient resources to meet basic functions. Additionally, the City has asked consultants Ernst & Young to provide a proposal for an analysis of the City's ability to remain solvent in the event the retiree lawsuit is lost.

The City is working to comply with the court's order, beginning with establishment of a reimbursement program for retirees whose expenses since January 3, 2013 are greater than their old plans. Work is also proceeding in anticipation of a court hearing sometime in the future, and settlement options are being explored.

Otherwise, the City is utilizing the services of Cornerstone Municipal Consulting in ongoing review of various Employee/Retiree health care options including plan design, delivery systems, Medicare Advantage, Medicare Wrap Around, benefit carve-outs, etc. in an effort to control health care costs. Administration of the City's health insurance benefits program is being handled by Cornerstone. In addition to the retiree lawsuit, attention is now focused on minimizing the City's cost for health care (for current employees and retirees) in the FY15 and FY16 budgets.

Treasury Division

Income tax processing is being handled through a joint project with the Cities of Grand Rapids and Lansing. Beginning in FY14, income tax collections have been handled by Innovative Software, the current vendor for the City's income tax software. Also of note, the City is operating with a shared Treasurer between the City of Burton and the City of Flint.

The City contracted with Plante Moran to conduct a study to evaluate the potential of shared services between the City and Genesee County treasury functions. This study was funded by the Mott Foundation. The initial action resulting from the study was the elimination of some unnecessary information transfers, and preliminary discussion about the possibilities of a shared investment services and of joint tax collections.

In an effort to improve income tax collection, the City purchased the 2010 State Tax roll and began sending notices to 8800 individuals, both residents and non-residents, who have not filed City tax returns. The total estimated tax value from uncollected income tax for the 2010 tax year is between $300,000 and $400,000. The City will be pursuing uncollected income tax from previous years, and will purchase the 2011 state tax roll when available.

The Treasurer's Office now has a specific unit dedicated to pursuing delinquent collections for income tax and personal property. This unit will be expanded to also address delinquent water bills and miscellaneous receivables

Assessment Division

The Assessment Division has been operating with a part-time Level IV Assessor, who also serves as Assessor with City of Lansing and Flint Township.

Activities of the office continue to meet statutory requirements for establishing property values, and the office also responds to valuation appeals filed through the Board of Review. Additionally, the office processes applications for poverty exemptions for property taxes. Those qualifying for such exemption also receive some relief for the fixed portion of their water bills.

Currently, the Assessor is projecting City of Flint property values to decrease less than 1% for FY15, and to stabilize thereafter.

Human Resources

Human Resources has been faced with challenges relating to long unresolved grievances and long standing provisional appointments, and has made significant progress in addressing them.

Reorganizations and continuing personnel reductions have required additional HR energies to assure they are done appropriately and consistent with labor contracts.

HR has joined with the Genesee Intermediate School District in using APPLITRAC system for job postings and the initial hiring process. This has helped to streamline the recruitment process for the City.

City-wide management and supervisory training has been re-established by HR, beginning in 2013 with a series of quarterly training sessions for all supervisory personnel, focusing on the basics of supervision and labor contract administration.

Labor Agreements and Implementation

During the tenure of EM Michael Brown, Labor Counsel held meet and confer sessions with the City's six bargaining units. A target of 20% equivalent wage reductions was achieved. Tentative Agreements were reached with four of these bargaining units. As contract settlement was necessary prior to adopting the FY13 budget, the EM invoked the 19K provision in Public Act 4 from the State

Treasurer for the bargaining units which had not achieved Tentative Agreements (EM Orders 18 and 26) and with Local 1799 which had approved a TA but had not ratified (EM Order 27).

EFM Edward Kurtz held additional sessions with AFSCME, Flint Police Officers Association (FPOA) and the Firefighters Union. In January 2013 AFSCME and the City reached agreement for the privatizing of waste collection and demolition. A lawsuit by FPOA seeking to return to the status quo (prior to EM imposed contract) was dismissed by the circuit court. In late May, a lawsuit was filed by AFSCME Council 25 seeking to overturn the contract imposed by the EM in April of 2012.

A comprehensive revision of all labor contracts is underway, starting with the development of a model contract for FPOA and AFSCME 1600. Meet and confer sessions have been held; the City's goal is to streamline and standardize the contracts and to further reduce legacy costs. It is anticipated that contracts for all City units will be implemented no later than July 1, 2014. It is likely that at least some will be implemented through the process provided for in P. A. 436.

Information Technology

Prior to the start of FY13 the Information Services Department eliminated all but two of the existing positions. Through reorganization, 6 of 9 employees were rehired under new job descriptions. The new structure allowed more flexibility and greater utilization of personnel.

Several large scale projects have been completed including: installation of a back-up server for Public Safety and 9-1-1, installation of new switches which will allow for a more complete use of Public Safety's data collection and record keeping systems; software upgrade for the New World records management system; finishing the AT&T Managed Router Service deployment to the City network; installation of a new visualization server cluster; and the automation capability of the Third Ave. Pump Station.

The upgrade of the City's ERP (BS&A) is nearly complete, with final training underway. Replacement of desktop units throughout the City continues, allowing for upgrading of operating and business systems.

Fleet Division

The City has consolidated the management of the City's vehicle and truck fleet under the Fleet Division. This division will oversee the specification, purchase, repair and maintenance and replacement schedule for all city vehicles and wheeled equipment. The Division recently participated in a successful auction of surplus equipment.

City Clerk
The City Clerk has recently conducted the November election and the swearing in of the 2013-2014 City Council. The Clerk made arrangements for the orientation and training of the new Council members.

As part of the FY14 reorganization, the City has transferred the responsibility for Business Licensing to the newly formed Department of Planning and Development. The City recognizes that it is losing significant revenue from unlicensed businesses and this change is designed to insure that all businesses in the City of Flint are licensed and inspected.

Office of the City Attorney
The City Attorney is continuing with efforts to improve litigation management through claim evaluation, claim reporting, attorney training and trial preparation. The City Attorney continues to emphasize the "litigation team" approach to case handling, with weekly review of pending matters and discussion of how best to protect the City of Flint's legal interests.

With the help of interns from Michigan State University, all City ordinances have been reviewed. Charter revisions which would increase flexibility for department reorganization and budget flexibility are also being considered.

Also, in preparation for the new Department of Planning and Development, the City Attorney's Office prepared draft revisions to the City Code concerning business licensing and regulation. Many ordinances and former business licenses are recommended for removal because they were obsolete, or could be put under the newly created General Business License. Several businesses also will be required to obtain a Business Endorsement.

Criminal Justice System Advisory Council (CJSAC)
Based on input from the State Police, Governor's Office and a Michigan State University Criminal Justice Study, it was clear that the Genesee County Criminal Justice System and the Flint Police Department could benefit from improved coordination and policy development.

In September 2012 the first meeting of the Criminal Justice System Advisory Council (CJSAC) was held. Eight workgroups were established. Through these work groups a number of cooperative projects, streamlined operations and new collaborations have been identified and implemented. Regular meetings of the full Council are held quarterly and work groups schedule meetings as needed.

68th District Court
The City currently funds the operation of the 68th District Court; in FY14 this amounts to $3.5 million net. This significant portion of the City's General Fund needs to be studied

closely and recommendations developed to meet this required activity while containing and reducing costs.

Senate Substitute for House Bill 5125 passed the Senate and the House in March 2014. The Bill authorizes consolidation of the 67th and 68th District Courts. It requires that the consolidation be approved by the City and the County. The County approval requires the affirmative vote of at least two-thirds of the County Board members. I strongly encourage the State to continue the process of working to consolidate the 67th and 68th District Courts.

Department of Public Works

A Council Public Works Committee was established in February 2014. The Public Works Department management works transparently and cooperatively with the Public Works Committee

Utilities Division

Karegnondi Water Authority (KWA)

In March 2013 both the City Council and EM Kurtz adopted resolutions to enter into a contract with KWA to partner with Genesee County, City of Lapeer, Lapeer County and Sanilac County in the construction of a pipeline to deliver raw water to the City of Flint. This decision followed many months of analysis by the City of Flint, the Genesee County Drain Commissioner's office, and ultimately involved the State Treasurer and Governor Snyder. This conclusion to join KWA is momentous for the City and the entire region. The City looks forward to a safe, reliable water supply through which water costs can be stabilized for the KWA participants.

Genesee County successfully held a $221 million tax-exempt debt offering on April 1, 2014 to finance the 63 mile pipeline. Genesee County is responsible for paying roughly 66% of the debt service and Flint 34%; the County agreed to back the City's share of the borrowing because the County holds an A-plus rating. This backing would only come into play if the city failed to perform, which it has no intention of doing. The County did receive a favorable 4.72% rate.

Immediately after the March 2013 KWA decision the Detroit Water and Sewer Department (DWSD) notified the City that it will terminate the contract with the City for the delivery of water in 12 months. The City is currently implementing its plans to utilize the Flint River as the primary water source for the City between early spring 2014 and the full operation of the KWA pipeline (approximately 36 months after construction begins).

There are many details still to be addressed in the implementation of this project including the use of existing pipeline portions.

Water Department
Upgrades to the City's Water Treatment Plant are required prior to the transition to the KWA water source and any on-going temporary use of the Flint River. KWA water from Lake Huron will be "raw" and will require treatment by the city prior to customer distribution. Construction work has begun.

An evaluation is taking place to implement an effective Preventive Maintenance plan which focuses on controlling water loss (leakage). This is expected to involve a combination of outsourcing, in-house work, and shared services with the County.

The exceptionally cold winter produced a large number of major water main breaks and several sinkholes have developed. Crews are working on these repairs according to a priority list based on severity of the break.

A plan is being implemented to replace all water meters in the City. Currently $700,000 has been allocated in FY 14 for that purpose.

Discussions have begun with the Genesee County Drain Commissioner on a wide range of shared services and partnerships for both water and sewer operations.

Sewage Treatment Division
The automation of one of the City's pump stations (which was staffed 24 hrs a day) has been completed. This will result in the elimination of overtime and a savings of over $500,000 annually.

The planned shutdown of the City's incinerator has begun for a new load-out facility and is expected to reach completion in early Spring 2014. The estimated savings from this project is an annual $400,000.

U. S. Department of Environmental Quality S2 Grant
An S2 DEQ grant to study infrastructure condition for water pollution control was accepted. The study was defined to encompass the City's entire sanitary sewer system including the overall collection system, the capacity and condition of the system, potential upgrade recommendations to the lift stations and the pumping stations, and to make recommendations for necessary investments to maintain the system

Storm Water Management Plan
A draft new storm water ordinance that shifts the cost allocation to the larger users has been developed.

Swedish Biogas International (SBI)
In conjunction with the City of Flint sewage treatment plant shut-down of the sludge incinerator, Swedish Biogas International (SBI) proposes to accept sludge output and produce electricity. The city will agree to

purchase the electricity at a reduced rate compared to purchase from Consumer's Energy. The SBI contract has completed the City's review process and is now awaiting SBI's Board of Directors' authorization. Recent meetings with SBI have produced the following target dates:
May 1, 2014 – Finalize change order with the City of Flint.
July, 2014 – Finalize design and budget for generator.
Q1, 2015 – Generator operational.

Transportation Division

Solid Waste Management Division

In early February 2013, the Infrastructure Department signed a contract with Republic Services, a private waste collection company. The City of Flint no longer collects or disposes of household waste. Through this new contract, residents city-wide now have access to curb-side recycling. It is expected that the fee for waste collection service will continue to be billed and collected by the City.

Outsourcing of Sanitation is complete and the process of establishing city composting is underway with a permit application to DEQ submitted and a site plan of action being prepared for the EPA.

An Administrative Consent Order on removing compost from the Chevy-in-the-Hole site has been agreed upon in principal with the DEQ and should be signed in April. Work will commence simultaneously through a vendor in April 2014 to remove compost from the site.

Street Maintenance and Engineering

The winter of 2013-2014 was just shy of being Flint's snowiest winter on record. A devastating ice storm occurred in late December 2013 and resulted in over 40,000 city/county residents living without power for over six days. The first week of January the City was hit with a seventeen inch snowfall. City crews faced extreme conditions all winter as they worked to keep the City streets cleared and functional. These extreme conditions forced the Transportation Division to evaluate all phases of their operation: personnel assignments, fleet maintenance, route planning and storm evaluation. Discussions have continued with the County Road Commissioner on possible shared services; and the City and MDOT have issued a Memorandum of Understanding to have MDOT maintain the state trunk-lines (M-21 and M-54) within the City while capacity issues are resolved.

Both road paving and engineering are seasonal activities and these are at ever decreasing levels. These are under review as areas to downsize or eliminate. Consideration is being given to developing service sharing arrangements or creating the ability to source on an as needed basis. Only crack sealing and pothole repair will be conducted this season; no repaving of any City streets will occur for a second year.

Facilities Management

A private company held an on-line auction in January 2013 to dispose of surplus equipment from a variety of departments in the City. This one day auction netted $130,000. A second auction was held in May 2013 which netted an additional $250,000. An auction at the impound lot was held in June 2013, netting over $30,000 for the City.

The Facilities manager is reviewing all city owned assets (both real property and capital equipment) to determine if disposal should be pursued.

All city owned facilities are under review for energy savings, revenue generation from tenants, or possible liquidation.

Parks and Recreation

The City contracted with two vendors who have the capacity to mow all of the city parks (64) multiple times at a rate that fits the current millage. The City also actively sought neighborhood groups and organizations who would adopt one or more of the City's parks, traffic triangles or medians. The current Parks millage generates enough money for reduced parks mowing and limited tree removal where property has been damaged or streets are blocked.

The City has entered into discussions with the Genesee Conservation Group for tree evaluation and removal services, and to assess the status of over 22,000 City trees.

Golf Courses

All four of the city's golf courses were leased to private organizations. Two courses were operational summer 2012 and both reopened for the summer of 2013. The two courses which are operational will sign 10 year lease agreements with a 3% annual escalation fee in payments to the City.

Senior Centers

The Pierce Senior Center closed on April 30, 2012 as funding was no longer available. The City of Flint continued to explore its options with the two open Senior Centers: Brennen and Hasselbring. In June 2013 contracts were successfully negotiated with United Senior Network for the operation and sale of the Hasselbring Community Center, and with the Brennan Elm Park Senior Community Corporation for the operation of the Brennan Community Center.

The vendors operating each of the centers are planning to apply to take full responsibility of the millage funding once the County's next fiscal year begins in October 2014. The vendors have agreements to purchase the buildings as part of the current lease to own contract.

Department of Planning and Development

The creation of the Department of Planning and Development, separate from the Infrastructure Department (now Department of Public Works), had been envisioned since the beginning of the FY14 budget. I announced the department reorganization and the new Department Head, former Chief Planner, Megan Hunter in early November 2013. The Master Plan has now been adopted and this department is charged with guiding the implementation of the many objectives included in the Plan. Blight elimination is one of the City's top priorities and the associated blight enforcement activities will be coordinated through this department as well.

A Council Planning and Development Committee was established in February 2014. The Planning and Development Department management works transparently and cooperatively with the Planning and Development Committee.

Master Planning

The City of Flint was proud to announce the October 2013 adoption (by both a unanimous decision of the City Council and the Emergency Manager) of the first comprehensive Master Plan since 1960. Overall, 5000 residents participated in this extensive process.

Following the data gathering phase of the master planning process, the planning team was able to release a summary of the findings in an Existing Conditions Report. This report already proved extremely beneficial, assisting several community stakeholders in applying for grants and helping inform decisions around critical issues such as blight and demolition. In fact, the completed Housing Conditions Inventory included in the report was critical in helping the Genesee County Land Bank develop its successful application for $3.7 million in funding for demolition through the Michigan Blight Elimination Grant Program. This data was also used to develop an application for the Federal *Hardest Hit Program* which resulted in an award of $20 million (See Blight Management Plan below)

The City is now in the process of developing eight subarea plans, our first combined Capital Improvement Plan (CIP) and a complete revision of the Zoning Code. Drafts of all three will be completed by the end of June 2014. Following an extensive community engagement process during the summer, the CIP and the new Zoning Code will be scheduled for adoption later in the fall. As a result of the newly adopted Master Plan and preliminary work on these implementation documents, the City of Flint was selected to receive technical assistance from MEDC as a Redevelopment Ready Community (RRC) with the goal of gaining certification as a RRC at the end of 2014.

Implementation does not stop with the adoption of the CIP and Zoning Code. Planning staff has already begun implementation of the hundreds of strategies outlined in the Master Plan. For example, the City applied for and was recently selected for the Strong Cities, Strong Communities (SC2) Program. As part of the next SC2 cohort, Flint will receive additional technical assistance and support from the federal government including one embedded federal staff that will help advance implementation activities around

public safety, brownfields redevelopment, and blight elimination and neighborhood stabilization. This federal staff member should be placed at the City by early May.

In addition to the SC2 Program, the City is working on several Master Plan demonstration projects. The City received two grants totaling $87,500 for Max Brandon Park to complete a park naturalization demonstration project that will create a healthier park environment while reducing long-term maintenance costs. The City also was recently awarded a Michigan Municipal League Place Plans Grant to develop an exciting trail that links important assets from Diplomat Pharmacy to Kettering University. This project is bringing residents and key stakeholders together to help create the dynamic spaces that help revitalize cities. Finally, the City is partnering with the Flint Community Schools to institute a form of the community schools model, the number one educational objective in the Master Plan. The first step in this process is jointly hosting a large (over 600 people) town hall meeting to have a community dialogue about what our new community education model should incorporate. This meeting is planned for May.

Community and Economic Development

Collaborative economic development efforts continue with the Flint & Genesee Chamber of Commerce (F&GCC) in order to attract and retain businesses and to promote new tools such as the Next Michigan Development Corporation and Smart Zone designation. The City also continues to work with RACER Trust on brownfield development, including Buick City. Through the collaboration between F&GCC, RACER, and the City, we recently have been able to attract American SpiralWeld Pipe Company, which plans to construct our first manufacturing facility at Buick City in decades. This $16 million development will generate fifty new jobs.

In addition to attracting American SpiralWeld Pipe Company, the City and its partners have been able to attract several new investments to Flint. Most significantly, General Motors has recently received approval from the Planning Commission to construct a 596,000 square foot, $600 million paint facility at its Flint Assembly Plant, resulting in 280 construction jobs and up to 550 jobs at the facility during its peak of operation. Through its partnership with Uptown Reinvestment, the City was able to further a key component in revitalization of the former Flint Journal Building by helping fund the demolition of Genesee Towers. The City's commitment of $880,000 for demolition leveraged approximately $30 million in investment including construction of Michigan State University's College of Human Medicine, 16 new loft apartments, and a new Farmer's Market located at the former Flint Journal Building.

The City plans to accelerate its economic development activities by continuing its collaboration with its current partners and forming new partnerships in order to advance the economic development strategies outlined in the Master Plan..

Blight Management Plan

I have determined that blight has become one of the primary issues facing the City of Flint. Blight is a continuum of problems from tall grass and weed control through abandoned, demolition-ready property. The newly formed Department of Planning and

Development recently completed a draft blight framework based upon the Master Plan. We will circulate the framework to the public for additional input over the next couple of months. The strategies outlined in the framework help us target limited resources more efficiently based upon data.

As outlined in the blight elimination framework, the City needs to re-institute code enforcement. Consequently, the City applied for and received a grant from the Mott Foundation to hire eight part-time Neighborhood Safety Officers (NSOs), who alert residents to blight violations and issue citations as necessary. NSOs are also processing the impounding of abandoned vehicles, verifying current business licenses and identifying rental properties. The City augmented the Mott Grant by contributing approximately $282,500 (over two years) in CDBG funds for NSO equipment needs and to hire a Blight Elimination Coordinator who serves as the primary liaison between the public and NSOs and deploys our code enforcement resources in the most effective manner.

The City continues to coordinate with the Genesee County Land Bank on the demolition of nearly 300 homes through an approximately $3.7 million Michigan Blight Elimination Grant Program. This program focuses on three specific areas of the City - 1) neighborhoods around Northwestern High School, 2) neighborhoods around Northern High School, Kettering University, and Hurley Hospital and 3) neighborhoods around Diplomat Pharmacy and the International Academy of Flint.

The Land Bank, again in partnership with the City of Flint received $20.1 million Hardest Hit Federal Funds for residential demolitions in Genesee County, primarily in the City of Flint. This is a significant milestone in the history of the City, affording it the opportunity to significantly improve the quality of life in the City's "tipping neighborhoods". The U.S. Treasury in June signed off on a proposal -- the first of its kind in the nation -- that allowed the Michigan State Housing Development Authority to create a blight elimination program using federal money originally set aside for mortgage relief. More than 1,600 demolitions will take place over the next 18 months as part of Flint's $20.1 million award. This is Flint's largest federally funded demolition project.

DCED had allocated $400,000 in CDBG funding for mowing and trash removal. This was supplemented with approximately $800,000 from the Land Bank. Sadly, the contract was awarded later than anticipated allowing for mowing of vacant properties only once during the summer of 2013. Fortunately, the City was able to add funding and time to the contract, extending mowing and trash removal through October of 2014 thereby ensuring that the Land Bank has the resources early enough to mow grass before it gets too high.

A Cities of Service grant for $25,000 was awarded to Flint in Spring 2013 for use for neighborhood clean-ups and tire collection. Twenty projects were funded and the tire collection resulted in 10,000 tires being removed from back yards, lots and parks. This year the City received a $100,000 Cities of Service grant. An expanded volunteer and clean up program is currently being launched, beginning with Love You City Month, a citywide clean-up effort planned during the month of May.

A very positive development in the City has been the unsolicited blight elimination efforts of private businesses and educational organizations planning large scale redevelopment projects, with the City and the Land Bank, to improve areas surrounding their operations. One such effort includes the Paint What Matters Campaign, collaboration between Benjamin Moore and University Avenue Corridor, resulting in the painting of the building facades along University Avenue.

Smith Village Housing Development

The Smith Village housing project is funded primarily with HUD and NSP2 grants. Phase I, which includes 29 housing units, has been completed as scheduled. HUD determined February 10, 2012 was the goal to expend 50% of the allocation. The Smith Village housing project met that development goal.

On May 18, 2012, the City announced that Phase II of the Smith Village development will be undertaken by Ginosko Development Company and Rohde Construction Company. Ginosko's site plan was approved by the Flint Planning Commission on May 22, 2012.

Smith Village Phase I (29 units) - 26 units are complete. 16 units have sold and 5 have purchase agreements; 5 remain available for sale.

Smith Village Phase II (9 units) – all 9 units are complete. One unit has a purchase agreement; 8 are available for sale. No further homes will be built until all units sell.

Marketing/Sales initiatives have been instituted. The City schedules financial institutions to be present at the model home two days a week to pre-qualify buyers who visit the homes. Presentations have been made, and marketing materials have been provided to Home Buyer Counseling Organizations, Fair Housing Organizations, Community Development Corporations and the Flint Housing Commission. Twelve of the 20 units that have been sold or that are under purchase agreement are committed to Low Income Residents. This means the project is developing as a mixed income community. The commitment to HUD is to have 51% of the purchasers meet low income guidelines (51% of Annual Medium Income).

Real Estate Transactions

In August 2012 the City of Flint sold the Genesee Towers to Uptown Redevelopment Corporation for $1 and committed $880,000 CDBG dollars toward the over $4 million cost of demolition. Genesee Towers has been a liability for the City since December 2010 when the city assessed a one time millage to cover the $9.0 million judgment. The transaction was finalized and demolition successfully occurred on December 22, 2013. The site is being cleared of debris and should begin development as a community open space in the summer of 2014.

A quit claim deed for Chevy-in-the-Hole site has been transacted between the EDC and the City of Flint. EPA money for clean up has been agreed upon.

CDBG and Home Allocations

On March 18th, the City received notification of its HUD allocation for Fiscal Year 2015 - $3,629,629- CDBG; $745,525 – HOME Investment Partnership; and $298,806 – Emergency Solutions Grant. The City is currently working on its HUD Action Plan to expend these funds. The City is utilizing the Master Plan to help inform these allocations and has solicited additional public input to help prioritize important projects. As a result of public input, the City has decided to fund to large organizations that will be able to re-grant to smaller grassroots organizations while providing grants administration and building capacity. The City is on track to complete its Action Plan by May 15th in order to receive funds by July 1st.

Public Safety

Organizational revisions were made in Public Safety following the September 2013 retirement of Public Safety Director and Police Chief Alvern Lock. I appointed new Chief of Police James Tolbert to oversee the Flint Police Department and the 9-1-1 Center. Current Chief David Cox, Jr. will continue as Fire Chief. Both Chief Tolbert and Chief Cox report to the Emergency Manager.

A Police and Fire Protection Millage request for 6 mills for 5 years was placed on the November 2012 ballot and was approved by the electorate. This began the process of stabilizing both the Police and Fire Department funding. The City hired eight additional police officers; seven more officers are attended the Police Academy and graduated in December 2014. Millage dollars have been used to replace the expired 2010-2012 Mott Foundation Community Policing Grant.

A Council Public Safety Committee was established in February 2014. The Police Department and Fire Department management teams work transparently and cooperatively with the Public Safety Committee.

The City continues to review many options for shared services, station configurations, staffing levels, contract services and technology applications.

Police Department

Chief James Tolbert has evaluated the operations of the Flint Police Department and has formulated several new crime fighting initiatives. Included in these initiatives is a second chance opportunity for those with misdemeanor warrants which has been dubbed "Operation Fresh Start". Other initiatives target the root causes of criminal behavior through the Area Crime Team (A.C.T.), the Arson Investigative Team and an expansion of the Lifeline Regional Crime Intervention Strategy.

On April 1, 2014 several social media and internet based information sharing programs were introduced to the community. Through Flint Police Department's new blog which can be accessed through http://cityofflintpd.blogspot.com/ links are provided to the new crime mapping webpage as well as Facebook and Twitter pages. Crimemapping.com is

an easy to use tool which can pinpoint crimes on a map by type, date range, address or radius of an area and even the reporting police agency. Other services such as the COPLOGIC online reporting and calling Crimestoppers at 1-800-SPEAK-UP are complimented by these new tools.

According to the FBI Part I violent crimes were down 26% for the first six months of 2013 vs. the same period of 2012. Flint has reported that for 2013 as a whole, violent crime dropped by approximately 30 percent, with homicides dropping 22%. For the first three months of 2014 compared to the same time period last year the City has seen a 25.4% reduction in violent crime, according to Flint Police Department statistics. Part I violent crimes include murder, rape, aggravated assault and robbery.

In June 2012 the Police Department changed to a 12 hour shift operation. These changes in combination with the expansion of alternative call response procedures (including the introduction of the on-line CopLogic reporting system); have resulted in the continuing reduction in response times to 9-1-1 calls.

The City of Flint is continuing its existing collaborative efforts with regional partners. Examples: Flint Area Narcotics Unit, Safe Streets Task Force, and U.S. Attorney's Office Zero Tolerance gun violence reduction initiative, LifeLines (formerly known as CeaseFire), and other programs to help eliminate gang activity and prevent other violent acts.

The City continues to receive patrol assistance and detective assistance from Michigan State Police. Patrol assistance is a crime-deterrent and increases traffic safety compliance. The detective assistance has increased the capacity for investigations within the Flint Police Department.

The City also continues to apply new technologies and information systems to improve police efficiencies and improve targeting and effectiveness; these include New World Record Management System, CopLogic, and DDACTS. The City is also evaluating the new PI ARMS (record management and CAD system) being implemented by the Michigan State Police in comparison to the current Flint CAD and RMS system from New World and the CLEMIS system managed by Oakland County.

Lock-up

The Public Safety Department recommended selection of the Genesee County Sheriff as the operator of the Flint lock-up. The lock-up opened the week of October 1, 2012.

In early 2013, use of the lock-up was made available to all Genesee County police agencies. The availability of the lock-up is credited with the clearance of over 1000 warrants per month in Genesee County. The State Legislature has approved funding for an additional year of operation.

9-1-1 Operation

The City completed the change over to the 800 MHz communication system for the Police and Fire Departments before the December 31, 2012 required implementation date. The installation of a point to point microwave link with the Genesee County 9-1-1 Consortium tower system was finalized in July 2013.

The Mott Foundation funded a 2013 study through the MSU Training and Technical Assistance Team to determine the costs and issues involved in pursuing a reconsolidation of the Flint 9-1-1 Center with the Genesee County 9-1-1 Consortium. This intent was the basis of the C-GAP application and $1.8 million award to construct a simul-cast communications tower which will be integrated into the Consortium's tower system. I support the effort to move toward reconsolidation.

Cooperative work with the Genesee County 9-1-1 Consortium continues with the evaluation of a new phone system in preparation for the next generation 9-1-1 system.

Fire Department

After many years of functioning without a Fire Chief, Chief David Cox, Jr. was hired April 15, 2013. Chief Cox has aggressively addressed excessive use of overtime and he is currently in the process of restructuring the department.

The FEMA funded SAFER Grant which supports the wages and benefits of 39 firefighters was renewed on June 10, 2012 for two years. That grant totaled $6.9 million. The City submitted a request to FEMA for the 2013 SAFER grant funding to again support 39 firefighters. It is very rare that a city would be awarded a full funding request in back-to-back granting periods and Flint was fortunate to have been the recipient of two awards. This time we received a denial notification on April 7, 2014. The City plans to support approximately 20 firefighters using the Police and Fire Operations millage; the balance will be laid off and two stations may be closed.

I requested, and received, a proposal from the International City/County Management Association (ICMA) Center for Public Safety Management for a comprehensive analysis of all public safety services in the City of Flint. Denial of the SAFER grant is further impetus to seriously evaluate how public safety can best be provided for the City with staffing levels which can match resources and provide expected levels of service.

A protocol was finalized for the transition to the Genesee County Sheriff's Department to handle the paramedic calls in the City of Flint. The Paramedic millage is now managed only by Genesee County. Completion date was July 1, 2012.

Emergency Manager's Conclusions

Significant work has been accomplished to stabilize the financial situation of the City of Flint. The whole organization has been being restructured to reflect a smaller, leaner government operation. Services which were routinely provided are being inspected to determine if they should continue and if so, in what format. Technology solutions which can increase efficiencies are being implemented

I acknowledge that substantial progress has been made, however the City is still experiencing an on-going financial emergency. Resolution of the financial emergency will not be complete without providing a basic framework for, and implementation of, an objective model for the organization to follow.

A sustainable municipal organization incorporates the utilization of best practices financially, structures a governance model which clearly delineates between legislative, policy, and administrative responsibilities, and develops a management plan to provide services to residents in a consistent, reliable manner

The 7 Point Transition Management Plan which I have developed provides the roadmap to resolve the financial emergency and to achieve sustainability for the City of Flint.

For one year, FY 13, the goal of containing overspending was achieved. The city must continuously function within a balanced budget, eliminate the accumulated deficit and further reduce the legacy and pension costs. Projections through 2019 demonstrate Flint's continuing challenges. Projecting current revenues and expenses into the future shows a continuing gap of $2 to $4 million annually.

Stable revenue is necessary in order for this City, and most other cities in Michigan, to continue to avoid a bankruptcy situation. We have asked our residents to accept a significant 6 mill Police and Fire Protection Millage; and they have done so. We have imposed a street lighting assessment, a waste collection fee and tremendous water and sewer rate increases. However, our residents have not enjoyed increasing services, increasing property valuations or increasing employment opportunities.

As noted previously, there are very few additional revenue options. We are approaching the limit of the City's borrowing capability. Capital improvement funds are drained and the property tax millage rate in within .1 mill of maximum. State Revenue Sharing is now tied to EVIP and C-GAP competitive granting. We have made a request through our State Legislative representatives and the State Treasurer to push legislation to allow City voters the opportunity to decide to increase the income tax. This action could generate $7 million annually and would eliminate the City's structural deficit. A bill has been introduced but has not been acted upon.

In the meantime, Flint is still struggling with effects from increased expenses and reduced revenue from decisions outside our control. These include: a recent General Motors/Delphi closure impacting over 300 jobs, the yet to be voted upon planned changes

in personal property tax revenue, the $120,000 cost to hold the State Senate primary election, and the $575,000 required match for MDOT projects in FY14.

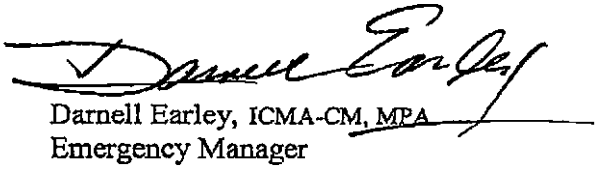
I do not recommend beginning the transition back to the Mayor/Council management of the City at this time. The City still has critical budgeting issues; there is tremendous work necessary on 7 Point Transition Management Plan. Also, the City Council is adjusting to a new committee structure and Council meeting management.

Flint has twice been placed in the hands of a State appointed emergency manager. A third failure should be avoided at all costs. Therefore, I appointed a 21 person blue ribbon citizens' committee to evaluate various governance models used in Michigan cities and to recommend a course of action for Charter amendment or revision. The committee has been meeting regularly since January 2014 and is currently planning a public engagement process. I feel that this is a key step in the City's preparation to successfully manage a fiscally sound city.

I feel strongly that it is incumbent upon me to make sure that the city reaches it goal of sustained financial solvency. The financial emergency is not fully resolved until the long-term sustainable structure is secured.

Another update of this report is expected to be presented in July 2014 as required by P.A. 436. Other updates will be provided as appropriate.

Respectfully submitted,



Darnell Earley, ICMA-CM, MPA
Emergency Manager
Flint, MI

6. Vision, Mission, Goals and Budget Priorities of the City of Flint 2015-2019

Attachment 1. Summary of Findings of the Flint Financial Review Team

Summary of Findings of the Flint Financial Review Team
November 2011

- The City has a general fund deficit of$14,621,546 as of June 30, 2010 which was not eliminated within the two year preceding period.

- The City previously submitted a five year deficit elimination plan for a cumulative general fund deficit of$7,046,820 as of June 30, 2008. However, by June 30, 2010 the cumulative general fund deficit had grown to $14,621,546. An updated plan submitted for 2010 does not purport to eliminate the cumulative deficit until 2030 and that relies upon the issuance of an additional $12 million of debt in 2013.

- A structural operating deficit existed in the general fund as of June 30, 2007, 2008, 2009, 2010 and the general fund is projected to have a $6,768,864 deficit as of June 30, 2011.

MICHIGAN DEPARTMENT OF ENVIRONMENTAL QUALITY

PERMIT APPLICATION FOR WATER SUPPLY SYSTEMS

(CONSTRUCTION - ALTERATION - ADDITION OR IMPROVEMENT) AS DESCRIBED HEREIN

Required under the Authority of 1976 PA 399, as amended

This application becomes an Act 399 Permit only when signed and issued by authorized Michigan Department of Environmental Quality (DEQ) Staff See instructions below for completion of this application.

1. **Municipality or Organization, Address and WSSN** that will own or control the water facilities to be constructed. This permit is to be issued to: City of Flint, 4500 North Dort Highway, Flint, MI 48505 **WSSN**: 02310	Permit Stamp Area (DEQ use only) MICHIGAN DEPARTMENT OF ENVIRONMENTAL QUALITY PERMIT NO. W 140026 APR 09 2014 EXAMINED AND APPROVED FOR COMPLIANCE WITH ACT 399, P.A. 1976	
2. **Owner's Contact Person** (provide name for questions). Contact: Brent Wright Title Plant Supervisor Phone: 810-787-6537		
3. **Project Name** (Provide phase number if project is segmented) Flint WTP Phase II, Segment II - Lime Residual Disposal	4. **Project Location** (City, Village, Township): City of Flint	5. **County** (location of project) Genesee County

ISSUED UNDER THE AUTHORITY OF THE DIRECTOR OF THE DEPARTMENT OF ENVIRONMENT QUALITY

☐ **If this box is marked see attached special conditions.**

Instructions: Complete items 1 through 5 above and 6 through 21 on the following pages of this application Print or type all information except for signatures. Mail completed application, plans and specifications, and any attachments to the DEQ District Office having jurisdiction in the area of the proposed construction

Please Note:

a. This **PERMIT** only authorizes the construction, alteration, addition or improvement of the water system described herein and is issued solely under the authority of 1976 PA 399, as amended
b. The issuance of this **PERMIT** does not authorize violation of any federal, state or local laws or regulations, nor does it obviate the necessity of obtaining such permits, including any other DEQ permits, or approvals from other units of government as may be required by law.
c. This **PERMIT** expires two (2) years after the date of issuance in accordance with R 325.11306, 1976 PA 399, administrative rules, unless construction has been initiated prior to expiration.
d. Noncompliance with the conditions of this permit and the requirements of the Act constitutes a violation of the Act.
e. Applicant must give notice to public utilities in accordance with 1974 PA 53, (MISS DIG), being Section 460.701 to 460.718 of the Michigan Compiled Laws, and comply with each of the requirements of that Act.
f. All earth changing activities must be conducted in accordance with the requirements of the Soil Erosion and Sedimentation Control Act, Part 91, 1994 PA 451, as amended.
g. All construction activity impacting wetlands must be conducted in accordance with the Wetland Protection Act, Part 303, 1994 PA 451, as amended.
h. Intentionally providing false information in this application constitutes fraud which is punishable by fine and/or imprisonment.
i. Where applicable for water withdrawals, the issuance of this permit indicates compliance with the requirements of Part 327 of Act 451, Great Lakes Preservation Act.

6. **Facilities Description** – In the space below provide a detailed description of the proposed project. Applications without adequate facilities descriptions **will be returned**. SEE EXAMPLES BELOW. Use additional sheets if needed.

Improvements to the City of Flint Lime Sludge Lagoons at Bray Road to allow lime sludge from the the Flint WTP to be stored during the interim period when the plant will be treating Flint River water. The lagoons will not be needed for continuous use when the plant switches to treatment of raw water from the KWA Lake Huron Water Supply:

PHASE II, SEGMENT II - LIME RESIDUAL DISPOSAL (@BRAY ROAD):
* Plugging and abandonment of 8" inlet piping; construction of 306 LF of new 10" inlet piping; installation of bulkhead on existing outlet structure to prevent discharge to surface water.
* Clay Berm barrier improvements to separate concrete debris pile from lime sludge.
* Construction of new decant tower structure, 8" gravity sewer, and decant pump station (duplex submersible) with CO2 feed system for pH adjustment. Vortex impeller pumps (2) shall each be rated at 140 gpm at 22' TDH; CO2 feed consists of 6 ton storage tank, 15 pph pH controlled feed system, SS gas piping, and diffusers installed in the decant tower.
* Construction of approx. 3,800 LF of 6" HDPE decant forcemain and connection to existing City santiary sewer system.

EXAMPLES – EXAMPLES – EXAMPLES – EXAMPLES – EXAMPLES – EXAMPLES	
Water Mains	500 feet of 8-inch water main in First Street from Main Street north to State Street. **OR** 250 feet of 12-inch water main in Clark Road from an existing 8-inch main in Third Avenue north to a hydrant.
Booster Stations	A booster station located at the southwest corner of Third Avenue and Main Street, and equipped with two, 15 Hp pumps each rated 150 gpm @ 200 feet TDH. Station includes backup power and all other equipment as required for proper operation.
Elevated Storage Tank	A 300,000 gallon elevated storage tank located in City Park. The proposed tank shall be spherical, all welded construction and supported on a single pedestal. The tank shall be 150 feet in height, 40 feet in diameter with a normal operating range of 130 – 145 feet. The interior coating system shall be ANSI/NSF Standard 61 approved or equivalent. The tank will be equipped with a cathodic protection system, and includes a tank level control system with telemetry.
Chemical Feed	A positive displacement chemical feed pump, rated at 24 gpd @ 110 psi to apply a chlorine solution for Well No. 1. Chlorine is 12.5% NaOCL, ANSI/NSF Standard 60 approved and will be applied at a rate of 1.0 mg/l of actual chlorine.
Water Supply Well	Well No. 3, a 200 foot deep well with 170 feet of 8-inch casing and 30 feet of 8-inch, 10 slot screen. The well will be equipped with a 20 Hp submersible pump and motor rated 200 gpm @ 225 feet TDH, set at 160 feet below land surface.
Treatment Facilities	A 5 million gpd water treatment plant located at the north end of Second Avenue. The facility will include 6 low service pumps, 2 rapid mix basins, 4 flocculation/sedimentation basins, 8 dual media filters, 3 million gallon water storage reservoir and 6 high service pumps. Also included are chemical feed pumps and related appurtenances for the addition of alum, fluoride, phosphate and chlorine.

General Project Information – Complete all boxes below.

7. Design engineer's name, engineering firm, address, phone number, and email address:

Jeremy N. Nakashima, PE
Lockwood, Andrews & Newnam, Inc.
1 Oakbrook Terrace, Suite 207
Oakbrook Terrace, IL 60181
630-495-4123 / jnnakashima@lan-inc.com

8. Indicate who will provide project construction inspection:
☒Organization listed in Box 1.
☒Engineering firm listed in Box 7.
☐Other - name, address, and phone number listed below.

9. Is a basis of design attached?
☒YES ☐NO

If no, briefly explain why a basis of design is not needed. Submitted previously under separate cover.

10. Are sealed and signed engineering plans attached?
☒YES ☐NO

If no, briefly explain why engineering plans are not needed. Plans and specs submitted previously under separate cover.

11. Are sealed and signed construction specifications attached?
☒YES ☐NO

If specifications are not attached, they need to be on file at DEQ.

12. Were Recommended Standards for Water Works, Suggested Practice for Water Works, AWWA guidelines, and the requirements of Act 399 and its administrative rules followed?
☒YES ☐NO

If no, explain which deviations were made and why.

13. Are all coatings, chemical additives and construction materials ANSI/NSF or other adequate 3rd party approved?
☒YES ☐NO

If no, describe what coatings, additives or materials did not meet the applicable standard and why.

14. Are all water system facilities being installed in the public right-of-way or a dedicated utility easement? (For projects not located in the public right-of-way, utility easements must be shown on the plans.)
☐YES ☒NO

If no, explain how access will be obtained. Most work will be on City owned property, except forcemain.

15. Is the project construction activity within a wetland (as defined by Section 324.30301(d)) of Part 303, 1994 PA 451?
☐YES ☒NO

If yes, a wetland permit must be obtained.

16. Is the project construction activity within a 100-year floodplain (as defined by R 323.1311(e)) of Part 31, 1994 PA 451, administrative rules?
☐YES ☒NO

If yes, a flood plain permit must be obtained.

17. Is the project construction activity within 500 feet of a lake, reservoir, or stream?
☒YES ☐NO

If yes, a Soil and Erosion Control Permit must be obtained or indicate if the owner listed in box 2 of this application is an Authorized Public Agency (Section 10 of Part 91, 1994 PA 451) ☐ Owner is APA.

18. Will the proposed construction activity be part of a project involving the disturbance of five (5) or more acres of land?
☐YES ☒NO
If yes, is this activity regulated by the National Pollutant Discharge Elimination System storm water regulations?
☐YES: NPDES Authorization to discharge storm water from construction activities must be obtained.

☐NO: Describe why activity is not regulated:
Please call 517-241-8993 with questions regarding the applicability of the storm water regulations.

19. Is the project in or adjacent to a site of suspected or known soil or groundwater contamination?
☐YES ☒NO

If yes, attach a copy of a plan acceptable to the DEQ for handling contaminated soils and/or groundwater disturbed during construction. Contact the local DEQ district office for listings of Michigan sites of environmental contamination.

20. IF YOU ARE A CUSTOMER/WHOLESALE/BULK PURCHASER, COMPLETE THE FOLLOWING

1) Name and WSSN of source water supply system (seller) _____

2) Does the water service contract require water producer/seller to review and approve customer/wholesale/bulk purchaser water system construction plans?
☐YES ☐NO

If yes to #2, the producer/seller approval letter must be attached when submitted to DEQ.

21. **Owner's Certification** The owner of the proposed facilities or the owner's authorized representative shall complete the owner's certification. It is anticipated that the owner will either be a governmental agency (city, village, township, county, etc.) or a private owner (individual, company, association, etc.) of a Type I public water supply.

OWNER'S CERTIFICATION

I, BRENT F. WRIGHT (print) (name), acting as the WATER PLANT SUPERVISOR (print) (title/position) for CITY OF FLINT (print) (entity owning proposed facilities) certify that this project has been reviewed and approved as detailed by the Plans and Specifications submitted under this application, and is in compliance with the requirements of 1976 PA 399, as amended, and its administrative rules.

Signature* 3-31-2014 Date (810) 787-6537 Phone

*Original signature only, no photocopies will be accepted.

PROJECT BASIS OF DESIGN – FOR WATER MAIN PROJECTS

PROJECT NAME: _____

For this PROJECT the following information must be provided per Act 399 unless waived by the Department. For projects other than water main installation, or if additional space is needed, attach separate sheet(s) with detailed Basis of Design calculations.

A. A general map of the initial and ultimate service areas
☐ Included on engineering plans ☐ Attached separately

B. Number of service connections served by this permit application _____

C. Total number of service connections ultimately served by entire project _____

D. Residential Equivalent Units (REUs) served by this permit application _____

E. Total Residential Equivalent Units (REUs) ultimately served by entire project _____

F. Water flow rates for proposed project based on REUs listed in "D" and "E" above

1. Initial design average day flow (mgd) _____
2. Initial design maximum day flow (mgd) _____
3. Total design average day flow (mgd) _____
4. Total design maximum day flow (mgd) _____
5. Required fire flows: (1) _____ gpm for _____ hours

G. Actual flows and pressures of existing system at the connection point(s) (2)
_____ gpm at _____ psi
_____ gpm at _____ psi
_____ gpm at _____ psi
_____ gpm at _____ psi

H. Estimated minimum flows and pressures within the proposed water main system (3) _____ gpm at _____ psi

(1) Every water system must decide what levels of fire fighting flows they wish to provide. Fire flow should be appropriate for the area (residential, commercial, industrial) being served by the project. Typical fire flow rates can be obtained from the water supply, local fire dept., ISO or AWWA. The water system must then be designed to be able to provide the required fire flows while maintaining at least 20 psi in all portions of the distribution system.

(2) Flows and pressures at the connection points must be given to determine if the existing water main(s) are able to deliver water to the new service area. These numbers can be obtained from a properly modeled and calibrated distribution system hydraulic analysis or hydrant flow tests performed in the field. If more than one connection is proposed, list as needed.

(3) List what the estimated minimum flows can be expected in the proposed water mains based on estimated water demands, head losses, elevation changes and other factors that may affect flows, such as dead end mains.

PERMIT APPLICATION FOR WATER SUPPLY SYSTEMS

(CONSTRUCTION - ALTERATION - ADDITION OR IMPROVEMENT) AS DESCRIBED HEREIN

Required under the Authority of 1976 PA 399, as amended

This application becomes an Act 399 Permit only when signed and issued by authorized Michigan Department of Environmental Quality (DEQ) Staff. See instructions below for completion of this application.

1. **Municipality or Organization, Address and WSSN** that will own or control the water facilities to be constructed. This permit is to be issued to City of Flint 4500 North Dort Highway Flint, MI 48505 **WSSN**: 02310	Permit Stamp Area (DEQ use only) MICHIGAN DEPARTMENT OF ENVIRONMENTAL QUALITY PERMIT NO. 14025 APR 09 2014 EXAMINED AND APPROVED FOR COMPLIANCE WITH ACT 399, P.A. 1976	
2. **Owner's Contact Person** (provide name for questions): Contact: Brent Wright Title. Plant Supervisor Phone. 810-787-6537		
3. **Project Name** (Provide phase number if project is segmented) 1) Flint WTP Phase II, Sement I - Initial Watermain Cut-In / Rehabilitation, 2) Flint WTP Phase II, Segment II - Lime Residual Disposal; 3) Flint WTP Phase II, Segment III - Electrical Improvements	4. **Project Location** (City, Village, Township). City of Flint	5. **County** (location of project): Genesee County

e. Applicant must give notice to public utilities in accordance with 1974 PA 53, (MISS DIG), being Section 460.701 to 460 718 of the Michigan Compiled Laws, and comply with each of the requirements of that Act.
f. All earth changing activities must be conducted in accordance with the requirements of the Soil Erosion and Sedimentation Control Act, Part 91, 1994 PA 451, as amended.
g. All construction activity impacting wetlands must be conducted in accordance with the Wetland Protection Act, Part 303, 1994 PA 451, as amended.
h. Intentionally providing false information in this application constitutes fraud which is punishable by fine and/or imprisonment.
i. Where applicable for water withdrawals, the issuance of this permit indicates compliance with the requirements of Part 327 of Act 451, Great Lakes Preservation Act.

6. **Facilities Description** – In the space below provide a detailed description of the proposed project. Applications without adequate facilities descriptions **will be returned.** SEE EXAMPLES BELOW. Use additional sheets if needed.

Improvements to the City of Flint WTP to enable treatment of Flint River water on an interim basis until the KWA Lake Huron Water Supply is available for connection and use by the City of Flint:

PHASE II, SEGMENT I - INITIAL WATERMAIN CUT-IN / REHABILITATION (@WTP):
* Replace existing 25 MGD HSP #1 at Pump Station No. 4 with a new 700 HP, vertically mounted, split-case centrifugal pump rated for 15 MGD at 185' TDH. New pump suction and discharge piping, valves and supports will also be provided.
* Construction of new ozone system LOX/LIN storage facility to provide system redundancy and a minimum of 30 days chemical storage. A new concrete containment structure will be constructed adjacent to the existing LOX/LIN storage facility. The new LOX and LIN tanks will have nominal capacities of 9000 gal. and 525 gal., respectively.
* Installation of Midpoint Chlorination. A 3"x6" dual walled chlorine solution line, approx. 665 LF, will be installed from the existing chlorine room at Pump Station No. 4 to a diffuser in the filter influent channel at Plant 2. The chlorine gas feed system shall consist of four 500 ppd feed systems (total 2000 ppd) to be installed by City personnel. Each 500 ppd system consists of a ton cylinder mounted vacuum regulator, control panel, ejector, and misc. piping, tubing & valves.
* Approx. 850 LF 42" raw watermain connection from existing 48" and 36" mains that feed the plant to convey KWA raw water to the Ozone Building. Work includes a 54x48 cross to make the initial connection at the Ozone Building, buried yard butterfly valves, access and air release manholes, and cathodic protection test stations.

PHASE II, SEGMENT III - ELECTRICAL IMPROVEMENTS (@WTP):
* Plant substation improvements, including two new 2500 kW transformers and switchgear. The substation switchgear has been fabricated with two utility main breakers, one generator breaker and two tie breakers. So provisions are in place for a future permanent generator. If a temporary generator is needed in the event of an outage to both independent utility services, provisions are in place to temporary cable a large portable generator through a manhole, duct bank and cable tray system to the generator breaker in the substation switchgear
* Plant 2 electrical improvements, including two new 500 kW transformers and switchgear.
* Pump Station No. 4 improvements, including new switchgear and VFD for HSP #1.

EXAMPLES – EXAMPLES – EXAMPLES – EXAMPLES – EXAMPLES – EXAMPLES	
Water Mains	500 feet of 8-inch water main in First Street from Main Street north to State Street. OR 250 feet of 12-inch water main in Clark Road from an existing 8-inch main in Third Avenue north to a hydrant.
Booster Stations	A booster station located at the southwest corner of Third Avenue and Main Street, and equipped with two, 15 Hp pumps each rated 150 gpm @ 200 feet TDH. Station includes backup power and all other equipment as required for proper operation.
Elevated Storage Tank	A 300,000 gallon elevated storage tank located in City Park. The proposed tank shall be spherical, all welded construction and supported on a single pedestal. The tank shall be 150 feet in height, 40 feet in diameter with a normal operating range of 130 – 145 feet. The interior coating system shall be ANSI/NSF Standard 61 approved or equivalent. The tank will be equipped with a cathodic protection system, and includes a tank level control system with telemetry.
Chemical Feed	A positive displacement chemical feed pump, rated at 24 gpd @ 110 psi to apply a chlorine solution for Well No. 1. Chlorine is 12.5% NaOCL, ANSI/NSF Standard 60 approved and will be applied at a rate of 1.0 mg/l of actual chlorine.
Water Supply Well	Well No. 3, a 200 foot deep well with 170 feet of 8-inch casing and 30 feet of 8-inch, 10 slot screen. The well will be equipped with a 20 Hp submersible pump and motor rated 200 gpm @ 225 feet TDH, set at 160 feet below land surface.
Treatment Facilities	A 5 million gpd water treatment plant located at the north end of Second Avenue. The facility will include 6 low service pumps, 2 rapid mix basins, 4 flocculation/sedimentation basins, 8 dual media filters, 3 million gallon water storage reservoir and 6 high service pumps. Also included are chemical feed pumps and related appurtenances for the addition of alum, fluoride, phosphate and chlorine.

General Project Information – Complete all boxes below.

7. Design engineer's name, engineering firm, address, phone number, and email address:

Jeremy N. Nakashima, PE
Lockwood, Andrews & Newnam, Inc.
1 Oakbrook Terrace, Suite 207
Oakbrook Terrace, IL 60181
630-495-4123 / jnnakashima@lan-inc.com

8. Indicate who will provide project construction inspection:
☒Organization listed in Box 1.
☒Engineering firm listed in Box 7.
☐Other - name, address, and phone number listed below.

9. Is a basis of design attached?
☒YES ☐NO

If no, briefly explain why a basis of design is not needed. Submitted previously under separate cover.

10. Are sealed and signed engineering plans attached?
☒YES ☐NO

If no, briefly explain why engineering plans are not needed. Plans and specs submitted previously under separate cover.

11. Are sealed and signed construction specifications attached?
☒YES ☐NO

If specifications are not attached, they need to be on file at DEQ.

12. Were Recommended Standards for Water Works, Suggested Practice for Water Works, AWWA guidelines, *and the requirements of Act 399 and its administrative rules followed?*
☒YES ☐NO

If no, explain which deviations were made and why.

13. Are all coatings, chemical additives and construction materials ANSI/NSF or other adequate 3rd party approved?
☒YES ☐NO

If no, describe what coatings, additives or materials did not meet the applicable standard and why.

14. Are all water system facilities being installed in the public right-of-way or a dedicated utility easement? (For projects not located in the public right-of-way, utility easements must be shown on the plans.)
☐YES ☒NO

If no, explain how access will be obtained. Most work will be on City owned property, except forcemain.

15. Is the project construction activity within a wetland (as defined by Section 324.30301(d)) of Part 303, 1994 PA 451?
☐YES ☒NO

If yes, a wetland permit must be obtained.

16. Is the project construction activity within a 100-year floodplain (as defined by R 323.1311(e)) of Part 31, 1994 PA 451, administrative rules?
☐YES ☒NO

If yes, a flood plain permit must be obtained.

17. Is the project construction activity within 500 feet of a lake, reservoir, or stream?
☒YES ☐NO

If yes, a Soil and Erosion Control Permit must be obtained or indicate if the owner listed in box 2 of this application is an Authorized Public Agency (Section 10 of Part 91, 1994 PA 451) ☐ Owner is APA.

18. Will the proposed construction activity be part of a project involving the disturbance of five (5) or more acres of land?
☐YES ☒NO
If yes, is this activity regulated by the National Pollutant Discharge Elimination System storm water regulations?
☐YES: NPDES Authorization to discharge storm water from construction activities must be obtained.

☐NO: Describe why activity is not regulated:
Please call 517-241-8993 with questions regarding the applicability of the storm water regulations.

19. Is the project in or adjacent to a site of suspected or known soil or groundwater contamination?
☐YES ☒NO

If yes, attach a copy of a plan acceptable to the DEQ for handling contaminated soils and/or groundwater disturbed during construction. Contact the local DEQ district office for listings of Michigan sites of environmental contamination.

20. IF YOU ARE A CUSTOMER/WHOLESALE/BULK PURCHASER, COMPLETE THE FOLLOWING

1) Name and WSSN of source water supply system (seller) _____

2) Does the water service contract require water producer/seller to review and approve customer/wholesale/bulk purchaser water system construction plans?
☐YES ☐NO

If yes to #2, the producer/seller approval letter must be attached when submitted to DEQ.

21. **Owner's Certification** The owner of the proposed facilities or the owner's authorized representative shall complete the owner's certification. It is anticipated that the owner will either be a governmental agency (city, village, township, county, etc.) or a private owner (individual, company, association, etc.) of a Type I public water supply.

OWNER'S CERTIFICATION

I, BRENT F. WRIGHT (print) (name), acting as the WATER PLANT SUPERVISOR (print) (title/position) for CITY OF FLINT (print) (entity owning proposed facilities) certify that this project has been reviewed and approved as detailed by the Plans and Specifications submitted under this application, and is in compliance with the requirements of 1976 PA 399, as amended, and its administrative rules.

Signature* 3-31-2014 Date (810)787-6537 Phone

*Original signature only, no photocopies will be accepted.

PROJECT BASIS OF DESIGN – FOR WATER MAIN PROJECTS

PROJECT NAME: _____

For this PROJECT the following information must be provided per Act 399 unless waived by the Department. For projects other than water main installation, or if additional space is needed, attach separate sheet(s) with detailed Basis of Design calculations.

A. A general map of the initial and ultimate service areas
☐ Included on engineering plans ☐ Attached separately

B. Number of service connections served by this permit application _____

C. Total number of service connections ultimately served by entire project _____

D. Residential Equivalent Units (REUs) served by this permit application _____

E. Total Residential Equivalent Units (REUs) ultimately served by entire project _____

F. Water flow rates for proposed project based on REUs listed in "D' and "E" above

1. Initial design average day flow (mgd) _____
2. Initial design maximum day flow (mgd) _____
3. Total design average day flow (mgd) _____
4. Total design maximum day flow (mgd) _____
5. Required fire flows: (1) _____ gpm for _____ hours

G. Actual flows and pressures of existing system at the connection point(s) (2)
_____ gpm at _____ psi
_____ gpm at _____ psi
_____ gpm at _____ psi
_____ gpm at _____ psi

H. Estimated minimum flows and pressures within the proposed water main system (3) _____ gpm at _____ psi

(1) Every water system must decide what levels of fire fighting flows they wish to provide. Fire flow should be appropriate for the area (residential, commercial, industrial) being served by the project. Typical fire flow rates can be obtained from the water supply, local fire dept., ISO or AWWA. The water system must then be designed to be able to provide the required fire flows while maintaining at least 20 psi in all portions of the distribution system.

(2) Flows and pressures at the connection points must be given to determine if the existing water main(s) are able to deliver water to the new service area. These numbers can be obtained from a properly modeled and calibrated distribution system hydraulic analysis or hydrant flow tests performed in the field. If more than one connection is proposed, list as needed.

(3) List what the estimated minimum flows can be expected in the proposed water mains based on estimated water demands, head losses, elevation changes and other factors that may affect flows, such as dead end mains.

Water/Wastewater Rate Presentation

Water and Wastewater Rate Study

Final Draft | April 10, 2014

Scope of Services

- Adequacy of Existing Water and Wastewater Revenues
- Water and Wastewater Financial Plans
- Cost of Service Study and Proposed Rates
- Impact of Transitioning to KWA
- Water and Wastewater Operations and Best Management Practices ("BMP")

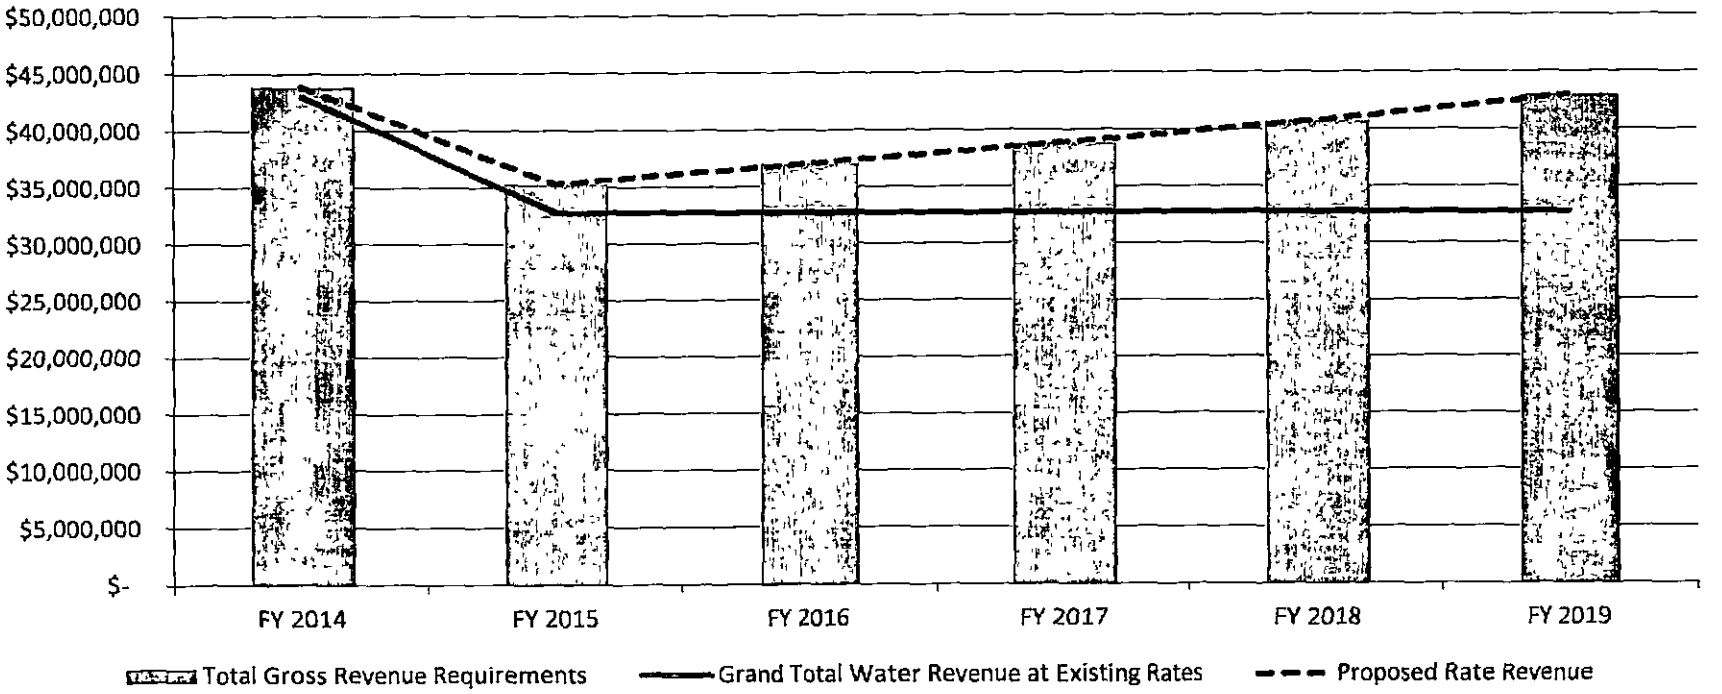
ADEQUACY OF EXISTING REVENUES

Factors Impacting Utility Revenues

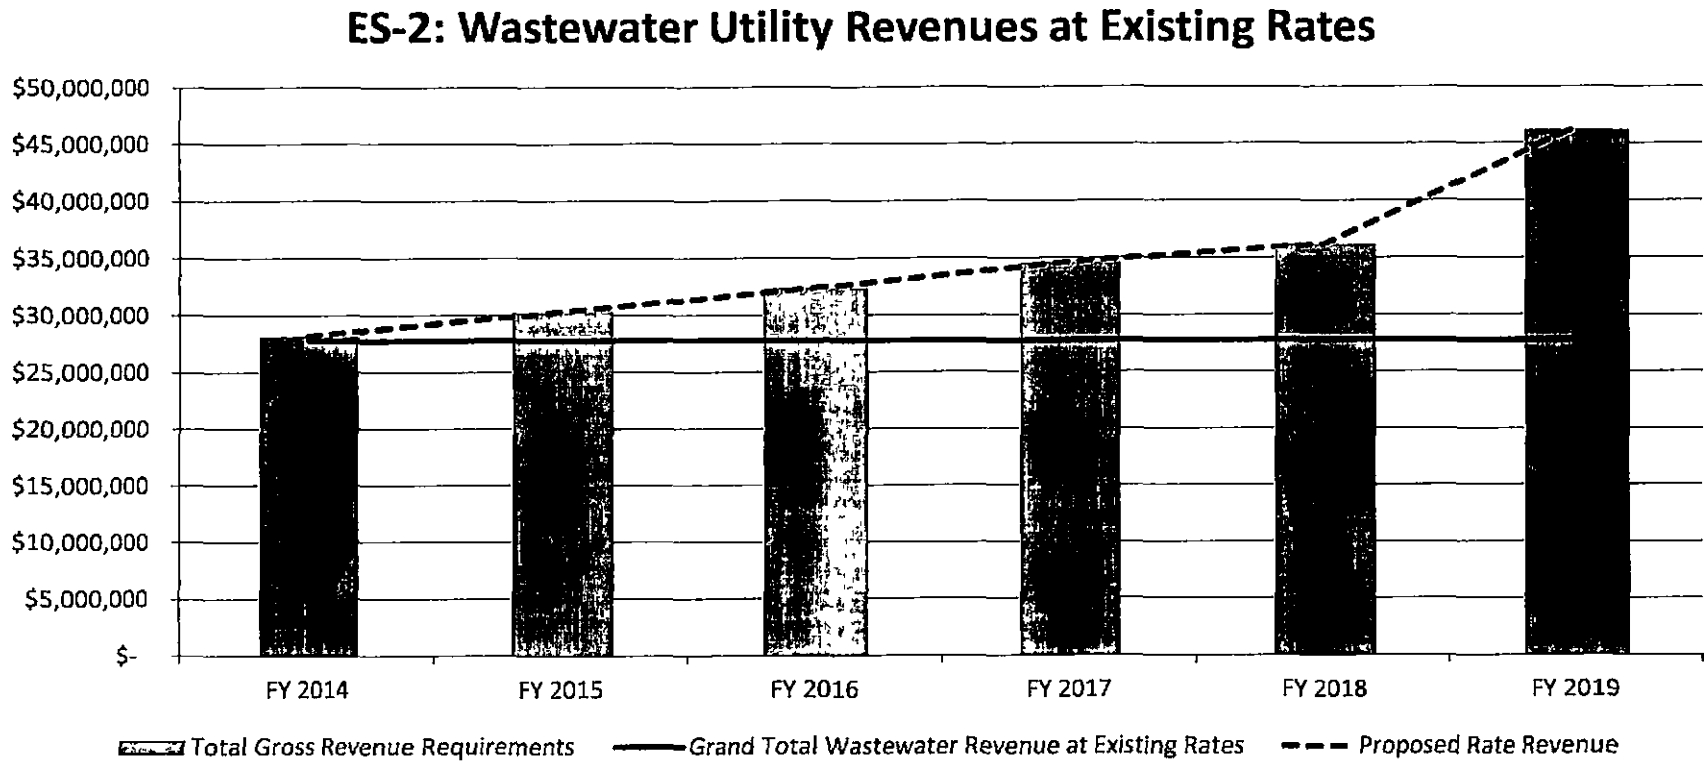
- Marked decrease in billed water and wastewater usage
  - Approximately 12% below FY 2014 Budget
  - Under investigation under separate contract,
  - A normal pattern of declining per customer water usage
- Increases in utility revenue requirements
  - O&M
  - Cash-Funded Capital Improvements
  - Improving Financial Management Practices (e.g. increased cash reserves)

Water Utility Revenues at Existing Rates

ES-1: Water Utility Revenues at Existing Rates



Wastewater Utility Revenues at Existing Rates



WATER AND WASTEWATER FINANCIAL PLANS

Financial Planning Overview

- Purpose: determine rate revenue required for financial sustainability
- Process
  - Forecast customer units of service and revenue at existing rates
  - Forecast operation and maintenance expenditures ("O&M")
  - Forecast capital expenditures
    - » CIP
    - » Existing and Proposed DS
  - Develop detailed cash flow forecasts

Factors Driving Financial Plans

- Inflationary O&M Increases
- Annual Utility Recapitalization
- Water Utility Capital Improvements Associated with the Transition to KWA
- Financial Policies

Inflationary O&M Increases

- Largely associated with personnel costs
  - Annual COLA adjustments to Salaries and Medical
  - Legacy costs
    - » Pension and Retiree Healthcare
    - » Generally increase with salaries, usually higher based on pension funding levels
- Also related to the cost of materials and supplies
  - Cost of Chemicals for Water and Wastewater Treatment
  - Utilities Costs (Primarily Electric)
- Increases in cost of services provided via the General Fund (i.e. overhead cost allocation)

Recapitalization

- Necessary at some level on an annual basis
- Level and frequency based on age of water and wastewater system and original construction materials
- Can reduce O&M costs (i.e. less sewer back-ups, water main breaks etc.)
- Avoids "mining assets"

Transition to KWA

- Assumed April 1 transition to KWA.
- Revenues:
  - Decrease in revenues associated with cessation of service to Genesee County.
- Expenditures:
  - Decrease in O&M associated with elimination of DWSD water purchases
  - Increases in expenditures associated with full-time Flint WTP Operation
    - » O&M: Increased costs to operate and maintain WTP
    - » Capital: Expenditures to upgrade WTP to operate full-time
  - Debt Service: Flint's share of KWA project debt service

Financial Policies

- Separate Financial Plans for Each Utility
  - Equity for Customers
  - Ensures one fund is not subsidizing another
- Operating Reserve
  - Target of 90 days O&M and Debt Service
  - Working up to target over 5 years to mitigate rate impact
- Cash Funded Capital Improvements
  - All cash funded due to financing constraints
  - Potential to use Michigan SRF in the future
  - Short term rate impact, but long-term savings over debt
- Existing Debt Service Coverage
  - Substantial for water utility due to cash funding
  - No outstanding wastewater debt

Financial Plans from Rate Model

ES-3: SUMMARY OF WATER AND WASTEWATER FINANCIAL PLANS

Water Utility	Budget Year FY 2014	Test Year FY 2015	Forecast FY 2016	Forecast FY 2017	Forecast FY 2018	Forecast FY 2019
REVENUES						
Grand Total Water Revenue at Existing Rates	$ 42,974,374	$ 32,762,575	$ 32,762,575	$ 32,762,575	$ 32,762,575	$ 32,762,575
Additional Revenue from Rate Increases	$ -	$ 1,638,100	$ 3,358,100	$ 5,164,100	$ 7,060,400	$ 8,255,100
Total Non-Rate Revenues	$ 886,000	$ 897,679	$ 913,920	$ 914,515	$ 918,931	$ 926,050
Add Transfers in from General Fund	$ -	$ -	$ -	$ -	$ -	$ 1,000,000
Total Rate and Non-Rate Revenues	***$ 43,860,374***	***$ 35,298,354***	***$ 37,034,595***	***$ 38,841,189***	***$ 40,741,906***	***$ 42,943,725***
GROSS REVENUE REQUIREMENTS						
O&M	$ 36,920,049	$ 21,539,930	$ 21,539,930	$ 22,073,930	$ 22,714,605	$ 23,376,786
Capital	$ 11,247,946	$ 13,242,821	$ 12,246,423	$ 16,648,446	$ 17,144,008	$ 17,143,196
Transfer to Operating Reserve	$ (4,307,621)	$ 515,604	$ 3,248,242	$ 118,814	$ 883,292	$ 2,423,743
Total Gross Revenue Requirements	***$ 43,860,374***	***$ 35,298,354***	***$ 37,034,595***	***$ 38,841,189***	***$ 40,741,906***	***$ 42,943,725***
DEFICIT (EXISTING REVENUES - REVENUE REQ.)	$ -	$ (1,638,100)	$ (3,358,100)	$ (5,164,100)	$ (7,060,400)	$ (8,255,100)

Wastewater Utility	Budget Year FY 2014	Test Year FY 2015	Forecast FY 2016	Forecast FY 2017	Forecast FY 2018	Forecast FY 2019
REVENUES						
Grand Total Wastewater Revenue at Existing Rates	$ 27,777,374	$ 27,777,374	$ 27,777,374	$ 27,777,374	$ 27,777,374	$ 27,777,374
Additional Revenue from Rate Increases	$ -	$ 2,083,300	$ 4,173,500	$ 6,410,100	$ 7,948,500	$ 9,020,300
Total Non-Rate Revenues	$ 395,872	$ 425,749	$ 414,327	$ 421,625	$ 423,268	$ 419,283
Add Transfers in from General Fund	$ -	$ -	$ -	$ -	$ -	$ 9,000,000
Total Rate and Non-Rate Revenues	***$ 28,173,246***	***$ 30,286,423***	***$ 32,365,201***	***$ 34,609,099***	***$ 36,149,143***	***$ 46,216,957***
GROSS REVENUE REQUIREMENTS						
O&M	$ 24,355,611	$ 23,086,335	$ 22,649,535	$ 22,649,535	$ 23,320,442	$ 24,014,032
Capital	$ 6,500,000	$ 5,500,000	$ 12,000,000	$ 10,500,000	$ 12,500,000	$ 14,000,000
Transfer to Operating Reserve	$ (2,682,364)	$ 1,700,088	$ (2,284,334)	$ 1,459,564	$ 328,700	$ 8,202,925

COST OF SERVICE STUDY AND PROPOSED RATES

Cost of Service Study Overview

- Purpose:
  - Allocate costs to customer classes based on the demands they impose on the water and wastewater utility systems
  - Demand
    - » Water: Average and Peak (Max Day, Max Hour) usage, and Customer Costs
    - » Wastewater: Volume, Strength (BOD and TSS) and Customer Costs
- Process
  - Determine revenue requirement
  - Allocate revenue requirement to cost components
  - Determine units of service by customer class
  - Determine unit cost of service
  - Allocate costs to customer classes

Cost of Service Results

ES-5: SUMMARY OF COST OF SERVICE STUDY RESULTS

CUSTOMER CLASS	WATER	WASTEWATER
Allocated Cost of Service		
Total Inside City Residential COS	$ 18,347,403	$ 16,413,652
Total Inside City Commercial/Industrial COS	$ 15,262,006	$ 13,377,848
Total Inside City Lawn COS	$ 370,634	N/A
Total Inside City COS	$ 33,980,043	$ 29,791,500
Total Outside City Residential COS	$ 99,493	$ 2,383
Total Outside City Commercial/Industrial COS	$ 321,139	$ 66,791
Total Outside City Lawn COS	$ -	N/A
Total Outside City COS	$ 420,632	$ 69,174
Total System Cost of Service	$ 34,400,675	$ 29,860,674

Rate Design Issues

- Fixed vs. Volumetric Charges
  - » Fixed ($.34 per dollar of rate revenue)
    - › Typically recovers meter reading billing and collection and CS
    - › Generate $.34 of every $1 of rate revenue
    - › (+) Revenue Stability, (-) Larger Impact on lower volume users
  - » Volumetric ($.66 per dollar of rate revenue)
    - › Recovers average and peak demand costs for water, strength and volume for wastewater
    - › (+) Potentially more equitable, (-) More variable revenue stream
- Maintaining Existing Rate Structure
  - » Structure changes create winners and losers
  - » Potential demand response (losers may use less, but winners will not use more)
  - » Navigate the KWA transition and revenue collection issues, address structure changes in the future

Existing and Proposed Rates

Water Rates

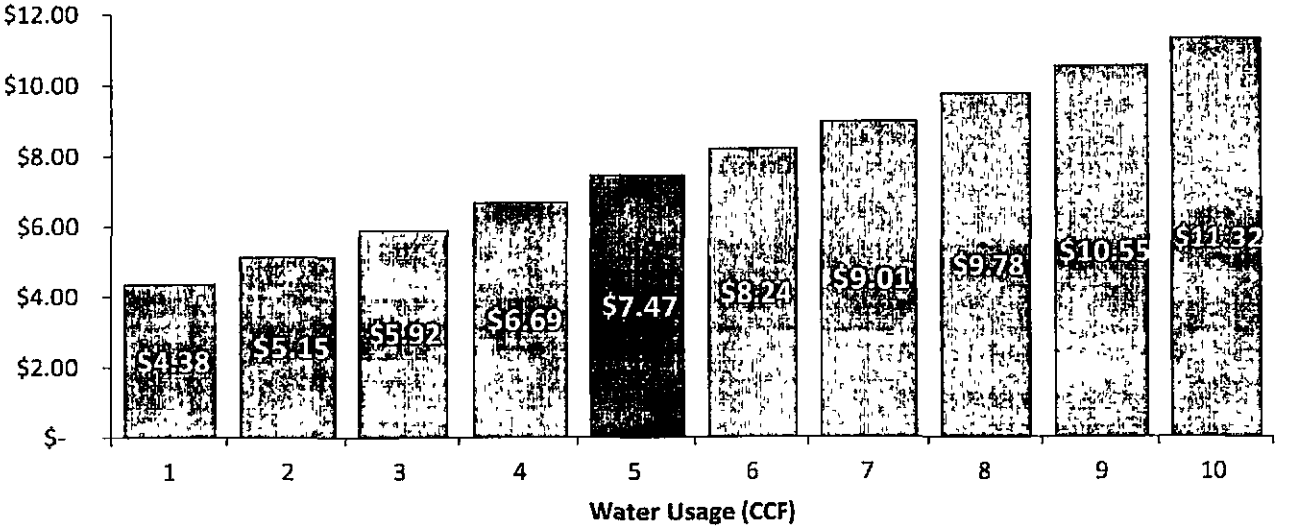
	Existing	Proposed	$
Block 1 *0-35 Ccf*	$ 7.52	7.92	$ .40
Block 2 *36-2000 Ccf*	$ 7.31	7.62	$ .31
Block 3 *>2000 Ccf*	$ 5.79	6.09	$ .30
Fixed Charge	$ 21.78	22.90	$ 1.13

Wastewater Rates

	Existing	Proposed	$
Block 1 *0-35 Ccf*	$ 4.80	$ 5.17	$ .37
Block 2 *36-2000 Ccf*	$ 4.80	$ 5.17	$ .37
Block 3 *>2000 Ccf*	$ 4.80	$ 5.17	$ .37
Fixed Charge	$ 32.00	$ 34.48	$ 2.48

Bill Impacts

Increases to Customer Bills Under Proposed (Combined W and WW)



IMPACT OF TRANSITION TO KWA

KWA Project Overview

- City previously a wholesale customer of DWSD
- Contract with DWSD will cease April 17
- City staff believe cost savings over continuing with DWSD could be achieved via KWA
- KWA project will draw raw water from Lake Huron, but will not be operational by April 17
- City will draw and treat water from the Flint River in the interim
- KWA members pay a portion of project costs based on contract capacity

Analysis Overview

- RFC worked with City staff to develop separate financial planning scenarios
  - Continuing with DWSD
  - Transition to KWA
- Assumptions and Data
  - April 1 transition
  - 5% DWSD rate increases into the future
  - Similar financial planning policies in each scenario
    - » Policies and strategy discussed in prior section applied to DWSD scenario
  - O&M Budget incorporating transition provided by City Staff
  - Project costs and phasing provided by City staff
  - Estimated Flint share of KWA debt service provided by City staff

Savings to Flint Customers

ES-8: POTENTIAL RESIDENTIAL BILL SAVINGS (KWA VS. DWSD)

ESTIMATED MONTHLY SAVINGS	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018	FY 2019
Monthly Usage (CCF)						
1	$ -	$ (2.28)	$ (5.04)	$ (5.29)	$ (5.16)	$ (5.32)
2	$ -	$ (2.85)	$ (6.32)	$ (6.64)	$ (6.48)	$ (6.67)
3	$ -	$ (3.43)	$ (7.60)	$ (7.98)	$ (7.79)	$ (8.02)
4	$ -	$ (4.00)	$ (8.89)	$ (9.33)	$ (9.10)	$ (9.37)
5	$ -	$ (4.57)	$ (10.17)	$ (10.68)	$ (10.41)	$ (10.73)
6	$ -	$ (5.15)	$ (11.45)	$ (12.02)	$ (11.73)	$ (12.08)
7	$ -	$ (5.72)	$ (12.73)	$ (13.37)	$ (13.04)	$ (13.43)

JEFFREY WRIGHT
COMMISSIONER

MEMORANDUM

DATE: April 11, 2014

TO: Jeff Wright, Drain Commissioner

FROM: John F. O'Brien, P.E., Director

SUBJECT: Water Supply: Flint/DWSD

CC: Advisory Board Members

As you are aware, the City of Detroit, through the Department of Water and Sewerage (DWSD), terminated the water supply contract with the City of Flint effective midnight of April 16, 2014. The City of Flint will go from a contract water supply to a non-contract water supply.

DWSD will continue to supply water to the City but it is their belief that they have more latitude on determination of the rates. GCDC currently has a water supply contract with the City of Flint. This is a year-to-year contract. To date, no notice has been given to terminate. In addition, the City of Flint has stated that they intend to begin supplying water to its residents from the Flint River and using their treatment plant by April 17, 2014 and terminate from the DWSD water system.

Where does this leave GCDC and its customers? The City of Flint does not have capacity or the physical distribution system to supply GCDC from the Flint River GCDC will have to continue with water supply from DWSD either through the City of Flint or directly with DWSD. The City of Flint has given notice to DWSD that GCDC can negotiate directly with DWSD.

Over the past few weeks, the County and DWSD have been in negotiations for water supply. We have identified three periods of service: The gap period, April 17 through June 30, 2014, the bridge period, July 1, 2014 through June 30, 2016, and the standby period, July 2016 through June 2044.

The gap period is the balance of DWSD's fiscal 2013/2014 year. Rates will be based on the 2013 rates, GCDC flow, and a short-term charge. The bridge period will be based on DWSD's rates modified, GCDC flow, and a short-term charge. The standby period shall be based on GCDC's flow request.

It is anticipated that the short-term charge will be about a 10% additional charge. For the bridge period, the DWSD rates will be modified to a change in methodology. The current DWSD rate is broken down to fixed charges and commodity, which for the year, adds up to a total revenue required based on the anticipated flow. Currently, the ratio of fixed and commodity is 40%, 60% respectively. The proposed modified ratio would be 80%, 20% respectively.

What does the modification mean? While the total cost does not change, the monthly bills would be smoothed out. Because GCDC has a fairly consistent flow, this should not have a significant impact on our billing.

The standby period is the cost of having a back-up supply from DWSD. While this is not required, if the price is right, it would be an insurance policy for long-term water supply.

Having said all this, what is the impact on water rates and when will it occur? The Division has a meeting scheduled with the DWSD on April 15 and we hope to have the final numbers. It would be our intent to have only one rate increase, which would cover the gap and bridge period. That rate would be approved effective September 2, 2014 for all billings. This would be consistent with our past practice of DWSD pass through rates in September. While the fees from DWSD will increase in the May billing, the County Agency has sufficient cash flow and reserves to accommodate the period from May to September.

Finally, GCDC customers will not lose its water supply from DWSD even if we cannot reach agreement with the City of Flint or DWSD. The purpose of the negotiation is to secure a rate and avoid litigation. The standby service is not required but if we can get it for the right price, it would be of additional value. Both negotiating teams recognize that we will be required to submit the contracts to our respective boards/councils and the Drain Commissioner and Emergency Financial Manager respectively, who could reject the agreement.

We expect to be able to answer specific questions at the Advisory Board meeting on April 16, a day after our meeting with representatives of the DWSD.

CITY OF FLINT

OFFICE OF THE EMERGENCY MANAGER

Gerald Ambrose
Emergency Manager

Cc: Flint City Council
Mayor Dayne Walling
Natasha L. Henderson, City Administrator

DATE: April 13, 2014

RE: Update and Transition Progress

Thank you for your consideration of my request for authorization to apply for the $7 million loan from the State's Emergency Loan Board. This loan, if approved, will be used to eliminate the City's General Fund deficit ahead of the schedule in our current Deficit Elimination/Reserve Accumulation Plan. This will enable the City to move forward with building adequate reserves necessary to foster financial stability. This, along with the commitments established in ordinance to develop and maintain a multi-year budget based on a strategic plan and to address the funding of long term liabilities, Flint's financial solvency can be sustainable.

Thank you also for your consideration of the proposed consolidation of the 68th and 67th District Court, an action which has been long in the making. Recommended by the State Court Administrators Office and authorized by state law, the consolidation is planned to become effective January 2, 2016. The Memorandum of Understanding, approved today by the Genesee County Board of Commissioners, details the advantages the consolidation will have for the City of Flint. The city will see a reduction in costs of more than $8.4 million over the first 10 years, providing some much needed funds to support police services. Additionally the new court division is assured of at least 2 probation officers, something which the Court has not had for several years. And, as provided in both law and the agreement, judges will continue to be elected from within the City.

As you know, my focus over the past few months has been and continues to be transitioning the City from oversight by an Emergency Manager to home rule under the guidance of a Receivership Transition Advisory Board.

Much progress has been made in preparing for the transition, including action by the City Council to complete the following:

- Final adoption of the Capital Improvements Plan
- Final adoption of ordinances regarding planning, budgeting, funds balance, and deficit elimination
- Update of the Strategic Plan's Vison, Mission, and Goals
- Adoption of budget priorities to guide development of the FY16/FY17 budget

Additionally, our new City Administrator Natasha Henderson is on board and is assuming duties as the experienced and professionally trained chief administrative officer for the City.

There are several issues which we are continuing to address, including:

- Water safety, quality, and affordability continues to be a top priority. The City's water supply today is safe, as measured by the same MDEQ standards that have been in place for years, and steps are being taken to improve treatment and distribution processes in order to address issues of discoloration and odor, and to assure continued safety. Reviews of our pricing structure are also underway to assure that customers are treated equitably while generating sufficient revenue to operate the system.

  Public safety continues to be an area of critical concern. The independent study of our police and fire organization provided a number of recommendations focused on how to best deploy the resources we have, and also confirmed that the staffing levels afforded by our limited resources are extremely low in comparison to comparable municipalities. This emphasizes the critical continuing importance of renewing the two voter-approved public safety millages and working to assure continuing state support through the assignment of state troopers and through financial support of the City lock-up. Loss of any of this support would be a disaster for the City.

- Achieving and then maintaining financial stability will continue to require constant attention. Approval of the ordinances regarding financial stability and the anticipated approval of the $7 million loan provide additional tools with which to work. Attention will need to be paid to not only developing and adopting budgets for FY16 and FY17 but doing so in the context of understanding the impact of those budgetary decisions into the following three years. Essential to this is making the budget decisions which truly address achievement of the stated vison, mission and goals for the City as adopted by the City Council. Unfortunately, the challenges in doing so will be great, as the City will continue to be faced with the reality of a structural deficit, where for the foreseeable future current expenditure patterns exceed revenue streams – a difficult position, given the City's already low level of services. Complicating this further is the potential impact of the retiree health care lawsuit, once the final outcome is decided.

- Finally progress continues with modernizing the operations of the City and setting the framework for future development. With the Master Plan and Capital Improvement Plan in place, focus is now turning to implementation, including updating the Zoning Ordinance.

As we move forward with preparing for transition, there is much work yet to do. Today I am taking three actions consistent with our path:

- Adoption of an updated purchasing policy – I am enacting the revisions to the Purchasing policy which were reviewed by Council within the past few months. These changes are made with the goal of assuring that the process of obtaining goods and services is consistent with the expectations of the Strategic Plan. There must be proper oversight and transparency, with a goal of obtaining goods and services that best meet the needs of City departments. The process must ensure competitive procurement, conducted in a timely and ethical manner. The City Council has an important role in assuring compliance with the policy, which is not the same as conducting purchasing operations.

- Confirming the role of the City Administrator – Before the search for a new City Administrator was begun, it was determined, within the context of the Seven Point Transition Plan, that an experienced and professional City Administrator would be selected on the basis of an open competitive process, and that the duties of the City Administrator would be structured in a manner which assures the ability to manage and direct the administrative affairs of the City in a professional manner. While those duties and expectations were described in the job description of the City Administrator and in recruitment materials, I am now formally enacting them in Emergency Manager Order Number 3.

- Re-establishing salaries for Mayor and Council – As we are moving towards transition, the duties and responsibilities of the Mayor and City Council are expanding towards the traditional roles of a City operating under home rule. Council meetings are now held twice per month, with committee meetings held once per month. The Mayor is now much more engaged in a Chief Executive role. Consequently, I have determined to re-establish the salaries for Mayor and Council at the levels in place immediately prior to the appointment of an Emergency Manager in November, 2011. Continued receipt of the re-established salaries, however, is contingent upon attainment of certain training. The re-established levels, and the contingency regarding training, is found in Emergency Manager Order Number 4.

Over the next several weeks, there will be much work with respect to finalizing the loan application and developing the FY16 and FY17 budgets along with FY18, FY19, and FY20 projections. Work will also continue with implementing improvements of the water system, and reviewing our associated rate structure. Evaluation and implementation of the recommendations for best use of

police and fire resources will continue, including corrective action for the police evidence room issues. Summer street maintenance and repair programs, as well as sidewalk repairs will soon be underway. Public meetings regarding the zoning ordinance are being held, with a recommended updated ordinance expected for consideration in late spring. A revision to the City's business licensing ordinance is expected soon. These are but a few of the many activities to be expected as the City makes the best use of its resources to provide the best level of service it can within the resources it has.

I look forward to working with you as we move towards transition to home rule under the guidance of a Receivership Transition Advisory Board. Please contact me if you have any questions.

City of Flint Wednesday 9:00 am Phone Conference Agenda
April 16, 2014

1) **Public Safety Update – FPD, MSP (FFD if needed)**

a) SAFER grant renewal for Flint has been denied. Chief Cox has been developing a plan to handle reduced staff beginning July 1, 2014.

b) Public Safety Study – meeting scheduled for this Thursday at 2pm in Flint Mayor's Conference Room with Treasury, Mott Foundation and L. Matarese of ICMA. Would like to start this study process as quickly as possible.

c) Other update by Chief Tolbert and MSP.

2) **Governor's Office Update –Rich Baird, H. Hollins**

3) **Retiree Lawsuit – Status, Issues**

There was a 3/14/14 meeting with attorneys and healthcare consultant. Update: Letters did go out to retirees as planned.

Regarding an E&Y "Ability to Pay" analysis: Phone conf scheduled with WW and E&Y

4) **Financial Update**

a) Deficit Elimination Plan – approval still pending. City is incorporating the changes into the FY15/16 budget. The City is still committed to eliminating the deficits. We are proceeding as we await formal approval of the plan.

b) Emergency Manager's 6 Month Report to the Governor was submitted on April 8, 2014. Also, Quarterly Financial Report was submitted on April 15, 2014.

c) Update on E&Y 5 Year projections: Preliminary review expected with EM and Treasury within the next three weeks. Analysis of utility system is still pending.

d) Model Contract Status – Preparing materials for imposition of FPOA contract. Date for meeting with AFSCME 1600 is April 17. Drafting initial contracts for IAFF, other FPOA contracts and 1799 (to be pattered after FPOA and 1600) is underway. Meeting date with AFSCME 1799 is being finalized.

e) MDOT waiver – Spiral Weld Project: MDOT has granted waiver and assigned project to MDOT Davison Office for FY15. Flint will not be construction agent.

f) DEQ SAW Grant: could there be a policy to allow distressed communities to skip the lottery? The City of Flint applied for a $2 million SAW Grant to develop a GIS based sewer Asset Management Plan (AMP) and work tracking system. The proposal also included an Asset Management Plan for the Wastewater Treatment Plant. The Plant's NPDES permit renewal will require this in the upcoming fiscal year. That AMP is estimated to cost $300,000, which will now have to be funded internally.

4) City Council Update

a) Schedule for Council review of two year budget established upon receipt of proposed budget on April 30. Council, working through its Finance Committee will meet between May 5 and May 17 to review budget. Council plans to hold public hearing on May 18 and to provide comments and recommendations to EM by May 28.

b) Council held a Special Meeting on April 7 to take up the 7 Point Transition Management Plan which was postponed from the March 24 meeting. Plan was adopted on a 5-4 vote.

c) The Public Works Committee met on Thursday April 10 to listen to a presentation on the Water and Sewer Rate Study results. Study recommends a rate increase and substantiates City's decision to go with KWA. Only council members were allowed to ask questions. A public question and answer session will be held on Thursday April 17. Considerable public opposition is brewing to any rate increase.

d) The next regular City Council meetings are scheduled for Wednesday, April 30; Monday, May 19; Monday June 16, 2014.

5) Blue Ribbon Committee

BRC held its seventh meeting on 4/10/14. The sub-committee has been formed to work out the details of public engagement sessions reported on plans to hold 3 charette style meetings which they would like to begin April 26. Following the public meetings the committee will finalize their recommendations.

6) Water Issues

a) Water Issues – DEQ construction permits were received last week for the Water Treatment Plant and Bray Rd. site. Easement issues with Consumers Energy have been resolved. A series of meetings, media activities and other forms of notification about water change over are being planned. Start date goal: April 17, 2014.

b) Negotiations with GCDC continue with regards to sale of the pipeline section. COF current proposal is for $3.9 million sale price, the value established in recent valuation. Valuation has been submitted and reviewed by Treasury. Submission to Treasury for approval is anticipated prior to ending relationship with DWSD. Also, COF is negotiating back-up service agreement for GCDC for period between DWSD termination and KWA start-up.

7) **Other items**

For Immediate Release

Emergency Manager Darnell Earley and City of Flint Department of Public Works Director Statements on Finalization of Water Treatment Plant Ahead of Flint River Use

Flint, Michigan – April 21, 2014 – The City of Flint's Emergency Manager Darnell Earley and Department of Public Works Director have released the following statements in regard to the final work to be completed at the Water Treatment Plant ahead of Flint River use.

"We are preparing to install the final two pumps required to maintain the necessary water pressure for chlorination; that work will be completed by mid-week. Once the necessary pumps are operational, water quality tests will continue to be performed to ensure the water passes both DEQ safety standards as well as our own stringent water quality standards." –Howard Croft, DPW Director

"After this final step has been completed, Flint will then be able to shut the intake from Detroit and begin using the river. We are still on track to be using the river this week as early as Thursday and remain enthusiastic about this historic event."
–Darnell Earley, City of Flint Emergency Manager

In the opinion of Miller, Canfield, Paddock and Stone, P.L.C., Bond Counsel, under existing law, assuming compliance with certain covenants by the Issuer, the interest on the Bonds is excludable from gross income for federal income tax purposes and the Bonds and the interest thereon are exempt from all taxation by the State of Michigan or by any taxing authority within the State of Michigan, except inheritance and estate taxes and taxes on gains realized from the sale, payment or other disposition thereof. See" TAX MATTERS" and "FORM OF APPROVING OPINION" herein for a description of certain provisions of the Internal Revenue Code of 1986, as amended (the "Code"), which may affect the tax treatment of interest on the Bonds for certain Bondholders.

KAREGNONDI WATER AUTHORITY
COUNTIES OF GENESEE, LAPEER AND SANILAC
STATE OF MICHIGAN

$220,500,000
WATER SUPPLY SYSTEM BONDS
(KAREGNONDI WATER PIPELINE), SERIES 2014A

Dated: Date of Delivery **Principal Due: November 1, as shown on Inside Cover Page**

The Water Supply System Bonds (Karegnondi Water Pipeline), Series 2014A (the "Bonds") are issued under the provisions of Act 233, Public Acts of Michigan, 1955, as amended, and a resolution adopted by the Board of Trustees of the Karegnondi Water Authority, Counties of Genesee, Lapeer and Sanilac, State of Michigan (the "Issuer") on November 20, 2013. The Bonds are being issued for the purpose of paying a portion of the cost of acquiring and constructing the Issuer's Water Supply System (the "System") to serve initially the City of Flint and the County of Genesee (individually a "Local Unit" and collectively, the "Local Units"), funding a debt service reserve account, paying capitalized interest and paying the costs of issuing the Bonds. The Bonds are to be issued in anticipation of, and are payable primarily as to principal and interest from, payments (the "Contractual Payments") to be made by the Local Units to the Issuer pursuant to a Contract among the Issuer and the Local Units dated as of August 1, 2013 (the "Contract"). The Contractual Payments will be in installments that will equal the principal and interest payments on the Bonds. Further, each Local Unit has pledged its limited tax full faith and credit for the payment of its Contractual Payments and is obligated, to the extent necessary, as a first budget obligation to levy ad valorem taxes on all taxable property within its boundaries for such purpose, subject to applicable constitutional, statutory and charter tax limitations. Each Local Unit is expected to make its Contractual Payments from revenues collected from charges imposed on the customers of its respective water supply system. The County of Genesee in the Contract has pledged to make all payments that the City of Flint fails to make to the Issuer under the Contract. The Issuer has irrevocably pledged the Contractual Payments for the payment of the principal of and interest on the Bonds.

The Bonds are issuable only as fully registered Bonds without coupons, and when issued, will be registered in the name of Cede & Co., as Bondholder and nominee for The Depository Trust Company ("DTC"), New York, New York. DTC will act as securities depository for the Bonds. Purchases of beneficial interests in the Bonds will be made in book-entry only form, in the denominations of $5,000 or any integral multiple thereof. Purchasers will not receive certificates representing their beneficial interest in Bonds purchased. So long as Cede & Co. is the Bondholder, as nominee of DTC, references herein to the Bondholders or registered owners shall mean Cede & Co., as aforesaid, and shall not mean the Beneficial Owners of the Bonds. See *BOOK-ENTRY ONLY SYSTEM* herein.

Interest on the Bonds will be payable semiannually on May 1 and November 1 of each year commencing on November 1, 2014. The Bonds will be registered Bonds, of the denomination of $5,000 or multiples thereof not exceeding for each maturity the principal amount of such maturity. The principal and interest shall be payable at the corporate trust office of The Huntington National Bank, Grand Rapids, Michigan or such other transfer agent as the Issuer may hereafter designate by notice mailed to the registered owner not less than sixty (60) days prior to any change in interest payment date (the "Transfer Agent"). Interest shall be paid when due by check mailed to the registered owner as shown by the registration books as of the fifteenth day of the month preceding the payment date for each interest payment. Payment of principal and interest to Beneficial Owners shall be made as described in *BOOK-ENTRY ONLY SYSTEM* herein.

The Bonds are subject to redemption at par, as described herein.

The Bonds are offered when, as and if issued by the Issuer and subject to receipt of the approving opinion of Miller, Canfield, Paddock and Stone, P.L.C., Detroit, Michigan, Bond Counsel. Certain legal matters will be passed upon for the Underwriters by their counsel, Dickinson Wright PLLC, Troy and Lansing, Michigan. It is expected that delivery of the Bonds through DTC will be made in New York, New York on or about April 16, 2014.

RETIREMENT PLANS

The County maintains two distinct retirement plans for its employees. A defined benefit plan is available in accordance with the Genesee County Employees Retirement System Ordinance (the "*GCERS Plan*"). A defined contribution plan is available in accordance with the Genesee County Defined Contribution Pension Plan (the "*DC Plan*"). All County employees, except members of AFSCME Mobile Meals Drivers and AFSCME Seasonal Parks Employees, are participants in either the GCERS Plan or the DC Plan. Employees hired prior to the effective date of the DC plan to their respective employee group, which for most employees was July 1, 1996, were permitted to elect between the GCERS Plan and the DC Plan. Most employees hired between 1996 and 2006 had the option of selecting the GCERS Plan or the DC Plan. All employees hired after 2006 must select the DC Plan for retirement. For information regarding retirement plans, see APPENDIX B.

GCERS Plan - This is a contributory multi-employer defined benefit pension plan. County employees represented by the various bargaining units are required to contribute from 0.5% to 9.0% of all compensation, including overtime. The County provides contributions at actuarially determined rates. During 2013, employer contribution rates ranged from 16.87% to 53.48% of covered payroll. For the year ending December 31, 2012, contributions from the multi-employers totaled $14,398,417 and affected employees contributed $2,321,841 for an aggregate multi-employer/employee total of $16,720,258.

DC Plan - This is a contributory, single employer defined contribution plan with assets of $104,345,310 as of September 30, 2012. County employees are required to contribute between 3.0% and 7.0% of covered payroll. The County offers a defined contribution pension plan as an alternative to the defined benefit pension plan. The International City Managers Association (ICMA) Retirement Corporation administers the plan, and the County Board of Commissioners has authority over plan provisions and contribution requirements. All employees are eligible to participate in this plan, if not participating in the Defined Benefit Plan. The County is required to contribute 8 to 10% of eligible employees' annual covered payroll, and employees are required to contribute between 3% and 7% of covered payroll. Employees are vested after 5 years of service. During the year ended September 30, 2013, employer and employee contributions to the plan were $2,705,916 and $1,617,428, respectively.

Other Post-Retirement Benefits - The County performed an actuarial valuation of the other post-retirement benefits liability for the year ended September 30, 2012. At that time the actuarial accrued liability was determined to be $308,208,023 and the funding value assets was $43,313,587, resulting in an unfunded actuarial accrued liability of $264,894,436. The annual required contribution (ARC) as a percentage of payroll (based on 30-year amortization of the unfunded liability) was 50.15% or $18,549,049.

The County has been working to systematically increase contributions into the VEBA to eventually equal the ARC. Beginning in fiscal year 2002/2003, the County began contributing 3% of gross payroll into a fund designated for retiree health care. This was increased to 5% in the 2003/2004 fiscal year, to 10% in the 2006/2007 fiscal year, 20% in the 2007/2008 fiscal year, 22.5% in the 2008/2009 fiscal year, 20% in the 2009/2010 fiscal year, 24% in the 2010/2011 fiscal year and 24% in the 2011/2012 fiscal year. In 2004, the County created a VEBA trust to specifically designate the funds that had been contributed for retiree health care. Also, all collective bargaining agreements as well as the non-union personnel policies include a provision that requires all employees to make a contribution of 1% to 3% of pre-tax gross wages, which is paid to the VEBA as employer contributions for the funding of retiree health care benefits (OPEB). These contributions resulted in an OPEB obligation for the period ending September 30, 2013 in an amount of $29,409,706. The OPEB obligation is the cumulative difference between the ARC and the actual amount contributed.

DEBT STATEMENT(as of April 2, 2014 and including the Bonds described herein)

Each series of bonds marked "LT" is payable in the first instance from a specified source and is payable from the general funds of the County in the event of insufficiency of the specified source. The County is not authorized to levy taxes beyond constitutional and statutory tax rate limitations with respect to the bonds marked "LT".

DEBT HISTORY

The County has no record of default.

FUTURE FINANCING

The County has entered into a contract with the Karegnondi Water Authority and the City of Flint pursuant to which the Authority will issue an additional $80,000,000 of bonds over the next 3 to 15 months in anticipation of payments to be made by the County and the City of Flint to finance a raw water supply project to serve the County, the City of Flint and several other municipalities. The County will make a limited tax general obligation pledge of the County on 100% of these bonds. The County also anticipates issuance of approximately $60,000,000 of water revenue bonds with a limited tax general obligation pledge of the County to finance construction of a new water treatment plant and related facilities to treat water from the new raw water supply within the next 6 to 12 months. The County may issue an estimated $18,000,000 to $31,000,000 of water revenue refunding bonds with a limited tax general obligation pledge in the next 6 to 12 months to refund certain outstanding water revenue bond issues for debt service savings.

COMPENSATED ABSENCES

As of September 30, 2013, the County's governmental activities statement of net position included a liability for vacation and other employee compensated absences of $4,217,266.

SHORT TERM BORROWING

The County has in the years 1974 through 2013 issued short-term notes in order to establish the 100% Tax Payment Fund. Notes issued in each of the above years have been in a face amount which has been less than the actual, real property tax delinquency. The primary security for these notes is the collection of the delinquent taxes pledged to the payment of principal of and interest on the notes issued. The County has pledged its full faith and credit and limited taxing power to the payment of the principal and interest on notes issued since 1975. Notes in the amount of $39.9 million were issued by the County during the fiscal year ended September 30, 2013.

The County Landbank Authority has entered into a $3,000,000 line of credit with a bank and the County has pledged its limited tax full faith and credit on the line.

LEASE OBLIGATIONS

The County is party to numerous operating leases and aggregate rental expenses which were approximately $74,535 during the year ended September 30, 2013, exclusive of the amount paid to a related organization.

DEBT HISTORY

The City has no record of default.

FUTURE FINANCING

The City has entered into a contract with the Karegnondi Water Authority and the County of Genesee pursuant to which the Authority will issue an additional $80,000,000 of bonds over the next 3 to 15 months in anticipation of payments to be made by the County and the City to finance a raw water supply project to serve the County, the City and several other municipalities. The City will make a limited tax general obligation pledge of the City on approximately 30% of these bonds.

LEGAL DEBT MARGIN

Section 7-302 of the City Charter, adopted November 4, 1975, limits "net" debt to 7% of the assessed value of all real and personal property in the City, but does not define "net" debt. The following computation is based on previous practice and is consistent with the requirements of State of Michigan Public Act 279 of 1909.

2013 State Equalized Valuation - excluding IFT values		$795,172,400
Debt Limit - 10 % of State Equalized Valuation		$79,517,240
Amount of Direct Debt Outstanding	$215,003,242	
Less: Revenue Bonds and Exempt Authority Bonds	(198,428,242)	
Total Subject to Debt Limit		16,575,000
Additional Debt Which Could Be Legally Incurred		$62,942,240

KAREGNONDI WATER AUTHORITY

WATER SUPPLY SYSTEM BOND
(KAREGNONDI WATER PIPELINE), SERIES 2014A

Interest Rate	Maturity Date	Date of Original Issue	CUSIP
3.00%	November 1, 2017	April 16, 2014	48563UAA9

REGISTERED OWNER: Cede & Co.

PRINCIPAL AMOUNT: Two Million Dollars

KAREGNONDI WATER AUTHORITY, a public corporation of the State of Michigan (the "Issuer"), acknowledges to owe and for value received hereby promises to pay to the Registered Owner specified above, or registered assigns, the Principal Amount specified above, in lawful money of the United States of America on the Maturity Date specified above, unless prepaid prior thereto as hereinafter provided, with interest thereon from the Date of Original Issue specified above or such later date to which interest has been paid, until paid, at the Interest Rate per annum specified above, first payable on November 1, 2014, and semiannually thereafter. Principal of this bond is payable upon presentation and surrender thereof at the designated corporate trust office of The Huntington National Bank, Grand Rapids, Michigan, or such other transfer agent as the Issuer may hereafter designate by notice mailed to the registered owner not less than sixty (60) days prior to any interest payment date (the "Transfer Agent"). Interest on this bond is payable by check or draft mailed by the Transfer Agent to the person or entity who or which is as of the fifteenth (15th) day of the month preceding each interest payment date, the registered owner, at the registered address as shown on the registration books of the Issuer maintained by the Transfer Agent.

The bonds of this issue are payable solely from the proceeds of contractual payments ("the Contractual Payments") to be paid by the City of Flint in the County of Genesee, Michigan and the County of Genesee, Michigan (the "Local Units") to the Issuer pursuant to a certain contract dated as of August 1, 2013 (the "Contract"), among the Local Units and the Issuer, whereby the Issuer is to assist in the financing of the cost of acquiring and constructing water supply system improvements and appurtenances and attachments thereto in the Local Units, said system being designated as the Water Supply System (the "System"). By the provisions of the Contract and pursuant to the authorization provided by law, the Local Units have pledged their limited tax full faith and credit for the payment of their respective Contractual Payments, and the Local Units are obligated to pay such amounts from its general funds, including collections of ad valorem taxes on all taxable property within its boundaries, subject to applicable charter, statutory, and constitutional tax rate limitations. The bonds of this issue are further secured by funds held in the Debt Retirement Fund, including the Debt Service Reserve Account. The Issuer has irrevocably pledged to the payment of this series of bonds the Contractual Payments, which said Contractual Payments are established in the amount required to pay the principal of and interest on the bonds of this series when due.

This bond is one of a series of bonds of even Date of Original Issue aggregating the principal sum of $220,500,000, issued under and in pursuance of a resolution duly adopted by the Board of Trustees of the Issuer (the "Resolution") under and in full compliance with the Constitution and statutes of the State of Michigan, including specifically Act 233, Public Acts of Michigan, 1955, as amended, for the purpose of paying part of the cost of constructing the System.

The bonds maturing in the years 2017 to 2023, inclusive, shall not be subject to redemption prior to maturity. Bonds or $5,000 portions thereof maturing in the years 2024 to 2043, inclusive, shall be subject to redemption prior to maturity, at the option of the Issuer, in any order and by lot within a single maturity, on any date on or after November 1, 2023. Bonds called for redemption shall be redeemed at par and accrued interest to the date fixed for redemption.

Bonds of this issue maturing on November 1, 2040 and November 1, 2043 (the "Term Bonds"), are subject to mandatory redemption, in by lot, at par plus accrued interest to the date fixed for redemption without premium on November 1 of each of the years and in the principal amounts set forth in the following schedule:

Term Bonds Due November 1, 2040

Redemption Dates	Principal Amounts
November 1, 2036	$10,190,000
November 1, 2037	10,725,000
November 1, 2038	11,290,000
November 1, 2039	11,880,000
November 1, 2040 (maturity)	12,505,000

SPECIMEN

Term Bonds Due November 1, 2043

Redemption Dates	Principal Amounts
November 1, 2041	$13,160,000
November 1, 2042	13,820,000
November 1, 2043 (maturity)	14,510,000

The principal amount of the Term Bonds to be redeemed on the dates set forth above shall be reduced, in the order determined by the Issuer, by the principal amount of the Term Bonds of the same maturity which have been previously redeemed or called for redemption (other than as a result of a mandatory redemption) or purchased or acquired by the Issuer and delivered to the Transfer Agent for cancellation.

In case less than the full amount of an outstanding bond is called for redemption, the Transfer Agent upon presentation of the bond called in part for redemption shall register, authenticate and deliver to the registered owner a new bond in the principal amount of the portion of the original bond not called for redemption.

Notice of redemption shall be given to the registered owner of any bond to be redeemed by mailing of such notice not less than thirty (30) days prior to the date fixed for redemption to the registered owner at the address of the registered owner as shown on the registration books of the Issuer kept by the Transfer Agent. Bonds shall be called for redemption in multiples of $5,000 shall be treated as representing the number of bonds obtained by dividing the denominations of the bond by $5,000 and such bonds may be redeemed in part. The notice of redemption for bonds redeemed in part shall state that upon surrender of the bond to be redeemed, a new bond or bonds in the same aggregate principal amount equal to the registered owner thereof with the same interest rate and maturity. No further interest shall accrue on bonds called for redemption after the date fixed for redemption, whether presented for redemption or not, provided funds are on hand with the Transfer Agent to redeem the bond or portion thereof.

Any bond may be transferred by the person in whose name it is registered, in person or by the registered owner's duly authorized attorney or legal representative, upon surrender of the bond to the Transfer Agent for cancellation, together with a duly executed written instrument of transfer in a form approved by the Transfer Agent. Whenever any bond is surrendered for transfer, the Transfer Agent shall authenticate and deliver, a new bond or bonds, in like aggregate principal amount, interest rate and maturity. The Transfer Agent shall require the registered owner requesting the transfer to pay any tax or other governmental charge required to be paid with respect to the transfer. The Transfer Agent shall not be required to issue, register the transfer of or exchange any bond during a period beginning at the opening of business 15 days before the day of the mailing of a notice of redemption of bonds selected for redemption and ending at the close of business on the day of that mailing.

SPECIMEN

It is hereby certified and recited that all acts, conditions and things required to be done, exist and happen, precedent to and in the issuance of this bond and the series of bonds of which this is one, in order to make them valid and binding obligations of the Issuer, have been done, exist and have happened in regular and due form and time as provided by law, and that the total indebtedness of the Local Units does not exceed any applicable constitutional, statutory, or charter limitation.

This bond is not valid or obligatory for any purpose until the Transfer Agent's Certificate of Authentication on this bond has been executed by the Transfer Agent.

For a complete statement of the funds from which and the conditions under which this bond is payable and the general covenants and provisions pursuant to which this bond is issued, reference is made to the Contract and the Resolution.

IN WITNESS WHEREOF, the Issuer, by its Board of Trustees, has caused this bond to be signed in its name with the facsimile signature of its Chair and to be countersigned by the facsimile signature of its Secretary and a facsimile of its corporate seal to be hereunto imprinted, all as of the Date of Original Issue.

Karegnondi Water Authority
Counties of Genesee, Lapeer and Sanilac
State of Michigan

We have acted as bond counsel to the Karegnondi Water Authority, Counties of Genesee, Lapeer and Sanilac, State of Michigan (the "Issuer") in connection with the issuance by the Issuer of bonds in the aggregate principal sum of $220,500,000 designated Water Supply System Bonds (Karegnondi Water Pipeline), Series 2014A (the "Bonds"). In such capacity, we have examined such law and the transcript of proceedings relating to the issuance of the Bonds and such other proceedings, certifications and documents as we have deemed necessary to render this opinion.

The Bonds are in fully-registered form in the denomination of $5,000 each or multiples thereof, numbered in order of registration, bearing original issue date of April 16, 2014, payable as to principal and interest as provided in the Bonds, subject to redemption prior to maturity in the manner, at the times and at the prices specified in the Bonds.

The Bonds are issued under the provisions of Act 233, Public Acts of Michigan, 1955, as amended, in anticipation of and are payable as to both principal and interest solely from the proceeds of certain specified contractual payments to be made to the Issuer by the County of Genesee ("Genesee") and the City of Flint, County of Genesee ("Flint," and together with Genesee, the "Local Units"), pursuant to a certain contract referred to in the Bonds (the "Contract"). The Issuer has pledged all of such contractual payments for the payment of the principal of and interest on the Bonds.

As to questions of fact material to our opinion, we have relied on the certified proceedings and other certifications of public officials and others furnished to us.

Based upon the foregoing, we are of the opinion that, under existing law:

1. The Bonds have been duly authorized and executed by the Issuer and are valid and binding obligations of the Issuer, payable as to both principal and interest solely from moneys to be paid under the Contract.

2. The Contract is a valid and binding obligation of the Issuer and the Local Units. The Local Units have each pledged their full faith and credit for the payment of such moneys to the Issuer as set out in the Contract. Genesee's obligations under the Contract to which Genesee has pledged its full faith and credit include the requirement to make all payments that Flint fails to make to the

Issuer under the Contract as described in Exhibit B of the Contract. The full faith and credit pledges of the Local Units are limited tax general obligations of the Local Units, and the Local Units are required to pay their commitments with respect to the Bonds as a first budget obligation from their general funds, including the collection of any ad valorem taxes which they are authorized to levy. However, the ability of the Local Units to levy such taxes is subject to applicable constitutional, statutory, and charter tax rate limitations.

3. The interest on the Bonds (a) is excludable from gross income for federal income tax purposes and (b) is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals and corporations. It should be noted, however, that with respect to corporations (as defined for federal income tax purposes), the interest is taken into account in determining adjusted current earnings for the purpose of computing the alternative minimum tax imposed on such corporations. Further, the Bonds and the interest thereon are exempt from all taxation by the State of Michigan or by any taxing authority within the State of Michigan except inheritance and estate taxes and taxes on gains realized from the sale, payment or other disposition thereof. The opinions set forth in this paragraph are subject to the condition that the Issuer and the Local Units comply with all requirements of the Internal Revenue Code of 1986, as amended, that must be satisfied subsequent to the issuance of the Bonds in order that interest thereon be (or continue to be) excludable from gross income for federal and Michigan income tax purposes. The Issuer and the Local Units have covenanted to comply with all such requirements. Failure to comply with certain of such requirements could cause the interest on the Bonds to be included in gross income retroactively to the date of issuance of the Bonds.

Except as stated in paragraph 3 above, we express no opinion regarding other federal or state tax consequences arising with respect to the Bonds and the interest thereon.

The rights or remedies of bondholders may be affected by bankruptcy, insolvency, fraudulent conveyance or other laws affecting creditors' rights generally, now existing or hereafter enacted, and by the application of general principles of equity, including those relating to equitable subordination.

This opinion is given as of the date hereof, and we assume no obligation to revise or supplement this opinion to reflect any facts or circumstances that may hereafter come to our attention, or any changes in law that may hereafter occur.

Very truly yours,

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

KAREGNONDI WATER AUTHORITY
ACTING IN LAPEER COUNTY, MICHIGAN

RESOLUTION NO. 2013-15

A RESOLUTION AUTHORIZING THE ISSUANCE OF NOT TO EXCEED $300,000,000 KAREGNONDI WATER AUTHORITY WATER SUPPLY SYSTEM BONDS (KAREGNONDI WATER PIPELINE)

At a meeting of the Karegnondi Water Authority Board, acting in Lapeer County, Michigan, held on November 20, 2013, at 2 p.m., local time.

PRESENT: Joshua Freeman, Larry Green, Richard E. Hammel, Ted Henry, Marilyn Hoffman, Steve Landaal, Sheldon Neeley, Thomas Svrcek, Tracey Tucker, Paula Zelenko, Joseph Suma, Dale Kerbyson, Greg Alexander

ABSENT: Dayne Walling, Jamie Curtis

The following preamble and resolution were offered by Josh Freeman and seconded by Larry Green;

RESOLUTION AUTHORIZING THE ISSUANCE OF NOT TO EXCEED $300,000,000 KAREGNONDI WATER AUTHORITY WATER SUPPLY SYSTEM BONDS (KAREGNONDI WATER PIPELINE)

WHEREAS, the Karegnondi Water Authority (the "Authority") has been incorporated under the provisions of Act 233, Public Acts of Michigan, 1955, as amended (the "Act"), for the purposes set forth in the Act; and

WHEREAS, the Authority and the City of Flint in the County of Genesee and the County of Genesee (collectively the "Local Units" and each a "Local Unit") have each approved and executed a Contract dated August 1, 2013 (the "Contract") for the acquisition, construction and installation of various water supply system improvements, together with all necessary appurtenances and attachments thereto, to serve the Local Units all as more fully described in the Contract (the "System"); and

WHEREAS, the Local Units have published a notice of intent to enter into the Contract, which provides that the Contract shall become effective upon the expiration of a forty-five day referendum period beginning on the date of publication thereof (the "Referendum Period"), provided that during such period no petition for a referendum is signed by at least ten percent of or 15,000, whichever is less, of the registered electors of either Local Unit and properly filed with the clerk of such Local Unit; and

WHEREAS, the Referendum Period has passed and no such petition has been filed with either Local Unit; and

WHEREAS, plans, specifications and estimates of cost for the System have been prepared by the Authority's consulting engineers, Wade Trim (the "Consulting Engineers"), and are hereby granted the approval of the Authority; and

WHEREAS, under the provisions of the Contract, the Local Units have obligated themselves to pay the cost of the System to be financed by the issuance of bonds of the Authority by paying the principal installments plus interest thereon, as specified in Section 9 of the Contract, and the Local Units have further obligated themselves to levy taxes annually to the extent necessary for the purpose of meeting said installments plus interest thereon, subject, however, to applicable constitutional, statutory and charter tax rate limitations, all as provided in Section 10 of the Contract; and

WHEREAS, the use of the System will be made available to the Local Units, and citizens thereof, in return for annual payments which will be applied to offset the payment obligations of the Authority; and

WHEREAS, the Authority now proposes to issue one or more series of its bonds, as authorized by Section 9 of the Act in anticipation of and secured solely by the contractual obligations of the Local Units to provide the necessary funds to pay the Local Units' share of the cost of acquiring and constructing the System, including capitalized interest therefor, and all things necessary to the authorization and issuance of the Authority's bonds under the Act having been done and the Authority being now empowered to issue, and desirous of authorizing the issuance of, the bonds.

THEREFORE, BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE AUTHORITY AS FOLLOWS:

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

Section 1. Definitions. Wherever used in this Resolution or in the Bonds to be issued hereunder, except where otherwise indicated by the context:

(a) "Authority" means the Karegnondi Water Authority.

(b) "Authorized Officer" means the Chief Executive Officer of the Authority or his designee.

(c) "Bonds" means any of the $300,000,000 Water Supply System Bonds (Karegnondi Water Pipeline), authorized by Section 4 hereof.

(d) "Contract" means the Contract, dated as of August 1, 2013 among the Authority and the Local Units which has been approved by the Local Units and which the Authority hereby approves and authorizes its Chair and Secretary to execute.

(e) "Contractual Payments" means the debt service installment payments required to be made by the Local Units to the Authority pursuant to the provisions of Section 9 of the Contract and pledged to the payment of the principal of and interest on the Bonds authorized by the provisions of this Resolution.

(f) "Debt Service Reserve Account" means the Debt Service Reserve Account within the Debt Retirement Fund all created pursuant to Section 9 of this Resolution.

(g) "Depository Bank" means the Michigan bank or trust company selected by the Board of Trustees of the Authority or the Authorized Officer, which is a member of the Federal Deposit Insurance Corporation.

(h) "Government Obligations" means (i) direct obligations of the United States of America (including obligations issued or held in book-entry form), (ii) obligations the timely payment of the principal of and interest on which are fully guaranteed by the United States of America, (iii) non-callable, non-prepayable obligations of agencies of the United States of America, including, without limitations, obligations of the Federal Home Loan Bank, Federal National Mortgage Association, Federal Home Loan Mortgage Corporation, Tennessee Valley Authority, Farm Credit System, Washington Metropolitan Area Transit Authority, United States Import-Export Bank, United States Department of Housing and Urban Development, Farmers Home Administration, General Services Administration and United States Maritime Administration, or any other agency or corporation which has been or is hereafter created pursuant to an act of Congress of the United States as an agency or instrumentality of the United States of America (provided the agencies listed in this clause (iii) retain ratings equivalent to or higher than the ratings held by direct obligations of the United States of America by Moody's Investors Service, Inc., by Standard & Poor's Ratings Services, a part of McGraw Hill Financial or Fitch Ratings, Inc., or any successor entities performing a similar function from which the State has requested a rating for the Bonds, as of the date the obligations are acquired); and (iv) certificates which evidence ownership of the right to payment of the principal of and interest on obligations described in clauses (i), (ii) and (iii) hereof; provided that such obligations are held in the custody of a bank or trust company satisfactory to the Authority in a special account separate from the general assets of the custodian; provided, however, Government Obligations shall not include any investment which is prohibited or not permitted by the Act or other applicable law.

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

(h) "Outstanding" means, when used in reference to the Bonds as of any given date, all Bonds which have been duly authenticated and delivered by the Transfer Agent under this Resolution except:

(a) Bonds which have been canceled by the Transfer Agent at or prior to such date or which have been delivered to the Transfer Agent at or prior to such date for cancellation;

(b) Bonds which have been defeased pursuant to Section 23 hereof.

(i) "Reserve Account Requirement" means the (i) lesser of (a) the maximum annual principal and interest requirements during any calendar on the Bonds then Outstanding, (b) ten percent (10%) of the initial face amount of the Bonds, less original issue discount, if any, or (c) one hundred twenty-five percent (125%) of the average annual principal and interest requirements during any calendar on the Bonds then Outstanding or (ii) such other amount as shall be set forth in the Sale Order for the initial series of Bonds.

(j) "System" means the Karegnondi Water Authority Water Supply System (Karegnondi Water Pipeline), consisting of the acquisition, construction and equipping of water supply system improvements to serve the Local Units, including site acquisition and development therefor, as more particularly described in the Contract, together with all necessary appurtenances and rights in land thereto, being defrayed from the proceeds of the Bonds.

(k) "Sale Order" means an order of an Authorized Officer awarding the sale of a series of Bonds and setting the terms of such series of Bonds.

(k) "Transfer Agent" means a bank or trust company qualified and approved by the Authorized Officer of the Authority to serve as transfer agent for the Bonds.

Section 2. Plans and Specifications; Necessity. The plans, specifications and cost estimates for the System as prepared by the Consulting Engineers are hereby accepted and approved, and it is hereby determined to be advisable and necessary for the public health of citizens of the Local Units to complete the acquisition, construction, and completion of the System as provided in said plans and specifications.

Section 3. Estimated Cost; Useful Life of System. The total estimated cost of acquiring and constructing the System, including payment of incidental expenses as specified in Section 4 of this Resolution, in the amount of approximately $300,000,000 and the Local Units' share thereof (100%) is hereby approved and confirmed. The cost of the System shall be defrayed from Bonds to be issued by the Authority under the Contract in an amount not to exceed $300,000,000, in one or more series. The estimated period of usefulness of the System is determined to be not less than thirty (30) years.

Section 4. Authorization of Bonds. For the purpose of defraying the Local Units' share of the cost of the System, including payment of engineering, legal and financing expenses, including a bond discount and capitalized interest, and other expenses incident thereto and incident to the issuance of the Bonds, there shall be borrowed the sum of not to exceed $300,000,000, in one or more series, and in evidence thereof Bonds of the Authority shall be issued in an equivalent aggregate principal amount.

Section 5. Details of Bonds. The Bonds shall be designated KAREGNONDI WATER SUPPLY SYSTEM BONDS (KAREGNONDI WATER PIPELINE) (the "Bonds"), are authorized to be issued in

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

the aggregate principal sum of not to exceed Three Hundred Million Dollars ($300,000,000) with such changes to the designation of the Bonds as provided in the Sale Order, in one or more series, for the purpose of paying all or a portion of the cost of the System as provided in Section 4, and the costs incidental to the issuance, sale and delivery of the Bonds. Each series of Bonds shall consist of Bonds in fully-registered form of the denomination of $5,000, or multiples thereof not exceeding for each maturity the maximum principal amount of that maturity, numbered consecutively in order of registration. Each series of the Bonds will be dated as of the date of delivery (or such other date as provided in the Sale Order), be payable on such dates as provided in the Sale Order in the annual amounts determined at the time of sale of each series of Bonds as provided in the Sale Order with a final payment not later than 30 years from the date of issuance. Each series of the Bonds shall subject to redemption prior to maturity, or subject to mandatory redemption, as shall be determined at the time of sale as provided in the Sale Order.

The Bonds shall bear interest at a rate or rates to be determined at the time of sale as provided in the Sale Order, but in any event not exceeding 10% per annum, payable as determined at the time of sale for each series of the Bonds, and semiannually thereafter, by check drawn on the Transfer Agent, mailed to the registered owner at the registered address, as shown on the registration books of the Authority maintained by the Transfer Agent. Interest shall be payable to the registered owner of record as of the fifteenth day of the month prior to the payment date for each interest payment. The date of determination of registered owner for purposes of payment of interest as provided in this paragraph may be changed by the Authority to conform to market practice in the future. The principal of the Bonds shall be payable upon presentation and surrender of the appropriate Bond at the office of the Transfer Agent.

Section 6. Execution and Delivery of Bonds; Transfer Agent Duties. The Bonds shall be signed with the facsimile signature of the Chair of the Authority and countersigned by the facsimile signature of the Secretary of the Authority. The Bonds shall have the corporate seal, or a facsimile thereof, of the Authority impressed or imprinted thereon. No Bond of any series shall be valid until authenticated by an authorized officer of the Transfer Agent. Executed blank bonds for registration and issuance to transferees shall simultaneously, and from time to time thereafter as necessary, be delivered to the Transfer Agent for safekeeping.

Any Bond may be transferred upon the books required to be kept pursuant to this section by the person in whose name it is registered, in person or by his duly authorized attorney, upon surrender of the Bond for cancellation, accompanied by delivery of a duly executed written instrument of transfer in a form approved by the Transfer Agent. Whenever any Bond or Bonds shall be surrendered for transfer, the Authority shall execute and the Transfer Agent shall authenticate and deliver a new Bond or Bonds, of the same series and aggregate principal amount and maturity date and bearing the same rate of interest as the surrendered Bond or Bonds. The Transfer Agent shall require the payment by the bondholder requesting the transfer of any tax or other governmental charge required to be paid with respect to the transfer.

The Transfer Agent shall keep or cause to be kept, at its principal office, sufficient books for the registration and transfer of the Bonds, which shall at all times be open to inspection by the Authority. Upon presentation for such purpose, the Transfer Agent shall, under such reasonable regulations as it may prescribe, transfer or cause to be transferred, on said books, Bonds as hereinbefore provided.

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

The Authorized Officer is hereby authorized to execute an agreement with the Transfer Agent regarding the duties and responsibilities of the Transfer Agent.

Section 7. Source of Payment; Pledge; Remedies. The Bonds and the interest thereon shall be payable solely from the Contractual Payments received by the Authority and from any funds held in the Debt Retirement Fund, for the payment of which the Local Units have, in the Contract, pledged their limited tax full faith and credit pursuant to the provisions of the Act, in the amounts set forth in the Contract. Each Local Unit has covenanted and agreed to provide annually general or special funds in amounts sufficient to meet when due its Contractual Payments in anticipation of which the Bonds, including the replenishment of the Debt Service Reserve Account as set forth in Section 9 hereof, are issued, or, if necessary, to levy ad valorem taxes on all taxable property within its boundaries for such purpose, subject to applicable constitutional, statutory, and charter tax rate limitations. All of such Contractual Payments are hereby irrevocably pledged solely and only for the payment of principal of and interest on the Bonds. The holder or holders of the Bonds, representing in the aggregate not less than twenty percent (20%) of the entire issue then Outstanding, may, by suit, action or other proceedings, protect and enforce the aforesaid pledge and enforce and compel the performance of all duties of the officials of the Authority, including, but not limited to, compelling the Local Units, by proceedings in a court of competent jurisdiction or other appropriate forum, to make the Contractual Payments, appropriate general funds, and levy and collect appropriate taxes as herein authorized and as may be required under the Contract to be so appropriated, certified, levied and collected by the Local Units for the Contractual Payments.

Section 8. Custody of Funds. The Treasurer of the Authority shall be custodian of all funds of the Authority belonging to or associated with the System, and such funds shall be deposited in the Depository Bank.

Section 9. Establishment of the Debt Retirement Fund.

(a) The Authority shall, after the adoption of this Resolution and the delivery of the initial series of Bonds herein authorized, open a special depository account with the Depository Bank to be designated DEBT RETIREMENT FUND – KAREGNONDI WATER AUTHORITY WATER SUPPLY SYSTEM (KAREGNONDI WATER PIPELINE) (the "Debt Retirement Fund"), pursuant to which there shall be deposited all Contractual Payments as received. The moneys from time to time on hand in the Debt Retirement Fund shall be used solely and only for the payment of the principal of and interest on all series of Bonds issued pursuant to this Resolution.

(b) Within the Debt Retirement Fund, the Authority shall establish a Debt Service Reserve Account. From the proceeds of each series of Bonds or other legally available funds, the Authority shall deposit an amount equal to the Reserve Account Requirement. There shall be credited to the Debt Service Reserve Account beginning on the 1st day of the month following any month in which the amount in the Debt Service Reserve Account shall be less than an amount equal to the Reserve Account Requirement as a result of the failure of a Local Unit to pay its Contractual Payments, and continuing on the 1st day of each month thereafter, an amount equal to one-thirty-sixth (1/36) of any deficit therein, until the amount on deposit is equal to the Reserve Account Requirement; however, if the amount on deposit in the Debt Service Reserve Account is less than 100% of the Reserve Account Requirement as a result of investment losses with respect to the Debt Service Reserve Account, commencing on the 1st day of the month

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

following such evaluation, and continuing on the first day of each month thereafter, an amount equal to one-fourth (1/4) of the amount necessary to restore the Debt Service Reserve Account to 100% of the Reserve Account Requirement, unless and until the amount on deposit in the Debt Service Reserve Account shall equal 100% of the Reserve Account Requirement. Further, if a Local Unit fails to pay its Contractual Payment causing a shortfall and the Debt Service Reserve Account is drawn upon to pay the Bonds, the replenishment of such Debt Service Reserve Account shall be an obligation of the Local Unit that failed to pay such Contractual Payment, in the manner described above. Provided, however, if the City of Flint fails to fulfill its obligation to replenish the Debt Service Reserve Account, as with other payment obligations under the Contract, the County of Genesee has agreed in the Contract to make such payments. If there is a deficiency in the Debt Service Reserve Account as a result of investment losses, each Local Unit shall have an obligation to pay a pro-rata share of the Authority's monthly replenishment obligation with such pro-rata share being equal to the percentage set forth on Exhibit B of the Contract.

(c) Assets held for the credit of the Debt Service Reserve Account shall be used solely for the purpose of paying interest on the Bonds and maturing principal of the Bonds, whether at the stated payment date or by the retirement of Bonds in satisfaction of the redemption requirements therefor, whenever and to the extent that the moneys held for the credit of the Debt Retirement Fund from Contractual Payments shall be insufficient for those purposes.

(d) Whenever there shall be held in the Debt Retirement Fund, including any funds in the Debt Service Reserve Account, a total amount sufficient for paying in full all Outstanding Bonds, including the principal of and the interest on all Bonds and any redemption premium and any amounts needed to pay redemption expenses, such moneys shall be applied by the Transfer Agent to the payment, purchase or redemption of the Bonds and the payment of all expenses in connection with the payment, purchase or redemption. The Local Units shall receive a pro-rata credit for the amount of such balance against the Contractual Payment next due for any such funds so used.

Section 10. Operation and Maintenance. The operation, maintenance and administration of the System, and the acquisition and construction thereof, shall be under the overall jurisdiction and control of the Authority.

Section 11. Bond Form. The Bonds shall be in substantially the following form:

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

UNITED STATES OF AMERICA

STATE OF MICHIGAN
COUNTY OF GENESEE

KAREGNONDI WATER AUTHORITY
WATER SUPPLY SYSTEM BONDS
(KAREGNONDI WATER PIPELINE)
SERIES ____

Interest Rate	Maturity Date	Date of Original Issue	CUSIP
	April 1, ____	_____, 201_	

Registered Owner:

Principal Amount: Dollars

KAREGNONDI WATER AUTHORITY, a public corporation of the State of Michigan (the "Issuer"), for value received, hereby promises to pay to the Registered Owner specified above, or registered assigns, the Principal Amount specified above, in lawful money of the United States of America on the Maturity Date specified above, unless prepaid prior thereto as hereinafter provided, with interest thereon from the Date of Original Issue specified above or such later date to which interest has been paid, until paid, at the Interest Rate per annum specified above, first payable on _____ 1, 201_, and semiannually thereafter. Principal of this bond is payable upon presentation and surrender thereof at the principal corporate trust office of _____, _____, Michigan, or such other transfer agent as the Issuer may hereafter designate by notice mailed to the registered owner not less than sixty (60) days prior to any interest payment date (the "Transfer Agent"). Interest on this bond is payable by check or draft mailed by the Transfer Agent to the person or entity who is as of the fifteenth (15th) day of the month prior to each interest payment date, the registered owner, at the registered address as shown on the registration books of the Issuer maintained by the Transfer Agent.

The bonds of this issue are payable solely from the proceeds of contractual payments ("the Contractual Payments") to be paid by the City of Flint in the County of Genesee, Michigan and the County of Genesee, Michigan (the "Local Units") to the Issuer pursuant to a certain contract dated as of August 1, 2013 (the "Contract"), among the Local Units and the Issuer, whereby the Issuer is to assist in the financing of the cost of acquiring and constructing water supply system improvements and appurtenances and attachments thereto in the Local Units, said system being designated as Karegnondi Water Authority Water Supply System (Karegnondi Water Pipeline) (the "System"). By the provisions of the Contract and pursuant to the authorization provided by law, the Local Units have pledged their limited tax full faith and credit for the payment of their respective Contractual Payments, and the Local Units are obligated to pay such amounts from its general funds, including collections of ad valorem taxes on all taxable property within its boundaries, subject to applicable charter, statutory, and constitutional tax rate limitations. The bonds of this issue are further secured by funds held in the Debt Retirement Fund, including the Debt Service Reserve Account. The Issuer has irrevocably pledged to the payment of this series of bonds the Contractual Payments, which said Contractual Payments are established in the amount required to pay the principal of and interest on the bonds of this series when due.

This bond is one of a series of bonds aggregating the principal sum of $_____, issued under and in pursuance of a resolution duly adopted by the Board of Trustees of the Issuer (the "Resolution") under and in full compliance with the Constitution and statutes of the State of Michigan, including specifically Act 233, Public Acts of Michigan, 1955, as amended, for the purpose of paying part of the cost of constructing the System.

[Insert term bond provisions, if applicable]

[Bonds maturing in the years ____ to ____, inclusive, shall not be subject to redemption prior to maturity.]

[Bonds or $5,000 portions thereof maturing in the years ____ to ____, inclusive, shall be subject to redemption prior to maturity, at the option of the Authority, in any order and by lot within a single maturity, on any date on or after April 1,

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

2022. Bonds called for redemption shall be redeemed at par and accrued interest to the date fixed for redemption.]

Notice of redemption shall be given to the registered owner of any bond to be redeemed by mailing of such notice not less than thirty (30) days prior to the date fixed for redemption to the registered owner at the address of the registered owner as shown on the registration books of the Authority kept by the Transfer Agent. Bonds shall be called for redemption in multiples of $5,000 shall be treated as representing the number of bonds obtained by dividing the denominations of the bond by $5,000 and such bonds may be redeemed in part. The notice of redemption for bonds redeemed in part shall state that upon surrender of the bond to be redeemed, a new bond or bonds in the same aggregate principal amount equal to the registered owner thereof with the same interest rate and maturity. No further interest shall accrue on bonds called for redemption after the date fixed for redemption, whether presented for redemption or not, provided funds are on hand with the Transfer Agent to redeem the bond or portion thereof.

Any bond may be transferred by the person in whose name it is registered, in person or by the registered owner's duly authorized attorney or legal representative, upon surrender of the bond to the Transfer Agent for cancellation, together with a duly executed written instrument of transfer in a form approved by the Transfer Agent. Whenever any bond is surrendered for transfer, the Transfer Agent shall authenticate and deliver, a new bond or bonds, in like aggregate principal amount, interest rate and maturity. The Transfer Agent shall require the registered owner requesting the transfer to pay any tax or other governmental charge required to be paid with respect to the transfer. The Transfer Agent shall not be required to issue, register the transfer of or exchange any bond during a period beginning at the opening of business 15 days before the day of the mailing of a notice of redemption of bonds selected for redemption and ending at the close of business on the day of that mailing.

It is hereby certified and recited that all acts, conditions and things required to be done, exist and happen, precedent to and in the issuance of said bonds, in order to make them valid and binding obligations of said Authority, have been done, exist and have happened in regular and due form and time as provided by law, and that the total indebtedness of said Local Units does not exceed any applicable constitutional, statutory, or charter limitation.

This bond is not valid or obligatory for any purpose until the Transfer Agent's Certificate of Authentication on this bond has been executed by the Transfer Agent.

For a complete statement of the funds from which and the conditions under which this bond is payable and the general covenants and provisions pursuant to which this bond is issued, reference is made to the Contract and the Resolution.

IN WITNESS WHEREOF, KAREGNONDI WATER AUTHORITY, by its Board of Trustees, has caused this bond to be signed in the name of said Authority by the facsimile signature of its Chair and to be countersigned by the facsimile signature of its Secretary and a facsimile of its corporate seal to be hereunto imprinted, all as of the Date of Original Issue.

Section 12. Additional Bonds. Nothing contained in this Resolution or in the Contract shall be construed to prevent the Authority from issuing additional bonds under the provisions of the Act for the purpose of the paying additional costs of the System or improvements thereto, subject to the requirements of the Act and other applicable law.

Section 13. Construction Fund. The proceeds of sale of the Bonds, other than proceeds for accrued interest and capitalized interest described below, shall be deposited in a special depository account in the Depository Bank designated "KAREGNONDI WATER AUTHORITY WATER SUPPLY SYSTEM (KAREGNONDI WATER PIPELINE) CONSTRUCTION FUND" (the "Construction Fund"). Proceeds of the Bonds representing any accrued interest paid at the time of delivery of the Bonds and any funds to be used for capitalized interest as determined at the time of sale of any series of Bonds shall be deposited into the Debt Retirement Fund established under the provisions of Section 9 of this Resolution. The moneys in the Construction Fund shall be used solely and only to pay costs of the System authorized in this Resolution and any engineering, legal, bond insurance, financing or other expenses incidental thereto on authorization of the Authority, in accordance with the provisions of the Contract. Any unexpended balance remaining in the Construction Fund after completion of the System may be used for the improvement or enlargement of the System or for other projects of the Authority undertaken on behalf of the Local Units, if such use be approved by the Local Units. Any balance remaining after such use, if any, shall be paid into the Debt Retirement Fund, and the Local Units shall receive a credit for the amount of such balance against the Contractual Payment next due.

Section 14. Investment of Funds. Moneys in any funds and accounts of the Authority may be invested by the Authority in United States government obligations, the principal of and interest on which are guaranteed by the United States government, or in interest-bearing time deposits, as shall from time to time be determined by the Authority. In the event such investments are made, the securities representing the same shall be kept on deposit with the depository or depositories of the fund or funds from which such investments are made and such securities and the income therefrom shall become part of the fund from which such investments are made.

Section 15. Resolution and Contract. The provisions of this Resolution, together with the Contract, shall constitute a contract between the Authority and the holder or holders from time to time of the Bonds, and after the issuance of the Bonds, no change, variation or alteration of the provisions of this Resolution and the Contract may be made which would materially lessen the security for the Bonds.

Section 16. Covenants with Bondholders. The Authority covenants and agrees with the successive holders of the Bonds, so long as any of the Bonds remain Outstanding and unpaid as to either principal or interest, as follows:

(a) The Authority will punctually perform all of its obligations and duties under this Resolution and the Contract, including the collection, segregation and application of the Contractual Payments in the manner required by the provisions of this resolution.

(b) The Authority will apply and use the proceeds of sale of the Bonds for the purposes and in the manner required by the Contract and this Resolution.

(c) The Authority will maintain and keep proper books of record and account relative to the application of funds for the construction of the System and the Contractual Payments

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

received pursuant to the Contract. Not later than six (6) months after the end of each fiscal year, the Authority shall cause to be prepared a statement in reasonable detail, sworn to by its chief accounting officer, showing the application of the proceeds of sale of the Bonds, the cash receipts from the Contractual Payments during such year and the application thereof, and such other information as may be necessary to enable any taxpayer or any holder or owner of the Bonds, or anyone acting in their behalf, to be fully informed as to all matters pertaining to the construction of the System and application of funds therefor or for the payment of the Bonds during such year. A certified copy of said statement shall be filed with the Clerks of the Local Units and a copy shall also be sent to the holder or owner of the Bonds requesting the same. The Authority shall also cause an annual audit of the books of record and account for the preceding operating year to be made by a recognized independent certified public accountant and shall mail such audit to the holder or owner of the Bonds requesting the same. The aforesaid audit may be submitted to such holder or owner of the Bonds in place of the aforesaid statement.

Section 17. Tax Covenant. The Authority shall, to the extent permitted by law, take all actions within its control necessary to maintain the exclusion of the interest on the Bonds from gross income for federal income tax purposes under the Internal Revenue Code of 1986, as amended (the "Code"), including, but not limited to, actions relating to any required rebate of arbitrage earnings and the expenditure and investment of Bond proceeds and moneys deemed to be Bond proceeds.

Section 18. Negotiated Sale. The Authority has considered the option of selling the Bonds through a competitive sale and a negotiated sale, and, pursuant to the requirements of Act 34, Public Acts of Michigan, 2001, as amended ("Act 34"), hereby determines that a negotiated sale of the Bonds will result in the most efficient and expeditious means of selling the Bonds, to allow better control over pricing of the Bonds and to achieve the most advantageous interest rates and cost to the Authority.

Section 19. Bond Purchase Agreement; Delegation to Authorized Officer; Sale Order. The Authorized Officer is hereby authorized to appoint one or more underwriters (the "Underwriter") and, subject to the parameters set forth in this Resolution, negotiate and execute a Bond Purchase Agreement, execute a Sale Order specifying the final terms of each series of Bonds and take all other necessary actions required to effectuate the sale, issuance and delivery of the Bonds within the parameters authorized in this Resolution.

Section 20. Adjustment of Bond Terms. The Authorized Officer is hereby authorized to adjust the final bond details as set forth herein to the extent necessary or convenient to complete the sale of a series of Bonds and in pursuance of the forgoing is each authorized to exercise the authority and make the determinations pursuant to Sections 315(1)(d) of Act 34, including but not limited to determinations regarding interest rates, prices, discounts, maturities, principal amounts, denominations, date of issuance, interest payment dates, redemption rights, designation as qualified tax-exempt obligations and other matters; provided, however, that the interest rate on any series of Bonds shall not exceed 10%, have a final maturity later than 30 years from the date of issuance of such series of Bonds, and aggregate principal amount of all series of Bonds issued pursuant to this Resolution shall not exceed $300,000,000.

Section 21. Other Actions. The Authorized Officer is hereby authorized and directed to cause the preparation and circulation of a preliminary and final Official Statement with respect to each series of Bonds; to procure a policy or policies of municipal bond insurance with respect to each series of Bonds or cause the qualification of the each series of Bonds therefor if, upon the advice of the

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

Authority's financial advisor for the Bonds, the acquisition of such insurance would be of economic benefit to the Authority; and to obtain ratings on the Bonds. The Authorized Officer is hereby authorized to complete, execute and file any and all applications or requests for waivers with the Michigan Department of Treasury necessary to effectuate the sale and delivery of any series of Bonds as contemplated by this Resolution, including, if necessary, an Application for State Treasurer's Approval to Issue Long-Term Securities, in such form as shall be approved by such officer. The Authorized Officer is further authorized to pay any necessary fees in connection with any such applications or waivers.

The Authorized Officer is hereby authorized and directed to execute and deliver all other documents and certificates and to take all other actions and to make such other filings with any parties necessary or advisable to enable the sale and delivery of the Bonds as contemplated herein, including the filing of a qualifying statement or application for prior approval to issue the Bonds in accordance with Act 34.

Section 22. Selection of Financial Advisor/Bond Counsel. Stauder, Barch & Associates, Inc. Associates, is hereby approved as the financial advisor to the Authority. Miller, Canfield, Paddock and Stone, P.L.C. is hereby approved as Bond Counsel to the Authority. The Authority acknowledges that Miller, Canfield, Paddock and Stone, P.L.C. currently represents, and has represented in the past, the County of Genesee, the County Agency of Genesee County, and the City of Flint in various matters, including representing the County of Genesee in its financing of the water intake system to be used by the Authority. Miller, Canfield, Paddock and Stone, P.L.C. also represents several underwriters and investment banks in unrelated matters, including J.P. Morgan Securities, LLC. The Authority hereby consents to such representation of the those entities by Miller, Canfield, Paddock and Stone, P.LC.

Section 23. Defeasance. If all the Bonds (i) shall have become due and payable in accordance with their terms, (ii) are to be paid at their maturity or maturities or (iii) to be redeemed prior to maturity shall have been duly called for redemption or irrevocable instructions to call the Bonds for redemption shall have been given to the Transfer Agent by the Authority, and the whole amount of the principal of and the interest and the premium, if any, so due and payable upon all of the Bonds then Outstanding shall be paid or sufficient cash, or cash and Government Obligations (as defined below), the principal of and interest on which without reinvestment, when due and payable, will provide sufficient moneys for such payment, shall be segregated and held by an escrow agent for the benefit of the owners of the Bonds, then this Resolution shall be defeased and terminated with respect to the Bonds and all obligations of the Authority hereunder with respect to the Bonds, shall thereupon cease except the bondholders shall still have the right to receive payment of the principal of, premium, if any, and interest on the Bonds from the cash or Government Obligations deposited in trust and the interest and gains thereon and to transfer and exchange Bonds as provided herein and the tax covenant contained in the section of this Resolution entitled "Tax Covenant," shall be continued in force until the Bonds have been fully paid. Any Government Obligations held pursuant to this section shall not be callable at the option of the issuer of such obligation, if such call could result in less than sufficient money being available for the purposes required hereby

Section 24. Cancellation. All Bonds surrendered to the Transfer Agent for payment upon redemption or maturity, or for transfer or exchange, shall be canceled by the Transfer Agent by perforation, and notice of such cancellation shall be given by the Transfer Agent to the Authority. Upon the direction of the Authority, all such canceled Bonds shall be destroyed, and a certificate of destruction

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

with respect thereto shall be delivered by the Transfer Agent to the Authority.

Section 25. Headings. Section headings are for convenience only and do not constitute a part of this resolution.

Section 26. Repealer. All resolutions and parts of resolutions insofar as they conflict with the provisions of this Resolution be and the same hereby are repealed.

KAREGNONDI WATER AUTHORITY
COUNTIES OF GENESEE, LAPEER AND SANILAC
STATE OF MICHIGAN

**ORDER APPROVING SALE OF
WATER SUPPLY SYSTEM BONDS
(KAREGNONDI WATER PIPELINE), SERIES 2014A**

WHEREAS, by resolution adopted on November 20, 2013 (the "Resolution"), the Karegnondi Water Authority, Counties of Genesee, Lapeer and Sanilac (the "Issuer") authorized the issuance of its Water Supply System Bonds (Karegnondi Water Pipeline), in one or more series, in the aggregate principal amount of not to exceed Three Hundred Million Dollars ($300,000,000) (the "System Bonds"), for the purpose of paying the costs of improvements to the Karegnondi Water System (the "System"), including, but not limited to acquiring, constructing and equipping of water supply system improvement to serve the City of Flint in the County of Genesee and the County of Genesee (collectively, the "Local Units" and each a "Local Unit"), including site acquisition and development therefor, together with all necessary appurtenances and rights in land thereto (collectively, the "Project"), and

WHEREAS, under the provisions of the Resolution, the Chief Executive Officer of the Authority is authorized to (a) negotiate the sale of the Bonds and approve and execute a Bond Purchase Agreement and Sale Order specifying the final terms of each series of the System Bonds within the authorized parameters of the Resolution; (b) approve the circulation of a preliminary and a final Official Statement describing the System Bonds; and (c) do all other acts and take all other necessary procedures required to effectuate the sale, issuance and delivery of the System Bonds within the parameters authorized in the Resolution; and

WHEREAS, the Issuer has received an offer to purchase the first series of the System Bonds from J.P. Morgan Securities LLC, as representative for the underwriters (the "Underwriters"), and the Issuer has determined that it is in the best interest of the Issuer to accept the offer; and

WHEREAS, the Issuer desires to sell the first series of the System Bonds to the Underwriters pursuant to a Bond Purchase Agreement (the "Bond Purchase Agreement"), between the Issuer and the Underwriters, dated the date of this sale order (the "Sale Order"), in the amount, at the prices, with the interest rates and other terms, specified in the Resolution and as provided by this Sale Order.

NOW THEREFORE, BE IT ORDERED BY THE ISSUER THAT:

1. Sale Order Made in Accordance with Resolution. This Sale Order authorizing the sale and delivery of the first series of the System Bonds and making determinations regarding certain terms of the first series of the System Bonds is hereby found to be made in accordance with the provisions of the Resolution.

2. Acceptance of Offer; Execution of Bond Purchase Agreement. The offer of the Underwriters presented to the Issuer to purchase the first series of the System Bonds in the principal amount and at a purchase price as shown on Exhibit A, attached hereto and made a part hereof, and as set forth in the Bond Purchase Agreement, dated as of date even herewith, between the Issuer and the Underwriters is hereby accepted and approved and the Chief Executive Officer is authorized and directed to execute and deliver the Bond Purchase Agreement on behalf of the Issuer.

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

3. Bond Details. The first series of the System Bonds shall be designated as "Water Supply System Bonds (Karegnondi Water Pipeline), Series 2014A" (the "Bonds"), be dated as of the date of delivery, shall mature, bear interest and be subject to redemption as shown on Exhibit A.

4. Transfer Agent. The Huntington National Bank, Grand Rapids, Michigan is hereby approved as the transfer agent with respect to the Bonds (the "Transfer Agent").

5. Use of Proceeds. Upon delivery of the Bonds, the Bond proceeds shall be used as provided in Exhibit A hereto.

6. Preliminary Official Statement. The Preliminary Official Statement relating to the Bonds, dated March 21, 2014, and its use by the Underwriters is hereby authorized, approved, ratified and confirmed.

7. Final Official Statement. The Final Official Statement relating to the Bonds, dated April 1, 2014, is hereby authorized and approved. The Chief Executive Officer is hereby authorized and directed to execute and deliver the Final Official Statement on behalf of the Issuer, and is further authorized to approve, execute and deliver any amendments and supplements to the Final Official Statement necessary to assure that the statements therein are, and as of the time the Bonds are delivered to the Underwriters will be, true, and that the Final Official Statement does not contain any untrue statement of a material fact and does not omit to state a material fact necessary in order to make the statements, in light of the circumstances under which they were made, not misleading and is further authorized and directed to execute and deliver any and all documents and certificates in connection with the closing of the Bonds.

8. Tax Covenant. The Issuer shall, to the extent permitted by law, take all actions within its control necessary to maintain the exclusion of the interest on the Bonds from gross income for federal income tax purposes under the Internal Revenue Code of 1986, as amended (the "Code"), including, but not limited to, actions relating to any required rebate of arbitrage earnings and the expenditure and investment of Bond proceeds and moneys deemed to be Bond proceeds, and to prevent the Bonds from being or becoming "private activity bonds" as that term is used in Section 141 of the Code.

9. Additional Covenants. The Issuer hereby covenants to provide electronic notice to each Local Unit within one day of any missed payment by either Local Unit under (i) the Karegnondi Water Authority Financing Contract dated as of August 1, 2013, among the Issuer, the City of Flint and the County of Genesee, (ii) the Water Purchase Contract dated as of August 16, 2013, as amended, between the Genesee County Drain Commissioner, as County Agency, or (iii) the Raw Water Supply Contract dated as of June 28, 2013, as amended, between the City of Flint and the Issuer.

10. Additional Actions. The officers, agents and employees of the Issuer are authorized to take all other actions necessary and convenient to facilitate sale and delivery of the Bonds in accordance with law, this Sale Order and the Resolution, including executing such closing documents as may be required.

11. Rescission. All orders and all parts of orders insofar as they conflict with the provisions of this order be and the same hereby are rescinded.

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

12. Immediate Effect. This Sale Order shall be effective immediately.

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

Optional Redemption of Bonds

The Bonds maturing in the years 2017 to 2023, inclusive, shall not be subject to redemption prior to maturity. The Bonds, or portions of Bonds in multiples of $5,000, maturing in the year 2024 and thereafter shall be subject to redemption prior to maturity at the option of the Issuer, in such order of maturity as the Issuer shall determine and within a single maturity by lot, on any date on or after November 1, 2023 at par plus accrued interest to the date fixed for redemption.

Mandatory Redemption of Term Bonds

The Bonds maturing November 1 in the years 2040 and 2043 are term bonds (the "Term Bonds") subject to mandatory redemption, in part, by lot, on the redemption dates and in the principal amounts set forth below, and at a redemption price equal to the principal amount thereof, without premium, together with interest thereon to the redemption date.

Term Bonds Due November 1, 2040

Redemption Dates	Principal Amounts
November 1, 2036	$10,190,000
November 1, 2037	10,725,000
November 1, 2038	11,290,000
November 1, 2039	11,880,000
November 1, 2040 (maturity)	12,505,000

Term Bonds Due November 1, 2043

Redemption Dates	Principal Amounts
November 1, 2041	$13,160,000
November 1, 2042	13,820,000
November 1, 2043 (maturity)	14,510,000

When Term Bonds are purchased by the Issuer and delivered to the Transfer Agent for cancellation or are redeemed in a manner other than by mandatory redemption, the principal amount of Term Bonds affected shall be reduced by the principal amount of the Term Bonds so purchased or redeemed in the order determined by the Issuer.

Use of Bond Proceeds

The net proceeds of the Bonds shall be deposited as follows:

(i) $28,282,364.06 shall be deposited into the Debt Retirement Fund to be used to pay interest on the Bonds through November 1, 2016;

(ii) $15,237,437.50 shall be deposited into the Debt Retirement Fund for credit to the Debt Service Reserve Account; and

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

(iii) $187,849,367.59 shall be deposited in the Construction Fund created under the Resolution and used to pay a portion of the costs of the Project and the costs of issuance of the Bonds.

$220,500,000

WATER SUPPLY SYSTEM BONDS
(KAREGNONDI WATER PIPELINE), SERIES 2014A

BOND PURCHASE AGREEMENT

April 1, 2014

Karegnondi Water Authority
G-4610 Beecher Road
Flint, Michigan 48532

Attention: Jeffrey Wright, Chief Executive Officer

Ladies and Gentlemen:

J.P. Morgan Securities LLC, as representative (the "Representative") of the Underwriters specified on Exhibit F hereto (collectively, the "Underwriters") hereby offers to enter into this Bond Purchase Agreement ("Agreement") with the Karegnondi Water Authority, Counties of Genesee, Lapeer and Sanilac, Michigan (the "Issuer") for the purchase by the Underwriters of the Issuer's $220,500,000 Water Supply System Bonds (Karegnondi Water Pipeline), Series 2014A (the "Bonds"). This offer is made subject to written acceptance by the Issuer and the execution and delivery by the City of Flint ("Flint") and the County of Genesee ("Genesee") of the Letters of Representation attached hereto as Exhibit B and Exhibit C, respectively (individually a "Letter of Representation" and collectively, the "Letters of Representation"), on or before 9:00 P.M., New York City time, on the date hereof, and upon such acceptance and delivery of the Letters of Representation, this Agreement shall be in full force and effect in accordance with its terms and shall be binding upon the Issuer and the Underwriters.

The Bonds are issued under the provisions of Act 233, Public Acts of Michigan, 1955, as amended ("Act 233"), a resolution adopted by the Board of Trustees of the Issuer on November 20, 2013, authorizing the issuance of the Bonds (the "Resolution"), and an order executed on April 1, 2014 by the Chief Executive Officer of the Issuer, approving the sale of the Bonds (the "Sale Order"). The Bonds are being issued for the purpose of paying a portion of the cost of acquiring and constructing the Issuer's Water Supply System (the "System"), which will consist of approximately 63 miles of watermains and 2 related pump stations initially to serve Flint and Genesee, funding the Debt Service Reserve Account (as defined in the Resolution), paying capitalized interest on the Bonds and paying the costs of issuing the Bonds, all as more fully described in the Official Statement relating to the Bonds, dated April 1, 2014 (the "Official Statement").

The Bonds are to be issued in anticipation of, and are payable primarily as to principal of and interest from, payments (the "Contractual Payments") to be made by Flint and Genesee pursuant to a contract among the Issuer, Flint and Genesee dated as of August 1, 2013 (the "Contract"). The Contractual Payments will be in installments that will equal the principal and interest payments on the Bonds. Flint and Genesee each has pledged its limited tax full faith and credit for the payment of its Contractual Payments.

In addition, the Issuer has entered into two water purchase contracts, effective October 1, 2013: one with Flint to supply up to 18 million gallons per day ("mgd") (the "Flint Water Purchase Contract") and one with the Genesee County Drain Commissioner, as County Agency of Genesee under Act 342, Public Acts of Michigan, 1939, as amended (the "County Agency"), on behalf of Genesee, to supply up to 42 mgd (the "Genesee Water Purchase Contract" and together with the Flint Water Purchase Contract, the "Water Purchase Contracts"). The charges to be paid by Flint and the County Agency in the Water Purchase Contracts will consist of two distinct portions, an annual fixed or capital fee and an annual commodity or operations and maintenance fee, which charges are expected to be paid by Flint and the County Agency from the revenues of their respective water supply systems.

Capitalized terms used herein, unless otherwise defined, shall have the meanings given thereto in the Official Statement.

Section 1. Sale, Purchase Price and Termination. Upon the terms and conditions and upon the basis of the representations and agreements set forth herein, the Underwriters agree to purchase from the Issuer and the Issuer agrees to sell to the Underwriters all, but not less than all, of the Bonds at the purchase price set forth in Exhibit A attached hereto. The Bonds shall be issued in the principal amount, be dated, have the maturities, bear interest at the rates per annum, be sold with original issue premiums and discounts, if any, and be subject to redemption prior to maturity on the terms and in the manner set forth in Exhibit A attached hereto.

The Underwriters agree to make a bona fide public offering of the Bonds at the initial offering price or prices set forth in the Official Statement. The Underwriters reserve the right to change such initial offering price or prices of the Bonds as the Underwriters shall deem necessary in connection with the marketing of the Bonds and to offer and sell the Bonds to certain dealers (including dealers depositing the Bonds into investment trusts) and others at

prices lower than the initial offering price or prices set forth in the Official Statement. The Underwriters also reserve the right (i) to over-allot or effect transactions which stabilize or maintain the market price of the Bonds at a level above that which might otherwise prevail in the open market and (ii) to discontinue such stabilizing, if commenced, at any time.

If the Issuer is unable to satisfy the conditions to the obligations of the Underwriters contained in this Agreement, or if the obligations of the Underwriters are terminated for any reason permitted by this Agreement, this Agreement shall terminate and neither the Underwriters nor the Issuer shall be under any further obligation hereunder, except as provided in Section 8 hereof.

Section 2. Representations and Warranties of the Issuer. The Issuer represents and warrants to the Underwriters, as follows:

(a) The Issuer is duly created and validly existing under the constitution and laws of the State of Michigan (the "State") and has full legal right, power and authority under the constitution and laws of the State, including without limitation Act 233, to adopt the Resolution, to execute and deliver the Contract, the Sale Order and the Continuing Disclosure Undertaking of the Issuer in substantially the form attached as Appendix D to the Official Statement (the "Issuer Continuing Disclosure Undertaking"), to issue, sell and deliver the Bonds as provided herein, and to carry out and consummate the transactions contemplated by the Resolution, the Contract, this Agreement and the Official Statement.

(b) By all necessary official action of the Issuer prior to or concurrently with the acceptance hereof, the Issuer has duly authorized and approved (i) the distribution of the Preliminary Official Statement, dated March 21, 2014 relating to the Bonds (the "Preliminary Official Statement") and the execution, delivery and distribution of the Official Statement for use by the Underwriters in connection with the public offering of the Bonds, (ii) the issuance and sale of the Bonds upon the terms set forth herein and as contemplated by the Resolution, the Contract, the Sale Order and the Official Statement and (iii) the execution and delivery of, and the performance by the Issuer of the obligations on its part contained herein and in the Resolution, the Contract, the Sale Order and the Issuer Continuing Disclosure Undertaking.

(c) The Bonds will be issued in conformity with and entitled to the benefit and security of the Resolution and the Contract, including the limited tax full faith and credit pledge of Flint and Genesee in the Contract to their respective Contractual Payments.

(d) Each of this Agreement, the Contract and the Issuer Continuing Disclosure Undertaking constitutes a legal, valid and binding obligation of the Issuer enforceable in accordance with its terms; and the Bonds, when issued, authenticated and delivered in accordance with the Resolution and the Sale Order and sold to the Underwriters as provided herein, will be the legal, valid and binding obligations of the Issuer enforceable in accordance with their terms; in all cases subject to bankruptcy, insolvency, reorganization, moratorium and other similar laws and principles of equity relating to or affecting the enforcement of creditors' rights.

(e) The Issuer is not in breach of or default in any material respect any applicable constitutional provision, law or administrative regulation of the State or the United States or any applicable judgment or decree or any loan agreement, indenture, bond, note, resolution, agreement or other instrument to which the Issuer is a party or to which the Issuer is or any of its property or assets are otherwise subject, and no event has occurred and is continuing which constitutes or with the passage of time or the giving of notice, or both, would constitute a material default or event of default by the Issuer under any of the foregoing.

(f) The adoption, execution and delivery of the Bonds, the Resolution, the Sale Order, the Contract, this Agreement and the Issuer Continuing Disclosure Undertaking, and compliance with the provisions on the Issuer's part contained therein, will not conflict with or constitute a breach of or default under any constitutional provision, law, administrative regulation, judgment, decree, loan agreement, indenture, bond, note, resolution, agreement or other instrument to which the Issuer is a party or to which the Issuer or any of its property or assets are otherwise subject, and such adoption, execution, delivery or compliance will not result in the creation or imposition of any lien, charge or other security interest or encumbrance of any nature upon the Contractual Payments or the property or assets, if any, of the Issuer to be pledged to secure the Bonds or under the terms of any such law, regulation or instrument, except as provided by the Bonds, the Resolution, the Sale Order, the Contract, this Agreement and the Issuer Continuing Disclosure Undertaking.

(g) All authorizations, approvals, consents and orders of any governmental authority, legislative body, board, agency or commission having jurisdiction which are required for the due authorization of, which would constitute a condition precedent to, or the absence of which would materially adversely affect, the issuance of the Bonds or the due performance by the Issuer of its obligations under the Resolution, the Sale Order, the Contract, this Agreement, the Issuer Continuing Disclosure Undertaking and the Bonds have been duly obtained or will be obtained prior to the Closing (as hereinafter defined), except for such authorizations, approvals, consents and orders (if any) as may be required under the Blue Sky or securities laws of any jurisdiction in connection with the offering and sale of the Bonds.

(h) The Preliminary Official Statement as of its date did not, and the Official Statement as of its date does not and as of the Closing Date will not, contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading; provided that, the foregoing representation and warranty does not extend to information set forth under the heading "UNDERWRITING," in Appendix A, "COUNTY OF GENESEE – GENERAL FINANCIAL, ECONOMIC AND STATISTICAL INFORMATION," in Appendix B, "COUNTY OF GENESEE – AUDITED FINANCIAL STATEMENTS," in Appendix C, "CITY OF FLINT – GENERAL FINANCIAL, ECONOMIC AND STATISTICAL INFORMATION," in Appendix D, "CITY OF FLINT – AUDITED FINANCIAL STATEMENTS," and in Appendix G, "BOOK-ENTRY-ONLY SYSTEM."

(i) There is no action, suit, proceeding, inquiry or investigation, at law or in equity, before or by any court, agency, public board or body, pending or, to the knowledge of the Issuer, threatened against the Issuer: (i) affecting the existence of the Issuer or the titles of its officers to

their respective offices, (ii) seeking to prohibit, restrain or enjoin the issuance, sale or delivery of the Bonds or the pledge or collection of the Contractual Payments by the Issuer or the making of any other required deposits with respect to the Bonds, (iii) in any way contesting or affecting the validity or enforceability of, or the power or authority of the Issuer to issue, adopt or to enter into (as applicable), the Bonds, the Resolution, the Sale Order, the Contract, this Agreement or the Issuer Continuing Disclosure Undertaking, (iv) contesting in any way the completeness or accuracy of the Preliminary Official Statement or the Official Statement, or any amendment or supplement thereto, (v) except as disclosed in the Official Statement, wherein an unfavorable decision, ruling or finding would materially adversely affect the financial position or condition of the Issuer or would result in any material adverse change in the ability of the Issuer to pledge or apply the Contractual Payments to pay debt service on the Bonds, or (vi) contesting the status of the interest on the Bonds as excludable from gross income for federal income tax purposes or as exempt from any applicable state tax, in each case as described in the Official Statement.

(j) In accordance with Rule 15c2-12 of the Securities and Exchange Commission ("Rule 15c2-12), the Issuer will enter into the Issuer Continuing Disclosure Undertaking. The Issuer has not previously entered into any undertakings in a written continuing disclosure contract or agreement under Rule 15c2-12.

(k) The Resolution, the Sale Order, the Contract, the Issuer Continuing Disclosure Undertaking and the Bonds conform to the description thereof contained in the Official Statement.

Section 3. Preliminary Official Statement and Official Statement. Prior to the Issuer's acceptance hereof, the Issuer made available to the Underwriters copies of the Preliminary Official Statement, which the Issuer confirms it deemed final as of its date for purposes of and as provided in Rule 15c2-12, except for the omission of such information as is permitted to be omitted in accordance with paragraph (b)(1) of Rule 15c2-12. The Issuer ratifies and confirms its authorization of the distribution and use by the Underwriters prior to the date hereof of the Preliminary Official Statement in connection with the public offering and sale of the Bonds.

The Issuer shall deliver or cause to be delivered to the Underwriters promptly after its acceptance hereof and in any event, by a date no later than the earlier of the Closing Date or seven business days from the date this Agreement is accepted (i) two manually executed copies of the final Official Statement, and (ii) sufficient copies of the final printed Official Statement to comply with the requirements of Rule 15c2-12 and the rules of the Municipal Securities Rulemaking Board ("MSRB"). The Representative agrees to promptly submit the Official Statement to the MSRB in an electronic format as prescribed by the MSRB.

The Issuer agrees that the Official Statement may be used, in accordance with applicable law, by the Underwriters in connection with the offering of the Bonds. The Issuer agrees to cooperate with the Underwriters if the Underwriters decide to qualify the Bonds under the securities laws of any jurisdiction and furnish the Underwriters with copies of resolutions, applications, reports and other documents, certified as appropriate, as shall be necessary in the reasonable judgment of the Underwriters, to effect registration or confirmation of the exemption

from registration of the Bonds under such laws; provided, however, that the Issuer shall not be required, with respect to the offer or sale of the Bonds, to consent to suit or consent to service of process in any jurisdiction.

The Issuer represents to and agrees with the Underwriters that: (a) both at the time of acceptance hereof by the Issuer and at all times during the period from the date hereof to and including the date which is twenty-five (25) days following the End of the Underwriting Period for the Bonds, as determined in accordance with Section 7 hereof, the statements and information contained in the Official Statement, including the Appendices thereto, as the same may be supplemented or amended by the Issuer, are and will be true, correct and complete in all material respects and the Official Statement, including the Appendices thereto, but excluding the information contained under the heading "UNDERWRITING," in Appendix A, "COUNTY OF GENESEE – GENERAL FINANCIAL, ECONOMIC AND STATISTICAL INFORMATION," in Appendix B, "COUNTY OF GENESEE – AUDITED FINANCIAL STATEMENTS," in Appendix C, "CITY OF FLINT – GENERAL FINANCIAL, ECONOMIC AND STATISTICAL INFORMATION," in Appendix D, "CITY OF FLINT – AUDITED FINANCIAL STATEMENTS," and in Appendix G, "BOOK-ENTRY-ONLY SYSTEM," as the same may be supplemented or amended by the Issuer, and to the knowledge of the Issuer does not as of the date of acceptance hereof and will not at all times during the period from the date hereof to and including the date which is twenty-five (25) days following the End of the Underwriting Period for the Bonds, contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements and information therein, in light of the circumstances under which they were made, not misleading in any material respect; and (b) if the Official Statement is supplemented or amended pursuant to Section 7 hereof, at the time of each supplement or amendment thereto and at all times during the period from the date of such supplement or amendment to and including twenty-five (25) days following the End of the Underwriting Period for the Bonds, the Official Statement as so supplemented or amended will not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements contained therein, in the light of the circumstances under which they were made, not misleading.

Section 4. Closing; Delivery and Payment. The delivery of the Bonds by the Issuer and the payment for the Bonds by the Underwriters as provided herein is referred to as the "Closing." The Closing shall be held at 10:00 a.m. on April 16, 2014 or at such other time and date as shall be mutually agreeable to the parties hereto (the "Closing Date"). At the Closing, the Underwriters will accept delivery of the Bonds from the Issuer, and the Underwriters will make payment therefor as provided herein in Federal Funds immediately available to the Issuer upon tender of the Bonds to the Underwriters by the Issuer and delivery to the Underwriters of all of the Closing Documents (as defined in Section 5 hereof). Delivery of the Bonds shall be made at the offices of The Depository Trust Company ("DTC") or at the offices of The Huntington National Bank, Grand Rapids, Michigan, as custodian and agent for DTC. Delivery of the Closing Documents shall be made at the offices of Miller, Canfield, Paddock and Stone, P.L.C., in Detroit, Michigan, or at such other place as shall be mutually agreeable to the parties hereto. The Bonds shall be delivered in denominations equal to the principal amount of each maturity and registered in the name of CEDE & Co., as nominee of DTC. The Bonds shall be made

available at the office of DTC or at the office of The Huntington National Bank for checking, on or before 10:00 a.m. (New York City time) of the business day prior to the Closing.

It is anticipated that CUSIP identification numbers will be printed on the Bonds, but neither the failure to print such numbers on any Bond nor any error in the printing of such numbers shall constitute cause for a failure or refusal by the Underwriters to accept delivery of and pay for any of the Bonds, in accordance with the terms of this Agreement.

Section 5. Closing Conditions. The Underwriters have entered into this Agreement in reliance upon the representations, warranties and agreements of the Issuer contained herein and of Flint and Genesee contained in the Letters of Representation and upon the accuracy of the statements to be contained in the documents and instruments to be delivered at the Closing. Accordingly, the Underwriters' obligations under this Agreement to purchase, accept delivery of and pay for the Bonds are subject to the performance by the Issuer of its obligations required to be performed under this Agreement at or prior to the Closing, to the right of the Underwriters to terminate this Agreement as provided in Section 6 and to the additional conditions precedent set forth below.

(a) Both now and at the date of Closing, the Resolution, the Sale Order and the Contract shall have been duly adopted and executed by the Issuer and, in the case of the Contract, by Flint and Genesee, and shall be in full force and effect, and shall not have been amended, modified or supplemented, except as may have been agreed to in writing by the Representative, and there shall have been taken in connection therewith and in connection with the issuance of the Bonds all such actions, as in the opinion of Miller, Canfield, Paddock and Stone, P.L.C. ("Bond Counsel") and counsel for the Underwriters, shall be necessary or appropriate in connection with the transactions contemplated hereby, and at the date of Closing, the Issuer Continuing Disclosure Undertaking shall be in full force and effect.

(b) At or prior to the Closing, the Representative shall receive the following documents (the "Closing Documents"):

(i) the Resolution certified by the Deputy Clerk of the Issuer as having been duly adopted and the Order executed by the Chief Executive Officer of the Issuer on the date hereof; and

(ii) a fully executed counterpart of the Contract; and

(iii) fully executed counterparts of the Water Purchase Contracts;

(iv) a certificate, dated the Closing Date, signed by the Chief Executive Officer of the Issuer or other authorized representative of the Issuer satisfactory to the Representative and in form and substance satisfactory to the Representative, to the effect that (A) each of the representations of the Issuer set forth in this Agreement is true, accurate and complete on the Closing Date as if made on and as of the Closing Date, and (B) each of the covenants of the Issuer to be complied with and each of the obligations of the Issuer to be performed under this Agreement on or prior to the Closing Date has been complied with and

performed; and (C) except for the information under the heading "UNDERWRITING," in Appendix A, "COUNTY OF GENESEE – GENERAL FINANCIAL, ECONOMIC AND STATISTICAL INFORMATION," in Appendix B, "COUNTY OF GENESEE – AUDITED FINANCIAL STATEMENTS," in Appendix C, "CITY OF FLINT – GENERAL FINANCIAL, ECONOMIC AND STATISTICAL INFORMATION," in Appendix D, "CITY OF FLINT – AUDITED FINANCIAL STATEMENTS," and in Appendix G, "BOOK-ENTRY-ONLY SYSTEM," the Preliminary Official Statement, as of its date, did not include any untrue statement of material fact or omit to state any material fact necessary to make the statements made therein, in light of the circumstances under which they were made, not misleading, and the Official Statement, including any amendments or supplements thereto, did not, as of its date, and does not, as of the Closing Date, or will not as of the date of any such amendment or supplement, include any untrue statement of a material fact or omit to state any material fact necessary to make the statements made therein, in light of the circumstances under which they are or were made, not misleading;

(vi) a certificate, dated the Closing Date, signed by the Emergency Manager of Flint or other authorized representative of Flint satisfactory to the Representative and in form and substance satisfactory to the Representative, to the effect that (A) each of the representations of Flint set forth in the Flint Letter of Representation is true, accurate and complete on the Closing Date as if made on and as of the Closing Date, (B) each of the covenants of Flint to be complied with and each of the obligations of Flint to be performed under the Flint Letter of Representation on or prior to the Closing Date has been complied with and performed, and (C) the information in the Preliminary Official Statement relating to Flint, as of its date, did not include any untrue statement of material fact or omit to state any material fact necessary to make the statements made therein, in light of the circumstances under which they were made, not misleading, and the information in the Official Statement relating to Flint, including any amendments or supplements thereto, did not, as of its date, and does not, as of the Closing Date, or will not as of the date of any such amendment or supplement, include any untrue statement of a material fact or omit to state any material fact necessary to make the statements made therein, in light of the circumstances under which they are or were made, not misleading;

(vii) a certificate, dated the Closing Date, signed by the Controller of Genesee and the Genesee County Drain Commissioner, as County Agency, or other authorized representatives of Genesee satisfactory to the Representative and in form and substance satisfactory to the Representative, to the effect that (A) each of the representations of Genesee set forth in the Genesee Letter of Representation is true, accurate and complete on the Closing Date as if made on and as of the Closing Date, (B) each of the covenants of Genesee to be complied with and each of the obligations of Genesee to be performed under the Genesee Letter of Representation on or prior to the Closing Date has been complied with and performed, and (C) the information in the Preliminary Official Statement relating to Genesee and the County Agency, as of its date, did not include any untrue statement of material fact or omit to state any material fact necessary to make the statements made therein, in light of the circumstances under which they were made, not misleading, and the information in the Official Statement relating to Genesee and the County Agency, including any amendments or supplements thereto, did not, as of its date, and does not, as of the Closing Date, or will not as of the date of any such amendment or supplement, include any untrue statement of a material fact or omit to state any material fact

necessary to make the statements made therein, in light of the circumstances under which they are or were made, not misleading;

(viii) A certificate dated as of the Closing Date, signed by the Emergency Manager of Flint, to be satisfactory in form and substance to the Representative, to the effect that the financial statements of Flint included or incorporated by reference in Appendix D to the Official Statement fairly represent the financial position of Flint as of June 30, 2013, and there has been no material adverse change in the financial condition of Flint from June 30, 2013 to the Closing Date;

(ix) A certificate dated as of the Closing Date, signed by the Controller of Genesee, to be satisfactory in form and substance to the Representative, to the effect that the financial statements of Genesee included or incorporated by reference in Appendix B to the Official Statement fairly represent the financial position of Genesee as of September 30, 2013, and there has been no material adverse change in the financial condition of Genesee from September 30, 2013 to the Closing Date;

(x) A certificate dated as of the Closing Date, signed by the County Agency, to be satisfactory in form and substance to the Representative, to the effect that the financial statements of the Genesee County Drain Commissioner, Division of Water and Waste Services (the "Division") included or incorporated by reference in Appendix B to the Official Statement fairly represent the financial position of the Division as of December 31, 2012, and there has been no material adverse change in the financial condition of the Division from December 31, 2012 to the Closing Date;

(xi) the unqualified approving legal opinion of Bond Counsel, in substantially the form set forth as Appendix F to the Official Statement, and the supplemental opinion of Bond Counsel, in substantially the form set forth in Exhibit D hereto;

(xii) the opinion of counsel for the Underwriters, in substantially the form set forth in Exhibit E hereto;

(xiii) the opinion of counsel for the Issuer to the effect that the Water Purchase Contracts have been duly authorized, executed and delivered by the Issuer and are legal, valid and binding obligations of the Issuer enforceable against the Issuer in accordance with their respective terms, in form and substance satisfactory to Bond Counsel and counsel for the Underwriters;

(xiv) the opinion of counsel for Flint to the effect that the Flint Water Purchase Contract has been duly authorized, executed and delivered by Flint and is a legal, valid and binding obligation of Flint enforceable against Flint in accordance with its terms, in form and substance satisfactory to Bond Counsel and counsel for the Underwriters;

(xv) the opinion of counsel for County Agency to the effect that the Genesee Water Purchase Contract has been duly authorized, executed and delivered by the County Agency and is a legal, valid and binding obligation of the County Agency enforceable against the

County Agency in accordance with its terms, in form and substance satisfactory to Bond Counsel and counsel for the Underwriters;

(xvi) two (2) complete, true and correct, manually executed copies of the Official Statement;

(xvii) appropriate certifications, in form and substance satisfactory to Bond Counsel, pursuant to the requirements of Section 148 of the Internal Revenue Code of 1986, as amended;

(xviii) evidence satisfactory to the Underwriters that Moody's Investors Service and Standard & Poor's Corporation have assigned ratings for the Bonds of "A2" and "A+," respectively, and that, as of the Closing Date, such ratings have not been modified or withdrawn and are not under review;

(xix) Internal Revenue Service Form 8038-G executed by the Issuer;

(xx) an executed copy of this Agreement;

(xxi) the Blanket Issuer Letter of Representations between the Issuer and DTC;

(xxii) the Issuer Continuing Disclosure Undertaking executed by the Issuer;

(xxiii) the Continuing Disclosure Undertaking of Flint executed by Flint in substantially the form attached to the Official Statement as Appendix E (the "Flint Continuing Disclosure Undertaking");

(xxiv) the Continuing Disclosure Undertaking of Genesee executed by Genesee in substantially the form attached to the Official Statement as Appendix E (the "Genesee Continuing Disclosure Undertaking");

(xxv) evidence that the Michigan Department of Treasury has approved this issuance of the Bonds under Act 34, Public Acts of Michigan, 2001, as amended, effective as of the Closing Date;

(xxvi) a specimen for the Bonds; and

(xxvii) such additional certificates as the Representative may reasonably request from the Issuer to evidence performance of or compliance with the provisions hereof and the transactions contemplated hereby and by the Official Statement, all such certificates to be satisfactory in form and substance to the Representative.

If any of the conditions specified in this Section shall not have been fulfilled when and as required by this Agreement, or if any of the opinions, instruments, documents, proceedings or certificates mentioned above or elsewhere in this Agreement shall not be in all material respects reasonably satisfactory in form and substance to the Representative, this Agreement and all

obligations of the Underwriters hereunder may be canceled by the Representative, or at any time prior to, the Closing Date. Notice of such cancellation shall be given to the Issuer in writing, or by fax confirmed in writing.

Section 6. Termination by Underwriters. This Agreement may be terminated by the Underwriters upon written notification to the Issuer if any one or more of the following shall occur subsequent to the date hereof, but prior to the Closing Date:

(i) legislation shall be enacted, passed by either house of the United States Congress, or introduced in, or recommended for passage by the Chairman or ranking minority member of the United States Senate Committee on Finance or the United States House of Representatives Committee on Ways and Means, or favorably reported for passage by the United States Congress or the Michigan Legislature (including any committee or conference thereof), or a court decision shall be rendered, or a ruling, regulation, decision or official statement by or on behalf of a governmental agency or department having jurisdiction of the subject matter shall be made or proposed, with respect to federal or State taxation upon interest received on obligations the general character of the Bonds and which, in the opinion of the Representative, (A) would have the effect of making interest on the Bonds includable in gross income for federal or State income tax purposes, or (B) would call into question the federal income tax treatment of the interest on the Bonds the effect of which materially affects the marketability of the Bonds;

(ii) legislation shall be introduced in or enacted (or resolution passed) by the Congress or an order, decree or injunction shall be issued by any court of competent jurisdiction, or an order, ruling, regulation (final, temporary or proposed), press release or other form of notice shall be issued or made by or on behalf of the Securities and Exchange Commission, or any other governmental agency having jurisdiction of the subject matter, to the effect the obligations of the general character of the Bonds are not exempt from the registration under or other requirements of the Securities Act of 1933, as amended, or that the Resolution or the Sale Order are not exempt from qualification under or other requirements of the Trust Indenture Act of 1939, as amended, or that the issuance, offering or sale of obligations of the general character of the Bonds, as contemplated hereby or by the Official Statement or otherwise, is or would be in violation of the federal securities law as amended and then in effect;

(iii) a stop order, ruling or regulation by the Securities and Exchange Commission shall hereafter be issued or made, the reasonable effect of which is that the issuance, offering or sale of the Bonds, as contemplated herein or in the Official Statement, or of obligations of the general character of the Bonds, is in violation of any provisions of the Securities Act of 1933, as amended and as then in effect, the Trust Indenture Act of 1939, as amended and as then in effect, or any rule or regulation promulgated under any such acts;

(iv) any event shall occur or exist which, in the opinion of the Representative, either makes untrue or incorrect in a material respect any statement or information contained in the Official Statement or is not reflected in the Official Statement but should be reflected therein in order to make the statements or information contained therein not misleading in any material respect;

(v) between the date hereof and Closing (A) there shall be in force a general suspension of trading on the New York Stock Exchange or general minimum or maximum prices for trading on the New York Stock Exchange shall have been fixed and be in force, (B) additional material restrictions not in force as of the date hereof shall have been imposed upon trading in securities generally by any United States, New York or Michigan governmental authority or by any United States national securities exchange, (C) a general banking moratorium shall have been established by federal, State or New York authorities, or (D) a major financial crisis or a material disruption in commercial banking or securities settlement or clearance services shall have occurred, or (E) there shall have occurred any escalation or new outbreak of hostilities or other national or international calamity or crisis, the effect of any of which, in the reasonable judgment of the Representative, materially adversely affects the marketability of the Bonds; or

(vi) there shall have occurred any downgrading or published negative credit watch or similar published information from a rating agency that at the date of this Agreement has assigned an unenhanced rating to the Issuer or to any of the Issuer's debt obligations, which action (A) reflects a change, or possible change, in the unenhanced ratings assigned to the Issuer or any debt obligations of the Issuer (including any unenhanced rating assigned to the Bonds) and (B) in the reasonable judgment of the Representative, materially adversely affects the marketability of the Bonds.

Section 7. Amendments and Supplements to the Official Statement. The "End of the Underwriting Period" for the Bonds for all purposes under Rule 15c2-12 is the Closing Date. In the event the Representative requests from the Issuer an extension of the Underwriting Period because there exists an unsold balance of the Bonds, the End of the Underwriting Period shall be deemed extended for thirty days from the date of the written request. The deemed End of the Underwriting Period shall be extended for additional periods of thirty days each upon receipt of a written request to extend the period because there exists at the time an unsold balance of Bonds. During the period from the date hereof to and including a date which is twenty-five (25) days following the End of the Underwriting Period for the Bonds the Issuer will (a) not adopt any amendment of or supplement to the Official Statement to which, after having been furnished with a copy, the Representative shall reasonably object to in writing unless the Issuer has obtained the opinion of Bond Counsel, stating that such amendment or supplement is necessary in order to make the Official Statement not misleading in the light of the circumstances existing at the time that it is delivered to a purchaser of the Bonds and (b) if any event relating to or affecting the Issuer or the Bonds shall occur as a result of which it is necessary, in the opinion of counsel to the Underwriters, to amend or to supplement the Official Statement in order to make the Official Statement not misleading in the light of the circumstances existing at the time it is delivered to a purchaser of the Bonds, forthwith prepare and furnish to the Underwriters (at the expense of the Issuer) a reasonable number of copies of an amendment of or supplement to the Official Statement (in form and substance satisfactory to the Issuer and the Underwriters) which will amend or supplement the Official Statement so that such Official Statement, as amended or supplemented, will not contain an untrue statement of a material fact or omit to state a material fact necessary in order to make the statements therein, in the light of the circumstances existing at the time the Official Statement is delivered to a purchaser of the Bonds, not misleading. For

the purpose of this Section 7, the Issuer will furnish such information as the Underwriters may from time to time reasonably request.

Section 8. Expenses. All expenses and costs of the Issuer incidental to this financing, including but not limited to the fees and expenses of Bond Counsel, the Issuer's financial advisor, the Issuer's, Flint's and Genesee's auditors, and any other consultants or experts retained in connection with the issuance of the Bonds, municipal rating agencies fees and expenses, the cost of preparing, printing and circulating the Preliminary Official Statement and the Official Statement, the cost of printing the Bonds, the cost of printing the blue sky memoranda and legal investment survey, if any, and the expenses of physical delivery of the Bonds to the Underwriters, shall be paid by the Issuer. All out-of-pocket expenses of the Underwriters, including traveling, advertising and other expenses and the fees, expenses and disbursements of their counsel, shall be paid by the Underwriters.

Section 9. Notice. Any notice or other communication to be given to the Issuer shall be given by delivering the same in writing at the address set forth above and any notice or other communication to be given in writing to J.P. Morgan Securities LLC, 1450 Brickell Avenue, Floor 33, Miami, FL 33131, Attention: T.J. Whitehouse, Executive Director.

Section 10. Survival of Representations. This Agreement is made solely for the benefit of the parties hereto and no other person, including any holders of the Bonds, shall acquire or have any right hereunder or by virtue hereof. All representations, warranties, and agreements of the Issuer shall remain in full force and effect regardless of any investigation made by or on behalf of the Underwriters and shall survive the delivery of the Bonds.

Section 11. Representative. The Representative represents that it has been duly authorized by the Underwriters to execute this Agreement and has been duly authorized to act hereunder on behalf of the Underwriters with full authority to take such action as it may deem advisable in respect of all matters pertaining to this Agreement. Notwithstanding any provision herein to the contrary, the performance of any and all obligations of the Issuer hereunder and the performance of any and all conditions contained herein for the benefit of the Underwriters may be waived by the Representative in its sole discretion, and the approval of the Representative when required hereunder for the determination as to the satisfaction as to any document referred to herein shall be in writing, signed by an authorized representative of the Representative, and delivered to you.

Section 12. Role of Underwriters. The Issuer acknowledges and agrees that (i) the purchase and sale of the Bonds pursuant to this Agreement is an arm's-length commercial transaction between the Issuer and the Underwriters, (ii) in connection therewith and with the discussions, undertakings and procedures leading up to the consummation of such transaction, the Underwriters are and have been acting solely as principal and are not acting as a financial advisor of the Issuer, (iii) the Underwriters have not assumed a financial advisory responsibility in favor of the Issuer with respect to the offering contemplated hereby or the discussions, undertakings and procedures leading thereto (irrespective of whether the Underwriters have provided other services or are currently providing other services to the Issuer on other matters) and the Underwriters have no obligation to the Issuer with respect to the offering contemplated

hereby except the obligations expressly set forth in this Agreement; (iv) the Issuer has consulted its own legal, financial, tax and other advisors to the extent it has deemed appropriate; and (v) the Underwriters have financial and other interests that differ from those of the Issuer. For both subsections (ii) and (iii) herein, it is the Issuer's understanding that a financial advisory relationship shall not be deemed to exist when, in the course of acting as an underwriter, a broker, dealer or municipal securities dealer, advice is rendered to an issuer, including advice with respect to the structure, timing, terms and other similar matters concerning a new issue of municipal securities. The Underwriters hereby notify the Issuer that they are not acting as Municipal Advisors (as defined in Section 15B of the Securities Exchange Act of 1934, as amended), they are not agents of the Issuer, and they do not have a fiduciary duty to the Issuer in connection with the matters contemplated by this Agreement.

Section 13. Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of Michigan.

Section 14. Counterparts. This Agreement may be executed in several counterparts, each of which shall be regarded as an original and all of which shall constitute one and the same document.

2043	$41,490,000	5.000%	4.890%*

*Yield to the November 1, 2023 first call date

Mandatory Redemption of Term Bonds:

The Bonds maturing in the years 2040 and 2043 are term bonds (the "2040 Term Bonds" and the "2043 Term Bonds," respectively, and collectively, the "Term Bonds") that are subject to annual mandatory redemption on November 1 of the following years and in the following amounts, at par, plus accrued interest to the date of mandatory redemption:

2040 Term Bonds

Redemption Date	Principal Amount of 2040 Bonds to be Redeemed
November 1, 2036	$10,190,000
November 1, 2037	$10,725,000
November 1, 2038	$11,290,000
November 1, 2039	$11,880,000
November 1, 2040*	$12,505,000

*Final Maturity

2043 Term Bonds

Redemption Date	Principal Amount of 2043 Bonds to be Redeemed
November 1, 2041	$13,160,000
November 1, 2042	$13,820,000
November 1, 2043*	$14,510,000

*Final Maturity

When Term Bonds are purchased by the Issuer and delivered to the Transfer Agent for cancellation or are redeemed in a manner other than by mandatory redemption, the principal amount of Term Bonds affected shall be reduced by the principal amount of the Term Bonds so purchased or redeemed in the order determined by the Issuer.

Optional Redemption:

Bonds maturing in the years 2017 to 2023, inclusive, are not subject to redemption prior to maturity. Bonds or portions of Bonds in multiples of $5,000 maturing in the year 2024 and thereafter shall be subject to redemption prior to maturity, at the option of the Issuer, on any date on or after November 1, 2023, in any order of maturity and by lot within a maturity, at par and accrued interest to the date of redemption.

Notice of Redemption:

Notice of redemption shall be given to the registered owner of any Bond or portion thereof called for redemption by mailing of such notice not less than thirty (30) days prior to the date fixed for redemption to the registered address of the registered owner of record. A Bond or portion thereof so called for redemption shall not bear interest after the date fixed for redemption, whether presented for redemption or not, provided funds are on hand with the Transfer Agent to redeem said Bond or portion thereof.

EXHIBIT B

LETTER OF REPRESENTATION – CITY OF FLINT

April 1, 2014

J. P. Morgan Securities LLC
1450 Brickell Avenue, Floor 33
Miami, Florida 33131
As Representative

Ladies and Gentlemen:

The Karegnondi Water Authority (the "Issuer") proposes to issue $220,500,000 aggregate principal amount of its Water Supply System Bonds (Karegnondi Water Pipeline), Series 2014A (the "Bonds") pursuant to Act No. 233, Public Acts of Michigan, 1955, as amended ("Act 233").

The Bonds are issued pursuant to a resolution adopted by the Board of Trustees of the Issuer on November 20, 2013, authorizing the issuance of the Bonds (the "Resolution"), and an order executed on April 1, 2014 by the Chief Executive Officer of the Issuer, approving the sale of the Bonds (the "Sale Order"). The Bonds are to be issued in anticipation of, and are payable primarily as to principal of and interest from, payments (the "Contractual Payments") to be made by Flint and Genesee pursuant to a contract among the Issuer, the City of Flint ("Flint") and the County of Genesee ("Genesee"), dated as of August 1, 2013 (the "Contract"). The Contractual Payments will be in installments that will equal the principal and interest payments on the Bonds. Flint and Genesee have each pledged their limited tax full faith and credit for the payment of its Contractual Payments.

In addition, the Issuer has entered into two water purchase contracts, effective October 1, 2013: one with Flint to supply up to 18 million gallons per day ("mgd") (the "Flint Water Purchase Contract") and one with the Genesee County Drain Commissioner, as County Agency of Genesee under Act 342, Public Acts of Michigan, 1939, as amended (the "County Agency"), on behalf of Genesee, to supply up to 42 mgd (the "Genesee Water Purchase Contract" and together with the Flint Water Purchase Contract, the "Water Purchase Contracts"). The charges to be paid by Flint and the County Agency in the Water Purchase Contracts are broken down into two distinct portions, an annual fixed or capital fee and an annual commodity or operations and maintenance fee, which charges are expected to be paid by Flint and the County Agency from the revenues of their respective water supply systems as an operation and maintenance expense.

The Bonds will be sold by the Issuer pursuant to a Bond Purchase Agreement dated April 1, 2014 (the "Bond Purchase Agreement"), between the Issuer and the underwriters listed therein (the "Underwriters"). The proceeds of the Bonds will be applied by the Issuer as described in or contemplated by the Preliminary Official Statement dated March 21, 2014 relating to the Bonds, including the Appendices thereto (the "Preliminary Official Statement"), and the Official Statement dated April 1, 2014 relating to the Bonds, including the Appendices thereto (the "Official Statement"). Unless the context requires otherwise, the capitalized terms

not herein defined shall have the same meanings as set forth in the Bond Purchase Agreement.

Section 1. Representation and Warranties. In order to induce the Underwriters and the Issuer to enter into the Bond Purchase Agreement and to sell the Bonds, Flint represents and warrants, and agrees with each of the Underwriters and the Issuer as follows:

(a) Flint has full right, power and authority to (i) execute and deliver the Contract, the Flint Water Purchase Contract, this Letter of Representation, and the Flint Continuing Disclosure Undertaking and (ii) perform its obligations under, and carry out and consummate all other transactions carried out by it or to be consummated by it described in, the Resolution, the Bond Purchase Agreement, the Contract, the Flint Water Purchase Contract, the Flint Continuing Disclosure Undertaking, and this Letter of Representation. Flint has complied with or will comply with on or prior to the Closing Date all provisions of applicable law (specifically including, without limiting the generality of the foregoing, the Constitution and laws of the State of Michigan) and all matters applicable to Flint relating to such transactions.

(b) Flint has duly authorized all necessary action to be taken by it for the execution, delivery and performance by Flint of this Letter of Representation, the Contract, the Flint Water Purchase Contract, the Flint Continuing Disclosure Undertaking, and any and all such other agreements and documents as may be required to be executed, delivered and received by Flint in order to carry out the transactions contemplated by such instruments and by the Official Statement. The Contract, the Flint Water Purchase Contract, the Flint Continuing Disclosure Undertaking, and this Letter of Representation have been duly executed and delivered by Flint, and assuming the due authorization, execution and delivery of such instruments by the other parties thereto and their Issuer to perform pursuant to such instruments, will constitute legal, valid and binding obligations of Flint enforceable against Flint in accordance with their respective terms, except that the enforceability thereof may be limited by laws relating to bankruptcy, insolvency, reorganization or other similar laws of general application affecting the rights of creditors and general principles of equity.

(c) The execution and delivery by Flint of the Contract, the Flint Water Purchase Contract, the Flint Continuing Disclosure Undertaking, and this Letter of Representation and the consummation of the transactions described in all of the foregoing instruments, did not at the time of such execution and delivery, do not and will not conflict with or constitute on the part of Flint a breach or violation of any of the terms and provisions of, or constitute a default under, (i) any existing laws, court or administrative rules or regulations, decree, order or judgment, (ii) any agreement, indenture, mortgage, lease, deed of trust, note or other instrument to which Flint or its properties are or may be bound, or (iii) the Charter of Flint.

(d) The information set forth in the Preliminary Official Statement and the Official Statement relating to Flint, including information in Appendices C and D thereto, is true and correct in all material respects and, with respect to the information relating to Flint, the Preliminary Official Statement (except as to the statements contained in the Preliminary Official Statement that have been changed or supplemented in the Official Statement) and the Official Statement do not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements made therein, in light of the circumstances under which they were made, not misleading.

(e) The combined balance sheets of Flint as of June 30, 2013, and the related combined financial statements of revenues and expenses/expenditures, changes in fund balances and changes in financial position of proprietary and similar trust funds for the year ended June 30, 2013, including the notes thereto included in Appendix D of the Official Statement, present fairly the financial position of Flint as of the dates indicated and the results of its operations and changes in fund balances and financial position of proprietary and similar trust funds for the years specified, and such financial statements have been prepared in conformity with generally accepted accounting principles consistently applied in all material respects.

(f) Except as set forth in the Preliminary Official Statement and the Official Statement, subsequent to the respective dates as of which information is given in the Preliminary Official Statement (except as to dates or information contained in the Preliminary Official Statement that have been changed in the Official Statement) and the Official Statement, Flint has not incurred any liabilities, direct or contingent, or entered into any transactions, not in the ordinary course of business, that are material to the business and affairs of Flint and there has not been any material adverse change in the condition, results of operation or general affairs of Flint (financial or otherwise).

(g) Except as disclosed in the Official Statement, there is no action, suit, proceeding, inquiry or investigation at law or in equity by or before any court or public board or body pending or threatened against or affecting Flint (or, to the knowledge of Flint, any basis therefor) that in any way questions the powers of Flint referred to in Section 1(a) of this Letter of Representation, or the validity of any proceedings taken by Flint in connection with the execution and delivery of the Contract, the Flint Water Purchase Contract or the Flint Continuing Disclosure Undertaking or that might result in a material adverse change in the condition (financial or otherwise), business or affairs of Flint, or wherein an unfavorable decision, ruling or finding would adversely affect (i) the material transactions described in the Resolution, the Official Statement, the Bond Purchase Agreement, the Flint Continuing Disclosure Undertaking, the Contract, the Flint Water Purchase Contract, or this Letter of Representation, or (ii) the validity or enforceability of the Resolution, the Bond Purchase Agreement, the Flint Continuing Disclosure Undertaking, the Contract, the Flint Water Purchase Contract, this Letter of Representation or any agreement or instrument to which Flint is a party and which is used or contemplated for use in the consummation of the material transactions described in the Official Statement or this Letter of Representation.

(h) Flint is not in breach of or in default under any existing law, court or administrative regulation, decree, order, agreement, indenture, mortgage, lease or sublease or other instrument to which it is a party or by which it is bound, and no event has occurred or is continuing which, with the passage of time or the giving of notice, or both, would constitute a default or an event of default thereunder, except (in each case) for such minor breaches, defaults or potential defaults or events of default, if any, which individually and in the aggregate would have no material adverse effect on Flint's financial condition, operations or properties.

(i) All material consents, certificates, approvals or resolutions necessary for the execution, delivery and/or performance by Flint of the Contract, the Flint Water Purchase Contract, the Flint Continuing Disclosure Undertaking and this Letter of Representation required to be obtained have been obtained.

(j) Flint's obligations incurred under the Contract to pay Contractual Payments to the Issuer with respect to the Bonds are necessary for Flint to comply with an administrative consent order dated March 20, 2014, between Flint and the Michigan Department of Environmental Quality, the successor to the Michigan Water Resources Commission, and as such, are excluded when computing Flint's statutory debt limitation set forth in Section 4a of the Home Rule Cities Act (Act 279, Public Acts of Michigan, 1909, as amended), being MCL 117.4a.

(k) Flint has elected not to exercise its option to cancel the Flint Water Supply Contract as provided in Section 7.04(b) therein.

(l) Any certificate signed by an authorized officer of Flint delivered to the Underwriters shall be deemed a representation and warranty by Flint to such parties as to the statements made therein.

Section 2. Special Covenants. Flint covenants and agrees with each of the Underwriters and the Issuer as follows:

(a) Flint agrees that from the time the Official Statement becomes available to any person from the Municipal Securities Rulemaking Board (the "MSRB") until twenty-five (25) days following the "end of the underwriting period" (as such term is defined below), (i) to notify the Underwriters of the occurrence of any event relating to Flint, the result of which would make it necessary to amend or supplement the Official Statement in order to make the statements relating to Flint contained therein, in light of the circumstances in which they were made, not misleading, and (ii) to cooperate in the preparation of a revised Official Statement or amendments or supplements to the Official Statement so that such statements in the Official Statement, as so amended or supplemented, will not, in light of the circumstances in which they were made, be misleading.

For purposes of this Letter of Representation, the term "end of the underwriting period" shall be the later of the Closing or when a participating Underwriter or selling group member no longer retains (directly or as a syndicate member) an unsold balance of the Bonds for sale to the public. The Representative agrees that the date on which the end of the underwriting period will occur will be the Closing Date, unless the Representative otherwise notifies Flint in writing prior to such date that, to the best of its knowledge, there exists an unsold balance of the Bonds, in which case the end of the underwriting period shall be extended thirty (30) days each upon receipt of an additional written notification from the Representative that, to the best of its knowledge, there exists an unsold balance of the Bonds.

(b) Flint deems the Preliminary Official Statement final, as of its date, with respect to information contained therein relating to Flint.

(c) Flint shall not take any action or omit to take any action required to be taken by it that will in any way cause the proceeds from the sale of the Bonds to be applied or result in their being applied in a manner other than as provided in or as contemplated by the Contract, the Official Statement and the Resolution.

(d) Flint shall not take any action or permit any action to be taken on its behalf, or

cause or permit any circumstances within its control to arise or continue, if such action or circumstance would result in the loss of exclusion from federal gross income of the interest on the Bonds.

(e) Between the date hereof and the date of the Closing, Flint will not take any action which would cause the representations and warranties contained in Section 1 to be untrue on the date of the Closing. On the Closing Date, Flint shall deliver or cause to be delivered all opinions, certificates and other documents to be delivered by it or on its behalf as provided for in the Bond Purchase Agreement, and to deliver such additional certificates and other documents as the Underwriters may reasonably request to evidence performance of or compliance with the provisions of this Letter of Representation and the transactions contemplated by the Official Statement, the Resolution, the Contract and this Letter of Representation, all such certificates and other documents to be satisfactory in form and substance to the Underwriters.

(f) Flint will make available such information to such parties at such times as shall be necessary to enable the Underwriters to meet their responsibilities under applicable federal securities statutes and regulations.

Section 3. Survival of Representations and Warranties. All representations, warranties, covenants and agreements contained in this Letter of Representation or contained in certificates of officers of Flint submitted pursuant hereto or pursuant to the Bond Purchase Agreement shall remain operative and in full force and effect regardless of any investigations made by or on behalf of the Underwriters or any other person, and shall survive (i) delivery of the Bonds to the Underwriters and payment by the Underwriters therefor pursuant to the Bond Purchase Agreement, (ii) any termination of the Bond Purchase Agreement by the Underwriters pursuant to the provisions thereof, or (iii) any failure on the part of Flint or the Issuer to satisfy any condition to the obligations of the Underwriters specified in the Bond Purchase Agreement, which failure results in a refusal by the Underwriters to purchase and pay for the Bonds.

Section 4. Parties In Interest. This Letter of Representation shall be binding upon Flint and shall inure solely to the benefit of the Underwriters and the Issuer and, to the extent set forth herein, officers, directors and employees of and persons controlling the Underwriters and the Issuer, and their respective personal representatives, successors and assigns, and no other person or firm shall acquire or have any right under or by virtue of this Letter of Representation.

Section 5. Notices. Any notice or other communication to be given to the Underwriters, the Issuer or Flint under this Letter of Representation shall be given by delivering the same in writing addressed, as the case may be, as follows: If to the Underwriters, to J.P. Morgan Securities LLC, 1450 Brickell Avenue, Floor 33, Miami, Florida 33131, Attention: T.J. Whitehouse, Executive Director; if to the Issuer, to Karegnondi Water Authority, G-4610 Beecher Road, Flint, Michigan 48532, Attention: Chief Executive Officer; and, if to Flint, to City of Flint, 1101 S. Saginaw Street, Flint, Michigan 48502, Attention: Emergency Manager.

Section 6. General. This Letter of Representation shall be governed by and construed in accordance with the laws of the State of Michigan. This Letter of Representation may be executed in one or more counterparts, each of which shall constitute one and the same instrument.

If the foregoing is in accordance with your understanding of the agreement between us, kindly sign and return to Flint a duplicate of this Letter of Representation whereupon this will constitute a binding agreement of Flint in accordance with the terms hereof.

Very truly yours,

EXHIBIT C

LETTER OF REPRESENTATION – COUNTY OF GENESEE

April 1, 2014

J. P. Morgan Securities LLC
1450 Brickell Avenue, Floor 33
Miami, Florida 33131
As Representative

Ladies and Gentlemen:

The Karegnondi Water Authority (the "Issuer") proposes to issue $220,500,000 aggregate principal amount of its Water Supply System Bonds (Karegnondi Water Pipeline), Series 2014A (the "Bonds") pursuant to Act No. 233, Public Acts of Michigan, 1955, as amended ("Act 233").

The Bonds are issued pursuant to a resolution adopted by the Board of Trustees of the Issuer on November 20, 2013, authorizing the issuance of the Bonds (the "Resolution"), and an order executed on April 1, 2014 by the Chief Executive Officer of the Issuer, approving the sale of the Bonds (the "Sale Order"). The Bonds are to be issued in anticipation of, and are payable primarily as to principal of and interest from, payments (the "Contractual Payments") to be made by Flint and Genesee pursuant to a contract among the Issuer, the City of Flint ("Flint") and Genesee of Genesee ("Genesee"), dated as of August 1, 2013 (the "Contract"). The Contractual Payments will be in installments that will equal the principal and interest payments on the Bonds. Flint and Genesee have each pledged their limited tax full faith and credit for the payment of its Contractual Payments.

In addition, the Issuer has entered into two water purchase contracts, effective October 1, 2013; one with Flint to supply up to 18 million gallons per day ("mgd") (the "Flint Water Purchase Contract") and one with the Genesee County Drain Commissioner, as County Agency of Genesee under Act 342, Public Acts of Michigan, 1939, as amended (the "County Agency"), on behalf of Genesee, to supply up to 42 mgd (the "Genesee Water Purchase Contract" and together with the Flint Water Purchase Contract, the "Water Purchase Contracts"). The charges to be paid by Flint and the County Agency in the Water Purchase Contracts are broken down into two distinct portions, an annual fixed or capital fee and an annual commodity or operations and maintenance fee, which charges are expected to be paid by Flint and the County Agency from the revenues of their respective water supply systems as an operation and maintenance expense.

The Bonds will be sold by the Issuer pursuant to a Bond Purchase Agreement dated April 1, 2014 (the "Bond Purchase Agreement"), between the Issuer and the underwriters listed therein (the "Underwriters"). The proceeds of the Bonds will be applied by the Issuer as described in or contemplated by the Preliminary Official Statement dated March 21, 2014 relating to the Bonds, including the Appendices thereto (the "Preliminary Official Statement"),

and the Official Statement dated April 1, 2014 relating to the Bonds, including the Appendices thereto (the "Official Statement"). Unless the context requires otherwise, the capitalized terms not herein defined shall have the same meanings as set forth in the Bond Purchase Agreement.

Section 1. Representation and Warranties. In order to induce the Underwriters and the Issuer to enter into the Bond Purchase Agreement and to sell the Bonds, Genesee represents and warrants, and agrees with each of the Underwriters and the Issuer as follows:

(a) Genesee has full right, power and authority to (i) execute and deliver the Contract, this Letter of Representation, and the Genesee Continuing Disclosure Undertaking and (ii) perform its obligations under, and carry out and consummate all other transactions carried out by it or to be consummated by it described in, the Resolution, the Contract, the Genesee Continuing Disclosure Undertaking, and this Letter of Representation. Genesee has complied with or will comply with on or prior to the Closing Date all provisions of applicable law (specifically including, without limiting the generality of the foregoing, the Constitution and laws of the State of Michigan) and all matters applicable to Genesee relating to such transactions.

(b) Genesee has duly authorized all necessary action to be taken by it for the execution, delivery and performance by Genesee of this Letter of Representation, the Contract, the Genesee Continuing Disclosure Undertaking, and any and all such other agreements and documents as may be required to be executed, delivered and received by Genesee in order to carry out the transactions contemplated by such instruments and by the Official Statement. The Contract, the Genesee Continuing Disclosure Undertaking, and this Letter of Representation have been duly executed and delivered by Genesee, and assuming the due authorization, execution and delivery of such instruments by the other parties thereto and their Issuer to perform pursuant to such instruments, will constitute legal, valid and binding obligations of Genesee enforceable against Genesee in accordance with their respective terms, except that the enforceability thereof may be limited by laws relating to bankruptcy, insolvency, reorganization or other similar laws of general application affecting the rights of creditors and general principles of equity.

(c) The execution and delivery by Genesee of the Contract, the Genesee Continuing Disclosure Undertaking, and this Letter of Representation and the consummation of the transactions described in all of the foregoing instruments, did not at the time of such execution and delivery, do not and will not conflict with or constitute on the part of Genesee a breach or violation of any of the terms and provisions of, or constitute a default under, (i) any existing laws, court or administrative rules or regulations, decree, order or judgment, or (ii) any agreement, indenture, mortgage, lease, deed of trust, note or other instrument to which Genesee or its properties are or may be bound.

(d) The information set forth in the Preliminary Official Statement and the Official Statement relating to Genesee and the County Agency, including information in Appendices A and B thereto, is true and correct in all material respects and, with respect to the information relating to Genesee and the County Agency, the Preliminary Official Statement (except as to the statements contained in the Preliminary Official Statement that have been changed or supplemented in the Official Statement) and the Official Statement do not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the

statements made therein, in light of the circumstances under which they were made, not misleading.

(e) The combined balance sheets of Genesee as of September 30, 2013, and the related combined financial statements of revenues and expenses/expenditures, changes in fund balances and changes in financial position of proprietary and similar trust funds for the year ended September 30, 2013, including the notes thereto included in Appendix B of the Official Statement, present fairly the financial position of Genesee as of the dates indicated and the results of its operations and changes in fund balances and financial position of proprietary and similar trust funds for the years specified, and such financial statements have been prepared in conformity with generally accepted accounting principles consistently applied in all material respects.

(f) Except as set forth in the Preliminary Official Statement and the Official Statement, subsequent to the respective dates as of which information is given in the Preliminary Official Statement (except as to dates or information contained in the Preliminary Official Statement that have been changed in the Official Statement) and the Official Statement, Genesee has not incurred any liabilities, direct or contingent, or entered into any transactions, not in the ordinary course of business, that are material to the business and affairs of Genesee and there has not been any material adverse change in the condition, results of operation or general affairs of Genesee (financial or otherwise).

(g) Except as disclosed in the Official Statement, there is no action, suit, proceeding, inquiry or investigation at law or in equity by or before any court or public board or body pending or threatened against or affecting Genesee (or, to the knowledge of Genesee, any basis therefor) that in any way questions the powers of Genesee referred to in Section 1(a) of this Letter of Representation, or the validity of any proceedings taken by Genesee in connection with the execution and delivery of the Contract or the Genesee Continuing Disclosure Undertaking or that might result in a material adverse change in the condition (financial or otherwise), business or affairs of Genesee, or wherein an unfavorable decision, ruling or finding would adversely affect (i) the material transactions described in the Resolution, the Official Statement, the Bond Purchase Agreement, the Genesee Continuing Disclosure Undertaking, the Contract, or this Letter of Representation, or (ii) the validity or enforceability of the Resolution, the Bond Purchase Agreement, the Genesee Continuing Disclosure Undertaking, the Contract, this Letter of Representation or any agreement or instrument to which Genesee is a party and which is used or contemplated for use in the consummation of the material transactions described in the Official Statement or this Letter of Representation.

(h) Genesee is not in breach of or in default under any existing law, court or administrative regulation, decree, order, agreement, indenture, mortgage, lease or sublease or other instrument to which it is a party or by which it is bound, and no event has occurred or is continuing which, with the passage of time or the giving of notice, or both, would constitute a default or an event of default thereunder, except (in each case) for such minor breaches, defaults or potential defaults or events of default, if any, which individually and in the aggregate would have no material adverse effect on Genesee's financial condition, operations or properties.

(i) All material consents, certificates, approvals or resolutions necessary for the

execution, delivery and/or performance by Genesee of the Contract, the Genesee Continuing Disclosure Undertaking and this Letter of Representation required to be obtained have been obtained.

(j) The County Agency has elected not to exercise its option to cancel the Genesee Water Supply Contract as provided in Section 7.04(b) therein.

(k) Any certificate signed by an authorized officer of Genesee delivered to the Underwriters shall be deemed a representation and warranty by Genesee to such parties as to the statements made therein.

Section 2. Special Covenants. Genesee covenants and agrees with each of the Underwriters and the Issuer as follows:

(a) Genesee agrees that from the time the Official Statement becomes available to any person from the Municipal Securities Rulemaking Board (the "MSRB") until twenty-five (25) days following the "end of the underwriting period" (as such term is defined below), (i) to notify the Underwriters of the occurrence of any event relating to Genesee or the County Agency, the result of which would make it necessary to amend or supplement the Official Statement in order to make the statements contained therein relating to Genesee or the County Agency, in light of the circumstances in which they were made, not misleading, and (ii) to cooperate in the preparation of a revised Official Statement or amendments or supplements to the Official Statement so that such statements in the Official Statement, as so amended or supplemented, will not, in light of the circumstances in which they were made, be misleading.

For purposes of this Letter of Representation, the term "end of the underwriting period" shall be the later of the Closing or when a participating Underwriter or selling group member no longer retains (directly or as a syndicate member) an unsold balance of the Bonds for sale to the public. The Representative agrees that the date on which the end of the underwriting period will occur will be the Closing Date, unless the Representative otherwise notifies Genesee in writing prior to such date that, to the best of its knowledge, there exists an unsold balance of the Bonds, in which case the end of the underwriting period shall be extended thirty (30) days each upon receipt of an additional written notification from the Representative that, to the best of its knowledge, there exists an unsold balance of the Bonds.

(b) Genesee deems the Preliminary Official Statement final, as of its date, with respect to information contained therein relating to Genesee and the County Agency.

(c) Genesee shall not take any action or omit to take any action required to be taken by it that will in any way cause the proceeds from the sale of the Bonds to be applied or result in their being applied in a manner other than as provided in or as contemplated by the Contract, the Official Statement and the Resolution.

(d) Genesee shall not take any action or permit any action to be taken on its behalf, or cause or permit any circumstances within its control to arise or continue, if such action or circumstance would result in the loss of exclusion from federal gross income of the interest on the Bonds.

(e) Between the date hereof and the date of the Closing, Genesee will not take any action which would cause the representations and warranties contained in Section 1 to be untrue on the date of the Closing. On the Closing Date, Genesee shall deliver or cause to be delivered all opinions, certificates and other documents to be delivered by it or on its behalf as provided for in the Bond Purchase Agreement, and to deliver such additional certificates and other documents as the Underwriters may reasonably request to evidence performance of or compliance with the provisions of this Letter of Representation and the transactions contemplated by the Official Statement, the Resolution, the Contract and this Letter of Representation, all such certificates and other documents to be satisfactory in form and substance to the Underwriters.

(f) Genesee will make available such information to such parties at such times as shall be necessary to enable the Underwriters to meet their responsibilities under applicable federal securities statutes and regulations.

Section 3. Survival of Representations and Warranties. All representations, warranties, covenants and agreements contained in this Letter of Representation or contained in certificates of officers of Genesee submitted pursuant hereto or pursuant to the Bond Purchase Agreement shall remain operative and in full force and effect regardless of any investigations made by or on behalf of the Underwriters or any other person, and shall survive (i) delivery of the Bonds to the Underwriters and payment by the Underwriters therefor pursuant to the Bond Purchase Agreement, (ii) any termination of the Bond Purchase Agreement by the Underwriters pursuant to the provisions thereof, or (iii) any failure on the part of Genesee or the Issuer to satisfy any condition to the obligations of the Underwriters specified in the Bond Purchase Agreement, which failure results in a refusal by the Underwriters to purchase and pay for the Bonds.

Section 4. Parties In Interest. This Letter of Representation shall be binding upon Genesee and shall inure solely to the benefit of the Underwriters and the Issuer and, to the extent set forth herein, officers, directors and employees of and persons controlling the Underwriters and the Issuer, and their respective personal representatives, successors and assigns, and no other person or firm shall acquire or have any right under or by virtue of this Letter of Representation.

Section 5. Notices. Any notice or other communication to be given to the Underwriters, the Issuer or Genesee under this Letter of Representation shall be given by delivering the same in writing addressed, as the case may be, as follows: If to the Underwriters, to J.P. Morgan Securities LLC, 1450 Brickell Avenue, Floor 33, Miami, Florida 33131, Attention: T.J. Whitehouse, Executive Director; if to the Issuer, to Karegnondi Water Authority, G-4610 Beecher Road, Flint, Michigan 48532, Attention: Chief Executive Officer; and, if to Genesee, to County of Genesee, G-4608 Beecher Road, Flint, Michigan 48532, Attention: Drain Commissioner, as County Agency.

Section 6. General. This Letter of Representation shall be governed by and construed in accordance with the laws of the State of Michigan. This Letter of Representation may be executed in one or more counterparts, each of which shall constitute one and the same instrument.

If the foregoing is in accordance with your understanding of the agreement between us, kindly sign and return to Genesee a duplicate of this Letter of Representation whereupon this will constitute a binding agreement of Genesee in accordance with the terms hereof.

Very truly yours,

[Letterhead of Miller, Canfield, Paddock and Stone, P.L.C.]

April 16, 2014

Karegnondi Water Authority
Counties of Genesee, Lapeer and Sanilac
State of Michigan

J.P. Morgan Securities LLC,
as Representative of the Underwriters
New York, New York

This opinion is submitted pursuant to Section 5(b)(xi) of the Bond Purchase Agreement (the "Purchase Agreement"), dated April 1, 2014, between the Karegnondi Water Authority, Counties of Genesee, Lapeer and Sanilac, State of Michigan (the "Issuer") and J.P. Morgan Securities LLC, as Representative for the underwriters (the "Underwriters"), relative to the purchase and sale by the Issuer of its Water Supply System Bonds (Karegnondi Water Pipeline), Series 2014A (the "Bonds"), in the aggregate original principal sum of $220,500,000, and is supplementary to our approving opinion bearing even date herewith. Terms used herein shall have the same meaning ascribed to them in the approving opinion or in the Purchase Agreement.

We have examined (in addition to the proceedings and documents specified in the approving opinion) executed counterparts of the Purchase Agreement and the Official Statement pertaining to the Bonds, dated April 1, 2014, and on the basis of such examination and our review of such other information, records and documents as in our judgment is necessary and advisable, we are of the opinion that:

1. The Issuer had at the time of execution of the Purchase Agreement, and has as of the date hereof, full legal right, power and authority (i) to enter into the Purchase Agreement and (ii) to sell and deliver the Bonds to the Underwriters as provided in the Purchase Agreement, the Resolution, the Sale Order and the Official Statement. The Issuer had at the time of execution of the Purchase Agreement, and has as of the date hereof, duly authorized and approved the execution and delivery of, and the performance of its obligations contained in, the Purchase Agreement.

2. No further authorization or approval is required for the execution and delivery of the Purchase Agreement, and the Purchase Agreement constitutes a legal, valid and binding obligation of the Issuer, enforceable in accordance with its terms; and no further authorization or approval is required for the performance by the Issuer of its obligations under the Purchase Agreement.

3. The Issuer has duly authorized and approved the Preliminary Official Statement regarding the Bonds dated March 21, 2014 (the "Preliminary Official Statement"), and has duly authorized, approved and executed the Official Statement.

4. Other than the approvals which have been obtained, no consent or approval of, or registration or declaration with, any federal, state or other governmental commission, board, regulatory body or instrumentality, is required for authorization and issuance of the Bonds or in connection with any of the actions of the Issuer described in paragraphs 1, 2, or 3 hereof (except for such approvals, consents or authorizations as are required by blue sky or securities laws of any state, as to which no opinion is expressed), nor is any election or referendum of voters required in connection therewith.

5. All proceedings necessary to fulfill in all material respects the terms and conditions of the Bonds including payment of the principal thereof and interest thereon and to carry out the transactions contemplated by the Purchase Agreement are in full force and effect.

6. The fulfillment of the terms and conditions of, and the carrying out of the transactions contemplated by, the Purchase Agreement do not and will not conflict with or constitute on the part of the Issuer, a breach of, or a default under, any existing law, including, without limitation, the Constitution of the State of Michigan, to which the Issuer is subject or by which it is bound.

7. The Continuing Disclosure Undertakings of the Issuer and each of the Local Units have been duly authorized, executed and delivered by the Issuer and each of the Local Units and constitute the legal, valid and binding obligation of the Issuer and each of the Local Units, enforceable in accordance with their respective terms; and no further authorization or approval is required for the performance by the Issuer and each of the Local Units of their respective obligations under the Continuing Disclosure Undertakings.

8. The Bonds are not subject to the registration requirements of the Securities Act of 1933, as amended, and the Resolution and the Sale Order are exempt from qualification pursuant to the Trust Indenture Act of 1939, as amended.

9. The statements contained in the Preliminary Official Statement and the Official Statement under the headings "PURPOSE," "SECURITY," "THE BONDS," "PRIOR REDEMPTION OF BONDS," "TRANSFER OUTSIDE BOOK-ENTRY-ONLY SYSTEM," "TAX MATTERS," "APPROVAL BY THE MICHIGAN DEPARTMENT OF TREASURY," "BOND COUNSEL'S RESPONSIBILITY," and "CONTINUING DISCLOSURE" (first two paragraphs only), insofar as such statements summarize the language and effect of the Resolution, the Sale Order, the Contract, the Bonds and the Constitution and the laws of the State of Michigan and the United States of America are fair and accurate summaries thereof in all material respects.

Although we have not independently verified and are not passing upon or assuming any responsibility for the accuracy, completeness or fairness of the statements in the Official

Statement (except to the extent expressly set forth in paragraph 9 hereof), in our capacity as Bond Counsel, in which capacity we have been dependent on information provided by representatives of the Issuer, we participated in conferences with representatives of the Issuer and representatives of and counsel for the Underwriters for the purpose of drafting such portions of the Preliminary Official Statement and the Official Statement expressly set forth in paragraph 9 hereof. Such information and conferences did not disclose to us any information which causes us to believe that the Preliminary Statement contained, as of its date, and the Official Statement contained, as of its date, or contains as of the date hereof, any untrue statement of a material fact or omitted as of its date, or omits as of the date hereof, to state any material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they were made, not misleading. As Bond Counsel, we have not been retained to examine, nor have we attempted to examine, the financial or statistical information contained in the Preliminary Official Statement and the Official Statement, including Appendices A, B, C, D, G and I, and we express no opinion with respect thereto.

The foregoing opinion is qualified to the extent that the enforceability of the rights and remedies set forth in the Purchase Agreement, the Resolution, the Sale Order, the Contract, the Continuing Disclosure Undertaking and the Bonds may be limited by bankruptcy, insolvency laws regarding fraudulent conveyances, reorganization or other laws of general application relating to or affecting the enforcement of creditors' rights generally now existing or hereafter enacted, and are subject to general principles of equity including those relating to equitable subordination regardless of whether such enforceability is considered in a proceeding at law or in equity.

The Underwriters shall be entitled to rely on all opinions rendered by us on the date hereof in connection with the delivery of the Bonds, including but not limited to our approving opinion bearing even date herewith, the same as if all such opinions were addressed to them.

Very truly yours,

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

[Letterhead of Dickinson Wright PLLC]

April 16, 2014

J.P. Morgan Securities LLC
New York, New York
as Representative of the Underwriters
of the Bonds referred to below

Re: Karegnondi Water Authority
Water Supply System Bonds
(Karegnondi Water Pipeline), Series 2014A

Ladies and Gentlemen:

We have acted as counsel for the underwriters (the "Underwriters") in connection with the purchase by the Underwriters of the above-referenced bonds (the "Bonds") pursuant to the Bond Purchase Agreement, dated April 1, 2014 (the "Purchase Agreement"), between you, as Representative of the Underwriters, and the Karegnondi Water Authority (the "Issuer"). Capitalized terms not otherwise defined herein shall have the meanings given such terms in the Purchase Agreement.

We, as counsel for the Underwriters, have examined and relied upon the following:

(a) A certified copy of the resolution adopted by the Board of Trustees of the Issuer on November 20, 2013, authorizing the issuance of the Bonds (the "Resolution"), and an executed order of the Chief Executive Officer of the Issuer, dated April 1, 2014, approving the sale of the Bonds (the "Sale Order");

(b) A copy of the Preliminary Official Statement of the Issuer, dated March 21, 2014, relating to the Bonds, including the cover page and appendices thereto (the "Preliminary Official Statement"); and

(c) A copy of the Official Statement of the Issuer, dated April 1, 2014, relating to the Bonds, including the cover page and appendices thereto (the "Official Statement"); and

(d) An executed copy of the Purchase Agreement; and

(e) An executed counterpart of the Contract, dated as of August 1, 2013, among the Issuer, the City of Flint ("Flint") and the County of Genesee ("Genesee") relating to the Bonds; and

(f) Executed copies of the Continuing Disclosure Undertaking of the Issuer, dated April 16, 2014, relating to the Bonds (the "Issuer Continuing Disclosure Undertaking"), the Continuing Disclosure Undertaking of Flint, dated April 16, 2014, relating to the Bonds (the "Flint Continuing Disclosure Undertaking"), and the Continuing Disclosure Undertaking of Genesee, dated April 16, 2014, relating to the Bonds (the "Genesee Continuing Disclosure Undertaking" and together with the Issuer Continuing Disclosure Undertaking and the Flint Continuing Disclosure Undertaking, the "Continuing Disclosure Undertakings"); and

(g) Executed copies of the opinions of Miller, Canfield, Paddock and Stone, P.L.C., Bond Counsel, delivered to you pursuant to Section 5(b)(iv) of the Purchase Agreement.

In addition, we have examined and relied on originals or copies, certified or otherwise identified to our satisfaction, of such other records, opinions and documents, and have made such investigation of law, as we have deemed necessary or appropriate for purposes of this opinion.

In arriving at the conclusions hereinafter expressed, we are not expressing any opinion or view on, and with your permission are assuming and relying on the validity, accuracy and sufficiency of the records, documents, certificates and opinions referred to above, including the representations and legal conclusions regarding the due authorization, issuance, delivery, validity and enforceability of the Bonds and the exclusion of interest thereon from gross income for federal income tax purposes. We have assumed that all records, documents, certificates and opinions that we have reviewed, and the signatures thereon are genuine.

Based upon and subject to the foregoing, and in reliance thereon, we are of the opinion that:

1. The Bonds are not subject to the registration requirements of the Securities Act of 1933, as amended, and the Resolution and the Sale Order are exempt from qualification pursuant to the Trust Indenture Act of 1939, as amended.

2. We are not acting upon and do not assume any responsibility for the accuracy, completeness or fairness of any of the statements contained in the Official Statement, including the appendices thereto, and make no representation that we have independently verified the accuracy, completeness or fairness of any such statements; however, in our capacity as counsel for the Underwriters, we met in conferences and participated in telephone conferences with your representatives and with representatives of the Issuer, Bond Counsel, and others, during which conferences the contents of the Preliminary Official Statement and the Official Statement and related matters were discussed. Based upon our participation in the above-mentioned conferences, and our reliance thereon, and on the records, documents, certificates and opinions herein mentioned, we advise you that, during the course of our representation of you in this

matter, no information came to our attention which caused us to believe that the Preliminary Official Statement as of its date, and the Official Statement as of its date and as of the date of this opinion (except for financial, statistical and technical information, data and projections or estimates included in the Preliminary Official Statement and the Official Statement, including information contained in Appendices A, B, C, D, G, and I and any information relating to The Depository Trust Company, as to all of which we express no opinion or view), contained or contains any untrue statement of a material fact or omitted or omits to state a material fact that is necessary to make the statements made therein, in light of the circumstances under which they were made, not misleading.

3. On our basis of the review of Rule 15c2-12 promulgated under the Securities Exchange of 1934, as amended (the "Rule"), certain releases of the Securities and Exchange Commission ("SEC") accompanying the publication thereof and amendment thereto, and various commentary and interpretation of the Rule by the SEC in response to questions posed by the National Association of Bond Lawyers and by the American Bar Association, among others, it is our opinion that each of the Continuing Disclosure Undertakings complies as to form in all material respects with the requirements of paragraph (b)(5) of the Rule.

We are furnishing this letter to you pursuant to Section 5(b)(xii) of the Purchase Agreement solely for your benefit as Representative of the Underwriters. Our engagement with respect to this matter is terminated as of the date herein and we disclaim any obligation to update this letter. This letter is not to be used, circulated, quoted or otherwise referred to or relied upon for any other purpose or by any other person, but may be referred to in the closing transcripts. This letter is not intended to be relied upon by the owners of the Bonds.

Respectfully submitted,

Moody's Rating

ISSUE	RATING
Water Supply System Bonds (Karegnondi Water Pipeline), Series 2014A	A2
Sale Amount	$220,000,000
Expected Sale Date	04/01/14
Rating Description	General Obligation Limited Tax

Moody's Outlook NOO

Opinion

NEW YORK, March 20, 2014 --Moody's Investors Service has assigned an initial A2 to the Karegnondi Water Authority's (KWA) $220 million Water Supply System Bonds (Karegnondi Water Pipeline), Series 2014A. Concurrently, Moody's has affirmed the A2 rating on Genesee County's outstanding General Obligation Limited Tax (GOLT) debt. The Series 2014A bonds are secured by contractual payments from Genesee County and the City of Flint, which are secured by the GOLT pledges of the county and city for their respective contractual payments. Genesee County is further required, under the financing contract, to correct any payment shortfall on the part of Flint. Contractual payments are expected to be paid with net revenues of the water enterprises of both entities. Proceeds from bonds will finance a portion of the cost to construct a water supply system to KWA member communities.

SUMMARY RATINGS RATIONALE

The A2 rating on KWA's Series 2014A bonds is based on the GOLT credit quality of Genesee County given the GOLT pledge for contractual payments and the requirement for the county to step up to fully cover any payments missed by the City of Flint. Moody's assessment of Genesee County's ability to absorb the full amount of debt service is a key rating factor given ongoing financial distress within the City of Flint. The A2 rating also reflects solid security features incorporated into the financing and underlying water supply contracts including provisions for monthly capital set asides and a debt service reserve fund. The A2 rating on Genesee County's outstanding GOLT debt reflects the county's large tax base that has realized a multi-year trend of material depreciation, relatively narrow financial position with very limited liquidity, and modest debt burden that increases significantly if debt service for current and future KWA issuances fail to be supported by the county's water enterprise.

STRENGTHS

- Strong project management and planning, coupled with minimal project complexity, help mitigate construction risk

- Step-up provisions require Genesee County to fully cover debt service if the City of Flint cannot meet its obligation

- Sizable service area with potential for further expansion

- Participants have significant rate setting flexibility

CHALLENGES

- Financial distress within the City of Flint increases the likelihood that Genesee County will be solely responsible for debt service

- KWA issuances substantially increase Genesee County's debt burden if local unit water enterprises do not remain self-supporting

- Long-term economic stress in the service area as indicated by the multi-year trend of tax base devaluation and above average unemployment

DETAILED CREDIT DISCUSSION

STRONG STEP UP PROVISIONS; GENESEE COUNTY WOULD NEED TO IMPLEMENT SUBSTANTIAL RATE INCREASES TO ABSORB ADDED COSTS

Under the financing contract, Genesee County is required to pay 65.8% of debt service and the City of Flint is required to pay 34.2%. The allocations have been adjusted for capital expenses already incurred by Genesee County for the project. Each local unit has covenanted to make full contractual payments equivalent to debt service 30 days prior to debt service due dates. If the City of Flint fails to make its payments, Genesee County has covenanted to make payments within 15 days of being notified by KWA. KWA is required to immediately notify each local unit if there has been a missed payment. Additionally, KWA is required to undertake all legal actions and make use of all remedies to recoup any missed payments. The financing contract also requires a debt service reserve equivalent to the lesser of maximum annual debt service, 10% of par, or 125% average annual principal and interest payments. The reserve will be cash funded with bond proceeds.

The City of Flint is under severe financial distress, increasing the likelihood that Genesee County would need to fully cover debt service payments. In December 2011, the State of Michigan appointed an emergency manager to oversee the city's financial operations. The city ended fiscal 2013 with a General Fund balance deficit of $12.9 million, or a highly distressed 21% of revenues. Favorably, the deficit was reduced from 35.2% of revenues in fiscal 2012 as a result of substantial revenue and expenditure adjustments. The city's water enterprise operations have historically been stressed as well with a history of poor debt service coverage, declining reserves, and a lack of capital investments. The city implemented a 35% rate increase for fiscal 2012, which substantially improved the enterprise's financial operations. A lawsuit challenging the rate increase is pending.

We believe that the county would need to promptly and significantly increase its water rates to absorb full debt service should Flint be unable to make payments. Genesee County water rates would need to increase approximately 22% to cover Flint's share of principal and interest as well as operating and maintenance costs. The county has ample rate setting authority as the county drain commissioner is able to increase rates without approval from the county board or any outside agencies. We expect the county would promptly increase rates, given management's history of making substantial adjustments to revenue and expenditures. The county has also developed pro-forma financial projections that include such a scenario. Should the county fail to increase rates, it would place substantial pressure on county reserves. One year of Flint's share of debt service payments is equivalent to 70% of the county's General Fund balance or 90% of the water enterprise's unrestricted net assets. Failure of the county to promptly adjust rates, would likely place substantial downward pressure on the credit ratings of both KWA and Genesee County.

STRONG PLANNING FOR NEW REGIONALLY IMPORTANT WATER SYSTEM

We believe that strong management and planning minimize the construction risk to establish the regionally important water authority. KWA was formed in 2010 for the purpose of providing a new source of water for the member communities of Genesee County, the County of Lapeer, the County of Sanilac, the City of Lapeer and the City of Flint. While only Flint and Genesee County immediately benefit from the current project, the other KWA members may tap into the water system at a later date. Participants identified a need for an alternative source of water from Detroit Water and Sewer Department, given significant annual rate increases, aging infrastructure, and somewhat regular loss of water service.

KWA expects to eventually supply raw water to a three county area consisting of 2,232 square miles and over 500,000 residents. The system will initially serve Genesee County with a population of 426,000 and the City of Flint, which is home to 24% of county residents. KWA has secured permits from the Michigan Department of Environmental Quality for a maximum annual draw of 85 million gallons per day (MGD) from Lake Huron. Under signed water supply contracts, Genesee County has the right to draw up to 42 MGD and Flint 18 MGD. Capital

charges to cover system infrastructure are on a take or pay basis, while O&M charges are prorated by usage. Current maximum usage between the two communities approximates 50 MGD.

Major project components consist of an intake facility, 63 miles of pipe, and two pump stations. The intake facility was financed separately by Genesee County and is currently under construction. KWA has identified the pipeline route, prepared preliminary permits for the route, and begun design of the pipeline and pump stations. The necessary land and easements have all been acquired. The City of Flint is currently in the process of upgrading its water treatment plant at a cost of $8 million, which it is cash financing from water enterprise reserves. Genesee County will be building its own treatment facility at a cost of $60 million, which will be financed by additional bonds. The total system is expected to be completed by May 1, 2016.

FUTURE BORROWING PLANNED BY KWA AND GENESEE COUNTY

Genesee County currently has a modest debt burden of 0.8% of full valuation. The debt burden does not include KWA debt or outstanding GOLT bonds that are self supporting from the water system, MTF revenue, or delinquent tax collections. The county plans to issue $48 million in GOLT debt in July 2014 and $12 million in September 2015 to construct the aforementioned water treatment plant. KWA plans to issue $80 million next year to complete the water pipeline project. The county's debt burden rises to an above average 2.8% inclusive of all planned KWA debt and the planned water treatment plant financing.

SERVICE AREA CONTINUES TO FACE ECONOMIC PRESSURES

Genesee County and the City of Flint have experienced significant economic pressure in recent years including elevated unemployment and tax base depreciation. Located in southeast Michigan, Genesee County lies just north of Oakland County (GOLT rated Aaa, stable) and approximately 60 miles northwest of the City of Detroit (GO rated Caa3, negative). Approximately 24% of Genesee County's 426,000 residents reside in the City of Flint. Over the past five years, the county has realized a cumulative 35% loss of full market valuation, which has declined at an average annual rate of 8.1%. A 2% decline in full valuation in 2013 was much more moderate compared to declines of 13.4% and 8% in 2010 and 2011, respectively. The trend of devaluation has resulted in a still sizeable $18 billion full valuation in the current year. Tax base depreciation within the City of Flint has been severe with the tax base declining 58% from 2008 to its current size of $1.6 billion.

While the regional economy has diversified over the past decade following growth in the healthcare sector, the county maintains close ties to durable goods manufacturing, primarily within the automotive sector. General Motors Corporation (Ba1, stable) remains the largest employer in the county with over 3,400 employees and, at 1.1% of assessed valuation, is the county's second largest taxpayer. While the company reduced employment and closed facilities in the run up to its 2009 bankruptcy, local operations have since stabilized and the company announced in April that it will make a $215 million investment in its Flint Engine Plant. The demographic profile of the county has weakened somewhat over the past decade. Median family income is estimated at 86% of the national figure, down from the 100% reported in the 2000 US Census. The median family income in Flint is extremely low at 50% of the national figure. The county's unemployment rate was elevated at 8.8% as of December 2013, while the City's of Flint's unemployment rate was very high at 15.6%.

GENESEE COUNTY'S FINANCIAL POSITION EXPECTED TO REMAIN STABLE; OPERATIONS HAVE BENEFITED FROM MANAGEMENT'S WILLINGNESS TO REDUCE EXPENDITURES TO MATCH DECLINING REVENUES

Going forward, the county's overall financial position is expected to remain stable, though moderate downward pressure on operating revenues may persist in the immediate term. From fiscal 2005 through fiscal 2012, the county's General Fund balance declined from $18.8 million, or 19.6% of revenues, to $11.7 million, or 14.3% of revenues. Fund balance declines since fiscal 2008 have been almost entirely the result of annual declines in operating revenues, most notably that of property taxes. From fiscal 2008 through fiscal 2012, annual property tax collections declined by a cumulative 15% as taxable values within the county steadily dropped. The loss of revenue contributed to a material $5.6 million operating shortfall in fiscal 2009 that brought the General Fund to its lowest point of $5.3 million, or a narrow 5.6% of revenues. Since fiscal 2009, management has been successful in reducing annual General Fund expenditures, which declined by a total of nearly 19% through fiscal 2012. The expenditure reductions, which included attrition of staff and concessions in employee contracts, supported operating surpluses of $5.8 million and $828,000 in fiscal years 2010 and 2011, respectively. Fiscal 2012 operations were nearly balanced, with the General Fund balance declining by a very modest $63,000.

Positive General Fund operating results in fiscal years 2010 and 2011 are also attributed to the county's transfer of money from its Delinquent Tax Revolving Fund (DTRF). Fees and interest collected on delinquent taxes can

accumulate in the DTRF and are unrestricted for any county purpose, providing additional liquidity outside of the General Fund. In fiscal 2010, the county's transfer of $9.4 million to the General Fund completely depleted the DTRF's unrestricted net asset position, leaving the county with no discretionary reserves outside of the General Fund. Transfers of $4.4 million and $5.5 million occurred in fiscal years 2011 and 2012, respectively. Positively, despite the transfers in those years, interest and fees were large enough to the enable the county to maintain liquidity in the fund. The DTRF closed fiscal 2012 with an unrestricted net asset position of $3.5 million.

Adding further pressure to the county's annual operations has been the depletion of year-end cash reserves in the General Fund since fiscal 2005. Throughout the year, the General Fund relies on a number of different operating funds for cash flow. Across all governmental funds, the county maintained a pooled cash and investments balance of $71.9 million, $48.5 million of which was held in the Mental Health Fund. Available cash and investments in the Mental Health Fund at fiscal year-end 2012 amounted to 23.2% of combined Mental Health and General Fund operating revenues. Effective January 1, 2013, the county's mental health operations have been spun off into a legally separated Community Mental Health Authority. The authority and county have signed an agreement whereby the authority will maintain its financial assets in the county's pooled bank account for the next three years, enabling continuation of the use of mental health cash reserves to maintain positive cash flow for general operations.

Although audited financial statements are not yet available for fiscal 2013, management estimates the county ended the year with a General Fund surplus of $670,000, inclusive of a $4.9 million transfer from the DTRF. While total General Fund revenues are estimated to have declined by a further 3%, additional cost reductions are expected to yield a 3.2% or greater decline in expenditures relative to fiscal 2012. Going forward, material improvement will be dependent on renewed growth in property tax collections, which comprised 57% of total General Fund revenues in fiscal 2012. While moderation of the annual decline in taxable values may be indicative of near-term stabilization and new growth, it may take years for property tax revenues to return to prior year levels as the Michigan constitution limits property tax revenue growth to the lesser of 5% or inflation unless voters approve an override. As growth in taxable value returns, it will likely fall well below the annual rate of decline that the county realized over the past five to six years. Management's continued efforts to maintain or further reduce annual expenditures will be a key determinant in the county's ability to increase financial reserves over the longer term.

WHAT COULD CHANGE THE RATING - UP (KWA)

- Upward movement in Genesee County's GO rating

WHAT COULD CHANGE THE RATING - DOWN (KWA)

- Downward movement in Genesee County's GO rating

- Failure of Genesee County to promptly adjust rates if called upon to make payments on behalf of the City of Flint

- Deterioration of water enterprise operations of Genesee County or the City of Flint

WHAT COULD CHANGE THE RATING - UP (Genesee County)

- Material improvement in economic indicators, including appreciation of the county's tax base, improvement in demographic trends, and further moderation of the unemployment rate

- Growth in General Fund liquidity that limits the need to rely on other funds for annual cash flow

WHAT COULD CHANGE THE RATING - DOWN (Genesee County)

- Further, material declines in the county's tax base that put additional downward pressure on revenues

- Continued economic stress as measured by a worsening of the county's unemployment level or renewed destabilization of major employers

- Operational imbalances in the county's General Fund that contribute to a narrowing of existing financial reserves

- Failure to rebuild cash reserves in the General Fund and improve annual cash flow

KEY STATISTICS (Genesee County)

2013 Full valuation: $18 billion

2013 Estimated full value per capita: $42,465

2006-2010 American Community Survey median family income: 86% of US

Fiscal 2013 Available Operating Fund balance: $29.3 million (14% of revenues)

5-Year Dollar Change in Operating Fund Balance as % of Revenues: -4.43%

Net operating net cash balance: $48.4 million (23% of revenues)

5-Year Dollar Change in Cash Balance as % of Revenues: 12%

Institutional Framework: "A"

Operating History: 5-Year Average of Operating Revenues / Operating Expenditures: 0.99

3-Year Average of Moody's ANPL / Full Value: 1.39x

3-Year Average of Moody's ANPL / Operating Revenues: 1.3x

Net Direct Debt / Full Value: 0.8% (2.8% inclusive of KWA debt)

Net Direct Debt / Operating Revenues: 0.7x (2.37x inclusive of KWA debt)

PRINCIPAL METHODOLOGY

The principal methodology used in the rating of the Karengnondi Water Authority bonds was US Local Government General Obligation Debt published in January 2014. The additional methodologies used in the rating of the water supply bonds were U.S. Municipal Pool Program Debt published in March 2013 and Analytical Framework For Water And Sewer System Ratings published in August 1999. The principal methodology used in the rating of the Genesee County bonds was US Local Government General Obligation Debt published in January 2014. Please see the Credit Policy page on www.moodys.com for a copy of these methodologies.

REGULATORY DISCLOSURES

For ratings issued on a program, series or category/class of debt, this announcement provides certain regulatory disclosures in relation to each rating of a subsequently issued bond or note of the same series or category/class of debt or pursuant to a program for which the ratings are derived exclusively from existing ratings in accordance with Moody's rating practices. For ratings issued on a support provider, this announcement provides certain regulatory disclosures in relation to the rating action on the support provider and in relation to each particular rating action for securities that derive their credit ratings from the support provider's credit rating. For provisional ratings, this announcement provides certain regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating. For further information please see the ratings tab on the issuer/entity page for the respective issuer on www.moodys.com.

Regulatory disclosures contained in this press release apply to the credit rating and, if applicable, the related rating outlook or rating review.

Please see www.moodys.com for any updates on changes to the lead rating analyst and to the Moody's legal entity that has issued the rating.

Please see the ratings tab on the issuer/entity page on www.moodys.com for additional regulatory disclosures for each credit rating.

RATINGS OR MOODY'S PUBLICATIONS IN MAKING ANY INVESTMENT DECISION. IF IN DOUBT YOU SHOULD CONTACT YOUR FINANCIAL OR OTHER PROFESSIONAL ADVISER.

ALL INFORMATION CONTAINED HEREIN IS PROTECTED BY LAW, INCLUDING BUT NOT LIMITED TO, COPYRIGHT LAW, AND NONE OF SUCH INFORMATION MAY BE COPIED OR OTHERWISE REPRODUCED, REPACKAGED, FURTHER TRANSMITTED, TRANSFERRED, DISSEMINATED, REDISTRIBUTED OR RESOLD, OR STORED FOR SUBSEQUENT USE FOR ANY SUCH PURPOSE, IN WHOLE OR IN PART, IN ANY FORM OR MANNER OR BY ANY MEANS WHATSOEVER, BY ANY PERSON WITHOUT MOODY'S PRIOR WRITTEN CONSENT.

All information contained herein is obtained by MOODY'S from sources believed by it to be accurate and reliable. Because of the possibility of human or mechanical error as well as other factors, however, all information contained herein is provided "AS IS" without warranty of any kind. MOODY'S adopts all necessary measures so that the information it uses in assigning a credit rating is of sufficient quality and from sources MOODY'S considers to be reliable including, when appropriate, independent third-party sources. However, MOODY'S is not an auditor and cannot in every instance independently verify or validate information received in the rating process or in preparing the Moody's Publications.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability to any person or entity for any indirect, special, consequential, or incidental losses or damages whatsoever arising from or in connection with the information contained herein or the use of or inability to use any such information, even if MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers is advised in advance of the possibility of such losses or damages, including but not limited to: (a) any loss of present or prospective profits or (b) any loss or damage arising where the relevant financial instrument is not the subject of a particular credit rating assigned by MOODY'S.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability for any direct or compensatory losses or damages caused to any person or entity, including but not limited to by any negligence (but excluding fraud, willful misconduct or any other type of liability that, for the avoidance of doubt, by law cannot be excluded) on the part of, or any contingency within or beyond the control of, MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers, arising from or in connection with the information contained herein or the use of or inability to use any such information.

NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY SUCH RATING OR OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY MOODY'S IN ANY FORM OR MANNER WHATSOEVER.

MIS, a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most

Issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MIS have, prior to assignment of any rating, agreed to pay to MIS for appraisal and rating services rendered by it fees ranging from $1,500 to approximately $2,500,000. MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moodys.com under the heading "Shareholder Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

For Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail clients. It would be dangerous for "retail clients" to make any investment decision based on MOODY'S credit rating. If in doubt you should contact your financial or other professional adviser.

Re: ***US$220,000,000 Karegnondi Water Authority, Counties of Genesee, Lapeer and Sanilac, State of Michigan, Water Supply System Revenue Bonds (Karegnondi Water Pipeline), Series 2014A, dated: April 10, 2014, due: November 01, 2043.***

Dear Mr. Wright:

Pursuant to your request for a Standard & Poor's Ratings Services ("Ratings Services") rating on the above-referenced obligations, Ratings Services has assigned a rating of "A+". Standard & Poor's views the outlook for this rating as stable. A copy of the rationale supporting the rating is enclosed.

This letter constitutes Ratings Services' permission for you to disseminate the above-assigned ratings to interested parties in accordance with applicable laws and regulations. However, permission for such dissemination (other than to professional advisors bound by appropriate confidentiality arrangements) will become effective only after we have released the rating on standardandpoors.com. Any dissemination on any Website by you or your agents shall include the full analysis for the rating, including any updates, where applicable.

To maintain the rating, Standard & Poor's must receive all relevant financial and other information, including notice of material changes to financial and other information provided to us and in relevant documents, as soon as such information is available. You understand that Ratings Services relies on you and your agents and advisors for the accuracy, timeliness and completeness of the information submitted in connection with the rating and the continued flow of material information as part of the surveillance process. Please send all information via electronic delivery to: pubfin_statelocalgovt@standardandpoors.com. If SEC rule 17g-5 is applicable, you may post such information on the appropriate website. For any information not available in electronic format or posted on the applicable website,

Please send hard copies to:

Standard & Poor's Ratings Services
Public Finance Department
55 Water Street

RATINGS SERVICES
McGRAW HILL FINANCIAL

Standard & Poor's Ratings Services
Terms and Conditions Applicable To Public Finance Credit Ratings

General. The credit ratings and other views of Standard & Poor's Ratings Services ("Ratings Services") are statements of opinion and not statements of fact. Credit ratings and other views of Ratings Services are not recommendations to purchase, hold, or sell any securities and do not comment on market price, marketability, investor preference or suitability of any security. While Ratings Services bases its credit ratings and other views on information provided by issuers and their agents and advisors, and other information from sources it believes to be reliable, Ratings Services does not perform an audit, and undertakes no duty of due diligence or independent verification, of any information it receives. Such information and Ratings Services' opinions should not be relied upon in making any investment decision. Ratings Services does not act as a "fiduciary" or an investment advisor. Ratings Services neither recommends nor will recommend how an issuer can or should achieve a particular credit rating outcome nor provides or will provide consulting, advisory, financial or structuring advice. Unless otherwise indicated, the term "issuer" means both the issuer and the obligor if the obligor is not the issuer.

All Credit Rating Actions in Ratings Services' Sole Discretion. Ratings Services may assign, raise, lower, suspend, place on CreditWatch, or withdraw a credit rating, and assign or revise an Outlook, at any time, in Ratings Services' sole discretion. Ratings Services may take any of the foregoing actions notwithstanding any request for a confidential or private credit rating or a withdrawal of a credit rating, or termination of a credit rating engagement. Ratings Services will not convert a public credit rating to a confidential or private credit rating, or a private credit rating to a confidential credit rating.

Publication. Ratings Services reserves the right to use, publish, disseminate, or license others to use, publish or disseminate a credit rating and any related analytical reports, including the rationale for the credit rating, unless the issuer specifically requests in connection with the initial credit rating that the credit rating be assigned and maintained on a confidential or private basis. If, however, a confidential or private credit rating or the existence of a confidential or private credit rating subsequently becomes public through disclosure other than by an act of Ratings Services or its affiliates, Ratings Services reserves the right to treat the credit rating as a public credit rating, including, without limitation, publishing the credit rating and any related analytical reports. Any analytical reports published by Ratings Services are not issued by or on behalf of the issuer or at the issuer's request. Ratings Services reserves the right to use, publish, disseminate or license others to use, publish or disseminate analytical reports with respect to public credit ratings that have been withdrawn, regardless of the reason for such withdrawal. Ratings Services may publish explanations of Ratings Services' credit ratings criteria from time to time and Ratings Services may modify or refine its credit ratings criteria at any time as Ratings Services deems appropriate.

Reliance on Information. Ratings Services relies on issuers and their agents and advisors for the accuracy and completeness of the information submitted in connection with credit ratings and the surveillance of credit ratings including, without limitation, information on material changes to information previously provided by issuers, their agents or advisors. Credit ratings, and the maintenance of credit ratings, may be affected by Ratings Services' opinion of the information received from issuers, their agents or advisors.

Confidential Information. Ratings Services has established policies and procedures to maintain the confidentiality of certain non-public information received from issuers, their agents or advisors. For these purposes, "Confidential Information" shall mean verbal or written information that the issuer or its agents or advisors have provided to Ratings Services and, in a specific and particularized manner, have marked or otherwise indicated in writing (either prior to or promptly following such disclosure) that such information is "Confidential."

Ratings Services Not an Expert, Underwriter or Seller under Securities Laws. Ratings Services has not consented to and will not consent to being named an "expert" or any similar designation under any applicable securities laws or other regulatory guidance, rules or recommendations, including without limitation, Section 7 of the U.S. Securities Act of 1933. Rating Services has not performed and will not perform the role or tasks associated with an "underwriter" or "seller" under the United States federal securities laws or other regulatory guidance, rules or recommendations in connection with a credit rating engagement.

Disclaimer of Liability. Ratings Services does not and cannot guarantee the accuracy, completeness, or timeliness of the information relied on in connection with a credit rating or the results obtained from the use of such information. RATINGS SERVICES GIVES NO EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE. Ratings Services, its affiliates or third party providers, or any of their officers, directors, shareholders, employees or agents shall not be liable to any person for any inaccuracies, errors, or omissions, in each case regardless of cause, actions, damages (consequential, special, indirect, incidental, punitive, compensatory, exemplary or otherwise), claims, liabilities, costs, expenses, legal fees or losses (including, without limitation, lost income or lost profits and opportunity costs) in any way arising out of or relating to a credit rating or the related analytic services even if advised of the possibility of such damages or other amounts.

No Third Party Beneficiaries. Nothing in any credit rating engagement, or a credit rating when issued, is intended or should be construed as creating any rights on behalf of any third parties, including, without limitation, any recipient of a credit rating. No person is intended as a third party beneficiary of any credit rating engagement or of a credit rating when issued.

STATE OF MICHIGAN
DEPARTMENT OF TREASURY
LANSING

RICK SNYDER
GOVERNOR

R. KEVIN CLINTON
STATE TREASURER

DATE: April 22, 2014

TO: Kevin Clinton, State Treasurer

FROM: Wayne Workman, Deputy State Treasurer

SUBJECT: City of Flint No Bid Contract Approval

On April 9, 2014, the City of Flint requested approval of a $55,815 no bid contract with Ozonia North America for ozone generators as part of the City's upgrades to its Water Plant. Public Act 436 of 2012 requires that any no bid contract with a value exceeding $50,000 must receive approval of the State Treasurer.

Justification by the City

Follow-up from the City indicates that there is only one supplier of the requested equipment and no other compatible parts exist. The City's justification for this purchase is as follows:

The City purchased ozone generators in 2005 as part of a facility upgrade at the Water Plant. The manufacturer selected for these generators was Ozonia North America. This manufacturer was selected instead of the Fuji or General Electric brand The Water Plant is requesting to purchase dielectrics and there corresponding components for said generators. These are internal parts of the Ozonia generators, and other manufacturer parts are not compatible Therefore, Ozonia is the only vendor that can provide these parts.

The City originally canvass vendors that service the generators to procure the requested parts, however, it was determined that these vendors also order their parts from Ozonia It was determined that the City order parts directly from Ozonia.

Recommended Change to EM Order

Approval of this contract is being requested. No adverse impacts resulting from this purchase have been identified.

Attached for review is a copy of the Emergency Manager Resolution authorizing this no bid purchase.

If additional information is desired, please let me know.

For Immediate Release

City of Flint Officially Begins Using Flint River as Temporary Primary Water Source

Flint, Michigan – April 25, 2014 – For the first time in fifty years, the City of Flint is using the Flint River—part of the Saginaw River watershed—as a primary water source for city residents. Today the valve to the pipeline from Detroit was closed and the Flint River officially became Flint's water supply. The temporary switchover is scheduled to support the city's primary water needs for the next two years while construction of the forthcoming pipeline from Lake Huron is completed by Karegnondi Water Authority. Officials from the City of Flint, the Genesee County Drain Commission and the Michigan Department of Environmental Quality were all on hand to witness the historic event.

The Flint River was once the primary source of water for city residents up to the 1960s. Over the past 40 years, it has provided water to city residents as a back-up to water provided to us by Detroit. During our partnership with Detroit, Flint has had to transition to the use of the Flint River for residential water on a few different occasions, with the most recent temporary switchover happening in 2009. Each temporary stint on local water proved three things to city employees and residents alike: That a transition to local river water could be done seamlessly, and that it was both sensible and safe for us to use our own water as a primary water source in Flint.

Even with a proven track record of providing perfectly good water for Flint, there still remains lingering uncertainty about the quality of the water. In an effort to dispel myths and promote the truth about the Flint River and its viability as a residential water resource, there have been numerous studies and tests conducted on its water by several different independent organizations. In addition to what has been found in independent

studies, it is also the responsibility of the City of Flint Water Service Center to continually test the water provided to city residents. Michael Prysby of the Michigan DEQ Office of Drinking Water verified that "the quality of the water being put out meets all of our drinking water standards and Flint water is safe to drink."

For nearly 10 years Mike Glasgow has worked in the laboratory at the City of Flint Water Service Center. He has run countless tests on our drinking water to ensure its safety for public use. Mike has not only conducted tests on water provided to us by Detroit, but also on local water from nearby rivers, lakes and streams including the Flint River. When asked if over the last decade if he has seen any abnormalities of major concern in the water, his response was an emphatic, "No." In his words, "there has been nothing seen that was of major concern," during his ongoing tenure working in the lab. "The tests results have shown that our water is not only safe, but of the high quality that Flint customers have come to expect," announced DPW Director Howard Croft, "we are proud of the end result."

Apart from the water plant's devotion to ensuring that our water is good, Flint is doubly blessed in having the Flint River Watershed Coalition as a separate organization dedicated to monitoring the overall welfare of local bodies of water, overseeing more than 30 different nearby locations. Rebecca Fedewa has been director of the watershed coalition since 2008. By virtue of her passion for her work and her position on the board, she is very conversant with the condition of the Flint River. In her words, "The Flint River is increasingly healthy, and completely suitable as a drinking water source." Fedewa and FRWC are working closely with the city "to monitor flows and habitats between the intake and the waste water treatment plant to ensure there are minimal to no impacts to the overall health of the river."

FRWC also invites city residents to be a part of their monitoring exercises during this spring in order "to gain firsthand knowledge in the health and vitality of our Flint River." Mayor Dayne Walling invited everyone at today's event to toast to Flint's water. "It's regular, good, pure drinking water, and it's right in our backyard," said Mayor Walling, "this is the first step in the right direction for Flint, as we take this monumental step forward in controlling the future of our community's most precious resource."

–END–

City of Flint Wednesday 9:00 am Phone Conference Agenda
April 30, 2014

1) **Public Safety Update – FPD, MSP (FFD if needed)**

   a) Flint Fire Dept. – MIOSHA citation (see attached)

   b) Public Safety Study – preparing to sign contract and begin study.

   c) Police Initiatives provided to Governor – what is the status?

   d) Other update by Chief Tolbert and MSP.

2) **Governor's Office Update –Rich Baird, H. Hollins**

3) **Retiree Lawsuit – Status, Issues**

   There was a 4/22/14 meeting with attorneys and Judge Tarnow. Results: Judge Tarnow continues to pressure the plaintiff's attorney to work with the City on reaching a settlement and finishing up depositions.

   Regarding an E&Y "Ability to Pay" analysis: waiting for a proposal.

4) **Financial Update**

   a) Budget compilation underway, presentation to City Council Wednesday, April 30. The FY15 and FY16 budgets are balanced; however, significant cuts were made in public safety.

   b) Is bankruptcy now on the table for discussion now? See 5 yr. financial analysis.

   c) Update on E&Y 5 Year projections: reviewing final drafts.

   d) Model Contract Status – Preparing materials for imposition of FPOA contract and AFSME 1600 contract.

5) **City Council Update**

   a) Schedule for Council review of two year budget will be finalized upon receipt of proposed budget on April 30. Council, working through its Finance Committee plans to meet between May 5 and May 17 to review budget. Council plans to hold public hearing on May 18 and to provide comments and recommendations to EM by May 28.

b) The next regular City Council meetings are scheduled for Wednesday, April 30; Monday, May 19; Monday June 16, 2014.

6) **Blue Ribbon Committee**

The BRC plans to hold 3 charette style meetings which will begin May 3rd, followed by May 10th and 15th. Following the public meetings the committee will finalize their recommendations. Emergency Manager is considering timeline for a Charter Commission approval in the November election.

6) **Water Issues**

a) The City has successfully transitioned from DWSD to full operation on the Flint River. Shut-off ceremony was held on Friday, April 25, 2014. All DEQ requirements have been met.

b) Negotiations with GCDC continue with regards to sale of the pipeline section. COF current proposal is for $3.9 million sale price, the value established in recent valuation. Valuation has been submitted and reviewed by Treasury. Submission to Treasury for approval is anticipated prior to ending relationship with DWSD. Also, COF is negotiating back-up service agreement for GCDC for period between DWSD termination and KWA start-up.

State approval needed so that notice may be issued to Flint City Council.

7) **Other items**

Created on: 04/29/14

DATE: April 28, 2014

RE: **MIOSHA Update**

On April 14, 2014, Matthew Macomber of MIOSHA conducted a closing meeting regarding the alleged safety violations in the Flint Fire Department. This meeting included Fire Safety/Training Officer, Lt. Ramsey Clapper along with myself and Flint Fire Fighters Union Local 352 representatives.

Mr. Macomber informed us that the Fire Department was being fined for two violations. Violation #1 is the mechanical exhaust ventilation systems located within the fire stations are inoperable. Mr. Macomber referenced MIOSHA Part 74; Rule 7415 which states: ***"All equipment used for the control of exhaust emissions from fire apparatus shall be used, inspected and maintained in accordance with manufacturer's recommendations."***

Violation #2 is that employees, that utilize respirators, have reported breathing problems and were not properly cleared to return to work. Mr. Macomber stated that these employees must pass a pulmonary function test (PFT) prior to returning to work. He also stated that it would be in the City's best interest to perform PFT's on the entire fire department rather than to have MIOSHA research all employees' medical history.

Mr. Macomber stated he would present the two violations as one infraction to his superiors. If this occurs, it would be advantageous to the fire department because the original fine of $50,000.00 would be cut in half to $25,000.00. He also advised that if the fire department resolves both issues within 30 days of receiving the official written notice of violation, the fines could be cut in half again.

All of the fire stations' exhaust systems have been repaired with the exception of fire station 6 located at 716 W. Pierson Rd. City of Flint Maintenance Supervisor, Lee Osborne is currently waiting for a part that has been ordered. It should be repaired in no time once the part is received.

The Employee Health Clinic has been notified of the need to perform PFTs. They too are currently taking steps to make sure this will be completed within the specified time.

Dear Chief Cox:

RE: Inspection #312044290

On March 4, 2014, the Michigan Occupational Safety and Health Administration (MIOSHA), General Industry Safety and Health Division began an occupational health inspection at your worksite located at:

310 E. 5th Street
Flint, MI 48502

This inspection has resulted in at least one citation. Please review the citation(s) for information regarding penalties, abatement requirements, deadlines, settlement agreement instructions, and appeal information.

Enclosed you may find additional information such as recommendations, data sheets, an Inspection Findings for Complaint and Referral Issues form (IFCRI form), and supplemental information on occupational safety and health. This inspection may have resulted in citations not directly related to the complaint or referral items. These citations are not included in the description on the IFCRI form.

MIOSHA standards as well as additional consultation, education, and training materials are located online at www.michigan.gov/miosha.

Please direct all correspondence to our Saginaw office, located at 411 E. Genesee Ave., Saginaw, MI 48607. If you should have any questions concerning this matter, please contact me or Carla Mose at (989) 758-1726. Your personal support and interest in the safety and health of your employees is appreciated.

Sincerely,

Matthew Macomber

Flint, MI 48502			
Inspection Site:		**Reporting ID:**	0552652
310 E 5th St		**CSHO ID:**	F5827
Flint, MI 48502		**Optional Rptg Nr:**	

SUMMARY: An inspection at the site noted above has revealed conditions we believe do not comply with the provisions of the Michigan Occupational Safety and Health Act, Act 154, of the P.A. of 1974, as amended (MIOSHAct). The nature of such alleged violation(s) is described on the citation(s) with reference to the applicable standards, rules, regulations, orders and provisions of the Act. Following is a list of items the employer must consider carefully, to resolve the issues alleged in the citation(s). Following this numbered summary is a more detailed explanation of the requirements.

1. The violation(s) alleged in the citation(s) must be corrected on or before the date(s) shown in the line marked "Date By Which Violation Must Be Abated." If the line is marked "Immediately Upon Receipt", the violation must be corrected on or before the date that the citation is received by the employer. If the violation was corrected during the inspection, the line will be marked "Abated". Correcting a violation does not eliminate the requirement to pay the penalty nor does payment of the penalty negate having to correct the violation. Appeal rights are not affected by correcting a violation.
2. A copy of the citation(s) must be posted at or near the location of the violation(s) for a minimum of 3 days or until the item(s) have been corrected, whichever is later.
3. Documentation of abatement must be provided to the issuing Division. Failure to provide such documentation may result in a follow-up inspection.
4. The employer may enter into an informal settlement with the issuing division that can result in up to a 50% reduction in any assessed penalties. The employer should contact the issuing division within 5 workdays upon receiving a citation(s) if interested in an informal settlement.
5. The employer may file a first appeal for modification or dismissal of a citation item and/or any proposed penalty or request an extension of time for abatement. The appeal must be in writing and be postmarked within 15 workdays of receipt (workday is defined below). The first appeal can also result in a penalty reduction of up to 50%.

   If an appeal is untimely, the citation(s) becomes a Final Order of the Board of Health and Safety Compliance and Appeals (Board) and is no longer subject to review by the issuing division. An employee or employee representative may appeal abatement dates.
6. Monetary penalties must be paid within 15 workdays of a citation becoming a Final Order of the Board.

7. The employer may file a request for an extension of time to abate a citation(s) that has become a Final Order of the Board. Such a request must be in writing and received or postmarked no later than 1 working day following the abatement date.
8. It is unlawful to discriminate against an employee for exercising any of his/her rights under MIOSHA.

Note: As defined in statutes, "workday" or "working day" means any day other than a Saturday, Sunday, or state legal holiday. The state legal holidays are:

January 1, New Year's Day
The third Monday in January, Martin Luther King, Jr. Day
February 12, Lincoln's birthday
The third Monday of February, Washington's birthday
The last Monday of May, Memorial or Decoration Day
July 4, Independence Day
The first Monday in September, Labor Day
The second Monday in October, Columbus Day
November 11, Veterans' Day
The fourth Thursday of November, Thanksgiving Day
December 25, Christmas Day

Please note that whenever January 1; February 12; July 4; November 11; or December 25 fall on a Sunday, the next Monday following is deemed a public holiday (non-working day) for appeal purposes. However, there is no compensating day when one of the five dated holidays falls on a Saturday. Also, when computing the 15 working days, you do not count the date on which it is received; you start with the next working day. Additionally, the count is based on when the citation was received at the employer's location, not when it got to any particular person or office at the employer's location.

I - CITATIONS: The nature of the alleged violation(s) is described on the enclosed citation(s). These conditions must be corrected on or before the date(s) shown in the line marked "Date By Which Violation Must Be Abated." The issuing division may be contacted by telephone at the number indicated on the front of the citation for the purpose of discussing any issues related to the inspection or citation(s).

A copy of the citation(s) must be posted at or near the location of the violation for a minimum of 3 days or until the items have been corrected, whichever is later. The MIOSHAct provides for civil penalties of up to $7,000 for each violation for failure to comply with posting requirements. When compliance is achieved, a copy of the citation must be signed and returned to the issuing division along with documentation of abatement.

Documentation of abatement for citation items originally classified as "serious," "repeat," "fail-to-abate," "willful," or "instance-by-instance," require documentation as deemed appropriate by the issuing division. Examples of documentation for these violation classifications are:

(a) A detailed description of how the violation was abated.
(b) Work orders or an invoice indicating the corrective work that has been done.
(c) Photographs of the abated conditions.
(d) Other forms of conclusive evidence that your employees are no longer exposed to the hazards.

For citation items classified as "other," submitting to the issuing division a signed copy of the citation item indicating the item has been abated is acceptable documentation of abatement. Submitting a document in writing, certifying abatement of the particular citation item is also acceptable for citation items classified as "other."

If the employer does not provide adequate documentation of abatement, a reinspection may be conducted. Failure to correct an alleged violation within the abatement period may result in new or additional proposed penalties.

Correcting a violation prior to the expiration of the abatement date does not eliminate the requirement to pay the penalty. Payment of the penalty does not eliminate the requirement of correcting the violation.

II - INFORMAL SETTLEMENT: In addition to the appeal rights afforded by the MIOSHAct, the Michigan Occupational Safety and Health Administration has implemented a program for negotiating informal settlement with the employer. This is a program designed to reach abatement of the hazard at the earliest opportunity and reduce the need for formal appeals. The informal settlement can result in a penalty reduction of up to 50% provided the issuing division and the employer agree to a number of specified conditions. These conditions include an agreement by the employer to:

(a) Not appeal further.
(b) Abate all items within the abatement period.
(c) Provide proof of abatement.
(d) Pay all agreed upon penalties.
(e) Abide by any other mutually agreed upon actions.

If you are interested in pursuing an informal settlement, you should contact the issuing Division within 5 workdays upon receipt of the citation(s), but no later than the 15th workday beyond receipt of the citation(s). If the employer wishes to accept the conditions stated above and the process can be completed within 15 workdays from receipt, then no appeal needs to be filed.

III - CITATION APPEAL: An employer may file a first appeal to the issuing division in writing for modification or dismissal of a citation item and/or any proposed penalty or an extension of time for abatement. The first appeal can also result in a penalty reduction of up to 50% providing the issuing Division and the employer agree to the conditions (a) through (e) as stated in Section II, INFORMAL SETTLEMENT (above).

An employee or employee representative may appeal in writing the reasonableness of the abatement date(s). The envelope containing an appeal must be postmarked no later than the 15th workday following receipt of the citation.

If a citation is not appealed within 15 workdays of receipt, then the citation becomes a Final Order of the Board of Health and Safety Compliance and Appeals (Board). Final Order citations are not subject to review by the issuing division unless the Bureau of Hearings establishes good cause for the late appeal.

An appeal must specify the item(s) appealed and that portion of the item (e.g., violation, abatement date, penalty) that is being appealed and include a certification that the appeal has been posted or given to affected employees or their representatives. If the issuing division meets with the employer to discuss an appeal, the issuing division will notify the employee representative and allow attendance at the meeting.

The issuing division will notify an employer of its decision within 15 workdays of the receipt of the employer's written appeal. The decision must be posted at the location of the subject citation.

If an employer, employee or employee representative is not satisfied with this decision they may file a second appeal. The appeal must be in writing and the envelope containing the second appeal must be postmarked within 15 workdays of the receipt of the issuing division's decision on the first appeal. If the issuing division's decision is not appealed, the citation becomes a Final Order of the Board.

IV - MONETARY PENALTIES: Payment must be made within 15 workdays of the date a proposed penalty of a citation becomes a Final Order of the Board. This would be the 30th workday after receipt of each citation item that is not appealed. For payment of a penalty, make a check or money order payable to the "State of Michigan" and

remit to the issuing division at the address shown on the citation. Please record the inspection number, citation and item number on the check, money order or transmittal letter.

V - EXTENSION OF TIME TO ABATE: An employer may file a petition for modification of abatement date(s) (PMA) on an item of a citation that has become a Final Order of the Board. The PMA must be submitted to the issuing division in writing by personal delivery or postmarked no later than one day following the abatement date, and a copy posted near the place the citation was posted. An employer must have made a good faith effort to correct the violation by the abatement date, and has not been or will not be successful because of factors beyond the employer's reasonable control. A PMA must include:

(a) Steps taken to achieve compliance.
(b) The specific additional abatement time necessary.
(c) The reasons the additional time is needed.
(d) Available interim steps being taken to safeguard the employees against the cited hazard during the abatement period.
(e) A certification that a copy of the PMA has been posted for employees at the location of the subject citation. The posted copy must remain posted for a minimum of 10 workdays.

If the issuing division or affected employees file an objection to the PMA within 10 workdays of the employer's filing date, the Board will schedule a hearing and advise the employer of the date, time, and place of the hearing.

VI - EMPLOYEE DISCRIMINATION: Section 65 of the MIOSHAct, prohibits discrimination against an employee for filing a complaint or exercising any rights under the MIOSHAct, as amended. If an employee believes that he or she was discharged or otherwise discriminated against as a result of filing a complaint, they may file a complaint with the MIOSHA Employee Discrimination Section within 30 calendar days after the violation occurs.

VII - STATE CONSULTATION EDUCATION AND TRAINING SERVICES: The MIOSHA Consultation Education and Training (CET) Division offers a wide range of services to help businesses with their health and safety practices. CET services include: helping employers create a Safety and Health Management System, seminars and workshops, onsite consultations, hazard surveys, an equipment loan program and information material. The majority of CET services are provided free of charge to Michigan employers and employees. For information on these services, contact the CET Division at (517) 322-1809 or visit their web site at www.mi.gov/miosha.

Citation and Notification of Penalty

Company Name: Flint Fire Dept
Inspection Site: 310 E 5th St, Flint, MI 48502

Citation 1 Item 1a Type of Violation: Serious

RESPIRATORY PROTECTION, PART 451, 1910.134(e)(7)(i):
The employer shall provide additional medical evaluations that comply with the requirements of this section if: an employee reports medical signs or symptoms that are related to ability to use a respirator:

Firefighters have had lost time injuries, job transfers or restrictions for respiratory disorders. The employer has not provided follow up medical evaluations.

Date By Which Violation Must be Abated: 05/28/2014
Proposed Penalty: $ 4500.00

INSPECTION FINDINGS FOR COMPLAINT AND REFERRAL ISSUES

Michigan Department of Licensing and Regulatory Affairs

MIOSHA

Est. Name: **City of Flint Fire Department** Insp#: **312044290** CSHO: **F5827**

Site Address:
310 E 5th St, Flint, MI 48502

Inspection Dates:
March 4, 2014 – April 14, 2014

Complaint#:
209282839

ALLEGED HAZARD: The Nederman System within the fire stations has been inoperable for over two years. Exhaust from diesel engines, which includes carbon dioxide, carbon monoxide, nitric oxide, nitric dioxide, sulfur oxides, hydrocarbons, PAHs and traces of metallic compounds are being emitted into the air. Exhaust emissions from a cold-start engine can reach toxic levels within a closed building such as with the firehouse. Although vehicles only run a short time inside the fire stations, the vehicle exhaust builds up in the building.

INSPECTION FINDINGS: Part 74, Fire Fighting, requires that all equipment used for the control of exhaust emissions from fire apparatus shall be used, inspected, and maintained in accordance with the manufacturer's recommendations. The Fire Department has not maintained the equipment used for exhaust ventilation according the manufacturer's recommendations.

See attached citation.

ALLEGED HAZARD: Members are developing breathing problems.

INSPECTION FINDINGS: The MIOSHA Forms 300 Log of Work- Related Injuries and Illnesses were reviewed for calendar years 2011- 2013 and employees have reported respiratory ailments and breathing problems. Employees have not had appropriate medical evaluations that meet the requirements of Part 451, Respiratory Protection.

See attached citation.

INSPECTION FINDINGS FOR COMPLAINT AND REFERRAL ISSUES

Michigan Department of Licensing and Regulatory Affairs
MIOSHA

Est. Name: **City of Flint Fire Department** Insp#: **312044290** CSHO: **F5827**

ALLEGED HAZARD: Hazard: R408.17415. Fire station safety, Rule 7415

(6) all new construction or significantly remodeled facilities (50% or more area) that house fire apparatus shall install a controlled process exhaust ventilation system that will effectively control exhaust emissions created by the fire apparatus and will assure that employee exposure to the exhaust emissions do not exceed applicable MIOSHA exposure limits. If a general mechanical exhaust ventilation system is utilized, then a mechanical air supply system shall be provided if its absence will result in building negative pressures sufficient to cause back drafting of vents from fuel-fired equipment.

(7) All equipment used for the control of exhaust emissions from fire apparatus shall be used, inspected, and maintained in accordance with manufacturer's recommendations.

INSPECTION FINDINGS: See attached citation.

ALLEGED HAZARD: Hazard: R408.17411 Rule 7411

(1) An employer shall comply with all of the following requirements: (c) Assure that job-required equipment and tools are maintained free of recognized defects that could cause an injury.

INSPECTION FINDINGS: See attached citation.

Subject: Final draft - Flint proposed 2 year budget and 3 year projections
Attachments: final projected budget.PDF

Wayne, Ed, and Randy,

The attached document will be presented to City Council tomorrow night. We will also be briefing the media.

You will see that the current state of the retiree healthcare lawsuit is having a very significant impact on city finances.

Jerry

RE: Proposed Budget for Fiscal Years 2014/15, 2015/16

DATE: April 30, 2014

Transmitted herewith is the proposed biennial budget for the City of Flint. This budget covers the 2014/15 and 2015/16 fiscal years which begin July 1, 2014 and July 2015, respectively. As you may know, Public Act 436 discusses adoption and implementation of a 2-year budget before appointment of a transition advisory board. See MCL 141.1561

The budget as proposed represents a balanced, responsible and sustainable spending plan for the two fiscal years. Because it is expected that sometime within the implementation of this budget the City of Flint will transition to local control as provided in Public Act 436, your input and engagement in this process is requested.

The Finance and Administration Committee will begin its review of the budget and staff will be available to discuss the recommendations, speak to the utilization of resources, and assist the committee in its understanding of the proposals as presented.

I look forward to the dialogue on the proposed spending plan. Please keep in mind that in order for your input to be productive, it must take into account the significant financial challenges confronting the City. Public Act 436 requires the adoption of a balanced budget.

Please call me should you have any questions regarding the process, timelines, etc.

City of Flint 5-Year Financial Plan

Preface

This proposed budget for the City of Flint covers the FY15 and FY16 fiscal years which begin July 1, 2014 and July 1, 2015 respectively. Financial projections for the following 3 fiscal years are included as well.

This budget has been developed within the context of the City's recently adopted Master Plan, the Vision, Mission, and Goals for the City government as adopted by the City Council, and the Budget Priorities as adopted by the City Council. Accompanying this budget is a preliminary statement of objectives initially proposed to be accomplished during the two years. As the budget is finally adopted, the objectives will also be finalized.

Taken together, the budget and strategic plan will serve as a template to move the City government forward to become a well-managed, financially stable, and accountable organization focused on creating a vibrant and growing community which will attract and retain residents, businesses, students, and visitors and improve our quality of life.

However, this budget demonstrates the continuing financial challenges facing the City of Flint. Stagnant revenue growth in property tax and income tax revenues, coupled with significant increases in legacy costs, retiree health care in particular, create a significant gap between revenues and expenses which require increases in other revenues and decreases in City staffing and services including the possibility of adjustments in public safety services.

Unfortunately, the financial forecast for the next several years beyond FY16 show a continuing gap between projected revenues and expenses. Within the next few years, without significant means to identify and collect additional revenues, or to further reduce the cost base, the City of Flint will be extremely challenged to provide even the most basic of City services.

Over the next several weeks, this proposed budget will be reviewed by the City Council, which will also hold a public hearing to receive citizen input. The Mayor and Council will subsequently provide comments and recommendations pertaining to the budget to the Emergency Manager, and the budget and strategic plan will be adopted in early June.

Background

The City of Flint has been in state receivership since December, 2011, as a result of consistent deficits in the General Fund, a decline in pooled cash, unrealistic budgeting, and unfunded liabilities for postemployment benefits. Significant progress has been made in addressing these financial issues, as the $19.1 million deficit at the end of FY12 had been reduced to $12.9 million at the end of FY13, cash position had improved, and the FY14 budget was realistically balanced, with further reduction of the deficit anticipated.

The FY14 budget was designed and implemented with the same goals in mind – operating within the constraints of available revenues; restructuring operations and cost factors to enhance future financial stability, and continuing to reduce the remaining $12.9 million deficit. The FY14 budget was constructed with the specific intent of further reducing the deficit by a minimum of $1 million, by budgeting expenses at $1 million less than projected revenues. As of January 31, 2014, seven months into the FY14 year, revenues and expenses are on target.

In order to regain and maintain financial solvency, it is not only necessary to eliminate the remaining accumulated deficit but to have an adequate amount of reserves to protect the City in the event of unexpected financial losses. Planning to accomplish this requires a continual dedication of revenues over the next several years to eliminate the remaining deficit and establish an adequate reserve level. A draft deficit elimination plan to accomplish this is currently under review by the Michigan Department of Treasury.

Making progress to date has required hard decisions and sacrifices for all. The FY13 and FY14 budgets were balanced through a mixture of significant revenue increases, significant expenditure decreases, and steps taken to reduce legacy costs. Revenue increase included a 25 percent increase in water and sewer rates, passage of a 6 mill property tax increase for police and fire, establishment of a special assessment district for street lighting, and implementation of a fee sufficient to cover the cost of waste collection. Expenditure reductions included elimination of 20 percent of the City's workforce, compensation decreases equivalent to a 20 percent wage reduction for remaining employees, and the restructuring of health and retirement benefits for current employees and retirees necessary to develop a credibly balanced spending plan.

The actions taken to-date to restructure healthcare benefits for current employees and retirees have also had a significant impact on reducing both current costs and long-term liabilities. The 20% reduction in the workforce required significant reorganizational activities focused on reducing current costs. Long term liabilities were reduced by eliminating traditional defined benefit pension programs for new employees in favor of hybrid plans; by moving the City's retirement system into the a state wide retirement system; by restructuring health insurance benefits for current employees and placing retirees into those same plans; and by eliminating the promise of retiree health care for new employees in favor of providing retiree medical savings accounts. Much of the positive financial result in FY13 came from these actions. The restructuring, which was implemented during the course of FY12, reduced the City's OPEB liabilities alone from nearly $900 million to less than $325 million as noted in the FY13 audit.

The efforts of the City to regain financial solvency have been aided by support from numerous Federal, State and private partners. State police troopers have been placed in the City to support local law enforcement efforts, and funds have been allocated to enhance prosecution activities and to operate the City's lock up. The Governor's proposed budget continues this support.

The steps taken to begin to restore the City to financial solvency have not been without conflict and changing circumstances. A significant legal challenge has been made to the decision to move retirees from their historical health insurance plans into the same plans offered current employees. This action resulted in an initial cost reduction in FY13 of $3.5 million to the City and imposed deductibles and co-pays on retirees. This challenge is currently pending in federal court. If the challenge is ultimately upheld, it will pose a significant challenge to the City in its efforts to regain and maintain financial and service solvency. Due to the stay imposed by the federal court, the City must increase its budget for retiree healthcare costs in the FY15 budget by $5 million and may even need to pay more as retirees seek reimbursement for past medical expenses. These healthcare expenses will continue to increase in subsequent years.

Legacy costs in total will continue to be a cost burden to the City of Flint. In FY 14, the City budgeted $30.2 million for its retiree healthcare and pension costs, an amount equal to 17% of its total revenues. The General Fund alone budgeted $16.4 million, an amount equal to 31% of its total revenues. By FY19, it is projected that the City will need to budget over $43 million, an amount equal to 23% of its total revenues. For the General Fund alone, the amount projected to be needed will exceed $21 million, an amount equal to 34% of General Fund revenues.

The future financial solvency of Flint will also be challenged by a continuing structural deficit. As part of the planning for future financial solvency, five year projections and a strategic plan were developed. This exercise indicated a significant financial challenge forthcoming in FY15, due to the current status of the retiree health care lawsuit and the ending of a major grant supporting firefighting resources. Future year projections also show a continuing gap between revenues and projections.

Finally, the most important challenge to be addressed in the City of Flint will be instituting structural changes in the organization of the City to foster financial solvency as a core value and to assure that future governance and management of the City is conducted in a financially responsible manner. To this end, the current Emergency Manager has created a Blue Ribbon Committee on Governance, charged with developing recommended changes to current ordinances, procedures, and the Charter. The recommendations of the Task Force are anticipated within six months.

Overview

The City of Flint has spent considerable time planning for the community's future through the comprehensive master plan and creating an organizational framework focused on the City's new vision, mission, and goals. The 2-Year budget has been developed in a balanced manner to best meet the needs of a variety of service areas and challenges.

However, challenges to changes in retiree healthcare and the loss of grant funds have required that a new service baseline be established; this also poses significant and immediate challenges to the City's financial viability. Current court rulings in regards to the retiree health care lawsuit have increased retiree health care expenses nearly $5 million in FY15, and the loss of the SAFER grant ($ 3.4 million) eliminates funding for 39 of the City's 65 firefighters.

The harsh winter increased the need to remove hundreds (if not thousands) of damaged and fallen trees throughout the city, and to repair damaged roads and sidewalks. The winter also placed additional stress on the antiquated city facilities as they faced water leaks and damage to walkways and sidewalks. Implementing the master plan, and continuing to eliminate blight will also require dedicated resources going forward.

The recently completed study of the water and sewer system finances also demonstrated a shortfall in revenues needed to operate this critical service and provide for necessary maintenance. As much as the high rates for providing water and sewer services pose significant financial challenges and community implications, the alternative of not addressing basic maintenance and adjustments based on guidance in the master plan is equally challenging.

These factors have a significant effect on the proposed staffing levels. Reductions in city staffing over the past two years have come almost exclusively from City services other than police, fire, and 911. As a result, those remaining city services are thinly staffed, and despite valiant efforts of dedicated employees, service levels have been reduced. In some cases, the reductions have been severe and counter-productive. For example, reductions in customer service at Treasury and staffing at Utilities has reduced capacity to effectively pursue collection of delinquent bills. Reductions in Information Technology have slowed the implementation of technology which can improve effective processing. Reductions in Human Resources have slowed the process of hiring employees. Reductions in Building Safety have slowed the process of conducting inspections and issuing permits, and have eliminated much in the way of code compliance efforts.

Therefore, balancing the budget in a financially sustainable way requires addressing the impact of these issues. It also requires that they are addressed within the context of the Mayor's and Council's stated budget priorities. The Council's stated priorities are:

- Maintaining police and fire staffing levels at the maximum level feasible
- Reducing the General Fund deficit by at least $1 million
- Continuing efforts to reduce blight, including demolition
- Hiring an experienced City Administrator
- Assure that capacity exists to implement the Master Plan
- Add capacity in the areas of Economic Development

- Fund years 1 & 2 of capital improvements identified in the Master Plan
- Improve street maintenance
- Establish parks partnerships
- Improve customer service through training and technology
- Increase removal of dead and diseased trees
- Evaluate ways to reduce water and sewer rates for constituents in the budget process

Balancing the budget responsibly in the context of these immediate and significant financial challenges, while addressing stated priorities, is a significantly difficult task. The unplanned addition of $5 million in expenses for increased retiree health care is a "Game-Changer" and seriously undermines the ability of the City government to move forward in becoming a positive force helping to create a vibrant and growing community which will attract and retain residents, businesses, students, and visitors and improve quality of life.

As the development of the FY15 budget began, there was a significant gap between projected General Fund revenues and General Fund expenses alone. While some revenue sources indicated a slight increase over the current year, projected expenses were significantly above the current year. The expense increases are due primarily to a nearly $5 million increase in costs for retiree health care and an increase in the per person cost of pension contribution. In addition, there was recognition of the need to assure capacity to implement the Master Plan to continue addressing blight, to address increased costs of health care for current employees, and to address critically needed facility maintenance.

The budget presented here is balanced in a financially responsible manner, in that revenues and expenses meet. However, the consequence is that, where possible, revenues have been increased, and where necessary, expenses have been decreased. Whether the result is an acceptable result, in the context of the needs and the future of the City, is uncertain.

It is clear that proposed changes in service levels reflected in this budget are significant, and that at the same time the financial plan is being finalized within the confines of available revenues, considerable efforts will continue to mitigate the impacts. Continued efforts to achieve a satisfactory resolution of the retiree healthcare lawsuit, as well as to continue searching for additional sustainable funding, or to engage in mutually beneficial partnerships will continue. The changes necessary to achieve necessary balancing of revenues and expenses will be done in a managed way, not in a crisis response.

The financial projection for the years following FY15 and FY16 show the continuing challenge of a structural deficit. Without a means to identify a new significant revenue source or to sustain and even make further reductions in the City's cost base, such as retiree health care, Flint will be extremely challenged to provide even the most basic of City services in future years.

Highlights of the Proposed Budget

Costs to taxpayers are increased....

- Property tax levies remain unchanged
- Street lighting assessment increased to $71 in FY15 and $74 in FY16
- Solid Waste fee increased to $163 in FY15 and $169 in FY16
- Water and Sewer rates increased by a total of 6.5% in FY15 and 6% in FY16

Costs to City employees are increased....

- 20% premium share for health insurance implemented
- Premium contribution for non-Medicare eligible employees retiring after July 1, 2014 established
- 50% premium share for dental and vision insurance implemented
- Vacation and sick leave replaced with PTO, new accumulation caps established
- All new employees enrolled in hybrid pension plan
- All new employees enrolled in RMSA in lieu of promise of retiree health care

Legacy costs are increased significantly...

- General Fund costs for retiree health care are increased 25%, from $8 million to $10 million in FY15, increasing on an annual basis thereafter
- General Fund costs for retiree health care and pension in total are projected to increase from $16.4 million (31% of total revenues) in FY14 to $21.5 million (34% of total revenues) by FY19
- For all funds, total costs for retiree healthcare and pension are projected to increase from $30.4 million (or 17% of total revenues)in FY14 to $43.5 million (23% of total revenues) by FY19

City staffing is budgeted at 528 in FY15 and 529 in FY16.....

- Staffing is maintained in District Court, 911, Finance, Assessing, Transportation, IT, and Fleet
- Police Department – Total department staffing will be 115, with 7 vacant positions and 29 additional positions eliminated through attrition by end of FY15. Additionally, a recently offered COPS Hiring grant for six School Resource Officers will not be accepted. The next several months will be focused on mitigating the impact of this through reorganization with the assistance of consultants specialized in police and fire service; seeking additional funds; and obtaining assistance from law enforcement partners in order to achieve the best possible level of police response.
- Fire Department – Total department will be 75, with 19 positions eliminated as the SAFER grant expires. There are several vacant positions to be eliminated as part of this, with a goal of needed reduction no later than December, 2014. The next several months will be focused on mitigating the impact of this through reorganization and restructuring obtained with the assistance of consultants specialized in fire and police service.

- Planning and Development Department - Staffing is at 22, with 2 positions eliminated. The department is being reorganized to assure capacity to implement the newly adopted Master Plan and continue efforts of blight management. Continued assistance in the form of grants and partnerships will be utilized, and general fund support for those activities is increased.

- Public Works Department - 6 positions are added to the Utilities division as the Water Treatment Plant begins operation as the primary source for Flint water; 1 position is added to Facilities to address critically needed maintenance issues.

- Finance and Administration Department - 1 positions is added to the Treasurer's Office to increase delinquent collections, with the added cost to be offset by additional revenues.

- Governance – As efforts to resolve the financial emergency progress, the position of City Administrator will be filled. Additionally, the salaries of Mayor and Council are partially restored as their role in governance increases.

Council budget priorities are addressed as follows:

- Maintaining police and fire staffing levels at the maximum level feasible – Due to revenue shortfall, increased retiree health care, and lack of other options, staffing is reduced. The Police and Fire millage funds will be used to fund 20 fire fighters and 26 police officers through FY15 and FY16. However, the accumulated millage funds will be fully used by the end of FY16.

- Reducing the General Fund deficit by at least $1 million – General Fund expenses are budgeted at $1 million less than revenues, and $800,000 in Capital Improvement Funds will be appropriated to the Utilities, thus reducing the General Funds debt to the Utility Fund by an additional $800,000. The plan is to continue this commitment for the next several years until the deficit is eliminated, and then the commitment will become one of building a financial reserve equal to 15% of General Fund revenues.

- Continuing efforts to reduce blight, including demolition – CDBG funds continue to be used for demolition and General Fund is assuming partial cost of the Blight Coordinator position

- Hiring an experienced City Administrator – Funds are included in budget.

- Assure that capacity exists to implement the Master Plan – General Fund is assuming partial cost of the Planning and Development Director, and Associate Planner, and a position of GIS technician is created, whose funding is shared among various city funds. Lead partners will be identified in each work area. Also, the Mayor has committed to overseeing the process of assuring that Master Plan implementation is an ongoing important part of city operations.

- Add capacity in the areas of Economic Development-The P&D Director is committed to defining a program for small business development, to be funded in FY16 through CDBG funds. Additionally, 20% of staff time of two DCED staffers and a portion of the Director's time will be devoted to economic development. Also, the Mayor has committed to leading the City's economic development efforts with partners and the assistance of this City staff.

- Fund years 1 & 2 of capital improvements identified in the Master Plan – the CIP portion of the Master Plan will be finalized in FY15, and the results will be considered for inclusion in the FY16 budget.

- Improve street maintenance – Due to minimal increases in state funding for streets, maintenance efforts will continue at the current levels. State financial support has been sought and obtained for some major street projects, in particular those related to economic development projects.

- Establish parks partnerships – The Planning and Development Department now has oversight of Parks, and as one of its strategic objectives, has committed to increase the number of parks partnerships in FY15 and FY16. Funding even the most basic of parks maintenance activities is increasingly challenging within the constraints of the parks millage funds. The goal is to eliminate General Fund support of these activities by the end of FY16.

- Improve customer service through training and technology– Human Resources, as it did in FY14, is committed to continuing ongoing training for supervisors and will be extending these efforts to all employees. IT likewise is committed to providing ongoing training for employees. Finally, most departments are including funds for ongoing training for employees. For example, the Treasury's customer service division is committed to specific customer service training for its front line employees.

- Increase removal of dead and diseased trees – Oversight of removal of trees within street right of ways is now the responsibility of the Transportation Division of Public Works, removal of trees within Parks is now the responsibility of Planning and Development; and removal of trees on other city properties is the responsibility of the Facilities Division of Public Works. Unfortunately, there is only a limited amount of funds available for these purposes, and the general effort will be focused on emergency responses. However, the Transportation Division is committed to attempting to secure assistance from other entities to increase capacity to address this problem.

- Evaluate ways to reduce water and sewer rates for constituents in the budget process-The results of the recent rate study confirm that it unlikely that water and sewer rates can be decreased at any time in the foreseeable future, and in fact, rates need to be increased. However, the actions taken to date to join KWA and to temporarily use the Flint River show that future rate increases will be less than had the City stayed with its prior provider.

Absent new sources of funding or reduced expenses in areas such as retiree healthcare, the commitments to progress and the staffing and service levels here are anticipated to continue for both FY15 and FY16. It is anticipated that the slight additional revenues in the General Fund for FY 16 will not be sufficient to cover increased costs, and it will be necessary to utilize additional funding from the police and fire millage to cover the costs of some police or fire positions in the General Fund in FY15. Depending on the rate of attrition in the Police Department, there should be sufficient remaining funds in the Police and Fire millage to avoid additional reductions in police or fire positions in FY16.

FLINT STRATEGIC PLAN

2015 -2019

Setting a Sustainable Course for the City of Flint

The Vision for the City Government of Flint:

A well managed, financially stable, and accountable government focused on creating and maintaining a vibrant and growing community which will attract and retain residents, businesses, students, and visitors and improve our quality of life.

The Mission of the City Government:

To assure that residents, businesses, students and visitors in the City of Flint receive municipal services in a customer friendly and financially responsible manner

The Goals:

In order to realize our Mission, residents, businesses, students and visitors can expect that:

The City will provide a highly trained and professional staff of elected leaders, appointed officials and employees

The City will provide for a safe, secure, and healthy environment in which to live, work, learn and play

The City will provide access to dependable and affordable water, sewer, and waste collection

The City will provide access to an adequate and well maintained transportation network serving motorized, non-motorized, and pedestrian needs

The City will foster cooperation between business, non-profit, and foundation partners and residents to create a climate that supports community and economic development

The City government will also:

Seek partnerships with Local, State and Federal governmental partners and other private entities in order to maximize efficiencies and resources in meeting its Mission

Provide municipal services consistent with the City's Master Plan and also work with residents, businesses, and others to foster development of the City and its infrastructure in a manner consistent with its Master Plan

Encourage partnerships for recreation and access to open space across the City

Enforce building and occupancy codes and to aggressively work with others to address blighted conditions

Assure that City ordinances and regulatory activities are consistent with the Master plan and supportive of economic development

Operate in an open and financially sustainable manner, including improving citizen access, focusing on measurable results, improving the City's financial position, and eliminating accumulated deficits

Mayor and Council Priorities for Developing the Two-year (FY15 & FY16) Budget

The Mayor and Council request that the two-year budget to be developed will include a set of objective which, when achieved, will result in significant progress being made towards achieving their stated Vision, Mission, and Goals.

Additionally, the Mayor and Council request that the two-year budget to be developed address the following specific priorities:

1. Maintain police and fire staffing levels at the maximum level feasible
2. Reduce the General Fund deficit by at least $1 million
3. Continue efforts to reduce blight, including demolition
4. Hire an experienced and professional City Administrator
5. Assure that capacity exists to implement the Master Plan
6. Add capacity in the area of Economic Development
7. Fund years 1 & 2 of capital improvements identified in the Master Plan
8. Improve street maintenance
9. Establish parks partnerships
10. Improve customer service through training and technology
11. Increase removal of dead and diseased trees
12. Evaluate ways to reduce water and sewer rates for constituents in the budget process

Attachments: Water Advisory 8.18.2014.pdf

For Immediate Release

City of Flint Boil Water Advisory Still in Effect for Area Affected by Discovery of Abnormal Water Sample

Flint, Michigan – August 18, 2014 – The City of Flint's Utilities Department has received word today from the Department of Environmental Quality that the boil water advisory issued for a small portion of the city is still in effect although additional testing has shown no signs of E-coli or fecal coliform bacteria in the water. Testing over the last 48 hours has shown that the water tests negative for the presence of fecal coliform bacteria and E-coli, but an abnormal test result triggered the advisory. It is believed that a sampling error is to blame for the abnormal test; however, as a precaution, the advisory will remain in effect until the next citywide sampling has been completed. The next round of routine testing will take place on Tuesday, August 19, 2014 with the possibility that the advisory could be lifted as early as Wednesday, August 20, 2014.

Testing of the drinking water is a part of the routine process for ensuring the quality and safety of the system which happens weekly at nine different sites around the city. Drinking water contamination due to E-coli or coliform bacteria is very rare due to the fact that the bacteria cannot survive in the water for very long. The colder temperature of water in the system coupled with the regular blending of chlorine into the water makes for a hostile environment for these kinds of bacteria. The Flint Water Treatment Plant works diligently to provide water of the highest quality to everyone in the city.

–END–

City of Flint Wednesday 9:00am Phone Conference Agenda
August 20, 2014

1) **Public Safety Update – FPD, MSP, (FFD, if needed)**
   a) FPD –
      i. FBI vs FPD stats variation
   b) FFD
   c) Traffic Accidents Resulting in Death of Flint Citizens – Update on Strategies Special ALPACT Meeting scheduled for August 22, 2014
   d) Would like to have a statement of the mission, goals, and objectives of MSP/FPD collaboration.
   e) Other update from Chief Tolbert and MSP

2) **Governor's Office Update – R. Baird, H. Hollins, B. Clement**
   a) Court Consolidation

3) **Lawsuits – Status, Issues**
   a) Retiree Lawsuit – On June 30, 2014 Judge Tarnow issued an order modifying in part his preliminary injunction barring the City from modifying retiree health care benefits. While the details of the Judge's recent order are still being reviewed, and while the details of implementing the order are still being developed, it appears that the ruling will have a positive financial impact on the City, at least for the period while the litigation continues. A meeting between the City and Cornerstone was held on July 21, 2014 to discuss the compilation of alternatives based on Judge's new orders. An implementation date is anticipated in the second quarter of the year.

4) **Financial Update**
   a) Remaining bargaining units in "meet and confer" sessions: Fire, Sgts., and Capts. & Lts.
   b) Need to start to develop a plan to begin pre-funding employee healthcare.

5) **City Council Update**
   a) Councilman Eric Mays was sentenced to 72 days in jail following impaired driving sentencing. He was released, pending appeal, with a $15,000 bond.
   b) Council wants to retain an attorney for an outside legal opinion on when the 18 month term (to allow them to remove the EM) commenced. They discussed asking Darnell for the money to hire an outside attorney, but they ultimately have decide to pool their own money.
   c) A grid-timeline is being developed using the 7 point Transition Management plan. This will be used as an itemized list of steps to be completed in order to prepare for transition. (See attached)

6) **Blue Ribbon Committee on Governance**
   a) Five Charter Amendments and the question of whether to have a general revision of the current charter have been placed on the November ballot. These were as recommended by the BRC.

7) **Water Issues**
   a) The cost of providing water is becoming a state-wide issue for distressed communities. Let's begin a larger conversation on both the impacts and the potential limitations for cities and how the State could play a role. Meeting held last week with United Way and Resource Genesee to discuss options for residents who receive water shut off notices.
   b) Glenn Acres – water turn-on order from Judge Hayman
   c) Limited area boil-water notice
   d) General Motors Water Issues

8) **Messaging**
   a) A plan is being developed to present to the community at-large and to the various interest groups (i.e. business, investors, foundations) the background of the financial emergency, the actions taken and next steps to emerge from receivership. This will be an on-going item for discussion.

9) **Recruitment and Selection of City Administrator/Manager**
   a) Provide guidance on several considerations: duration of appointment, contract, consistent with TAB, working with TAB, etc.
   b) Emergency Manager is developing a recruitment and selection calendar; recruitment to begin September 1, 2014.

10) **Other Items**

Attachment: Steps to Prepare for Transition from Emergency Manager to Receivership Transition Advisory Board

INVITATION TO BID

OWNER:

THE CITY OF FLINT
DEPARTMENT OF PURCHASES AND SUPPLIES
1101 S. SAGINAW ST., Room 304
FLINT, MI 48502

Proposal No. 14-564

SCOPE OF WORK:

The City of Flint, Department of Purchases & Supplies, is soliciting sealed proposals for providing:

WATER & SEWER RATE STUDY

per the attached additional requirements.

If your firm is interested in providing the requested services, please submit 1 original and 2 copies of your detailed proposal to the City of Flint, Department of Purchases and Supplies, 1101 S. Saginaw St., Room 304, Flint, MI, 48502, by **Thursday, November 7, 2013 @ 3:00 PM (EST)**. Please note: all proposals received after 3:00 PM (EST) will not be considered. Faxed proposals into the Purchasing Department are not accepted.

All additional bid documents, requirements, addendums, specifications and plans/drawings (if utilized) are available on the Purchasing page of the City of Flint's web site at www.cityofflint.com/purchasing under "open bids" and the specific bid or proposal number assigned to this notice.

INSTRUCTIONS TO VENDORS

1) **PRE-BID INFORMATION AND QUESTIONS:** Each proposal that is timely received will be evaluated on its merit and completeness of all requested information. In preparing proposals, Bidders are advised to rely only upon the contents of this Request for Proposal (RFP) and accompanying documents and any written clarifications or addenda issued by the City of Flint. If a Bidder finds a discrepancy, error or omission in the RFP package, or requires any written addendum thereto, the Bidder is requested to notify the Purchasing contact noted on the cover of this RFP, so that written clarification may be sent to all prospective Bidders. **THE CITY OF FLINT IS NOT RESPONSIBLE FOR ANY ORAL INSTRUCTIONS.**

2) **RFP MODIFICATIONS:** The City of Flint has the right to correct, modify or cancel the RFP, in whole or in part, or to reject any proposal, in whole or in part, within the discretion of the City of Flint, or their designee. If any such changes are made, all known recipients of the RFP will be sent a copy of such changes. If any changes are made to this RFP document by any party other than the City of Flint, the original document in the City of Flint's files takes precedence

3) **BID SUBMISSION:**

   a) The Bidder must include the following items, or the bid may be deemed non-responsive: i.e. All forms contained in this RFP, fully completed.

   b) Proposal must be submitted to the Purchasing Department, City of Flint, 1101 S. Saginaw Street -Room 304, Flint, Michigan 48502 by the date and time indicated as the deadline. The Purchasing Department's time stamp will determine the official receipt time. It is each Bidder's responsibility to insure that its bid is time stamped by the Purchasing Department by the deadline. This responsibility rests entirely with the Bidder, regardless of delays resulting from postal handling or for any other reasons. Bids will be accepted at any time during the normal course of business only, said hours being 8:00 a.m. to 5:00 p.m. Local Time, Monday through Friday, legal holidays as exception.

   c) Proposals must be enclosed in a sealed, non-transparent envelope, box or package, and clearly marked on the outside with the following: RFP Title, RFP Number, Deadline and Bidder's name.

   d) Submission of a propsal establishes a conclusive presumption that the Bidder is thoroughly familiar with the Request for Proposal (RFP), and that the Bidder understands and agrees to abide by each and all of the stipulations and requirements contained therein.

   e) All prices and notations must be typed or printed in ink. No erasures are permitted. Mistakes may be crossed out and corrections must be initialed in ink by the person(s) signing the bid.

   f) Proposals sent by email, facsimile or other electronic means will not be considered unless specifically authorized in this RFP

   g) All costs incurred in the preparation and presentation of the proposal are the Bidder's sole responsibility; no pre-bid costs will be reimbursed to any Bidder. All documentation submitted with the proposal will become the property of the City of Flint.

   h) Proposal must be held firm for a minimum of 120 days.

   i) Term - Contract and/or all other procurement documents shall be effective until completed to the satisfaction of the City of Flint. The City of Flint reserves the right to cancel or not renew all or any part of the procurement agreement/contract at any time.

4) **EXCEPTIONS:** Bidder shall clearly identify any proposed deviations from the Terms or Scope in the Request for Proposal. Each exception must be clearly defined and referenced to the proper paragraph in this RFP. The exception shall include, at a minimum, the Bidder's proposed substitute language and opinion as to why the suggested substitution will provide equivalent or better service and performance. If no exceptions are noted in the Bidder's proposal, the City of Flint will assume complete conformance with this specification and the successful Bidder will be required to perform accordingly. Proposals not meeting all requirements may be rejected.

5) **DUPLICATE PROPOSALS:** No more than one (1) proposal from any Bidder, including its subsidiaries, affiliated companies and franchises will be considered by the City of Flint. In the event multiple proposals are submitted in violation of this provision, the City will have the right to determine which bid will be considered, or at its sole option, reject all such multiple proposal.

6) **WITHDRAWAL:** Proposals may only be withdrawn by written notice prior to the date and time set for the opening of bids No proposal may be withdrawn after the deadline for submission.

7) **REJECTION/GOOD STANDING:** The City of Flint reserves the right to reject any or all proposals, or to accept or reject any proposal in part, and to waive any minor informality or irregularity in bids received if it is determined by the City of Flint, or their designee, that the best interest of the City will be served by doing so. No proposal will be considered from any person, firm or corporation in arrears or in default to the City on any contract, debt, taxes or other obligation, or if the Bidder is debarred by the City of Flint from consideration for a contract award.

8) **PROCUREMENT POLICY:** Procurement for the City of Flint will be handled in a manner providing fair opportunity to all businesses. This will be accomplished without abrogation or sacrifice of quality and as determined to be in the best interest of the City. The City of Flint and their officials have the vested authority to execute a contract, subject to City Council and Mayoral approval where required.

9) **BID SIGNATURES:** Proposals must be signed by an authorized official of the Bidder. Each signature represents binding commitment upon the Bidder to provide the goods and/or services offered to the City of Flint if the Bidder is determined to be the lowest Responsive and Responsible Bidder.

10) **CONTRACT AWARD/SPLIT AWARDS:** The City of Flint reserves the right to award by item, group of items, or total proposal to the lowest responsive, responsible Bidder. The Bidder to whom the award is made will be notified at the earliest possible date. Tentative acceptance of the bid, intent to recommend award of a contract, and actual award of the contract will be provided by written notice sent to the Bidder at the address designated in the bid if a separate Agreement is required to be executed. After a final award of the Agreement by the City of Flint, the Contractor/Vendor must execute and perform said Agreement. All bids must be firm for at least 120 days from the due date of the proposal. If, for by reasons of refusal by the vendor/contractor, a contract is not executed with the selected Bidder within 14 days after notice of recommendation for award, then the City may recommend the next lowest responsive and responsible Bidder

11) **NO RFP RESPONSE:** Bidders who receive this RFP but who do not submit a bid should return this RFP package stating "No Bid" and are encouraged to list the reason(s) for not responding Failure to return this form may result in removal of the Bidder's name from all bidder lists.

12) **FREEDOM OF INFORMATION ACT REQUIREMENTS:** Proposals are subject to public disclosure

after the deadline for submission in accordance with state law.

13) **ARBITRATION:** Contractor/Vendor agrees to submit to arbitration all claims, counterclaims, disputes and other matters in question arising out of or relating to this agreement or the breach thereof. The Contractor's agreement to arbitrate shall be specifically enforceable under the prevailing law of any court having jurisdiction to hear such matters. Contractor's obligation to submit to arbitration shall be subject to the following provisions.

    (a) Notice of demand for arbitration must be submitted to the City in writing within a reasonable time after the claim, dispute or other matter in question has arisen. A reasonable time is hereby determined to be fourteen (14) days from the date the party demanding the arbitration knows or should have known the facts giving rise to his claim, dispute or question. In no event may the demand for arbitration be made after the time when institution of legal or equitable proceedings based on such claim dispute or other matters in question would be barred by the applicable statute of limitation.

    (b) Within fourteen (14) days from the date demand for arbitration is received by the City, each party shall submit to the other the name of one person to serve as an arbitrator. The two arbitrators together shall then select a third person, the three together shall then serve as a panel in all proceedings Any decision concurred by a majority of the three shall be a final binding decision.

    (c) The final decision rendered by said arbitrators shall be binding and conclusive and shall be subject to specific enforcement by a court of competent jurisdiction.

    (d) The costs of the arbitration shall be split and borne equally between the parties and such costs are not subject to shifting by the arbitrator.

14) **BID HOLD:** The City of Flint may hold proposals for a period of one hundred - (120) days from opening, for the purpose of reviewing the results and investigating the qualifications of bidders prior to making an award.

15) **NONCOMPLIANCE:** Failure to deliver in accordance with specifications will be cause for the City of Flint and they may cancel the contract or any part thereof and purchase on the open market, charging any additional cost to the Contractor/Vendor.

16) **DISCLAIMER OF CONTRACTUAL RELATIONSHIP:** Nothing contained in these documents shall create any contractual relationship between the City and any Subcontractor or Sub-subcontractor.

17) **ERRORS AND OMISSIONS:** Bidder is not permitted to take advantage of any obvious errors or omissions in specifications.

18) **INTERPRETATION:** In the event that any provision contained herein shall be determined by a court of competent jurisdiction or an appropriate administrative tribunal to be contrary to the provision of law or to be unenforceable for any reason, then, to the extent necessary and possible to render the remainder of this Agreement enforceable, such provision may be modified or severed by such court or administrative tribunal having jurisdiction over this Agreement and the interpretation thereof, or the parties hereto, so as to, as nearly as possible, carry out the intention of the parties hereto, considering the purpose of the entire Agreement in relation to such provision

19) **LAWS AND ORDINANCES:** The bidder shall obey and abide by all of the laws, rules and regulations of the Federal Government, State of Michigan, Genesee County and the City of Flint, applicable to

the performance of this agreement, including, but not limited to, labor laws, and laws regulating or applying to public improvement, local government, and its operational requirements

20) **LOCAL PREFERENCE:** Vendors located within the corporate city limits of Flint, Michigan may be given a seven percent (7%) competitive price advantage. Additionally, if the lowest responsible vendor is not located within the limits of the City of Flint, but is located within the county of Genesee and vendor does not exceed the bid of the lowest non-local bidder by more than three and a half percent (3 ½%), the County vendor may have a competitive advantage.

21) **MATERIAL WORKMANSHIP AND STANDARDS OF PERFORMANCE:** The bidder agrees to exercise independent judgment and to complete performance under this Agreement in accordance with sound professional practices. In entering into this Agreement, the City is relying upon the professional reputation, experience, certification and ability of the bidder. The bidder agrees that all of the obligations required by him/her pursuant to this Agreement shall be performed by him/her or by others employed pursuant to this Agreement shall be performed by him/her and working under his direction and control. The continued effectiveness of this Agreement during its term or any renewal term shall be contingent, in part, upon the bidder maintaining his/her operating qualifications in accordance with the requirements of federal, state and local laws. All materials furnished must be new, of latest model and standard first grade quality or best workmanship and design, unless otherwise expressly specified. Bidder, if required, must furnish satisfactory evidence of quality materials; offers of experimental or unproven equipment may be disregarded.

22) **MODIFICATIONS/CHANGES/PRICE VARIATIONS:** Any modification to this agreement must be in writing and signed by the authorized employee, officer, board or council representative authorized to make such modifications pursuant to the State law and local ordinances. Commodities subject to market price variation shall be considered on all term agreements subject to a 30-day advance written notification from the vendor. Such notice must be substantiated by a written price change from the manufacturer and shall be required for both price increases and decreases

23) **NON-COLLUSION:** The bidder acknowledges that by signing this document that he/she is duly authorized to make said offer on behalf of the company he/she represents and that said bid is genuine and not sham or collusive and not made in the interests or on behalf of any person not therein named, and that he/she and said bidder have not directly induced or solicited any other person(s) or corporation to refrain from responding to this solicitation and that he/she and said bidder have not in any manner sought by collusion to secure to himself/herself and said bidder any advantage over any other bidder.

24) **NON-DISCRIMINATION:** Pursuant to the requirements of 1976 P.A. 453 (Michigan Civil Rights Act) and 1976 PA. 220 (Michigan Handicapped Rights Act), the local unit and its' agent agree not to discriminate against any employee or applicant for employment with respect to hire, tenure, terms, conditions, or privileges of employment or a matter directly or indirectly related to employment because of race, color, religion, national origin, age, sex, height, weight, marital status or because of a handicap that is unrelated to the person's ability to perform the duties of nondiscrimination provision identical to this provision and binding upon any and all contractors and subcontractors. A breach of this covenant shall be regarded as a material breach of this contract.

25) **SUBCONTRACTING:** No subcontract work shall be started prior to the written approval of the subcontractor by the City. The City reserves the right to accept or reject any subcontractor.

26) **WAIVER**: Failure of the City to insist upon strict compliance with any of the terms, covenants or conditions of this Agreement shall not be deemed a waiver of that term, covenant or condition or of any other term, covenant or condition. Any waiver or relinquishment of any right or power hereunder at any one or more times shall not be deemed a waiver or relinquishment of that right or power at any other time.

27) **JURISDICTION OF OMBUDSMAN:** Any person, business or other entity submitting a bid or bid in response to a request by the City consents to be subject to the jurisdiction of the Ombudsman of the City of Flint and to comply with the respective Charter provisions governing the Ombudsman's duties, jurisdiction and powers.

28) **PREVAILING WAGE:** The successful bidder providing any contractual labor services must comply with all requirements and pay prevailing wages and fringe benefits on this project per the City's Resolution R-12 adopted 4/8/91, The bidder is aware of City of Flint Resolution #R-12 dated April 8, 1991, a copy of which is annexed hereto and incorporated herein, and agrees to abide by all of the applicable covenants and requirements set forth in said resolution. This form and prevailing wage information is available on the city's website, www.cityofflint.com/purchasing. (not applicable to this project.

29) **CITY INCOME TAX WITHHOLDING:** Contractor and any subcontractor engaged in this contract shall withhold from each payment to his employees the City income tax on all of their compensation subject to tax, after giving effect to exemptions, as follows:

(a) Residents of the City:
At a rate equal to 1 % of all compensation paid to the employee who is a resident of the City of Flint.

(b) Non-residents:
At a rate equal to 1/2% of the compensation paid to the employee for work done or services performed in the City of Flint
These taxes shall be held in trust and paid over to the City of Flint in accordance with City ordinances and State law. Any failure to do so shall constitute a substantial and material breach of this contract.

31) **CONTRACT/PROCUREMENT DOCUMENTS:** The invitation for bids, instructions to bidders, bid, affidavit, addenda (if any), statement of bidder's qualifications (when required), general conditions, special conditions, performance bond, labor and material payment bond, insurance certificates, (if required), technical specifications, and drawings, together with this agreement, form the contract, and they are as fully a part of the contract as if attached hereto or repeated herein.

32) **DISCLAIMER OF CONTRACTUAL RELATIONSHIP WITH SUBCONTRACTORS:** Nothing contained in the Contract Documents shall create any contractual relationship between the City and any Subcontractor or Sub-subcontractor.

33) **EFFECTIVE DATE:** Any agreement between the City and the contractor shall be effective upon the date that it is executed by all parties hereto.

34) **FORCE MAJEURE:** Neither party shall be responsible for damages or delays caused by Force Majeure or other events beyond the control of the other party and which could not reasonably have been anticipated or prevented. For purposes of this Agreement, Force Majeure includes, but is not limited to, adverse weather conditions, floods, epidemics, war, riot, strikes, lockouts, and other industrial disturbances; unknown site conditions, accidents, sabotage, fire, and acts of God. Should Force Majeure occur, the parties shall mutually agree on the terms and conditions upon which the services may continue

35) **INDEMNIFICATION:** To the fullest extent permitted by law, Contractor agrees to defend, pay on

behalf of, indemnify, and hold harmless the City of Flint, its elected and appointed officials, employees and volunteers and others working on behalf of the City of Flint, including the Project Manager, against any and all claims, demands, suits, or losses, including all costs connected therewith, and for any damages which may be asserted, claimed, or recovered against or from the City of Flint, its elected and appointed officials, employees, volunteers or others working on behalf of the City of Flint, by reason of personal injury, including bodily injury or death and/or property damage, including loss of use thereof, which may arise as a result of Contractor's acts, omissions, faults, and negligence or that of any of his/her employees, agents, and representatives in connection with the performance of this contract. Should the Contractor fail to indemnify the City in the above-mentioned circumstances, the City may exercise its option to deduct the cost that it incurs from the contract price forthwith.

36) **INDEPENDENT CONTRACTOR:** No provision of this contract shall be construed as creating an employer-employee relationship. It is hereby expressly understood and agreed that Contractor is an "independent contractor' as that phrase has been defined and interpreted by the courts of the State of Michigan and, as such, Contractor is not entitled to any benefits not otherwise specified herein.

37) **NO THIRD-PARTY BENEFICIARY:** No contractor, subcontractor, mechanic, material man, laborer, vendor, or other person dealing with the principal Contractor shall be, nor shall any of them be deemed to be, third-party beneficiaries of this contract, but each such person shall be deemed to have agreed (a) that they shall look to the principal Contractor as their sole source of recovery if not paid, and (b) except as otherwise agreed to by the principal Contractor and any such person in writing, they may not enter any claim or bring any such action against the City under any circumstances. Except as provided by law, or as otherwise agreed to in writing between the City and such person, each such person shall be deemed to have waived in writing all rights to seek redress from the City under any circumstances whatsoever.

38) **NON-ASSIGNABILITY:** Contractor shall not assign or transfer any interest in this contract without the prior written consent of the City provided, however, that claims for money due or to become due to Contractor from the City under this contract may be assigned to a bank, trust company, or other financial institution without such approval Notice of any such assignment or transfer shall be furnished promptly to the City.

39) **NON-DISCLOSUREICONFIDENTIALITY:** Contractor agrees that the documents identified herein as the contract documents are confidential information intended for the sole use of the City and that Contractor will not disclose any such information, or in any other way make such documents public, without the express written approval of the City or the order of the court of appropriate jurisdiction or as required by the laws of the State of Michigan.

40) **RECORDS PROPERTY OF CITY:** All documents, information, reports and the like prepared or generated by Contractor as a result of this contract shall become the sole property of the City of Flint.

41) **SEVERABILITY:** In the event that any provision contained herein shall be determined by a court or administrative tribunal to be contrary to a provision of state or federal law or to be unenforceable for any reason, then, to the extent necessary and possible to render the remainder of this Agreement enforceable, such provision may be modified or severed by such court or administrative tribunal so as to, as nearly as possible, carry out the intention of the parties hereto, considering the purpose of the entire Agreement in relation to such provision. The invalidation of one or more terms of this contract shall not affect the validity of the remaining terms.

42) **TERMINATION:** This contract may be terminated by either party hereto by submitting a notice of termination to the other party. Such notice shall be in writing and shall be effective 30 days from the date it is submitted unless otherwise agreed to by the parties hereto. Contractor, upon receiving such notice and prorated payment upon termination of this contract shall give to the City all pertinent records, data, and information created up to the date of termination to which the City, under the terms of this contract, is entitled.

43) **TIME PERFORMANCE:** Contractor's services shall commence immediately upon receipt of the notice to proceed and shall be carried out forthwith and without reasonable delay

44) **EVALUATION OF BIDS:** In the City's evaluation of propsals, at minimum; firm's written proposal, the qualifications of the firm, the overall fee structure, feedback from references, and all requirements set forth in this document shall be considered as selection and award criteria unless otherwise as specified.

INSURANCE REQUIREMENTS

The Contractor shall notify all insurance agents and companies retained by the Contractor that these insurance requirements shall be included in any Agreement between the Contractor and the City of Flint.

The Contractor shall purchase and maintain, at its sole expense and as long as it is providing services to the City, the following insurance coverage:

Commercial General Liability – Occurrence form, including coverage for bodily injury, personal injury, property damage (broad form), premises/operations, blanket contractual, and products/completed operations. Coverage shall be endorsed to include the City as an additional insured for work performed by the Contractor in accordance with the Agreement.

Minimum Limits:

- $1,000,000 per occurrence/$2,000,000 general aggregate
- $2,000,000 aggregate for products and completed operations
- $1,000,000 personal and advertising injury

Automobile – Michigan "no-fault" coverage, and residual automobile liability, comprehensive form, covering owned, hired, and non-owned automobiles. Coverage shall be endorsed to include the City as an additional insured for work performed by the Contractor in accordance with the Agreement.

Minimum Limits:

- No-fault coverages – statutory
- $500,000 per person/$1,000,000 per accident – bodily injury
- $500,000 per occurrence – property damage
- A combined single limit of $1,000,000 per occurrence

Workers' Compensation and Employer's Liability– Statutory coverage or proof acceptable to the City of approval as a self-insurer by the State of Michigan.

Minimum Limits

- Workers' Compensation – statutory
- Employer's Liability - $100,000 each accident/$100,000 disease – each employee
- $500,000 disease – policy limit

Professional Liability – Covering acts, errors or omissions of a professional nature committed or alleged to have been committed by the Contractor or any of its subcontractors. Coverage shall be effective upon the date of the Agreement and shall remain effective for a period of three (3) years after the date of final payment thereunder. Such coverage shall be endorsed to include any subcontractors hired by the City.

Minimum Limits.

- $1,000,000 per occurrence, $1,000,000 annual aggregate

Insurance coverage shall cover all claims against the City of Flint, its officials and employees, arising out of the work performed by the Contractor or any subcontractors under the Agreement. Should any work be subcontracted, it shall be the responsibility of the Contractor to maintain Independent Contractor's Protective Liability Insurance with limits equal to those specified above for Commercial General Liability Insurance. In addition, the Contractor shall provide proof of Workers' Compensation Insurance for all subcontractors in compliance with the required statutory limits of the State of Michigan.

Said policies of insurance shall be with companies licensed to do business in the State of Michigan and in a form satisfactory to the City. All insurance companies must maintain a rating of B+, VIII or better from A.M Best Company. Certificates of insurance with a thirty-(30) day cancellation clause shall be filed with and approved by the City at least five (5) days in advance of commencing work under the Agreement. Cancellation, material restriction, non-renewal or lapse of any of the required policies shall be grounds for immediate termination of the Agreement by the City.

The City reserves the right to request a complete certified copy of the policies for the above coverage's.

Any reduction or exhaustion in the limits of required insurance coverage shall not be deemed to limit the indemnification afforded in accordance with the Agreement or any amendments thereto.

Depending on the subject matter of the transaction, the City may require other insurance coverage in addition to the coverage's contained herein

Any written questions regarding this project shall be directed to Derrick Jones @ djones@cityofflint.com using the subject title of "RFP 14-564-Question" by Wednesday, October 30, 2013 before 5:00 PM. Questions will be collected and the responses will be released in the form of an addendum that will be posted on the City's website.

Sincerely,

Derrick F. Jones,
Purchasing Manager
Department of Purchases & Supplies

SCOPE OF SERVICE

The City of Flint, (hereinafter "the City"), is requesting proposals from qualified consultant to conduct a comprehensive water and sewer rate study. The intent of the study is to independently assess and evaluate the City's existing water and sewer rates and provide recommendations. The broad objective of the study is to adequately fund water and sewer utility operations, capital costs, and bonded debt while minimizing rates to the greatest degree possible.

The study will be based on a comprehensive review of the City's water and sewer funds and budgets, water system plan, wastewater plan, current usage data, future planned growth, and any other information deemed necessary.

Background

The City of Flint had its first municipal water supply beginning in 1883 under a private franchise. This supply was from the Flint River. In 1903, this system was taken over as a municipal system and has been operated as such to the present time. The first water purification plant was placed into service in 1911 and additional pumps, filters, and mains were added as needed until 1938. In the early 1950's, the City of Flint added a second treatment facility and constructed the Holloway Dam.

In the late 1960's the City signed a water purchase agreement with the City of Detroit and constructed 13 miles of water mains, using 72" pipe, from Davidson to the Flint Water Plant to obtain potable water from Detroit Port Huron Plant. Plant #1 and #2 were then placed on emergency stand-by status for operations. Water received through this pipeline is discharged into the City of Flint distributions system and is also stored in the treatment facilities reservoirs. During periods of high demand the water is pumped from the storage reservoirs into the Flint distribution system to supplement the Detroit supply. Presently the plant is only available for emergency service.

In 2000, the City began a five (5) year implementation of a Drinking Water Revolving Fund Project Plan for the rehabilitation of the water plant to meet current drinking water quality standards. The water filtration plant facilities are to be used on a standby basis in the event that the supply from the city of Detroit is interrupted.

At the present time the only facilities which are currently in use of both the old and the new plants are the 18 million gallon (MG) Dort reservoir, a 2MG elevated tank, and high and low lift pumps.

Study Objectives

The study is to be performed in conformance with the following policy directions:

1. Evaluate the existing water and sewer rate structures for conformance with existing statutory regulations and make recommendations for any changes that are necessary to achieve compliance.
2. Identify the various direct costs included in the City's budget and make recommendations for any changes necessary to ensure those direct operational costs are properly aligned with the appropriate fund or water classification within the water fund.
3. Evaluate the existing overhead distribution formulas and develop recommendations that will improve equity in the application of overhead between the water and wastewater funds and among the various water classifications in the water fund.
4. Develop an understanding of the cost of serving and the benefits derived by various water classifications and make recommendations as necessary to achieve equity between the various water classifications.
5. Evaluate the City's meter service fee structure and make recommendations to better align fixed operating costs with the fixed revenues inherent in the meter service fee.
6. Review the City's existing water commodity rate structure within each water classification and develop recommendations for improvements that will ensure the structure promotes realization of various statewide initiatives, City's goals, and best meets the City's operational needs.
7. Evaluate the existing water connection fee and make recommendations for any changes.

Study Requirements

Any recommendations made must consider or make provision for the following factors:

- Current and future cost of providing water and wastewater services in conformance with established or anticipated changes to standards and regulations
- Changes in projected demands
- Availability of water supply
- Age and condition of water and sewer systems and the need to fund long-term capital replacement

1. Develop an understanding of the existing rate structures and the assumptions underlying cost distribution to the various rate categories.
2. Develop an understanding of the City's reserve policy and other financial policies and ensure any recommendations for changes in rates meet the cash flow objectives.
3. Assess existing customer service fee structure and identify other potential areas for service and system charges (water and sewer shut-offs, back-flow devices, plan reviews, etc.) and recommend changes, if appropriate. Please indicate if there are any liability issues as a result of assessing recommended fees.
4. Develop an understanding of the costs and benefits (both tangible and intangible) realized by operating the existing water and wastewater systems.
5. Develop a proposed rate schedule that reflects the City's priorities and contains a forecast for proposed rates over a five (5) year period that will integrate the City's capital plan.
6. Develop a rate projection that forecasts rates to 10 years based on expected cost increases over time including any proposed changes.
7. Reserve analysis must be part of the model.

8. Demonstrate that costs from any proposed modifications are equitably distributed in proportion to the benefit received by various rate payers.
9. Provide justifications for any special classes of customers under the recommended rate structure.
10. Demonstrate that any alternative rate structure is easy to understand and administer and can be accommodated within existing billing system.
11. Demonstrate that any proposed modifications to the rates and fees are in keeping with the City's strategic plan and other policies.

Study Elements

In making rate recommendations, the final report shall explicitly include the following elements and analysis:

1. Current Rate Structure – assess the current rate structure's suitability for sustaining cost recovery based on customer demands.
2. Equity – assess the equity of recommended water and sewer rates for all types of property ownership.
3. Conservation impacts – assess the interaction between the water conservation elements of the recommended rates and their impacts on the ability to fund water and sewer operations, as well as their impact on the economic well-being of the community.
4. Sensitivity analysis – assist the ability of the revenue stream generated by the recommended rate structures to continue to fully fund water and sewer system costs.
5. Other service charges – assess existing customer service fee structure and identify other potential areas for service and system charges and recommend changes.
6. Comprehensive summary of recommended rate structure(s) – assess performance of each recommended rate structure and provide recommendation on preferred rate structure.
7. Supporting data – provide data supporting conclusions and observations made for each of the areas above and site within study.
8. Electronic rate model – provide an easy to use electronic rate model that the City may use in future rate setting.

Services to be Provided by Consultant

1. Conduct a review of the existing water and sewer rates and status of the water and sewer funds. Develop a general familiarity with the City's billing system.
2. Meet with staff as needed and attend meetings when request to present interim status of the study and obtain feedback. City may request attendance to any public meetings with City Council or public.
3. Conduct analyses as required in the scope of work.
4. Preliminary reports:
    a. Prepare preliminary study report with tentative rates
    b. Submit 10 copies of each report, plus one reproducible copy.
    c. Present preliminary report and tentative rates to staff for comments
5. Draft final reports:
    a. Incorporate changes based on comments received from staff meeting
    b. Submit 10 copies of each report, plus one reproducible copy.
    c. Present report to staff for final review.
6. Final reports:
    a. Incorporate final changes based on staff meeting
    b. Submit 10 copies of each report, plus one reproducible copy.

c. Provide an electronic copy with report in MS Word format, with spreadsheets in Excel format.
d. City may request the final version of report be presented to City Council and/or public.

7. Supply a time schedule for developing the preliminary and final reports
8. Provide an easy-to-use electronic rate model for the City to use in future rate setting.

Services to be Provided by the City

The services to be provided by the City include, but are not necessarily limited to the following:

1. Furnish all reasonably available records and information, including financial reports, budgets, consumption data, meter sizes and types of customers.
2. Provide any information on capital improvement plans
3. Provide staff support and assistance as required
4. Provide any information on future initiatives

Proposal Requirements

Individuals or firms submitting a proposal shall meet all of the terms and conditions specified in the RFP. By its proposal submittal, the firm (or individual) acknowledges agreement with the acceptance of all provisions of the RFP.

The following information is to be submitted as part of the proposal. Other material may be attached as deemed appropriate, to include copies of rate studies performed by the vendor that most clearly fit the scope of work outlined in this RFP. At a minimum the proposal must include the following

1. Approach to the project – describe your approach to this project and any special ideas, techniques or suggestions that you think might make the project proceed smoothly.
2. Experience – describe the experience of the firm (individual) and of the individuals assigned with related projects of a similar scope. The team's experience with creating various rate structures. Provide at least three references.
3. Qualification – describe your staff's unique qualifications and training for this type of work.
4. Schedule – describe your plan/schedule for completing the work. A shorter timeline is preferred and will be given added value.
5. Cost – provide a cost to perform study as requested in this RFP. Cost is to include any travel and lodging.
6. Contact – provide a contact individual that the City can contact for any questions or clarifications on any information that has been submitted.
7. Affidavit – complete and submit the affidavit that is enclosed with this RFP.

Tentative Timeline

The timeline that has been developed for this project is listed below. Please note that this is only tentative and is subject to revision.

October 23, 2013	Release date for RFP
October 30, 2013	Due date for any questions to this RFP (see information listed above on how to submit questions and the deadline)
November 1, 2013	City will release responses to any questions submit through an addendum (posted on City's website)
November 7, 2013	Due date for proposal
November 13, 2013	Vendor selected for project
November 15, 2013	Contract drawn up for review
December ????	Preliminary report due to the City

Executive Search:
City Administrator
Flint, Michigan

Office of the Emergency Manager

City of Flint

9/1/2014

City Administrator
Flint, Michigan

The City of Flint, Michigan has opened the position of City Administrator and is now accepting applications. Contained herein is a brief overview of Flint as well as the requirements of the position and application instructions.

Overview

Flint, Michigan is a mid-sized, mid-western city with an economy built on industrial manufacturing, continuing education and medical research. The 2010 Census figures noted a population of just over 102,000 with an average household income of $30,826. Flint is the regional hub of Genesee County, containing businesses and colleges which employ 33% of county residents and result in a daytime population of over 133,000.

Flint is intersected with three major highways, including US-23 and Interstates 69 and 75. Air service and travel is provided by Bishop International Airport. The city also contains an extensive railway system which includes AmTrak service. Internally, the City consists of 500 miles of road and 1500 miles of underground water and sewer lines. Flint also owns and operates a water treatment plant as well as a wastewater treatment plant. Flint is situated along the river which bears its name and currently supplies its water.

Flint operates under the Strong Mayor form of government and has a legislative body consisting of nine City Council members, each elected by and representing the nine City Wards. Currently, the City operates on a General Fund budget of approximately $56,000,000 with a total workforce of 522. The City provides the services of police, fire, 911, street maintenance and traffic engineering, building safety and inspections, planning and economic development, customer service, park maintenance and contracted waste collection service. The City also operates and maintains both its water treatment plant and sewage treatment plant out of the Utilities Division of the Department of Public Works which are funded through enterprise funds. This division is also responsible for maintaining the water distribution, sanitary and storm sewer systems.

Flint, Michigan

Challenges

The city, at one time, was one of the largest automotive manufacturing centers in the world. Years of decline in the auto industry led to a shrinking economy as well as population loss. The years following this decline have left Flint facing a decreasing tax base, increasing operational costs and a significantly reduced workforce.

As a consequence of these factors, coupled with decades of ineffective management decisions, Flint has been placed into state level financial receivership twice within the last 12 years. The second episode of receivership began in late 2011 is still in effect at this time. However, significant progress has been made in addressing the financial and institutional deficiencies which have led to the City's challenges. The City has a two-year, balanced budget, it has addressed a significant portion of its legacy costs and is in the ongoing process of identifying and correcting structural weaknesses within the organization. The City is poised to exit receivership with a much stronger financial position and with a more efficient organizational structure.

The current Emergency Manager convened a 23 member Blue Ribbon Committee on governance to identify areas and mechanisms within the City government which may have led to systemic financial stress. Once identified, this committee was tasked with developing recommendations on how to address these problems, whether through ordinance changes, charter amendments or a charter review commission. Chief among the committee's recommendations was a transition to a Council/Manager form of government, in which the day to day operations of government would be overseen by the City Manager.

In addition, the City of Flint has approved and adopted its first citywide Master Plan in more than 50 years. This document represents the input of over 5000 residents and community members through hundreds of hours of meticulous research and compilation. This document will serve as our city's guiding principles for the next five years. The plan covers land use, future development and economic growth, capital improvement investments, housing and neighborhood stability, transportation and mobility, open space and parks, infrastructure and community facilities, public safety, education, community health, welfare and arts and cultural assets.

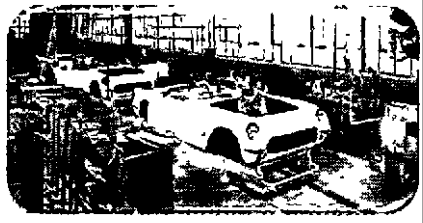
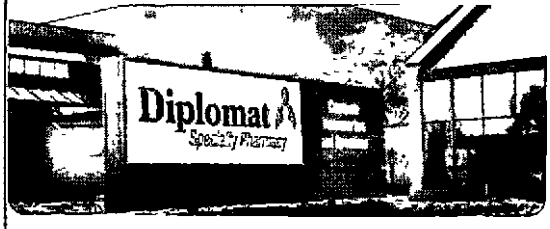
Flint, Michigan

Flint: Vehicle City

The City of Flint, Michigan was established in 1855 along the banks of the Flint River. It is known as the Vehicle City. This is a moniker that has its roots in the booming carriage industry of the late 19th century and not the auto industry of the 20th century as many would expect. The name reflects the historical willingness of Flint to reinvent itself as it went from lumber town, to carriage capital to automobile city. That spirit of reinvention is alive today as Flint again adapts to the changing climate of business.



Flint is not only still a significant base for industrial manufacturing, but has also grown into a college town as well as a hub for medical education and pharmaceutical research supported by the city's engineering, manufacturing and transportation infrastructure. "Eds and Meds" are emerging as the next important step for Flint's ever diversifying economy. Flint contains two of the three hospitals in Genesee County as well as an extension of the Michigan State University School of Medicine. Additionally, there are three major college campuses in Flint, including Mott Community College, Kettering University (formerly General Motors Institute), and the University of Michigan-Flint.



Drawing people into Flint is an ever growing lineup of activities and year-round events. Our downtown has many attractive restaurants and shops and is host to some of our most popular events. Each summer Flint hosts the Crim Festival of Races, the Back to the Bricks car cruise and festival, the Juneteenth Celebration, The Sloan Auto Fair, Shakespeare in the Park and the Buckham Alley Fest. In the fall we have our very own Zombie Walk for charity, the Bikes on the Bricks festival and in winter we have the Fire and Ice Festival. Furthermore, every second Friday of the month is host to our downtown Artwalk.

Just a few blocks away from downtown is the Flint Cultural Center, a real treasure to the community. Located on its grounds are the Flint Institute of Art, the Flint Institute of Music, the Main Branch of the Flint Public Library, the Longway Planetarium, Bower Theatre, the Sloan Museum and the Buick Automotive Gallery. The Cultural Center also serves as home to the Flint Youth Theatre, Flint School of Performing Arts and the Flint Symphony Orchestra.

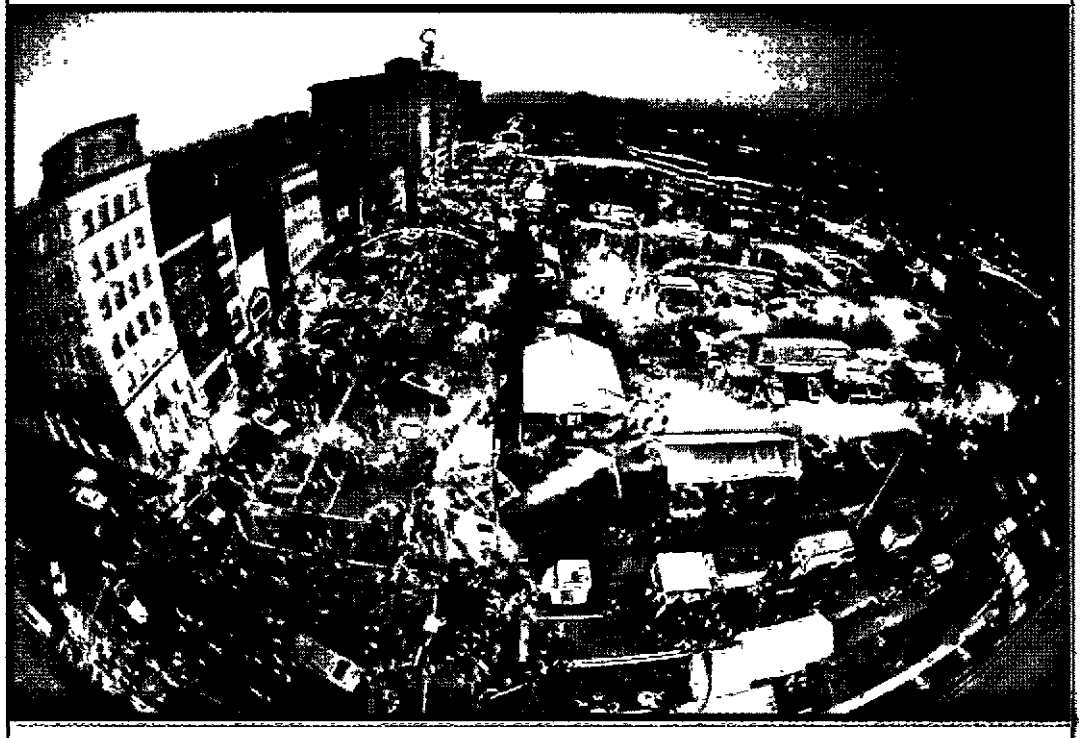
City Administrator
Flint, Michigan

The crown jewel of the cultural center is the Whiting. The Whiting is the city's grand venue for hosting the Flint Symphony Orchestra as well as national musical and theatre acts.

Flint is a city of rich diversity and deep history; it is a city that has seen many ups and downs throughout the years and has adapted to change as needed. The city's motto is "Strong and Proud", a motto that reflects the tenacity of its citizens. The challenges here are not small. However, they represent the potential for significant growth and development for anyone ready and willing to face them and share in our success.



Application Instructions

Interested applicants for the position of City Administrator must meet the minimum criteria listed below. The position will be filled from the pool of qualified candidates through a selection process undertaken by the Emergency Manager, the Mayor, a City Council representative and community representatives. The position will remain open until filled. Interviews will begin November 5, 2014. Applicants should send a cover letter, resume and five professional references by email addressed to Darnell Earley, ICMA-CM, MPA, Emergency Manager, Flint, Michigan at em@cityofflint.com.

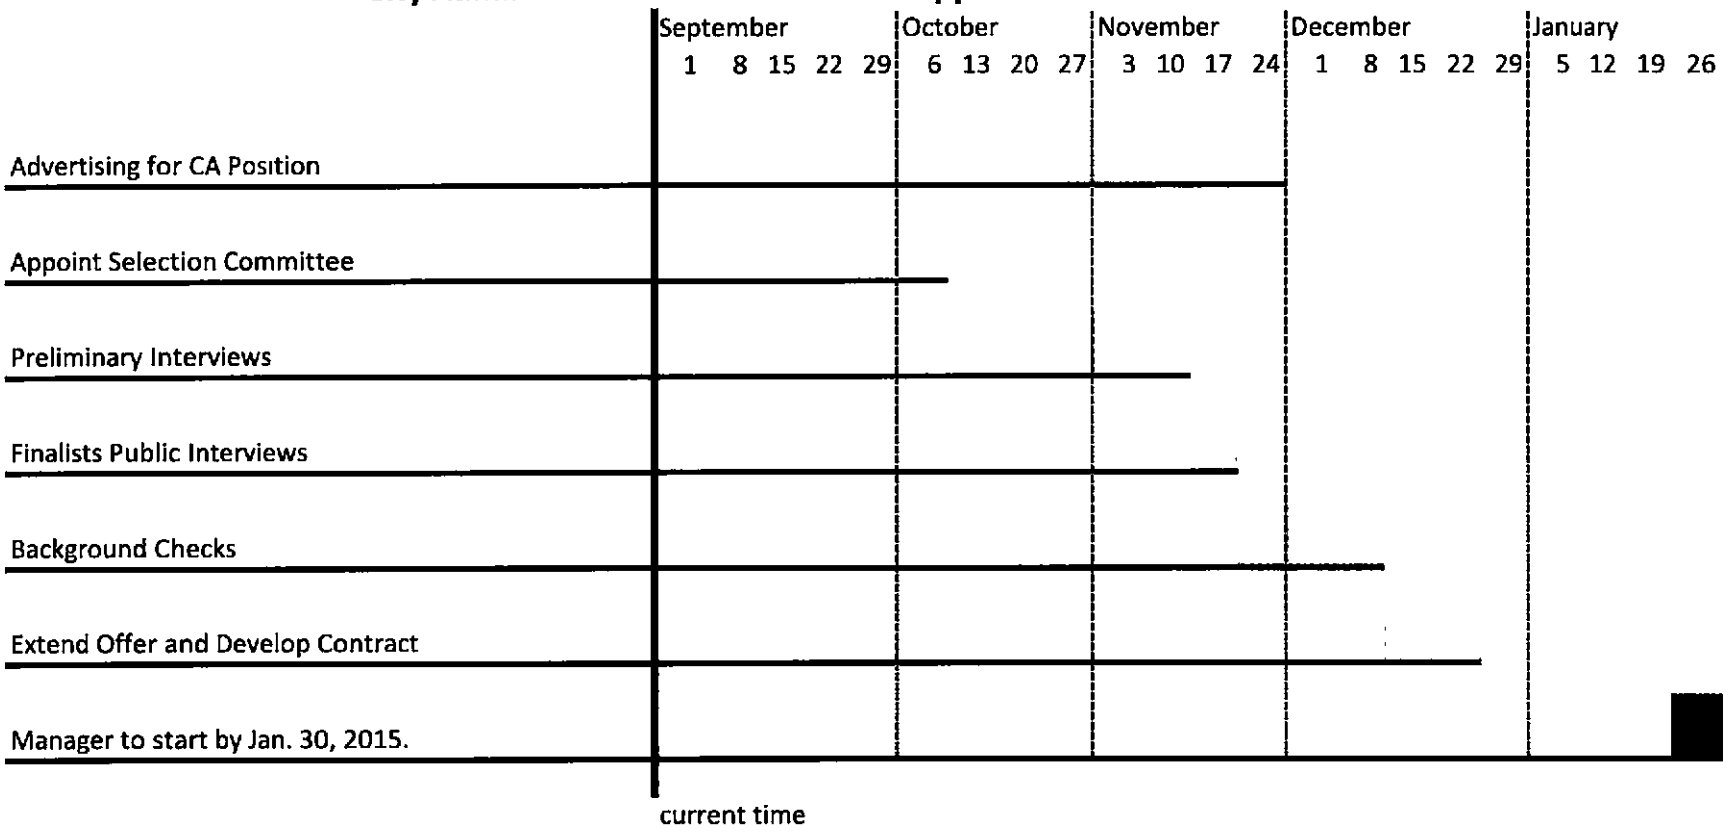
City Administrator Recruitment and Appoiontment Timeline



Revision: 8/28/14

Demolition Update for Flint, Michigan – November 2014

Flint's current administrative capacity and its data-driven blight elimination strategy leave it opportunistically poised for continuing to successfully removing blight through demolition.

The City of Flint and the Genesee County Land Bank (GCLBA) have led demolition in Flint over the last ten years through a strong partnership. Together, the two demolished more than 4,000 blighted structures in Flint through the year 2013. Over the last eighteen months this capacity for administering demolition has greatly increased. The GCLBA is successfully administering $26.41 million of funding for demolition in Flint, which will remove more than 2,000 blighted structures in record time.

In 2014 the City of Flint released *Beyond Blight: City of Flint Comprehensive Blight Elimination Framework.* This data-driven Framework quantifies the scale of blight in Flint today, identifies roles and responsibilities for a collaborative approach, and provides priorities and strategies for eliminating blight in Flint in alignment with the City's new Master Plan. The Framework includes a five-year demolition strategy. The Framework and its demolition strategy have been touted as models for approaching and prioritizing blight elimination broadly, and demolition specifically.

Figure 1: Place-Based Demolition in Flint, Michigan

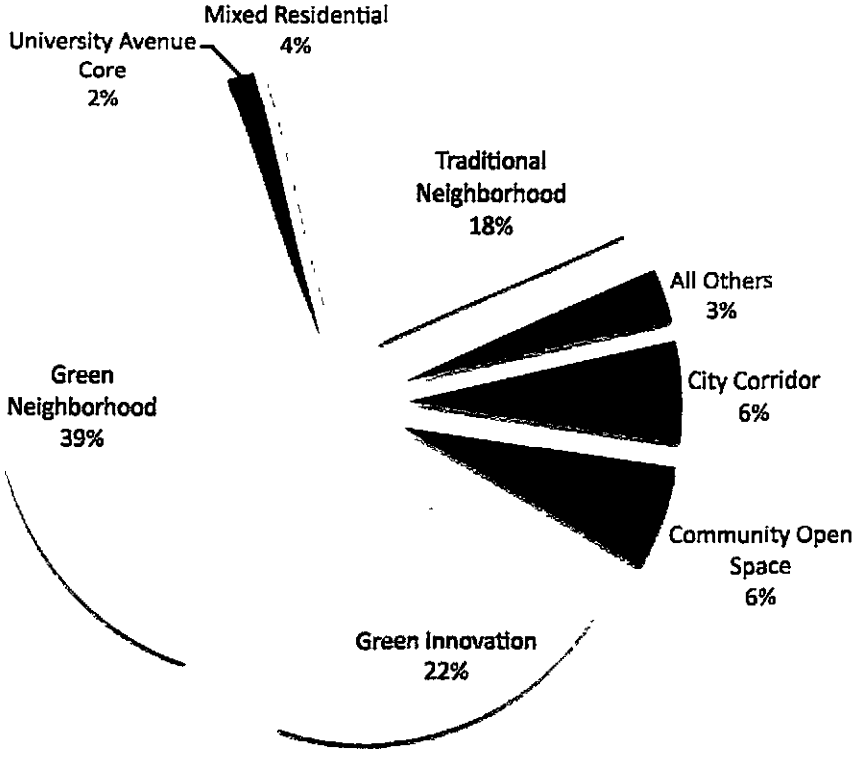
Place Type	Structures in Need of Demolition			Cost of Needed Demolition		
	Residential	Commercial	Total	Residential	Commercial	Total
TIER 1						
Neighborhood Center	16	14	30	$160,000	$700,000	$860,000
Traditional Neighborhood	690	124	814	$6,900,000	$6,200,000	$13,100,000
Green Neighborhood	2049	156	2205	$20,490,000	$7,800,000	$28,290,000
Mixed Residential	201	16	217	$2,010,000	$800,000	$2,810,000
University Avenue Core	67	9	76	$670,000	$450,000	$1,120,000
City Corridor	228	38	266	$2,280,000	$1,900,000	$4,180,000
TIER 2						
Green Innovation	1381	35	1416	$13,810,000	$1,750,000	$15,560,000
Community O&S	357	18	375	$3,570,000	$900,000	$4,470,000
TIER 3						
Downtown	6	9	15	$60,000	$450,000	$510,000
Commerce & E	33	13	46	$330,000	$650,000	$980,000
Production	0	0	0	$0	$0	$0
TOTAL	**5028**	**432**	**5460**	**$50,280,000**	**$21,600,000**	**$71,880,000**

Demolition in Hardest Hit Fund Areas

- Demolition in the Hardest Hit Fund areas aligns with the top priorities of Flint's Blight Elimination Framework. These areas comprise a subset of the Tier 1 areas in the table above. More specifically, Hardest Hit Fund areas include Neighborhood Centers, the vast majority of Traditional Neighborhoods, Green Neighborhoods with greater occupancy, the majority of Mixed Residential areas, the University Avenue Core, and the majority of City Corridors.
- Given the recent large investment in the Hardest Hit Fund areas, remaining blighted structures in these areas are the first priority for demolition.
    - $30,720,000 needed to remove all blighted structures in Hardest Hit Fund areas.
    - $8,860,000 needed to demolish 662 (606 residential and 56 commercial) remaining blighted Land Bank structures in the Hardest Hit Fund areas, including structures the Land Bank will receive on January 1, 2015.
    - $21,850,000 needed to demolish 1,653 (1,520 residential and 133 commercial) remaining blighted structures, privately owned, in the Hardest Hit Fund areas.

DEMOLITION

Five-Year Demolition Needed by Place Type



4,000
residential structures demolished in the last 10 years

1,600
residential structures already funded and scheduled for demolition by spring 2015

17
commercial structures already funded and scheduled for demolition by spring 2015

$10,000 on average to demolish a residential structure

$50,000 on average to demolish a residential structure

5,028
residential structures in need of demolition in the next five years

$71.88 million
to demolish all blighted structures over the next five years

432
commercial structures in need of demolition in the next five years

1 out of every 8 residential structures in Flint is in need of demolition in the next five years

$69.38
gap in funding for demolition

1 out of every 6 commercial structures in Flint is in need of demolition in the next five years

DEMOLITION

Demolition of blighted and dangerous properties within Flint neighborhoods was identified as a top priority during Master Plan community engagement input sessions. In 2013 the Genesee County Land Bank Authority received two grants totaling roughly $23.8 million to demolish blighted residential and commercial structures, the vast majority of which are located in Flint. Accordingly, roughly 1,600 blighted structures will be demolished between the fall of 2013 and the spring of 2015, according to the guidelines and requirements of the two funding sources. Because the demolition of these properties is funded and under way they are not included in the calculation of needed demolition and are considered demolished moving forward in this framework. There are still approximately 5,028 houses and 432 commercial buildings that will need to be demolished over the next five years at a cost of roughly $71.88 million. Additional expected funding for demolition over the next five years totals only $2.5 million ($500,000 of City of Flint CDBG funding annually), leaving a $69.38 million gap for demolition. Thus, pursuing funding for demolition is a top priority for the next five years. Demolition accounts for 66% of the total cost of removing blight over the next five years. Furthermore, although government agencies will typically take the lead on demolition, partnerships between government and institutions should be created and solidified for a complementary demolition approach.

COLLABORATION BETWEEN PARTNERS

Partner Roles

Residents
Residents should support demolition by reporting both properties in need of demolition and improperly completed demolition projects to local government.

Local Government
Because the vast majority of demolition in Flint is needed for blight removal and not redevelopment, government will lead demolition throughout the city.

Institutions
Institutions such as non-profit organizations, churches, and places of learning and higher education and should support demolition by purchasing and demolishing nearby blighted properties in coordination with government agencies.

Community Groups
Residents should support demolition by reporting both properties in need of demolition and improperly completed demolition projects to local government. Community groups should also share information about demolition efforts with other community members.

Businesses and Developers
Like institutions, businesses and developers can support demolition by purchasing and demolishing nearby blighted properties. While businesses and developers will lead demolition for redevelopment purposes, government will likely support demolition for redevelopment given property values and market conditions in Flint.

DEMOLITION

This chart directs citywide demolition for neighborhood stabilization in Flint by outlining priorities according to place type and depicting the connections between place types, methods, and partners. Place types are organized into three prioritized tiers and are listed in descending order on the left side. Yellow boxes provide descriptions of demolition methods for each tier and its place types. Blue boxes identify responsible partners for each tier and its place types.

Priority Chart for Neighborhood Stabilization

Tier 1: Neighborhood Demolition

Neighborhood Center
Traditional Neighborhood
Green Neighborhood
Mixed Residential
University Avenue Corridor
City Corridor

Demolition of blighted residential and commercial structures in and around Flint neighborhoods. Demolition eligibility depends on property condition, value, and place type location. Generally, properties in poor or structurally deficient condition are considered for demolition.

Local Government with Institutional support

Tier 2: Demolition for Green Reuse

Community Open Space
Green Innovation

Demolition of vacant residential and commercial structures for green re-use.

Local Government

Tier 3: Demolition for Redevelopment

Downtown District
Commerce & Employment Center
Production Center

Demolition of residential and commercial structures for redevelopment and re-use according to place type.

Businesses and Developers with Institutional and Local Government support

DEMOLITION

ACTION STEPS AND POTENTIAL STRATEGIES

- Actively pursue funding for demolition to fill the gap between funding needed to demolish blighted structures over the next five years and funding currently available.
- Develop demolition plans in line with the priority chart and place type descriptions provided in this framework.
- Prioritize demolition within place types according to block-level occupancy. Prioritize demolishing blighted structures on blocks with higher occupancy. See vacancy by block maps for Traditional Neighborhoods on page 62 and Green Neighborhoods on page 66.
- Review and revise demolition infill specifications to reduce future maintenance and infrastructure costs.
- Refrain from boarding vacant properties planned and funded for demolition. Board vacant properties identified for demolition but not funded.
- Ensure collaboration between local government and University Avenue Core institutions. The demolition recently completed by the institutions in the University Ave Core is a leading example of a cross-sector demolition partnership. 93 properties are in need of demolition in this place type: 91 residential and 2 commercial structures costing approximately $1,010,000 total. Plans should be developed with University Avenue Core institutions to complete this demolition over the next five years.
- Direct any deconstruction projects to Green Innovation sites to precede Green Innovation pilot projects.
- Incorporate demolition into an online Problem Property portal (see page X for more details). Consider creating an online demolition-tracking tool.
- Consider establishing a matching fund for demolition whereby private parties (residents, businesses, community organizations, institutions, etc.) can contribute money towards demolition in a particular place type that will be matched by one or more local foundations. Consider a specific request to homeowners in Traditional Neighborhoods. If each homeowner in Traditional Neighborhoods contributed $300 to a matching fund, all residential structures in need of demolition could be demolished in Traditional Neighborhoods.

FIVE-YEAR BENCH MARKS FOR BLIGHT ELIMINATION

Years 1 and 2	Years 3 and 4	Year 5
• 1,400 blighted residential structures demolished, 25% of the total needed • 98 blighted commercial structures demolished, 25% of the total needed	• 2,800 additional blighted residential structures demolished, completing 75% of the total needed • 196 additional blighted commercial structures demolished, completing 75% of the total needed	• 1,445 additional blighted residential structures demolished, completing 100% of the total needed • 96 additional blighted commercial structures demolished, completing 100% of the total needed

STATE OF MICHIGAN
DEPARTMENT OF TREASURY
LANSING

RICK SNYDER
GOVERNOR

R. KEVIN CLINTON
STATE TREASURER

DATE: August 28, 2014

TO: Kevin Clinton, State Treasurer

FROM: Wayne Workman, Deputy State Treasurer

SUBJECT: City of Flint Sole Source Contract Approval

On August 20, 2014, the City of Flint requested approval to purchase $70,000 of water testing supplies from Idexx Distribution. Public Act 436 of 2012 requires that any no bid contract with a value exceeding $50,000 must receive approval of the State Treasurer.

Justification by the City

Follow-up from the City indicates that their Water Plant Laboratory has only been certified by the MDEQ to use Colilert and Simplate media test to perform coliform, E. Coli, and heterotrophic bacteria tests in the City's water supply. These media tests are only manufactured by Idexx Distribution.

Recommended Action

Approval of this EM Resolution is being requested. No adverse impacts resulting from this purchase have been identified.

Attached for review is a copy of the Emergency Manager Resolution that authorizes this purchase.

If additional information is desired, please let me know.

State Treasurer Approval:

I, R. Kevin Clinton, State Treasurer for the State of Michigan, pursuant to the authority assigned by the Governor of the State of Michigan at the time of appointment of the Receivership Transition Advisory Board, do hereby:

BY THE EMERGENCY MANAGER:

RESOLUTION TO IDEXX FOR WATER TESTING SUPPLIES

BY THE EMERGENCY MANAGER

RESOLUTION

The Water Plant is requesting to purchase water testing supplies in order to test for coliform, E. Coli, and heterotrophic bacteria in the City's water supply; and

Idexx Distribution, One Idexx Dr., Westbrook, Maine is the sole vendor that can provide said supplies as required. The funding for this purchase will come from the following account number: 591-545.200-726.000; and

IT IS RESOLVED, that the Department of Purchases and Supplies, upon the Emergency Manager's approval, is hereby authorized to issue a purchase order to Idexx for water testing supplies in an amount not to exceed $70,000.00. (Water Fund)

FY15 DFJ

RESOLUTION STAFF REVIEW

DATE.
July 15, 2014

Agenda Item Title:
IDEXX

Prepared By:
Brent Wright, Supervisor

Background/Summary of Proposed Action
The Flint Water Plant Laboratory is a state certified bacteriological lab. The Michigan Department of Environmental Quality (MDEQ) requires the City to perform a minimum of 100 bacteria samples on the water distribution system, along with an additional 14 samples within the Water Treatment Plant, because it is fully operational. The Lab has only been certified in using Colilert and Simplate media test for performing these samples by the State. Both of these media tests are only supplied by IDEXX. To become certified in using a different media test, the City staff would need to conduct side by side proficiency tests and become certified by the State, which can be very time consuming and costly. The City is requesting approval to procure these test media from the sole source provider of IDEXX.

Financial Implications. Please approve the purchase order for IDEXX The funds are available in the FY14 amended budget in an amount not to exceed $70,000.00

Resolution Authorizing the City of Flint to enter into a standard Software Maintenance Agreement with New World Systems Corporation

BY THE EMERGENCY MANAGER:

The Public Safety departments utilize New World software for Aegis CAD, Aegis Law Enforcement Records Software, Aegis Fire Records Software, Aegis Public Safety Interface Software, Aegis Photo Imaging Software, Aegis Mobile Management Server Software, Aegis Mobile Software on the RS6000, Aegis Mobile Client laptop Software, Aegis Mobile Software on the 400 or MSP Server, Aegis ESRI Embedded Applications — New, and Aegis ESRI Embedded Applications — Upgrades. The Flint Police Department is requesting a renewal of the contract due to expire July 1, 2015. Funding for this software maintenance agreement will come from account #101-325.100-930.00 and 101-305.200-930.000.

IT IS RESOLVED, That the Proper City Officials, upon the Emergency Manager approval, are hereby authorized to enter into an agreement for standard software maintenance with New World System Corporation for the period July 1, 2015 through June 30, 2020 at a rate of $170,000.00 for FY16, $100,000.00 for FY17, $110,000.00 for FY18 and $110,000.00 for FY19.

Agenda Item Title: New World Systems Corporation – Standard Software Maintenance Agreement

Prepared By: Rick Johnson, Police Financial Coordinator

Background/Summary of Proposed Action: Resolution authorizing the Flint Police Department to enter into a 5 year agreement with New World Systems Corporation for Standard Software Maintenance Agreement. This agreement is to provide services from FY16 through FY20. Within the contract, the City has the right to terminate the contract as long as a written notice is provided 180 day prior to the anniversary date of year 3, 4 and year 5 to New World Systems Corporation.

Financial Implications: Funding in the amount of $170,000.00 is budgeted in the FY16 budget ($162,000.00 – 911 and 8,000.00 – Police) and the remaining will be budgeted in the Flint Police accounts in the subsequent fiscal years. $100,000.00 for FY17, and $110,000.00 for FY18 and FY19.

Staff Person: _____
James W. Tolbert, Chief of Police

NEW WORLD SYSTEMS CORPORATION
STANDARD SOFTWARE MAINTENANCE AGREEMENT

This Standard Software Maintenance Agreement (SSMA) between **New World** Systems Corporation (New World) and City of Flint, MI Police Department (**Customer**) sets forth the standard software maintenance support services provided by **New World**.

1. **Service Period**

This SSMA shall remain in effect for a period of five (5) years from (start date) 7 1 15 to (end date) 6/30 20.

2. **Services Include**

The following services or features are available under this SSMA:

(a) Upgrades, including new releases, to the Licensed Standard Software (prior releases of Licensed Standard Software application packages are supported no longer than nine (9) months after a new release is announced by **New World**)
(b) Temporary fixes to Licensed Standard Software (see paragraph 6 below).
(c) Revisions to Licensed Documentation.
(d) Reasonable telephone support for Licensed Standard Software on Monday through Friday from 8:00 a.m. to 8:00 p.m. (Eastern Time Zone).
(e) Invitation to and participation in user group meetings.
(f) Emergency 24-hour per day telephone support, for Aegis CAD only, seven (7) days per week for Licensed Standard Software. Normal service is available from 8:00 a.m to 8:00 p.m. (Eastern Time Zone). After 8 00 p.m., the Aegis CAD phone support will be provided via beeper and a **New World** support representative will respond to CAD service calls within 30 minutes of call initiation. The 24-hour and regular support for Aegis CAD will remain in effect through 9/30/15.
(g) Includes ESRI Integration for the ESRI software that is part of Exhibit A Licensed Standard

Items a, b, and c above will be provided to **Customer** by electronic means.

Additional support services are available as requested by **Customer** using the then-current hourly rates or applicable fees.

3. **Maintenance for Modified Licensed Standard Software and Custom Software**

Customer is advised that if it requests or makes changes or modifications to the Licensed Standard Software, these changes or modifications (no matter who makes them) make the modified Licensed Standard Software more difficult to maintain. If **New World** agrees to provide maintenance support for Custom Software or Licensed Standard Software modified at **Customer's** request, then the additional **New World** maintenance or support services provided shall be billed at the then-current hourly fees plus reasonable expenses.

4. **Billing**

Maintenance costs will be billed annually as detailed on the following page. If taxes are imposed, they are the responsibility of the **Customer** and will be remitted to **New World** upon being invoiced.

5. **Additions of Software to Maintenance Agreement**

Additional Licensed Standard Software licensed from **New World** will be added to the SSMA per the terms of the contract adding the software. Maintenance costs for the additional software will be billed to **Customer** on a pro rata basis for the remainder of the current maintenance year and on a full year basis thereafter.

6. **Requests for Software Correction on Licensed Standard Software**

At any time during the SSMA period, if **Customer** believes that the Licensed Standard Software does not conform to the current specifications set forth in the user manuals, **Customer** must notify **New World** in writing that there is a claimed defect and specify which feature and/or report **Customer** believes to be defective. Before any notice is sent to **New World**, it must be reviewed and approved by the **Customer** Liaison. Documented examples of the claimed defect must accompany each notice. **New World** will review the documented notice and when a feature or report does not conform to the published specifications, **New World** will provide software correction service at no charge. A non-warranty request is handled as a billable Request for Service (RFS).

The no charge software correction service does not apply to any of the following:

(a) situations where the Licensed Standard Software has been changed by anyone other than **New World** personnel;
(b) situations where **Customer**'s use or operations error causes incorrect information or reports to be generated; and;
(c) requests that go beyond the scope of the specifications set forth in the current User Manuals.

7. **Maintenance Costs for Licensed Standard Software Packages Covered for MSP Server**

New World agrees to provide software maintenance at the costs listed below for the following **New World** Standard Software packages licensed by the **Customer**:

Application Package		Number of Modules
1. *Aegis*®	Computer Aided Dispatch (CAD)	18
2. *Aegis*®	Law Enforcement Records Software	24
3. *Aegis*®	Fire Records Software	3
4. *Aegis*®	Public Safety Interface Software	6
5. *Aegis*®	Photo Imaging Software	1
6. *Aegis*®	Mobile Management Server Software	4
7. *Aegis*®	Mobile Software on the RS6000	4
8. *Aegis*®	Mobile Client Laptop Software	7
9. *Aegis*®	Mobile Software on the 400 or MSP Server	2
10. *Aegis*®	ESRI Embedded Applications - New	1
11. *Aegis*®	ESRI Embedded Applications - Upgrade	1

Period Covered	Annual Amount	Billing Date
7/1/2015 to 6/30/2016	$80,000 * Note 1	6/15/2015
7/1/2016 to 6/30/2017	$90,000 * Note 1	6/15/2016
7/1/2017 to 6/30/2018	$100,000 * Note 1	6/15/2017
7/1/2018 to 6/30/2019	$110,000 * Note 1	6/15/2018
7/1/2019 to 6/30/2020	$110,000 * Note 1	6/15/2019

1. Includes 80 hours of Support Services at $155/Hour for the Period Covered. Any unused prepaid support hours will carryover once into the following annual PSMA period. Unused carryover hours expire the earlier of 12 months from carryover or the end of the PSMA contract period. Support Services are defined on your original Exhibit B. Travel costs are not included. The hours to be provided at schedules mutually agreeable to **Customer** and **New World**

Note: **New World** has substantially reduced the cost of these services to recognize that **Customer** has a distressed financial environment.

Note: Unless extended by **New World**, the above costs are available for 90 days after submission of the costs to **Customer**. After 90 days, **New World** may change the costs.

ALL INVOICES ARE DUE FIFTEEN (15) DAYS FROM BILLING DATE.

8. **Non-funding Provision**

In the event **Customer** does not appropriate funds to complete payments due for year 3, 4 or 5 under this SSMA, the amount due for the fiscal year not appropriated shall be terminated; provided, however, the **Customer** shall have given **New World** written notice one hundred eighty (180) days prior to the anniversary date of year 3, 4 or year 5, when they are exercising the non-funding provision, and further provided that any other payments due to **New World** are fully paid, and further provided that **New World's** obligations and services under this SSMA shall also be terminated. Without **Customer's** fulfillment of the above provisions, **Customer's** obligation to pay **New World** the annual SSMA payments remains in effect through the expiration date of this SSMA **Agreement.**

9. **Terms and Conditions**

This Agreement is covered by the Terms and Conditions specified in the Licensing Agreement(s) for the software contained herein.

RESOLUTION STAFF REVIEW

DATE: 11-17-14

Agenda Item Title: Water Meters

Prepared By: Cheri Priest, WSC Administrative Manager

Background/Summary of Proposed Action: The City of Flint has nearly 35,000 water meters, in which approximately 30% of said meters are well past their expected life cycle and are overdue for replacement. The City is currently in the process of obtaining bids to determine the most feasible and cost effective solution for replacing meters. At this time, Metron-Farnier is the sole source that will still be able to meet all of our requirements. The current stock of residential water meters is at a critically low level with approximately 40 water meters on hand. The Water Service Center is requesting the purchase of 594 residential & commercial meters, 560 5/8" meters, 30 1" meters & 4 2" meters.

The City also faces challenges in seeking new meters that adhere to the NSF/ANSI Standard 61 (which requires no lead in meters), prevent theft of water and scrapping of meters, while maintaining compatibility of the current remote reading system. It is not feasible to change what brand/type of meter that we use every time a meter order is placed. This would cause the City to have to have separate remote reading systems for different meters. Not only would this be cost prohibitive, it would also be extremely labor intensive.

Financial Implications: Adequate funding exists in the below listed accounts

Budgeted Expenditure? **Yes** ☒ **No** ☐ **Please explain if no:**

Account No.: **590-540.207-726.000 $110,811.00**

Cc: Busch, Stephen (DEQ); Benzie, Richard (DEQ)
Subject: RE: Flint water update

Randy – I made a few suggested tweaks to your note. Hope this works for you:

- The DEQ met with Flint officials last month. The City prepared an operational plan to reduce the formation of disinfection by-products. They have exceeded the standard which is primarily the result of using water from a different source, namely the Flint River. This is anticipated to be mitigated once the City begins using Lake Huron water from the Karagondi pipeline. A DEQ violation notice will go out next week which will require the city to issue a public notice. The DEQ Director plans to notify legislative members from the Flint area. In conclusion, the City has seen a reduction in the numbers because of operational changes and the cooler weather. The violation is expected to continue for a while because it takes time to resolve this problem.

Anticipated Exit: April 2015

Recent Developments

- Two City Council seats will be vacant as of January 1, 2015 due to the members being elected to higher offices. A committee consisting of the Mayor and City Council is working with the Emergency Manager to review interested applicants for the vacant City Council positions.
- City officials are attempting to increase the City's income tax rate, which Treasury supports and must be approved by the legislature. State Representative Stanley is the lead on this initiative. Should the legislature approve the increase, the City will place this question on the November 2015 ballot.
- Six Charter amendments and a general Charter revision question were on the November 4, 2014 ballot. The following proposals passed:
    - Proposal 1 – Triggers a full review of the charter. A nine-member Charter Review Commission will be elected in May 2015.
    - Proposal 2 – Reduces the number of mayoral staff appointments from no more than ten to no more than five.
    - Proposal 3 – Adds a Charter amendment to require budgetary best practices.
- Three finalists were selected for the City Administrator position. Background and reference checks are being conducted on the preferred candidate now, with a goal to bring the person on board in February 2015.
- City officials met last month with the DEQ, and as a result of that meeting, prepared an operational plan to reduce the formation of disinfection by-products. They have exceeded the standard which is primarily the result of using water from a different source, namely the Flint River. This is anticipated to be mitigated once the City begins using Lake Huron water from the Karagondi pipeline. A DEQ violation notice will go out next week which will require the City to issue a public notice. The violation is expected to continue for a while because it takes time to resolve this problem.

City of Flint Wednesday 9:00am Phone Conference Agenda
December 10, 2014

1) **Public Safety Update – FPD, MSP, (FFD, if needed)**
   a) FPD –
      i. The final draft reports for the evaluation of both the Police and the Fire Departments have been received.
      ii. Completing revisions to SRMS MOA. (Atty's Office prepping for signatures)
      iii. The ICMA Public Safety Study will be presented to City Council at the Public Safety Committee on January 22, 2015.
   b) FFD
      i. City applied for $999,103 grant from the FEMA Assistance to Firefighters Grant Program to purchase a new aerial truck.

   c) Other update from Chief Tolbert and MSP

2) **Governor's Office Update – R. Baird, H. Hollins, B. Clement**
   a) Court Consolidation Status
   b) The legislative initiative to allow a vote on a local income tax increase will be handled by Mayor Walling who will be working through the Governor's Office and H. Hollins. A letter was sent to Treasurer Clinton on Nov. 17 from EM Earley. Chamber of Commerce sent Rep. Stanley a letter of support.
   c) Other

3) **Lawsuits – Status, Issues**
   a) Retiree Lawsuit – No updates

4) **Financial and Administrative Update**
   a) Fire Contract has been sent to City Council per PA 436. A special Finance Cmte. Meeting was held on Monday, December 8. The Committee voted to meet again Thursday, Dec. 11, giving the Flint Firefighters Union a chance to propose an alternative contract which would save substantially the same amount of money.
   b) Fund balance ordinances including Fund Balance Policy, OPEB, BSF and strategic planning processes have been referred by Council Finance Committee to its Legislative Affairs Committee. Council consideration to be scheduled for Council's December 15 meeting.

c) Hardest Hits Funds: Need to get clarity for Flint's eligibility status. (See attached). (UPDATE?)
d) The New World contract has been sent to Treasury for review per PA 436. We do have some timing pressure here. We need to sign this contract prior to signing the SRMS agreement. SRMS is a priority one project and needs to move along too.

5) City Council Update

a) Two Council seats will become vacant on January 1, 2015. An appointment process is under consideration by the EM. P.A. 436 will guide the process which could involve direct EM appointment or collaborative effort with City Council. Self-nominations have been requested from residents of Wards 3 & 6. Nominating period has been extended to December 19.
b) EM Earley plans to hold a special Council meeting after the first of the year and after the seating of the two new Council members. At this meeting he will lay out the plan for moving into Transition.

6) Charter Review Commission

a) Notice has been sent out on new timing for the election of commissioners. Election will be held in May 2015.

7) **Water Issues**

a) General Motors Water Issues – Installation of new valves is underway.
b) A meeting with the Department of Environmental Quality was held on October 29. A number of steps for continued support were discussed. More follow-up is planned. We are awaiting action from the DEQ on getting a message of support out to the public.

8) Messaging

a) A plan is being developed to present to the community at-large and to the various interest groups (i.e. business, investors, foundations) the background of the financial emergency, the actions taken and next steps to emerge from receivership. This will be an on-going item for discussion.
b) Starting a new communication strategy with an EM press briefing the afternoon of a Council meeting or important Committee meeting.
c) Hurley Hospital Valuation City - beginning regular meetings with the Hurley leadership to identify strategy beneficial both Hurley and the City of Flint.

d) Deputy Finance Director and HR Director have resigned. Internal candidates for Deputy Finance Director are being interviewed; recruiting firms are being solicited to identify candidates for HR Director and eventually Finance Director.

9) 9-1-1 Reconsolidation Plan

a) The Genesee County 9-1-1 Consortium has voted to accept Flint's request to join. Consolidation is expected to be complete by July 1, 2015. Mayor Walling has been appointed the City's representative on the Membership Board. Work is progressing to complete merger before July 1, 2015.
b) C-GAP award for 9-1-1 Tower will have ~$400,000 balance. Would like to use for 9-1-1 consolidation expenses.

10) Recruitment and Selection of City Administrator/Manager

a) Provide guidance on several considerations: duration of appointment, contract, consistent with TAB, working with TAB, etc. – Finalize timeline after January 1, 2015.
b) An offer has been extended and accepted. The contract is being finalized now. Expect to make a formal announcement this week.

Subject: Re: EME6432014 – Water Meters
To: Maxine Murray <mmurray@cityofflint.com>

Good Morning Maxine;
Here are the responses to the questions that were received from the State concerning the sole source purchase for meters.

- Why was only one bid actually acquired?

  o Did the City seek and receive multiple bids, if so how many, or did the City obtain a sole source bid from Metron-Farnier?

  o If this is a sole source bid request, that must be identified for State Treasurer approval.

  Currently, the City has a bid out entitled "Automated Meter Reading (AMR) System and Water Meters" that is due on December 18, 2014. The City is awaiting responses for said solicitation in order to review the viability of replacing the current AMR system. The resolution that is before the State is seeking to purchase water meters that are compatible to the City's current AMR system.

  This is a sole source purchase for meters from Metron-Farneir for compatibility to the current AMR system that need to be replaced.

- The resolution states: the City is currently in the process of obtaining bids to determine the most feasible and cost effective solution for replacing meters.

    - Is this a separate bid process from Metron-Farnier?

    - What is the purpose of obtaining these bids, and what is the status of this process?

    As stated in the previous response, the City is requesting to purchase water meters that are currently compatible to the City's current AMR system. Metron Farnier is the sole source provider for these meters. The City's has a current bid out that is due on December 18, 2014 for the possiblity of replacing the current AMR system.

- Is the City in compliance with NSF/ANSI Standard 61?

    - The resolution states: The City also faces challenges in seeking new meters that adhere to the NSF/ANSI Standard 61. Can you please clarify this.

    The water meters that are being requested in the resolution are in compliance with NSF/ANSI Standard 61.

Maxine, if you have any questions, please feel free to contact me. Thanks.

Good morning, Maxine:

Below are the questions that we have after review of the updated information sent to us regarding water meters.

Our goal is to fully understand your request, how it was arrived at and to be able to clearly justify our recommendations regarding your request.

Our questions with the request are as follows:

- Why was only one bid actually acquired?
    - Did the City seek and receive multiple bids, if so how many, or did the City obtain a sole source bid from Metron-Farnier?
    - If this is a sole source bid request, that must be identified for State Treasurer approval.

- The resolution states: the City is currently in the process of obtaining bids to determine the most feasible and cost effective solution for replacing meters.
    - Is this a separate bid process from Metron-Farnier?
    - What is the purpose of obtaining these bids, and what is the status of this process?

- Is the City in compliance with NSF/ANSI Standard 61?
    - The resolution states: The City also faces challenges in seeking new meters that adhere to the NSF/ANSI Standard 61. Can you please clarify this.

Your clarifications will be very helpful in moving this request forward. If you have questions, please let me know.

PRESENTED: 12-5-14

ADOPTED: _____

BY THE EMERGENCY MANAGER:

RESOLUTION TO METRON-FARNIER FOR RESIDENTIAL AND COMMERCIAL WATER METERS

BY THE EMERGENCY MANAGER

RESOLUTION

The Utilities/Water Service Center has requested the immediate need to purchase 594 each residential and commercial water meters to process requests for water turn-ons and to replace non-functioning older meters; and

Metron-Farnier, LLC, 5661 Airport Blvd., Suite B, Boulder Colorado is the manufacturer for said meters supported by its current delivery system. Funding will come from the following account number 590-540.207-726.000 ($110,811.00); and

IT IS RESOLVED, that the Department of Purchases and Supplies, upon the Emergency Manager's approval, is hereby authorized to issue a purchase order to Metron-Farnier, LLC for 594 each residential and commercial water meters in the amount of $110,811.00 (Sewer Fund)

RESOLUTION STAFF REVIEW

DATE: 11-17-14

Agenda Item Title: Water Meters

Prepared By: Cheri Priest, WSC Administrative Manager

Background/Summary of Proposed Action: The City of Flint has nearly 35,000 water meters, in which approximately 30% of said meters are well past their expected life cycle and are overdue for replacement. The City is currently in the process of obtaining bids to determine the most feasible and cost effective solution for replacing meters. At this time, Metron-Farnier is the sole source that will still be able to meet all of our requirements. The current stock of residential water meters is at a critically low level with approximately 40 water meters on hand. The Water Service Center is requesting the purchase of 594 residential & commercial meters, 560 5/8" meters, 30 1" meters & 4 2" meters.

The City also faces challenges in seeking new meters that adhere to the NSF/ANSI Standard 61 (which requires no lead in meters), prevent theft of water and scrapping of meters, while maintaining compatibility of the current remote reading system. It is not feasible to change what brand/type of meter that we use every time a meter order is placed. This would cause the City to have to have separate remote reading systems for different meters. Not only would this be cost prohibitive, it would also be extremely labor intensive.

Financial Implications: Adequate funding exists in the below listed accounts

Budgeted Expenditure? **Yes** ☒ **No** ☐ **Please explain if no:**

Account No.: **590-540.207-726.000 $110,811.00**

Pre-encumbered? Yes ☒ **No** ☐ **Requisition #** **140001214**

Other Implications (i.e., collective bargaining): None

Staff Recommendation: Recommend Approval

Staff Person: Robert Bruinsma

GOVERNOR

R. KEVIN CLINTON
STATE TREASURER

DATE: December 11, 2014

TO: Kevin Clinton, State Treasurer

FROM: Wayne Workman, Deputy State Treasurer

SUBJECT: City of Flint Sole Source Contract Approval – Water Meters

On December 04, 2014 the City of Flint requested approval to purchase 594 residential and commercial water meters in the amount of $110,811 from Metron-Farnier, LLC. Public Act 436 of 2012 requires that any no-bid contract with a value exceeding $50,000 must receive approval from the State Treasurer.

Justification by the City

Follow-up from the City indicates that the residential and commercial water meters from Metron-Farnier, LLC are compatible with the City's current Automatic Meter Reading (AMR) system. These new water meters are required to process requests for water turn-ons and to replace nonfunctioning older meters. The City's current stock of residential water meters is at a critically low level with approximately 40 water meters on hand.

Recommended Action

Approval of this EM Resolution is being requested. The City has indicated funding for this purchase is available. No adverse impacts resulting from this purchase have been identified.

Attached for review is a copy of the Emergency Manager Resolution that authorizes this purchase.

If additional information is desired, please let me know.

Mr. Earley:

I am in receipt of your request received December 04, 2014 in which you are requesting approval to purchase 594 residential and commercial water meters in the amount of $110,811 from Metron-Farnier, LLC to replace older, nonfunctioning models.

Pursuant to PA 436 of 2012, any no-bid contract with a value exceeding $50,000 must receive approval from the State Treasurer. I am approving this request based on the City's need for meters to provide basic services to the community.

State Treasurer Approval:

I, R. Kevin Clinton, State Treasurer for the State of Michigan, pursuant to the authority assigned by Public Act 436 of 2012, do hereby:

For Immediate Release

City of Flint Takes a Step Closer to KWA Preparedness with a Crucial Upgrade to the Water Treatment Plant

Flint, Michigan – December 15, 2014 – The City of Flint has this week taken a big step toward the eventual transition to use of the Karegnondi Water Authority Pipeline with a much needed upgrade to the City's Water Treatment Plant. A large 36" connection line which will serve as the main feed to the plant from the new pipeline was installed over the weekend of December 6, 2014. "This massive undertaking was done without interruption of service to customers and ahead of its scheduled completion," said Department of Public Works Director Howard Croft.

"The installation of the intake section to the water treatment plant represents a key portion of the City of Flint's transition to using the KWA for our water needs," said Utilities Administrator Daugherty Johnson. "Once construction on the KWA pipeline reaches Flint, the City will have the necessary connection in place to begin receiving and treating Lake Huron water." Along with other critical upgrades to the plant in the past two years, the intake installation brings Flint one step closer to having direct control over all of its water system needs. The KWA pipeline is expected to reach Flint by summer of 2016.

–END–

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

City of Flint Did Not Meet Treatment Requirements

Our water system recently violated a drinking water standard. Although this incident was not an emergency, as our customers, you have a right to know what happened and what we are doing to correct this situation.

We routinely monitor for the presence of drinking water contaminants. Samples were collected for total trihalomethanes (TTHM) analysis from eight locations on a quarterly basis (May 21, August 21, and November 20 of 2014). The average of the results at **ANY** of the eight locations must not exceed the maximum contaminant level (MCL) for TTHMs, otherwise our water system exceeds the Maximum Contaminant Level (MCL). The standard for TTHMs is 80 µg/L. The location reporting the highest TTHM level was 99 ug/L; thus, our water system exceeds the TTHM MCL.

What should I do?

- There is nothing you need to do unless you have a severely compromised immune system, have an infant, or are elderly. These people may be at increased risk and should seek advice about drinking water from their health care providers.
- You do not need to boil your water or take other corrective actions. If a situation arises where the water is no longer safe to drink, you will be notified within 24 hours.

What does this mean?

This is not an emergency. If it had been an emergency, you would have been notified within 24 hours.

People who drink water containing trihalomethanes in excess of the MCL over many years may experience problems with their liver, kidneys, or central nervous system, and may have an increased risk of getting cancer.

What is being done?

We are currently working on solutions to correct the problem. We anticipate resolving the problem by 2015.

For more information, please contact Mr. Brent Wright at 517-787-6537 or the Flint Water Plant at 4500 North Dort Highway, Flint, MI 48505.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by the City of Flint.

CERTIFICATION: WSSN: 02310

I certify that this water supply has fully complied with the public notification requirements in the Michigan Safe Drinking Water Act, 1976 PA 399, as amended, and the administrative rules.

Signature	Title	Date Distributed

Reminder to water supplier: This notice / certification must be sent to the DEQ.

WSSN: 02310

Dear Mr. Wright:

SUBJECT: Violation Notice – Maximum Contaminant Level for Total Trihalomethanes
Operational Evaluation – Total Trihalomethanes
4th Quarter 2014 Monitoring Period

The Department of Environmental Quality (DEQ), Office of Drinking Water and Municipal Assistance (ODWMA), records show that the City of Flint is in violation of the Safe Drinking Water Act,1976 PA 399, as amended (Act 399); R 325.10610, *Maximum contaminant levels* (MCL) *for disinfection byproducts*, of the 1979 Administrative Code.

In accordance with R.325.10610, *MCLs for disinfection byproducts*, of the 1979 Administrative Code, the MCL for disinfection byproduct total trihalomethanes (TTHM) is 0.080 milligrams per liter (mg/L) as a Locational Running Annual Average (LRAA) at each monitoring location. As listed in the table below, our records show that the City of Flint's highest TTHM locational running annual average (LRAA), based on the last three quarters, ending November 30, 2014, is 0.099 mg/l which exceeds the standard, and that two of the eight sample site locations exceed the standard of 0.080 mg/L.

Further, in accordance with R325.10719l, *Disinfection byproducts: operational evaluation levels*, of the 1979 Administrative Code, when an operational evaluation level (OEL) at a monitoring location for TTHM exceeds 0.080 mg/L, a supply shall conduct an operational evaluation and submit a written report of the evaluation to the department not later than 90 days after being notified of the analytical result that causes the supply to exceed the operational evaluation level. As listed in the table below, our records show that TTHM operational evaluation levels for the City of Flint exceed 0.080 mg/L at four of the City's eight sample site locations.

TTHM Results (mg/L)					
	5/21/14	8/21/14	11/20/14	LRAA	OEL
DBP1 McDonalds 3719 Davison	**0.162**	**0.145**	0.059	**0.092**	**0.106**
DBP2 Liquor Palace 3302 S. Dort Highway	**0.112**	**0.127**	0.033	0.068	0.076
DBP3 North Flint Auto 6204 N. Saginaw St.	**0.097**	**0.118**	0.041	0.064	0.074
DBP4 University Market 2501 Flushing Road	**0.106**	**0.196**	**0.094**	**0.099**	**0.122**
DBP5 Taco Bell 3606 Corunna Road	0.079	**0.181**	0.034	0.074	**0.082**
DBP6 Rite-Aid Pharmacy 5018 Clio Road	**0.088**	**0.144**	0.054	0.072	**0.085**
DBP7 Salem Housing 3216 MLK Boulevard	**0.082**	**0.112**	0.050	0.061	0.074
DBP8 BP Gas Station 822 S. Dort Highway	0.075	**0.112**	0.036	0.056	0.065

Our investigation consisted of a review of ODWMA files for laboratory reports received for compliance monitoring. Our investigation is considered complete. This violation began on December 1, 2014, and will continue until TTHM LRAA is below the MCL at all sample sites.

We acknowledge and appreciate the city's cooperation with our recommendation to preemptively conduct an Operational Evaluation following the City's second quarterly round of monitoring in August. That Operational Evaluation report has identified possible causes and corrective measures for the elevated TTHM levels which we encourage the City continue implementing. These modifications have likely contributed in part to the reduction in TTHM levels reported in the most recent quarter, and suggest the City may be able to achieve compliance with the TTHM standard.

Our office is continuing to review the Operational Evaluation report that was submitted on December 1, 2014, and will provide the City and their consultant comments as needed to help address this MCL violation.

Water systems that exceed the OEL must complete and submit an Operational Evaluation in accordance with Administrative Rule 719l (R325.10719l) within 90 days of being notified of the violation. **An updated Operational Evaluation report, which incorporates the most recent sample results, must now be completed and received by our office by no later than March 1, 2015**.

If you have any other factual information you would like us to consider regarding the violation identified in this Violation Notice (VN), please provide them in a written response by January 16, 2015.

Administrative rule R 325.10403 of Act 399 requires that suppliers provide public notice (PN) as soon as practical, but no later than thirty (30) days after the supplier learns of this type of violation, by mail or direct delivery **and** by any other means reasonably calculated to reach customers not normally reached by mail. Enclosed is a sample PN

which contains the minimum required language. The City is encouraged to include additional information regarding its response to this violation. **Please notify your consumers by January 10, 2015, and send us a signed and dated copy of the notice that you issued within ten (10) days of distributing the public notice.** This violation must also be included in your 2014 Consumer Confidence Report (CCR), due by July 1, 2015. The PN must be repeated every quarter until you no longer exceed the TTHM standard. Failure to issue a PN for this violation will result in a fine of at least $1,000 per event, with a maximum of $5,000 per violation.

We anticipate and appreciate your continued cooperation in resolving this matter. If you have any questions regarding this VN, please contact us at the numbers below.

Sincerely,

Michael F. Prysby, P.E., District Engineer

RE: FDCVT Grant for **Water Main Leak Survey**

DATE: December 17, 2014

Denise,

The following is in response to your question regarding how the city would fund repairs that were discovered as a result our FDCVT grant request:

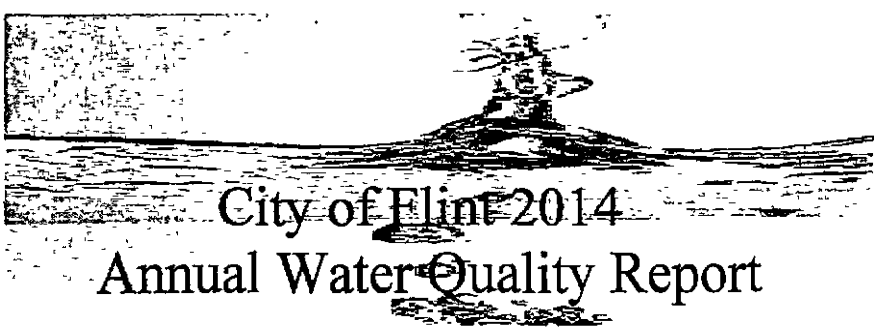
1. The City of Flint Utility department has funds allocated annually for maintenance such as main breaks within the distribution system. Any main breaks that are discovered as a result of the leak detection would be covered within the current maintenance budget.

2. The city has established a Capital Improvement line item in the Water Fund that includes approximately five million dollars for prioritized improvements. Repairs that are slightly greater than main breaks will be evaluated for urgency and scheduled as a capital improvement for the first half of fiscal year 2016.

3. If a repair is discovered as a result of the leak detection service that rises to a financial level greater than the capital improvement budget will support then the city will engage the DEQ with the concern and look to submit the repair as a project to be funded by the state drinking water revolving fund.

Howard D. Croft
Public Works Director

Cc: Darnell Earley, Emergency Manager
Dayne Walling, Mayor



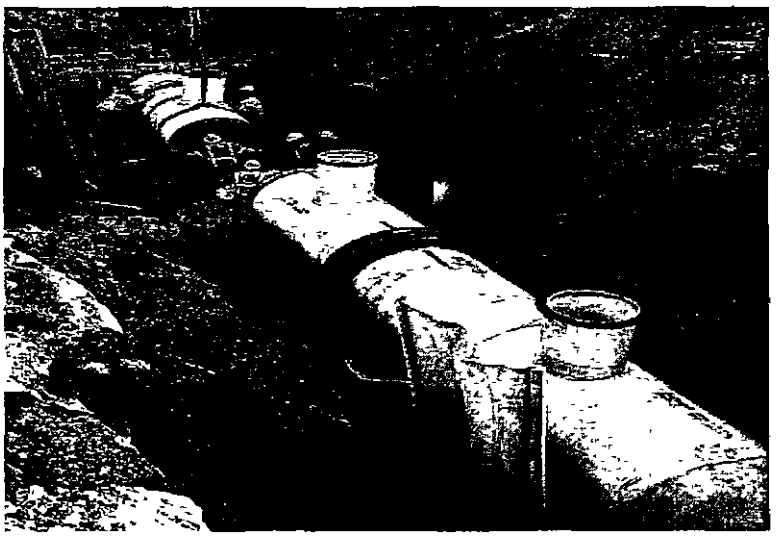
City of Flint 2014 Annual Water Quality Report

The Consumers Annual Water Quality Report provides important information about your drinking water. This report includes information about the source of the water, health information, a chart summarizing regulatory required testing results, and a table giving explanations of important terms to understand when viewing the test results. The City of Flint Department of Utilities is dedicated to providing quality drinking water to the residents of the community. The Flint Water Plant operates and maintains a certified drinking water laboratory to assure compliance with all state and federal regulations, and is committed to prompt and thorough notification to the consumers if there is any reason for concern about the quality of the drinking water. Information about your drinking water is available on the City of Flint web page at *www.cityofflint.com* or by calling the City of Flint Water Plant at (810) 787-6537. The Safe Drinking Water Hotline at (800) 426-4791 is a resource for health related questions and water quality issues. General drinking water information can also be found on the USEPA web site at www.epa.gov/safewater/.

Water Source

The City of Flint began using the Flint River as a water source in May of 2014. Flint is located roughly in the middle of the Flint River Watershed. The Flint River watershed includes Holloway Reservoir, C.S. Mott Lake, Kearsley Lake, and numerous streams and creeks that drain to these lakes or directly into the Flint River. The Michigan Department of Environmental Quality in partnership with the U.S. Geological Survey, and the City of Flint Utilities Department conducted a source water assessment in February 2004 to determine the susceptibility of potential contamination. The susceptibility rating is a seven-tiered scale ranging from "very low" to "very high" based primarily on geologic sensitivity, water chemistry, and contaminant sources. The Flint River source water intake is categorized as having a very high susceptibility to potential contaminant sources.

The use of the Flint River as a source water for the City of Flint Water Treatment Plant was a temporary move, driven largely by economics and the financial state of the City. The City of Flint joined the Karegnondi Water Authority (KWA) in 2010. The KWA consists of a group of local communities that decided to support and fund construction of a raw water pipeline to Lake Huron. The KWA will provide the City of Flint Water Treatment Plant with source water from Lake Huron. The KWA pipeline is currently under construction, and is scheduled to be completed by the end of 2016.



KWA pipeline construction

General Information

In order to ensure that tap water is safe to drink, the EPA prescribes regulations, which limit the amount of certain contaminants in water provided by the public water systems. The Food and Drug Administration (FDA) regulations establish limits for contaminants in bottled water, which must provide the same protection for public health. Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the EPA's Safe Drinking Water Hotline (800-426-4791).

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity. Contaminants that may be present in source water include:

- **Microbial contaminants;** such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- **Inorganic contaminants;** such as salts and metals, which can be naturally-occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.
- **Pesticides and herbicides;** which may come from a variety of sources such as agriculture, urban storm water runoff, and residential uses.
- **Organic chemical contaminants;** including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff, and septic systems.
- **Radioactive contaminants;** which can be naturally occurring or be the result of oil and gas production and mining activities.

General Information (cont.)

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-comprised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (1-800-426-4791).

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Infants and young children are typically more vulnerable to lead in drinking water than the general population. It is possible that the lead levels at your home may be higher than at other homes in the community as a result of materials used in your home's plumbing Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. The City of Flint Department of Utilities is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. If you are concerned about elevated lead levels in your home's water, you can minimize your potential exposure to lead in your water by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at http://www.epa.gov/safewater/lead.

2014 & Current Drinking Water Issues

The City of Flint did experience drinking water issues in the summer of 2014. Issues began with areas of the city experiencing "rusty" water. This was largely due to the fact that the city distribution system contains hundreds of miles of cast iron pipe. As these pipes age and degrade, iron is released, causing the water to exhibit color. The change in source water, water main breaks, and routine maintenance to the system also contributed to this problem.

The City of Flint received violations from the Michigan Department of Environmental Quality (MDEQ). The violations included a total coliform and E. coli in August and September of 2014, and a corresponding total trihalomethanes (TTHM) violation in December of the same year. As the city distribution system testing began to detect bacteria, system flushing increased, and chlorine addition to the water at the treatment plant also increased. The resulting increased chlorine addition then resulted in the higher formation of trihalomethanes.

While facing these issues, the City of Flint took steps to confer with industry professionals and state regulators in regards to treatment plant operation and distribution system operation. In November, TTHM levels were below the Maximum contaminant level set forth in the Michigan Safe Drinking Water Act.

Moving Forward

The City of Flint has taken many steps to correct the underlying issues that resulted in the drinking water violations. Water Treatment Plant corrective actions that were taken immediately after the issues occurred included:

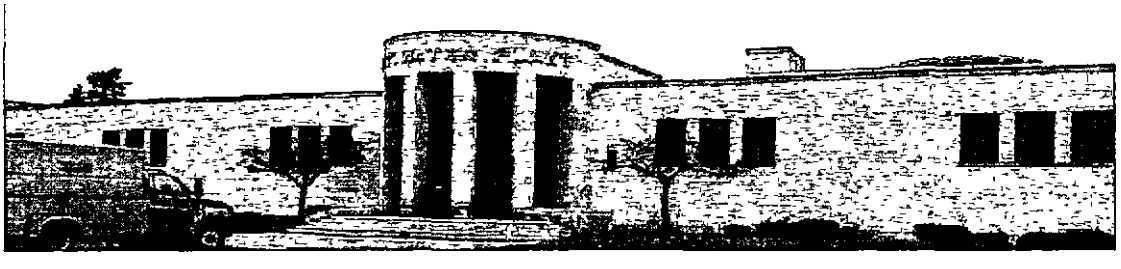
- Limiting the use of storage reservoirs during the warm weather months.
  - Warm water temperatures and water age are large contributors to the formation of THM's.
- Optimizing ozone pretreatment by updating control programming along with cleaning and inspection of the ozone generators.
  - Ozone is a powerful oxidant that provides a level of disinfection along with taste and odor control.
- Currently finalizing the installation of granular activated carbon (GAC) to the filtration process, which should be complete by the end of July 2015.
  - GAC will reduce THM's by removing the chemical precursors that react with chlorine to form the THM's.

Moving Forward (cont.)

Distribution system corrective actions that were enacted include:

- Increased water main flushing in an effort to alleviate stagnant water.
- Update distribution system water hydraulic model, to determine possible problem areas.
- Repaired or replaced several large water main valves, which were inhibiting the designed flow of water through the system.
- Planning and budgeting of 24' transmission water main repair in area of concern in the distribution system.
- Begin a complete distribution system evaluation of the 7000 water main valves that control the flow of water throughout the city. This project will be complete in July of 2015 and will provide information on where to proceed with further repairs and future projects.

The City of Flint is dedicated to resolving the issues that are facing the water system, and will continue to move forward as we prepare for the future. The City would like to thank all the residents and customers for their patience and understanding as we face the challenges ahead. The trials and tribulations that we have faced with the switch to the Flint River as a source water will prove to be important as we move ahead as a member of the KWA. Some of the distribution system issues experienced in 2014 while using the Flint River may also have been experienced with a different source water. As we continue to address the issues and take steps to be proactive, we can assure a future of quality drinking water in the City of Flint.



If you have any questions about this report or other concerns please contact the City of Flint Water Plant (810) 787-6537.

2014 Regulated Detected Contaminants
Monitored at Treatment Plant

Regulated Contaminant	Unit of Measure	MCLG	MCL	Highest Level Detected	Range of Detection	Violation
Inorganic Chemicals						
Fluoride	mg/L	4	4			No
Nitrate	mg/L	10	10	0.5	0 – 0.5	No
Metals						
Barium	mg/L	2	2	0.03	0.02 – 0.03	No
Selenium	mg/L	0.05	0.05	0.001	0 – 0.001	No
Pesticides						
Atrazine	mg/L	0.03	0.03	0.0003	0 – 0.0003	No
Organics						
Total Xylenes	mg/L	10	10	0.0005	0 – 0.0005	No

More than 100 other chemicals were monitored throughout the year that were not detected. The list of various classifications these chemicals are associated with include metals, carbamates, herbicides, pesticides, organics, and radiological.

Total Organic Carbon, TOC			
Regulated Contaminant	Required Monthly % Removal	Minimum Monthly % Removal	Monthly % Removal Ranges
Total Organic Carbon	50	53	53 - 68

Finished water and Source water samples are collected and analyzed monthly to calculate percent removal. Total organic carbon includes numerous chemicals that are found naturally in surface waters. Certain chemicals found in this group are precursors to the disinfection byproducts trihalomethanes and haloacetic acids.

Turbidity		
Highest Single Measurement (Cannot exceed 1NTU)	Lowest Monthly % of Samples Meeting Turbidity Limit (< 0.3 NTU in 95% of samples)	Violation
0.22	99.1	No

Turbidity is a measure of the apparent cloudiness of water, usually attributed to particulate matter. The turbidity data in the chart above is measured from the water plant tap every 4 hours. Turbidity is monitored throughout each stage of the treatment process in 4 hour intervals, and in one of the final stages of treatment, filtration, turbidity is monitored continuously with in line meters, and verified every 4 hours in the laboratory.

In 2014, the EPA required the City of Flint and other communities to conduct further testing on unregulated contaminants at the treatment plant and the maximum residence time in the distribution system. The monitoring results will be utilized by the EPA to determine if these chemicals should be regulated. The unregulated contaminant monitoring that yielded results are presented in the chart below

Unregulated Contaminant Monitoring			
Regulated Contaminant	Unit of Measure	Highest Level Detected	Range of Detection
Chromium	ug/L	0.40	0 – 0.4
Hexavalent Chromium	ug/L	0.40	0.34 – 0.40
Strontium	ug/L	130	120 – 130
Vanadium	ug/L	0.20	0 – 0.20

2014 Regulated Detected Contaminants
Monitored in Distribution System

Disinfectant Residuals						
Regulated Contaminant	Unit of Measure	MCLG	MCL	Highest Level Detected	Range of Detection	Violation
Total Chlorine Residual	mg/L	4.0	4.0	3.5	0.1 – 3.5	No

Microbiological Contaminants				
Regulated Contaminant	MCL G	MCL	Highest Number detected (in 1 month)	Violation
Total Coliform bacteria	0	The presence of coliform bacteria in > 5% of monthly samples	15	Yes
E. coli Bacteria	0	0	1	Yes

Disinfectant residuals and microbiological contaminants are monitored at 8 locations throughout the city distribution system, and at the 2 drinking water reservoirs and pump stations located out in the distribution system. At least 100 samples are collected and analyzed each month.

Lead & Copper						
Regulated Contaminant	Unit of Measure	MCLG	Action Level AL	90th Percentile Value	Number of samples over AL	Violation
Lead	ug/L	0	15	6	2	No
Copper	mg/L	1.3	1.3	0.11	0	No

Lead and copper monitoring was conducted from June through December 2014 with the collection of 100 samples. Samples were collected by residents from the taps at their residence. Thank you to all who participated in collecting samples.

Disinfection By-Products						
Regulated Contaminant	Unit of Measure	MCL G	MCL	Highest Level Detected	Range of Detection	Violation
Total Trihalomethanes (TTHM)	ug/L	n/a	80	196	33.3 -196.2	Yes
Haloacetic Acids (HAA)	ug/L	n/a	60	64	5 - 64	No
Bromate	ug/L	10	10	23	0 - 23	No

Disinfection by-products occur as a result of the water treatment process. Bromate is formed as a result of using ozone as a treatment additive. Ozone is used to help control taste and odor issues, and as a pre-treatment disinfection. Naturally occurring bromide reacts with Ozone to generate bromate. Bromate is monitored monthly, and compliance is based on a yearly average.

TTHM's and HAA's are formed as a result of utilizing chlorine in the treatment process. Naturally occurring compounds known as TOC's (total organic carbon) react with chlorine to form TTHM's and HAA's. The temperature and the age of water increase the formation of THM's and HAA's, and as a result, during the warm months of the year is when levels were at their highest. Samples are tested quarterly from 8 sites throughout the distribution system and compliance is based on a running annual average at each individual site.

Key to the Detected Contaminant Tables		
Symbol	**Abbreviation for**	**Definition/Explanation**
>	Greater than	
AL	Action Level	The concentration of a contaminant, which, if exceeded, triggers treatment or other requirements which a water system must follow
HAA5	Haloacetic Acids	HAA5 is the total of bromoacetic, chloroacetic, dibromoacetic, dichoroacetic, and trichloroacetic acids. Compliance is based on the total .
LRAA	Locational Running Annual Average	
MCL	Maximum Contaminant Level	The highest level of a contaminant that is allowed in d water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
MCLG	Maximum Contaminant Level Goal	The level of contaminant in drinking water below which there is no known or expected risk to health
mg/L	Milligrams per Liter	A milligram = 1/1000 gram 1 milligram per liter is equal to 1ppm
MRDL	Maximum Residual Disinfectant Level	The highest level of disinfectant allowed in drinking water There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
MRDLG	Maximum Residual Disinfectant Level Goal	The level of a drinking water disinfectant below which there is no known or expected risk to health MRLDG's do not reflect the benefits of the use of disinfectants to control microbial contaminants.
n/a	Not Applicable	
ND	Not Detected	
NTU	Nephelometric Turbidity Units	Measures the cloudiness of water
pCi/L	Picocuries per Liter	A measure of radioactivity. Picocurie (pCi) means the quantity of radioactive material producing 2.22 nuclear transformations per minute
ppb	Parts Per Billion (one in one billion)	The ppb is equivalent to micrograms per liter A microgram = 1/1000 milligram.
ppm	Parts Per Million (one in one million)	The ppm is equivalent to milligrams per liter. A milligram = 1/1000 gram
RAA	Running Annual Average	
TT	Treatment Technique	A required process intended to reduce the level of a contaminant in drinking water
TTHM	Total Trihalomethanes	Total Trihalomethanes is the sum of chloroform, bromodichloromethane, dibromoochloromethane and bromoform. Compliance is based on total.
ug/L	Micrograms per Liter	A microgram = 1/1,000,000 gram 1 microgram per liter is equal to 1ppb

Distribution Sample Summary	
Total # of routine distribution samples analyzed	132
Total # of routine distribution samples required	100

Distribution Bacteriological Summary	
Total # of positive routine distribution samples	0
Percent of routine distribution samples positive	0%

See page 9 for positive sample information.

Distribution Disinfectant Total Residual Summary	
Percentage of samples with a detectable disinfectant residual	100%
Average disinfectant residual this month	1.13

Average disinfectant residual this month	1.4

City of Flint

December 2014

Water Quality Report Summary

The City of Flint Department of Utilities is dedicated to providing a high quality drinking water to the residents of the community. The Consumers Annual Report on Water Quality provides important information about your drinking water and is mailed once a year to all water customers. This report is a summary of the monthly operating report (MOR) and also contains operational information and statistics about the water and sewer systems. This report will appear online each month along with the MOR

Additional information about your drinking water is available by calling the Flint Water Plant & Facilities at 810-787-6537

General drinking water information can be found on the USEPA website at www.epa.gov/safewater/

City of Flint
Water Quality
Monitoring Data

Detected Contaminants

December, 2014

Monitored at the Treatment Plant

Substance	Units	MCL-G	MCL	Highest Level	Range Detected	Are We Compliant	Typical Source of Contaminant
BARIUM	ppm	2	2	0.02	N/A	Yes	Discharge of drilling wastes Erosion of natural deposits
CHLORIDE	ppm	N/A	N/A	87	74 - 87	Yes	Erosion from natural deposits
CHLORINE RESIDUAL	ppm	4	4	3	1 7 - 3 0	Yes	Water additive used to control microbes
FLUORIDE	ppm	4	4	0 77	0 59 - 0 77	Yes	Discharge from fertilizer & aluminum factories
HARDNESS	ppm	N/A	N/A	210	168 - 210	N/A	
NITRATE	ppm	10	10	Not Detected	N/A	Yes	Runoff from fertilizer use; leaching from septic tanks, sewage;
TURBIDITY (cloudiness)	NTU	< 0 3 in 95 % of samples		0.12	0 06 - 0 12	Yes	Soil runoff
TOTAL ORGANIC CARBON	ppm	N/A	N/A	2.59	N/A	Yes	Erosion of natural runoff
BROMATE	ppm	N/A	0 01	0 023	N/A	N/A	By-product of ozone treatment, compliance based on RAA

Monitored in the Distribution System

Substance	Units	MCL-G	MCL	Highest Level	Range Detected	Are We Compliant	Typical Source of Contaminant
CHLORINE RESIDUAL	ppm	4	4	2.8	0 2 - 2 8	Yes	Water additive used to control microbes
HALOACIDIC ACIDS (HAA5)	ppb	N/A	60	24	5 - 24	Yes	By-product of drinking water disinfection
TRIHALOMETHANES (TTHM)	ppb	N/A	80	93.6	33 3 - 93 6	No	By-product of drinking water disinfection
TOTAL COLIFORM	ppm	< 5% of samples present		0	N/A	Yes	Naturally occurring

Monitored at the Customers Tap (from June through December 2014)

Substance	Units	MCL-G	AL	Highest Level	# samples over AL	Are We Compliant	Typical Source of Contaminant
COPPER	ppm	1.3	1.3	0.28	0	yes	Corrosion of household plumbing systems;leaching from wood preservatives
LEAD	ppb	0	15	37	2	Yes	Corrosion of household plumbing systems; erosion of natural deposits

Unregulated Contaminants

Substance	Units	MCL-G	MCL	Level Detected	Highest Level	Are We Compliant	Typical Source of Contaminant
SODIUM	ppm	N/A	N/A	18	N/A	N/A	Erosion of natural deposits
pH	S.U	N/A	N/A	8.49	7 41 - 8.49	N/A	

Note: TTHM, HAA5, and Chlorine are for the Flint Distribution System

**The state requires us to monitor for certain contaminants less than once per year because the concentrations of these contaminants do not change that frequently*

Some contaminants are sampled less frequently than once a month; as a result, not all contaminants were sampled for during the month of December

Non Compliant Explanation -A TTHM Violation was issued to the City of Flint by the DEQ December 16th, 2014. TTHM is tested once each quarter and the DEQ takes a rolling four quarter average to measure against the MCL in determining compliance. The City has addresses the violation by working with professional engineers to submit a required Operational Evaluation Plan to the DEQ and currently seven of eight test sites are below the MCL limit.

Water Source

The City of Flint currently uses the Flint River as its Primary water source.

Health Information

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the EPA's Safe Drinking Water Hotline (1-800-426-4791).

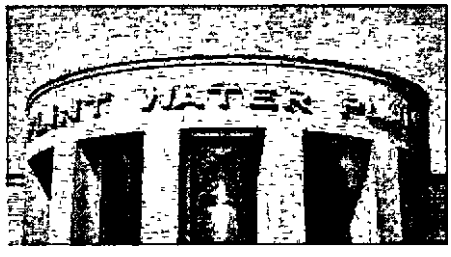
Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons, such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (1-800-426-4791).

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water include: Microbial contaminants, such as viruses and bacteria; Inorganic contaminants, such as salts and metals, which can be naturally-occurring. Pesticides and herbicides, Organic chemical contaminant and radioactive contaminants.

In order to ensure that tap water is safe to drink, EPA prescribes regulations, which limit the amount of certain contaminants in water provided by public water systems. Food and Drug Administration regulations established limits for contaminants in bottled water, which must provide the same protection for public health.

Should there be any water quality complaints or requests for technical information regarding water quality, Holloway Reservoir, Kearsley Lake, Thread Lake, and Flint River water levels call **(810) 787-6537** for assistance.



The City of Flint Water Plant conducts lead & copper monitoring every three years from a limited number of

Key to Detected Contaminants Table

Symbol	Abbreviation for	Definition / Explanation
AL	Action Level	The concentration of a contaminant, which if exceeded, triggers treatment or other requirements which a water system must follow

HAA5	Haloacidic acids	HAA5 is the total of bromoacedic, chloroacedic, dibromoacedic, and trichloroacetic acids. Compliance is based on the totalof five
MCL	Maximum Contaminant Level	The highest level of a contaminant that is allowed in drinking water
MCL-G	Maximum Contaminant Level Goal	The level of a contaminant below which there is no known or expected risk to health
MRDL	Maximum Residual Disinfectant Level	The highest level of a disinfectant allowed in drinking water
MRDL-G	Maximum Residual Disinfectant Level Goal	The level of a disinfectaant below which there is no known or expected risk to health
N/A	Not Applicable	
ND	Not Detected	
NTU	Nephelometric Turbidity Units	Measures the cloudinessin water
pCi/L	picocuries	A measure of radioactivity
ppb	Parts per billion (one in a billion)	The ppb is equivalent to micrograms per liter A microgram is equal to 1/1000 milligram
ppm	parts per million (one in a million)	The ppm is equivalent to micrograms per liter A microgram is equal to 1/1000 gram
TT	Treatment Technique	
TTHM	Total Trihalomethanes	Total trihalomethanes is the sum of chloroform, bromodichloromethane, dibromochloromethane and bromoform

Water & Sewer System Information

Water System Statistics		Sewer System Statistics	
Water & Sewer Customers	29700	Catch Basins Cleaned/Replaced/Repaired	36
Main Break Repairs	26	Driveway/Sidewalk Repairs	5
Main Valves Replaced/Repaired	5	Lawn Repairs	3
Cut & Plug Services	43	Manhole Replacements	2
Fire Hydrants Replaced/Repaired	12	Sewer Inspections	28
Curb Box Services	42	Street Cut Repairs	13
Miss Dig Orders	5	Sanitary Sewer - TV Inspections (ft)	878
Avg. Water Usage	17.01 MGD	Miss Dig Orders	23

Strategic Plan - Utility Department Key Objective's 60 Day Outlook

Key Objective	Target Date	Comments
Develop and implement a "water loss" program	2/15/2015	Working with engineering firms
Implement a response time policy for the WSC	3/1/2015	Modifying management/union proposal
Implement a root control matrix	3/15/2015	Will reduce sewer infiltration
Complete electrical upgrades on Cedar Street pumping station	4/1/2015	Will increase pressure efficiency

CITY of FLINT WATER TREATMENT PLANT MONTHLY OPERATION REPORT

SUPPLY NAME: CITY of FLINT WATER PLANT
WSSN: 2310

Michael Glasgow	**February 2015**
Operator-in-Charge	Month/Year
F-1R, F-2	**F-1**
Certification of Operator-in-Charge	Water Plant Classification
Michael Glasgow	**Genesee**
Signature of Operator-in-Charge	County

Treatment Rate and Filter Data

Maximum Treatment Rate.	25.3	Million Gallons per Day
Rated Plant Capacity.	36	Million Gallons per Day
Average Filter Run	86	Hours
Average Head Loss	n/a	Feet *(filter head loss meters not operational)
Average Filtration Rate	2.4	Gallons Per Square Feet per Minute
Maximum Filtration Rate.	3.3	Gallons Per Square Feet per Minute
Average Wash Water Use	2.4%	Percent of Treated Water

Chemical Data

Chlorine on hand	8,000	lb	Est supply	8	days
Primary Coagulant (Ferric Chloride) on hand	125,000	lb	Est supply	3	days
Lime (CaO) on hand	397	tons	Est supply	31	days
Fluoride on Hand.	26,600	lb	Est. supply	40	days
Cost of All Chemicals per Million Gallons*	n/a	dollars			
Total Power Cost per Million Gallons*	n/a	dollars			

Remarks	Confluence Point # 1 (N)	Confluence Point # 2 (S)
Number of filter confluence samples > 0.3 NTU*	1	0
Number of filter confluence samples collected	218	218
Percent of filter confluence samples > 0.3 NTU	0.5%	0.0%
Number of filter confluence samples > 1 NTU	0	0

Did any individual filter exceed:

1.0 NTU in two consecutive measurements taken 15 minutes apart? NO
If yes, attach specific filter(s) information and indicate required follow-up status

0.5 NTU in two consecutive measurements taken 15 minutes apart after 4 hours of operation? NO
If yes, attach specific filter(s) information and indicate required follow-up status

1.0 NTU in two consecutive measurements taken 15 minutes apart for 3 consecutive months? NO
If yes, attach specific filter(s) information and indicate required follow-up status

2.0 NTU in two consecutive measurements taken 15 minutes apart for 2 consecutive months? NO
If yes, attach specific filter(s) information and indicate required follow-up status

Was continuous (every 15 minutes) filter monitoring equipment off-line during the month? NO
If yes indicate date(s), duration and individual filter grab sampling frequency on a separate sheet

Did POE disinfectant residual fall below 0.2 ppm during the month? NO
If yes, indicate date(s) and duration on a separate sheet

Was minimum C*T credit achieved for the entire month? YES
If no, indicate on a separate sheet the date(s) not achieved.

Was continuous POE chlorine residual monitoring equipment off-line during the month? NO
If yes, indicate date(s) and duration on a separate sheet

CITY of FLINT WATER TREATMENT PLANT MONTHLY OPERATION REPORT

SUPPLY NAME: CITY of FLINT WATER PLANT
WSSN: 2310

Michael Glasgow	**January 2015**
Operator-in-Charge	Month/Year
F-1R, F-2	**F-1**
Certification of Operator-in-Charge	Water Plant Classification
Michael Glasgow	**Genesee**
Signature of Operator-in-Charge	County

Treatment Rate and Filter Data

Maximum Treatment Rate*	19.3	Million Gallons per Day
Rated Plant Capacity*	36	Million Gallons per Day
Average Filter Run:	76	Hours
Average Head Loss*	n/a	Feet *(filter head loss meters not operational)
Average Filtration Rate:	2.1	Gallons Per Square Feet per Minute
Maximum Filtration Rate	3.6	Gallons Per Square Feet per Minute
Average Wash Water Use:	3.2%	Percent of Treated Water

Chemical Data

Chlorine on hand:	12,000	lb.	Est. supply*	18 days
Primary Coagulant (Ferric Chloride) on hand:	110,000	lb.	Est. supply*	10 days
Lime (CaO) on hand:	257	tons	Est. supply.	22 days
Fluoride on Hand:	16,630	lb.	Est. supply*	42 days
Cost of All Chemicals per Million Gallons*	n/a	dollars		
Total Power Cost per Million Gallons:	n/a	dollars		

Remarks	Confluence Point # 1 (N)	Confluence Point # 2 (S)
Number of filter confluence samples > 0.3 NTU:	0	0
Number of filter confluence samples collected:	244	242
Percent of filter confluence samples > 0.3 NTU*	0.0%	0.0%
Number of filter confluence samples > 1 NTU	0	0

Did any individual filter exceed:

1.0 NTU in two consecutive measurements taken 15 minutes apart? **NO**
If yes, attach specific filter(s) information and indicate required follow-up status.

0.5 NTU in two consecutive measurements taken 15 minutes apart after 4 hours of operation? **NO**
If yes, attach specific filter(s) information and indicate required follow-up status.

1.0 NTU in two consecutive measurements taken 15 minutes apart for 3 consecutive months? **NO**
If yes, attach specific filter(s) information and indicate required follow-up status.

2.0 NTU in two consecutive measurements taken 15 minutes apart for 2 consecutive months? **NO**
If yes, attach specific filter(s) information and indicate required follow-up status.

Was continuous (every 15 minutes) filter monitoring equipment off-line during the month? **NO**
If yes, indicate date(s), duration, and individual filter grab sampling frequency on a separate sheet.

Did POE disinfectant residual fall below 0.2 ppm during the month? **NO**
If yes, indicate date(s) and duration on a separate sheet.

Was minimum C*T credit achieved for the entire month? **YES**
If no, indicate on a separate sheet the date(s) not achieved.

Was continuous POE chlorine residual monitoring equipment off-line during the month? **NO**
If yes, indicate date(s) and duration on a separate sheet.

Distribution Sample Summary	
Total # of routine distribution samples analyzed	101
Total # of routine distribution samples required	100

Distribution Bacteriological Summary	
Total # of positive routine distribution samples	0
Percent of routine distribution samples positive	0%

See page 9 for positive sample information.

Distribution Disinfectant Total Residual Summary	
Percentage of samples with a detectable disinfectant residual	100%
Average disinfectant residual this month	1.15

Distribution Disinfectant Total Residual Summary	
Percent samples with a detectable disinfectant residual	100%
Average disinfectant residual this month	1.4

Positive Distribution Samples

Date	Monitoring station	Date	Repeat Monitoring Stations	Residual (mg/L) Free / Total	Present or Absent

CITY of FLINT WATER TREATMENT PLANT MONTHLY OPERATION REPORT

SUPPLY NAME: CITY of FLINT WATER PLANT
WSSN: 2310

Michael Glasgow	**July 2015**
Operator-in-Charge	Month/Year
F-1R, F-2	**F-1**
Certification of Operator-in-Charge	Water Plant Classification
Michael Glasgow	**Genesee**
Signature of Operator-in-Charge	County

Treatment Rate and Filter Data

Maximum Treatment Rate	18.5	Million Gallons per Day	
Rated Plant Capacity	36	Million Gallons per Day	
Average Filter Run	124	Hours	
Average Head Loss	n/a	Feet	*(filter head loss meters not operational)
Average Filtration Rate	2.5	Gallons Per Square Feet per Minute	
Maximum Filtration Rate*	3.3	Gallons Per Square Feet per Minute	
Average Wash Water Use	1.0%	Percent of Treated Water	

Chemical Data

Chlorine on hand*	24,000	lb.	Est. supply*	28	days
Primary Coagulant (Ferric Chloride) on hand	153,000	lb	Est supply	10	days
Lime (CaO) on hand	197	tons	Est supply*	17	days
Fluoride on Hand	6,000	lb	Est. supply	13	days
Cost of All Chemicals per Million Gallons*	n/a	dollars			
Total Power Cost per Million Gallons*	n/a	dollars			

Remarks	Confluence Point # 1 (N)	Confluence Point # 2 (S)
Number of filter confluence samples > 0 3 NTU	1	0
Number of filter confluence samples collected	218	218
Percent of filter confluence samples > 0 3 NTU	0.5%	0.0%
Number of filter confluence samples > 1 NTU	0	0

Did any individual filter exceed:

1 0 NTU in two consecutive measurements taken 15 minutes apart? **NO**
If yes, attach specific filter(s) information and indicate required follow-up status

0 5 NTU in two consecutive measurements taken 15 minutes apart after 4 hours of operation? **NO**
If yes, attach specific filter(s) information and indicate required follow-up status

1 0 NTU in two consecutive measurements taken 15 minutes apart for 3 consecutive months? **NO**
If yes, attach specific filter(s) information and indicate required follow-up status

2 0 NTU in two consecutive measurements taken 15 minutes apart for 2 consecutive months? **NO**
If yes, attach specific filter(s) information and indicate required follow-up status

Was continuous (every 15 minutes) filter monitoring equipment off-line during the month? **NO**
If yes, indicate date(s), duration, and individual filter grab sampling frequency on a separate sheet

Did POE disinfectant residual fall below 0 2 ppm during the month? **NO**
If yes, indicate date(s) and duration on a separate sheet

Was minimum C*T credit achieved for the entire month? **YES**
If no, indicate on a separate sheet the date(s) not achieved

Was continuous POE chlorine residual monitoring equipment off-line during the month? **NO**
If yes, indicate date(s) and duration on a separate sheet.

CITY of FLINT WATER TREATMENT PLANT MONTHLY OPERATION REPORT

SUPPLY NAME: CITY of FLINT WATER PLANT
WSSN: 2310

Michael Glasgow	**June 2015**
Operator-in-Charge	Month/Year
F-1R, F-2	**F-1**
Certification of Operator-in-Charge	Water Plant Classification
Michael Glasgow	**Genesee**
Signature of Operator-in-Charge	County

Treatment Rate and Filter Data

Maximum Treatment Rate.	**18.5**	Million Gallons per Day
Rated Plant Capacity	**36**	Million Gallons per Day
Average Filter Run	**90**	Hours
Average Head Loss	**n/a**	Feet *(filter head loss meters not operational)
Average Filtration Rate	**2.3**	Gallons Per Square Feet per Minute
Maximum Filtration Rate	**3.3**	Gallons Per Square Feet per Minute
Average Wash Water Use	**2.0%**	Percent of Treated Water

Chemical Data

Chlorine on hand	**12,000**	lb	Est supply	**13**	days
Primary Coagulant (Ferric Chloride) on hand	**220,000**	lb	Est supply	**13**	days
Lime (CaO) on hand	**259**	tons	Est. supply	**32**	days
Fluoride on Hand	**18,000**	lb	Est supply	**45**	days
Cost of All Chemicals per Million Gallons	**n/a**	dollars			
Total Power Cost per Million Gallons	**n/a**	dollars			

Remarks	Confluence Point # 1 (N)	Confluence Point # 2 (S)
Number of filter confluence samples > 0.3 NTU.	**0**	**0**
Number of filter confluence samples collected:	**211**	**211**
Percent of filter confluence samples > 0 3 NTU.	**0.0%**	**0.0%**
Number of filter confluence samples > 1 NTU	**0**	**0**

Did any individual filter exceed:

1 0 NTU in two consecutive measurements taken 15 minutes apart? **NO**
If yes, attach specific filter(s) information and indicate required follow-up status

0 5 NTU in two consecutive measurements taken 15 minutes apart after 4 hours of operation? **NO**
If yes, attach specific filter(s) information and indicate required follow-up status

1 0 NTU in two consecutive measurements taken 15 minutes apart for 3 consecutive months? **NO**
If yes, attach specific filter(s) information and indicate required follow-up status.

2 0 NTU in two consecutive measurements taken 15 minutes apart for 2 consecutive months? **NO**
If yes, attach specific filter(s) information and indicate required follow-up status

Was continuous (every 15 minutes) filter monitoring equipment off-line during the month? **NO**
If yes, indicate date(s), duration and individual filter grab sampling frequency on a separate sheet

Did POE disinfectant residual fall below 0 2 ppm during the month? **NO**
If yes indicate date(s) and duration on a separate sheet

Was minimum C*T credit achieved for the entire month? **YES**
If no, indicate on a separate sheet the date(s) not achieved

Was continuous POE chlorine residual monitoring equipment off-line during the month? **NO**
If yes, indicate date(s) and duration on a separate sheet

CITY of FLINT WATER TREATMENT PLANT MONTHLY OPERATION REPORT

SUPPLY NAME: CITY of FLINT WATER PLANT
WSSN: 2310

Michael Glasgow	**May 2015**
Operator-in-Charge	Month/Year
F-1R, F-2	**F-1**
Certification of Operator-in-Charge	Water Plant Classification
	Genesee
Signature of Operator-in-Charge	County

Treatment Rate and Filter Data

Maximum Treatment Rate.	20.3	Million Gallons per Day
Rated Plant Capacity	36	Million Gallons per Day
Average Filter Run.	69	Hours
Average Head Loss	n/a	Feet *(filter head loss meters not operational)
Average Filtration Rate	3.1	Gallons Per Square Feet per Minute
Maximum Filtration Rate	2.3	Gallons Per Square Feet per Minute
Average Wash Water Use	3.5%	Percent of Treated Water

Chemical Data

Chlorine on hand	24,000	lb	Est. supply	33	days
Primary Coagulant (Ferric Chloride) on hand	126,000	lb	Est. supply	7	days
Lime (CaO) on hand	289	tons	Est. supply	24	days
Fluoride on Hand	15,000	lb	Est. supply	40	days
Cost of All Chemicals per Million Gallons	n/a	dollars			
Total Power Cost per Million Gallons	n/a	dollars			

Remarks	Confluence Point # 1 (N)	Confluence Point # 2 (S)
Number of filter confluence samples > 0.3 NTU	0	0
Number of filter confluence samples collected	229	229
Percent of filter confluence samples > 0.3 NTU	0.0%	0.0%
Number of filter confluence samples > 1 NTU	0	0

Did any individual filter exceed:

1.0 NTU in two consecutive measurements taken 15 minutes apart? **NO**
If yes, attach specific filter(s) information and indicate required follow-up status

0.5 NTU in two consecutive measurements taken 15 minutes apart after 4 hours of operation? **NO**
If yes, attach specific filter(s) information and indicate required follow-up status

1.0 NTU in two consecutive measurements taken 15 minutes apart for 3 consecutive months? **NO**
If yes, attach specific filter(s) information and indicate required follow-up status

2.0 NTU in two consecutive measurements taken 15 minutes apart for 2 consecutive months? **NO**
If yes, attach specific filter(s) information and indicate required follow-up status

Was continuous (every 15 minutes) filter monitoring equipment off-line during the month? **NO**
If yes, indicate date(s), duration, and individual filter grab sampling frequency on a separate sheet.

Did POE disinfectant residual fall below 0.2 ppm during the month? **NO**
If yes indicate date(s) and duration on a separate sheet.

Was minimum C*T credit achieved for the entire month? **YES**
If no, indicate on a separate sheet the date(s) not achieved

Was continuous POE chlorine residual monitoring equipment off-line during the month? **NO**
If yes, indicate date(s) and duration on a separate sheet.

Cc: Dempkowski, Angela (Treasury); Schafer, Suzanne K. (Treasury); Barton, John (Treasury); Lefler, Brian (BLefler@rwbaird.com)
Subject: RE: COMPARISON OF CASH REQUIREMENTS FOR KWA CUSTOMERS

David, I looked over this material this weekend and found it somewhat confusing. I would suggest a conference call to outline what is presented. I think we will want this information in a format that is easier to analyze. The call should include the County officials, and their bond counsel, financial advisors and senior managing underwriter. We will have several folks from Treasury and the State`s financial advisor participate so I will ask my assistant Angela Dempkowski to help set up a call. Thank you, Wayne

Hello Wayne and Howard,

Below and attached are the numbers discussed by KWA at our recent meeting. Please let me know if you have any questions.

From: Manny Lentine [mailto:manny@230north.org]

To: John Walsh; David Hodgkins; Matt Solak
Subject: Fwd: COMPARISON OF CASH REQUIREMENTS FOR KWA CUSTOMERS

Rep. Walsh,

As follow-up to the meeting with Treasury in your office, the below has been prepared by John O'Brien of KWA and John Lininger of Neuma, I am told. Treasury (Wayne) had requested data from KWA.

if this is not in an acceptable format (if, for example, you need an accompanying letter from KWA), please let Matt and I know and one of us will pursue that.

Thank you.

Manny

>
> Rick,
>
> Here is the comparison between bond sale and the Blair proposal. Please be sure to pull up all the attachments included on the model page. The model for Life Settlements has been revised to increase the interest rate to 5.5%. The difference is still over 270 million dollars in favor of the Blair proposal. As I have mentioned on many occasions, we modeled the acquisition cost for the policies @ 16%, which is high in today's market. Point is, the model is very conservative, by design, and we still beat the conventional bond sale by over 270 million. Should the purchase price be less, say 15 or 14% of face, the difference increases dramatically.
>
> The part you are focused on is the different cost to the KWA users,(see attachment to model). Both the bond sales and Blair's paybacks start in year 4..years 1 through 3 are prepaid interest since KWA is obligated to pay Detroit in those years. Cash benefits to the customers start in year 4 with Blair's proposal costing $7,349,383 less annually through year 20. Years 21 thru 25 Blair's proposal is $27,349,383 less annually than bond sales. Plus, the Blair proposal has a cash balance of $26,968,395 million dollars.
>
> I hope these details makes it very clear. I can go over this with you.
>
> John

EMERGENCY MANAGER COMMUNITIES:

City of Allen Park

- Emergency Manager anticipated exit - September 26, 2014
- Resolve retiree healthcare litigation
- Reduce OPEB liabilities by $550,000 annually
- Restructure movie studio debt; offers to purchase the Southfield lease properties (consisting of 104 acres and the occupied building having approximately 773,000 square feet) have been received and are under review
- Complete bond tender offer
- Property values are projected to increase by 5.29%

City of Benton Harbor

- Emergency Manager exit - February 28, 2014
- $2.3-million emergency loan approved to pay delinquent accounts payable totaling $2.3 million
- City Manager appointed

City of Detroit

- Emergency Manager anticipated exit - September 26, 2014
- Property values are projected to decline by 14.79%
- Resolve Chapter 9 Bankruptcy
- Restructure DWSD to a Regional Authority

City of Flint

- Emergency Manager anticipated exit – April 8, 2015
- Has reduced OPEB liabilities by $500 million; continue to reduce remaining $400 million
- Obtain favorable decision in lawsuit challenging changes to retiree healthcare; retiree healthcare cost is $5 million after the 6TH Circuit Court stayed the temporary restraining order
- Resolve Public Safety funding as a result of certain federal grants expiring during FY 15
- Construct Karegnondi Water Authority pipeline; necessary to resolve ongoing and costly issues with current service provider
- CRIME IS DOWN AT WHAT PERCENT?

City of Hamtramck

- Emergency Manager anticipated exit - January 1, 2015
- As part of its overall financial strategy, resolve $2.1 million liability to MERS through issuance of an emergency loan
- Hire City Manager

Pleyte, Beth (Treasury)

Subject:	RDS/DM/GT - Meeting with KClinton/TSaxton/WWorkman - Cities / Wayne County Meeting
Location:	Governor's Office, Romney
Start:	Wed 2/12/2014 4:00 PM
End:	Wed 2/12/2014 4:55 PM
Show Time As:	Tentative
Recurrence:	(none)
Meeting Status:	Not yet responded
Organizer:	GovCalendar
Required Attendees:	Muchmore, Dennis (GOV); Wisniewski, Wendy (GOV); Tedder, Greg (GOV); VanSickle, Michele (GOV); Cousineau, Sara (Treasury); Clinton, Kevin (TREASURY); Doyle, Maureen (Treasury); Workman, Wayne (TREASURY); Saxton, Thomas (Treasury)
Optional Attendees:	Koryzno, Edward (Treasury)

Call-In for Wayne Workman
888-363-4734
9699404
Host: 4563

Purpose: Distressed entities/cities/county meeting

Draft 2/11/14

State of Michigan
Executive Office
Governor Rick Snyder

Municipal Issues Update

February 12, 2014

Emergency Manager Communities

- **Flint**
  - Emergency Manager Darnell Earley - anticipated exit April 8, 2015
  - Emergency Manager imposed changes to retiree healthcare are being challenged in court; annual retiree healthcare cost is $5 million after the 6th Circuit Court stayed the temporary restraining order
  - Court decision jeopardizes $500 million in OPEB savings already realized, as well as future ability to reduce OPEB debt
  - Treasury cannot approve City's Deficit Elimination Plan until lawsuit is resolved
  - 31% overall drop in crime and resolve Public Safety funding shortfall of $7 million as a result of certain federal grants expiring during FY 2015
  - Monitor completion of the Karegnondi Water Authority to resolve cost issues with DWSD
  - Ernst & Young is conducting a financial analysis of the water/sewer system and Hurley Hospital
  - Michigan Municipal Training facilitated for local elected officials

Subject: RE: Presentation Material for this Wedenesday's Workshop

Folks - this is getting tiresome. It saps time and energy that is diverted from the resolution of the MOU efforts. There are three basic issues included in the below string of emails (I have taken the sender and receivers of these emails out in order to protect them to the extent that they can be). At this juncture, the time I would have otherwise spent on other DWSD matters, such as reading some of the material (not least of which is Amanda Van Dusen's changes of about a week ago in the MOU) is postponed in favor of resolving these new issues. On the more detailed rate matter, I am now going to have to schedule a WRC meeting with the appropriate parties to get up to speed on the status -more time.

The issues include:

First paragraph under the asterisks - resistance in releasing actual financial information and contacts. Okay. We can wait.

Second, Flint (a very fiscally distressed city under an EM) - it is my understanding that Flint's contract ends in April 2014 at which time they are transitioning off of the water system. Not unlike Highland Park, Flint will be requested to pay for stranded costs as they stand up their new system. Fine. But, what incentive will Flint, not then receiving services from DWSD will there be to pay the DWSD invoices even if we can get past the notion of the income levels of their residents that likely mirrors Detroit's delinquency rates? I submit, we have another Highland Park in the making. I need to get more details on this matter in the meeting to be held noted above.

Third, the most troubling matter, however, is the effort to permanently inculcate the rate changes below into the remaining life of DWSD and then, through the MOU as drafted, for an extended period of time, even as there is a stated date in theory that the ROR will be phased out (I don't personally believe this for a minute). These games within a game are tiresome. Its tiresome as regardless of what is apparently achieved in the time-consuming process of the below rate-setting effort the entire matter will be revisited now in the MOU process and undone. Or, at a very minimum, will result in an extended discussion of the MOU and add to the complexities of securing sufficient votes out of the commissioners when the time comes.

I have included Com. Gosselin on this email and will start doing so going forward. Depending upon the outcome of the meeting on the below matters to be scheduled shortly it will be documented in the next status memorandum for the Oakland County DWSD Study Group session likely to be held in a few weeks. Adding to the already fairly extensive concerns does little to move this matter forward.

And, to be even more blunt. My schedule and likely others on this email who have devoted extensive efforts to the project and will be expected to do so over the next month likely, as is the case with my conflicts, have delayed projects now coming due. I have a half dozen projects that are well overdue and creating internal issues because of it. But, let me even be more blunt.
Three of the seven SMART board members (RJD, Poisson, Roy) have been extensively involved in the DWSD effort. In August 2014, the voting public of the three counties will be expected to approve a millage rate extension for four years

without which SMART cannot operate for long. While the 196 authorities are responsible for much of the activities of this matter, NO meetings between the SMART board members and SMART administration on the sizing of the millage rate have been held to date. Even as to the limitations of public officials being involved in millage campaigns, no discussions have been held- even as to a briefing of these matters.

If the issues involving DWSD, some of which were outlined in the memorandum supplied to the Oakland County DWDS study group and below persist and (are continually discovered), I am afraid that the voting public will have a very adverse reaction to anything regional and the SMART millage may suffer. No less than water and sewer, the efforts of a regional transit system such as SMART provides economic development stability without which this region will suffer. I don't want this to happen.

Given that any action involved in the below rate making committee that will be revised / reviewed and acted upon by the authority (particularly when there is affirmative voting) make sense? RJD

****
****

Scheduling conflicts prevent me from attending today's Board Workshop. I concur with all the other sentiments echoed. I also spoke very briefly with Charlie Fleetham this morning, and he confirmed that DWSD will NOT be giving as actuals on ANYTHING. (We've been told that they have some numbers which have been "finaled" - but others are TBD as they try to hack through the weeds of DWSD book keeping.) I asked him to adjust the minutes of the last rates group meeting to reflect that we requested the information, and it is being denied.

Additionally, can we not get all contracts which reflect rates rescinded should the Authority come into existence? We can insist as a condition precedent that the Authority will not take on the existing contracts with the new rate structure imbedded; the Authority needs the flexibility to revisit this as they reset the business plan moving forward. Perhaps a lock in for the next year so planning can be done for the near term, but thereafter, NO WAY.

Of course, should the Authority not come into existence...

Subject: Re: Presentation Material for this Wedenesday's Workshop

My comments and questions were to help .
Most of the issues were raised by Bryan and are being or are to be addressed for the next meeting on Feb 18.
Flint is another issue. Their water contract terminates on 4/17/14 and DWSD is raising their rates by 10% then and are reviewing further changes for
7/1/14 for rates and stranded capital costs. And we know how communities in fiscal distress without a contract pay their bills aka Highland Pk The water ROR is being proposed to being locked in at the present in proposed and future rates.
We need to get our message across that ROR may change with any Authority decisions.
I will provide more updates tomorrow. Please stay at the wall instead of the ceiling level.

> - before I bounce off the ceiling again, can you give me any

indication as to whether these matters, when raised, are being addressed by DWSD management at all? Or, as I would imply from the below they are not being addressed and left unattended the wholesale customers are damaged? Are they responsive to these issues when they are being brought to the attention of management?
>
> I am particularly interested in the ROR matter involving the "Forever"
comment and then the new Highland Park - namely, Flint as they exit the system - become another uncollectible account. Both of these issues run to the heart of some of the very issues Oakland has been raising on the DWSD matters from the get go.

> I have reviewed this information has provided and have the
following comments/questions:
>
> 1. I notice a past and common, general problem with DWSD, while many
initiatives and proposals have been " approved" by all , I am not aware of the specific details being discussed and finalized. For major changes as Rate Simplification in sewers, these major items need to be discussed and finalized into contract terms. For water, significant changes as Detroit and Dearborn demand changes needed to be reviewed thoroughly in the Analytical Work Group for correctness and uniformity to past practice. As always the" Devil is in the Details." and that is missing from what I am aware of but DWSD is fast forwarding 2015 Water and Sewer Rates thorough the BOWC with these changes for final approvals.
> This also highlights, the common problem recognized but all of us in
> that
DWSD budgets and rates are forecast from prior budget and not actuals. With actual unknowns as fiscal performance, Bad Debt, available cash and all those accounting terms I am not familiar with are missing, any budget and rate formulation is speculation .
> 2. The 4% rate increases in both Water and Sewer are arbitrary in
> that
justification is back calculated from the 4%, everyone understands that the system is becoming more unreliable as necessary additional funds are not being used for needed replacements. While attrition is being highlighted as a cost saving measure , the lack of capable staff is preventing needed problems and projects from being initiated and brought into service.
> 3. From Page 9, it shows that Detroit Water Revenue is projected
> to go
down by 4.5% but 1st Qtr, FY2014 Detroit water sales were down by 13 %.
Detroit retail sewer sales comes from water usage, sewer revenue is projected down 6%, accurate usage projection are forecast with sales volumes leveling off or reaching a plateau; but, actual usage is not aligning with this budget forecast.
> 4. From Page 12, that shows historical system Sewer Rate Increases
Since 2001; does this table include or correct for the annual LookBack Adjustment, as the true annual rate increases would include that adjustment.
I can check this but will need more time.
> 5. Page 15, further highlights the "Ownership Benefit" water rate
> of
return adjustment becoming a "Fixed Adjustment" baked into the water rates FOREVER.
> 6.. Page 15 at bottom, discussion of "Allocated Revenue
> Requirements

for ALL Customers now directly impacted"; this appears to me that DWSD is requiring us to pay the Rate of Return in Water as a yearly fixed charge and also requiring us to share in system saving and losses which has not been the case for water in the past as the City of Detroit was taking the financial risk and benefit at least that's what DWSD said. System losses appeared to be shared by all from what I could glean from the financial statements.

> 7. Page 27 shows Detroit Retail Revenue Requirements; Water is

projected down 5.6% and Sewer down 9% in sales volume and Revenue Requirements are projected flat (down 0.2%). Again, an actual financial history of DWSD Financials with Detroit Bad Debt and Year to Date water and sewer usage is needed.

> 8. Page 5 of the Second Attachment with" FY 2014-15 Water

> Allocation

and Rate Design Strategy Highlights" at top of page at item #3 , second bullet at bottom of page, Dearborn and City of Detroit allowed to use averaging method for peaking factors and data not reviewed by Water Work Group as is present practice and procedure.

> 9. For " Proposed Modified Water Rate for Flint" attachment, both

capital stranded costs and future system expenses for operation and maintenance and repair and replacement need to be detailed and highlighted as after contract termination on April 17, 2014, most of these costs should be directly charged to Flint and collection may be problematic. A payment in advance or cash on hand for future service needs and possible future repairs or replacement should be considered. This is another Highland Park in the makings! With additional legal fees and future Court proceedings!!

> 10. These rates and authority discussion only highlight the need

> for

thorough financial and system review with actuals. We cannot afford to jump into the future with unknowns and we cannot maintain our present standard of living without reasonable and dependable water and sewer service. This is our only chance to get this RIGHT!

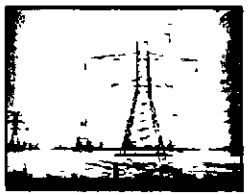
BMO Capital Markets' Value Offering

- Expertise across various products and sectors
- Relationships with key public sector stakeholders and with major private sector clients
- Integrated team based approach to providing solutions

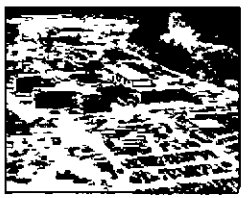


Strong Knowledge of Government Perspectives

- Strong relationships with all levels of government
- Canadian & US focus
- Understanding of objectives / constraints and multiple stakeholder responsibilities
- Privatization / divestitures
- Infrastructure procurement
- Provincial and municipal debt

Detailed Knowledge of Infrastructure Asset Classes

- Procurement models for new infrastructure and asset divestitures
- Various sector expertise
  - Real estate
  - Transportation
  - Airports
  - Healthcare
  - Justice
  - Water
  - Power & Utilities
- Financing
- Credit expertise
- M&A



Innovative P3 Expertise

- Procurement process
- Risk transfer
- Project agreement
- Market expertise
- Proponent relationships
- Financing structure
- Financing solutions

Deep North American Footprint

- Integrated, cross border BMO team
- Canadian & US focus
- Sharing of expertise and resources across borders
- Relationships with international sponsors
- US public finance and infrastructure execution – building on Canadian expertise and execution base

$452 million
Truckee Meadows Water Authority
Asset Acquisition Lead Manager
2001

A growing presence in the infrastructure advisory and financing space

Why Governments Use P3 Methods

Four Main Benefits of P3

Risk Transfer

- Ability to transfer key risks to the private sector owner/operator
  - Revenue/demand risk
  - Construction risk
  - Technology and performance risk
  - Operating and maintenance risk
  - Lifecycle/capital reinvestment risk

Private Sector Expertise

- Access to top international best practices in private sector
  - New technologies
  - Innovative management techniques
  - Cost innovation in lifecycle/rehabilitation planning
  - Innovative designs to reduce cost and enhance performance

Additional Resources

- P3 projects maximize the capital proceeds which can be raised against infrastructure asset
  - Access to debt **and equity** capital
  - Competitive bid process ensures most attractive valuation
  - Leasing of existing assets often bring large upfront sums
  - Brings outside personnel to supplement agency staff

Timing & Certainty of Delivery

- P3 structures can accelerate the delivery of the asset by years
  - Private firms often submit multiple design alternatives to speed permitting and construction timeline
  - Construction price is fixed at financial close
  - Delays past the guaranteed delivery date result in liquidated damages paid per day to the procuring authority

Risk transfer, accelerating delivery and tapping equity capital for infrastructure are drivers of P3 rationale

Potential Timeline

Step 1: Hire Advisory Team & Prepare Asset

HIRE ADVISORY TEAM

- **Concession Specialist :** BMO's knowledge of the US Water and Wastewater Asset Classes will allow us to "quarterback" the process
- **Industry Consultant:** Should prepare reports and ready for dissemination to investors
- **Legal Team:** Will prepare Transaction Agreement with advise from BMO

ACQUIRE LEGAL APPROVALS AND BEGIN TO PREPARE ASSET

- Begin to prepare teaser and Confidential Information Memorandum, and work with Nassau County stakeholders to define transaction goals

Step 2: Investor Solicitation and RFP Issued

ASSET TEASER DISTRIBUTED

- BMO & industry consultant prepare asset description for potential investors

CONFIDENTIALITY AGREEMENTS & CONFIDENTIAL INFORMATION MEMORANDUM DISTRIBUTED

- Concession Advisor and Industry Consultant prepare detailed asset description for potential investors who sign Confidentiality Agreements, both of which will be managed by BMO to extent desired

RFP ISSUED TO DETERMINE QUALIFIED BIDDERS

- Only bidders with experienced teams and meeting certain minimum requirements will be permitted to bid on assets

Step 3: Due Diligence and Investor Meetings

INVESTOR PRESENTATIONS SCHEDULED WITH NASSAU COUNTY

DUE DILIGENCE COMMENCES INCLUDING DIGITAL DATA ROOM

- BMO manages the data room and assists with the development of presentations and due diligence

LEGAL TEAM AND BMO FINALIZE LEASE AGREEMENT

Step 4: Final Bidding and Closing

FINAL BIDDING

- Final, Binding Bids will be used to select the winner

CLOSING

- Length of closing after award of contract should allow sufficient time for debt syndication by bidders or County lease securitization – i.e., 2-3 months

Step 1
- March to April

Step 2
- April to July

Step 3
- July to September

Step 4
- September to November

Schedule is driven by concessionaire's goals with the type of process being the key variable

Bid Process Options

When there is sufficient time to conduct an auction the wide audience of potential investors for water and wastewater assets suggests either full or limited auction as opposed to a direct negotiation with a limited subset of buyers

	Public Auction	Limited Auction	Negotiated Sale
Mechanism	• Issue press release and contact broad universe of potential buyers • Solicit indications of interest and final bids • Negotiate with highest bidders	• Identify and discreetly contact a limited number of potential buyers • Solicit proposals • Negotiate with one or more bidders	• Identify and contact most logical potential buyer • Negotiate exclusively with potential buyer
Buyer Universe	• 15 – 30 Buyers	• Fewer than 10 Buyers	• 1 to 5 buyers
Price Competition	• May optimize price by attracting previously unidentified partners	• Opportunity to create price competition • Create leverage to negotiate better terms with original partner	• Without other bidders this option may offer the least competitive price
Process Flexibility	• Less flexibility than other processes	• Offers high flexibility	• Most flexible process
Execution Timeframe	• Longer Execution time	• Medium execution time	• Shorter execution time
Negative Implications from Failed Process	• Time consuming process that puts the asset under intense scrutiny	• Risk of losing pre-emptive offer	• Risk of leaving value on the table
Considerations	• Reluctance of certain potential buyers to participate in auctions • Most effective with broad list of potential buyers	• Risk of both alternative forms	• Risk of unsuccessful sale and suboptimal valuation

Challenges for Owners/Operators of Water/Wastewater Assets

Challenge	Risk / Opportunity
Increasing Costs	• Maintenance costs increase, particularly with older infrastructure • Many areas facing electricity cost increases • Availability of water
Aging Infrastructure	• 700 water main breaks per day in the US
Rate Structures	• Per capita consumption declining, which will inevitably impact rates
Efficiency & Innovation	• System modernization • Automatic water meters
Capacity / Shifting Demands	• Densification in existing areas and growth in underdeveloped areas
Public Backlash against privatization	• Agencies considering privatization may face public backlash
Aging workforce	• Retaining best staff comes at a price
Increasing Regulation	• Clean and safe drinking water may be threatened by pharmaceuticals and fracking • Increased regulation by EPA on VOCs • More stringent enforcement of CSO overflow events
Security and Climate Uncertainty	• Adapting to ensure safe and secure water supply as well as wastewater conveyance and treatment for future generations
Political risks of doing nothing	• May be forced to increase rates even under a "Do Nothing" scenario

Water and Wastewater Alternatives

Potential value realization options for governmentally owned water and waste water utility assets include:

Option	Comments
Complete privatization of assets and operations	▪ Sell profitable assets to the private sector ▪ Private Sector investment of capital in productivity improvements ▪ Costs become private sector responsibility ▪ Private sector bidders usually include strategic buyers and infrastructure funds
Privatization of operations under municipal ownership	▪ Fee stream paid up front or possibility of higher annual payments ▪ Private Sector investment of capital in productivity improvements ▪ Value could also be embedded in required capital expenditure upgrades ▪ Take advantage of private sector expertise
Public-private partnership under a concession agreement (length determined based on lifecycle)	▪ Government retains ownership of the asset ▪ Private sector builds Government assets for Land value, monopoly rights or value of government availability payment stream ▪ This option works best for discrete assets that have a significant construction value (pipes, treatments plants)
"Hybrid" utility, with the City as a majority owner or stock holder	▪ Government sells existing utility assets to corporation of which government is a majority stock owner ▪ Remaining shares sold to private investor, pension fund or specialized fund ▪ Corporation is operated like a regulated private utility, with some tax exempt borrowing available ▪ This is a complex structure to complete but allows the continued use of tax-exempt bonds
Other Considerations	▪ Water facilities are very popular with global infrastructure and corporate investors ▪ It is possible to split the asset and unbundling allows some of the asset to be kept by the city and also target different investors with different interests to maximize return

Lower Colorado River Authority (LCRA) – Summary of 32 Water & Wastewater System P3s / Divestitures

Background

- BMO Capital Markets was appointed to serve as sole sell-side advisor to the Lower Colorado River Authority (LCRA) in its proposed divestiture of its retail 19 water and 13 wastewater systems
- LCRA is a conservation and reclamation district in the state of Texas created by the State Legislature in 1934. LCRA is a governmental entity and body politic and corporate of the State without taxing power
- LCRA has invested approximately $300 million since the mid-1990s to expand and construct new facilities and improve substandard system performance

Rationale

- LCRA operates four business units: wholesale energy, transmission, water and community services
- Through its water unit, LCRA manages water supplies for cities, farmers and industries along a 600-mile stretch of the Colorado River, rising out of Dawson County in west Texas to Matagorda Bay, southwest of Houston
- The LCRA Board of Directors did not view the water and wastewater systems as core assets as they constituted less than 5% of their aggregate revenues but consumed significantly more staff and management time with many systems operating with sizable financial losses

System Statistics

- LCRA's water service area, which includes not only LCRA's statutory boundaries but also the watershed of the Colorado River below the intersection of Coleman, Brown and McCulloch counties, covers approximately 20,000 square miles in all or part of 33 counties
- Based on service area and the number of independent systems, it is believed to be one of the largest Water - Wastewater P3s / Divestitures in US history

LCRA Water & Wastewater Systems

Diversity of approaches from Public-to-Public and Public-to-Private transactions with a combination of asset sales, concessions and operating agreements represents a one-of-a-kind strategic approach

LCRA – Development of an Optimized Approach

Approach

- BMO conducted an international and domestic investor outreach effort that included local governmental entities as well as international infrastructure funds and the investor owned utilities (IOUs)
- Nearly 100 firms or entities were contacted
- BMO then helped LCRA conduct a rigorous due diligence process with a large number of finalists
- It was determined that splitting the assets was necessary to achieve LCRA's goals
- Optimized structure developed by BMO in concert with LCRA helped achieve LCRA goals of eliminating its operational risks, receiving maximum compensation and ensuring high-quality long-term operations

Structure Overview

- LCRA is utilizing public-to-public and public-to-private transactions as well as a mix of full asset sales, partnerships and operating agreements to achieve its goal of reducing its operating risk and achieving the maximum valuation
- The Corix Utilities transaction is pending State regulatory approval
- Other structures have reached financial close

Systems	Structure of Transaction	Purchaser	Operator
West Travis County Water and Wastewater Systems	Public-to-Public Lease-to-Own (P4)	West Travis Co. PUA (new water district)	Severn Trent (international operator)
4 Standalone Water Systems	Public-to-Public Asset Sales	4 Local Entities	Various
18 Water and Wastewater Systems	Public-to-Private Asset Sales & P3s	Corix Utilities (international operator)	Corix Utilities (international operator)
4 Wastewater Systems	Public-Private O&M Agreement (P3)	N.A.	Corix Utilities (international operator)

BMO helped LCRA achieve goals of eliminating its operational risks, receiving maximum compensation and ensuring high-quality long-term operations

LCRA West Travis County: Private Operator of Public Utility Agency Public-to-Public Lease-to-Own (P4)

Background

- West Travis County represents the largest system with over 11,000 local LUEs
- BMO worked extensively with a collection of local governmental entities as they formed a start-up utility acquisition vehicle – the West Travis County Public Utility Agency (PUA)
- West Travis County Water and Wastewater Systems represented approximately 75% of the historical investment in the LCRA retail assets

Private / IOU Constraints

- Significant use of impact fees created rate-base uncertainty
- An on-going rate case added to valuation constraints

Existing Debt Constraints

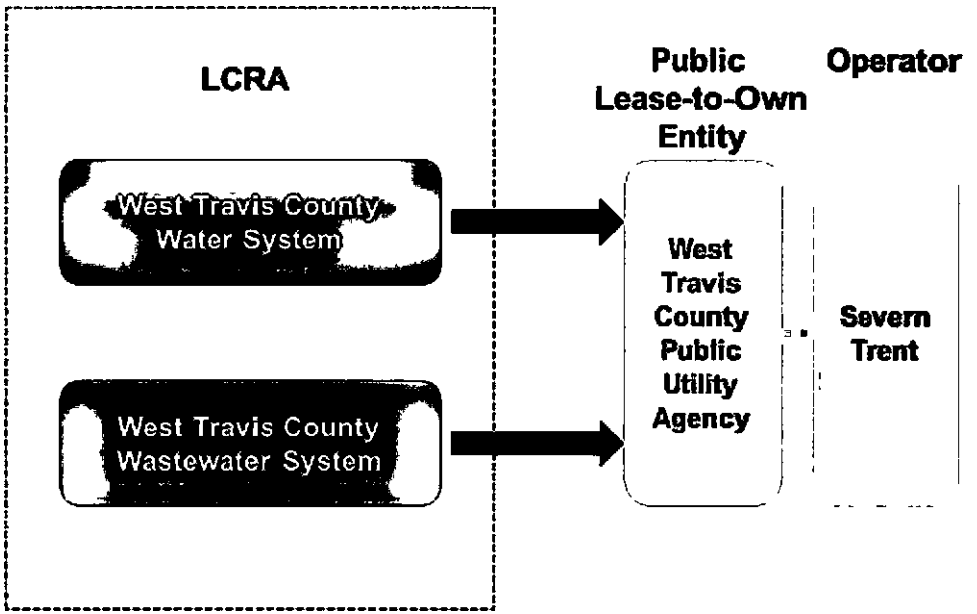
- Significant Debt Defeasance Costs

PUA Constraints

- No operating history
- Inability to replicate LCRA credit structure & leverage

Outcome

- PUA determined to be optimal bidder
- Severn Trent selected as operator
- Lease-to-Own allows PUA to grow into leverage
- Lease payment covenants mirror LCRA bond covenants to preserve LCRA credit
- LCRA fully recovered historical investment in assets
- Staggered defeasance of existing debt eliminated negative arbitrage on defeasance escrow



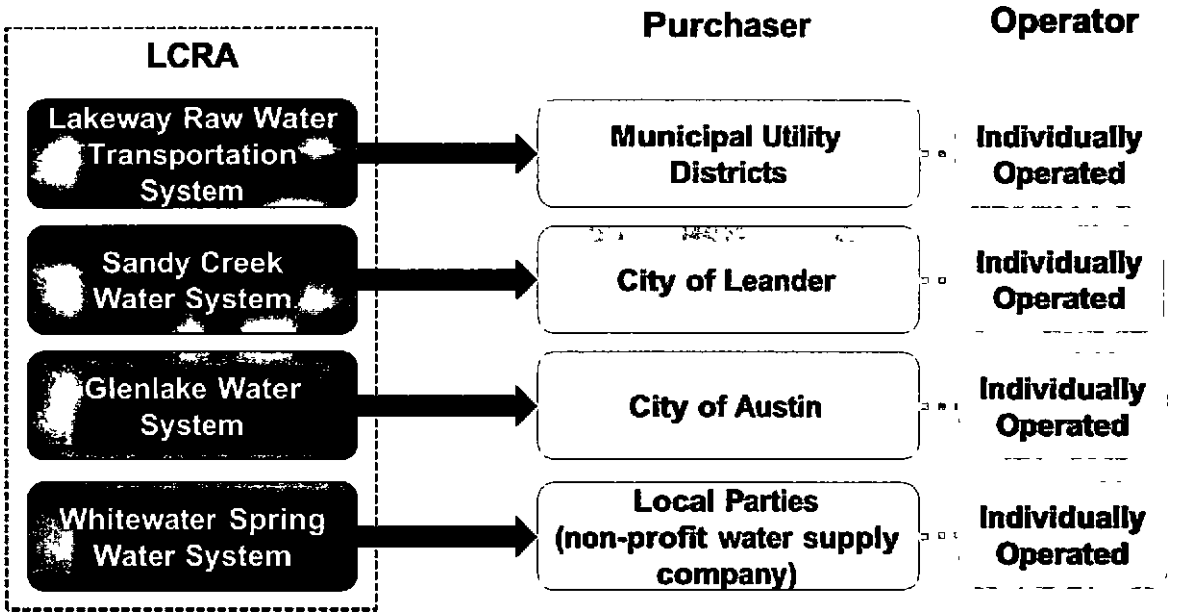
BMO facilitated a rare example of a Public-Public-Private Partnership (P4)

LCRA Public-to-Public Asset Sales

LCRA
ENERGY • WATER • COMMUNITY SERVICES

Summary of Four Standalone Water System Asset Sales

- 4 water systems were sold to local sponsors who provided compelling valuations
- As each of these asset acquisitions were determined to be relatively easy to finance, they were structured as asset sales rather than the modified lease for the West Travis County assets
- 3 of the purchasers had existing operations; the Whitewater Spring system was sold to a newly created water supply corporation



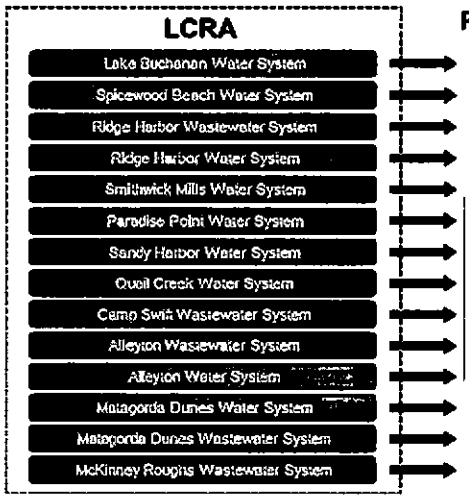
Asset sales to local sponsors are being utilized where optimal

BMO Capital Markets

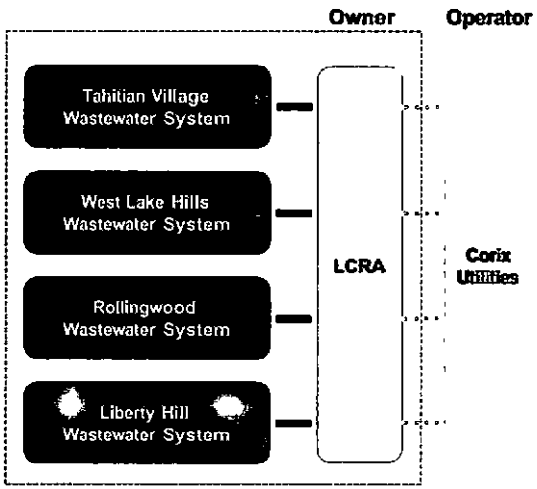
LCRA - Southeastern and Hill Country Region Public-to-Private Asset Sales and P3s

- 18 water and wastewater systems comprising the Southeastern and Hill Country regional assets are presently under Texas regulatory review to be sold to Corix Utilities, a Vancouver based utility service provider expanding in the U.S. through acquisition and P3s
- Corix not only provided the highest proposed compensation for the assets, but pledged to develop a local presence in Austin, retain the affected employees, phase-in rate increases, offer a long P3 financing mechanism for two Lometa systems, operate 4 wastewater systems under a cost-effective P3-O&M contract, and build two new systems under a P3-style structure for Tow Village and Bonanza Beach which had been operating under EPA requirements for high levels of radionuclides
- The proceeds of this transaction will be used to defease the outstanding tax-exempt debt and cover certain costs incurred by LCRA and provide a reserve for the remaining systems

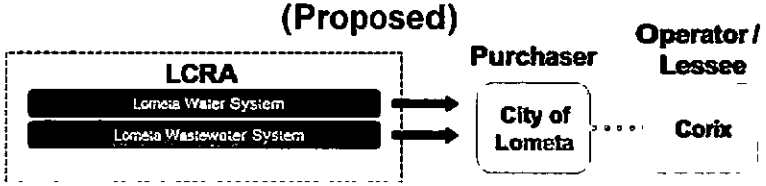
14 Water and Wastewater Systems Asset Sale – Hill Country and Southeast



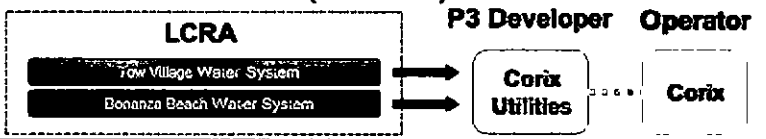
4 Wastewater System P3s (O&M)



2 Lometa Water and Wastewater System P3s (Proposed)



2 Environmentally Sensitive Water System P3s (DBFOM)



ENERGY • WATER • COMMUNITY SERVICES

P3s and Asset Sales have been tailored on a system by system basis

City of Flint Wednesday 9:00 am Phone Conference Agenda
Feb. 19, 2014

1) **Public Safety Update – FPD, MSP (FFD if needed)**

   FPD, FFD – Proposal for Comprehensive Analysis of Public Safety Services, to be conducted by IMCA, complete in June 2014. Determine best use of manpower, facilities and equipment; and based on resources available - level of service which can be expected.

   Other update by Chief Tolbert and MSP.

2) **Governor's Office Update – B. Clement and/or Rich Baird, H. Hollins**

3) **Retiree Lawsuit – Status, Issues**

   This matter is scheduled for a status conference with Judge Tarnow on Wednesday, February 26. In preparation, the attorneys for all parties will be meeting at Flint City Hall on Friday, February 21 to discuss a variety of issues. Included in those discussions will be a settlement proposal by the City of Flint. At this point, it is unclear whether plaintiffs have a sincere desire to compromise.

   At the status conference, we anticipate the court will issue a scheduling order, including a trial date. We will be requesting that trial be scheduled as soon as possible.

   Early Monday, plaintiffs filed a motion for protective order asking the court to prevent the City from communicating with retirees. This is in reaction to a recent letter from Emergency Manager Darnell Earley to retirees warning of dire consequences if the City does not obtain relief from retiree healthcare costs.

   In the motion, plaintiffs' counsel alleges that plaintiffs are pursuing a class action, however a class has never been certified. Moreover, a large number of retirees have contacted the City to voice opposition to the lawsuit. Thus, plaintiffs' counsel seeks to compel retirees to participate in a lawsuit they oppose; that will significantly harm their interests if he succeeds; and wants to shield them from communication from the City concerning how they will be affected.

4) **Budget Status/ Deficit Elimination Plan**

   We plan to have an amendment to the budget, also an outline of a revised DEP. Also need to alert Treasury of several approvals relating to the WTP expansion which need prompt response.

5) **Model Labor Contracts – Status**

Final drafts of FPOA contract being done, meetings w AFSCME being scheduled. IAFF contract being drafted.

6) **Water Transition Plan, Negotiations, Communications**

DEQ is in final review for COF permit to temporarily store spent lime from water treatment plant – needed for full river water operation. Negotiations have begun with the GCDC and KWA for purchase of existing water pipe and back up plans.

Equipment timing for water plant on schedule.

7) **Hardest Hit Funds, MHSDA process**

EM addressed the GC Commissioners meeting 2/5/14 on Hardest Hit demo funds and line of credit needs. City is also a contractor, we will wait to bill to assist cash-flow and assist however we can to keep reimbursements flowing regularly. Commission passed resolution to back line of credit 9-0.

8) **City Council Update**

Mayor and Council members attended weekend Michigan Municipal League training conference in Frankenmuth.

First three Council committee meetings have been held: Public Safety, Finance and Legislative. Well received, City Attorney drafted a memo detailing how committees work in relation to EM and Council as a whole. Monthly city council meeting met Monday 2/17. Two more committees appointed: Planning and Development, and Public Works.

Finance Cmte agreed to develop a Council/Mayor Strategic Plan for the City. EM has asked Dr. Scorsone to facilitate this process.

9) **Blue Ribbon Cmte.**

Committee has met three times, three more meetings planned. Working now on charter revision recommendations.

10) **EM 7 Point Plan Transition Management Plan**

The 7 points will serve as broad measurement categories to assess when the City is prepared to move to a TAB. See Plan attached to the end of this document.

11) NEW EVIP Proposal

Impact on Flint? Receive 3% constitutional shared rev increase, can still participate in std. reporting AND receive a 20-30% population count increase for funding from the new $28.8 million. Can we project a 15%+ statutory increase?

RE: Water Plant Upgrade February expenditure request

In accordance with the Water Plant Upgrade plan (Phase II Segments I & II) the following budgeted requisitions will need State Treasury approval. These upgrades will allow for the City to utilize the Flint River as our primary drinking water source until KWA supply is available. These planned expenditures are contained within the FY14 Budget Amendment. These final items are expected to total $3,982,475.

Item 1 Chemical Systems/Ozone: Design work is completed and ready to bid. Expected total cost is $700,000.

Item 2 Electrical Upgrades: The purchase of the equipment was approved by the State in November and orders were placed. The installation design is completed and bids are due February 20th. Expected cost is $1,200,000. The City will need an executed contract by February 28th in order to have the work completed prior to April start up date.

Consumers Energy's portion of the Electrical upgrades is $225,000. The attached Work Agreement and Purchase Order needs to be executed by Feb. 19th in order to meet the April start up date.

Item 3 Mid-point Chlorination: Design work is completed and ready to bid. The equipment and installation is expected to cost $445,000. The City will need an executed installation contract and purchase orders by Feb 28th in order to meet the April start up date.

Item 4 Pump Station 4: Design complete, bids opened. We need to issue the PO to order the pump and valve for installation early next fiscal year. Bids came in at $307,475. Actual expense will be in July.

Item 5 Raw Water Piping Connection: The design work is complete and ready to bid. This work must be completed prior to the April start date because we will be unable to shut down when KWA Raw Water arrives. The expected cost is $380,000.

Item 6 Lime Softening residuals disposal: Design work is well underway in accordance with the proposed DEQ Consent Order. This work will entail berm construction and drain demolition in the lagoon. It will also require pumping facilities to dewater the lagoon into our Sanitary Sewer. This work is expected to be completed prior to April start up to improve water quality and address environmental concerns. Estimated Cost is $725,000.

Subject: Four Resolutions for Approval EME1632014, EME1642014, EME1652014, EME1662014

Good afternoon Angela,

We are submitting the following resolutions for State approval. It is my understanding that Treasury was apprised of three of these resolutions on Wednesday, as they are part of the Water Plant upgrade project. The resolution for Newkirk Electric has a very aggressive timeline in which we are asking for an approval no later than Monday afternoon in order to meet the project's deadline of April 1st.

The resolutions are:

1. EME1632014 - Resolution to Newkirk for Electrical Improvements - $852,000.00 (Water Fund)

2. EME1642013 - Resolution to Xylem Water Solution for Pump and Large Motor - $277,000.00 (Water Fund)

3. EME1652014 - Resolution to McNaughton-McKay Electric for Electrical Distribution Upgrades - $1,528,850.00 (Water Fund)

4. EME1662014 - Resolution to AIS Construction Equipment for Leasing of Various Equipment $48,537.14 (Fleet/Central Garage Fund)

In additional information is required, please advise.

Thank you.

Importance: High

Angela,

I have reviewed the following resolution:

1. EME1632014 - Resolution to Newkirk for Electrical Improvements - $852,000.00 (Water Fund)

The City wishes a priority response to this.

The resolution is intended to upgrade obsolete electrical equipment.

The bid was the lowest price quoted that submitted a complete bid and complied with all bid process parameters.

As such, I am recommending approval of this Resolution.

RESOLUTION TO NEWKIRK FOR ELECTRICAL IMPROVEMENTS

BY THE EMERGENCY MANAGER

RESOLUTION

The Department of Purchases and Supplies has solicited a bid for electrical improvements to the Water Plant as requested by Utilities Department; and

Newkirk Electric, 2751 Lippincott Blvd., Flint, MI was the lowest responsive bidder from five solicitations for said requirements. The funding for this request will come from the following account number: 591-545.300-801.000; and

IT IS RESOLVED, that the Proper City Official, upon the Emergency Manager's approval, are hereby authorized to enter into a contract with Newkirk Electric for electrical improvements at the Water Plant in an amount not to exceed $852,000.00. (Water Fund)

RESOLUTION STAFF REVIEW

February 20, 2014

Agenda Item Title: Phase II Segment III Installation of Electrical Improvements at Water Plant

Prepared By: John Florshinger, WPC SCADA Supervisor

Background/Summary of Proposed Action
The phase II segment III installation of improvements includes the installation of all medium voltage switchgear lineups, construction of a new substation on plant grounds, and installation of a new medium voltage VFD for pump #1 at PS4.

Current equipment is over 50 years old and is obsolete, unreliable and past its service life. New equipment is safer, reliable, more efficient, and allows for redundant power to the entire facility which is critical once the plant is put into full time service, and required by MDEQ.

All of the equipment is already on ordered and is scheduled to ship by March 20th.

Financial Implications
Please issue a contract with New Kirk Electric in the approved FY2014 budgeted amount of $852,000.00 using account number 591-545.300-801.000.

Budgeted Expenditure: Yes x No Please explain if no:

Account No.: 591-545.801-300.00 - $852,000.00

Angela,

I have reviewed the following resolution:

2. EME1642013 - Resolution to Xylem Water Solution for Pump and Large Motor - $277,000.00 (Water Fund)

The City has indicated that the purpose of this purchase is to improve water pumping efficiency to accommodate treating river water for drinking production.

The submittal is the lowest bid by nearly $45,000. As such, I am recommending approval of this resolution.

RESOLUTION STAFF REVIEW

February 10, 2014

Agenda Item Title: Water Plant – Pump Station #4 High Service Pump and Motor

Background/Summary of Proposed Action:
The Flint Water Plant has requested to amend their operating permit to treat larger quantities of water for human consumption from the Flint River. The Michigan Department of Environmental Quality requires that the City of Flint, Water Plant replace the 1948 pump #1 and motor. The water Plant staff and the consultants Andrew, Lockwood and Newnam Inc. concur that a 16MGD pump mated with a Variable Frequency Drive Motor will give the Water Plant a more efficient pumping system.

Xylem Water Solutions U.S.A. Inc. met the bid specifications for the pump and motor replacement with lowest bid in the amount of $277,000.00.

Financial Implications:
Please approve the Purchase Order with Xylem Water Solutions Inc. The funds are available in the FY 2014 amended budget amount of $277,000.00 using account 591-545.300-977.000.

Budgeted Expenditure? Yes x No Please explain if no:

Angela,

I have reviewed the following resolution:

3. EME1652014 - Resolution to McNaughton-McKay Electric for Electrical Distribution Upgrades - $1,528,850.00 (Water Fund)

This resolution was initially approved by Treasury in November 2013. This resolution amends the original purchase so that next day delivery of the equipment can be acquired. The amendment adds $16,850 to the cost of the project.

As such, I am recommending approval of this resolution.

RESOLUTION STAFF REVIEW

February 21, 2014

Agenda Item Title: Water Plant – Switch-Gear Shipping.

Background/Summary of Proposed Action:
The Flint Water Plant has requested to amend their operating permit to treat larger quantities of water for human consumption from the Flint River. An April 1st deadline has been set for the Water Plant to be fully operational. To meet this deadline we must expedite the shipment of the Switch-gear that is currently being built.

Financial Implications:
Please process a change order to purchase order #14-060 with McNaughton-McKay for overnight shipping of Switch-Gear for the Water Plant. Funds are available in the FY 2014 amended budget in the amount of $16,850.00 using account 591-545.300-977.000.

Budgeted Expenditure?	Yes x	No	Please explain if no:
Account No.:	591-545.300-977.000		
Pre-encumbered?	Yes x	No	Requisition:
Other Implications (i.e., collective bargaining):	None

Re: FLINT CITY (252040)
Qualifying Statement

Dear Ms. Schafer,

We are in receipt of your letter dated February 21, 2014 denying authorization to issue municipal securities without further approval from the Department of Treasury.

As you know, the City of Flint is currently in receivership pursuant to Act 436, and operating under the control of an Emergency Manager since December 2011. Much progress has been made to reduce the City's accumulated deficit and to restore Flint to long term financial solvency. We are currently working with Treasury to finalize a Deficit Elimination Plan which will not only eliminate the deficit but begin to establish an appropriate level of reserves. The securities issued within the past five years pursuant to the Fiscal Stabilization Act were done prior to the City being placed under the control of an Emergency Manager.

The request to issue securities at this time is in conjunction with the City's partnership with Genesee County and others to construct a new source of water supply for the City and the region. This is being accomplished through the newly created Karegnondi Water Authority, of which the City of Flint is a member. The result of this project will be a new source of water for the region at a cost which is significantly less than the current costs. It is an important component of restoring the City of Flint to financial solvency.

Treasury approval of Flint's request to issue municipal securities for this purpose is requested.

Thank you and please contact me if you have any questions.

Sincerely,

Darnell Earley, ICMA-CM, MPA
Emergency Manager

Jeffrey Schwartz, Auditor

SUBJECT: Karegnondi Water Authority, City of Flint & County of Genesee #1305
Water Supply System Bonds (Karegnondi Water Pipeline), Series 2014 B

As a part of all prior approval applications, the Department of Treasury has the statutory responsibility to determine the following three items:

- Whether the municipality has indicated the authority to issue the municipal security requested;
- Whether the municipality is projected to be able to repay the municipal security when due; and
- Whether the municipality has achieved compliance or in the alternative, adequately addressed each of the qualifying criteria that were previously determined to be non-compliant.

The following is a summary of the information provided and its corresponding relevance:

1. **Indicated the authority to issue** – The Karegnondi Water Authority, the County of Genesee, and the City of Flint submitted Authorizing Resolutions approved at regular meetings authorizing the issuance of Water Supply System Bonds 2014 A and B (Karegnondi Water Pipeline) not to exceed $300,000,000 for the purpose of acquiring, constructing and equipping a water system to provide raw untreated water to the Local units, together and all and necessary appurtenances and attachments thereto. The bonds are being issued under the provisions of PA 233 of 1955 and PA 34 of 2001.

2. **Projected ability to repay** – The current application is for an issuance amount not to exceed $79,500,000. The Local Units, in the Contract, pledged their limited tax full faith and credit for the prompt payment of the Bonds. The Authority shall establish a Debt Service Fund, to which there shall be deposited all Contractual Payments as received. Each Local Unit has covenanted and agreed to provide annually general or special funds, (rates and charges) in amounts sufficient to meet when due its Contractual Payments in anticipation of which the Bonds, including the replenishment of the Debt Service Reserve Account, are issued or, if necessary, to levy taxes upon all taxable property within its boundaries for such purpose.

3. **Adequately Addressing Non-compliance** – The County of Genesee was found to be in compliance with MCL 141.2303[3]. The Karegnondi Water Authority is a new entity, and therefore has no determination of non-compliance to address. The City of Flint was found to be non-compliant under MCL 141.2303(3)[a] the municipality is operating under the provisions of the Local Government Responsibility Act., [b] the municipality has issued securities in the immediately preceding five fiscal years or the current fiscal year pursuant to the Emergency Municipal Loan Act or the Fiscal Stabilization Act, and [m] the municipality ended its last fiscal year with a deficit in one or more funds and an acceptable deficit elimination plan has not been certified or conditionally approved. The City addressed non-compliance with MCL 141.2303(3) in a letter received via email on February 25, 2014. The City explained that it has been operating under control of an Emergency Manager since December 2011. The City is also working to finalize a Deficit Elimination Plan in conjunction with Treasury's assistance, which will not only eliminate the deficit but begin to establish reserves. In addition, the City explained an Emergency Manager was placed within five years of the securities being issued pursuant to the Fiscal Stabilization Act. The request to issue securities at this time is in conjunction with the Genesee County and Karegnondi Water Authority to establish a new source of water for the region at a cost significantly less than the current costs, an essential component of restoring the City of Flint to financial solvency.

We would recommend approval of application #1305 for the Water System Supply Bonds, Series 2014 B.

APPROVAL
Municipality Code: **25-7-552**
Application ID No: **1304**

Jeff Wright, CEO
Karegnondi Water Authority
G-4610 Beecher Road
Flint, MI 48502

Dear Chief Administrative Officer:

Thank you for submitting to the Department of Treasury an Application for the State Treasurer's Approval to Issue Long-Term Securities under Section 303(7) of Public Act 34 of 2001, for the purpose of acquiring, constructing and equipping a water system to provide raw untreated water to the Local Units, together with all and necessary appurtenances and attachments thereto.

Based upon the information provided, the Department of Treasury has determined that the Authority has indicated the authority to issue the municipal security requested; projected the ability to repay the municipal security when due; and, adequately addressed any non-compliance with Section 303(3) of Act 34.

This approval is for the Water Supply System Bonds (Karegnondi Water Pipeline), Series 2014 A, in an amount not to exceed $220,500,000, which mature by no later than November 1, 2043. In approving this application, the Department has relied upon information supplied by the municipality which would indicate the probable revenues pledged for the payment of the municipal security will be sufficient to pay the principal thereof and interest thereon when due. No person may rely on the issuance of this approval as evidence that the Department has undertaken any due diligence with regard to that information. No material changes, amendments, or addenda may be made to the information provided without further approval of the Department.

Within 15 business days after the issuance of a municipal security, you will need to file with the Department the enclosed Security Report and the documents required in Section 319, Public Act 34 of 2001. Please mail them to the Local Audit and Finance Division at P.O. Box 30728, Lansing, Michigan 48909-8228. If you have any questions, contact the Division at (517) 373-0660.

Sincerely,

Suzanne Schafer, Administrator
Local Audit and Finance Division

SUBJECT: Karegnondi Water Authority, City of Flint & County of Genesee #1304
Water Supply System Bonds (Karegnondi Water Pipeline), Series 2014 A

As a part of all prior approval applications, the Department of Treasury has the statutory responsibility to determine the following three items:

- Whether the municipality has indicated the authority to issue the municipal security requested;
- Whether the municipality is projected to be able to repay the municipal security when due; and
- Whether the municipality has achieved compliance or in the alternative, adequately addressed each of the qualifying criteria that were previously determined to be in non-compliant.

The following is a summary of the information provided and its corresponding relevance:

1. **Indicated the authority to issue** – The County of Genesee, the City of Flint, and the Karegnondi Water Authority submitted resolutions approved at regular meetings, authorizing the issuance of Water Supply System Bonds, Series 2014 A & Series 2014 B (Karegnondi Water Pipeline) not to exceed $300,000,000. The Bonds are being issued under PA 233 of 1955, and PA 34 of 2001.

2. **Projected ability to repay** – The current application is for an issuance amount not to exceed $220,500,000. Each Local Unit states its intention to pay its obligations under this Contract from sources of money as are provided by Act 233 and applicable law, including the levy and collection of rates and charges to users of its respective water supply system for operating and maintaining its system provided by each Local Unit to customers in the Local Unit. The bonds are to be sold at a negotiated sale. This will allow the Authority to achieve the most advantageous interest rates, and allow better control over pricing of the Bonds. All the local units pledge their limited tax full faith and credit for the payment of the principal and interest of the Bonds.

3. **Adequately Addressing Non-compliance** - The County of Genesee and the Karegnondi Water Authority (new entity) were found to be compliant with MCL 141.2303(3). However, the City of Flint was found to be non-compliant with MCL 141.2303(3) (a), (b), and (m). The City addressed its non-compliance in a letter stating that the City is currently under receivership pursuant to Act 436, and operating under the control of an Emergency Manager since 2011. The City explained that is currently working the Department to finalize a deficit elimination plan, and that the securities issued within the past five years pursuant to the Fiscal Stabilization Act were done prior to the City being placed under the control of an Emergency Manager.

We would recommend approval of application # 1304.

DEBT INFORMATION

You must attach the following lists unless the Department of Treasury waives the requirement for this detail:

1. All outstanding securities or debt with no full faith and credit pledge. Include title and date of issue and the amount outstanding.
2. All outstanding securities or debt with either a limited or unlimited full faith and credit pledge. Include title, date and type of issue, and the amount supported by taxes.
3. All outstanding securities or debt with either a limited or unlimited full faith and credit pledge that has been issued by an overlapping municipality. Include the name of the issuing municipality, the amount outstanding, the share applicable to your municipality, the net tax supported amount outstanding and the share applicable to your municipality.
4. All projects currently being planned for future indebtedness. Include an estimate of the amount of indebtedness to be incurred.

REPAYMENT SCHEDULE

Attach a schedule of revenues available for repayment of the proposed and outstanding securities and indicate coverage. Include operation and maintenance expenses and reserve requirements (when applicable) in addition to principal and interest requirements. Begin with one year of actual revenues and expenses. Revenue supported securities need only project for a 7 to 10 year period. In lieu of this schedule, voted general obligation securities may submit a principal and interest schedule.

DEBT INFORMATION

You must attach the following lists unless the Department of Treasury waives the requirement for this detail:

1. *All outstanding securities or debt with no full faith and credit pledge.* Include title and date of issue and the amount outstanding.
2. All outstanding securities or debt with either a limited or unlimited full faith and credit pledge. Include title, date and type of issue, and the amount supported by taxes.
3. All outstanding securities or debt with either a limited or unlimited full faith and credit pledge that has been issued by an overlapping municipality. Include the name of the issuing municipality, the amount outstanding, the share applicable to your municipality, the net tax supported amount outstanding and the share applicable to your municipality.
4. All projects currently being planned for future indebtedness. Include an estimate of the amount of indebtedness to be incurred.

REPAYMENT SCHEDULE

Attach a schedule of revenues available for repayment of the proposed and outstanding securities and indicate coverage. Include operation and maintenance expenses and reserve requirements (when applicable) in addition to principal and interest requirements. Begin with one year of actual revenues and expenses. *Revenue supported securities need only project for a 7 to 10 year period. In lieu of this schedule, voted general obligation* securities may submit a principal and interest schedule.

KAREGNONDI WATER AUTHORITY
ACTING IN LAPEER COUNTY, MICHIGAN

RESOLUTION NO. 2013-15

A RESOLUTION AUTHORIZING THE ISSUANCE OF NOT TO EXCEED $300,000,000 KAREGNONDI WATER AUTHORITY WATER SUPPLY SYSTEM BONDS (KAREGNONDI WATER PIPELINE)

At a meeting of the Karegnondi Water Authority Board, acting in Lapeer County, Michigan, held on November 20, 2013, at 2 p.m., local time.

PRESENT: Joshua Freeman, Larry Green, Richard E. Hammel, Ted Henry, Marilyn Hoffman, Steve Landaal, Sheldon Neeley, Thomas Svrcek, Tracey Tucker, Paula Zelenko, Joseph Suma, Dale Kerbyson, Greg Alexander

ABSENT: Dayne Walling, Jamie Curtis

The following preamble and resolution were offered by Josh Freeman and seconded by Larry Green;

RESOLUTION AUTHORIZING THE ISSUANCE OF NOT TO EXCEED $300,000,000 KAREGNONDI WATER AUTHORITY WATER SUPPLY SYSTEM BONDS (KAREGNONDI WATER PIPELINE)

WHEREAS, the Karegnondi Water Authority (the "Authority") has been incorporated under the provisions of Act 233, Public Acts of Michigan, 1955, as amended (the "Act"), for the purposes set forth in the Act; and

WHEREAS, the Authority and the City of Flint in the County of Genesee and the County of Genesee (collectively the "Local Units" and each a "Local Unit") have each approved and executed a Contract dated August 1, 2013 (the "Contract") for the acquisition, construction and installation of various water supply system improvements, together with all necessary appurtenances and attachments thereto, to serve the Local Units all as more fully described in the Contract (the "System"); and

WHEREAS, the Local Units have published a notice of intent to enter into the Contract, which provides that the Contract shall become effective upon the expiration of a forty-five day referendum period beginning on the date of publication thereof (the "Referendum Period"), provided that during such period no petition for a referendum is signed by at least ten percent of or 15,000, whichever is less, of the registered electors of either Local Unit and properly filed with the clerk of such Local Unit; and

WHEREAS, the Referendum Period has passed and no such petition has been filed with either Local Unit; and

WHEREAS, plans, specifications and estimates of cost for the System have been prepared by the Authority's consulting engineers, Wade Trim (the "Consulting Engineers"), and are hereby granted the approval of the Authority; and

WHEREAS, under the provisions of the Contract, the Local Units have obligated themselves to pay the cost of the System to be financed by the issuance of bonds of the Authority by paying the principal installments plus interest thereon, as specified in Section 9 of the Contract, and the Local Units have further obligated themselves to levy taxes annually to the extent necessary for the purpose of meeting said installments plus interest thereon, subject, however, to applicable constitutional, statutory and charter tax rate limitations, all as provided in Section 10 of the Contract; and

WHEREAS, the use of the System will be made available to the Local Units, and citizens thereof, in return for annual payments which will be applied to offset the payment obligations of the Authority; and

WHEREAS, the Authority now proposes to issue one or more series of its bonds, as authorized by Section 9 of the Act in anticipation of and secured solely by the contractual obligations of the Local Units to provide the necessary funds to pay the Local Units' share of the cost of acquiring and constructing the System, including capitalized interest therefor, and all things necessary to the authorization and issuance of the Authority's bonds under the Act having been done and the Authority being now empowered to issue, and desirous of authorizing the issuance of, the bonds.

THEREFORE, BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE AUTHORITY AS FOLLOWS:

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

Section 1. Definitions. Wherever used in this Resolution or in the Bonds to be issued hereunder, except where otherwise indicated by the context:

(a) "Authority" means the Karegnondi Water Authority.

(b) "Authorized Officer" means the Chief Executive Officer of the Authority or his designee.

(c) "Bonds" means any of the $300,000,000 Water Supply System Bonds (Karegnondi Water Pipeline), authorized by Section 4 hereof.

(d) "Contract" means the Contract, dated as of August 1, 2013 among the Authority and the Local Units which has been approved by the Local Units and which the Authority hereby approves and authorizes its Chair and Secretary to execute.

(e) "Contractual Payments" means the debt service installment payments required to be made by the Local Units to the Authority pursuant to the provisions of Section 9 of the Contract and pledged to the payment of the principal of and interest on the Bonds authorized by the provisions of this Resolution.

(f) "Debt Service Reserve Account" means the Debt Service Reserve Account within the Debt Retirement Fund all created pursuant to Section 9 of this Resolution.

(g) "Depository Bank" means the Michigan bank or trust company selected by the Board of Trustees of the Authority or the Authorized Officer, which is a member of the Federal Deposit Insurance Corporation.

(h) "Government Obligations" means (i) direct obligations of the United States of America (including obligations issued or held in book-entry form), (ii) obligations the timely payment of the principal of and interest on which are fully guaranteed by the United States of America, (iii) non-callable, non-prepayable obligations of agencies of the United States of America, including, without limitations, obligations of the Federal Home Loan Bank, Federal National Mortgage Association, Federal Home Loan Mortgage Corporation, Tennessee Valley Authority, Farm Credit System, Washington Metropolitan Area Transit Authority, United States Import-Export Bank, United States Department of Housing and Urban Development, Farmers Home Administration, General Services Administration and United States Maritime Administration, or any other agency or corporation which has been or is hereafter created pursuant to an act of Congress of the United States as an agency or instrumentality of the United States of America (provided the agencies listed in this clause (iii) retain ratings equivalent to or higher than the ratings held by direct obligations of the United States of America by Moody's Investors Service, Inc., by Standard & Poor's Ratings Services, a part of McGraw Hill Financial or Fitch Ratings, Inc., or any successor entities performing a similar function from which the State has requested a rating for the Bonds, as of the date the obligations are acquired); and (iv) certificates which evidence ownership of the right to payment of the principal of and interest on obligations described in clauses (i), (ii) and (iii) hereof; provided that such obligations are held in the custody of a bank or trust company satisfactory to the Authority in a special account separate from the general assets of the custodian; provided, however, Government Obligations shall not include any investment which is prohibited or not permitted by the Act or other applicable law.

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

(h) "Outstanding" means, when used in reference to the Bonds as of any given date, all Bonds which have been duly authenticated and delivered by the Transfer Agent under this Resolution except:

(a) Bonds which have been canceled by the Transfer Agent at or prior to such date or which have been delivered to the Transfer Agent at or prior to such date for cancellation;

(b) Bonds which have been defeased pursuant to Section 23 hereof.

(i) "Reserve Account Requirement" means the (i) lesser of (a) the maximum annual principal and interest requirements during any calendar on the Bonds then Outstanding, (b) ten percent (10%) of the initial face amount of the Bonds, less original issue discount, if any, or (c) one hundred twenty-five percent (125%) of the average annual principal and interest requirements during any calendar on the Bonds then Outstanding or (ii) such other amount as shall be set forth in the Sale Order for the initial series of Bonds.

(j) "System" means the Karegnondi Water Authority Water Supply System (Karegnondi Water Pipeline), consisting of the acquisition, construction and equipping of water supply system improvements to serve the Local Units, including site acquisition and development therefor, as more particularly described in the Contract, together with all necessary appurtenances and rights in land thereto, being defrayed from the proceeds of the Bonds.

(k) "Sale Order" means an order of an Authorized Officer awarding the sale of a series of Bonds and setting the terms of such series of Bonds.

(k) "Transfer Agent" means a bank or trust company qualified and approved by the Authorized Officer of the Authority to serve as transfer agent for the Bonds.

Section 2. Plans and Specifications; Necessity. The plans, specifications and cost estimates for the System as prepared by the Consulting Engineers are hereby accepted and approved, and it is hereby determined to be advisable and necessary for the public health of citizens of the Local Units to complete the acquisition, construction, and completion of the System as provided in said plans and specifications.

Section 3. Estimated Cost; Useful Life of System. The total estimated cost of acquiring and constructing the System, including payment of incidental expenses as specified in Section 4 of this Resolution, in the amount of approximately $300,000,000 and the Local Units' share thereof (100%) is hereby approved and confirmed. The cost of the System shall be defrayed from Bonds to be issued by the Authority under the Contract in an amount not to exceed $300,000,000, in one or more series. The estimated period of usefulness of the System is determined to be not less than thirty (30) years.

Section 4. Authorization of Bonds. For the purpose of defraying the Local Units' share of the cost of the System, including payment of engineering, legal and financing expenses, including a bond discount and capitalized interest, and other expenses incident thereto and incident to the issuance of the Bonds, there shall be borrowed the sum of not to exceed $300,000,000, in one or more series, and in evidence thereof Bonds of the Authority shall be issued in an equivalent aggregate principal amount.

Section 5. Details of Bonds. The Bonds shall be designated KAREGNONDI WATER SUPPLY SYSTEM BONDS (KAREGNONDI WATER PIPELINE) (the "Bonds"), are authorized to be issued in

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

the aggregate principal sum of not to exceed Three Hundred Million Dollars ($300,000,000) with such changes to the designation of the Bonds as provided in the Sale Order, in one or more series, for the purpose of paying all or a portion of the cost of the System as provided in Section 4, and the costs incidental to the issuance, sale and delivery of the Bonds. Each series of Bonds shall consist of Bonds in fully-registered form of the denomination of $5,000, or multiples thereof not exceeding for each maturity the maximum principal amount of that maturity, numbered consecutively in order of registration. Each series of the Bonds will be dated as of the date of delivery (or such other date as provided in the Sale Order), be payable on such dates as provided in the Sale Order in the annual amounts determined at the time of sale of each series of Bonds as provided in the Sale Order with a final payment not later than 30 years from the date of issuance. Each series of the Bonds shall subject to redemption prior to maturity, or subject to mandatory redemption, as shall be determined at the time of sale as provided in the Sale Order.

The Bonds shall bear interest at a rate or rates to be determined at the time of sale as provided in the Sale Order, but in any event not exceeding 10% per annum, payable as determined at the time of sale for each series of the Bonds, and semiannually thereafter, by check drawn on the Transfer Agent, mailed to the registered owner at the registered address, as shown on the registration books of the Authority maintained by the Transfer Agent. Interest shall be payable to the registered owner of record as of the fifteenth day of the month prior to the payment date for each interest payment. The date of determination of registered owner for purposes of payment of interest as provided in this paragraph may be changed by the Authority to conform to market practice in the future. The principal of the Bonds shall be payable upon presentation and surrender of the appropriate Bond at the office of the Transfer Agent.

Section 6. Execution and Delivery of Bonds; Transfer Agent Duties. The Bonds shall be signed with the facsimile signature of the Chair of the Authority and countersigned by the facsimile signature of the Secretary of the Authority. The Bonds shall have the corporate seal, or a facsimile thereof, of the Authority impressed or imprinted thereon. No Bond of any series shall be valid until authenticated by an authorized officer of the Transfer Agent. Executed blank bonds for registration and issuance to transferees shall simultaneously, and from time to time thereafter as necessary, be delivered to the Transfer Agent for safekeeping.

Any Bond may be transferred upon the books required to be kept pursuant to this section by the person in whose name it is registered, in person or by his duly authorized attorney, upon surrender of the Bond for cancellation, accompanied by delivery of a duly executed written instrument of transfer in a form approved by the Transfer Agent. Whenever any Bond or Bonds shall be surrendered for transfer, the Authority shall execute and the Transfer Agent shall authenticate and deliver a new Bond or Bonds, of the same series and aggregate principal amount and maturity date and bearing the same rate of interest as the surrendered Bond or Bonds. The Transfer Agent shall require the payment by the bondholder requesting the transfer of any tax or other governmental charge required to be paid with respect to the transfer.

The Transfer Agent shall keep or cause to be kept, at its principal office, sufficient books for the registration and transfer of the Bonds, which shall at all times be open to inspection by the Authority. Upon presentation for such purpose, the Transfer Agent shall, under such reasonable regulations as it may prescribe, transfer or cause to be transferred, on said books, Bonds as hereinbefore provided.

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

The Authorized Officer is hereby authorized to execute an agreement with the Transfer Agent regarding the duties and responsibilities of the Transfer Agent.

Section 7. Source of Payment; Pledge; Remedies. The Bonds and the interest thereon shall be payable solely from the Contractual Payments received by the Authority and from any funds held in the Debt Retirement Fund, for the payment of which the Local Units have, in the Contract, pledged their limited tax full faith and credit pursuant to the provisions of the Act, in the amounts set forth in the Contract. Each Local Unit has covenanted and agreed to provide annually general or special funds in amounts sufficient to meet when due its Contractual Payments in anticipation of which the Bonds, including the replenishment of the Debt Service Reserve Account as set forth in Section 9 hereof, are issued, or, if necessary, to levy ad valorem taxes on all taxable property within its boundaries for such purpose, subject to applicable constitutional, statutory, and charter tax rate limitations. All of such Contractual Payments are hereby irrevocably pledged solely and only for the payment of principal of and interest on the Bonds. The holder or holders of the Bonds, representing in the aggregate not less than twenty percent (20%) of the entire issue then Outstanding, may, by suit, action or other proceedings, protect and enforce the aforesaid pledge and enforce and compel the performance of all duties of the officials of the Authority, including, but not limited to, compelling the Local Units, by proceedings in a court of competent jurisdiction or other appropriate forum, to make the Contractual Payments, appropriate general funds, and levy and collect appropriate taxes as herein authorized and as may be required under the Contract to be so appropriated, certified, levied and collected by the Local Units for the Contractual Payments.

Section 8. Custody of Funds. The Treasurer of the Authority shall be custodian of all funds of the Authority belonging to or associated with the System, and such funds shall be deposited in the Depository Bank.

Section 9. Establishment of the Debt Retirement Fund.

(a) The Authority shall, after the adoption of this Resolution and the delivery of the initial series of Bonds herein authorized, open a special depository account with the Depository Bank to be designated DEBT RETIREMENT FUND – KAREGNONDI WATER AUTHORITY WATER SUPPLY SYSTEM (KAREGNONDI WATER PIPELINE) (the "Debt Retirement Fund"), pursuant to which there shall be deposited all Contractual Payments as received. The moneys from time to time on hand in the Debt Retirement Fund shall be used solely and only for the payment of the principal of and interest on all series of Bonds issued pursuant to this Resolution.

(b) Within the Debt Retirement Fund, the Authority shall establish a Debt Service Reserve Account. From the proceeds of each series of Bonds or other legally available funds, the Authority shall deposit an amount equal to the Reserve Account Requirement. There shall be credited to the Debt Service Reserve Account beginning on the 1st day of the month following any month in which the amount in the Debt Service Reserve Account shall be less than an amount equal to the Reserve Account Requirement as a result of the failure of a Local Unit to pay its Contractual Payments, and continuing on the 1st day of each month thereafter, an amount equal to one-thirty-sixth (1/36) of any deficit therein, until the amount on deposit is equal to the Reserve Account Requirement; however, if the amount on deposit in the Debt Service Reserve Account is less than 100% of the Reserve Account Requirement as a result of investment losses with respect to the Debt Service Reserve Account, commencing on the 1st day of the month

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

following such evaluation, and continuing on the first day of each month thereafter, an amount equal to one-fourth (1/4) of the amount necessary to restore the Debt Service Reserve Account to 100% of the Reserve Account Requirement, unless and until the amount on deposit in the Debt Service Reserve Account shall equal 100% of the Reserve Account Requirement. Further, if a Local Unit fails to pay its Contractual Payment causing a shortfall and the Debt Service Reserve Account is drawn upon to pay the Bonds, the replenishment of such Debt Service Reserve Account shall be an obligation of the Local Unit that failed to pay such Contractual Payment, in the manner described above. Provided, however, if the City of Flint fails to fulfill its obligation to replenish the Debt Service Reserve Account, as with other payment obligations under the Contract, the County of Genesee has agreed in the Contract to make such payments. If there is a deficiency in the Debt Service Reserve Account as a result of investment losses, each Local Unit shall have an obligation to pay a pro-rata share of the Authority's monthly replenishment obligation with such pro-rata share being equal to the percentage set forth on Exhibit B of the Contract.

(c) Assets held for the credit of the Debt Service Reserve Account shall be used solely for the purpose of paying interest on the Bonds and maturing principal of the Bonds, whether at the stated payment date or by the retirement of Bonds in satisfaction of the redemption requirements therefor, whenever and to the extent that the moneys held for the credit of the Debt Retirement Fund from Contractual Payments shall be insufficient for those purposes.

(d) Whenever there shall be held in the Debt Retirement Fund, including any funds in the Debt Service Reserve Account, a total amount sufficient for paying in full all Outstanding Bonds, including the principal of and the interest on all Bonds and any redemption premium and any amounts needed to pay redemption expenses, such moneys shall be applied by the Transfer Agent to the payment, purchase or redemption of the Bonds and the payment of all expenses in connection with the payment, purchase or redemption. The Local Units shall receive a pro-rata credit for the amount of such balance against the Contractual Payment next due for any such funds so used.

Section 10. Operation and Maintenance. The operation, maintenance and administration of the System, and the acquisition and construction thereof, shall be under the overall jurisdiction and control of the Authority.

Section 11. Bond Form. The Bonds shall be in substantially the following form:

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

UNITED STATES OF AMERICA

STATE OF MICHIGAN
COUNTY OF GENESEE

KAREGNONDI WATER AUTHORITY
WATER SUPPLY SYSTEM BONDS
(KAREGNONDI WATER PIPELINE)
SERIES ____

Interest Rate	Maturity Date	Date of Original Issue	CUSIP
	April 1, ____	_____, 201_	

Registered Owner:

Principal Amount: Dollars

KAREGNONDI WATER AUTHORITY, a public corporation of the State of Michigan (the "Issuer"), for value received, hereby promises to pay to the Registered Owner specified above, or registered assigns, the Principal Amount specified above, in lawful money of the United States of America on the Maturity Date specified above, unless prepaid prior thereto as hereinafter provided, with interest thereon from the Date of Original Issue specified above or such later date to which interest has been paid, until paid, at the Interest Rate per annum specified above, first payable on _____ 1, 201_, and semiannually thereafter. Principal of this bond is payable upon presentation and surrender thereof at the principal corporate trust office of _____, _____, Michigan, or such other transfer agent as the Issuer may hereafter designate by notice mailed to the registered owner not less than sixty (60) days prior to any interest payment date (the "Transfer Agent"). Interest on this bond is payable by check or draft mailed by the Transfer Agent to the person or entity who is as of the fifteenth (15th) day of the month prior to each interest payment date, the registered owner, at the registered address as shown on the registration books of the Issuer maintained by the Transfer Agent.

The bonds of this issue are payable solely from the proceeds of contractual payments ("the Contractual Payments") to be paid by the City of Flint in the County of Genesee, Michigan and the County of Genesee, Michigan (the "Local Units") to the Issuer pursuant to a certain contract dated as of August 1, 2013 (the "Contract"), among the Local Units and the Issuer, whereby the Issuer is to assist in the financing of the cost of acquiring and constructing water supply system improvements and appurtenances and attachments thereto in the Local Units, said system being designated as Karegnondi Water Authority Water Supply System (Karegnondi Water Pipeline) (the "System"). By the provisions of the Contract and pursuant to the authorization provided by law, the Local Units have pledged their limited tax full faith and credit for the payment of their respective Contractual Payments, and the Local Units are obligated to pay such amounts from its general funds, including collections of ad valorem taxes on all taxable property within its boundaries, subject to applicable charter, statutory, and constitutional tax rate limitations. The bonds of this issue are further secured by funds held in the Debt Retirement Fund, including the Debt Service Reserve Account. The Issuer has irrevocably pledged to the payment of this series of bonds the Contractual Payments, which said Contractual Payments are established in the amount required to pay the principal of and interest on the bonds of this series when due.

This bond is one of a series of bonds aggregating the principal sum of $_____, issued under and in pursuance of a resolution duly adopted by the Board of Trustees of the Issuer (the "Resolution") under and in full compliance with the Constitution and statutes of the State of Michigan, including specifically Act 233, Public Acts of Michigan, 1955, as amended, for the purpose of paying part of the cost of constructing the System.

[Insert term bond provisions, if applicable]

[Bonds maturing in the years ____ to ____, inclusive, shall not be subject to redemption prior to maturity.]

[Bonds or $5,000 portions thereof maturing in the years ____ to ____, inclusive, shall be subject to redemption prior to maturity, at the option of the Authority, in any order and by lot within a single maturity, on any date on or after April 1,

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

2022. Bonds called for redemption shall be redeemed at par and accrued interest to the date fixed for redemption.]

Notice of redemption shall be given to the registered owner of any bond to be redeemed by mailing of such notice not less than thirty (30) days prior to the date fixed for redemption to the registered owner at the address of the registered owner as shown on the registration books of the Authority kept by the Transfer Agent. Bonds shall be called for redemption in multiples of $5,000 shall be treated as representing the number of bonds obtained by dividing the denominations of the bond by $5,000 and such bonds may be redeemed in part. The notice of redemption for bonds redeemed in part shall state that upon surrender of the bond to be redeemed, a new bond or bonds in the same aggregate principal amount equal to the registered owner thereof with the same interest rate and maturity. No further interest shall accrue on bonds called for redemption after the date fixed for redemption, whether presented for redemption or not, provided funds are on hand with the Transfer Agent to redeem the bond or portion thereof.

Any bond may be transferred by the person in whose name it is registered, in person or by the registered owner's duly authorized attorney or legal representative, upon surrender of the bond to the Transfer Agent for cancellation, together with a duly executed written instrument of transfer in a form approved by the Transfer Agent. Whenever any bond is surrendered for transfer, the Transfer Agent shall authenticate and deliver, a new bond or bonds, in like aggregate principal amount, interest rate and maturity. The Transfer Agent shall require the registered owner requesting the transfer to pay any tax or other governmental charge required to be paid with respect to the transfer. The Transfer Agent shall not be required to issue, register the transfer of or exchange any bond during a period beginning at the opening of business 15 days before the day of the mailing of a notice of redemption of bonds selected for redemption and ending at the close of business on the day of that mailing.

It is hereby certified and recited that all acts, conditions and things required to be done, exist and happen, precedent to and in the issuance of said bonds, in order to make them valid and binding obligations of said Authority, have been done, exist and have happened in regular and due form and time as provided by law, and that the total indebtedness of said Local Units does not exceed any applicable constitutional, statutory, or charter limitation.

This bond is not valid or obligatory for any purpose until the Transfer Agent's Certificate of Authentication on this bond has been executed by the Transfer Agent.

For a complete statement of the funds from which and the conditions under which this bond is payable and the general covenants and provisions pursuant to which this bond is issued, reference is made to the Contract and the Resolution.

IN WITNESS WHEREOF, KAREGNONDI WATER AUTHORITY, by its Board of Trustees, has caused this bond to be signed in the name of said Authority by the facsimile signature of its Chair and to be countersigned by the facsimile signature of its Secretary and a facsimile of its corporate seal to be hereunto imprinted, all as of the Date of Original Issue.

Section 12. Additional Bonds. Nothing contained in this Resolution or in the Contract shall be construed to prevent the Authority from issuing additional bonds under the provisions of the Act for the purpose of the paying additional costs of the System or improvements thereto, subject to the requirements of the Act and other applicable law.

Section 13. Construction Fund. The proceeds of sale of the Bonds, other than proceeds for accrued interest and capitalized interest described below, shall be deposited in a special depository account in the Depository Bank designated "KAREGNONDI WATER AUTHORITY WATER SUPPLY SYSTEM (KAREGNONDI WATER PIPELINE) CONSTRUCTION FUND" (the "Construction Fund"). Proceeds of the Bonds representing any accrued interest paid at the time of delivery of the Bonds and any funds to be used for capitalized interest as determined at the time of sale of any series of Bonds shall be deposited into the Debt Retirement Fund established under the provisions of Section 9 of this Resolution. The moneys in the Construction Fund shall be used solely and only to pay costs of the System authorized in this Resolution and any engineering, legal, bond insurance, financing or other expenses incidental thereto on authorization of the Authority, in accordance with the provisions of the Contract. Any unexpended balance remaining in the Construction Fund after completion of the System may be used for the improvement or enlargement of the System or for other projects of the Authority undertaken on behalf of the Local Units, if such use be approved by the Local Units. Any balance remaining after such use, if any, shall be paid into the Debt Retirement Fund, and the Local Units shall receive a credit for the amount of such balance against the Contractual Payment next due.

Section 14. Investment of Funds. Moneys in any funds and accounts of the Authority may be invested by the Authority in United States government obligations, the principal of and interest on which are guaranteed by the United States government, or in interest-bearing time deposits, as shall from time to time be determined by the Authority. In the event such investments are made, the securities representing the same shall be kept on deposit with the depository or depositories of the fund or funds from which such investments are made and such securities and the income therefrom shall become part of the fund from which such investments are made.

Section 15. Resolution and Contract. The provisions of this Resolution, together with the Contract, shall constitute a contract between the Authority and the holder or holders from time to time of the Bonds, and after the issuance of the Bonds, no change, variation or alteration of the provisions of this Resolution and the Contract may be made which would materially lessen the security for the Bonds.

Section 16. Covenants with Bondholders. The Authority covenants and agrees with the successive holders of the Bonds, so long as any of the Bonds remain Outstanding and unpaid as to either principal or interest, as follows:

(a) The Authority will punctually perform all of its obligations and duties under this Resolution and the Contract, including the collection, segregation and application of the Contractual Payments in the manner required by the provisions of this resolution.

(b) The Authority will apply and use the proceeds of sale of the Bonds for the purposes and in the manner required by the Contract and this Resolution.

(c) The Authority will maintain and keep proper books of record and account relative to the application of funds for the construction of the System and the Contractual Payments

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

received pursuant to the Contract. Not later than six (6) months after the end of each fiscal year, the Authority shall cause to be prepared a statement in reasonable detail, sworn to by its chief accounting officer, showing the application of the proceeds of sale of the Bonds, the cash receipts from the Contractual Payments during such year and the application thereof, and such other information as may be necessary to enable any taxpayer or any holder or owner of the Bonds, or anyone acting in their behalf, to be fully informed as to all matters pertaining to the construction of the System and application of funds therefor or for the payment of the Bonds during such year. A certified copy of said statement shall be filed with the Clerks of the Local Units and a copy shall also be sent to the holder or owner of the Bonds requesting the same. The Authority shall also cause an annual audit of the books of record and account for the preceding operating year to be made by a recognized independent certified public accountant and shall mail such audit to the holder or owner of the Bonds requesting the same. The aforesaid audit may be submitted to such holder or owner of the Bonds in place of the aforesaid statement.

Section 17. Tax Covenant. The Authority shall, to the extent permitted by law, take all actions within its control necessary to maintain the exclusion of the interest on the Bonds from gross income for federal income tax purposes under the Internal Revenue Code of 1986, as amended (the "Code"), including, but not limited to, actions relating to any required rebate of arbitrage earnings and the expenditure and investment of Bond proceeds and moneys deemed to be Bond proceeds.

Section 18. Negotiated Sale. The Authority has considered the option of selling the Bonds through a competitive sale and a negotiated sale, and, pursuant to the requirements of Act 34, Public Acts of Michigan, 2001, as amended ("Act 34"), hereby determines that a negotiated sale of the Bonds will result in the most efficient and expeditious means of selling the Bonds, to allow better control over pricing of the Bonds and to achieve the most advantageous interest rates and cost to the Authority.

Section 19. Bond Purchase Agreement; Delegation to Authorized Officer; Sale Order. The Authorized Officer is hereby authorized to appoint one or more underwriters (the "Underwriter") and, subject to the parameters set forth in this Resolution, negotiate and execute a Bond Purchase Agreement, execute a Sale Order specifying the final terms of each series of Bonds and take all other necessary actions required to effectuate the sale, issuance and delivery of the Bonds within the parameters authorized in this Resolution.

Section 20. Adjustment of Bond Terms. The Authorized Officer is hereby authorized to adjust the final bond details as set forth herein to the extent necessary or convenient to complete the sale of a series of Bonds and in pursuance of the forgoing is each authorized to exercise the authority and make the determinations pursuant to Sections 315(1)(d) of Act 34, including but not limited to determinations regarding interest rates, prices, discounts, maturities, principal amounts, denominations, date of issuance, interest payment dates, redemption rights, designation as qualified tax-exempt obligations and other matters; provided, however, that the interest rate on any series of Bonds shall not exceed 10%, have a final maturity later than 30 years from the date of issuance of such series of Bonds, and aggregate principal amount of all series of Bonds issued pursuant to this Resolution shall not exceed $300,000,000.

Section 21. Other Actions. The Authorized Officer is hereby authorized and directed to cause the preparation and circulation of a preliminary and final Official Statement with respect to each series of Bonds; to procure a policy or policies of municipal bond insurance with respect to each series of Bonds or cause the qualification of the each series of Bonds therefor if, upon the advice of the

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

Authority's financial advisor for the Bonds, the acquisition of such insurance would be of economic benefit to the Authority; and to obtain ratings on the Bonds. The Authorized Officer is hereby authorized to complete, execute and file any and all applications or requests for waivers with the Michigan Department of Treasury necessary to effectuate the sale and delivery of any series of Bonds as contemplated by this Resolution, including, if necessary, an Application for State Treasurer's Approval to Issue Long-Term Securities, in such form as shall be approved by such officer. The Authorized Officer is further authorized to pay any necessary fees in connection with any such applications or waivers.

The Authorized Officer is hereby authorized and directed to execute and deliver all other documents and certificates and to take all other actions and to make such other filings with any parties necessary or advisable to enable the sale and delivery of the Bonds as contemplated herein, including the filing of a qualifying statement or application for prior approval to issue the Bonds in accordance with Act 34.

Section 22. Selection of Financial Advisor/Bond Counsel. Stauder, Barch & Associates, Inc. Associates, is hereby approved as the financial advisor to the Authority. Miller, Canfield, Paddock and Stone, P.L.C. is hereby approved as Bond Counsel to the Authority. The Authority acknowledges that Miller, Canfield, Paddock and Stone, P.L.C. currently represents, and has represented in the past, the County of Genesee, the County Agency of Genesee County, and the City of Flint in various matters, including representing the County of Genesee in its financing of the water intake system to be used by the Authority. Miller, Canfield, Paddock and Stone, P.L.C. also represents several underwriters and investment banks in unrelated matters, including J.P. Morgan Securities, LLC. The Authority hereby consents to such representation of the those entities by Miller, Canfield, Paddock and Stone, P.LC.

Section 23. Defeasance. If all the Bonds (i) shall have become due and payable in accordance with their terms, (ii) are to be paid at their maturity or maturities or (iii) to be redeemed prior to maturity shall have been duly called for redemption or irrevocable instructions to call the Bonds for redemption shall have been given to the Transfer Agent by the Authority, and the whole amount of the principal of and the interest and the premium, if any, so due and payable upon all of the Bonds then Outstanding shall be paid or sufficient cash, or cash and Government Obligations (as defined below), the principal of and interest on which without reinvestment, when due and payable, will provide sufficient moneys for such payment, shall be segregated and held by an escrow agent for the benefit of the owners of the Bonds, then this Resolution shall be defeased and terminated with respect to the Bonds and all obligations of the Authority hereunder with respect to the Bonds, shall thereupon cease except the bondholders shall still have the right to receive payment of the principal of, premium, if any, and interest on the Bonds from the cash or Government Obligations deposited in trust and the interest and gains thereon and to transfer and exchange Bonds as provided herein and the tax covenant contained in the section of this Resolution entitled "Tax Covenant," shall be continued in force until the Bonds have been fully paid. Any Government Obligations held pursuant to this section shall not be callable at the option of the issuer of such obligation, if such call could result in less than sufficient money being available for the purposes required hereby

Section 24. Cancellation. All Bonds surrendered to the Transfer Agent for payment upon redemption or maturity, or for transfer or exchange, shall be canceled by the Transfer Agent by perforation, and notice of such cancellation shall be given by the Transfer Agent to the Authority. Upon the direction of the Authority, all such canceled Bonds shall be destroyed, and a certificate of destruction

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

with respect thereto shall be delivered by the Transfer Agent to the Authority.

Section 25. Headings. Section headings are for convenience only and do not constitute a part of this resolution.

Section 26. Repealer. All resolutions and parts of resolutions insofar as they conflict with the provisions of this Resolution be and the same hereby are repealed.

RESOLUTION APPROVING CONTRACT BETWEEN THE CITY OF FLINT, GENESEE COUNTY AND THE KAREGNONDI WATER AUTHORITY AND AUTHORIZING PUBLICATION OF NOTICE

BY THE EMERGENCY MANAGER:

It is necessary to acquire and construct a new water supply system consisting of the acquisition, construction and installation of various water main and related facilities, together with all necessary appurtenances and attachments thereto as described in the Contract (the "System"), to serve the City and the County of Genesee (the "County"); and

A Contract has been prepared between the City, County and the Karegnondi Water Authority (the "Authority") whereby the Authority will issue its bonds, in one or more series (the "Bonds") on behalf of the City and the County to provide for the financing of the cost of the acquisition, construction and installation of the System; and

The City has carefully reviewed the Contract and finds that it provides the best means for accomplishing the acquisition, construction and installation of the System and for providing the needed services.

IT IS RESOLVED, THAT:

1. Approval of Contract; Effectiveness. The Contract is hereby approved and the Emergency Manager and the City Clerk are hereby authorized and directed to execute and deliver the Contract for and on behalf of the City; provided, however, that Contract shall not become effective until the expiration of forty-five (45) days after the date of the publication of the notice attached hereto as Exhibit A as a display advertisement of at least one-quarter (1/4) page size in one or more newspapers of general circulation within the territory encompassed by the Authority, which manner of publication is deemed by the City to be the most effective manner of informing the taxpayers and electors of the City of the details of the proposed Contract and the rights of referendum thereunder.

2. Publication of Notice. The City Clerk is hereby directed to publish the attached notice as soon as possible after the adoption hereof in substantially the form attached, with such changes as shall be approved by the City Clerk, upon the advice of bond counsel, so as to permit the Bonds to be issued as contemplated herein. The City Clerk may agree to publish the attached notice pursuant to this Section jointly with the Clerk of the County *provided* that the attached notice shall appear in a newspaper having a general circulation in the City.

3. Application to Michigan Department of Treasury. The Emergency Manager, City Clerk and Treasurer are each authorized and directed to take such further steps and actions as are necessary or desirable to enable the Authority to issue the Bonds for and on behalf of the City and the County as contemplated herein and in the Contract, including making an application to the Michigan Department of Treasury for prior approval with respect to the issuance of the Bonds by the Authority, if such prior approval is required, and the payment of any fees required by the Michigan Department of Treasury in connection with such application. The Emergency Manager, City Clerk and Treasurer are each further authorized to apply for any waivers or other orders from the Michigan Department of Treasury as may be necessary or advisable to issue, sell and deliver the Bonds as contemplated herein and to pay any filing fees related thereto.

4. Bond Counsel. The City has been advised that the Authority has retained Miller, Canfield, Paddock and Stone, P.L.C. ("Miller Canfield") as its bond counsel in connection with the Bonds and the City hereby consents to the representation of the Authority by Miller Canfield.

5. Rescission. All resolutions and parts of resolutions in conflict with this resolution be, and the same hereby are repealed.

RESOLUTION APPROVING CONTRACT AND AUTHORIZING NOTICE

County of Genesee, State of Michigan

Minutes of a **regular meeting** of the Board of Commissioners of the County of Genesee, State of Michigan (the "County"), held on the 31 day of July, 2013, at 9:00 a.m., prevailing Eastern Time.

PRESENT: Members: Omar A. Sims, Brenda Clack, Jamie W. Curtis, Mark Young, Tony Brown, Archie H. Bailey, Ted Henry, Pegge Adams

ABSENT: Members: John Northrup

The following preamble and resolutions were offered by Member Tony Brown and supported by Member Mark Young:

WHEREAS, it is necessary to acquire and construct a new water supply system consisting of the acquisition, construction and installation of various water main and related facilities, together with all necessary appurtenances and attachments thereto as described in the Contract (the "System"), to serve communities in the County Agency's System and the City of Flint, County of Genesee, State of Michigan (the "City"); and

WHEREAS, a Contract has been prepared between the County, the City and the Karegnondi Water Authority (the "Authority") whereby the Authority will issue its bonds, in one or more series (the "Bonds") on behalf of the County and the City to provide for the financing of the cost of the acquisition, construction and installation of the System; and

WHEREAS, the County has carefully reviewed the Contract and finds that it provides the best means for accomplishing the acquisition, construction and installation of the System and for providing the needed services.

NOW, THEREFORE, BE IT RESOLVED, THAT:

1. Approval of Contract; Effectiveness. The Contract is hereby approved and the Chairperson of the Board of Commission and the County Clerk are hereby authorized and directed to execute and deliver the Contract for and on behalf of the County; provided, however, that Contract shall not become effective until the expiration of forty-five (45) days after the date of the publication of the notice attached hereto as Exhibit A as a display advertisement of at least one-quarter (1/4) page size in one or more newspapers of general circulation within the territory encompassed by the Authority, which manner of publication is deemed by the County to be the most effective manner of informing the taxpayers and electors of the County of the details of the proposed Contract and the rights of referendum thereunder.

2. Publication of Notice. The County Clerk, is hereby directed to publish the attached notice as soon as possible after the adoption hereof in substantially the form attached, with such changes as shall be approved by the County Clerk, upon the advice of bond counsel, so as to permit the Bonds to be issued as contemplated herein. The County Clerk may agree to publish the attached notice pursuant to this Section jointly with the Clerk of the City *provided* that the attached notice shall appear in a newspaper having a general circulation in the County.

3. Application to Michigan Department of Treasury. The Controller, the County Drain Commissioner, acting as the County Agency, pursuant to Act No. 342, Public Acts of Michigan of 1939, and the Treasurer of the County, are each authorized and directed to take such further steps and actions as are necessary or desirable to enable the Authority to issue the Bonds for and on behalf of the County and the City as contemplated herein and in the Contract, including making an application to the Michigan Department of Treasury for prior approval with respect to the issuance of the Bonds by the Authority, if such prior approval is required, and the payment of any fees required by the Michigan Department of Treasury in connection with such application. The Controller, the County Drain Commissioner acting as County Agency, pursuant to Act No. 342, Public Acts of Michigan of 1939, and the Treasurer of the County are each further authorized to apply for any waivers or other orders from the Michigan Department of Department as may be necessary or advisable to issue, sell and deliver the Bonds as contemplated herein and to pay any filing fees related thereto.

4. Rescission. All resolutions and parts of resolutions in conflict with this resolution be, and the same hereby are repealed.

I hereby certify that the foregoing is a true and complete copy of a resolution adopted by the Board of Commissioners of the County of Genesee, State of Michigan, at a regular meeting held on 7-31-____, 2013, and that said meeting was conducted and public notice of said meeting was given pursuant to and in full compliance with the Open Meetings Act, being Act 267, Public Acts of Michigan, 1976, and that the minutes of said meeting were kept and will be or have been made available as required by said Act.

County Clerk

MILLER, CANFIELD PADDOCK AND STONE, P.L.C.

MILLER CANFIELD PADDOCK AND STONE, P.L.C.

NOTICE OF INTENT TO EXECUTE
TAX-SUPPORTED CONTRACT AND OF RIGHT TO
PETITION FOR REFERENDUM THEREON

TO THE TAXPAYERS AND ELECTORS OF THE CITY OF FLINT AND THE COUNTY OF GENESEE.

PLEASE TAKE NOTICE, the City of Flint and the County of Genesee each in the County of Genesee (collectively, the "Local Units" and each a "Local Unit") have each approved the execution of a contract (the "Contract") with the Karegnondi Water Authority (the "Authority") pursuant to Act No. 233, Public Acts of Michigan, 1955, as amended, which Contract provides, among other things, that the Authority will acquire, construct and equip a water system to provide raw untreated water to the Local Units, together with all necessary appurtenances and attachments thereto (the "Project") and will issue its bonds in one or more series in the principal amount not to exceed $300,000,000 to finance the cost of the acquisition, construction and installation of such system for the Local Units AND THE LOCAL UNIT WILL PAY TO THE AUTHORITY PURSUANT TO THE CONTRACT THE SUMS NECESSARY TO RETIRE THE PRINCIPAL OF AND INTEREST ON SAID BONDS. Each Local Unit's share of such payments shall be determined by capacity initially acquired by each Local Unit in the Project. If the City of Flint fails to fulfill its payment obligations under the Contract, the County of Genesee has covenanted and agreed to make any such missed payments. Based on an aggregate $300,000,000 in bond issues, the amounts below show the maximum each Local Unit would be responsible for repaying for the Project.

Local Unit	Bond Issue
County of Genesee	$300,000,000
City of Flint	$102.600,000

LOCAL UNIT'S CONTRACT OBLIGATIONS

It is presently contemplated that said bonds in one or more series will be issued by the Authority in the aggregate principal amount of not to exceed $300,000,000, and will be payable in not to exceed thirty (30) years, and will bear interest at the rate or rates to be determined at the time of sale of any series of bonds but in no event to exceed ten percent (10.0%) per annum on the balance of such bonds from time to time remaining unpaid. The Contract includes each Local Unit's pledge of its limited tax full faith and credit for the prompt and timely payment of each Local Unit's obligations as expressed in the Contract. PURSUANT TO SUCH PLEDGE, EACH LOCAL UNIT WILL BE REQUIRED TO LEVY AD VALOREM TAXES WITHIN APPLICABLE CONSTITUTIONAL, CHARTER AND STATUTORY TAX LIMITATIONS ON ALL TAXABLE PROPERTY WITHIN THE LOCAL UNIT TO THE EXTENT NECESSARY TO MAKE THE PAYMENTS REQUIRED TO PAY PRINCIPAL OF AND INTEREST ON THE BONDS IF OTHER FUNDS FOR THAT PURPOSE ARE NOT AVAILABLE. It is the present intention of each Local Unit to use the revenues derived from the operation of its respective water treatment system to make all of the payments required to pay its obligations under the Contract.

RIGHT OF REFERENDUM

FOR EACH LOCAL UNIT, THE CONTRACT WILL BECOME EFFECTIVE without vote of the electors as permitted by law unless a petition requesting an election on the question of the Local Unit entering into the Contract, signed by not less than 10% of the registered electors of the Local Unit, is filed with the Clerk of the Local Unit within forty-five (45) days after publication of this notice. If such petition is filed, the Contract cannot become effective with respect to such Local Unit without an approving vote of a majority of electors of the Local Unit qualified to vote and voting on the question.

This notice is given pursuant to the requirements of Section 8 of Act No. 233, Public Acts of Michigan, 1955, as amended. Further information concerning the details of the Contract and the matters set out in this notice may be secured from the Local Unit's Clerk's office.

MILLER CANFIELD PADDOCK AND STONE, P.L.C.

KAREGNONDI WATER AUTHORITY FINANCING CONTRACT

THIS CONTRACT, dated as of August 1, 2013, by and among the Karegnondi Water Authority, a municipal authority and public body corporate of the State of Michigan (hereinafter referred to as the "Authority"), the City of Flint in the County of Genesee and the County of Genesee (collectively, the "Local Units" and each a "Local Unit").

WITNESSETH:

WHEREAS, the Authority has been incorporated under the provisions of Act No. 233, Public Acts of Michigan, 1955, as amended (hereinafter referred to as "Act 233"), for the purposes set forth in Act 233; and

WHEREAS, the Authority will acquire, construct and operate a water supply system to be known as the Karegnondi Water Supply System that provides untreated water to the Local Units, each of which is a constituent municipality of the Authority; and

WHEREAS, it is immediately necessary and imperative for the public health and welfare of the present and future residents of each of the Local Units that a certain water supply system, as more fully described on Exhibit A hereto, together with all necessary interests in land, appurtenances and attachments thereto (the "System") be acquired, installed and constructed; and

WHEREAS, plans and an estimate of cost of the System have been prepared by the Authority's consulting engineers, Wade Trim (the "Consulting Engineers"), which said estimate of aggregate cost totals an amount not to exceed $300,000,000; and

WHEREAS, each of the Local Units is desirous of having the Authority acquire and own the System in order to continue to operate the System in order to furnish the Local Units with untreated raw water; and

WHEREAS, the parties hereto have determined that the System is essential to the general health, safety and welfare of each of the Local Units; and

WHEREAS, the Authority and each of the Local Units are each agreeable to the execution of this Contract by and among themselves which provides, among other things, for the financing of all or a portion of the cost of the System; and

WHEREAS, this Contract contemplates the issuance of bonds in one or more series by the Authority to pay all or part of the costs of the System; and

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

WHEREAS, each of the Local Units has or will approve and authorize the execution of this Contract by resolution of its governing body; and

WHEREAS, each of the Local Units has published or will publish, individually or jointly, a notice of intention to enter into this Contract in a newspaper of general circulation in the territory encompassed by each Local Unit; and

WHEREAS, this Contract will become effective for each Local Unit upon expiration of a period of forty-five (45) days following publication by each Local Unit of its notice of intention without filing of a petition for referendum on the question of its entering into this Contract, or if such referendum election be required, then upon approval by the qualified electors of the Local Unit.

NOW, THEREFORE, IN CONSIDERATION OF THE PREMISES AND THE COVENANTS MADE HEREIN, THE PARTIES HERETO AGREE AS FOLLOWS:

SECTION 1. The Authority and the Local Units hereby approve the acquisition, construction and operation of System, together with all necessary interests in land, appurtenances and attachments thereto.

SECTION 2. Each of the Local Units hereby consents to the use by the Authority and any parties contracting with the Authority of the public streets, alleys, lands and rights-of-way in each Local Unit for the purpose of constructing, operating and maintaining the System including any improvements, enlargements and extensions thereto.

SECTION 3. The System is designed to provide and transport untreated raw water to each of the Local Units and the System is immediately necessary to protect and preserve the public health.

SECTION 4. The Authority and each of the Local Units hereby approve and confirm the plans for the System prepared by the Consulting Engineers and the total estimated cost thereof in the sum of not to exceed $300,000,000. Said cost estimate includes all surveys, plans, specifications, acquisition of property for rights-of-way, physical construction necessary to acquire and construct the System, the acquisition of all materials, machinery and necessary equipment, and all engineering, engineering supervision, administrative, legal and financing expenses necessary in connection with the acquisition and construction of the System and the financing thereof.

SECTION 5. The Authority shall not enter into any final contract or contracts for the acquisition and construction of the System if such contract price or prices will be such as to cause the actual cost thereof to exceed the estimated cost as approved in Section 4 of this Contract unless the Authority has sufficient funds to cover such excess, or, each of the Local Units, by resolution of its respective legislative body, (a) approves said increased total cost, and (b) agrees to pay such excess over the estimated cost, either in cash or by specifically authorizing the maximum principal amount of bonds to be issued, as provided in Sections 9 and 14 of this Contract, to be increased to an amount which will provide sufficient funds to meet said increased cost, and approves a similar increase in the installment obligations of each Local Unit, if any, pledged under the terms of this Contract to the payment of such bonds.

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

SECTION 6. The System shall be acquired and constructed by the Authority substantially in accordance with the plans and specifications therefor approved by this Contract. All matters relating to engineering plans and specifications, together with the making and letting of final construction contracts, the approval of work and materials thereunder, and construction supervision, shall be in the control of the Authority. All acquisition of sites and rights-of-way, if any, shall be done by the Authority. Each Local Unit's share of the costs of such acquisition in each Local Unit, if any, shall be paid from the Local Unit's share of bond proceeds and, in addition, any costs incurred by any Local Unit in connection with the acquisition or construction of the System, including, but not limited to, engineering expenses, shall be promptly reimbursed to the Local Unit by the Authority from the proceeds of the Authority's Bonds with the approval of the Authority board.

SECTION 7. The Authority shall operate, maintain and administer the System for and on behalf of the Local Units. The System shall be maintained in good condition and repair. The Authority shall provide insurance as part of its obligation to operate the System. The Authority will furnish reports to the Local Units at periodic intervals corresponding with the reporting periods of the Local Units in detail sufficient to inform the Local Units of the operations of the System and to permit the Local Units to meet their financing requirements hereunder.

SECTION 8. To provide for the construction and financing of the System in accordance with the provisions of Act 233, the Authority shall take the following steps:

(a) The Authority will take steps to adopt a resolution or resolutions providing for the issuance of its bonds in one or more series in the principal amount of not to exceed $300,000,000 (except as otherwise authorized pursuant to Section 5 of this Contract) to finance all or part of the costs of the System. Said bonds shall mature serially or be subject to mandatory sinking fund redemption as authorized by law, and shall be secured by the contractual obligations of each Local Unit in this Contract. After due adoption of the resolution or resolutions , the Authority will take all necessary legal procedures and steps necessary to effectuate the sale or sales and delivery or deliveries of said bonds.

(b) The Authority shall take all steps necessary to take bids for and enter into and execute final acquisition and construction contracts for the acquisition and construction of the System as specified and approved hereinbefore in this Contract, in accordance with the plans and specifications therefor based on the plans as approved by this Contract.

(c) The Authority will require and procure from the contractor or contractors undertaking the actual construction and acquisition of the System necessary and proper bonds to guarantee the performance of the contract or contracts and such labor and material bonds as may be required by law.

(d) The Authority, upon receipt of the proceeds of sale of each series of bonds, will comply with all provisions and requirements provided for in the resolution authorizing the issuance of such series of bonds and this Contract relative to the disposition and use of the proceeds of sale of such series of bonds.

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

(e) The Authority may temporarily invest any bond proceeds or other funds held by it for the benefit of each Local Unit as permitted by law and investment income shall accrue to and follow the fund producing such income. The Authority shall not, however, invest, reinvest or accumulate any moneys deemed to be proceeds of the bonds pursuant to §148 of the Internal Revenue Code of 1986, as amended, and the applicable regulations thereunder (the "Code"), in such a manner as to cause the bonds to be "arbitrage bonds" within the meaning of Code § 103(b)(2) and §148, or otherwise as may jeopardize the tax status of the bonds.

SECTION 9. Each Local Unit irrevocably covenants and agrees to pay to the Authority its Local Unit share of each series of bonds to be issued by the Authority pursuant to this Contract. The share of each Local Unit shall be determined as set forth on Exhibit B hereto.

The cost of the System to be financed with the issuance of bonds of the Authority in the aggregate principal amount of not to exceed $300,000,000 shall be paid in annual installments on the dates and in the amounts as established in the Authority's bond authorizing resolution.

Each Local Unit covenants that it will make or cause to be made its payments as required by this Contract not less than 3 days prior to the dates on which the Authority is required to make payments on the bonds described herein to the transfer agent for the bonds.

It is understood and agreed that the bonds of the Authority hereinbefore referred to will be issued in anticipation of the above contractual obligation, with principal maturities on the dates established by the Authority corresponding to the principal amount of the installments then coming due, and there shall also be paid in addition to said principal installments, on such dates as shall be determined by the Authority, commencing on such date as determined by the Authority, as accrued interest on the principal amount remaining unpaid, an amount sufficient to pay all interest at an interest rate not to exceed ten percent (10%) per annum, due on the next succeeding interest payment date on the bonds from time to time outstanding.

It is further understood and agreed that the bonds of the Authority may be secured by a debt service reserve fund or funds to provide additional security for the timely payment thereof if the Authority determines, in consultation with its financial advisor, that the provision of such debt service reserve fund or funds is advisable. If the bonds of the Authority are secured by a debt service reserve fund or funds, each Local Unit covenants and agrees to provide for the replenishment of such debt service reserve funds as described in Exhibit B.

From time to time as the Authority is billed by the transfer agent for its services for the bonds, and as other costs and expenses accrue to the Authority from handling of the payments made by the Local Units, or from other actions taken in connection with the System, the Authority shall promptly notify the Local Units of the amount of such paying agent fees and other costs and expenses, and the Local Units shall promptly remit to the Authority sufficient funds to meet such fees and other costs and expenses in the proportions hereinabove provided to the extent sufficient funds are not available to the

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

Authority. Each Local Unit warrants and represents that the amount of its obligations under this Contract, when taken together with other indebtedness of such Local Unit, will not cause its obligations under this Contract to exceed any constitutional, statutory or charter debt limitation applicable to such Local Unit.

The Authority shall, within thirty (30) days after the delivery of each series of the bonds of the Authority hereinbefore referred to, furnish each Local Unit with a complete schedule of installments of principal and interest thereon, and the Authority shall also at least sixty (60) days prior to each principal and/or interest installment due date, advise the Local Units, in writing, of the exact amount of principal and interest installments due on each series of bonds on the next succeeding bond principal and/or interest due date, and payable on the first day of the month immediately preceding, as hereinbefore provided. Failure of the Authority to notify the Local Units of any such payment shall not relieve the Local Units of the obligation to make such payment.

If any principal installment or interest installment is not paid when due, the amount not so paid shall be subject to a penalty, in addition to interest, of one percent (1%) thereof for each month or fraction thereof that the same remains unpaid after the due date.

SECTION 10. Each Local Unit states its intention to pay its obligations under this Contract from sources of moneys as are provided by Act 233 and applicable law, including the levy and collection of rates and charges to users of its respective water supply system for operating and maintaining its system provided by each Local Unit to customers in the Local Unit. Nevertheless, pursuant to the authorization contained in Act 233, each Local Unit hereby irrevocably pledges its full faith and credit for the prompt and timely payment of its obligations pledged for bond payments as expressed in this Contract, and, subject to the provisions of the last sentence of this paragraph, shall each year, commencing with the first tax levy after issuance of the bonds by the Authority, levy an ad valorem tax on all the taxable property in the Local Unit in an amount which, taking into consideration estimated delinquencies in tax collections, will be sufficient to pay such obligations under this Contract becoming due before the time of the following year's tax collections. Such annual tax levies shall be subject to applicable constitutional, statutory, and charter tax limitations. Nothing herein contained shall be construed to prevent a Local Unit from using any, or any combination of, the means and methods provided in Section 7 of Act 233, as now or hereafter amended, for the purpose of providing funds to meet its obligations under this Contract, and, if at the time of making the annual tax levy there shall be either other funds on hand earmarked and set aside, or funds provided in the annual budget of the water supply system of the Local Unit, for the payment of the contractual obligations due prior to the next tax collection period, then such annual tax levy may be reduced by such amount.

In the event a Local Unit shall fail for any reason to pay to the Authority at the times specified the amounts required to be paid by the provisions of this Contract, the Authority shall immediately give notice of such default and the amount thereof, to the Treasurer of each Local Unit, the Treasurer of the State of Michigan, and such other officials charged with the disbursement to such Local Unit of funds returned by the State and now or hereafter under Act 233 available for pledge as provided in this Section and in Section 12a of Act 233, and if such default is not corrected within ten (10) days after such

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

notification, the State Treasurer, or other appropriate official charged with disbursement to such Local Unit of the aforesaid funds, is, by these presents, specifically authorized by the Local Unit, to the extent permitted by law, to withhold from the aforesaid funds the maximum amount necessary to cure said deficit and to pay said sums so withheld to the Authority, to apply on the obligations of the Local Unit as herein set forth. Any such moneys so withheld and paid shall be considered to have been paid to the Local Unit within the meaning of the Michigan Constitution and statutes, the purpose of this provision being voluntarily to pledge and authorize the use of said funds owing to the Local Unit to meet any past-due obligations of such Local Unit due under the provisions of this Contract. In addition to the foregoing, the Authority shall have all other rights and remedies provided by law to enforce the obligations of the Local Unit to make its payments in the manner and at the times required by this Contract, including the right of the Authority to direct the Local Unit to make a tax levy to reimburse the Authority for any funds advanced.

SECTION 11. Each Local Unit may pay in advance any of the payments required to be made by this Contract, in which event the Authority shall credit the respective Local Unit with such advance payment on future due payments to the extent of such advance payment, or use such advances to call bonds without credit to the extent provided in relevant series of bonds.

SECTION 12. Each Local Unit may pay additional moneys over and above any of the payments specified in this Contract, with the written request that such additional funds be used to prepay installments, in which event the Authority shall be obligated to apply and use said moneys for such purpose to the fullest extent possible. Such moneys shall not then be credited as advance payments under the provisions of Section 11 of this Contract.

SECTION 13. It is specifically recognized by each Local Unit that the debt service payments required to be made by each pursuant to the terms of Section 9 of this Contract are to be pledged for and used to pay the principal installments of and interest on with respect to the bonds to be issued by the Authority as provided by this Contract and authorized by law, and each Local Unit covenants and agrees that it will make all required payments to the Authority promptly and at the times herein specified without regard to whether the System is actually completed or placed in operation.

SECTION 14. If the proceeds of the sale of the bonds in one or more series in aggregate amount not to exceed $300,000,000 to be issued by the Authority are for any reason insufficient to complete each Local Unit's share of the cost of the System, subject to each Local Unit's approval required by Section 5 hereof, the Authority shall automatically be authorized to issue additional bonds in an aggregate principal amount sufficient to pay the cost of completing the System and to increase the annual payments required to be made by each Local Unit in an amount so that the total payments required to be made as increased will be sufficient to meet the annual principal and interest requirements on the bonds herein authorized plus the additional bonds to be issued. It is expressly agreed between the parties hereto that the Authority shall issue bonds pursuant to this Contract and each Local Unit shall be committed to retire such amount of bonds as may be necessary to pay each Local Unit's share of the costs of the System whether or not in excess of those presently estimated herein. Any such additional

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

bonds shall comply with the requirements of Act 233 and any increase in the annual payments shall be made in the manner and at the times specified in this Contract. In lieu of such additional bonds, each Local Unit may pay over to the Authority, in cash, sufficient moneys to complete each Local Unit's share of the cost of the System.

SECTION 15. After completion of the System and payment of all costs thereof, any surplus remaining from the proceeds of sale of bonds shall be used by the Authority for either of the following purposes: (a) for improvements or enhancements to the System or for other projects of the Authority undertaken on behalf of the Local Units, subject to approval of the Authority; or (b) credited by the Authority toward the next payments due the Authority by said Local Units hereunder.

SECTION 16. The obligations and undertakings of each of the parties to this Contract shall be conditioned on the successful issuance and sale of the first series of bonds pursuant to Act 233, and if for any reason whatsoever the first series of bonds are not issued and sold within three (3) years from the date of this Contract, this Contract, except for payment of preliminary expenses and ownership of engineering data, shall be considered void and of no force and effect.

SECTION 17. The Authority and each Local Unit each recognize that the owners from time to time of each series of bonds issued by the Authority under the provisions of Act 233 to finance the cost of the System will have contractual rights in this Contract, and it is, therefore, covenanted and agreed by the Authority and each Local Unit that so long as any of series of bonds shall remain outstanding and unpaid, the provisions of this Contract shall not be subject to any alteration or revision which would in any manner materially affect either the security of such series of bonds or the prompt payment of principal or interest thereon. Each Local Unit and the Authority each further covenant and agree that each will comply with its respective duties and obligations under the terms of this Contract promptly at the times and in the manner herein set forth, and will not suffer to be done any act which would in any way impair the said bonds, the security therefor, or the prompt payment of principal and interest thereon. It is hereby declared that the terms of this Contract insofar as they pertain to the security of any such bonds shall be deemed to be for the benefit of the owners of said bonds.

SECTION 18. This Contract shall remain in full force and effect from the effective date hereof (as provided in Section 21) until each series bonds issued by the Authority are paid in full, but in any event not to exceed a period of thirty (30) years for each series of bonds. At such time within said 30-year term as any of the series of said bonds are paid, this Contract shall be terminated. In any event, the obligation of each Local Unit to make payments required by this Contract shall be terminated at such time as all of said bonds are paid in full, together with any deficiency or penalty thereon.

SECTION 19. This Contract shall inure to the benefit of and be binding upon the respective parties hereto, their successors and assigns.

SECTION 20. This Contract shall become effective upon (i) approval by the legislative body of each Local Unit, (ii) approval by the Board of the Authority and (iii) due execution by authorized officers of each Local Unit and by the Chairman and Secretary of the Authority.

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

SECTION 21. This Contract may be executed in several counterparts.

IN WITNESS WHEREOF, the parties hereto have caused this instrument to be executed as of the day and year first above written.

EXHIBIT A

SYSTEM

The Karegnondi Water System is a raw water supply system. It will deliver untreated Lake Huron water 65 miles inland to the population centers of Lapeer and Genesee Counties, including the Cities of Lapeer and Flint, and the County Agency of Genesee County with 17 local municipal systems. The system will also be capable of delivering water along the route to customers in Sanilac and Lapeer County, as well as future customers in Saint Clair County.

The system will consist of a lake intake, two pumping stations, and over 65 miles of large diameter transmission watermain. The system will include fire hydrants, metering stations, reservoirs, and the appurtenances necessary to operate the system efficiently. The lake intake portion of the project and the land where the two pumping stations are located will be acquired, constructed, designed and financed by the County of Genesee and made available for use by the Karegnondi Water System.

All land and required right-of-ways and easements have been acquired.

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

EXHIBIT B

LOCAL UNIT ESTIMATED SHARE OF IMPROVEMENT COST

The following is a breakdown of the percent each Local Unit is required to pay of the aggregate debt service, including the obligation to replenish a debt service reserve fund(s), if any, on the Authority's bonds authorized by this Contract:

Local Unit	Bond Issue
County of Genesee	65.8%
City of Flint	34.2%

In the event the City of Flint fails to fulfill its payment obligations under this Contract, the County of Genesee irrevocably covenants and agrees to make such missed payment within 1 day of being notified of the missed payment. Further, the Authority covenants and agrees to undertake all legal action and make use of all remedies available under this Contract to enforce the payment obligations of the City of Flint under this Contract. The Authority also covenants and agrees to undertake all legal action and make use of all remedies available to it under the Raw Water Supply Contract between the Authority and the City of Flint dated as of June 28, 2013 ("Raw Water Supply Contract"), as amended, specifically sections 7.08 and 7.09 of such contract. If the County of Genesee is required to make a payment for the City of Flint under this Contract and the Authority recovers any funds from the pursuit of such remedies described above, the Authority shall reimburse the County of Genesee from such funds for any payments made. To the extent permitted by law, the capacity that the City of Flint acquired in the System pursuant to the Raw Water Supply Contract shall be transferred to the County of Genesee until the City of Flint has repaid the County of Genesee for any additional payments made hereunder. The City of Flint shall also pay a penalty of one percent (1%) thereof for each month or fraction thereof that the same remains unpaid after the due date of the amount paid by the County of Genesee as a result of the failure of the City of Flint to fulfill its payment obligations hereunder. Further, if a Local Unit fails to pay its contractual obligation causing a shortfall and the debt service reserve fund(s) is drawn upon to pay the Authority's bonds, the replenishment of such debt service reserve fund shall be an obligation of the Local Unit that failed to pay, as provided in the resolution authorizing the bonds. Provided, however, if the City of Flint fails to fulfill its debt service reserve fund replenishment obligation, as with other payment obligations under the Contract, the County of Genesee agrees to make such payments.

Additionally, if the Authority sells raw untreated water capacity to other parties, to the extent funds are available from payments received from those parties, each Local Unit shall be credited on each day payment is due hereunder as agreed to by the Authority and the Local Units towards each Local Unit's payment obligations hereunder.

MILLER, CANFIELD, PADDOCK AND STONE, P.L.C.

KAREGNONDI WATER AUTHORITY
ACTING IN LAPEER COUNTY, MICHIGAN

RESOLUTION NO. 2013-14

A RESOLUTION TO ESTABLISH A GENERAL APPROPRIATIONS FOR THE CAPITAL PROJECTS FUND OF THE KAREGNONDI WATER AUTHORITY; TO DEFINE THE POWERS AND DUTIES OF THE KAREGNONDI WATER AUTHORITY OFFICERS IN RELATION TO THE ADMINISTRATION OF THE CAPITAL PROJECTS BUDGET; AND TO PROVIDE REMEDIES FOR REFUSAL OR NEGLECT TO COMPLY WITH THE REQUIREMENTS OF THIS RESOLUTION

At a regular meeting of the Karegnondi Water Authority Board, acting in Lapeer County, Michigan, held on November 20, 2013, at 2:00 p.m., local time.

PRESENT: Joshua Freeman, Larry Green, Richard E. Hammel, Ted Henry, Marilyn Hoffman, Steve Landaal, Sheldon Neeley, Thomas Svrcek, Tracey Tucker, Paula Zelenko, Joseph Suma, Dale Kerbyson, Greg Alexander

ABSENT: Dayne Walling, Jamie Curtis

The following preamble and resolution was offered by Marilyn Hoffman and seconded by Ted Henry:

Section 1: Title
This resolution shall be known as the Karegnondi Water Authority General Appropriations Act for the Capital Projects Fund.

Section 2: Chief Administrative Officer
The Chief Executive Officer is designated as the Chief Administrative Officer under the Uniform Budgeting and Accounting Act and by the adoption of this Resolution by the Karegnondi Water Authority Board is the responsible party for the administration of the Karegnondi Water Authority Capital Projects budget.

Section 3: Fiscal Officer
The Treasurer shall be the Fiscal Officer and shall perform the duties of the Fiscal Officer enumerated in this Resolution.

Section 4: Public Hearings on the Budget
Pursuant to Section 2a(4) of Act 2 of the Michigan Public Acts of 1968, as amended (hereinafter "Act 2"), a Capital Project budget is not subject to a public hearing and is adopted as a guide for staff to follow.

Section 5: Estimated Revenues and Expenditures
Be it resolved, the expenditures for the fiscal year commencing October 1, 2013 and ending September 30, 2014, are hereby appropriated on a departmental and activity basis as follows:

Expenditures

Capital Project (Construction Costs)	$235,980,209.00
Professional Services	$19,181,666.00
Insurances	$50,000.00
Publication Expenses	$20,000.00
Supplies	$20,000.00
Travel Reimbursement	$10,000.00
TOTAL EXPENDITURES	**$255,261,875.00**

And be it further resolved, revenues for the 2013-2014 fiscal year are estimated as follows:

Revenues

Bond Proceeds	$255,000,000.00
Initiation Fee (Capacity Fee)	$0.00
Annual Fee	$0.00
Commodity Charge	$0.00
Interest Income	$261,875.00
TOTAL REVENUE	**$255,261,875.00**

Section 6: Millage Levy

The Karegnondi Water Authority SHALL NOT cause any millage to be levied or collected on real or personal property within the district boundaries of the Karegnondi Water Authority.

Section 7: Adoption of Budget by Reference

The Capital Projects budget of the Karegnondi Water Authority is hereby adopted by reference, with revenues and activity expenditures as indicated in Section 5 of this Resolution.

Section 8: Adoption of Budget by Activity/Department

The Board of the Karegnondi Water Authority adopts the 2013-2014 fiscal year Capital Projects budget by Activity/Department. The Karegnondi Water Authority officials responsible for the expenditures authorized in the budget may expend Karegnondi Water Authority funds up to, but not to exceed, the total appropriation authorized for each Activity/Department, and may transfer among the various line items contained in the Activity/Department appropriation.

Section 9: Appropriation not a Mandate to Spend

Appropriations will be deemed maximum authorizations to incur expenditures. The fiscal officer shall exercise supervision and control to ensure that expenditures are within appropriations, and shall not issue any order for expenditures that exceed appropriations.

Section 10: Transfer Authority

The Chief Administrative Officer shall have the authority to make transfers among the various Activities/Departments without prior board approval, if the amount to be transferred does not exceed fifty percent (50%) of the

appropriation item from which the transfer is to be made. The Board shall be notified at its next meeting of any such transfers made, and reserves the right to modify, amend, or nullify any such transfers made. Under no circumstances may the total Capital Projects budget be changed without prior approval from the Karegnondi Water Authority Board.

Section 11: Periodic Fiscal Reports

The Chief Administrative Officer with assistance from the Treasurer shall transmit to the Karegnondi Water Authority Board at the end of quarter a report of financial operations of the Capital Projects budget, including, but not limited to:

a. cash balances report showing the amount of funds available in each of the various accounts.
b. A revenue and expenditure report which shows for each Activity/Department in the various funds the original, the amended budget, and the year to date actual amounts.

Section 12: Limit on Obligations and Payments

No obligation shall be incurred against, and no payment shall be made from any appropriation account unless there is a sufficient unencumbered balance in the appropriation and sufficient funds are or will be available to meet the obligation.

Section 13: Budget Monitoring

Whenever it appears to the Chief Administrative Officer that the actual and probable revenues in any fund will be less than the estimated revenues upon which appropriations from such fund were based, and when it appears that expenditures shall exceed an appropriation, the Chief Administrative Officer shall present to the Karegnondi Water Authority Board recommendations to prevent expenditures from exceeding available revenues or appropriations for the current fiscal year. Such recommendations shall include proposals for reducing appropriations, increasing revenues, or both.

Section 14: Payment of Bills

All claims (bills) against the Karegnondi Water Authority that are budgeted and within the limitations of the appropriated amount budgeted in the Activity/Department in which the expense is budgeted are pre-approved for payment by the Authority Board. The Karegnondi Water Authority Treasurer and Secretary may pay these bills upon receipt as long as there are sufficient funds available to pay said bills. The Karegnondi Water Authority Board shall receive a summary of claims (bills) that were budgeted and within the limitations of each Activity/Department in which the expense is budgeted that have been paid by the Karegnondi Water Authority Treasurer and Secretary. This list shall be approved during the consent agenda at the next regular meeting of the Karegnondi Water Authority Board. For any claims (bills) against the Karegnondi Water Authority that were not budgeted or that are in excess of the limitations of the appropriated amount budgeted in the Activity/Department in which the expense is budgeted, the Karegnondi Water Authority Board shall approve the claim (bills) prior to being paid.

Section 15: Authorized Salary, hourly and per diem rates

Pursuant to Article VII of the Articles of Incorporation of the Karegnondi Water Authority, the members of the Karegnondi Water Authority Board may receive payment for actual expenditures incurred in connection with the business of the Authority.

Section 16: Violations of This Resolution

Any obligation incurred or payment authorized in violation of this Resolution shall be void and shall subject any responsible official(s) or employee(s) to disciplinary action as outlined in Act 621 of the Michigan Public Acts of 1978.

Section 17: Board Adoption

The foregoing resolution was offered by Board Member Marilyn Hoffman and seconded by Ted Henry:

VOICE VOTE: Motion carried on unanimous voice vote.

Re: Applications for State Treasurer's Approval to Issue Long-Term Securities

Dear Mr. Goodrich:

I am the Chief Administrative Officer of the Karegnondi Water Authority, County of Genesee, State of Michigan (the "Authority"). In connection with the review of the Authority's Applications for State Treasurer's Approval to Issue Long-Term Securities for the not to exceed $300,000,000 Water Supply System Bonds (Karegnondi Water Pipeline), Series 2014A and Series 2014B please be advised of the following:

1. The Authority is a newly-created water authority with no outstanding securities/debt – new money or refunding – limited tax or unlimited tax - and does not have an audit.

2. The Authority has not been required to levy a tax as a result of a court or judgment during its preceding fiscal year.

Thank you in advance for your attention to this matter. Should you have any questions or require any additional information, please do not hesitate to contact the undersigned.

Very truly yours,

Jeff Wright, CEO
Karegnondi Water Authority

Lansing, MI 48909-3227

Re: FLINT CITY (252040)
Qualifying Statement

Dear Ms. Schafer,

We are in receipt of your letter dated February 21, 2014 denying authorization to issue municipal securities without further approval from the Department of Treasury.

As you know, the City of Flint is currently in receivership pursuant to Act 436, and operating under the control of an Emergency Manager since December 2011. Much progress has been made to reduce the City's accumulated deficit and to restore Flint to long term financial solvency. We are currently working with Treasury to finalize a Deficit Elimination Plan which will not only eliminate the deficit but begin to establish an appropriate level of reserves. The securities issued within the past five years pursuant to the Fiscal Stabilization Act were done prior to the City being placed under the control of an Emergency Manager.

The request to issue securities at this time is in conjunction with the City's partnership with Genesee County and others to construct a new source of water supply for the City and the region. This is being accomplished through the newly created Karegnondi Water Authority, of which the City of Flint is a member. The result of this project will be a new source of water for the region at a cost which is significantly less than the current costs. It is an important component of restoring the City of Flint to financial solvency.

Treasury approval of Flint's request to issue municipal securities for this purpose is requested.

Thank you and please contact me if you have any questions.

Sincerely,

Darnell Earley, ICMA-CM, MPA
Emergency Manager

February 21, 2014

DENIAL
Municipality Code: 252040
Fiscal Year Ended: 6/2013

Dear Chief Administrative Officer:

Thank you for submitting a qualifying statement for FLINT CITY to the Michigan Department of Treasury. Based upon the information provided in the qualifying statement, we have determined that FLINT CITY is not in material compliance with the following criteria as identified in section 303(3) of Public Act 34 of 2001:

Subsection (m) the municipality ended its last fiscal year with a deficit in one or more funds and an acceptable deficit elimination plan has not been certified or conditionally approved.
Subsection [b] the municipality has issued securities in the immediately preceding five fiscal years or the current fiscal year pursuant to the Emergency Municipal Loan Act or the Fiscal Stabilization Act.
Subsection [a] the municipality is operating under the provisions of the Local Government Fiscal Responsibility Act.

Therefore, FLINT CITY is not authorized to issue municipal securities under this act without further approval from the Department. You may request reconsideration of this denial or you may request prior approval from the Department for each municipal security that you issue until you are eligible to submit your next qualifying statement.

If you have any questions, please contact the Division at (517) 373-3227.

Sincerely,

Suzanne Schafer, Administrator
Local Audit and Finance Division

June 24, 2013

APPROVAL
Municipality Code 250000
Fiscal Year Ended 09/2012

Dear Chief Administrative Officer:

Thank you for submitting a reconsideration request of the qualifying statement denial for the County of GENESEE to the Michigan Department of Treasury dated 6/20/2013. Based upon the information provided in the reconsideration request, we have determined that the County of GENESEE is in material compliance with the criteria identified in section 303(3) of Public Act 34 of 2001.

The County of GENESEE is now authorized to issue municipal securities under this act without further approval from the Department. This authorization will remain in effect for 6 months plus 30 business days after the end of your next fiscal year, or when the Department has made a new determination, whichever occurs first.

Within 15 days after the issuance of a municipal security, you will need to file with the Department the enclosed Security Report and the documents required in section 141.2319 of Public Act 34 of 2001. Please mail them to the Municipal Finance and Systems Review Section of the Local Audit and Finance Division at P.O. Box 30728, Lansing, Michigan 48909-8228.

If you have any questions, contact the Division at (517) 373-0660.

Sincerely,

Suzanne Schafer, Administrator
Local Audit and Finance Division

Re: Status of Permits

Dear Mr. Massaron:

In response to your request for the status of permits required in association with the KWA project, I offer the following:

- GCDC applied for and received a permit to withdraw up to 85 million gallons per day from Lake Huron.
- Received all permits necessary for construction of an intake into the Great Lakes, as well as the permit to construct in the bottom land of Lake Huron.
- Is in the process of acquiring permits for construction of the Lake Huron pumping station and the intermediate pump station from the Michigan Department of Environmental Quality. Design meetings have been held with the MDEQ at the 60% and 90% design milestones.
- Is in the process of acquiring permits for the construction of the piping system from Lake Huron to Flint. Meetings have been held with the MDEQ at the 60% and 90% design milestones.
- Is in the process of acquiring permits to construct in road right-of-ways from Sanilac, Saint Clair, Lapeer and Genesee Counties. Design meetings have been held with each of those entities.
- Is in the process of acquiring zoning and related construction permits from Worth Township in Sanilac County, zoning and related permits from Lynn Township in Saint Clair County for construction of the Lake Huron and intermediate pump stations (site plans have been submitted).
- Required MDEQ public hearings for permits to construct in wetlands along the proposed pipeline route have been held.

If you have any questions regarding thee or other related matters, please do not hesitate to contact me at your convenience.

Sincerely,

David M. Jansen, Chief of Services
Division of Water and Waste Services

Subject: RE: Karegnondi Water Authority - Applications [MCPS-ACTIVE.FID1261324]

Harlan,

I followed up with Dave Massaron regarding the additional documentation/information that is needed for the applications. I will call you later this morning to discuss the QS deficiency letter for the City of Flint, but wanted to provide you with our answers to the remaining issues .

1. City of Flint 2013 Qualifying Statement needs to be filed. We will follow up with the City after we talk about item two.
2. We'll need a QS deficiency letter from the City of Flint – please call me to discuss. 517-241-1720. I will call you later this morning.
3. For the Karegnondi W.A., in lieu of a Qualifying Statement a compliance letter indicating they're in compliance with all items on the Qualifying Statement. We delivered this letter in the packet. I have reattached it to this email.
4. Since the bonds are to be repaid with rates/charges, is there a revenue coverage schedule that goes out 7 years? A coverage schedule was provided with the application. I have reattached it to this e-mail.
5. For Series 2014B, it appears the repayment schedule is not in compliance with MCL 141.2503(1). The final year principal is $21,625,000, so 1/5 of that would be $4,325,000, so it appears years 5-29 don't comply. Is there perhaps a statutory exception for these type of bonds that you're working with? Thoughts? You are exactly correct; the second series on its own would not comply with that paragraph (1). However, the second sentence of Section 503 of Act 34 paragraph 4 provides "Several series of municipal securities issued under the same authorization may be treated as a single issue for the purpose of fixing maturities." These bonds were all authorized pursuant to a single notice, single contract and single bond resolution. This sentence is the analog of the first sentence which allows schools to do the same calculation across issues. The reason is that Act 34 contemplated that a municipality could do multiple issues for one project and would want debt service to be level for that project, which is exactly what KWA is intending to do here. We did require that the first series comply as we don't have the second series to treat as a piece of the first until the first is issued.

Operator in Charge:	Dave Jansen	D-1, F-1
Other Operators:	Joe Anklam	D-4
	Jeffrey Bryson	F-3
	Vern Brenner	D-4, F-4
	Connie Hohman	F-4

Operator Certification Comments:

The Waste & Water Services Division (WWSD), continues a proactive position towards

promoting operator certification and maintains incentives for achieving operator certification. The WWSD maintains a mandatory certification requirement for any distribution system employee who wishes to advance from an operator assistant position to an operator position. A bonus incentive program is also in place for operators who obtain distribution system certification above the level required for their specific position. Certified operators help protect the county's investment in the system, and help ensure that the system meets the requirements of the SDWA.

Table 1. Operator Positions

OPERATOR POSITION	REQUIREMENTS
Operator Assistant 1	None
Operator Assistant 2	None
Operator	S-4
Maintenance Mechanic Equipment Operator Senior O&M Operator	S-4 or minimum of 4 years experience
Supervisory level	S-3

Introductory Comments:

The Genesee County Drain Commissioner serves water to a large percentage of Genesee County directly from the Detroit Water and Sewerage Department(DWSD) or through the city of Flint. Water service is provided to 19 wholesale and retail customers (8 wholesale and 11 retail customers).

The wholesale customers purchase water from the county through master meter(s) and these customers own and maintain the distribution system piping within their local service area. Each wholesale customer has established its own water department.

The retail customers have very little involvement with water utility operation. The WWSD controls design, construction, and operation of the water system for these customers. The retail customers, however, are responsible for collecting the water bills from their individual accounts. Table 2 below shows the breakdown of the county's wholesale and retail customers.

Table 2. Wholesale and Retail Customers of Genesee County

Wholesale Customer	Number of Accounts	Retail Customer	Number of Accounts
City of Burton	6,656	Clayton Township	865
City of Clio	993	Davison Township	2,636
City of Flushing	3,800	Flint Township	7,557
City of Mt. Morris	1,211	Flushing Township	2,538
City of Montrose	650	Gaines Township	487
City of Swartz Cr.	2,173	Mt. Morris Twp.	3,152
Genesee Township	2,129	Montrose Township	284
Grand Blanc Twp.	6,592	Mundy Township	1,365
		Richfield Township	667
		Vienna Township	1,184
		Thetford Township	4
Total Wholesale	24,204	Total Retail	20,739

The 2011 population estimate is based our August 3, 2011 sanitary survey meeting. An estimate of 3.4 persons per account was used to obtain the population estimate. Genesee County's estimated retail service area population is approximately 70,500 people. The combined wholesale and retail customer service area serves approximately 153,000 people.

WELL INFORMATION

One 6-inch test/exploration well was constructed at the Henderson Road pump station site. The test-well was constructed to a depth of 365 feet with a 6-inch PVC casing to 200 feet. The well was pumped at 220 GPM with a drawdown to 60 feet. Layne estimates that the aquifer could support a 350 -400 GPM well for long-term pumpage and possibly above 500 GPM for a short-term emergency supply. The WWSD has not decided whether to proceed in converting the test well to a production well for additional emergency capacity.

WATER USAGE

TABLE 3. - PRODUCTION HISTORY

(units in Million Gallons Per Day MGD)

YEAR	Avg Day	Max Day	Avg Day/Max Mo.	Max/Avg	G/C/D	% UnAcct H20 *

Donaldson:	MG	

2007:

Total Flow:	19.7 MG	
Center Rd in:	18.2 MG	(three pumps ran)
Center Rd out:	18.0 MG	
Donaldson:	MG	

The Henderson Road pumping station has been in service since 2006. The new pumping station pumps between 3 and 6 MGD into Genesee County's North Loop and reduces the demand off the Center Road pump station.

The Center Road South (CRS) pump station has been in service since 2007. The CRS station pumps water to the eastern portion of Grand Blanc Township and to the Vassar Road station.

The WWSD modified their monthly operation report in 2008 to include average day and max day pumpage from each of the major pumping stations as a result of their SCADA system improvements. Pumpage date from each pump station since 2008 is displayed as follows:

2008

	Avg Day	Max Day
Total Flow:	13.4 MGD	MGD
Henderson Rd:	5.19 MGD	7.07 MGD
Center Rd North:	6.83 MGD	10.54 MGD
Center Rd South:	0.74 MGD	10.07 MGD
Noble Street:	0.28 MGD	1.07 MGD
Houran Street	0.00 MGD	0.00 MGD *
Donaldson Rd	0.00 MGD	0.00 MGD

2009

	Avg Day	Max Day
Total Flow:	12.6 MGD	MGD
Henderson Rd:	3.44 MGD	6.91 MGD
Center Rd North:	4.66 MGD	7.00 MGD
Center Rd South:	1.77 MGD	5.38 MGD
Noble Street:	0.29 MGD	0.79 MGD
Houran Street	0.00 MGD	0.00 MGD *
Donaldson Rd	0.00 MGD	0.00 MGD

2010

	Avg Day	Max Day
Total Flow:	12.6 MGD	MGD
Henderson Rd:	3.14 MGD	7.37 MGD
Center Rd North:	3.83 MGD	6.19 MGD
Center Rd South:	2.46 MGD	5.83 MGD
Noble Street:	0.38 MGD	1.13 MGD
Houran Street	0.00 MGD	0.00 MGD *
Donaldson Rd	0.00 MGD	0.00 MGD

* The Houran Street station pumps water; however, the station is not metered thus no flow was shown in the pumpage data. Flow through this station is estimated by accounting pump run time with the approximate capacity each pump(s) that is(are) operated.

Pumpage obtained from the SCADA system and reported in the monthly reports is slightly less than the purchased water reported in the annual pumpage report. This is attributed to a portion of the county's customer base being provided water upstream of the Center Road pumping station (direct connections to the 30-inch transmission main).

Comments:

The Clio Plaza tank is not monitored on the county's SCADA system, instead its status is noted on a chart recorder and the chart is changed on a weekly basis. Repairs to the tank's roof were completed in 2010 and the tank remains in service. Genesee County has determined that they own the Clio Plaza tank.

The Orgould Avenue tank and the ground storage tank at Pierson and Elms Road remain out of service.

The CRN ground storage tank was inspected in 2007 by Dixon and the tank was found to be in good condition. Some minor access hatch repair was recommended.

An adequate air-gap has been provided on the CRS ground storage tank between the terminus of the tank overflow and top of the catch basin drain's impoundment.

The 2-Mgal hydro-pillar at Houran Street houses repair equipment and a portable stand-by power generator at its base. The water level in the tank is controlled by an altitude valve located at its base. This tank will be due for a routine inspection within the next few years.

The altitude valves at each of the Henderson Road ground storage tanks were replaced with pressure/flow control valves. The new valves along with the SCADA system upgrades monitor and control flow to each tank.

The Clio Road and Noble Street tanks were recently inspected. Both tanks were in good structural condition. The Clio Road tank's exterior and dry interior; however, needs to be repainted.

Distribution

Pumping Station **Center Road North (CRN) Booster Pump Station**

Location: Center Road and Maple Avenue

Function: Boosts pressures to SW portion of the service area

Last Efficiency Test	?	?	?	?

Comments:

The CRN station's main purpose is to pump water to west Grand Blanc Twp and to locations further west in Genesee County (930 Ft press. district). A new pump station (Center Road South - CRS) was recently constructed and WWSD staff continues to determine the most efficient mode of operation between both Center Road pumping stations. Pumpage from each station changes from summer to winter.

The permit capacity of each pump at CRN was 6.7 MGD, however, these pumps are capable of pumping approximately 8.5 - 9.0 MGD. Pumps #1 and #2 are controlled by a variable frequency drive (VFD). Pumps #3 and #4 are constant speed pumps.

Pump #1 or pump #2 operate constantly and are controlled by the water level in the Saginaw Street elevated tank in Grand Blanc Township. WWSD's SCADA system can switch the control point for the CRN station to the elevated tank at Beecher Road. Pumps #3 and #4 serve as back-up pumps for the CRN station.

Pumpage from CRN has decreased with the commissioning of the Henderson Road and the Center Road South (CRS) pump stations.

2002-2005:

Work was completed on upgrading the switch gear for Pumps #3 and #4. An automatic transfer switch was also installed and has improved the reliability of secondary power source at this location. The gas chlorine feed system was replaced with a Accu-Tab Series 30000 tablet feeder by PPG. The system's maximum delivery is 1 PPM chlorine at 21 MGD. The minimum delivery is 0.5 PPM at 15 MGD. The chlorine feed system was provided for emergency use only.

2005-2011:

New VFDs were installed on pumps #1 and #2 in 2006. Also, Pump #1 was re-built in 2007 and included replacement of the pump bearings, volute, motor bindings, etc.

Auxiliary Power

Aux. Power Capacity ? mgd

Max Day Demand This Location 10.5* mgd

Avg Day Demand This Location 5.1* mgd

Firm Pump Capacity/Max Day >100 *%

Aux Power Capacity/Avg Day *

Comments:

* Water demands on CRN has decreased further with increasing use of the CRS station. The Henderson Road pump station and North Loop also continues to provide water to the western portion of the county with an average pumping rate between 3 and 6 MGD.

Water pumpage data specific to each pump station is available since early 2008 with the recent SCADA system upgrades. Pumpage has varied from station to station during this time as the role of operation between each station is adjusted in order to increase the efficiency of operation.

Pumping Station Noble Street Booster Pump Station

Location: South end of Noble Street, Flint Township

Function: Allows for full use of the 4.0 MGAL Standpipe

Pump number	1	2
Year installed	2001	2001
+Type	Hor Centr	Hor Centr
Permit Capacity	1.0 MGD	1.0 MGD

+Basis	est.	est.
Current TDH		
HP	40	40
Last Complete Inspection	2011*	2011*
Last Efficiency Test	2001	2001

Comments:

The Noble Street pumping station was constructed in 2001 and allows for full use of the adjacent 4.0 MGAL standpipe. The pump station increases the hydraulic grade line to the Beecher Road tank and reduces the peak demands. A flow-control valve is used to control the flow into and from the standpipe.

The pumps and appurtenances are greased and maintained several times per year. The pumps and appurtenances appear to be in good condition and overall housekeeping is acceptable.

* The Noble Street standpipe was inspected by Dixon in 2011 and components of the pump station (piping, pump/motor) were visually inspected and found to be in good condition.

Total Pump Capacity 2.16 mgd

Firm Pump Capacity 1.08 mgd

Aux. Power Capacity NA mgd

Max Day Demand This Location 1.13 mgd (2010)

Avg Day Demand This Location 0.32 mgd

Firm Pump Capacity/Max Day 96%

Aux Power Capacity/Avg Day NA

Comments:

The SCADA system continues to provide average and max day pumpage data from this pump station. Some of the existing SCADA components are being replaced with newer equipment.

Pumping Station Houran Street Pumping Station

Location: Houran Street near Beecher Road

Function: This station operates as a peaking facility during high demand periods.

Last Efficiency Test	?	?	?	?	?

Comments:

The Houran Street station's main mode of operation is to pump from the existing ground storage storage tanks to the new 2-Mgal elevated tank. The elevated tank basically "floats" on the system. This mode of operation utilizes Pumps 3-5 and is controlled manually from the SCADA system. The station can also pump water directly to the distribution system through Pumps 1-2. Water can also be obtained through the Donaldson Road pit from the city of Flint; however, this connection is not routinely used. The station can also provide the city of Flint an emergency supply of water through the Donaldson Road connection.

During low demand periods, water re-fills the ground storage reservoirs immediately upstream of the station through a 12-inch main from the county. The station, including the ground storage reservoirs, are typically taken out of service during the winter months.

Overall housekeeping at this facility remains acceptable. All five pumps are maintained including routine greasing of the pump and motor bearings. Security cameras have been provided at the pump station.

Auxiliary Power None

Total Pump Capacity 13.0 mgd

Firm Pump Capacity 10.0 mgd

Comments:

The Henderson Road pumping station was constructed in 2004 and has been in operation since April 2006. The station's average day pumpage has ranged between 3 and 6 MGD. Pumps #1 and #2 are equipped with a VFD.

The station has operated on only one pump to maintain system demand. It has not been necessary to operate the larger pump.

Auxiliary Power

+Power Type	1000 kW minimum rating engine generator
+Fuel Type	#2 Diesel
Capacity	Sized for 24 HR operation of engine under full load
Starting Frequency	weekly, auto switch-over upon power loss
Load Testing Frequency	1/yr

The auxiliary power generator ran under load for several hours in 2010 during an interruption in electrical power.

Total Pump Capacity 30.0 mgd

Firm Pump Capacity 16.0 mgd

Aux. Power Capacity ? mgd

Max Day Demand This Location 7.40 mgd (2010)

Avg Day Demand This Location 3.9 mgd

Firm Pump Capacity/Max Day >100%

Aux Power Capacity/Avg Day >100%

Comments:

The Henderson Road pumping station is equipped with gas chlorination for emergency use only. The feed system consists of two-150 pound cylinders on a direct read scale, two Wallace and Tierman vacuum operated solution feed pumps with a maximum capacity of 500 pounds per day, and a vacuum regulator with automatic switch-over. Additional application points are provided at the reservoir inlets. A Wallace & Tierman two point chlorine gas leak detector and gas sensor with a sensitivity to 1.0 part per billion is provided.

An automatic chlorine residual analyzer monitors chlorine residual on the discharge side of the pump station at all times.

WWSD staff should consider operating the emergency chlorination system several times per year to verify that the equipment operates properly and that WWSD staff maintain familiarity with the operating procedure.

Pumping Station Vassar Road Booster Pump Station

Comments:

The Vassar Road pumping station was constructed in 2002. This station pumps water from the Vassar Road ground storage tank located adjacent to the pump station to the Baldwin Road elevated tank (1,125 Ft press district). The station has improved flows and pressure to the SE portion of Grand Blanc Township. The water level in the tank is controlled by an altitude valve and flow from the station is controlled by a flow control valve and an upstream pressure sustaining valve. A third pump was added to the station in 2005. All three pumps are VFD controlled. Security cameras were recently installed.

Total Pump Capacity 3.5 mgd

Firm Pump Capacity 2.1 mgd

Aux. Power Capacity NA mgd

Max Day Demand This Location NA mgd

Avg Day Demand This Location NA mgd

Firm Pump Capacity/Max Day NA

Aux Power Capacity/Avg Day NA

Comments: A portable stand-by power generator is provided and consists of a 206 KVA trailer mounted generator that utilizes diesel fuel. The generator has automatic switch-over and lightning surge protection. The generator starts automatically on a weekly basis under no load.

Pumping Station **Center Road South (CRS) Booster Pump Station**

Location: Center Road and Maple Avenue

Function: Boosts pressures to east portion of Grand Blanc Twp

Pump number	1	2	3
Year installed	2006	2006	2006
+Type	Hor Centr	Hor Centr	Hor Centr

Last Efficiency Test	2006	2006	2006

Comments:

The current capacity of each pump is approximately 6.0 MGD. The combined capacity of the station with 2 pumps operating is approximately 11 MGD. All three pumps are VFD controlled.

The CRS station pumps water from the adjacent 6.3 MGAL ground storage tank and distributes it the eastern portion of Grand Blanc Township - Saginaw tank (970 Ft press. district). The ground storage tank is equipped with an altitude valve to control the tank level. A flow control valve is also provided in order to control the upstream pressure in the 30-inch transmission main along Center Road. System status is monitored and controlled at the WWSD administrative office via WWSD's SCADA system.

The station is fenced and security cameras are provided.

Auxiliary Power

+Power Type	1040 KW on-site generator
+Fuel Type	Diesel
Capacity	Operates 2 pumps
Starting Frequency	1/week under load
Load Testing Frequency	weekly

Total Pump Capacity 17.0 mgd

Firm Pump Capacity 11.0 mgd

This pumping station remains out of service and there are no plans to bring this facility back into operation. Both pumps are electrically locked out and the dead piping between the station and the active part of the distribution system was cut and plugged.

Pumping Station **Van Slyke Booster Pumping Station**

Location: Van Slyke Road north of Bristol Road

Function: None

Pump number	1	2
Year installed	1984	1984
+Type	Hor Centr	Hor Centr
Permit Capacity		
Permit TDH		
Current Capacity	600 gpm	600 gpm
+Basis	est.	est.
Current TDH	92 ft	92 ft
HP	30	30
Last Complete Insp.	Not Rec.	Not Rec.
Last Efficiency Test	Not Rec	Not Rec.

Comments:

This pumping station remains out of service and there are no plans to bring this facility back into operation. The pumps have been electrically locked out. System pressures can be monitored from this location.

Pumping Station **City of Flushing Pumping Station**

Location: NE int. of Pierson & Elms Rds.

Function: PRV and metering station for city of Flushing

Pump number	1	2
Year installed	?	?
+Type	Hor Centr	Hor Centr
Permit Capacity		
Permit TDH		
Current Capacity	700 gpm	1050 gpm
+Basis	est.	est.
Current TDH	? ft	? ft
HP	40	50
Last Complete Insp.	Not rec.	Not rec.
Last Efficiency Test	Not rec.	Not rec.

Comments:

This pumping station originally took suction from the adjacent 0.5 Mgal reservoir and was designed to fill the city of Flushing's elevated tank. The facility was modified when Center Road went on line and now acts as a pressure reducing station. One of three original pumps was removed and replaced with a pressure reducing valve that serves the city of Flushing. The existing pumps are electrically locked out. Power is supplied to the building for lighting and heat.

Interconnections with Other Supplies

Is water purchased from other supplies? Yes

If yes, list WSSN number/s: #2310 _____

Location	Main Size	Est. Cap.	Metered?
Henderson Rd.**	36-inch	30.0 MGD	Yes
S. Genesee Pit**	30-inch	16.5 MGD	Yes
Oak & Potter**	12-inch	8.15 MGD	10-inch
Irish & Potter**	20-inch	4.46 MGD	6-inch
Belsay & Potter**	12-inch	4.46 MGD	6-inch
M-15 & Potter**	12-inch	8.15 MGD	10-inch
N. Genesee Pit **	12-inch	Not used	10-inch
Francis Rd.	12-inch		2-way
Donaldson St*	12-inch	*	Yes
Pierson & Clio	Not used	Not used	Na
Carpenter Rd	Not used	Not used	Na

Comments:

* Capacity varies on pressure available from Flint and whether the pit is open.

** Direct connection to the Flint 72-inch main upstream of the city of Flint.

The connections upstream of the City of Flint are directly off Flint's 72-inch supply line. Genesee County pays Flint $125,000 plus the current Detroit rate each month to purchase water. The estimated capacity of each connection is based on a Detroit line pressure of 90 psi at the south Genesee pit and 55 psi at the Henderson Road pit.

Water can also be served to the county through Flint's distribution system from Donaldson Street through the Houran St. Pumping Station. Genesee County no longer uses this connection for routine service. This connection could be used in a water system emergency.

Total Flow into the Genesee County water system = Henderson Rd
+ S. Genesee Pit
+ Irish & Potter
+ Belsay & Potter
+ M-15 & Potter
+ Oak & Potter

The majority of flow into Genesee County is through the Henderson Rd pit and the South Genesee pit. Four other metered connections off the 72-inch transmission main along Potter Road provide water service to portions of Davison Township, the City of Burton, and Richfield Township.

Flow through the Francis Road pit is sold to Genesee Township and is not a direct connection off the 72-inch transmission main (constitutes a portion of the Henderson Rd flow).

Are there areas where fire flows cannot be maintained? See comment

Comment: Less than 1000 gpm fire flow was noted in an existing subdivision in Mundy Twp in vicinity of Linden and Hill Road (Church of God extension). The problem was identified as a partially closed valve at the subdivision entrance.

Which, if any, of the above listed areas has the supply prioritized for main replacement, upgrading or looping? Also, if a definite schedule for capital improvement has been established, list the proposed completion date.

Location	Est. Completion Date
Bristol Rd. - completed	Completed
Linden Rd. - coor. with local twp.	Not completed
Pierson Rd. - coor. with local twp.	Not completed
Elms & Lennon looping project	Completed
Lennon & Dye Rd	Completed

General Distribution System Comments:

Consoer Townsend Evirodyne Engineers (CTE) completed the North Loop - Phase III study in 2000 along with a water system master plan. Since 2000, the North Loop transmission main project was completed along with completion of the Henderson Road, CRS pumping station, and the Southeast Loop.

The study was updated in 2005 and the updated report is noted as "**Appendix C Update of Final Report North Loop - Phase III Study**". Given the number of projects that were completed since 2000, the update was performed to reflect current water system conditions and to identify additional future needs. The 2005 update evaluated alternatives to supply Grand Blanc Township via the new CRS pumping station. The CRN pumping station would be dedicated to supply the service areas further west into the county. The update also identified other major projects including: the Southeast loop, Thompson Road corridor, and the Coldwater Road transmission main.

The hydraulic model used in the 2005 study was updated in 2011 to revise pressure district boundaries as needed The model also evaluated the need for further pressure reducing valves and additional water system improvements. An updated water system Master Plan was prepared; however, a discussion (conclusions/recommendations) based on the updated model has not been provided. A new water system study and master plan is expected to be performed in 2015.

Several of the existing meter pits between Genesee County and the City of Flint including Orgould Ave, Clio Rd, and VanSlyke Rd, have been decommissioned. The meter pits along with the pumping, storage facilities have been electrically locked out, and the majority of dead piping eliminated at the facilities. These facilities should be razed if there are no long term plans to re-utilize them.

The county continues to charge its retail customers $35.00 per hydrant to maintain the appurtenance and to conduct routine flushing. Flint Township and Flushing Township continue to flush and winterize hydrants in order to avoid the $35.00 charge per hydrant. These activities are conducted by the local fire department within each township. The WWSD continues to review hydrant operation each year with each fire department. Finally, the WWSD staff complete any hydrant repairs.

Distribution Appurtenances

Hydrants

Number of hydrants 3,875
Number without auxiliary shut-off valves *
Number that are self-draining *
Number of inoperable hydrants *

* An exact number of inoperable hydrants cannot be ascertained since this number changes on a weekly basis. WWSD staff repair broken hydrants upon discovery (typ 1-2 per week). WWSD staff obtains authorization from the two townships that maintain their own hydrants prior to completing any repairs. Hydrant inspections are completed each fall and work orders are prepared and completed on any inoperable hydrants that are discovered.

Frequency of hydrant inspection: 1/yr (fall)

Inspection staff: WWSD operators

Are there areas where additional hydrants are needed? No

Hydrant location system? Yes Accurate? Yes

Are hydrants color-coded for capacity? Yes, by main size

Has this information been provided to the fire department? Yes

Frequency and seasons of hydrant flushing? 1/yr Fall

Purpose of flushing? aesthetics, hydrant operation

Is the public notified prior to flushing? No

Does flushing follow a specific format? Completed by township

Is the volume of water used during flushing estimated? Starting, est of 150cu.ft/hyd

Is a record maintained of hydrant activities? Yes

Comments:

The WWSD maintains a list of hydrant information. The list provides information for each hydrant including: location, color coding, winterizing, work order information, etc. Hydrant records are also maintained in a work-order database by attaching completed work orders as a layer in WWSD's GIS records. Also, all auxiliary shut-off valves are depicted by exact location and stored in a 3-ring binder.

The number of hydrants and valves noted in the 2011 WSR is less than the number depicted in the 2008 WSR. WWSD staff confirmed that the 2008 count was incorrect since it included some of the hydrants and valves from the wholesale customers.

Valves (excluding hydrant shut-offs)

Number of valves 3,903
Number of inoperable valves repaired or replaced as soon as possible

Are there areas where additional valves are needed? Yes

- Irish Rd north of Davison

Valve location system? Yes, valve log Accurate? Yes

Valve Turning Frequencies: See comments

Records maintained? Yes

Comments:

The WWSD has made some progress towards initiating a valve turning program. Valves along the South Loop transmission line (31 valves) have been exercised. Valve exercising is also performed on valves located at or near water system projects. Valve exercising is also prioritized in areas experiencing more frequent watermain breaks.

A valve log book is also in place that contains valve records. Valve locations are depicted by witness points and are entered into the work-order database. All valve records are also entered into GIS.

Customer and Service Information

Number of service connections 20,739 retail accounts
44,943 total accounts (retail & wholesale)

Number of metered service connections same

Identify service line materials and estimate percentages:

Copper	100%
PVC	None
Gal	None
Lead	None

Meter Change-Out Status:

Approximately 95% of the existing compound meters were replaced with new turbine meters at all industrial and mobile home park accounts. A testing program remains in place for these new meters. The testing program is contracted out to a third party (Jim Taylor of Rio-MI Meter).

A small residential area is metered by older Neptune meters that will need to be changed out. The WWSD does not have a change-out program in place for residential accounts. Residential meters are replaced on an "as needed" basis.

WWSD has instituted a pilot radio read program and has upgraded to radio read technology for large customers. The WWSD continues to encourage its retail customers to upgrade to radio read technology for commercial and residential accounts; however this is has not proceeded. The WWSD continues to promote this upgrade with the individual townships since the county wishes to switch from quarterly to monthly billing.

Pumpage Distribution

% Residential	75%
% Industrial & Commercial	25%

System Growth - Number of customers

	Wholesale	Retail	Total
1998 -	18,584	13,270	31,584
2003 -	21,609	17,265	38,874
2005 -	23,263	18,881	42,144
2006 -	24,889	20,092	44,981
2007 -	24,726	20,621	45,347
2008 -	TBD	TBD	TBD
2009 -	TBD	TBD	TBD
2010 -	TBD	TBD	TBD

PROGRAMS AND PLANS

Cross Connection Program

Ordinance No. 73-1 Date 03/01/73

Approved Program? Yes Date 07/19/73

Staff assigned to program Hydro-Design, Inc (HDI)

Is Annual Cross Connection Report required? Yes

Was previous year's annual report received? Yes Date 2/18/11

Was previous year's annual report acceptable? Yes

Inspection Status: Satisfactory

Device Testing Frequency: Adequate

Record Keeping: Inspection forms are in place for each account

Comments:

HDI continues to perform the routine inspections for Genesee County and has maintained adequate implementation of their cross connection control program (CCCP). HDI identified 3400 low hazard accounts in 2010 and determined that approximately 680 of these accounts need to be reinspected on an annual basis. 80 high hazard inspections were required in 2010 and 92 inspections were completed. HDI met all re-inspection requirements during the 2008-2010 time period.

Device testing is also being verified as required (approx. 1200 testable devices). Dave Cardinal is the operator from HDI who is responsible for implementing Genesee County's CCCP. Genesee County continues to contract with HDI for CCCP implementation.

Annual Pumpage Reports

Is Annual Pumpage Report required? Yes

Was previous year's annual report received? Yes Date 4/01/2011

Comments:

The annual pumpage report is based on the county's total water purchased from the city of Flint. This amount is slightly higher than the total pumpage obtained from SCADA (compiled in the MOR)since a portion of the county's service area is upstream of the Center Road pump station and this usage is not metered through any of the pumping stations.

Monthly Operation Reports

Are Monthly Operation Reports required? Yes

Genesee County's monthly operation report (MOR) format was revised in 2008 to include pumpage data from each of the main pumping stations and storage facilities. Bacteriological sample results and chlorine residuals are also included in the report.

Pumpage data from the Vassar Road and Fenton Road pump stations are not included in the MOR. Pumpage data from each of these stations would further help in determining the distribution of water demand in the southeast portion of Genesee County's service area.

Contingency Plan Emergency Response Plan (ERP)

Date of most recent plan 2008 Acceptable? ERP needed

Filed where? GCDC *

Comments:

Genesee County's water system contingency plan was updated in 2008.

* Genesee County's most recent water system contingency plan (2008 update) is available only at the WWSD's administrative office due to security purposes. The 2008 plan contains all of essential elements required in a water system contingency plan and meets our requirements for use in the event of typical water related emergencies including; large main breaks, pump station failures, loss of water service (limited areas), power outages, contamination, etc. The 2008 plan; however, needs to be updated into an Emergency Response Plan.

The WWSD; however, has yet to fully address the issue of reliability in the event of a significant failure of the 72-inch transmission main. Genesee County continues to pursue their goal of achieving long term reliability through establishment of the Karegnondi Water Authority (Lapeer County, city of Flint). The authority continues to work with Lapeer and Genesee County communities towards committing to the construction a new water treatment plant with raw water piping from Lake Huron.

Completion of the Karegnondi project (3-5 years out) is an acceptable long-term solution for reliability; however, Genesee County has not fully resolved their short-term solution for source reliability. Two short-term options include utilizing Flint's stand-by WTP for emergency stand-by service or establishing a system of back-up wells.

Our most recent discussion indicates that Genesee County working with the city of Flint towards utilizing Flint's stand-by WTP for short-term reliability. The county has proposed an amendment to their water service contract with Flint to purchase 5.4 MGD of water from the Flint WTP during an emergency. Details concerning the conveyance of the emergency supply of water from Flint to the county's transmission system are not identified in the proposed contract amendment.

General Plan

Date of most recent plan 2007 Acceptable? Yes

Filed where? MDEQ & GCDC

Comments:
A copy of Genesee County's transmission main plan (2007 update) has been provided to the MDEQ. The transmission main plan shows the size and location of all 12-inch transmission mains and larger, pumping stations, storage facilities, meter pits, and pressure districts. Genesee County also maintains updated distribution system records in GIS. Smaller areas of the distribution system including hydrants, valves, and watermains can be printed from GIS for daily use as needed.

Reliability Study

Date of most recent study 2011 Acceptable? See comment

Filed where? MDEQ & GCDC

Comments:

Genesee County utilized CTE to prepare the North Loop-Phase III study and to make subsequent updates. The original study conducted in 2000 was updated in 2005 and was noted as the addendum or "Appendix C of the North Loop-Phase III Study". The addendum constitutes an acceptable update to Genesee County's water system reliability study.

The hydraulic model used in the 2005 study was updated in 2011 to revise pressure district boundaries as needed The model also evaluated the need for further pressure reducing valves and transmission system improvements. An updated Master Plan (map), based upon the revised model, was provided to us. A discussion (conclusion/recommendations) needs to be provided with the updated Master Plan. A new water system study and master plan is expected to be conducted in 2015.

Bacteriological Sample Site Plan

Date of approved plan 2/15/2008

Are samples still being collected in accordance with the plan? Yes

Comments:

The WWSD completed the most recent revision to the sample site plan in February 2008. WWSD's retail service area population remains above 70,500 thus, a minimum of 80 samples need to be collected from the distribution system on a monthly basis. WWSD's most recent sample site plan reflects the updated minimum monitoring requirement.

Lead & Copper Program

The WWSD continues to implement their lead and copper program adequately. Both action levels were met in all of the applicable rounds of lead and copper monitoring with the most recent round of monitoring being completed during the summer of 2011. The next round of samples will need to be collected during 2014 and will include 14 samples for lead and copper. Water quality parameter monitoring also needs to continue every six months.

Conclusions and Recommendations

In general, our survey covers the major aspects of a water supply including: stand-by facilities, distribution, source capacity, and storage. Each of the above categories is evaluated on the basis of adequacy, maintenance, reliability, and operation. The evaluation also includes a check on the status of operator certification and the cross connection control program. Finally, water quality and the utility's monitoring programs are reviewed.

Our evaluation reveals that the Genesee County Water System continues to maintain an overall **"SATISFACTORY"** rating. Genesee County continues to maintain a proactive operation and maintenance program as well as continuing with capital improvements. Progress; however, remains slow in establishing adequate source reliability. The county's water system remains **"MARGINAL"** in regard to source reliability and continues to be vulnerable to an interruption in supply. Additional comments are included in the Contingency Plan/Source Reliability section.

As noted above, since the 2008 survey further water system improvements have been completed and/or are proceeding and include:

- Installed the Fenton Road transmission main
- Replaced deteriorated piping along Florine Avenue.
- Completed water system SCADA improvements.

These issues along with other topics including existing facilities, reliability, operation, and maintenance are discussed below in more detail:

Water System Viability

The Genesee County Drain Commissioner, Division of Waste and Water Services (WWS) currently serve a population of nearly 153,000 through a countywide network of transmission and distribution mains. Additional booster pumping stations and storage facilities have been provided to enhance service. The WWS currently utilizes 23 full-time certified employees for water utility operations. The operator in charge (OIC), Tim Davidek, holds an S-1 license and plays an active role in distribution system operation and maintenance, thus, WWS complies with the operator certification requirement. Also, as part of compliance with the operator certification requirement, Richard Bysko, remains the designated back-up operator.

WWS continues to promote operator certification. Many of the operators have obtained either their S-3 or S-4 licenses and some are pursuing an S-2 license. WWS continues to

require new employees to obtain distribution certification to be eligible for further advancement. WWS continues to maintain the safety and training officer position to assist and promote an adequate level of operator certification. Certified operators help to protect the County's investment in the water system and to meet the requirements of the Safe Drinking Water Act and we encourage the County to continue to promote operator certification.

Cross Connection Control

Hydro-Design, Inc. (HDI) continues to implement WWS's Cross Connection Control Program (CCCP). Approximately 3500 accounts remain eligible for a routine inspection and this number has held steady since 2008.

Previous site visits with HDI and WWS staff continue to show that adequate cross connection control records are in place and device testing is being verified. Also, our review and discussion of WWS's most recent cross connection reports confirms adequate implementation of the program.

Finally, WWS continues to maintain a contract for service with HDI. We continue to support WWS's commitment towards maintaining an adequate CCCP.

System Storage

WWS currently has 13 storage facilities available providing approximately 46 million gallons of storage.

The existing Center Road North (CRN) 5 MGAL ground storage tank was inspected by Dixon Engineers, Inc. in 2007 and the tank was found to be in good condition. Minor repairs to the access hatch repair were recommended.

Next, our inspection of the Center Road South (CRS) ground level storage tank revealed that the cross connection between the tank overflow and the sewer catch basin has been corrected. The elevation of the tank overflow opening was increased above the catch basin's containment wall such that an adequate air-gap was achieved.

Next, the Clio Road elevated tank and the Noble Street standpipe were recently inspected. Based upon the inspection reports, the Noble Street tank is in good condition. The Clio Road tank was in good structural condition; however, the tank's exterior and dry interior need to be repainted. We recommend that WWS proceed with this work

Finally, the 2-Mgal hyro-pillar at Houran Street will be due for a routine inspection within the next several years.

Pumping Stations

WWS has ten booster pumping stations available for use. Six of these stations (CRN, CRS, Henderson Road, Houran Street, Vassar Road, and Noble Street) are operated on a routine basis. The remaining stations, Orgould, Clio, Van Slyke, and City of Flushing are either out of service or function as a pressure reducing/monitoring station.

The Henderson Road pump station has been in operation since 2006 and the station pumps between 3 and 6 MGD of water from the 72-inch transmission main through the County's new North Loop. The station has effectively reduced the demand on the Center Road pump station and the amount of water that needs to be pumped through the County's south system.

Next, the CRS pump station has been in operation since 2007 and was designed to provide additional capacity and pressure to the eastern portion of Grand Blanc Township. The CRN station continues to provide adequate flows and pressure to the western portion of Grand Blanc Township and to locations further west in Genesee County. The most recent monthly operation reports show that the CRS station's use has been increasing (currently pumping between 2.0 and 3.0 MGD).

WWS continues to refine the mode of operation between the CRN and CRS stations to determining the most efficient operation. It would also be worthwhile to record water pumped through the Vassar Road and Fenton Road (Grand Blanc Township) since these stations and their associated storage facilities also play a role in the level of service to southern Genesee County. This information can be added to the monthly operation report.

Next, based upon our inspection, preventative maintenance activities and overall housekeeping is adequate at all of the pump stations. Based upon our discussion, additional improvements are currently underway with the SCADA system at each of the pumping stations.

Finally, WWS staff should consider operating the emergency chlorination equipment (gas chlorination at Henderson Road and erosion feeder at CRN) several times per year to verify that the equipment operates properly. This practice will also allow WWS staff to maintain familiarity with the chemical feed equipment and its operating procedure.

Transmission/Distribution

Genesee County's water system consists of an extensive county-wide network of transmission and distribution system piping. The majority of this piping is relatively new and is in good condition. Since the 2008 survey, the Fenton Road transmission main was installed and a section of deteriorated piping along Florine Avenue was replaced. There are other areas of existing cast-iron mains which have not been replaced and have had a history of more frequent main breaks. Specific areas are listed below:

1. Dalton Subdivision
2. Portions of Pierson and Linden Roads

It is our understanding that replacement of the watermains in Dalton Subdivision will be completed as part of a future Drinking Water Revolving Loan Fund project. Although the remaining areas do not represent a significant percentage of the system, plans should be made to replace these mains as part of the County's master plan or a capital improvements program.

Next, Genesee County's hydraulic model (from the North Loop Study) was updated in 2011. An updated water system Master Plan, based upon the updated model, was prepared and an electronic copy of the plan was provided to us. A general discussion (conclusions & recommendations); however, was not provided with the master plan. An overall discussion that supports the updated master plan needs to be prepared and a copy sent to our office for review.

Finally, it is our understanding that WWS intends to prepare a new water system study and master plan in 2015. We concur with the timing of this objective since the county's water system reliability study will need to be updated at that time. Finally, we encourage the county to works towards completing the projects that are listed in the master plan.

Operation/Maintenance (O&M)

WWS continues to maintain an active O&M program. The status of specific O&M programs are discussed in more detail below:

Hydrants/Flushing

WWS maintains approximately 3,900 hydrants. This is a decrease in the total number depicted in the 2008 survey (4,700 hydrants). The revised number of hydrants is based on records obtained from WWS's hydrant recordkeeping system (GPS records). The previous quantity was based upon an estimated number of hydrants and it also included some of the wholesale customer's hydrants.

A total number of inoperable hydrants could not be ascertained; however, hydrants are inspected each fall and any inoperable hydrants are repaired or replaced. Hydrant records including; location, color codes, and operational and maintenance history appear to be adequate and these records are maintained in a work-order database.

Next, retail customers continue to pay WWS a $35.00 charge per hydrant on an annual basis for routine maintenance and flushing. Flint and Flushing Townships however, continue to operate and maintain hydrants within their jurisdiction in order to reduce their O&M costs to the County. The township's O&M responsibilities include flushing and

winterizing hydrants and these activities are performed by the local fire departments. WWS continues to provide annual training for fire department staff on hydrant operation and maintenance. WWS needs to continue this type of on-going training as it appears to have improved hydrant operation and maintenance within these townships.

Valves

WWS maintains approximately 3900 valves. This is a decrease in the total number depicted in the 2008 survey (5,074 valves). The revised number of valvess is based on records obtained from WWS's valve recordkeeping system (GPS records). The previous quantity was based upon an estimated number of valves and it also included some of the wholesale customer's valves

WWS continues to maintain adequate valve records and also continues to work towards establishing a valve-turning program. Transmission main valves along the south loop were exercised since 2008. Valves are also being exercised at and near watermain projects and in areas where main breaks occur. WWS needs to continue working at expanding the valve turning program to include operating valves in critical locations at least once every several years. A review of all valves should be performed and a determination made as to which valves are most critical and the percentage of these valves that can be exercised each year.

Program Meter Change-Out

WWS has maintained an active meter change-out program for commercial and industrial accounts. Residential meters are replaced on an "as needed" basis, however, only a small percentage of customers (one subdivision) has older meters in need of replacement. We encourage WWS to maintain an active meter change-out program and to replace remaining meters that have reached the end of their useful service life.

WWS has upgraded to radio read technology for most of its large customers; however, expansion of radio read to commercial and residential customers has not proceeded. We encourage WWS to continue to promote the upgrade to radio read technology among its retail customers.

Monthly Operation Reports (MORs)

WWS continues to report water use through each of its major pumping stations. Chlorine residual monitoring and bacteriological monitoring results are also included in the report. Water usage through the Vassar Road and Fenton Road pumping station should be added to the MOR.

Finally, a discrepancy was noted between water usage depicted in the MOR verses water usage summarized in the annual pumpage report. The total amount of water purchased

reported in the annual pumpage report is slightly higher than the total pumpage obtained from SCADA (reported in the MOR). The discrepancy is due to a portion of the county's service area being upstream of the Center Road pump station. This portion of the county's purchased water is not metered through the SCADA system.

Bacteriological Monitoring

WWS continues to maintain an excellent sampling history as part of their monthly bacteriological monitoring program. Specifically, eleven samples are collected twice a week from eleven routine sampling locations in accordance to the sample site plan that was revised earlier in 2008. This sampling protocol results in 88 to 110 samples being collected each month and was based on collecting a minimum of 80 samples per month.

The minimum number of required distribution system samples will remain at 80 samples per month. The monitoring requirement is based on a retail service area population of approximately 70,500.

Emergency Response Plan/Source Reliability

WWS updated their water system contingency plan in 2008 and, for security purposes, the plan is retained at the administrative office. Our review shows that the plan contains all of the critical elements that we require in a water system contingency plan. Although the county's updated contingency plan meets our requirements for use in the event of a water-related emergency, a recent revision to the Administrative Rules of the Michigan Safe Drinking Water Act now requires an Emergency Response Plan (ERP) in place of the contingency plan. The ERP provides an outline to follow in the event of a water related emergency (loss of pressure, contamination, etc.). The ERP is similar to a water system contingency plan; however, the ERP calls for discussion of various types of water utility operational plans that may be utilized during a water related emergency. An ERP template is enclosed and can be used for preparing Genesee County's ERP. We will review the completed ERP during our next routine surveillance visit.

Next, WWS continues to pursue a long-term solution for reliability in the event of a failure of the 72-inch transmission main through establishment of the Karegnondi Water Authority. The authority continues to work with Genesee and Lapeer county communities towards committing to the construction of a new water treatment plant utilizing Lake Huron as its source.

Completion of the Karegnondi project (3 to 5 years out) will provide Genesee County with adequate source reliability; however, Genesee County has not fully resolved their short-term solution for source reliability. Two short-term options include utilizing the city of Flint's stand-by WTP for emergency stand-by operation or establishing a system of back-up wells.

It is our understanding that Genesee County has a proposed amendment (4th Amendment

to 1973 City/County Water Supply Agreement), pending Flint approval, to purchase 5.4 million gallons per day of stand-by capacity from the Flint WTP under emergency conditions. However, there is no further discussion as to how this emergency supply of water will be conveyed to the Genesee County North Transmission system. It is our understanding that additional pumping provisions will be needed. Please confirm this in writing and provide us with an update concerning the proposal. If a contract for stand-by service is established with the city of Flint, please provide us with a schedule in which the plan for stand-by service can be implemented.

General Plan

Genesee County's water system general plan was updated in 2007. The updated plan shows the location of county's transmission mains (12-inches and larger), pump stations, storage facilites, meter pits, and pressure districts. Smaller areas of the distribution system including hydrants and valves are stored in the county's GIS and are available for use as needed. The transmission system plan along with the electronic records of the distribution piping and appurtenances meet our requirements for having an acceptable water system general plan.

Lead & Copper Program

WWS has conducted its Lead and Copper program since 1992 and has completed the most recent round of monitoring (June 1, 2011 through September 30, 2011). The next set of 14 samples needs to be collected between June 1, 2014 and September 30, 2014.

The total number of lead and copper monitoring samples (based on triennial monitoring) remains at 14 samples for each round of monitoring. Water quality parameter monitoring (pH, alkalinity, temperature, and phosphate residual) also remains at two sets of samples from six distribution system sites every six months.

Closing Remarks

The following is a list of items discussed in this report which must be addressed by the County. No priority is implied by the order. Page references are in parentheses.

As always, we are available to meet with you to discuss these concerns and their priority in more detail.

1. Establish adequate stand-by water service for Genesee County. (25,32)

2. Maintain a prioritized valve turning program. (22,31)

3. Change out any remaining outdated meters and investigate the possibility of upgrading

to radio read technology. (22,23,31)

4. Upgrade areas of distribution system that are in poor condition. (19,20,29,30)
5. Conduct a new water system study and master plan by 2015. (20, 30)
6. Schedule the Clio Road tank for repainting. (8, 28)
7. Operate the stand-by chlorination equipment at the Henderson Road and CRN pump stations several times per year. (13, 29)

Background

The City of Flint, Michigan (Flint) is supplied treated water from the Detroit Water and Sewerage Department (DWSD), and Genesee County Drain Commissioner-Water and Wastes Services (GCDC-WWS) purchases treated water from Flint. Flint water is distributed using DWSD line pressure. Water to GCDC-WWS mainly goes to GCDC-WWS's Henderson Road facility and is re-pumped to GCDC customers.

Concerns regarding the reliability and cost of DWSD water have increased. Flint and GCDC-WWS began to look at alternatives for a new water supply, and have chosen to move ahead with the development of a new regional water authority to provide untreated Lake Huron water for both entities and possibly others.

The Karegnondi Water Authority (KWA) consists of Genesee County, Lapeer County, Lapeer City, Sanilac County, and the City of Flint. KWA is a Municipal Water Supply System Incorporated under PA 233 of 1955. KWA was established in October 2010 to provide Genesee County, City of Flint and other municipal entities in the area with a new source of untreated water. The communities established KWA in order to have a more reliable supply of untreated water at rates that will be determined exclusively by the local communities. [1]

KWA will construct a 63 mile long raw water pipeline, the majority being located under or parallel to existing roads or within road right-of-ways. Beginning at Lake Huron, the principle roads along the pipeline are Fisher, Clear Lake, Kings Mill, Norway Lake, Klam, Stanley, Coldwater, Elba and Millville roads. The proposed pipeline size changes over the length of the project starting at Lake Huron as a 66 inch diameter pipe and reducing as it continues west, to a 60-inch, 48-inch and then 36-inch diameter pipe, where it enters Flint's system. [7] A pump station and intake on Lake Huron in Sanilac County and an intermediate pump station in the northwest corner of St. Clair County are also part of the project.

Flint has a contract with DWSD until April 1, 2014, when they will start using their own treatment plant and begin treating Flint River water on a temporary basis. Flint will switch to KWA water once it is available. GCDC-WWS will be required to build a new water treatment plant at an estimated cost of $60,000,000 to provide finished water to Genesee County's customers. The County has acquired 76 acres approximately 14 miles east of the City of Flint in Oregon Township in Lapeer County, which is expected to serve as the site of Genesee County's new water treatment plant. The new water treatment plant is expected to be constructed and fully operational by July 1, 2016, the date on which the KWA System is expected to be fully operational. Until then, GCDC-WWS will continue to obtain its water from Flint until April 1, 2014 and then obtain water directly from DWSD.

The purpose of this financial review is to determine the impact on water rates for Flint and GCDC-WWS customers associated with implementing the KWA project and to maintain their current system. To do this, background information on the system was obtained to determine needed improvements for implementing the KWA project and maintain their current system. Existing technical reports were reviewed and various financial reports analyzed, to enable the impact on rates. Before determining the impact on the rates of the two entities, the charges from KWA to Flint and GCDC-WWS were determined. GCDC-WWS recently completed a review of their water rates and, therefore, data is available to make projections on the actual rate components. Flint has not had a recent rate study, so the analysis examined the current revenue and the amount of change in revenue needed to fund the project plus maintain the current system.

Description of the Systems

Karegnondi Water Authority (KWA)

The Project

Genesee County Drain Commissioner-Water and Wastes Services (GCDC-WWS) is constructing a lake intake on Lake Huron in Sanilac County. The intake will be rent to own to KWA. KWA is constructing the pipeline from Lake Huron to the Flint area and two pump stations, one of which will be located near the intake facility. These facilities collectively constitute the KWA System. The intake facility was financed with the proceeds of the Series 2013 New Money Bonds sold by Genesee County. [1]

KWA contracted with the GCDC-WWS to administer the design and construction of the KWA System. On behalf of KWA, the GCDC-WWS has acquired 40 acres on Lake Huron for the intake and pump station and 40 acres in Lynn Township on the borders of Sanilac, St. Clair, and Lapeer Counties for the second pump station. In anticipation of the construction of the KWA System, the County has obtained a water withdrawal permit of up to 85 million gallons per day (mgd) from Lake Huron. The lake intake is currently under construction and GCDC-WWS supervised the design of the facility and awarded construction bids. The GCDC-WWS hired project managers which have identified the route of the pipe line, identified environmental issues and prepared preliminary permits for the entire 65-mile route, and hired consulting firms to prepare detailed design of the remaining KWA System facilities. [1]

KWA currently has entered into two water purchase contracts, effective October 1, 2013: one with Flint to supply up to 18 mgd and one with the GCDC-WWS to supply 42 mgd. The charges to be paid by Flint and GCDC-WWS in the Water Purchase Contracts are broken down into two distinct portions: an annual fixed or capital fee, and an annual commodity or operations and maintenance fee. [1]

The estimated construction costs for the KWA system are $240,000,000 based on water contracts of 60 mgd. KWA, GCDC-WWS and Flint have entered into a contract, and KWA will issue bonds to finance the remaining facilities for the KWA System, presently estimated to be in an amount not to exceed $300,000,000, in anticipation of payments to be made by Flint and Genesee County. [8] The bond amount includes the construction cost, capitalized interest, and bond reserves.

Flint is working on the update of its water treatment plant and expects to begin to use Flint River water as a temporary source by April 2014 and will start using KWA water for supply by July 1, 2016. Genesee County will begin to purchase water directly from DWSD on April 1, 2014 and will continue with DWSD as a source until July 1, 2016 when they will begin using KWA water.

Schedule

A schedule of key activities and dates is presented below:

October 2010 – KWA established

Summer 2013 – Start construction of water intake

October 1, 2013 – KWA enters into water purchase contracts with Flint and GCDC-WWS

April 1, 2014 – Flint to begin treating Flint River water rather than purchasing water from DWSD

April 1, 2014 – GCDC-WWS will begin purchasing water directly from DWSD

Summer 2014 – Begin construction of the KWA water pipeline and pump stations

July 1, 2016 – KWA system in operation

May 1, 2017 – First debt service payment of KWA bonds

Customers

KWA will initially have two customers, GCDC-WWS and Flint. Water purchased by Flint from DWSD has averaged 12,219,382 ccf per year between 2010 and 2013. However, the usage trend has been slightly downward. Water sold to Genesee County by Flint increased between 2010 and 2012, but was 6.8 percent lower in 2013 than 2012. It is estimated that Genesee County will deliver 12 mgd to its customers, but due to non-revenue water (8 percent) in the distribution system and at the WTP (3 percent), they will initially need 13.45 mgd of water from KWA. Water usage by City customers has been decreasing,

but this trend is expected to end and hold at 6.85 mgd (3,345,000 ccf). Due to non-revenue water loss in the distribution system (32 percent) and at the WTP (3 percent), the City will need 10.4 mgd to supply its customers. Non-revenue water is the difference between water purchased and water billed. Therefore, Genesee County would account for 56.4 percent of the initial need from KWA (13.45 mgd) and Flint would be 43.6 percent (10.39 mgd). Table 1 and Figure 1 in the Work Notes-Bond Rate Study that is in Appendix A-1 provide a more detailed breakdown of the water amounts discussed above.

Expenses

Operation and maintenance expenses for KWA's two pump stations and the transmission main include labor, chemicals, power, administration, residuals handling and other maintenance cost, and are estimated to average $2,412,063 annually for 2016 to 2018. Based on the 23.84 mgd needed, the average cost per million gallons is $277, or $2.07 per mcf. Operation and maintenance costs will be allocated to Genesee County and Flint based on their proportion of the initial raw water required (56.4 percent vs. 43.6 percent). More detail on the estimated operation expenses can be found in Appendix A-1 in Tables 2 and 3 of the Work Notes-Bond Rate Study. These cost projections are somewhat sensitive to the actual volume of water purchased. Power and chemicals are 60 percent of the total and are directly related to volume of water pumped. Maintenance is partially related to volume while the other costs are not related to volume of water. Therefore, these other costs will not change due to typical fluctuations in volume.

Nearly $300 million of bonds will be issued for the KWA project. If the total bond amount is sold together, the first debt service payment from system revenue is expected on May 1, 2017. The annual bond payments, including the GCDC Intake bonds, total approximately $23 million. Based on 60 units, the estimated annual capital cost per unit would be $383,333. A unit is equal to 1 mgd of peak month capacity. A breakdown of the debt service charges between Genesee County and Flint can be found in Table 5 of the Work Notes-Bond Rate Study in Appendix A-1. Additional entities may be contracted to purchase water from KWA in the future which will lower costs, primarily for GCDC-WWS.

Genesee County Drain Commissioner-Water & Waste Services (GCDC-WWS)

Water System

The GCDC-WWS provides water and sewer service to nearly forty communities, totaling over 200,000 individual residents in parts of Genesee, Lapeer, Saginaw, Shiawassee, Oakland and Livingston counties. GCDC-WWS operates over 135 miles of underground pipeline, twenty major water and wastewater pump stations, over eighty minor stations maintained on behalf of local communities, and eleven water storage tanks with over 43,000,000 gallons of storage capacity.[4]

The GCDC-WWS water system includes the Henderson Road facility and Center Road complex which includes 31 mg of storage and over a 50 mgd high service pump station for the majority of the water delivered to GCDC-WWS customers. The distribution (including local municipalities) system includes 1,000 miles of pipeline ranging in size from 6-inch diameter to 48-inch diameter. The system also includes 8 elevated towers for a total volume of 7.5 mg and 4 additional booster pump stations. The system provides services in 17 political entities. GCDC-WWS provides the service as either a master meter customer (water is sold bulk and individual communities provide distribution system) or directly to individual communities. Overall, 11 political entities are serviced with 6 being master metered and 1 individual account. While GCDC-WWS serves the individual accounts including billing, the political entities are responsible for overall payment. The individual entities collect the revenue and reimburse GCDC-WWS for their services.

The County will be required to build a new water treatment plant at an estimated cost of $60,000,000 to provide finished water to Genesee County's customers. The County has acquired 76 acres approximately 14 miles east of the City of Flint in Marathon Township in Lapeer County, which is expected to serve as the site of Genesee County's new water treatment plant. The new water treatment plant is expected to be constructed and fully operational by July 1, 2016, the date on which the KWA System is expected to be fully operational. A pipeline will be needed to convey treated water to the existing Henderson Road facility.

System Deficiencies

System deficiencies have been identified in GCDC's sanitary survey as found in Appendix B-7. Deficiencies are predominately local distribution issues, not the transmission system. The KWA project will address a major issue of supply reliability.

Customers

GCDC-WWS currently purchases water from Flint, which purchases the treated water from DWSD. Genesee County's payment to Flint is a flat rate surcharge, Detroit Readiness to Serve (RTS) based on peak consumption, plus a commodity charge equal to the charge from Detroit to Flint for the water. For 2013, the DWSD commodity charge was $1.301 per metered hundred cubic feet. The charges were set on July 1, 2013, but are anticipated to increase in the future.

The GCDC-WWS purchased 587,285,100 cubic feet of water from Flint in 2013. Purchased water and billed water from 2007 through 2013 can be found in Appendix B-1. The difference in water purchased and water billed is called non-revenue water.

GCDC-WWS's water charges are based on either community master meter readings or the summation of individual water meter readings within each community. Billable metered water volumes by community for 2011 and 2012 for the water supply district are given in Appendix B-2.

It is anticipated that there will be no growth in equivalent meters or usage in the near future.

Revenues and Expenses

GCDC-WWS had $22,997,000 in revenue in 2013 and $20,524,301 in expenses. In general, according to the last water rate study completed for GCDC-WWS, salaries and wages are expected to increase by 3 percent annually over the next few years, but fringe benefits are expected to increase from 2 percent to 8 percent annually. In general, office supplies, dues and memberships, printing and publishing, professional and contractual services, repair and maintenance, and other operational expenses are projected to increase 2 percent annually. Utilities are expected to increase at 9 percent annually.

GCDC-WWS currently pays a commodity charge, a Flint surcharge and a DWSD Readiness-to-Serve (RTS) to Flint for water. Flint gives the revenue collected from the commodity charge and RTS to DWSD, and maintains the surcharge. Starting April 1, 2014, the County will purchase water directly from DWSD until July 1, 2016 when the KWA project will be finished. The cost of water from Detroit (per ccf) between 2009 and 2013 increased an average of 11.4 percent annually. This will be the factor used to estimate the cost of water purchased from DWSD until July 2016.

The GCDC-WWS WTP will commence operation July 1, 2016. Expenses for the water system have to be adjusted because of the KWA project.

The KWA O&M costs were discussed previously, and the County will be responsible for 56.4 percent of them: $630,469 in 2016 (just a half year); $1,365,707 in 2017; and, $1,454,566 in 2018.

GCDC-WWS will have additional O&M expenses due to a new WTP, expected to begin operation July 1, 2016. Additional O&M costs are anticipated to be: $1,249,395 in 2016 (half year); $2,574,943 in 2017; and, $2,651,097 in 2018. Calculations for future O&M costs are in Appendix B-3. Annual debt service on the new WTP is expected to be $5,784,825, beginning in 2017. Capital Reinvestment/Depreciation on the new WTP is anticipated at $1,500,000 per year and this will also start in 2017.

GCDC-WWS is funding the construction of the new water intake for KWA. The annual debt service will be approximately $2,529,000, beginning in 2014. However, GCDC-WWS will receive an amount equal to the 2017 and 2018 debt service payments from a lease back arrangement.

GCDC-WWS will also be responsible for 42 of 60 units, or 70 percent, of the annual debt service payments on the bonds. The total annual debt service payment is $23,000,000. The $16,100,000 annual payment will begin in 2016, but 10 percent of the estimated annual bond payment will be paid annually to KWA prior to 2016. More detail on the expenses and payment can be found in Appendix B-3.

A more detailed breakdown of the revenues and expenses for 2009 through 2012 can be found in Appendix B-4, along with the budget for 2013 and projections for 2014 through 2018.

Rates

Water for the GCDC-WWS water system is measured for each customer based on water meter size plus metered consumption, and customers are charged for service on monthly, bi-monthly, or quarterly billings. Water bills are based on a Readiness to Serve (RTS) charge based on meter size and a commodity charge based on volume usage. In addition, each of the individual communities served their own imposes rates and charges to recover the cost of local water utility services that they provide. As a result, each community on the system has different rates and charges in place which impact individual customers differently. [1]

RTS charges start at $14.59 per month, one equivalent meter which is equal to a 5/8-inch meter. Commodity charges are currently $3.94 per 100 cubic feet, or $5.27 per 1,000 gallons of water consumed. These rates went into effect January 2, 2014. [1]

Where community bulk water readings are available, the readings are used as the basis for charges. The rates charged are based on a calculated equivalent meter size calculated on past peak usage for a community plus the actual water consumption measured at the community master meters. More information on rates can be found in Appendix B-6.

The County charges a County Capital Improvement Fee (CCIF) for new connections to the water system of $1,000 per equivalent residential unit (ERU).

The KWA O&M costs and the O&M costs for the new Genesee County WTP will be allocated to the customer's commodity charge. The Capital Reinvestment/ Depreciation expense will be allocated to volume. The annual expense for the KWA purchase, the lease back for the water intake, and the GCDC-WWS WTP debt will be allocated 100 percent to the commodity charge.

Flint

Water System

The Flint Water Department is responsible for its Water Treatment Plant (WTP), four pump stations, and water testing laboratory, in addition to the dams, reservoirs, and underground infrastructure. The total pumping capacity of Flint is 106.8 mgd with a firm capacity of 62.8 mgd. The WTP was put into service in 1954. A service agreement with DWSD was entered into in the mid-1960s to supply water to the City for a 30-year period. The WTP currently provides treated water from the Flint River as a backup to the water provided by DWSD. The plant has historically operated approximately 20 days per year with average production of 11 mgd, with a capacity of up to 36 mgd. The total source capacity from DWSD is over 70 mgd which includes water going to GCDC-WWS. A significant upgrade ($48 million) to the Flint WTP was completed in 2006 to meet state regulatory requirements. A recent contract agreement with the Karegnondi Water Authority will require additional redundancy and treatment upgrades. In addition, other components of the WTP are in poor condition and in need of maintenance and/or replacement, including various mechanical and electrical equipment; security improvements; building additions and renovations; Heating, Ventilating, and Cooling (HVAC) systems; concrete and asphalt; and roofs.[2]

System Deficiencies

The City of Flint has been studying its system and determining future needs. A survey of some of the evaluation is included in Appendix C-5. The system does have a higher than normal non-revenue water amount. The financial review included $2,500,000 for distribution system maintenance. This will help in addressing the aging system and high non-revenue water amount. The City's WTP is currently undergoing improvements which should address near-term needs. Funding of this project is from projected annual reserves over the next few years.

Customers

In 2013, Flint billed 32,702 customers and total consumption was 9,470,315 hundred cubic feet of water. The City's population was 101,515 in 2013. Water usage by City customers has been decreasing in recent years, but this trend is expected to end and hold at 6.85 mgd (3,345,000 ccf). Due to non-revenue water in the distribution system (32 percent) and at the WTP (3 percent), the City would need 10.4 mgd to supply its customers.

Historical information on the City's customers and water supply system components can be found in Appendix C-2.

DRAFT

Expenses and Revenues

In Fiscal Year (FY) 2013 (July 1, 2012-June 30, 2013), Flint's water system operating revenue totaled $49,903,868. This included $12,957,337 from Genesee County for their commodity, surcharge and DWSD RTS payments, and $23,041 in miscellaneous revenue. Revenue from City customers is estimated at $36,923,490. Revenues the City receives from Genesee County will cease starting April 1, 2014, when Genesee County begins purchasing water directly from DWSD until the KWA and GCDC WTP projects are finished.

Water purchases from DWSD in 2013 totaled $23,308,800, and revenues received from GCDC-WWS paid for a portion of this expense. The cost of water from DWSD between 2009 and 2013 increased an average of 11.4 percent annually. This will be the factor used to estimate water purchases from DWSD until April 1, 2014, when the City will begin operating its WTP full time and treat water from the Flint River.

The City has a high delinquency rate on their water bill payments and this is expected to remain the same. The current rates and revenue reflect the high delinquency rate. It is anticipated that Flint will reduce its non-revenue water by 10 percent annually of the non-revenue water through improvements in the distribution system and enhanced management program.

Salaries, wages and benefits identified in the Flint annual audits are expected to increase 3 percent annually. Utilities are expected to increase 9 percent annually, and other operation and maintenance expenses are expected to increase by 2 percent annually.

Wade Trim completed a report for the City, and estimated additional annual operating expenses of $4,000,000 to operate the WTP full time. It is assumed that the reduction in non-revenue water loss mentioned above will make up for any inflationary increases in the WTP operating costs. Flint will be responsible for 18 of 60 units (30 percent) of the KWA bond payment. The City will begin paying $6,900,000 annually starting in 2017, but started paying 10 percent of the full annual capital payment, or $690,000 in October 2013 and will continue with $690,000 in 2014, 2015, and 2016. Distribution system improvements, identified in the Flint Master Plan, have been estimated at $2,500,000 annually, and will be included in the expenses in 2015. This will help reduce the non-revenue water. The City will be responsible for 43.6 percent of the operation and maintenance costs of the KWA system. This will amount to $1,055,760 in 2017 and $1,124,451 in 2018.

All of the figures and projections can be found in Appendix C-4.

Rates

Current water rates became effective July 1, 2012. Appendix C-4 provides the projections and expenses for the water supply system based on current operating

procedures and anticipated future projects and timing. Appendix C-4 shows there should be an increase in the annual reserve of the water system, at least through 2018, if existing rates are maintained and projected usage and expenses are correct. If revenues and expenses are as anticipated, the City should not have to raise water rates (at least through 2018) relative to their involvement with the KWA project.

Discussion on Affordability

As previously discussed, the current water supplier anticipates a 4 percent to 5 percent annual increase of its water rates to its customers. KWA only projects a 4 percent to 5 percent annual increase in the operation and maintenance portion of its expenses. GCDC-WWS rates will be competitive compared to the current water supplier's charges, and should be more stable in the future as capital costs will remain constant. The City of Flint will be less expensive than the current supplier immediately upon startup, and should see lower increases in the future than what it has been experiencing recently. This should provide revenue to address some of Flint's system deficiencies.

Future Rates

The above review focused on the impact of the KWA project in the next five years. Rates beyond the next five years for each entity are discussed below. For all entities, the customer demand is expecting to remain stable.

KWA has no additional capital forecasted beyond 2018. Therefore, future rates will only need to be adjusted for inflationary increases for the O&M expenses. Any new KWA customers will be required to purchase capacity from an existing customer and/or construct new capacity at no cost to existing customers. The GCDC-WWS has no new capital expenditures forecasted past 2018.

The GCDC-WWS establishes its rate structure on a five-year cycle. Rates set in 2013 were the beginning of a new cycle. With over 63 percent of the rate related to new or existing debt (fixed costs) less than 37 percent of the expenses are subject to inflationary costs. The 2009 feasibility study assumed an average 5 percent rate increase on that portion of the expenses.

The City of Flint will need to address some of the system deficiencies. The analysis done on Flint's rates included additional funds to start addressing the deficiencies. The analysis also projected an annual reserve, which can be used to fund needed improvements. Therefore, future rates with inflationary increases should be sufficient to meet the City's needs.

The above discussion does not include changes in regulatory requirements which could impact rates. No significant changes are anticipated at this time.

APPENDIX B-2

GENESEE COUNTY WATER SUPPLY SALES, 2011 AND 2012

Appendix B-2 Genesee County Water Supply Sales			
Community	2011 (cu. ft.)	2012 (cu. ft.)	Average % Increase Per Year (11-12)
Burton City[1]	60,577,973	62,145,013	2.59%
Clio City[1]	9,063,800	8,916,600	-1.62%
Morris City[1]	11,257,800	11,276,200	0.16%
Swartz Creek City[1]	28,734,200	27,420,810	-4.57%
Montrose City[1]	6,093,500	6,105,500	0.20%
Flushing City[1]	27,988,300	27,741,300	-0 88%
Montrose Twp.	5,800,860	4,707,630	-18.85%
Vienna Twp.	13,436,826	12,698,830	-5.49%
Thetford Twp.	17,000	17,100	0.59%
Flushing Twp.	22,867,220	21,778,280	-4.76%
Mt. Morris Twp.	33,608,700	31,347,030	-6.73%
Genesee Twp.[1]	36,069,100	35,315,900	-2.09%
Richfield Twp.	8,260,510	6,239,880	-24.46%
Clayton Twp.	7,272,720	6,804,280	-6.44%
Flint Twp	107,050,962	91,129,219	-14.87%
Davidson Twp.	41,696,344	37,408,010	-10.28%
Gaines Twp.	4,260,490	4,059,900	-4.71%
Mundy Twp.	25,851,918	22,909,853	-11.38%
Grand Bl. Twp.[1]	129,998,237	130,167,445	0.13%
Hydrants	1,786,526	3,010,216	68.50%
Total	581,692,986	551,198,996	-2.25%

APPENDIX B-3

GCDC WATER RATES WITH KWA

Appendix B-3

GCDC – WWS Water Rates – with KWA

- Analysis started with the recently-completed rate study for 2014 to 2018.
- Customer base remained the same.
  - *Equivalent Meters – No growth*
  - Commodity – No growth
- GCDC – WWS WTP will commence operation on July 1, 2016.
- Adjustments to Expenses for 2015, 2016, 2017, and 2018.
  - Detroit rates to increase at 50 percent starting April 1, 2014 and 25 percent starting April 1, 2015.
  - Removed Flint surcharge for water purchase starting April 1, 2014
  - Water Expense to Detroit to continue until July 1, 2016
  - Added KWA O&M (56.4 percent of Total, half year in 2016)

Year	Total	GCDC - WWS
2016	$1,117,853	$630,469
2017	$2,421,467	$1,365,707
2018	$2,579,017	$1,454,566

All cost allocated to Commodity

  - Add GCDC – WWS O&M for new WTP
    - $3.60 per 1,000 cubic feet = $481 per mg
    - Inflate 3 percent per year
    - Treated Water Volume = 13.04 mgd

Year	Rate	Total	
2013	$481 per mg	- - -	
2016	$525 per mg	$1,249,395	(half year)
2017	$541 per mg	$2,574,943	
2018	$557 per mg	$2,651,097	

All cost allocated to Commodity

- Capital costs were added as follows:
  - Capital Reinvestment / Depreciation Water Plant - $1,500,000 per year starting in 2017

    All allocated to Volume
  - Intake Debt Service

2014	$2,529,423
2015	$2,526,838
2016	$2,527,388
2017	$2,527,188
2018	$2,527,588

  - KWA Purchase
    - $383,333 per unit x 42 units = $16,100,000 per year starting 2016. Prior to 2016, 10% will be paid to KWA.

    Cost allocated to 100 percent commodity
  - KWA lease back for intake (payment equals Flints and GCWS portion from KWA purchase

2017	-$2,527,188
2018	-$2,527,588

    Cost allocated to 75 percent minimum and 25 percent commodity
  - GCDC – WWS Water Plant Debt

2017	$5,784,825
2018	$5,784,825

    Cost allocated to 75 percent minimum and 25 percent commodity

- Rates – See attached spreadsheet for rates per year.

APPENDIX B-7

2011 SANITARY SURVEY

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF ENVIRONMENTAL QUALITY
LANSING

DAN WYANT
DIRECTOR

September 7, 2011

Mr. John O'Brien, Director
Genesee County Drain Commissioner
G-4610 Beecher Road
Flint, Michigan 48532

WSSN: 2615

Dear Mr. O'Brien:

SUBJECT: 2011 Sanitary Survey
Genesee County Water System

Enclosed is a copy of the sanitary survey completed by this department covering the Genesee County water system. This report is being submitted for your review and comment.

Your attention should be directed to pages 27 through 33, which details our observations, conclusions, and recommendations. Also, pages 33 and 34 provide a brief summary of the individual items that need to be addressed and gives the pages in the report where those items are discussed.

The items vary in priority and are listed without ranking. In general, improvement continues to be taken towards water system preventative maintenance. The need for an adequate supply of water for domestic use and fire protection will continue to increase as long as residential, commercial, and industrial growth continues in Genesee County.

Item #1 discusses the need to establish adequate stand-by water service for Genesee County.

Items #2, 3, and 6 discuss preventative maintenance and operational issues. This includes the need to continue establishing a prioritized valve turning program. Next, any remaining outdated meters should be changed out and the upgrade to a radio-read system should continue to be promoted among your retail customers. Finally, the Clio Road elevated tank should be scheduled for repainting.

Item #4 discusses the need to continue upgrading areas of WWS's water system that are in poor condition.

Item #5 discusses the need to conduct a new water system study and master plan by 2015.

Item #7 discusses the need to operate the stand-by chlorination equipment at the Henderson Road and Center Road pump stations on an occasional basis.

We wish to thank your staff for their time, and for the assistance given, during the survey and preparation of the report. As always, we are available to meet with you to discuss the report in more detail.

Sincerely,

Michael Prysby

Michael F. Prysby, P.E., District Engineer
Lansing District Office

Present Value Analysis of 72-inch Water Transmission Main for City of Flint

Final Report – January 28, 2014

Lockwood, Andrews & Newnam, Inc.

Project # 130-10701-001

Lockwood, Andrews & Newnam, Inc.
A LEO A DALY COMPANY

PLANNING ENGINEERING PROGRAM MANAGEMENT

Introduction

Lockwood, Andrews, & Newnam, Inc. (LAN) was retained by the City of Flint (City) to perform a pipeline value assessment of the existing 72-inch water transmission main from the Detroit pipeline connection at the intersection of Baxter and Potter Roads to the Flint Water Treatment Plant (FWTP). The 72-inch transmission main was constructed from 1966 to 1968 to supply the FWTP with water from the Detroit Water and Sewerage Department (DWSD). With the original 30 year contract with DWSD expired, the City of Flint plans to establish a new contract with the Karegnondi Water Authority (KWA) beginning in 2015, which would require the KWA to provide raw water to the FWTP.

In order to provide raw water to the FWTP, the KWA will connect a 36-inch transmission main to the existing City-owned 72-inch water main near the northeast corner of Center and Pierson Roads. The Genesee County Drain Commissioner's Office-Division of Water & Waste is interested in purchasing the east portion of the 72-inch transmission main from this connection to the DWSD connection at Baxter and Potter Roads which is being defined in this analysis as Segment 1, while KWA has requested the use of the 72-inch pipeline west of this connection point to the FWTP which is being classified as Segment 2. Our analysis of these two segments is intended to help the City establish an equitable monetary value of both sections. A schematic of the limits of the pipeline and segments 1& 2 is shown in Attachment A.

Analyses

In order to value the segments of the 72-inch transmission main requested, quantities were derived from original construction drawings. Using the as-built cost established from the quantity take off, two (2) analyses were performed on the water main based on different valuation methods. Original Cost Less Depreciation (OCLD) and Reproduction Cost New Less Depreciation (RCNLD) methods were used in conjunction with the sinking fund depreciation technique to develop a credible current value assessment of the pipeline.

Quantity Take-Off

Using the Consoer, Townsend & Associates construction drawings dated 1966 (Attachment B) and the payment document dated January 1969 (Attachment C), a quantity take-off analysis was performed to determine the original construction cost of the section of 72-inch water main as described above. Line items originally listed as "linear feet" or "each" were summed to determine the value within the evaluation limits. Lump sum line items with information available, such as "gate valves complete in place" and "rubber seated butterfly valves," were counted and the ratio of the items within the limits to the whole project was applied to the lump sum price. For any unit with no quantifiable documentation, such as "sand and gravel refill" and "sand and gravel backfill," the ratio of the 72-inch pipeline within the evaluation limits to the whole project was applied to the total cost for the unknown line item. Line items determined to be outside the limits of the valuation were listed with a zero percent ratio.

OCLD Analysis

The Original Cost Less Depreciation valuation method uses the original cost of the project when constructed minus the depreciated value to determine the current value. The initial asset value was determined using the information established from the quantity take-off analysis and the original cost information found in the payment document dated January 1969.

RCNLD Analysis

Reproduction Cost New Less Depreciation is a valuation method that translates initial project costs to present day cost of construction. A new present day construction cost is calculated based on the original construction, followed by a depreciation method used to calculate the current book

value of the asset. The Engineering News-Record (ENR) Construction Index and the Handy-Whitman Cost Index for Concrete Cylinder Mains were possible references to determine the ratio used in calculating the present day cost. For this evaluation, the ENR index was selected to calculate the RCNLD initial asset value. A ratio of the current ENR index from September 2013 (9551.58) to the bid date ENR index from May 1966 (1014) was multiplied by the OCLD asset value to get the RCNLD initial asset value.

Sinking Fund Depreciation

The sinking fund depreciation method is commonly used within the utility industry. This method of depreciation accurately reflects the service life of a utility line, having a low initial depreciation upon installation due to low maintenance during the early years of a utility. As the service life of a utility progresses and maintenance becomes more frequent and comprehensive, the depreciation of the asset increases over time.

Due to the fact that a transmission pipeline must be functional and meet all necessary standards of service until the day it is taken out of service, an intrinsic value will always remain; therefore, a salvage value must be determined prior to the depreciation calculation. Similarly, the useful life of the asset must be pre-determined. The industry standard for the useful life of a pipeline ranges from 50 to 100 years. Typically, lower useful life values are used for distribution mains, whereas higher values are used for transmission systems. For transmission mains similar to the 72-inch being analyzed, a useful life of 75 to 90 years is common. We have selected a useful life of 80 years for this analysis.

In addition to the salvage value and useful life, sinking fund depreciation requires a sinking fund rate, which was selected as 4.50% and 0.75% for OCLD and RCNLD respectively, reflecting the federal discount rate during the construction time analyzed. Due to the sinking fund rate, the annual depreciation varies depending on the year and can be calculated using Eq. 1 and Eq. 2 below.

Eq. 1
$$D_t = \frac{(A-S)*(1+J)^{(t-1)}}{S_{n|J}}$$

Eq. 2
$$S_{n|J} = \frac{(1+J)^n-1}{J}$$

where:

t	=	Evaluation time (years)
D_t	=	Depreciation at year t
A	=	Initial asset value
S	=	Salvage value of asset
J	=	Sinking fund rate

The sum of the annual depreciation values until the evaluation year is subtracted from the initial value to calculate the current book value of the asset value.

Results

Segment 1

RCNLD and OCLD analyses were performed using a sinking fund depreciation of the 72-inch pipeline and appurtenances from the DWSD connection at Baxter and Potter Roads, west to the

proposed 36-inch KWA connection at Center and Pierson Roads. Due to the size of the project and the portion involved in this segment (similar size piping and valves only) the RCNLD value of $27,400,000 was determined to be unrepresentative of the actual asset value. Utilizing the OCLD values listed below, a book value of $3,988,000 was calculated for this portion of the pipeline.

Table 1 – Segment 1 OCLD Analysis

ORIGINAL COST LESS DEPRECIATION SINKING FUND DEPRECIATION ANALYSIS	
INPUTS	
Initial Cost	$ 4,735,900
Useful Life (years)	80
Salvage Value at End of Life*	$ 1,184,000
Sinking Fund Rate	4.50%
Evaluation Year	47
OUTPUTS	
$S_{n\|i}$	729.56
Total Depreciation at Year 47	$ 748,200
Book Value	$ 3,987,700

*25% Salvage value

Segment 2

RCNLD and OCLD analyses were performed using a sinking fund depreciation of the 72-inch pipeline and appurtenances beginning at the KWA tie-in at Center and Pierson Roads, west to the property line of the FWTP. Utilizing the RCNLD values listed below, a book value of $5,269,600 was calculated for this portion of the pipeline using the following evaluation criteria:

Table 2 – Segment 2 RCNLD Analysis

REAL COST NEW LESS DEPRECIATION SINKING FUND DEPRECIATION ANALYSIS	
INPUTS	
Initial Cost	$ 8,953,900
Useful Life (years)	80
Salvage Value at End of Life*	$ 1,790,800
Sinking Fund Rate	4.50%
Evaluation Year	47
OUTPUTS	
$S_{n\|i}$	109.07
Total Depreciation at Year 47	$ 3,684,300
Book Value	$ 5,269,600

*20% Salvage value

Utilizing the OCLD values listed below, a book value of $790,400 was calculated for this portion of the pipeline using the following evaluation criteria:

Table 3 – Segment 2 OCLD Analysis

ORIGINAL COST LESS DEPRECIATION - SINKING FUND DEPRECIATION ANALYSIS	
INPUTS	
Initial Cost	$ 950,600
Useful Life (years)	80
Salvage Value at End of Life*	$ 190,100
Sinking Fund Rate	4.50%
Evaluation Year	47
OUTPUTS	
$S_{n|j}$	729.56
Total Depreciation at Year 47	$ 160,200
Book Value	**$ 790,400**

*20% Salvage value

The asset value of segment 2 was determined using the average of the OCLD and RCNLD analyses. A current book value of $3,030,000 was calculated.

Summary

OCLD and RCNLD analyses are an effective method of calculating the depreciation of an installed utility, as well as the opportunity cost to the buyer of purchasing an installed utility. After performing these analyses using the sinking fund method of depreciation, current book values of the segments were determined. The portion of the 72-inch transmission main from the DWSD connection at Baxter and Potter Roads, west to the proposed 36-inch KWA connection at Center and Pierson Road, **Segment 1, has a current book value of $3,987,700.** The portion of the 72-inch transmission main beginning at the KWA tie-in at Center and Pierson Roads, west to the property line of the FWTP, **Segment 2, has a current book value of $3,030,000.**

DEPARTMENT OF LAW

MEMORANDUM

TO: Wayne Workman
Randall Byrne
Fred Headen

CC: Darnell Earley

FROM: Peter M. Bade

RE: Alternative Proposal for Sale of Water Transmission Main

DATE: May 28, 2014

On May 12, 2014, Emergency Manager Darnell Earley presented to the Flint City Council a proposal for sale of a portion of the 72 inch water transmission main to the Genesee County Drain Commissioner.

A special meeting of the Flint City Council was held on Monday, May 19, 2014 to discuss the proposal. Pursuant to MCL 141.1559(2), Council adopted a resolution rejecting the proposal.

A second special meeting was scheduled on Wednesday, May 21, 2014 for the purpose of discussing an alternative proposal.

At the May 21st meeting, Council members acknowledged they did not have an alternative proposal. However, pursuant to a motion by Councilman Sheldon Neeley, a resolution was adopted recommending the water main sale price be increased to $4 million dollars, with equal payments over two years.

Pursuant to MCL 141.1559(2), Council had seven (7) days from the date of their rejection of the proposed action to submit to the local emergency financial assistant loan board an alternative proposal that would yield substantially the same financial result as the action proposed by the

Emergency Manager. Accordingly, the deadline for submission of Council's alternative proposal was Tuesday, May 27, 2014.

Council did not submit an alternative proposal to the local emergency financial assistant loan board.

S:\P. Bade\EM2014\Memos\Revised MM to DEarley re Water Transmission Main 5-28-14.docx

WATER TRANSMISSION MAIN

ACQUISITION AGREEMENT

BY AND BETWEEN

CITY OF FLINT

AND THE

GENESEE COUNTY DRAIN COMMISSIONER AS COUNTY AGENCY

DATED MAY 12, 2014

ACQUISITION AGREEMENT

THIS ACQUISITION AGREEMENT ("Agreement") is made this 12 day of May, 2014 ("Execution Date"), and effective May 12, 2014 ("Effective Date"), by and between the City of Flint, a Michigan municipal corporation (hereinafter "Flint"), and the Genesee County Drain Commissioner, as County Agency, a public agency pursuant to the County Public Improvement Act of 1939, as amended (the "County Agency"). The Effective Date of this Agreement shall be contingent upon a condition antecedent that the Agreement has been reviewed by the City of Flint City Council and no alternative has been proposed and the State of Michigan Department of Treasury has approved this Agreement as required by Act 436 of the Michigan Public Acts of 2012, as amended, which is commonly referred to as the Local Financial Stability and Choice Act. If either the City of Flint City Council or the State of Michigan Department of Treasury fails to approve this Agreement prior to May 1, 2014, then the Agreement shall be effective immediately upon the City of Flint City Council failing to offer an alternative and the Michigan Department of Treasury approving this Agreement.

PREAMBLE

It is the intent of the Parties for Flint to sell to the County Agency the Water Main, subject only to the restrictions more fully set forth in this Agreement, for the mutual consideration set forth in this Agreement for the County Agency's unrestricted use.

RECITALS

A. Flint desires to sell the Water Main to the County Agency; and

B. The County Agency desires to purchase the Water Main from Flint; and

C. The Parties have determined that it is in their respective best interests for the County Agency to acquire, upon the terms and subject to the conditions set forth herein, the Water Main from Flint if the Karegnondi Water Authority constructs a new raw water pipeline from Worth Township, Michigan to Genesee County, which shall furnish raw water to the City of Flint; and

D. In furtherance thereof, it is proposed that the County Agency acquire the Water Main for the mutual consideration set forth in this Agreement.

NOW, THEREFORE, in consideration of the mutual promises and representations set forth in this Agreement, the Parties agree as follows:

ARTICLE I
INTRODUCTORY PROVISIONS; DEFINITIONS

1.1. Adoption of Preamble and Recitals. All of the matters stated in the preamble and recitals of this Agreement are true and correct and are hereby incorporated into the body of this Agreement as through fully set forth in their entirety herein, provided that in cases of

conflict, provisions of this Agreement shall control over matters stated in the preamble and recitals.

1.2. Definitions. The following terms and expressions as used in this Agreement, unless the context clearly shows otherwise, shall have the following meanings:

a. "Closing" means the closing of the transactions contemplated by this Agreement.

b. "Closing Date" means the mutually acceptable date to be scheduled within thirty (30) days after execution of this Agreement or on a date as mutually acceptable to the Parties for the Closing to take place.

c. "County Agency" means the Genesee County Drain Commissioner, as County Agency, Genesee County, Michigan, pursuant to Act 342 of the Michigan Public Acts of 1939, as amended.

d. "Emergency Manager" means an emergency manager or financial emergency manager as defined by law that is appointed by the Governor of the State of Michigan pursuant to law.

e. "Flint" means the City of Flint, Genesee County, Michigan.

f. "Party" or "Parties" means the Genesee County Drain Commissioner, as County Agency, individually, the City of Flint, individually, or the Genesee County Drain Commissioner, as County Agency and the City of Flint, collectively.

g. "Real Property Agreements" means all agreements that affect real property, including, but not limited to, licenses, leases, easements, or similar documents.

h. "Water Main" means the water transmission main as more fully described in **Exhibit A**, including, but not limited to, all appurtenances thereto including any meter pits connected thereto, along with the water contained therein and all drawings, files, laying schedules, records of repairs, maintenance files, repair parts, etc. Including by way of example, and not as a limitation, meter vaults, meters, pumps, air relief valves, sump pumps, electrical connections, communication devices and all other mechanical, electrical, or other equipment used to pump water through the Water Main or bring attention to an emergency situation.

ARTICLE II
THE PURCHASE AND SALE

2.1 Transfer to the County Agency. In accordance with the provisions of this Agreement, in consideration for the payment of the Purchase Price as set forth in Section 2.3 of this Agreement and other good and valuable consideration, and subject to the contingencies set forth in Article 8 and Article 9, Flint shall transfer and convey the Water Main to the County

Agency, effective either when Flint provides the County Agency thirty (30) days written notice of its intent to transfer the Water Main or at 12:01 a.m. local time on July 1, 2014, whichever event occurs first in time, including all rights as Flint may have pursuant and any and all Rights of Way and Easements, copies of which are attached hereto as Exhibit B, and other instruments of transfer to be delivered at the Closing, as set forth in Article III of this Agreement, in accordance with the provisions relating to the Closing.

2.2 Acquisition by the County Agency. The County Agency, in reliance upon the covenants and representations of Flint contained herein and the documents provided by Flint, hereby agrees to acquire the Water Main from Flint.

2.3 Purchase Price. As part of the consideration for the transfer and conveyance of the Water Main to the County Agency from Flint, the County Agency shall make a lump sum payment within thirty (30) days from the execution of this Agreement, in a sum equal to Three Million Nine Hundred Eighty-Seven Thousand Seven Hundred Dollars and Zero Cents ($3,987,700.00), inclusive of all interest, fees, charges, or other costs (the "Purchase Price").

ARTICLE III
CLOSING

3.1 Closing. The Closing will take place at the offices of Sargent's Title Company, 625 S. Grand Traverse, Flint, Genesee County, Michigan, on such date as shall be mutually acceptable to the Parties within thirty (30) days after the execution of this Agreement or on a date as mutually acceptable to the Parties.

3.2 Deliveries. At the Closing, the transactions listed below shall occur.

a. The County Agency shall deliver to Flint:

1. A certified letter from the Genesee County Drain Commissioner stating that he has the authority, pursuant to Act 342 of the Michigan Public Acts of 1939, as amended, to execute and deliver this Agreement and the transactions contemplated hereby; and

2. An opinion of legal counsel to the County Agency reasonably satisfactory to Flint, providing that the transactions contemplated by this Agreement do not violate the provisions of Act 342 of the Michigan Public Acts of 1939, as amended, or other applicable laws and such additional matters and in form and substance satisfactory to Flint and its counsel; and

3. A certified letter from the Genesee County Drain Commissioner as to the accuracy of its representations and warranties as of the date of this Agreement and as of the Closing and as to its compliance with and performance of its covenants and obligations to be performed or complied with at or before the Closing; and

b. Flint shall deliver to the County Agency:

1. A certified resolution of the City Council of the City of Flint or an Order of the Emergency Manager, if applicable, or both, authorizing the execution and delivery of this Agreement and the transactions contemplated hereby; and

2. An executed bill of sale for all of the Water Main that is tangible personal and real property executed by a representative of Flint authorized to sign the bill of sale or an Order of the Emergency Manager, if applicable, or both; and

3. An Assignment of Rights of Way and Easements, or such other appropriate document or instrument of transfer, as the case may require, and executed by a representative of Flint authorized to sign the bill of sale or an Order of the Emergency Manager, if applicable, or both; and

4. Such other documents and other instruments of transfer and conveyance as may reasonably be needed to complete the transactions contemplated hereby; and

5. A certified letter from the Mayor or Emergency Manager as to the accuracy of its representations and warranties as of the date of this Agreement and as of the Closing and as to its compliance with and performance of its covenants and obligations to be performed or complied with at or before the Closing; and

6. An opinion of legal counsel of Flint, reasonably satisfactory to the County Agency, providing that the transactions contemplated by this Agreement do not violate the City Charter of Flint, local ordinances or laws, and such additional matters and in form and substance satisfactory to the County Agency and its counsel and

3.3 Transfer of Operation. The County Agency took over maintenance and operation of the Water Main pursuant to the MOU between the parties dated April 29, 2014, and it is understood by the parties that the County Agency shall continue to operate and maintain the water main from this date forward.

3.4 Expenses. Flint and the County Agency shall each bear their own expenses incurred by them in connection with the transactions contemplated by this Agreement, including without limitation, consultants' fees, legal fees and accounting fees, whether or not such transaction is consummated.

3.5 Closing Costs. If there are any costs associated with the Closing, including costs to be paid to the title company, filings, recording costs, or other costs, fees, or expenses, the costs shall be paid by the County Agency.

ARTICLE 4
REPRESENTATIONS AND WARRANTIES OF FLINT

Flint makes the following representatives and warranties to the County Agency:

4.1 Corporate Organization. Flint is a municipal corporation duly organized, validly existing and in good standing under the laws of the State of Michigan.

4.2 Authorization. Flint or the Emergency Manager has the requisite power and authority to execute and deliver this Agreement and to consummate the transactions contemplated hereby and thereby. Assuming due and valid authorization, this Agreement will constitute a legal, valid and binding obligation of Flint, enforceable against Flint in accordance with its terms, except as the enforcement thereof may be limited by applicable principles of bankruptcy, insolvency, reorganization, moratorium, or similar laws affecting the rights of creditors and subject to general principles of equity.

4.3 Easements and Rights of Way.

a. Exhibit C identifies all of the real property occupied by the Water Main.

b. Upon reasonable title search and review provided by the County Agency to Flint of all of the real property occupied by the Water Main, Flint possesses all necessary, permanent, perpetual and transferable real property rights including easements, licenses or rights of way by prescription, necessity, implication or acquiescence necessary for the use, routine operation, and maintenance of the Water Main, except as disclosed on Exhibit D.

c. Flint has good and marketable title to the Water Main.

d. As of the Execution Date, there are no pending or threatened disputes or pending or threatened litigation with respect to any real property rights pertaining to the Water Main.

e. Flint agrees to provide access to the County Agency to any and all documents that are in Flint's possession regarding the Water Main. These documents include, but are not limited to, as built drawings, shop drawings, maintenance records, land records and easements, and any other document that relates to the

Water Main. The County Agency is free to take possession of the documents for the limited purpose of making any copies that are deemed necessary in the opinion of the County Agency. All original documents shall be returned by the County Agency to Flint in a timely manner.

4.4 WATER MAIN. THE WATER MAIN SHALL BE CONVEYED BY FLINT TO THE COUNTY AGENCY IN "AS IS", "WHERE IS" AND "WITH ALL FAULTS" PHYSICAL CONDITION, WITH NO ADDITIONAL WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO THE PHYSICAL CONDITION OF THE WATER MAIN THAT EXTEND BEYOND THE WARRANTIES EXPRESSLY STATED IN THIS AGREEMENT. EXCEPT FOR ANY EXPRESS WARRANTIES STATED IN THIS AGREEMENT, THE WATER MAIN SHALL BE CONVEYED WITH NO EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR USE.

4.5 Litigation. As of the Execution Date there is no action, suit or proceeding pending or threatened against or affecting Flint before any governmental entity in which there is a reasonable possibility of an adverse decision which could have a material adverse effect upon the ability of Flint to perform its obligations under this Agreement or which in any manner questions the validity of this Agreement.

4.6 Water Main Parts and Equipment. Flint agrees that it will provide to the County Agency any spare parts or equipment which, in the sole discretion of Flint, may only be used exclusively on the Water Main.

ARTICLE 5
REPRESENTATIONS AND WARRANTIES OF THE COUNTY AGENCY

The County Agency makes the following representations and warranties to Flint and delivered to Flint on Execution Date, a copy of which is attached hereto:

5.1 Corporate Organization. The County Agency was established pursuant to Act 342 of the Michigan Public Acts of 1939, as amended. As County Agency, it is organized and validly existing under the laws of the State of Michigan and has all requisite power and authority to execute, deliver and perform this Agreement and to consummate the transactions contemplated hereby.

5.2 Authorization. The County Agency has the requisite power and authority to execute and deliver this Agreement and to consummate the transactions contemplated hereby and thereby. This Agreement will constitute a legal, valid and binding obligation of the County Agency, enforceable against the County Agency in accordance with its terms, except as the enforcement thereof may be limited by applicable principles of bankruptcy, insolvency, reorganization, moratorium, or similar laws affecting the rights of creditors and subject to general principles of equity.

5.3 No Conflict. The execution, delivery and performance by the County Agency of this Agreement, the compliance by the County Agency with any of the provisions hereof and thereof, and the consummation by the County Agency of the transactions contemplated hereby and thereby: (i) do not violate any Applicable Law; (ii) do not require the consent,

approval, clearance, waiver, order or authorization of any person, organization, or entity; and (iii) do not conflict with, or result in any breach of, or default or loss of any right under (or an event or circumstance that, with notice or the lapse of time, or both, would result in a default), or the creation of any encumbrance pursuant to, or cause or permit the acceleration prior to maturity of any amounts owing under any indenture, mortgage, deed of trust, lease or other agreement to which the County Agency is a party, which failure, violation, conflict or breach would, in the aggregate, materially hinder or impair the consummation of the transactions contemplated by this Agreement.

5.4 Litigation. As of the Execution Date, there is no action, suit or proceeding pending or threatened against or affecting the County Agency before any governmental entity in which there is a reasonable possibility of an adverse decision which could have a material adverse effect upon the ability of the County Agency to perform its obligations under this Agreement or which in any manner questions the validity of this Agreement.

5.5 Due Diligence and Inspection. The County Agency acknowledges that it is being afforded the opportunity to conduct due diligence and investigation with respect to the transaction contemplated by this Agreement. The County Agency represents and warrants that it has conducted any and all such legal, factual, and other examinations, inquiries, investigations, and inspections, including conducting any tests, studies and examinations, that it, in its sole discretion, has determined necessary to complete such due diligence inspection to determine that the subject matter of this Agreement is suitable for the County Agency's intended use.

5.6 Environmental Matters. The County Agency represents and warrants that it has conducted any and all such legal, factual, and other examinations, inquiries, investigations, and inspections, including conducting any tests, studies and examinations, that it, in its sole discretion, has determined necessary to complete such due diligence inspection to have full knowledge of the environmental condition of the subject matter of this Agreement. County Agency shall enter into this Agreement subject to any and all environmental conditions present upon the subject matter of this Agreement.

5.7 Emergency Water Supply. The County Agency warrants that it will provide, to the extent the Detroit Water and Sewerage Department has available capacity treated water through the water main that is the subject matter of this Agreement in an emergency situation to Flint until such time as the Karegnondi Water Authority Water Transmission Pipeline construction is completed (which is estimated to be completed by May 2017) and the Karegnondi Water Authority is providing raw water to its customers.

The emergency supply of treated water to the Flint by the County Agency during the construction of the Karegnondi Water Authority Water Transmission Pipeline shall be at the prevailing rate and any additional charges, fees, special charges, and penalties, as billed by the Detroit Water and Sewerage Department to the County Agency.

If Flint shall need an emergency water supply after the Karegnondi Water Authority Water Transmission Pipeline has been installed and is operational, the County Agency will provide, to the extent the County Agency has available capacity, treated water through the water main that is the subject matter of this Agreement in an emergency situation to Flint. The emergency supply of treated water to Flint by the County Agency after the Water

Transmission Pipeline has been installed and is operational, shall be at the prevailing rate and any additional charges, fees, special charges, and penalties, if applicable, as billed by the Detroit Water and Sewerage Department to the County Agency.

ARTICLE 6
COVENANTS OF FLINT

Flint covenants and agrees with the County Agency as follows:

6.1 Operation and Maintenance of the Water Main until Closing. Between the Execution Date of this Agreement and the Effective Date of this Agreement, Flint shall:

a. Operate the Water Main in the ordinary course of business; and

b. Maintain all books and records relating to the operation of the Water Main in the ordinary course of business; and

c. Fix any known breaks or leaks in the Water Main, except those set forth on **Exhibit F**; and

c. Promptly notify the County Agency of any emergency or other change in the normal course relating to the Water Main (or communications indicating that the same may be contemplated.

6.2 Litigation and Claims. Flint shall promptly inform the County Agency in writing of any Claims of which Flint is or becomes aware that are or might reasonably be expected to become the subject of litigation affecting the Water Main or the transactions contemplated by this Agreement.

6.3 Notice of Changes. Flint shall inform the County Agency in writing if it becomes aware that any representation or warranty made by Flint in this Agreement has ceased to be accurate or if Flint becomes aware of the occurrence of any breach of any covenant or other agreement required by this Agreement to be performed or complied with by Flint.

ARTICLE 7
COVENANTS OF THE COUNTY AGENCY

The County Agency hereby covenants and agrees with Flint as follows:

7.1 Cooperation. Subject to the terms and conditions of this Agreement, the County Agency shall cooperate with Flint to use its best efforts to secure all necessary consents, approvals, authorizations, exemptions and waivers from all persons and entities as shall be requested by Flint or required to be obtained in order to consummate the transactions contemplated hereby.

7.2 Litigation and Claims. The County Agency shall promptly inform Flint in writing of any claims (or communications indicating that the same may be contemplated) of which the County Agency is or becomes aware that are or might reasonably be expected

to become the subject of litigation affecting the Water Main or the transactions contemplated by this Agreement.

7.3 Notice of Changes. The County Agency shall inform Flint in writing if it becomes aware that any representation or warranty made by the County Agency in this Agreement has ceased to be accurate or if the County Agency becomes aware of the occurrence of any breach of any covenant or other agreement required by this Agreement to be performed or complied with by the County Agency.

ARTICLE 8
CONDITIONS AND OBLIGATIONS OF FLINT

The obligations of Flint to consummate the transactions contemplated by this Agreement shall be subject to the satisfaction (or waiver by Flint) on or prior to the Closing of all of the following conditions:

8.1 Accuracy of Representations and Warranties. Except as otherwise noted in this Agreement, the representations and warranties of Flint set forth in this Agreement shall be true and correct in all material respects as of the date when made and as of the Closing.

8.2 Performance of Covenants and Agreements. Flint shall have duly performed and complied in all material respects with the covenants, agreements and conditions required by this Agreement to be performed or complied with by it prior to or at the Closing. None of the events or conditions entitling the County Agency to terminate this Agreement under Article 10 hereof shall have occurred and be continuing.

8.3 Consents. Any consent required for the consummation of this purchase and sale under any agreement, contract, law, license or other instrument described in any exhibit hereto or referred to herein, or for the continued enjoyment by the County Agency of any benefits of such agreement, contract, license or other instrument after the Closing, which consent Flint is specifically obligated to obtain pursuant to this Agreement shall have been obtained and be effective as set forth in this Agreement.

8.4 Governmental Approvals. All requisite regulatory approvals, if any, shall have been obtained or made and shall be in full force and effect. There shall be no injunction, restraining order or decree of any nature that restrains or prohibits the transactions contemplated by this Agreement.

8.5 No Proceedings. Since the Execution Date of this Agreement, there shall not have been commenced or threatened against Flint, including any proceeding (a) involving any challenge to, or seeking damages or other relief in connection with, the transactions contemplated by this Agreement, or (b) that may have the effect of preventing, delaying, making illegal, imposing limitations or conditions on or otherwise interfering with any of the transactions contemplated by this Agreement.

8.6 Documents. Flint shall have received from the County Agency all of the documents identified in Sections 3.2.a.1, 3.2.a.2, and 3.2.a.3 of this Agreement.

ARTICLE 9
CONDITIONS AND OBLIGATIONS OF THE COUNTY AGENCY

The obligations of the County Agency to consummate the transactions contemplated by this Agreement shall be subject to the satisfaction (or waiver by the County Agency) on or prior to the Closing of all of the following conditions:

9.1 Accuracy of Representations and Warranties. Except as set forth in the Exhibits, the representations and warranties of the County Agency set forth in this Agreement shall be true and correct in all material respects as of the date when made and at and as of the Closing.

9.2 Performance of Covenants and Agreements. The County Agency shall have duly performed and complied in all material respects with the covenants, agreements and conditions required by this Agreement to be performed or complied with by it prior to or at the Closing. None of the events or conditions entitling the County Agency to terminate this Agreement under Article 10 hereof shall have occurred and be continuing.

9.3 Consents. Any consent required for the consummation of the transactions contemplated by this Agreement under any agreement, contract, license or other instrument described in any schedule or exhibit hereto or referred to herein, which consent the County Agency is specifically obligated to obtain pursuant to this Agreement shall have been obtained and shall be effective as set forth in this Agreement.

9.4 Governmental Approvals. All requisite regulatory approvals shall have been obtained or made and shall be in full force and effect. There shall be no injunction, restraining order or decree of any nature that restrains or prohibits the transactions contemplated by this Agreement.

9.5 No Proceedings. Since the Execution Date of this Agreement, there shall not have been commenced or threatened against the County Agency any proceeding (a) involving any challenge to, or seeking damages or other relief in connection with, the transactions contemplated by this Agreement, or (b) that may have the effect of preventing, delaying, making illegal, imposing limitations or conditions on or otherwise interfering with any of the transactions contemplated by this Agreement.

9.6 Documents. The County Agency shall have received the documents identified in all of the Sections of this Agreement to be provided by Flint.

ARTICLE 10
TERMINATION PRIOR TO CLOSING

10.1 Termination.

a. This Agreement may be terminated at any time prior to the Closing:

1. By the mutual written consent of Flint and the County Agency;

2. By Flint in writing if the County Agency fails to perform any condition, obligation of any provision of this Agreement and fails to correct the non-performance within five (5) days (or other period of time as mutually agreed to by the Parties) of being notified by Flint;

3. By the County Agency in writing if Flint fails to perform any condition, obligation of any provision of this Agreement and fails to correct the non-performance within five (5) days (or other period of time as mutually agreed to by the Parties) of being notified by the County Agency;

4. By Flint if the transaction is not approved by all its governing body, the emergency manager, or the Treasurer of the State of Michigan, if such approval is required;

5. By either Party, if the other Party fails to timely satisfy those conditions set forth in Article 8 or Article 9, as appropriate.

b. This Agreement may be terminated by the County Agency in writing on or before May 1, 2014, if it shall not have been satisfied in its sole discretion with the results of the County Agency's continuing due diligence investigations of the Water Main, including, without limitation, with respect to all operational, financial, environmental, legal and accounting matters.

c. This Agreement may be terminated by either party upon written notice if the Karegnondi Water Authority fails to construct the proposed Water Main from Worth Township to Genesee County.

d. This Agreement may be terminated by either party upon written notice if the cost of construction of the Water Main from Worth Township to Genesee County by the Karegnondi Water Authority exceeds the limitations set forth in the Financing Agreement between the Karegnondi Water Authority, Flint, and the County Agency. A unit is defined as one million gallon per day, U.S. Liquid Measure.

e. In the event of any termination pursuant to this Article 10, any amounts paid by the County Agency to Flint or from Flint to the County Agency shall be refunded within thirty (30) days. In the event that either party to this Agreement fails to refund any amounts paid within thirty (30) days, the amount due and owing shall

accumulate interest at the rate of 1.5% per month, until such time as the debt is paid.

10.2 Effect on Obligations. Termination of this Agreement pursuant to this Article 10 shall terminate all obligations of the Parties hereto; provided, however, that termination pursuant to Sections 10.a.2 or 10.a.3 hereof shall not relieve any defaulting party from any liability to the other party hereto resulting from such failure to perform. Notwithstanding the foregoing, any and all existing agreements (other than this Agreement) between Flint and the County Agency which are related to the Water Main shall remain in full force and effect following any termination of this Agreement unless and until such existing agreements are otherwise terminated pursuant to the terms thereof.

ARTICLE 11
TERMINATION AFTER CLOSING BY COUNTY AGENCY

This Agreement may be terminated at the sole discretion of the County Agency after Closing, if Flint fails to provide the County Agency with an easement, license, or similar document for the portion of the Water Main that is located on private property as identified in **Exhibit D**, prior to Friday, June 30, 2015, unless Flint has filed an action in a court of competent jurisdiction to condemn the property or a portion of the property necessary to ensure that the County Agency has aceess to the Water Main under the private property to replace, repair, maintain, or perform any other action commonly associated with the ownership of a water main.

In the event of a termination by the County Agency pursuant to this ARTICLE 11, the County Agency shall be entitled to a complete refund or repayment of any amounts paid to Flint pursuant to ARTICLE 2, Section 2.4 of this Agreement. If this Agreement is terminated by the County Agency for any reason set forth herein, then Flint shall immediate become responsible for the operation, maintenance and administration of the Water Main beginning at 12:01 a.m. (local time) the next business day after the notice of termination is received by Flint.

After the County Agency receives all amounts to be refunded or repaid by Flint as set forth in the preceding paragraph, the County Agency shall execute any and all documents necessary to return title to the Water Main to Flint. Additionally, the County Agency shall assign or transfer any property easements and execute any other documents necessary to fully transfer the Water Main back to Flint as if this Agreement did not exist. Flint shall be responsible for all costs of recording the documents and any closing costs in the event of a termination pursuant to this ARTICLE 11 by the County Agency.

ARTICLE 12
REMEDIES FOR BREACHES OF THIS AGREEMENT

12.1 Survival of Representations and Warranties. All of the representations, warranties and covenants of the County Agency and Flint contained in this Agreement and the Exhibits

hereto shall survive the Closing and continue in full force and effect forever thereafter (subject only to any applicable statutes of limitations applicable to their breach).

12.2 Remedies Generally. It is not intended hereby to specify (and this Agreement shall not be considered as specifying) an exclusive remedy for any default, but all such other remedies existing at law or in equity may be availed of by any Party hereto and shall be cumulative. The Parties agrees that failure in the performance of this Agreement cannot be adequately compensated in money damages alone. In the event of any default by a Party, the other Party shall have available to it the equitable remedy of mandamus and specific performance in addition to any other legal or equitable remedies which may also be available. No waiver or waivers of any breach or default (or any breaches or defaults) by any Party hereto or of performance by any other Party of any duty or obligation hereunder shall be deemed or construed to be a waiver of subsequent breaches or defaults of any kind, character or description, under any circumstance.

12.3 Remedies for Breach of Representations, Warranties and Covenants. If a Party sustains any losses because the representations or warranties provided by the other Party are incorrect or untrue or because the other Party has breached its covenants given herein, the other Party shall be liable for all losses incurred by the Party to cure such representations, warranties or covenants, including attorney fees. In addition or in the alternative, the Party may require the other Party to take such actions as required to cure such misrepresentations, warranties or breached covenants, within three (3) months or other amount of time mutually agreed to by the Parties.

12.4 Limitations on Certain Remedies.

a. The injured Party will take reasonable steps to mitigate all losses relating to a claim, including availing itself of any defenses, limitations, and will provide such evidence and documentation of the nature and extent of a claim as may be reasonably requested by the other Party. The injured Party's reasonable steps include the reasonable expenditure of money to mitigate or otherwise reduce or eliminate any loss or expense for which a remedy would otherwise be due under this ARTICLE 12, and the reimbursing Party will reimburse the injured Party for the injured Party's reasonable expenditures, including attorney fees and costs.

b. Notwithstanding anything contained to the contrary in any other provision of this Agreement, except in cases of a Party's gross negligence, willful misconduct or fraud, the obligations of each Party under Sections 12.2 and 12.3, and the recovery by any injured Party of any liabilities suffered or incurred by it as a result of any breach or non-fulfillment by a Party or any of its representations, warranties, covenants, agreements or other obligations under this Agreement, shall be limited to actual damages.

12.5 Survival of Remedies. The rights and obligations to remedies given in this Article 11 shall survive the Closing indefinitely.

ARTICLE 13
TERMINATION OF WATER SUPPLY CONTRACTS, AMENDMENTS, AND WAIVER OF NOTICE TO TERMINATE

Flint and Genesee County by and through its Drain Commissioner, as County Agency, pursuant to Act 342 of the Michigan Public Acts of 1939, as amended, have executed several Agreements in the past that shall be affected upon the execution of this Agreement. By executing this Agreement, Flint and the Genesee County by and through its Drain Commissioner, as County Agency, pursuant to Act 342 of the Michigan Public Acts of 1939, as amended, hereby expressly mutually terminate the following agreements in their entirety and further expressly waive any notice provisions set forth therein:

1. Agreement between the CITY OF FLINT, a Michigan Home Rule City Corporation and the COUNTY OF GENESEE, a Michigan County Corporation, by and through the Genesee County Drain Commissioner, having been designed as such by appropriate legislation in compliance with Act 342 of the Public Acts of 1939, and any subsequently named Agent for the County of Genesee dated June 28, 1972 (hereinafter "Water Agreement"); and

2. Agreement to amend the Water Agreement dated March 5, 1981; and

3. SUPPLEMENTAL AGREEMENT AND AMENDMENT TO CITY/COUNTY WATER AGREEMENT, dated March 31, 1988; and

4. AGREEMENT between the CITY OF FLINT, a Michigan municipal corporation, and the GENESEE COUNTY DRAIN COMMISSIONER, a designated County Agency dated February 20, 2001; and

5. 3rd AMENDMENT TO 1973 CITY/COUNTY WATER SUPPLY AGREEMENT, dated October 21, 2003, between the City of Flint, a Michigan municipal corporation and the County of Genesee, a political subdivision of the State fo Michigan and the Genesee County Dain Commissioner, the County Agency designated by the Genesee County Board of Commissioners pursuant to Act 342 of the Public Acts of 1939, as amended; and

6. 4th AMENDMENT TO 1973 CITY/COUNTY WATER SUPPLY AGREEMENT, dated December 30, 2011, between the City of Flint, a Michigan municipal corporation and the County of Genesee, a political subdivision of the State of Michigan by and through the Genesee County Drain Commissioner, the County Agency designated by the Genesee County Board of Commissioners pursuant to Act 342 of the Public Acts of 1939, as amended.

7. Any other Agreement or part of Agreement that directly conflicts with this Agreement and the intent contained therein as mutually agreed upon in writing by the parties hereto.

ARTICLE 14
MISCELLANEOUS

14.1 Construction. The Parties have participated jointly in the negotiation and drafting of this Agreement. In the event an ambiguity or question of intent or interpretation arises, this Agreement shall be construed as if drafted jointly by the Parties and no presumption or burden of proof shall arise favoring or disfavoring any Party by virtue of the authorship of any of the provisions of this Agreement. Any reference to any federal, state, local, or foreign statute or law shall be deemed also to refer to all rules and regulations promulgated there under, unless the context requires otherwise. The word "including" shall mean including without limitation.

14.2 Incorporation of Exhibits. The following Exhibits attached hereto are incorporated herein by reference and made a part hereof:

Exhibit A: Description of Water Main

Exhibit B: Rights of way and easements held by Flint

Exhibit C: Real property occupied by the Water Main

Exhibit D: Flint's disclosure of real property occupied by the Water Main that Flint does not have the necessary transferable easement or real property rights for the use, routine, operation, and maintenance of the Water Main

Exhibit E: Flint's disclosure of any breaks or leaks in the Water Main that are known by Flint and that have not been repaired

14.3 Entire Agreement. This Agreement constitutes the sole understanding of the Parties hereto with respect to the matters provided for herein and supersedes any previous agreements and understandings between the Parties with respect to the subject matter hereof. No amendment, modification or alteration of the terms or provisions of this Agreement shall be binding unless the same shall be in writing and duly executed by Flint and the County Agency and in compliance with Section 14.9.

14.4 Successors and Assigns. This Agreement will inure to the benefit of and be binding upon Flint and the County Agency and their respective successors and assigns. This Agreement and any of the rights, interests or obligations hereunder may be assigned by either Party hereto without the prior written consent of the other Party hereto.

14.5 Invalidity. If any term or other provision of this Agreement is invalid, illegal or incapable of being enforced by any rule of law, or public policy, all other conditions and provisions of this Agreement shall nevertheless remain in full force and effect so long as the practical, economic and legal substance of the transactions contemplated hereby is not affected in any manner materially adverse to any Party. Upon such determination

that any term or other provision is invalid, illegal or incapable of being enforced, the Parties hereto shall negotiate in good faith to modify this Agreement so as to effect the original intent of the Parties as closely as possible in an acceptable manner to the end that transactions contemplated hereby are fulfilled to the extent possible. Invalid provisions shall be severed from this Agreement.

14.6 Counterparts; Facsimile Signatures. This Agreement may be executed in one or more counterparts, each of which shall for all purposes be deemed to be an original and all of which shall constitute the same instrument. This Agreement may be executed by facsimile signatures that shall be considered originals.

14.7 Headings. The headings of the articles, sections and paragraphs of this Agreement and of the Exhibits hereto are included for convenience of reference only and in no way define, limit or describe the scope of intent of any provision of this Agreement.

14.8 Construction and References. Words used in this Agreement, regardless of the number or gender specifically used, shall be deemed and construed to include any other number, singular or plural, and any other gender, masculine, feminine or neuter, as the context shall require. Unless otherwise specified, all references in this Agreement to articles, sections, paragraphs or clauses are deemed references to the corresponding articles, sections, paragraphs or clauses in this Agreement, and all references in this Agreement to exhibits are references to the corresponding exhibits attached to this Agreement.

14.9 Modification and Waiver. Any of the terms or conditions of this Agreement may be waived in writing at any time by the Party that is entitled to the benefits thereof. No waiver of any of the provisions of this Agreement shall be deemed to or shall constitute a waiver of any other provisions hereof (whether or not similar). Oral modifications of this Agreement are not permitted. Modification or amendment of this Agreement shall require the written approval of the Genesee County Drain Commissioner and the Flint City Council.

14.10 Addresses and Notice. Unless otherwise provided herein, any notice, communication, request, reply or advice (herein severally and collectively, for convenience, called "Notice") herein provided or permitted to be given, made or accepted by any party to any other party must be in writing and may be given or be served by depositing the same in the United States mail postpaid and registered or certified and addressed to the party to be notified, with return receipt requested, or by delivering the same to an officer of such party, or by prepaid telegram when appropriate, addressed to the party to be notified. Notice deposited in the mail in the manner described above shall be conclusively deemed to be effective, unless otherwise stated herein, from and after the expiration of three (3) days after it is so deposited. Notice given in any other manner shall be effective only if and when received by the party to be notified. For the purposes of notice, the addresses of the parties shall, until changed as hereinafter provided, be as follows:

If to Flint, to:

City of Flint
Attn: CHIEF LEGAL OFFICER
1101 South Saginaw Street
Flint, Michigan 48502

If to the County Agency, to:

Genesee County Drain Commissioner's Office
Division of Water and Waste Services
Attn: Drain Commissioner
G-4610 Beecher Road
Flint, Michigan 48532

The Parties hereto shall have the right from time to time and at any time to change their respective addresses and each shall have the right to specify as its address any other address by at least fifteen (15) days written notice to the other party hereto.

14.11 Governing Law; Interpretation. This Agreement shall be construed in accordance with and governed by the laws of the State of Michigan. The Parties hereto (a) consent to the personal jurisdiction of the state courts located in Flint, Michigan or federal courts located in Southeastern Michigan in connection with any controversy related to this Agreement including, but not limited to, counterclaims or third party demands raised as a result of third party counterclaims initiated in any other jurisdiction; (b) waive any argument that venue in any such forum is not convenient; (c) agree that any litigation initiated by the County Agency or Flint in connection with this Agreement may be brought in either the state court located in Flint, Michigan or federal court located in Detroit, Michigan; and (d) agree that a final judgment in any such suit, action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law.

14.12 No Third-Party Beneficiaries. This Agreement is not intended to confer upon any person or entity, other than the Parties hereto, any rights or remedies of any kind or nature whatsoever.

14.13 Freedom of Information Act Requests. Flint agrees that if it receives a request for any documents relating to this Agreement, including Freedom of Information Act requests, Flint shall forward a copy of the request to the County Agency.

The County Agency agrees that if it receives a request for any documents relating to this Agreement, including Freedom of Information Act requests, the County Agency shall forward a copy of the request to Flint.

14.14 Interpretation. For purposes of interpretation of this Agreement, neither the County Agency nor Flint shall be deemed to have been the drafter of this Agreement.

14.15 Negotiated Agreement. This Agreement has been prepared and negotiations have occurred in connection with said preparation pursuant to the joint efforts of the Parties. This Agreement therefore shall not be construed against any Party to this Agreement.

ARTICLE 15
INDEMNIFICATION/HOLD HARMLESS

If at any time while Flint is securing legal access to any property identified in Exhibit ~~D~~ a the Water Main malfunctions, leaks, or requires the County Ageney to enter onto the property to repair the Water Main or perform another necessary service, and in the opinion of the County Agency the malfunction or leak may wait until access to the property is secured, Flint shall indemnify/hold harmless the County Agency for any water loss, damage, and/or environmental issues that may result from the malfunction or leak.

Any amount of water loss shall be determined by the County Agency with the assistance of Flint. The amount of loss shall be based on past experiences and practice. The County Agency shall invoice Flint for the total loss from the date the malfunction or leak was discovered until the repair has been completed. Flint shall timely pay the invoice pursuant to the terms stated in the invoice.

If the Water Main malfunction or leak requires immediate entry onto the property identified in Exhibit D, Flint shall provide all of the necessary resources necessary, including, but not limited to, an immediate payment for an easement, immediately filing an action for condemnation, or requesting a court of competent jurisdiction to provide a right of entry, to secure legal access to the property to repair any malfunction or leak.

It is expressly understood by the Parties hereto, that until such time as Flint secures access to the property identified in Exhibit D, Flint shall be responsible for any and all loss that is the result of a malfunction or break of the Water Main under the property identified in Exhibit D.

In Witness Whereof, the Parties hereto have executed this Agreement as of the date first above written.

SUMMARY AND CONCLUSIONS

In the assumptions listed herein, the Blair proposal clearly provides KWA with substantial cost savings, less years of debt, and liquidity in the first three years. During the initial three years, KWA cannot pay P&I for conventional financing while continuing their annual payment obligation(25 million dollars plus) to the City of Detroit. Conventional bond sales cannot provide the same cash flow without dramatically raising the existing user fees charged by KWA.

Blair has proposed a multi-staged arrangement using BAN financing in conjunction with Life Settlements. The cost of BAN financing, over 26 months, is 8,667,000 dollars.

The chart below illustrates the difference and advantages to these financing options:

SUMMARY OF FINANCING COMPARISON TO KWA

CONVENTIONAL BOND SALES

1. Annual cost to KWA = $27,349,383 per year over 22 years
2. Total repayments by KWA = $601,686,428
3. Balance in account after loan repayment = $0

BLAIR PROPOSAL

1. Annual cost to KWA = $20,000,000 per year for 17 years
2. Total repayments by KWA = $321,698,272 (includes cash balance and remaining policies after loan is repaid)
3. Balance in account after loan repayment = $26,968,395
4. KWA out-of-pocket cash required = $8,667,000 (years 1-3)

COMPARISION OF CASH REQUIREMENTS FOR KWA CUSTOMERS

YEARS	DETROIT	BOND SALES	BLAIR	
1	$25,000,000	0	$2,166,667	BAN Financing Interest
2	$27,250,000	0	$6,500,000	BAN Financing Interest

Public Act 436, Section 17: Three Month Report

July 8, 2014

Introduction

This Three Month Report of the status of the Financial and Operating Plan for the City of Flint is submitted to the Governor Rick Snyder, the Senate Majority Leader, the Speaker of the House of Representatives, and Clerk of the City of Flint through the Department of Treasury for the State of Michigan, in accordance with Public Act 436, Section 17 which requires this report beginning six months after the appointment of the Emergency Manager.

Included are the items detailed below from P.A. 436, Section 17:

(a) A description of each expenditure made, approved, or disapproved during the reporting period that has a cumulative value of $5000 or more and the source of the funds.

(b) A list of each contract that the emergency manager awarded or approved with a cumulative value of $5000 or more, the purpose of the contract, and the identity of the contractor.

(c) A description of each loan sought, approved, or disapproved during the reporting period that has a cumulative value of $5000 or more and the proposed use of the funds.

(d) A description of any new position created or any vacancy in a position filled by the appointing authority.

(e) A description of any position that has been eliminated or from which an employee has been laid off.

(f) A copy of the contract with the emergency manager as provided in section 9(3)(e).

(g) The salary and benefits of the emergency manager.

(h) The financial and operating plan as required under section 11. Update #6 to the Financial and Operating Plan for the City of Flint.

Section Separator

(a) A description of each expenditure made, approved, or disapproved during the reporting period that has a cumulative value of $5000 or more and the source of the funds.

City of Flint 5-Year Financial Plan

Preface

This adopted budget for the City of Flint covers the FY15 and FY16 fiscal years which begin July 1, 2014 and July 1, 2015 respectively. Financial projections for the following 3 fiscal years are included as well.

This budget has been developed within the context of the City's recently adopted Master Plan, the Vision, Mission, and Goals for the City government as adopted by the City Council, and the Budget Priorities as adopted by the City Council. Accompanying this budget is a preliminary statement of objectives initially proposed to be accomplished during the two years.

Taken together, the budget and strategic plan will serve as a template to move the City government forward to become a well-managed, financially stable, and accountable organization focused on creating a vibrant and growing community which will attract and retain residents, businesses, students, and visitors and improve our quality of life.

However, this budget demonstrates the continuing financial challenges facing the City of Flint. Stagnant revenue growth in property tax and income tax revenues, coupled with significant increases in legacy costs, retiree health care in particular, create a significant gap between revenues and expenses which require increases in other revenues and decreases in City staffing and services including the possibility of adjustments in public safety services.

Unfortunately, the financial forecast for the next several years beyond FY16 show a continuing gap between projected revenues and expenses. Within the next few years, without significant means to identify and collect additional revenues, or to further reduce the cost base, the City of Flint will be extremely challenged to provide even the most basic of City services.

Over the last several weeks, this adopted budget has been reviewed by the City Council, which will also held a public hearing to receive citizen input. The Mayor and Council subsequently provided comments and recommendations pertaining to the budget to the Emergency Manager.

Background

The City of Flint has been in state receivership since December, 2011, as a result of consistent deficits in the General Fund, a decline in pooled cash, unrealistic budgeting, and unfunded liabilities for postemployment benefits. Significant progress has been made in addressing these financial issues, as the $19.1 million deficit at the end of FY12 had been reduced to $12.9 million at the end of FY13, cash position had improved, and the FY14 budget was realistically balanced, with further reduction of the deficit anticipated.

The FY14 budget was designed and implemented with the same goals in mind – operating within the constraints of available revenues; restructuring operations and cost factors to enhance future financial stability, and continuing to reduce the remaining $12.9 million deficit. The FY14 budget was constructed with the specific intent of further reducing the deficit by a minimum of $1 million, by budgeting expenses at $1 million less than projected revenues. As of January 31, 2014, seven months into the FY14 year, revenues and expenses are on target.

In order to regain and maintain financial solvency, it is not only necessary to eliminate the remaining accumulated deficit but to have an adequate amount of reserves to protect the City in the event of unexpected financial losses. Planning to accomplish this requires a continual dedication of revenues over the next several years to eliminate the remaining deficit and establish an adequate reserve level. A draft deficit elimination plan to accomplish this is currently under review by the Michigan Department of Treasury.

Making progress to date has required hard decisions and sacrifices for all. The FY13 and FY14 budgets were balanced through a mixture of significant revenue increases, significant expenditure decreases, and steps taken to reduce legacy costs. Revenue increase included a 25 percent increase in water and sewer rates, passage of a 6 mill property tax increase for police and fire, establishment of a special assessment district for street lighting, and implementation of a fee sufficient to cover the cost of waste collection. Expenditure reductions included elimination of 20 percent of the City's workforce, compensation decreases equivalent to a 20 percent wage reduction for remaining employees, and the restructuring of health and retirement benefits for current employees and retirees necessary to develop a credibly balanced spending plan.

The actions taken to-date to restructure healthcare benefits for current employees and retirees have also had a significant impact on reducing both current costs and long-term liabilities. The 20% reduction in the workforce required significant reorganizational activities focused on reducing current costs. Long term liabilities were reduced by eliminating traditional defined benefit pension programs for new employees in favor of hybrid plans; by moving the City's retirement system into the a state wide retirement system; by restructuring health insurance benefits for current employees and placing retirees into those same plans; and by eliminating the promise of retiree health care for new employees in favor of providing retiree medical savings accounts. Much of the positive financial result in FY13 came from these actions. The restructuring, which was implemented during the course of FY12, reduced the City's OPEB liabilities alone from nearly $900 million to less than $325 million as noted in the FY13 audit.

The efforts of the City to regain financial solvency have been aided by support from numerous Federal, State and private partners. State police troopers have been placed in the City to support local law enforcement efforts, and funds have been allocated to enhance prosecution activities and to operate the City's lock up. The Governor's proposed budget continues this support.

The steps taken to begin to restore the City to financial solvency have not been without conflict and changing circumstances. A significant legal challenge has been made to the decision to move retirees from their historical health insurance plans into the same plans offered current employees. This action resulted in an initial cost reduction in FY13 of $3.5 million to the City and imposed deductibles and co-pays on retirees. This challenge is currently pending in federal court. If the challenge is ultimately upheld, it will pose a significant challenge to the City in its efforts to regain and maintain financial and service solvency. Due to the stay imposed by the federal court, the City must increase its budget for retiree healthcare costs in the FY15 budget by $5 million and may even need to pay more as retirees seek reimbursement for past medical expenses. These healthcare expenses will continue to increase in subsequent years.

Legacy costs in total will continue to be a cost burden to the City of Flint. In FY 14, the City budgeted $30.2 million for its retiree healthcare and pension costs, an amount equal to 17% of its total revenues. The General Fund alone budgeted $16.4 million, an amount equal to 31% of its total revenues. By FY19, it is projected that the City will need to budget over $43 million, an amount equal to 23% of its total revenues. For the General Fund alone, the amount projected to be needed will exceed $21 million, an amount equal to 34% of General Fund revenues.
